## Kentucky Employees' Health Plan – Status Report

4th Quarter, 2025

Page 3

### 1. Current Trust Fund Balance:

As of December 31st, 2025, the balance of the self-insurance trust fund was \$21,561,565.77 which includes **accounting for the 2021–2025 plan years**, including reserves for Healthcare Reimbursement Arrangements (HRA) and Flexible Spending Accounts (FSA). Along with the detailed transactions, summary reports for each plan year, as well as a combined summary, have been provided.

### 2-5. Detailed Description of Trust Fund Transactions:

Detailed transactions of the trust fund are contained in **Attachment A**. Monthly detailed transaction reports have been provided to the Legislative Research Commission. A month-by-month summary of the trust fund accounting by premiums, interest income, drug rebates, claims, and ASO fees is included as **Attachment B**.

### 6. Current Enrollment Data:

A chart detailing the number of plan holders and the number of dependents covered under the plan is included as **Attachment C**. The totals shown reflect the same information as provided in the previous report, updated to include the most recent quarter's data.

### 7. Additional Information Provided by the Secretary of the Personnel Cabinet:

No additional information has been requested for inclusion in this report.

### 8. Additional Information as Requested by the Committee:

No additional information has been requested by the Committee for inclusion in this report.

### 9. Additional reports provided for Second and Fourth quarter reports:

#### a. A projection of medical claims incurred but not reported that are considered liabilities to the trust fund:

KEHP's actuarial consultant, Aon, has compiled a statement of medical claims incurred but not yet reported (IBNR). This report is included as **Attachment D**.

#### b. A statement of any other trust fund liabilities:

A statement of other trust fund liabilities for the fiscal year ending June 30th, 2025, was filed with the annual financial statement for the Kentucky Employees' Health Plan.

#### c. A detailed calculation of premium rates including base claims, trend assumptions, administrative fees and any benefit and plan changes:

As required by KRS 18A.2254(1)(a), premium rates for the 2025 Plan Year were set forth in the 2025 KEHP Benefits Selection Guide, which was filed as a part of and appended to 101 KAR 2:210 on September 15, 2020.

**d. A detailed description of the current in-state and out-of-state networks provided under the plan:**

Due to the addition of new providers and termination of established providers, provider networks change on a continuous basis and printed directories are often obsolete. As a result, KEHP's Medical Third Party Administrator (TPA) Anthem advocates the use of their on-line provider directories, and updates them at least weekly. The link to Anthem's Find A Doctor provides the capability to search for a provider based on provider type and location. Anthem's dedicated KEHP Customer Service Center can provide additional assistance in locating a participating provider by calling 1-844-402-KEHP (5347). As of the date of this report, notwithstanding normal provider contracting activities, there are no proposed network changes.

**e. Specific data regarding the TPA and program administrator performance, including:**

**i. Results or outcomes of disease management and wellness programs, case management audits, and member communication and education:**

**Attachment E** contains results and outcomes based on engagement in the numerous disease management and wellness programs offered by KEHP. Our disease management provider, Anthem aggregates the information for this report.

**ii. Attachment E** also details the education, engagement, and communications efforts undertaken by the Department of Employee Insurance in administering the KEHP on behalf of the Personnel Cabinet.

**iii. Comparison of actual measurable results to contract performance guarantees:**

A listing of operational performance guarantees of KEHP's Third Party Administrator, Anthem, are included as **Attachment F**. Anthem met all Performance Guarantee for the year.

Contract performance results of KEHP's Pharmacy Benefits Manager (PBM), CVS Caremark, are included in this report as **Attachment G**. CVS met all performance guarantees for the year.

Contract performance results of KEHP's HRA/FSA/COBRA Benefits Manager, HealthEquity, (formerly known as WageWorks) are included in this report as **Attachment H**. HealthEquity's met all performance guarantees for the 4th quarter.

A listing of operational performance guarantees of KEHP's in-person wellness programming support, WebMD, are included in this report as **Attachment I**. WebMD met all performance guarantees for the year.

## EXECUTIVE SUMMARY

Aon has conducted an actuarial valuation of the incurred, but not paid, claims as of December 31, 2025, for the medical and prescription drug benefits provided by Kentucky Employees' Health Plan (KEHP) and administered through Humana and Express Scripts (ESI) prior to 2015. Beginning from 2015, medical and prescription drug benefits are administered through Anthem and Caremark.

The results show a projected total reserve of approximately \$158.0 million. This figure includes \$7.6 million as an explicit provision for adverse experience. Claims that have been processed and paid, and invoiced to KEHP but not yet paid are excluded from these actuarial estimates, though this may represent an additional liability outside the scope of this actuarial review. The estimates provided also exclude unallocated amounts, which are believed to be immaterial to the Plan.

