A final approval shall not be granted if it is determined that there is no projected net positive fiscal impact to the Commonwealth.

(6) Subsection (1) of this section shall not apply to:

(a) Medicaid directed or supplemental payment programs initially approved by the federal Centers for Medicare and Medicaid Services prior to the effective date of this Act, including but not limited to:

(1) The cabinet shall fund, directly or through a contracting entity or entities, in each district, a program of essential services which shall have as its primary purpose the prevention of unnecessary institutionalization of functionally impaired elderly persons. The cabinet may use funds appropriated under this section to contract with public and private agencies, long-term care facilities, local governments, and other providers to provide

core and essential services. The cabinet may provide core and essential services when such services cannot otherwise be purchased.

(2) In providing essential services, all existing community resources available to functionally impaired elderly persons shall be utilized. (3) Entities contracting with the cabinet to provide essential services under KRS 205.455 and this section shall provide a minimum of fifteen percent (15%) of the funding necessary for the support of program operations. Local contributions, whether materials, commodities, transportation, office space, personal services, or other types of facilities services, or funds may be evaluated and counted toward the fifteen percent (15%) local funding requirements.

(5) Providers contracting with the cabinet to provide essential services shall be responsible for the collection of fees and contributions for services in accordance with administrative regulations promulgated by the cabinet. Providers are authorized to assess and collect fees for services rendered in accordance with those administrative regulations. To help pay for essential services received, a functionally impaired elderly person shall pay an amount of money based on an overall ability to pay in accordance with a schedule of fees established by the cabinet. Fees shall reflect the degree to which the cabinet or contracting entity uses volunteers in the provision of services. Where essential services are provided by volunteers, fees shall only be assessed in an amount that will cover the cost of materials and other goods used in the provision of services. The cost of materials and other goods used by volunteers shall be reasonably similar to the cost of goods when paid personnel are used. Fees shall not be required of any person who is "needy aged" as defined in KRS 205.010; however, voluntary contributions may be encouraged. CHAPTER 112

(SB 84)

AN ACT relating to judicial review of state agency action.

WHEREAS, in Loper Bright Enterprises v. Raimondo, 603 U.S. 369 (2024), the United States Supreme Court ruled that the federal judiciary's deference to the interpretation of statutes by federal agencies as articulated in Chevron U.S.A., Inc. v. Natural Resources Defense Council, Inc., 487 U.S. 837 (1984), and its progeny was unlawful; and

WHEREAS, the opinions in several cases decided by the Kentucky Supreme Court, including without limitation, Metzinger v. Kentucky Retirement Systems, 299 S.W. 3d 541 (Ky. 2009), and Kentucky Occupational Safety and Health Review Commission v. Estill County Fiscal Court, 503 S.W. 3d 924 (Ky. 2016), appeared to adopt the deference articulated in the Chevron decision as a model for the review by the Kentucky Court of Justice of a state agency's interpretation of statutes; and

WHEREAS, the General Assembly does not create state agencies with an expectation that those agencies will possess a proficiency in interpreting a statute that is superior to that of the Court of Justice; and

WHEREAS, the General Assembly does not believe that any state agency possesses a proficiency in interpreting a statute that is superior to that of the Court of Justice; and

WHEREAS, the General Assembly believes that judicial deference to a state agency's interpretation of a statute is inconsistent with the role of the Court of Justice within the separation of powers provisions of the Constitution of Kentucky; and

WHEREAS, the General Assembly declares that de novo review is the only appropriate standard for judicial review of a state agency's interpretation of a statute or regulation;

NOW, THEREFORE,

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

➔SECTION 1. A NEW SECTION OF KRS CHAPTER 13A IS CREATED TO READ AS FOLLOWS:

➔SECTION 2. A NEW SECTION OF KRS CHAPTER 446 IS CREATED TO READ AS FOLLOWS:

➔Section 3. KRS 13B.150 is amended to read as follows:

(1) Except as provided in KRS 452.005, review of a final order shall be conducted by the court without a jury and shall be confined to the record, unless there is fraud or misconduct involving a party engaged in administration of this chapter. The court, upon request, may hear oral argument and receive written briefs. Challenges to the constitutionality of a final order shall be reviewed in accordance with KRS 452.005.

