Facts to Keep in Mind:

I in 54: The incidence of autism according to the Centers for Disease Control.

82,735: Estimated number of people who are diagnosed with autism in Kentucky.

\$3.5-5 million

The lifetime costs for individuals diagnosed with autism.

30%

Families who have children diagnosed with autism earn 30% less than other families.

\$50,000

Individual therapy costs per year for children with autism who are under 8 years old.

According to Autism Speaks the majority of costs for autism supports in the U.S. are for adult services. This is an estimated cost of \$175 to \$196 billion a year for adults, compared to \$61 to \$66 billion a year for children.

"There will be 500,000 adults on the autism spectrum aging into adulthood over the next 10 years. Yet 85% of college graduates affected by autism are unemployed, compared to the national unemployment rate of 4.5%."
