### 3. AUTHORIZED CHANGES (from the Block Grant Plan in Finances and/or Objectives)

The Deficit Reduction Act (DRA) of 2005 reauthorized the Temporary Assistance for Needy Families (TANF) program. The DRA required the Department of Health and Human Services (HHS) to issue regulations to do the following: define the activities that are countable toward the work participation rate requirements; define which cases contain a parent are included in the work participation rate calculation; and describe how states must document, verify, and monitor hours of participation. On June 29, 2006, the Administration for Children and Families (ACF) published an interim final rule implementing key provisions of the DRA effective October 1, 2006. The final rule addressing provisions of the DRA was published February 5, 2008. Changes from the interim rule were effective October 1, 2008.

The Consolidated Appropriations Act for 2016 extended TANF through February 8, 2018. The Consolidated Appropriations Act for FY 2017 extended TANF through FY 2018, which ended September 30, 2018.

### **4. EVALUATION OF RESULTS**

The monthly average of KTAP families for the months of June 2020 through November 2020 was obtained by averaging the total number of cases (families) during this time period. The number of KTAP adults and children was computed in the same manner. Not all cases contain an adult member. During this period, there was a monthly average of 7,888 child only KTAP cases that did not contain an adult member in the case. The number of KTAP families and recipients who received assistance was obtained from the PA-264 reports for June 2020 through November 2020.

Information regarding participation in the Kentucky Works Program and receipt of supportive services was obtained from reports taken from the Online Tracking Information System (OTIS). The number and type of cases discontinued were based on reason entries on Worker Portal (IEES) systems, including cases discontinued for exceeding the income limits due to earnings, receipt of or increase in earnings, and the removal of time limited deductions. The numbers for child care were obtained by averaging the total number of children who received assistance funded with TANF during this time period. The number of families who received Relocation Assistance during this time period was obtained from the OTIS and Worker Portal systems and averaged for this time period.

### **5. ALTERNATIVES FOR IMPROVED SERVICE DELIVERY**

Special services were provided during this period of time to assist families in obtaining self-sufficiency or for the family to remain intact.

Effective April 2003, employment retention services were replaced with the Work Incentive Program (WIN). WIN is a reimbursement payment given to individuals who are employed and transitioning off of KTAP. The payment is provided to reimburse individuals for expenses incurred as a result of their employment such as transportation, special items needed to stay employed, etc. Eligible individuals may receive reimbursement payments of \$130 per month for up to nine (9) months. WIN is available to a family if the family includes an adult with wages who has been discontinued from KTAP on or after April 1, 2003. The family has to have an eligible child, be a resident of Kentucky, and have total gross income at or below 200 percent of the federal poverty level. Receipt of WIN reimbursement is limited to once in a lifetime. WIN is not available to a family if employment is obtained after the KTAP case is discontinued. The WIN program was developed as a result of findings from a Manpower Demonstration Research Corporation (MDRC) study indicating income supports are the most effective means to help individuals stay off welfare. During the period June 2020 through November 2020, an average of 103 individuals per month received WIN.

The Kinship Care (KC) program was created to offer an option to assist relatives in caring for a child who must be placed out of the child's home due to substantiated abuse or neglect. As of November 2020, there were 3,297 children in the Kinship Care program. Effective April 1, 2013, no new Kinship Care applications have been accepted. At the time of the KC moratorium in April 2013, there were 11,281 children receiving Kinship Care.

Special steps are taken to ensure KTAP recipients know about the 60-month lifetime limitation so they can take advantage of the Kentucky Works program. Up to 20% of the KTAP caseload may be exempted from time limitations due to hardship. As of November 2020, there were 69 families with extended benefits due to meeting a hardship

extension reason. During the time period of June 2020 through November 2020, there was a monthly average of 35 families discontinued due to reaching the 60 month time limit.

CHFS Protection & Permanency (P&P) staff visits KTAP families whose KTAP case has been discontinued due to time limitations to ensure children are safe and to identify any emergency needs. Safety Net services are available to a post-KTAP family who has lost cash assistance due to reaching the 60-month lifetime TANF limit, or had their KTAP case discontinued due to non-cooperation with the Kentucky Works Program. Safety Net services are funded through TANF and are available to families with income at or below 200 percent of the federal poverty level. Benefits are temporary and may be authorized up to a total of \$635 for four (4) months during a twelve month period. These benefits are used to meet basic needs such as shelter, food, clothing or utilities.