(2) The court shall not substitute its judgment for that of the agency as to the weight of the evidence on questions of fact. The court may affirm the final order or it may reverse the final order, in whole or in part, and remand the case for further proceedings if it finds the agency's final order is:

(a) In violation of constitutional or statutory provisions;

(b) In excess of the statutory authority of the agency;

(c) Without support of substantial evidence on the whole record;

(d) Arbitrary, capricious, or characterized by abuse of discretion;

(e) Based on an ex parte communication which substantially prejudiced the rights of any party and likely affected the outcome of the hearing;

(g) Deficient as otherwise provided by law.

(3) The court shall apply de novo review of the agency's final order on questions of law. An agency's interpretation of a statute or administrative regulation shall not be entitled to deference from a reviewing court.

CHAPTER 113

(SB 207)

AN ACT relating to education.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

➔SECTION 1. A NEW SECTION OF KRS CHAPTER 156 IS CREATED TO READ AS FOLLOWS:

(1) The Kentucky Board of Education, upon the request of the local board of education of a school district, may grant a waiver from the requirements of an administrative regulation promulgated by the state board or from a statute over which the state board has authority to enforce. A waiver granted by the state board shall expire on June 30 of the third full school year after the request was first approved, regardless of subsequent amendment, unless the state board renews the waiver prior to expiration. The state board shall not waive any statute or administrative regulation:

(a) Relating to health and safety, including required criminal background checks for staff and volunteers specified in KRS 160.380 and 161.148;

(b) Relating to civil rights;

(c) Required by federal law;

(d) Relating to compulsory attendance requirements under KRS 158.030 and 158.100 or the recording of data necessary for participation in the fund to support education excellence in Kentucky;

(e) Establishing certification requirements for teachers in core academic areas, except a waiver may authorize up to twenty-five percent (25%) of the teaching staff of a school may be employed without

teacher certification if the individual possesses a baccalaureate or graduate degree in the subject the individual is hired to teach;

(f) Requiring students' participation in state assessment of student performance, as required under KRS 158.6453;

(g) Financial audits, audit procedures, and audit requirements under KRS 156.265;

(h) Open records and open meeting requirements under KRS Chapter 61;

(i) Purchasing requirements and limitations under KRS Chapter 45A and KRS 156.074 and 156.480; or

(j) Requiring instructional time that is at least equivalent to the student instructional year specified in KRS 158.070.

(2) A waiver request under subsection (1) of this section shall:

(a) Identify the specific statutes and administrative regulations for which the local board is seeking a waiver;

(b) Specify the schools or programs within the district to which the waiver shall apply;

(c) Explain how the waiver for the schools or programs of each specific statute or administrative regulation will improve operations or student academic achievement; and

(d) Include any evidence the district wishes to submit to support the request.

(3) Upon the majority vote of a local board approving a waiver request, the superintendent of the district shall submit the waiver request to the state board. The state board shall consider the waiver of each statute or administrative regulation included in the request at the next regularly scheduled meeting after submission and shall either approve or deny the request. In considering approval for each statute or administrative regulation identified in a waiver request, the state board shall grant the request if it demonstrates that the waiver is more likely than not:

(a) To improve that school's or program's operation without hindering student academic achievement; or

(b) To improve student academic achievement at that school or program.

(4) In submitting a waiver request under subsection (3) of this section, a local board may seek to identify the school or program that is the subject of the request as a school of innovation. In addition to any other waivers granted for the school or program, a school of innovation shall be granted a waiver from all statutes and administrative regulations that would prevent the district from entering into an agreement with an education service provider to assist in the management and operation of the school or program. The state board shall approve the school of innovation request if the request demonstrates that identification as a school of innovation is more likely than not to improve either that school's or program's operation or student academic achievement.

(5) A local board whose request to waive a statute or administrative regulation under subsection (3) or (4) of this section was denied may amend the original request for reconsideration at the state board's next regularly scheduled meeting. A local board may request assistance from the Kentucky Department of Education in the development of the local board's waiver request or an amendment.

(6) A local board may seek to amend a previously approved waiver request by submitting the amendment for approval by the state board under the same procedures as the original request.

