* Manufacturers also offer free insulin through income-based patient assistance programs. For details and enrollment call the numbers above or:

- Visit getinsulin.org
- Use the Medicine Assistance Tool at mat.org
- Contact NeedyMeds at needymeds.org or 800-503-6897
- For Kentucky residents only, contact the Kentucky Prescription Assistance Program (KPAP) at 1-800-633-8100

² Lower list price versions of analog insulin products. Health plans and pharmacy benefit managers may not include lower list price insulins on their formularies. Insured people with diabetes will need to work with their prescriber and pharmacy to determine which product costs less using insurance or paying cash outside insurance. Pharmacies that do not currently have authorized generic or follow-on biologic products in stock can order from most national wholesalers for delivery in 1-3 business days.
