

## 2023 General Assembly Acts Chapter 142 Time Frames

### KRS 7A.185

#### 2023 Upon Enactment:

(7) The purpose of the board is to:

(a) Review investment and funding strategies for projects to improve or modernize state agency information technology systems, including:

1. Legacy system projects and cybersecurity projects; and
2. The current and ongoing operation and maintenance of state agency information resources;

(b) Determine the appropriate organizational structure for deployment of technology across the Commonwealth; and

(c) Review the latest information technology developments trending across the nation.

### KRS 7A.190

2025 Mar 30 (or earlier)

(1) Not later than **July 30, 2025**, the board, in consultation with the Commonwealth Office of Technology, shall prescribe the form, contents, and manner of submission of the plan required under this section.

2025 Jul 30 (tentative draft)

(2) Each state agency shall submit the plan developed under this section to the:

- (a) Commonwealth Office of Technology; and
- (b) Board.

2025 Oct 1

(3) Not later than October 1, 2025, each state agency in the executive, legislative, and judicial branches of state government shall prepare an agency-wide plan outlining the manner in which the agency intends to transition its information technology and data-related services and capabilities into a modern, integrated, secure, and effective technological environment

2025 Dec 1

(4) (a) On or before December 1, 2025, and biennially thereafter, the board shall provide a written report to the Legislative Research Commission that identifies:

1. Existing and planned projects to improve or modernize state agency information technology systems; and
2. The method of funding for each project identified by the board.

(b) The written report to the Legislative Research Commission shall include:

1. A recommendation by the board of the estimated amount necessary to fully fund to completion each project identified by the board; and
2. Strategies developed by the board to ensure a long-term investment solution for projects to improve or modernize state agency information technology systems are in place, including strategies to:

- a. Access the full amount of federal moneys available for those projects; and
- b. Use information gathered by the department during previous projects to improve the management, oversight, and transparency of future projects.