(7) A local board that is granted a waiver under subsection (3) or (4) of this section may submit a request to renew the waiver to the state board. A renewal request shall be submitted no earlier than six (6) months prior to that waiver's expiration. The renewal request shall include evidence of the operational improvement of the school or program that is subject to the waiver, the academic achievement of the students enrolled in the schools or program, comparisons of those students with similar students across the state, and any other evidence of the waiver's benefit to student academic achievement. If the state board finds that the waiver has had a positive impact on the school's or program's operation or the academic achievement of students, then the renewal request shall be approved. An approved renewal request shall extend the waiver for an additional three (3) school years.

(8) Any school that is subject to a waiver shall admit any and all children eligible to attend the school subject to the local board's policies.

(9) If the state board at any time finds by a two-thirds (2/3) majority vote that a specific waiver previously granted has hindered school or program operations, endangered students, impeded student academic achievement, or supported financial malfeasance or criminal activity, then the waiver shall be rescinded. The existence of a waiver shall not negate the legal duties or professional responsibilities of a district employee.

(10) The state board shall promulgate administrative regulations in accordance with KRS Chapter 13A to adopt a standardized waiver request form and establish any procedures for processing waiver requests in compliance with this section.

4. Exempting the student from all coursework and other requirements imposed by the local board of education that are in addition to the minimum requirements for high school graduation established by the Kentucky Board of Education pursuant to paragraph (d) of this subsection in the district to which the student transfers, if the student transfers schools at any time after the completion of the student's second year of high school and the student is ineligible to graduate both from the district to which the student transfers and the district from which the student transferred.

(2) ~~[(a) At the request of a local board of education or a school council, a local school district superintendent shall request that the Kentucky Board of Education waive any administrative regulation promulgated by that board. Beginning in the 1996-97 school year, a request for waiver of any administrative regulation shall be submitted to the Kentucky Board of Education in writing with appropriate justification for the waiver. ➔Section 3. KRS 156.445 is amended to read as follows:

(1) No textbook or program shall be used in any public school in Kentucky as a basal title unless it has been recommended and listed on the state multiple list by the State Textbook Commission or unless a school and district has met the notification requirements under subsection (2) of this section. Any changes of textbooks made by the State Textbook Commission shall not become effective until grades and classes of the respective county and independent school districts have completed work for which the adopted book then in use was originally intended. Nothing in this section shall apply to the supplementary books that are needed from time to time.

(2) A school council, or if none exists, the principal, may notify, through the superintendent, the State Textbook Commission that it plans to adopt a basal textbook or program that is not on the recommended list by submitting evidence that the title it has chosen meets the selection criteria of the State Textbook Commission in KRS 156.405(3)(b) and the subject specific criteria of the textbook reviewers pursuant to KRS 156.407(5) and complies with the required publisher specifications.

(3) In approving text materials for private and parochial schools for the purpose of KRS 156.160***(2)*** ~~[(3)]~~ the text materials shall be approved if they are comprehensive and appropriate to the grade level in question notwithstanding the fact that they may contain elements of religious philosophy.

➔Section 4. KRS 157.360 is amended to read as follows:

(1) (a) In determining the cost of the program to support education excellence in Kentucky, the statewide guaranteed base funding level, as defined in KRS 157.320, shall be computed by dividing the amount appropriated for this purpose by the prior year's statewide average daily attendance.

(b) When determining the biennial appropriations for the program, the average daily attendance for each fiscal year shall include an estimate of the number of students graduating early under the provisions of KRS 158.142.

(2) Each district shall receive an amount equal to the base funding level for each pupil in average daily attendance in the district in the previous year, except a district shall receive an amount equal to one-half (1/2) of the state portion of the average statewide per pupil guaranteed base funding level for each student who graduated early under the provisions of KRS 158.142. Each district's base funding level shall be adjusted by the following factors:

(a) The number of at-risk students in the district. At-risk students shall be identified as those approved for the free lunch program under state and federal guidelines. The number of at-risk students shall be multiplied by a factor to be established by the General Assembly. Funds generated under this paragraph may be used to pay for:

1. Alternative programs for students who are at risk of dropping out of school before achieving a diploma; and

2. A hazardous duty pay supplement as determined by the local board of education to the teachers who work in alternative programs with students who are violent or assaultive;

(b) The number and types of exceptional children in the district as defined by KRS 157.200. Specific weights for each category of exceptionality shall be used in the calculation of the add-on factor for exceptional children; and

(c) Transportation costs. The per-pupil cost of transportation shall be calculated as provided by KRS 157.370. Districts which contract to furnish transportation to students attending nonpublic schools may adopt any payment formula which ensures that no public school funds are used for the transportation of nonpublic students.

