# Memo

To: Tobacco Settlement Agreement Fund Oversight Committee

From: Brian Lacefield

Date: October 14, 2021

Re: KADF Meat Processor Update

The attached meat processor investment update was created by staff upon the request of the Meat Processing Expansion Committee.

The update provides an overview of the total investments made by KADB in the meat processing industry over the last 20 years, highlights beef equivalency data for the MPIP projects, and shows the geographical impact of these investments.

August 2021

The Kentucky Agriculture Development Board (KADB) and Kentucky Agricultural Finance Corporation (KAFC) have invested almost \$12 million in Kentucky's meat processing industry over the past 20 years. This update gives an overview of those investments as of August 1, 2021.

In the spring of 2020 the KADB established the Meat Processing Investment Program (MPIP) to expand Kentucky's beef, dairy, pork, lamb, sheep, goat and poultry processing capabilities. The MPIP was created in an effort to address the capacity issues in the supply chain that were brought to light by the coronavirus pandemic. In the fall of 2020 \$2 million in Kentucky's CARES Act funding was allocated to enhance the KADB's efforts to assist Kentucky meat processors and expand USDA certified processing facilities to increase meat supplies impacted by the coronavirus pandemic.

# KADB & KAFC Meat Processor Investments

State Loans	\$2,639,159
Forgivable Loans	\$5,731,508
State Grant Funds	\$667,351
County Grant Funds	\$924,800
CARES Funds	\$2,000,000
Total:	\$11,962,818

#### **Meat Processing Investment Program**

The KADF MPIP provides funding for meat processors who are currently or plan to become USDA certified to financially incentivize economical expansion of businesses to process Kentucky meat products.

MPIP Level 1: USDA-inspected processing facilities or USDA exempt poultry processing facilities needing assistance in operating costs related to increasing the number of head of Kentucky animals processed. The maximum award was \$20,000 per facility. b. Incentives were paid per head above baseline: \$100/cattle; \$50/hog; \$25/sheep, goat; \$1/poultry. (This Level is no longer available.)

#### **MPIP Investments**

1411 11 11140	Stillelits
Level 1	\$27,750
Level 2	\$414,045
Level 3	\$1,974,922
Level 4	\$2,146,139
County Funds	\$190,969
Total:	\$4,753,825

MPIP Level 2: Simplified Processor Capacity Expansion is focused on processors interested in making small or modest facility improvements, including equipment or renovations, which increase efficiencies. The maximum award is 50% of total project costs up to \$37,500 in state funds per facility.

MPIP Level 3: Large-Scale Processing Expansion is focused on processors interested in making extensive facility improvements. Processors must be USDA inspected or actively working to become USDA inspected. The maximum award is 50% of total project costs up to \$250,000 in state funds per facility.

MPIP Level 4: New Processing Facility Development is for those interested in starting a new meat processing facility, including purchase or construction of a facility. The maximum award is 50% of total project costs up to \$250,000 in state funds per facility. Applicants for Level 4 are required to request KADF county fund support from a minimum of five counties.

Any county fund contributions to an MPIP project are considered above and beyond the state fund limits and treated as cost-reimbursement grants. All state funds (except Level 1) are cost-reimbursement forgivable loans.
