Senate Bill (SB) 90 Overview

This legislation provides an alternative to incarceration by allowing eligible defendants to receive treatment for substance use and/or behavioral health disorder.

Under this legislation, eligible defendants must be assessed as soon as possible (but within at least 72 hours) by a mental health specialist.

The program's goal is to divert defendants charged with certain **non-violent, non-sexual misdemeanors** and **Class D felonies** away from jail and into treatment for substance-use disorder(s) and/or mental-health issues.

Eligibility Criteria

- Kentucky resident and at least 18 years of age.
- Charged with a qualifying offense. (*Exclusions: violent offender, sex offense, DUI, domestic violence, or protective orders against victim*).
- Doesn't have a previous conviction for Class A, B, or C felony, or a Class D felony or misdemeanor that is not a qualifying offense;
- Assessed by Pretrial Services as low-risk for failure to appear, low-risk for new criminal activity; or prosecutor or defense attorney identifies defendant as a viable participant; and
- Clinical assessment determines defendant has a substance use and/or mental health disorder.

Behavioral Health Conditional Dismissal Program (BHCDP) Overview

If the defendant is determined to be eligible for the Behavioral Health Conditional Dismissal Program, the prosecutor can enter into an agreement with the defendant to participate.

The program provides an array of services such as outpatient or inpatient treatment, cognitive and behavioral therapies, education, vocational services, and housing assistance.

BHCDP is funded as follows:

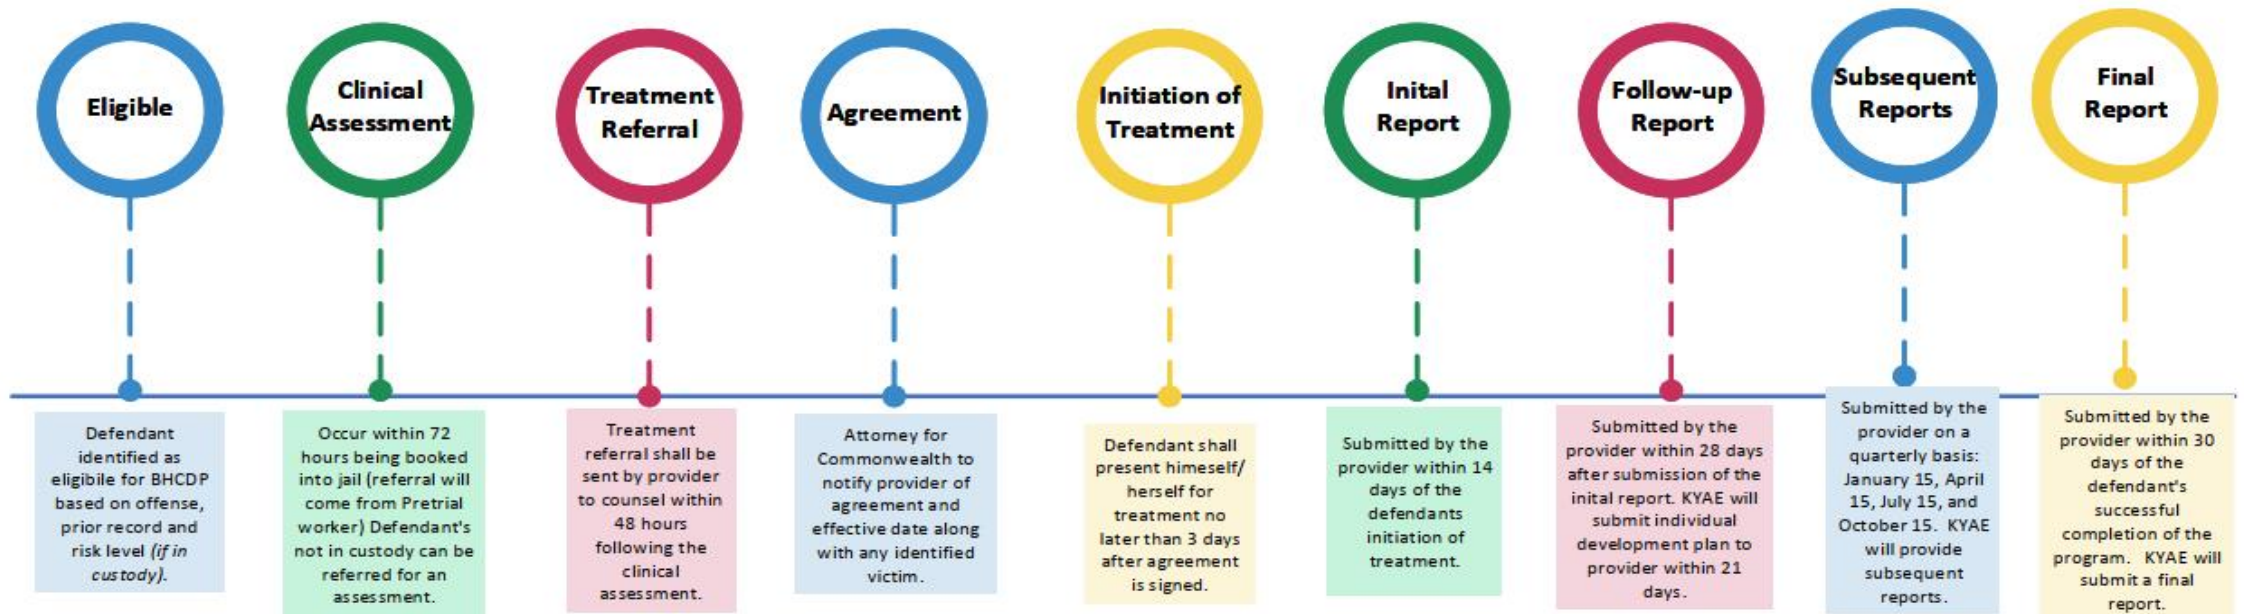

- Defendant's current health insurance (including Medicaid); or
- If uninsured, the Opioid Abatement Trust Fund - administered by the Department for Behavioral Health, Developmental and Intellectual Disabilities (DBHDID).