(3) Beginning with the 2015-2016 school year and each year thereafter, the General Assembly shall annually allocate funds equal to one-half (1/2) of the state portion of the average statewide per pupil guaranteed base funding level for each student who graduated early under the provisions of KRS 158.142 the previous school year to the Kentucky Higher Education Assistance Authority for deposit in the early graduation scholarship trust fund.

(4) The program to support education excellence in Kentucky shall be fully implemented by the 1994-95 school year.

(5) (a) Except for those schools which have implemented school-based decision making, the commissioner of education shall enforce maximum class sizes for every academic course requirement in all grades except in vocal and instrumental music, and physical education classes. Except as provided in subsection (6) of this section, the maximum number of pupils enrolled in a class shall be as follows:

1. Twenty-four (24) in primary grades (kindergarten through third grade);

2. Twenty-eight (28) in grade four (4);

3. Twenty-nine (29) in grades five (5) and six (6);

4. Thirty-one (31) in grades seven (7) to twelve (12).

(b) Except for those schools which have implemented school-based decision making, class size loads for middle and secondary school classroom teachers shall not exceed the equivalent of one hundred fifty (150) pupil hours per day.

(c) The commissioner of education, upon approval of the Kentucky Board of Education, shall adopt administrative regulations for enforcing this provision. These administrative regulations shall include procedures for a superintendent to request an exemption from the Kentucky Board of Education when unusual circumstances warrant an increased class size for an individual class. A request for an exemption shall include specific reasons for the increased class size with a plan for reducing the class size prior to the beginning of the next school year. A district shall not receive in any one (1) year exemptions for more classes than enroll twenty percent (20%) of the pupils in the primary grades and grades four (4) through eight (8).

(d) In all schools the commissioner of education shall enforce the special education maximum class sizes set by administrative regulations adopted by the Kentucky Board of Education. A superintendent may request an exemption pursuant to paragraph (c) of this subsection. A local school council may request a waiver ***relating to maximum class size*** pursuant to ***Section 1 of this Act in the same manner as a local board of education*** ~~[KRS 156.160(2)]~~. An exemption or waiver shall not be granted if the increased class size will impede any exceptional child from achieving his or her individual education program in the least restrictive environment.

(6) In grades four (4) through six (6) with combined grades, the maximum class size shall be the average daily attendance upon which funding is appropriated for the lowest assigned grade in the class. There shall be no exceptions to the maximum class size for combined classes. In combined classes other than the primary grades, no ungraded students shall be placed in a combined class with graded students. In addition, there shall be no more than two (2) consecutive grade levels combined in any one (1) class in grades four (4) through six (6). However, this shall not apply to schools which have implemented school-based decision making.

(7) If a local school district, through its admission and release committee, determines that an appropriate program in the least restrictive environment for a particular child with a disability includes either part-time or full-time enrollment with a private school or agency within the state or a public or private agency in another state, the school district shall count as average daily attendance in a public school the time that the child is in attendance at the school or agency, contingent upon approval by the commissioner of education.

(8) Pupils attending a center for child learning and study established under an agreement pursuant to KRS 65.210 to 65.300 shall, for the purpose of calculating average daily attendance, be considered as in attendance in the school district in which the child legally resides and which is party to the agreement. For purposes of subsection (1) of this section, teachers who are actually employees of the joint or cooperative action shall be considered as employees of each school district which is a party to the agreement.

(9) Program funding shall be increased when the average daily attendance in any district for the first two (2) months of the current school year is greater than the average daily attendance of the district for the first two (2) months of the previous school year. The program funds allotted the district shall be increased by the percent of increase. The average daily attendance in kindergarten is the kindergarten full-time equivalent pupils in average daily attendance.

