

KPCA is charged with promoting the mutual interests of our members, with a mission to promote access to comprehensive, community-oriented primary health care services for the underserved.

PURPOSE

KPCA will support the training of primary care physicians through the University of California Irvine (UC Irvine) Health - Training New Trainers (TNT) Primary Care Psychiatry (PCP) Fellowship program. The TNT PCP Fellowship program is a longitudinal, one-year learning experience that involves more than 50 hours of instruction and specialized mentorship. The curriculum includes two synchronous case-based, tele-education learning modules per month, two virtual weekend (4 total days) learning sessions per year, and at least one hour per month of small group mentoring sessions with a TNT PCP Fellowship faculty member. Additional specialized monthly “open office” mentorship sessions are available to learners at pre-scheduled times. Following completion of the TNT PCP Fellowship, graduates have access to synchronous and asynchronous CME learning sessions, including small group mentorship, at no additional cost, for the remainder of their career.

DELIVERABLES

University of California Irvine Health – Training New Trainers Primary Care Psychiatry Fellowship Program

1. Collaborate with UC Irvine to support up to eight (8) of (10) TNT PCP Fellowship participants with UC Irvine sponsoring two (2) participants.
2. Services by UC Irvine will include:
 - a. Conduct one (2) two weekend training sessions consisting of twenty-four (24) to forty-eight (48) hours.
 - b. Conduct one-hour small group, in person or teleconferenced teaching sessions with a TNT fellowship faculty member/mentor per month.
 - c. Conduct 2.25 hours of didactic teaching sessions per month.
 - d. Provide all necessary and applicable teaching materials.
 - e. Make all travel arrangements and hotel reservations for participants.
