\* Updated July 2014

“When we call come together and combine our resources, we can create effective, long-term change.”

## Key Insights Adapted for Kentucky

- KY is changing
- Our history shapes the landscape
- Health outcomes stem from root causes, shaped by systems
- Holistic approach to policy leads to greater health outcomes
- Health outcomes at younger ages impact health outcomes later in life
- Different groups face different challenges
- Improving health in KY requires changes to chronic disease outcomes
- Where you live matters to how long you can expect to live

# KEY RECOMMENDATIONS

---

Create interventions for root causes of health outcomes.

Increase and improve systems for data collection, data sharing and data analysis across all outcomes.

Interventions must happen at multiple levels - individual, interpersonal, organizational, community and policy- to have the biggest impact on health.