(10) If the average daily attendance for the current school year in any district decreases by ten percent (10%) or more than the average daily attendance for the previous school year, the average daily attendance for purposes of calculating program funding for the next school year shall be increased by an amount equal to two-thirds (2/3) of the decrease in average daily attendance. If the average daily attendance remains the same or decreases in the succeeding school year, the average daily attendance for purposes of calculating program funding for the following school year shall be increased by an amount equal to one-third (1/3) of the decrease for the first year of the decline.

(11) If the percentage of attendance of any school district shall have been reduced more than two percent (2%) during the previous school year, the program funding allotted the district for the current school year shall be increased by the difference in the percentage of attendance for the two (2) years immediately prior to the current school year less two percent (2%).

(12) (a) Instructional salaries for vocational agriculture classes shall be for twelve (12) months per year. Vocational agriculture teachers shall be responsible for the following program of instruction during the time period beyond the regular school term established by the local board of education: supervision and instruction of students in agriculture experience programs; group and individual instruction of farmers

and agribusinessmen; supervision of student members of agricultural organizations who are involved in leadership training or other activity required by state or federal law; or any program of vocational agriculture established by the Department of Education. During extended employment, no vocational agriculture teacher shall receive salary on a day that the teacher is scheduled to attend an institution of higher education class which could be credited toward meeting any certification requirement.

(b) Each teacher of agriculture employed shall submit an annual plan for summer program to the local school superintendent for approval. The summer plan shall include a list of tasks to be performed, purposes for each task, and time to be spent on each task. Approval by the local school superintendent shall be in compliance with the guidelines developed by the Department of Education. The supervision and accountability of teachers of vocational agriculture's summer programs shall be the responsibility of the local school superintendent. The local school superintendent shall submit to the commissioner of education a completed report of summer tasks for each vocational agriculture teacher. Twenty percent (20%) of the approved vocational agriculture programs shall be audited annually by the State Department of Education to determine that the summer plan has been properly executed.

(13) (a) In allotting program funds for home and hospital instruction, statewide guaranteed base funding, excluding the capital outlay, shall be allotted for each child in average daily attendance in the prior school year who has been properly identified according to Kentucky Board of Education administrative regulations. Attendance shall be calculated pursuant to KRS 157.270 and shall be reported monthly on forms provided by the Department of Education; and

(b) Pursuant to administrative regulations of the Kentucky Board of Education, local school districts shall be reimbursed for home and hospital instruction for pupils unable to attend regular school sessions because of short-term health impairments. A reimbursement formula shall be established by administrative regulations to include such factors as a reasonable per hour, per child allotment for teacher instructional time, with a maximum number of funded hours per week, a reasonable allotment for teaching supplies and equipment, and a reasonable allotment for travel expenses to and from instructional assignments, but the formula shall not include an allotment for capital outlay. Attendance shall be calculated pursuant to KRS 157.270 and shall be reported annually on forms provided by the Department of Education.

(14) Except for those schools which have implemented school-based decision making and the school council has voted to waive this subsection, kindergarten aides shall be provided for each twenty-four (24) full-time equivalent kindergarten students enrolled.

(15) Effective July 1, 2001, there shall be no deduction applied against the base funding level for any pupil in average daily attendance who spends a portion of his or her school day in a program at a state-operated career and technical education or vocational facility.

(16) During a fiscal year, a school district may request that the Department of Education recalculate its funds allocated under this section if the current year average daily attendance for the twenty (20) day school month as defined in KRS 158.060(1) that contains the most days within the calendar month of January exceeds the prior year adjusted average daily attendance plus growth by at least one percent (1%). Any adjustments in the allotments approved under this subsection shall be proportional to the remaining days in the school year and subject to available funds under the program to support education excellence in Kentucky.

(17) To calculate the state portion of the program to support education excellence in Kentucky for a school district, the Department of Education shall subtract the local effort required under KRS 157.390(5) from the calculated base funding under the program to support education excellence in Kentucky, as required by this section. The value of the real estate used in this calculation shall be the lesser of the current year assessment or the prior year assessment increased by four percent (4%) plus the value of current year new property. The calculation under this subsection shall be subject to available funds.

(18) Notwithstanding any other statute or budget of the Commonwealth language to the contrary, time missed due to shortening days for emergencies may be made up by lengthening school days in the school calendar without any loss of funds under the program to support education excellence in Kentucky.

(2) (a) The local board of education, upon recommendation of the local school district superintendent, shall annually appoint a school district calendar committee to review, develop, and recommend school calendar options.

