

# U.S. Economic Development Administration's FY25 Disaster Supplemental Program

## Nearly all Kentucky counties eligible for funding

The U.S. Economic Development Administration (EDA) is currently accepting applications for its FY25 Disaster Supplemental program, offering \$1.447 billion in funding to help communities recover from major disasters that occurred in 2023 and 2024 (including hurricanes, wildfires, tornadoes, and floods). Due to four qualifying disaster declarations across 2023 and 2024, 110 Kentucky counties are eligible for this funding cycle.

### Kentucky counties eligible for funding:

- |                |              |              |              |              |
|----------------|--------------|--------------|--------------|--------------|
| • Adair        | • Clinton    | • Harrison   | • Lyon       | • Perry      |
| • Allen        | • Crittenden | • Hart       | • Madison    | • Powell     |
| • Anderson     | • Cumberland | • Henderson  | • Magoffin   | • Pulaski    |
| • Ballard      | • Daviess    | • Henry      | • Marion     | • Robertson  |
| • Barren       | • Edmonson   | • Hickman    | • Marshall   | • Rockcastle |
| • Bath         | • Elliott    | • Hopkins    | • Martin     | • Rowan      |
| • Bell         | • Estill     | • Jackson    | • McCracken  | • Russell    |
| • Bourbon      | • Fayette    | • Jefferson  | • McCreary   | • Shelby     |
| • Boyle        | • Fleming    | • Jessamine  | • McLean     | • Simpson    |
| • Bracken      | • Floyd      | • Johnson    | • Meade      | • Spencer    |
| • Breathitt    | • Franklin   | • Knott      | • Menifee    | • Taylor     |
| • Breckinridge | • Fulton     | • Knox       | • Mercer     | • Todd       |
| • Bullitt      | • Gallatin   | • Larue      | • Metcalfe   | • Trigg      |
| • Butler       | • Garrard    | • Laurel     | • Monroe     | • Trimble    |
| • Caldwell     | • Grant      | • Lawrence   | • Montgomery | • Union      |
| • Calloway     | • Graves     | • Lee        | • Morgan     | • Warren     |
| • Carlisle     | • Grayson    | • Leslie     | • Muhlenberg | • Washington |
| • Carter       | • Green      | • Letcher    | • Nelson     | • Wayne      |
| • Casey        | • Greenup    | • Lewis      | • Nicholas   | • Webster    |
| • Christian    | • Hancock    | • Lincoln    | • Ohio       | • Whitley    |
| • Clark        | • Hardin     | • Livingston | • Owen       | • Wolfe      |
| • Clay         | • Harlan     | • Logan      | • Owsley     | • Woodford   |

### Application Period

Applications for the Readiness and Implementation Paths are accepted on a rolling basis until funds are exhausted or a new NOFO is released. The deadline for applications submitted under the Industry Transformation Path is 5pm ET on March 3, 2026.

*Because this is first-come, first-served funding, Kentucky organizations are encouraged to submit applications as soon as possible.*

**Award ceiling: \$50M**

**Award floor: \$0**

## Three Strategic Funding Pathways

### **Readiness – Non-construction projects to build capacity for future recovery**

Readiness Path projects are intended to help communities build the capacity needed to successfully plan and implement long-term economic recovery and development efforts. These projects focus on strengthening a community's ability to design, fund, and manage future initiatives. These grants support a wide range of activities that strengthen local capacity and readiness.

### **Implementation – Projects addressing post-disaster economic challenges**

Implementation Path grants support projects that strengthen a community's resilience to future disasters and restore or enhance critical public infrastructure impacted by past natural disasters. These grants aim to restore long-term economic activity, reduce future vulnerabilities, and accelerate economic diversification through strategic investments in key industries.

### **Industry Transformation – Large, multi-component initiatives to transform regional economies**

Industry Transformation Path grants are designed to accelerate the growth of emerging or existing industry clusters in eligible regions. Led by coalitions of regional partners, these projects aim to scale strategic industries, attract major private and public investment, and strengthen long-term economic resilience. EDA expects applicants to propose projects similar to those under the Implementation Path.
