### INVESTMENT GRADE RATINGS

Ratings reflect a credit rating agency's opinion of a state's creditworthiness relative to other borrowers in the financial markets. Ratings below Baa3/BBB-/BBB- are considered speculative credits ("junk bonds").

The rating agencies also assign "positive," "stable," and "negative" outlooks to their ratings to indicate the direction the rating is likely to move over an intermediate time period. The outlooks represent trends affecting a credit which have not reached a level warranting a change in a state's credit rating, but may if continued. A negative outlook indicates a higher likelihood of a downgrade in a state's credit rating while a positive outlook indicates a higher likelihood of an upgrade in a state's credit rating.
