RE: Government Resources Accelerating Needed Transformation (GRANT) Program of 2024

Dear Senator McDaniel and Representative Petrie:

Pursuant to KRS 154.14, the Cabinet for Economic Development is required to submit a monthly report to the Interim Joint Committee on Appropriations and Revenue and the Governor about each match applicant for the Government Resources Accelerating Needed Transformation (GRANT) Program of 2024.

The GRANT Program of 2024 monthly report for the period from October 1, 2024 through October 31, 2024 along with the following data is attached as follows:

- Detailed report of applicants approved for obligated funds
- Individual project reports for each approved application
- Detailed report of applicants denied

Please contact me at (502) 782-1987 if there are any questions regarding this report.

Sincerely,

A handwritten signature in blue ink that reads "Katie Smith".

Katie Smith
Deputy Secretary & Commissioner
Department for Financial Services

cc: Jennifer Hays, LRC
Matthew Wingate

Project Information

Project Title: South Perry Elementary School Sewer Extension
Location (city): Hazard **Location (county):** Perry
Regional Project? No **Participating counties:** Perry
Priority Community? Yes
Estimated Begin Date: August 1, 2025 **Estimated End Date:** July 31, 2026

Project Description: The South Perry Elementary School Sewer Extension Project will extend public sewer service to the proposed site for the new South Perry Elementary School. The project scope will include 15,000 linear feet of 4" HDPE Force Main, 300 linear feet of 4" HDPE railroad bore, 100 linear feet of highway bore, 300 linear feet of service line, one Duplex Grinder System, telemetry, and a Main Line Pump Station with odor control. This project will provide sanitary sewer service to the new school as well as 17 other businesses and approximately 40 households. The proposed project will improve public health outcomes through better sanitation practices. The environmental benefits include reducing pollution and protecting Perry County's natural resources.

Eligible Uses to occur at the Project:

- Enhance economic vitality, including revitalization of structures with a public purpose or benefit
- Improve traditional infrastructure
- Provide facilities and activities for local residents that enhance quality of life
- Other - Provide public infrastructure for new elementary school

Project Information

Project Title: UofL Health Taylorsville Health Center **FI Number:** 119903
Location (city): Taylorsville **Location (county):** Spencer
Regional Project? No **Participating counties:**
Priority Community? No
Estimated Begin Date: June 1, 2024 **Estimated End Date:** December 31, 2026
Project Description: The proposed project would include adding an urgent care clinic to an existing Taylorsville pharmacy, expanding the space to include twelve exam rooms, three provider offices, a waiting room, and an x-ray room. Roughly three quarters of Spencer County and Taylorsville residents are low to moderate income households. This space would provide necessary operating space for UofL Health as well as create a direct resources for healthcare needs of Taylorsville and Spencer County residents.

Eligible Uses to occur at the Project:

- Enhance economic vitality, including revitalization of structures with a public purpose or benefit
- Preserve or enhance buildings that are of local historic or economic interest
- Provide facilities and activities for local residents that enhance quality of life
- Provide critical spaces to address rural healthcare needs

Match Funding Required by Federal Program: Yes **% Required:** 20%
\$ Required: \$928,150

Project Information

Project Title: Vicco Sewer Rehab Ph 2 **FI Number:** 119098
Location (city): Vicco **Location (county):** Perry
Regional Project? No **Participating counties:** Perry
Priority Community? Yes
Estimated Begin Date: September 1, 2025 **Estimated End Date:** August 31, 2026

Project Description: The Vicco Sewer Rehab Phase 2 project will replace the existing failing collection system that is comprised of 16,000 linear feet of 8" and 6" Vitrified Clay Pipe (VCP) gravity sewers, supported by 3 pump stations. The collection system also includes about 60 manholes; however, 30% of these are either inaccessible, buried, or have uncertain locations. Upgrades to the three pump stations will include new pumps, the installation of VFDs and SCADA control systems, the replacement of wet well components, and microbial protection measures. This project will help address an agreed order related to sanitary discharge issues by significantly reducing the amount of inflow and infiltration that the Wastewater Treatment Plant currently handles. By reducing excess water flow into the system, the project will not only alleviate the burden on the WWTP but also minimize wear and tear on the lift stations and other critical infrastructure. Ultimately, this effort will enhance the reliability and efficiency of the entire sewer system, improving service for 123 customers connected to the Vicco sewer network.

Eligible Uses to occur at the Project:

- Enhance economic vitality, including revitalization of structures with a public purpose or benefit
- Improve traditional infrastructure
- Provide facilities and activities for local residents that enhance quality of life
