

PETITION FOR THE IMPEACHMENT OF GOVERNOR ANDREW BESHEAR

In light of the recent actions taken by Kentucky Governor Andy Beshear infringing on the rights of churchgoers, we feel that it is necessary for him to be impeached.

The Governor has powers during an emergency, but the measures that Governor Beshear has used are unconstitutional on many levels. The people of the Commonwealth deserve leadership that abides by constitutional law, not a dictator who uses executive powers he does not have.

For the good of our beloved Commonwealth, we request that the Kentucky General Assembly thoroughly review Governor Beshear's actions, and prosecute him as necessary.

Furthermore, we also believe Mr. Beshear should be charged with malfeasance for his actions as well. He has proven he is unable to perform his duties as Governor of Kentucky, and should be treated accordingly.
