Dear Secretary Johnson:

The Department of Fish and Wildlife Resources is reporting a Fees-in-Lieu-Of (FILO) Stream Mitigation project entitled, "FILO-Ross Creek," identified as fund number C64C. Funding for the construction phase of the project increases the total project budget to \$4,538,760, which constitutes a major capital project funded from an appropriated pool. Accordingly, we wish to report this to the Capital Projects and Bond Oversight Committee. The initial purchase of the property was reported to the Committee in February 2013. This revised amount includes the total project costs: administrative fees, property acquisition, design construction and monitoring.

The U.S. Army Corps of Engineers, which governs the FILO program, authorized the project to restore and permanently protect 20,715 linear feet of Ross Creek in the FILO Upper Kentucky River Service Area.

Please contact Mike Hardin at 892-4471 (mike.hardin@ky.gov) or Rob Lewis 892-5277 (rob.lewis@ky.gov) if you have any questions or need additional information.

Sincerely,

Rich Storm, Commissioner
