Re: 902 KAR 45:190E. Hemp-derived cannabinoid products; packaging and labeling requirements.

Dear Co-Chairs Meredith and Moser:

Following the testimonies of Katelyn Wiard with the U.S. Hemp Roundtable and Jim Higdon, co-founder of Cornbread Hemp, before the Administrative Regulation Review Subcommittee regarding 902 KAR 45:190E, Hemp-derived cannabinoid products; packaging and labeling requirements, the Department for Public Health proposes the attached agency amendment to 902 KAR 45:190E. Changes to the administrative regulation include revising the definition of “infused” to remove the word “concentrate”, correcting the federally legal allowable amount of THC in products to 0.3% or less, lowering the ratio of cannabinoid to THC from twenty-five (25) to one (1) to fifteen (15) to one (1), and revising the labeling requirements.

Please feel free to contact Julie Brooks at the department at (502) 229-3377 if you have any questions about this administrative regulation.

Sincerely,

A handwritten signature in blue ink that reads "Lucie Estill".

Lucie Estill  
Staff Assistant  
Office of Legislative and Regulatory Affairs
