### Legislation Passed by the General Assembly is Making an Important Impact

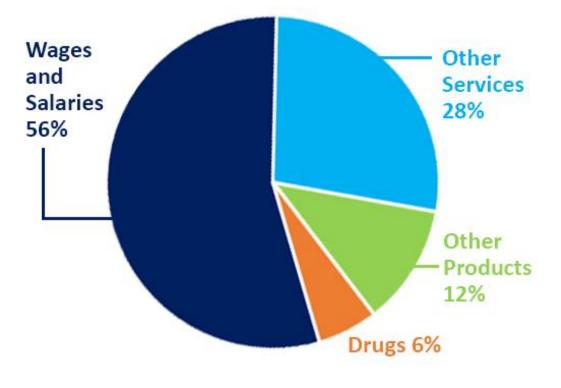

- Inpatient Medicaid Hospital Rate Improvement Program (HRIP)
  - Passed by the legislature in 2019
  - NO COST to the State
  - Program subject to annual approval from CMS
  - Hospitals receive a supplemental payment for each inpatient Medicaid claim
    - 80% federal funds, 20% state funds from an assessment paid by the hospitals
    - Hospitals must meet certain quality metrics
  - Has kept many hospitals afloat due to COVID losses, staffing costs, and inflation
- Credentialing Alliance Being Implemented
  - August, 2022 Credentialing for the largest three Medicaid MCOs
    - Aetna, Wellcare, Passport by Molina

# Many factors affect the cost of care.

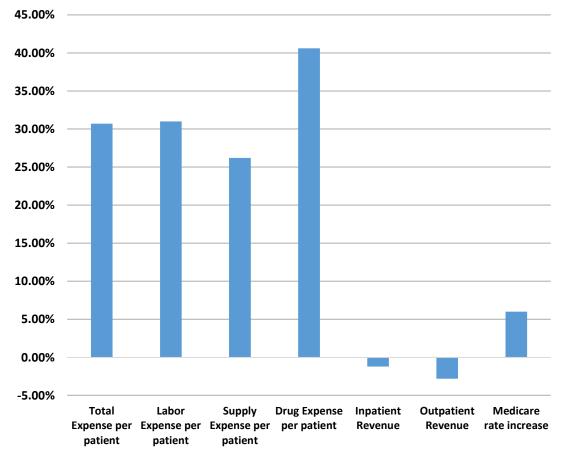

Employee wages and benefits constitutes the largest percentage of costs for inpatient hospital services.

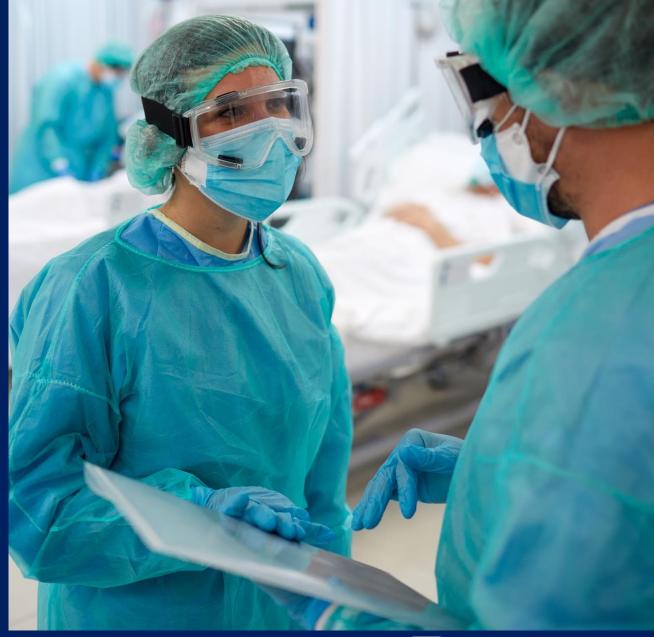

#### Hospital expense increases are NOT sustainable

Costs and Revenues Pre and Post Pandemic in US Hospitals Feb 2020 - Feb 2022

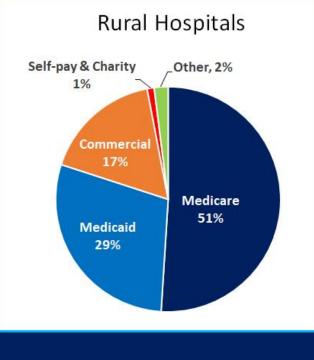

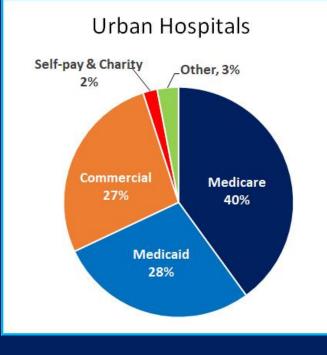

Source: Kaufmann Hall National Flash Report, March 2022; Hospital Cost Reports

## **Hospitals Simply Can't Raise Prices**

- 70 80% of hospital patients are governmental
  - Medicare pays 90% of Cost
  - Medicaid pays 95% of Medicare (85% of cost)
  - Governmental payment rates are NON-NEGOTIABLE
- Rural hospitals have fewer commercial and more Medicare and Medicaid patients

#### Cost Increases Can't all be Passed on to Private Insurers

• Two commercial plans cover 80% of enrollees

## The Outlook is Grim for Hospital Finances

#### According to a national report:

- April marked the fourth straight month of negative median margins this year for hospitals across the country – this does not bode well for the remainder of 2022
- Volumes remained low but patients are sicker and more expensive to treat
- Labor shortages have not eased, keeping costs high, along with supply shortages and inflation

Source: Kaufmann Hall, National Flash Report, May 2022

# Silver Lining

#### An Outpatient HRIP program is needed

#### <u>NO COST to the State</u>

- Infrastructure already in place
- Will particularly assist rural hospitals
- Will be tied to quality outcomes
- Must be federally approved
