

KENTUCKY LIBERTY PAC

Impeach Beshear

Andy Beshear has attacked our Kentucky values throughout his tenure as governor.

He has banned church services. The 6th Federal Circuit ruled this violates the First Amendment in *Roberts v. Neace*.

He has banned travelling outside the state. A federal judge ruled this violates fundamental rights in *Roberts v. Neace*.

He has banned protest. The 6th Federal Circuit ruled this violates the First Amendment in *Ramsek v. Beshear*.

He has attacked small businesses. This has led to an unemployment crisis, more than 50% of black-owned businesses going out of business, and has only benefitted large corporations.

He has destroyed our children's education. This has increased an educational divide between rich and poor in education.

He has enacted arbitrary regulations, helping his friends and hurting his enemies.

Long story short, the lockdowns are arbitrary and a nightmare for civil liberties.

The governor must be removed for repeatedly violating our most basic rights.
