

WHO WE ARE

Fahe's vast network of trusted relationships streamlines recovery efforts, ensuring communities get timely support. We partner with governments, housing developers, and local leaders to rebuild sustainably after disaster.

OUR WORK

We currently serve as the **Grants Management & Technical Advisor** to the KY Department for Local Government and partner with local governments to ensure CDBG-DR funds reach disaster-impacted families efficiently, equitably, and in full compliance.

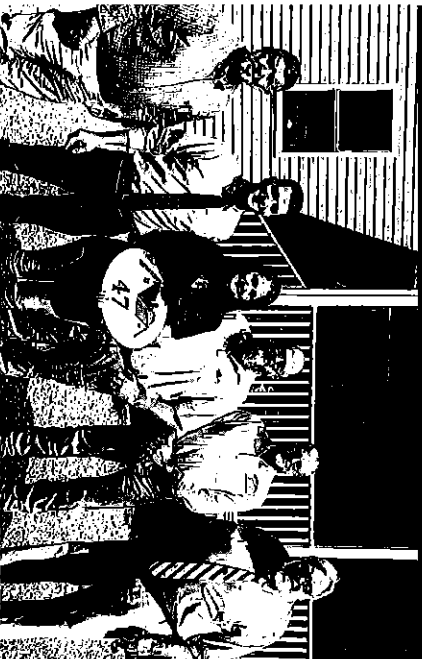

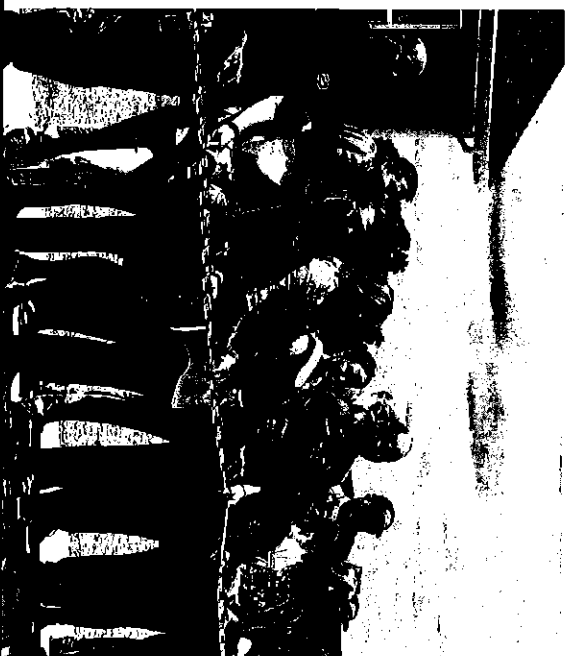

Services include:

- Project Development
 - Application Writing
 - Environmental Review
 - Program Implementation
 - Case Management
 - Construction Management
 - Technical Assistance
- Programs include:
- HUD CDBG-DR
 - FEMA HMGP (Buyouts)

With decades of experience, Fahe understands the unique challenges and opportunities that come with disaster recovery.

We empower communities to lead their own recovery, while we connect them with the resources and tools needed to create tailored, lasting solutions.

Funding is critical to recovery, and Fahe ensures it makes the greatest impact. We secure resources from federal and state programs, donors, and private funders, managing every dollar with care to rebuild housing, restore communities, and strengthen the foundation for a resilient future.
