Impact Story

The Kentucky Veteran honorably served on active duty and was discharged on November 2, 2011. The Veteran is currently separated and has two dependent children. They are in the process of pursuing a VA claim.

As of November 2025, the Veteran was employed full time as an Air Traffic Controller but was forced to leave employment in order to escape a domestic violence situation. To ensure their safety and the safety of their children, the Veteran relocated to a different area of Kentucky and is currently residing in safe housing away from the abusive spouse. A Temporary Protective Order is in effect.

The sudden relocation created a significant financial hardship, leaving the Veteran unable to cover first month's rent and the required security deposit for stable housing.

USA Cares provided assistance with the first month's rent, security deposit, and a food card to help stabilize the Veteran and their children during this transition and support their path toward long-term safety and stability.
