REQUIRED DATA FIELDS

Before the cabinet/agency contact can submit the completed agency plan to CPAB, the system will run a series of checks to ensure that all required data fields have been completed. If the agency has indicated on its Plan Checklist that since submission of the agency’s last capital plan, there have been changes in the agency’s occupancy of state-owned property (land and/or facilities) managed/administered by another state agency, *its capital plan will not be submitted electronically until Form SYP-B4c is completed.*