(b) The school district calendar committee, after seeking feedback from school district employees, parents, and community members, shall recommend school calendar options to the local school district superintendent for presentation to the local board of education. Districts may set the length of individual student attendance days in a variable student instructional schedule, but no student attendance day shall contain more than seven (7) hours of instructional time unless the district submitted and received approval from the commissioner of education for an innovative alternative calendar.

(3) (a) Each local board of education shall use four (4) days of the minimum school term for professional development and collegial planning activities for the professional staff without the presence of students pursuant to the requirements of KRS 156.095. At the discretion of the superintendent, one (1) day of professional development may be used for district-wide activities and for training that is mandated by federal or state law. The use of three (3) days shall be planned by each school council, except that the district is encouraged to provide technical assistance and leadership to school councils to maximize existing resources and to encourage shared planning.

(b) At least one (1) hour of self-study review of seizure disorder materials shall be required for all principals, guidance counselors, and teachers hired after July 1, 2019.

(c) 1. A local board may approve a school's flexible professional development plan that permits teachers or other certified personnel within a school to participate in professional development activities outside the days scheduled in the school calendar or the regularly scheduled hours in the school work day and receive credit towards the four (4) day professional development requirement within the minimum one hundred eighty-five (185) days that a teacher shall be employed.

2. A flexible schedule option shall be reflected in the school's professional development component within the school improvement plan and approved by the local board. Credit for approved professional development activities may be accumulated in periods of time other than full day segments.

3. No teacher or administrator shall be permitted to count participation in a professional development activity under the flexible schedule option unless the activity is related to the teacher's classroom assignment and content area, or the administrator's job requirements, or is required by the school improvement plan, or is tied to the teacher's or the administrator's individual growth plan. The supervisor shall give prior approval and shall monitor compliance with the requirements of this paragraph. In the case of teachers, a professional development committee or the school council by council policy may be responsible for reviewing requests for approval.

(b) If a local board of education amends its school calendar after its adoption due to an emergency, it may lengthen or shorten any remaining student attendance days by thirty (30) minutes or more, as it deems necessary, provided the amended calendar complies with the requirements of a student instructional

year in subsection (1)(f) of this section or a variable student instructional year in subsection (1)(h) of this section. No student attendance day shall contain more than seven (7) hours of instructional time unless the district submitted and received approval from the commissioner of education for an innovative alternative calendar.

2. These two (2) days for statewide professional meetings may be scheduled to begin with the first Thursday after Easter, or upon request of the statewide professional education association having the largest paid membership, the commissioner of education may designate alternate dates.

3. If schools are scheduled to operate during days designated for the statewide professional meeting, the school district shall permit employees who are delegates to attend as compensated professional leave time and shall employ substitute teachers in their absence.

4. The commissioner of education shall designate one (1) additional day during the school year when schools may be closed to permit professional school employees to participate in regional or district professional meetings.

5. These three (3) days so designated for attendance at professional meetings may be counted as a part of the minimum school term.

(b) 1. If any school in a district is used as a polling place, the school district shall be closed on the day of the election, and those days may be used for professional development activities, professional meetings, or parent-teacher conferences.

(8) Notwithstanding any other statute, each school term shall include no less than the equivalent of the student instructional year in subsection (1)(f) of this section, or a variable student instructional year in subsection (1)(h) of this section, except that the commissioner of education may grant up to the equivalent of ten (10) student attendance days for school districts that have a nontraditional instruction plan approved by the commissioner of education on days when the school district is closed for health or safety reasons. 1. The employee works for a school district with a school calendar approved by the Kentucky Department of Education that contains a provision that additional instructional time per day shall be used to make up full days missed due to an emergency;

2. The employee's contract requires a minimum six (6) hour work day; and

3. The employee's job responsibilities and work day are extended when the instructional time is extended for the purposes of making up time.

