Required Communications

Statement on Auditing Standards AU-C 260 requires the auditor to provide those charged with governance with additional information regarding the scope and results of the audit that may assist them in overseeing management's financial reporting and disclosure process. For purposes of this statement "those charged with governance" means the person(s) with responsibility for overseeing the strategic direction of the entity and the obligations related to the accountability of the entity, which includes overseeing the financial reporting process. We have identified the Kentucky Reclamation Guaranty Fund members as individuals charged with governance. As permitted by auditing standards, we are providing communications to a representative of this group of individuals, which we have determined to be the Board Chair, and are also providing copies of the letter to the Kentucky Reclamation Guaranty Fund's management.

Our Responsibility in Relation to the Financial Statement Audit

As communicated in our engagement letter dated May 7, 2020, our responsibility, as described by professional standards, is to form and express an opinion about whether the financial statements that have been prepared by management with your oversight are presented fairly, in all material respects, in accordance with the modified cash basis of accounting. Our audit of the financial statements does not relieve you or management of your respective responsibilities.

Our responsibility, as prescribed by professional standards, is to plan and perform our audit to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, as part of our audit, we considered the internal control of KRGF solely for the purpose of determining our audit procedures and not to provide any assurance concerning such internal control.

We are also responsible for communicating significant matters related to the audit that are, in our professional judgment, relevant to your responsibilities in overseeing the financial reporting process. However, we are not required to design procedures for the purpose of identifying other matters to communicate to you.

We are required to communicate to those charged with governance significant audit findings that may be useful in overseeing the Kentucky Reclamation Guaranty Fund's operations. No significant deficiencies in internal control were noted during the Kentucky Reclamation Guaranty Fund's audit.

Our responsibility also includes communicating to you any information which we believe is a material misstatement of fact. Nothing came to our attention that caused us to believe that such information, or its manner of presentation, is materially inconsistent with the information, or manner of its presentation, appearing in the financial statements.

Planned Scope and Timing of Audit

We conducted our audit consistent with the planned scope and timing we previously communicated to you. As mentioned above, the scope of our audit consisted of the basic financial statements of the Kentucky Reclamation Guaranty Fund.

The specific elements covered during our audit of the Kentucky Reclamation Guaranty Fund's financial statements took into consideration the concepts of materiality and risk of material misstatement. As opposed to only relying on dollar thresholds for scope decisions, our audit considered specific items that were deemed to be individually material either qualitatively or quantitatively, and also considered specific risk factors that came to light in gaining an understanding of the Kentucky Reclamation Guaranty Fund. During the execution of the audit, additional risk factors were considered as they became known.

The determination of specific elements within our scope impacted the timing of procedures. Riskier areas are tested closer to the balance sheet date, whereas certain areas permit the reliance on internal controls and testing of transactions performed throughout the year.

Compliance with All Ethics Requirements Regarding Independence

The engagement team for this engagement and others in our agency has complied with all relevant ethical requirements regarding independence.

Qualitative Aspects of the Entity's Significant Accounting Practices

Significant Accounting Practices

Management has the responsibility to select and use appropriate accounting policies. A summary of the significant accounting policies adopted by the Kentucky Reclamation Guaranty Fund is included in Note 2 to the financial statements. There has been no initial selection of accounting policies and no changes in significant accounting policies or their application during fiscal year 2020. No matters have come to our attention that would require us, under professional standards, to inform you about (1) the methods used to account for significant unusual transactions and (2) the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus.

Significant Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ markedly from management's current judgments.

We evaluated the key factors and assumptions used to develop any accounting estimates, where applicable, and determined that the estimates used are reasonable in relation to the basic financial statements taken as a whole.

Qualitative Aspects of the Entity's Significant Accounting Practices (Continued)

Financial Statement Disclosures

Certain financial statement disclosures involve significant judgment and are particularly sensitive because of their significance to financial statement users. We believe the financial statement disclosures affecting Kentucky Reclamation Guaranty Fund's financial statements are sufficient, consistent, and generally acceptable.

Identified or Suspected Fraud

We did not identify or obtain any information that indicates fraud may have occurred or be suspected.

Significant Difficulties Encountered During the Audit

We are required to inform those charged with governance of any significant difficulties encountered during the audit, including significant delays in obtaining information, extensive unexpected effort required to obtain sufficient appropriate audit evidence, the unavailability of expected information, and other matters.

The employees and management of Kentucky Reclamation Guaranty Fund's provided the auditors with appropriate, timely documentation, and made time available to assist auditors in the performance of audit procedures. The auditors appreciate all of the time and assistance provided to them during the conduct of the audit.

Uncorrected and Corrected Misstatements

For purposes of this communication, professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that the auditor believes are trivial, and communicate them to the appropriate level of management. Further, professional standards require us to also communicate the effect of uncorrected misstatements related to prior periods on the relevant classes of transactions, account balances or disclosures, and the financial statements as a whole. Based on our audit, no misstatements were presented to management for consideration.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter, which could be significant to the Kentucky Reclamation Guaranty Fund's financial statements or the auditor's report. There were no disagreements with management about matters that could be significant to the financial statements or our report thereon.

Representations Requested from Management

We have requested certain written representations from management, which are included in the attached management representation letter, dated September 29, 2020.

Management's Consultations with Other Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters. Management informed us that, and to our knowledge, there were no consultations with other accountants regarding auditing and accounting matters.

Other Significant Matters, Findings or Issues

In the normal course of our professional association with the Kentucky Reclamation Guaranty Fund, we generally discuss a variety of matters, including the application of accounting principles and auditing standards, business conditions affecting the entity, and business plans and strategies that may affect the risks of material misstatement. None of the matters discussed resulted in a condition affecting our retention as Kentucky Reclamation Guaranty Fund auditors.
