

Unlock the Full Potential of Every Public Dollar

CLASSWALLET

ClassWallet helps agencies ensure public funds reach the right people and are used for the right purpose.

The Reality

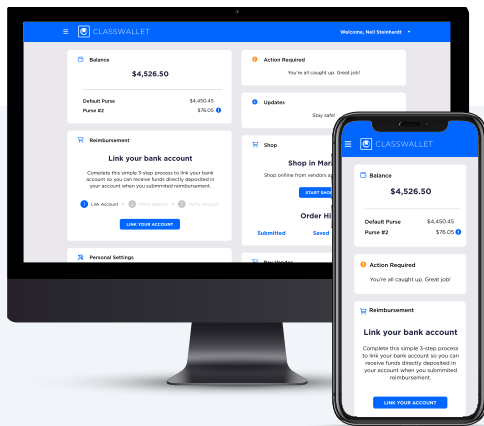

Managing public funds is complicated.

Public grant and subsidy programs generate billions of dollars in decentralized, individual expenses. It is a massive compliance challenge to ensure that every public dollar reaches the right individuals and organizations.

The Challenge

Inadequate technology compounds the challenge.

Existing financial technology and processes are not designed for the complexities of ensuring billions of decentralized, individual expenses meet program rules and regulations.

The Solution

Our purpose-built digital wallet platform simplifies compliance.

Our secure purchasing and reimbursement platform - tailored to your rules - allows beneficiaries to spend funds in a flexible, but controlled, manner. Administrators using ClassWallet's secure digital wallet technology can maintain oversight and ensure compliance is met on every single transaction.

Keep all of your stakeholders happy

Maximize the impact and satisfaction of public programs at a fraction of the time and cost.
