REVIEWED BY

Unit 1 was traveling southbound on Interstate 65 around the 108-mile marker when the right front wheel came off the vehicle. The wheel crossed over the cable barrier, striking Unit 2 in the left front steer tire. The driver of Unit 1 pulled the vehicle into the right shoulder and fled the scene.

Unit 2 operator stated he was in the number 2 lane on Interstate 65 northbound around the 108-mile marker when a wheel and tire came from the southbound side and struck his front left steer tire. The operator stated he immediately lost control of the semi (he believed the wheel that struck him broke his tie rod). The semi pulled to the left, crossed the center median, crossed through the cable barriers and began to travel northbound in the southbound lane. Unit 2 operator stated the semi then laid over on its side and began to slide before coming to rest across all three lanes of travel.

During the collision, 45,000 pounds of powdered steel broke free from the trailer and spilled across all three lanes of travel. This resulted in a 9-hour closure of Interstate 65 southbound and caused a secondary collision with injuries.

An unknown witness stated they saw a black male exit from Unit 1, but they could not provide a clothing description or where the driver went after the collision.

Unit 1 had dash camera footage of the collision as well as another driver for Dowdy Transportation that was directly behind Unit 1 when the collision occurred.

General Description

Silver-white to gray malleable metal. Toxic as an oxide fume. Flammable and explosive as dust or fine particles suspended in air. Used in making steel and as a source of hydrogen by reaction with steam.

Hazards

Reactivity Alerts

Highly Flammable
Strong Reducing Agent
Water-Reactive

Air & Water Reactions

Highly flammable. React with water when heated to produce hydrogen, a flammable gas, and iron oxides.

