FY 27 Lettings and Federal Grants Update

Jason Siwula, Executive Director, Project Development, Dept. of Highways, KYTC; Ron Rigney, Director, Transportation Engineering, Dept. of Highways, KYTC; and Susan Oatman, Transportation Engineer, Dept. of Highways, KYTC, provided an update of fiscal year 2027 lettings, including information on construction phase spending over the biennium as well as Federal Grants.

In response to Representative Branscum, Director Siwula said they have awarded more dollars for construction projects this year than during the same period of time last year. Representative Branscum expressed his concern that Kentucky road contracting work crews are moving their jobs to other states, sending their resources elsewhere.

In response to Co-Chair Douglas, Director Siwula said the Singing Bridge replacement project in Frankfort will be configured to the current standards.

In response to Representative Blanton, Director Siwula said truck parking spaces will be added to rest areas and the Department of Highways will follow-up with construction

needs. Representative Blanton expressed his concern that interstate highway rest areas are in need of adult changing stations.

In response to Representative Smith, Director Siwula said they begin programming projects ahead of time to facilitate the use of funds as they become available.

Representative Tackett Laferty expressed her appreciation for the recent bridge work and creation of a bypass in Floyd County. Director Siwula said the best way to check on lettings is to contact the local district office for updates.

In response to Chair Upchurch, Director Siwula said the dollars allocated to projects are based on the availability of cash on hand. Director Rigney added that the cash model has been and is a good process when kept current, and the KYTC constantly monitors it.

In response to Representative Blanton, Director Siwula said they are happy to have additional discussions as the budget development process progresses.
