Richmond, KY 40476

December 2, 2020

Subject: Madison County Airport Board EKU Support

The Madison County Airport Board at its December meeting approved the following statement of support for Eastern Kentucky University:

The Madison County Airport Board is in support of the EKU proposal to pursue a Kentucky Revised Statute change that would:

- Permit a state university currently operating an aviation degree program and serving as an airport fixed-based operator to maintain two (2) seats on an eight (8) members local airport board.
- The university president would be tasked with appointing the university's two board members and the length of terms would not change from existing rules.
- Impacts only Central Kentucky Regional Airport. EKU is the only public university operating an aviation degree program in Kentucky, as well as the only public university serving as a fixed-based operator.

The implementation of this statute change must involve the local approval of an interlocal agreement between Berea, Richmond, and Madison County Fiscal Court governments and EKU.

This does not terminate any contracts or agreements currently in force and effect between EKU and the three government entities and The Madison County Airport Board.

Passed, December 1, 2020

George Wyatt, Chair
Madison County Airport Board