Fire Hazard

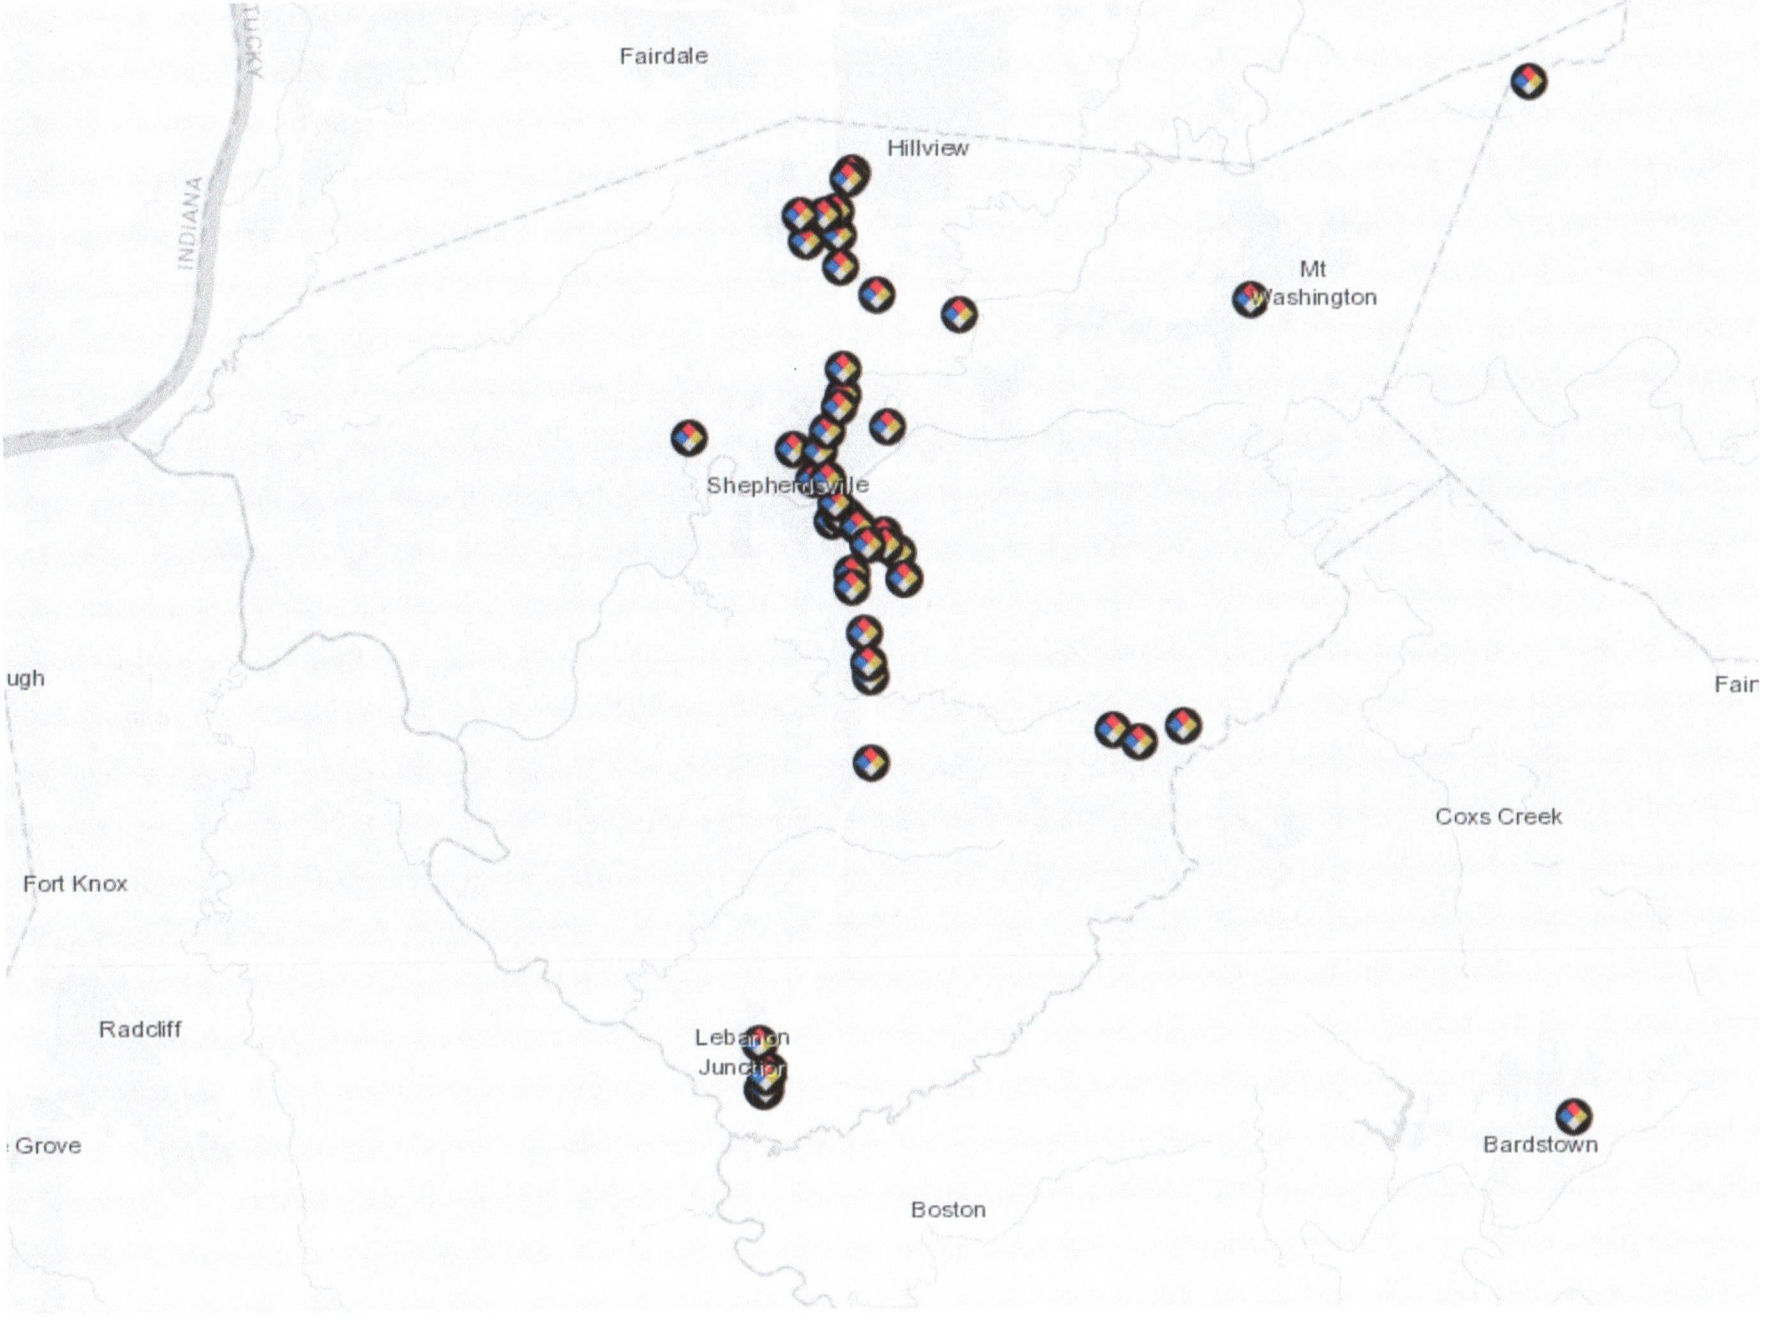

Excerpt from ERG Guide 170 [Metals (Powders, Dusts, Shavings, Borings, Turnings, or Cuttings, etc.)]:

May react violently or explosively on contact with water. Some are transported in flammable liquids. May be ignited by friction, heat, sparks or flames. Some of these materials will burn with intense heat. Dusts or fumes may form explosive mixtures in air. Containers may explode when heated. May re-ignite after fire is extinguished. (ERG, 2024)