The details of the Unpaid Claim Reserve are shown in separate exhibits for Medical, Pharmacy, CDHP Health Reimbursement Arrangement (HRA) and the Waiver Credit HRA.

The traditional actuarial loss developmental method and Bornhuetter-Ferguson method were the basis of our calculation. The loss development uses historical paid claims information by incurred date. This method is consistent with reserve calculations within the industry, and best reflects the impact on claim payment patterns and accounts for the cyclical nature of the Plan's claims.

In accordance with GASB 10, to the extent that future billed premiums for the 2025 plan year are not sufficient to cover future incurred claims and administrative fees for the 2025 plan year, a "premium deficiency reserve" (PDR) in the amount of the difference should be estimated. As the Commonwealth's plan year end is December 31, 2025, there are no longer any "future" claims, admin fees, or premiums relate to the 2025 plan year. Therefore, there is no estimated premium deficiency reserve as of December 31, 2025.

Also included in this report are the actual Rx rebates paid from January 1, 2022 to September 30, 2025 and the estimated Rx rebate from October 1, 2025 to December 31, 2025.

The results mentioned above are contingent upon future events. Consequently, actual results will differ from projected results. These deviations may be material. KEHP staff should monitor emerging experience and take appropriate actions as required.

**ACTUARIAL CERTIFICATION  
STATEMENT OF OPINION**

Aon has been retained by the Commonwealth of Kentucky to study the actuarial reserves for incurred but not paid claims as of December 31, 2025, for the medical and prescription drug benefits provided by Kentucky Employees' Health Plan. I am employed by Aon. I am a Member of the Society of Actuaries and am qualified by education and experience to make the statements of actuarial opinion contained herein.

In performing our reserve study, we have relied upon reports and information provided by Merative, the carriers and The Commonwealth of Kentucky. We have not audited this data beyond general tests for reasonableness. The results are our best estimate of incurred but unpaid claims with explicit margins for adverse deviation. The techniques and methodology used are reasonable and in accordance with generally accepted actuarial principles and practice.

## DATA AND ASSUMPTIONS

Commonwealth of Kentucky Medical and Pharmacy benefits are administered through Anthem and Caremark beginning from 2015. Below is all data source we have used:

- Monthly enrollment provided by Merative.
- Transactional and eligibility data was provided by KEHP.
- Medical and Pharmacy claims incurred from January 1, 2022 to December 31, 2025 provided by Anthem and Caremark.

No adjustment for interest was used in this analysis. Anthem and Caremark don't charge administrative fees for processing run-out claims so no administrative fee reserve is required.

## METHODOLOGY

The unpaid claim liability (UCL), also called the incurred but not reported (IBNR) reserve, at a specified date is essentially the estimated claims incurred up to that date less the claims that have been (incurred and) paid to that date. Since the incurred and paid claims are known, the UCL is easily determined once the incurred claims have been estimated.

The traditional loss development method uses historical claim payment patterns to develop completion factors that are used to estimate incurred claims. The claims incurred in a given month and paid by the end of the experience period are divided by the completion factor to estimate the incurred claims for that month. The UCL for that month is subsequently determined by subtracting the known incurred and paid claims from the estimated incurred claims. The total UCL is merely the sum of all the appropriate monthly UCL estimates.

This method is relatively easy to understand and is effective when the historical claim payment patterns are deemed to be stable enough to estimate current/future claim payment patterns and when several months of claim payments (run-out) after the incurred month are available. When the run-out for any month is limited, this month is called immature and the associated completion factor is significantly less than one. The resulting incurred claim estimate is unstable. Consequently, a secondary method has traditionally been used to estimate the immature months.

The secondary method for health claims is often an average of historical incurred claims adjusted for claim trend and enrollment between the historical period and the time of interest. One of the shortcomings of this secondary method is that the available claim payment information for the month being estimated is not used. Another problem is that the line of demarcation between mature months and immature months is as much art as science.

The Bornhuetter-Furgeson Method (BFM) addresses both of these issues by blending the loss development method and the secondary method. The BFM uses the available incurred and paid data and the expected UCL developed from the secondary method to estimate incurred claims. This method generally provides a more stable estimate than the pure loss development method, a more responsive estimate than the secondary method, and a reasonable technique for blending the results of both methods.

Using the BFM with claims paid through December 31, 2025, the resulting UCL for December 31, 2025 was approximately \$150.4 million. In addition, an explicit margin for adverse deviation of 5.0% of claims unpaid on December 31, 2025 has been used.

**RESULTS**

The result of our reserve analysis shows the following components of our December 31, 2025 reserve for the Kentucky Employees' Health Plan. .
