

February 25, 2019

Members of the House:

As a leading advocate for the safety of motorists, AAA would like to thank Rep. Moser for introducing HB 441.

This measure would require vision testing for operator's license renewal and require the Transportation Cabinet to designate trained vision assessors who may perform vision testing and develop a system for electronic transmission of driver vision testing forms, among other considerations.

AAA recommends requiring visual acuity testing at the same frequency as in-person renewals and is therefore supportive of HB 441.

AAA asks for your support in moving this legislation forward to help assure motorist safety on Kentucky roadways.

Sincerely,

A handwritten signature in black ink that reads "Lori Weaver Hawkins".