Health Hazard

Excerpt from ERG Guide 170 [Metals (Powders, Dusts, Shavings, Borings, Turnings, or Cuttings, etc.)]:

Oxides from metallic fires are a severe health hazard. Inhalation or contact with substance or decomposition products may

COMMONWEALTH OF KENTUCKY
BULLITT COUNTY
ORDINANCE NO. 26-25

AN ORDINANCE ESTABLISHING A HAZARDOUS WASTE CLEAN UP BILLING SYSTEM IN BULLITT COUNTY, KENTUCKY

BE IT ORDAINED BY THE FISCAL COURT OF COUNTY OF BULLITT, COMMONWEALTH OF KENTUCKY:

SUMMARY

1. Sets forth the definitions.

2. Sets forth the responsibilities of the BCEMA Director.

3. Sets forth the requirement that handlers of hazardous materials who store said materials for more than thirty (30) days shall notify the Director.

4. Sets forth the responsibilities of the hazardous materials handlers.

5. Sets forth that BCEMA is authorized to respond to and abate the effects of released or threatened to be released hazardous materials to minimize potential harm.

6. Sets forth that BCEMA may recover costs expended, including, but not limited to, personnel costs of the BCEMA and other dispatched emergency workers responding to the release or threatened release, replacement costs of supplies and equipment contaminated as a result of the incident, the cost of proper disposal of contaminated materials, the cost of cleanup, evacuation, and administrative and other expenses, including legal expenses, incurred in recovering these costs. Further sets forth that BCEMA is authorized to engage a billing company to assist with billing and collection.

7. Sets forth that the Director is responsible for enforcement of this Ordinance.

8. Sets forth that invalidity of any section or portion of any section of this Ordinance shall not operate to invalidate any section or portion of this Ordinance not otherwise invalid.

9. Sets forth that and any Ordinance in conflict with this Ordinance is hereby REPEALED.

10. Sets forth that this Ordinance shall be published in Summary.

Given first reading at a Regular Meeting of the Bullitt County Fiscal Court on the 1st day of September, 2026.

Given second reading, voted upon and passed at a Regular Meeting of the Bullitt County Fiscal Court on this 15th day of September, 2026.

I-65 Collision Comparison

Bullitt County vs. Hardin County, Kentucky | January 1, 2021 – September 30, 2026

Overall comparison

Bullitt County recorded more collisions and injuries across every reported measure, despite having approximately 5 fewer miles of I-65 than Hardin County. Figures below cover the entire reporting period, including the first nine months of 2026.

Measure	Bullitt	Hardin	Bullitt minus Hardin	Difference
Total collisions	3,397	2,206	+1,191	+54.0%
Injury collisions	539	270	+269	+99.6%
Fatal collisions	24	18	+6	+33.3%
Persons injured	779	420	+359	+85.5%
Commercial vehicle collisions	750	494	+256	+51.8%

Approximate interstate mileage: Bullitt County — 20 miles; Hardin County — 25 miles.

Comparison adjusted for interstate mileage

Total collisions per mile of I-65 over the reporting period: Bullitt County 169.9; Hardin County 88.2. This is a simple mileage-adjusted comparison, not a traffic-volume-adjusted crash rate.

County	Approx. I-65 miles	Total collisions	Collisions per mile
Bullitt	20	3,397	169.9
Hardin	25	2,206	88.2

Year-by-year total collisions

Year	Bullitt	Hardin	Difference
2021	585	403	+182
2022	578	438	+140
2023	657	362	+295
2024	536	383	+153
2025	595	349	+246
2026*	446	271	+175

Yearly detail by category

Injury collisions

Year	Bullitt	Hardin	Difference
2021	103	53	+50
2022	83	57	+26
2023	99	43	+56
2024	88	45	+43
2025	98	39	+59
2026*	68	33	+35

Fatal collisions

Year	Bullitt	Hardin	Difference
2021	9	3	+6
2022	0	4	-4
2023	5	5	+0
2024	3	2	+1
2025	3	2	+1
2026*	4	2	+2

Persons injured

Year	Bullitt	Hardin	Difference
2021	152	83	+69
2022	112	91	+21
2023	157	78	+79
2024	121	70	+51
2025	139	52	+87
2026*	98	46	+52

Commercial vehicle collisions

Year	Bullitt	Hardin	Difference
2021	126	88	+38
2022	108	101	+7
2023	167	88	+79
2024	117	85	+32
2025	128	67	+61
2026*	104	65	+39

Notes and definitions

*2026 includes January 1 through September 30 only and should not be compared directly with full calendar years. Injury collisions are crashes with at least one injured person; persons injured counts individuals. Commercial vehicle collisions involve at least one commercial vehicle. These categories can overlap and should not be added together.

Source: Kentucky Advanced Query collision export, records coded to I-65 (I 0065) in Bullitt and Hardin counties, as presented in the supplied county summaries. Mileage estimates are approximate. The source document's Hardin County introductory paragraph incorrectly refers to Bullitt County; this report uses the Hardin County table and heading.