Minimum nutritional standards shall be based on the most recent edition of the United States Department of Agriculture's Dietary Guidelines for Americans. The administrative regulation shall address serving size, sugar, and fat content of the foods and beverages. (a) "Critical shortage area" means an understaffing of teachers in particular subject matters at the secondary level, in grade levels, or in geographic locations at the elementary and secondary level, as determined by the commissioner of education in consultation with the authority. The commissioner and the authority may use any source considered reliable, including but not limited to local education agencies, to identify the critical shortage areas;

(b) "Dual credit" has the same meaning as in KRS 158.007;

(c) "Eligible program of study" means an undergraduate or graduate program of study which is preparatory to teacher certification;

(d) "Expected family contribution" means the amount that a student and his family are expected to contribute toward the cost of the student's education determined by applying methodology set forth in 20 U.S.C. sec. 1087 kk to 1087 vv;

(e) "Participating institution" means an institution of higher education located in Kentucky which offers an eligible program of study and has in force an agreement with the authority providing for administration of this program;

(f) "Qualified teaching service" means teaching the major portion of each school day for at least seventy (70) days each semester in a public school of the Commonwealth or a private school certified pursuant to KRS 156.160***(2)***~~[(3)]~~, except that an individual having a disability defined by Title II of the Americans with Disabilities Act (42 U.S.C. secs. 12131 et seq.) or serious and extended illness, whose disability or illness, certified by a licensed physician, prevents that individual from teaching a major portion of each school day, shall be deemed to perform qualified teaching service by teaching the maximum time permitted by the attending physician;

(g) "Semester" means a period of about eighteen (18) weeks, which usually makes up one-half (1/2) of a school year or one-half (1/2) of a participating institution's academic year; and

(h) "Summer term" means an academic period consisting of one (1) or more sessions of instruction between a spring and a fall semester.

(3) The authority may, to the extent of appropriations and other funds available to it pursuant to subsection (9) of this section, award teacher scholarships to persons eligible under subsection (4) of this section, who initially demonstrate financial need in accordance with standards and criteria established by the authority or received teacher scholarships pursuant to this section prior to July 1, 1996. Each teacher scholarship shall be evidenced by a promissory note that requires repayment or cancellation pursuant to subsection (6) of this section.

(4) Kentucky residents who are United States citizens and enrolled or accepted for enrollment in an eligible program of study at a participating institution shall be eligible to apply for and be awarded teacher scholarships. Teacher scholarships shall first be awarded to highly qualified eligible students who meet standards and requirements established by the Education Professional Standards Board pursuant to KRS 161.028 for admission to a teacher education program at a participating institution in pursuit of initial teacher certification. If funds are not depleted after awarding teacher scholarships to students who meet the preceding criteria, then awards shall be made to any otherwise eligible students.

(5) The authority shall establish, by administrative regulation, the maximum amount of scholarship to be awarded for each semester and summer term under this section. The amount of each scholarship to be awarded shall not exceed the applicant's total cost of education minus other financial assistance received or expected to be received by the applicant during the academic period.

(6) (a) The authority shall disburse teacher scholarships to eligible students who agree to render qualified teaching service as certified teachers, and are unconditionally admitted and enrolled in an eligible program of study.

(b) A teacher scholarship shall not be awarded or a promissory note cancellation shall not be granted to any person who is in default on any obligation to the authority under any program administered by the authority pursuant to KRS 164.740 to 164.785 until financial obligations to the authority are satisfied, except that ineligibility for this reason may be waived by the authority for cause.

(c) Recipients shall render one (1) semester of qualified teaching service for each semester or summer term of scholarship received, except that recipients who teach in a critical shortage area designated by the authority or teach dual credit coursework in a certified Kentucky high school shall render one (1) semester of qualified teaching service as repayment for two (2) semesters or summer terms of scholarships received. Upon completion of each semester of qualified teacher service, the authority shall cancel the appropriate number of promissory notes.

(d) If the recipient of a teacher scholarship fails to complete an eligible program of study at a participating institution or fails to render qualified teaching service in any semester following certification or recertification, unless the failure is temporarily waived for cause by the authority, the recipient shall immediately become liable to the authority for repayment of the sum of all outstanding promissory notes and accrued interest. Persons liable for repayment of scholarships under this paragraph shall be liable for interest accruing from the dates on which the teacher scholarships were disbursed.

(e) Recipients who have outstanding loans or scholarships under KRS 156.611, 156.613, 164.768, or 164.770 respectively, and who render qualified teaching service, shall have their notes canceled in accordance with subsection (6)(c) of this section.

(f) The authority shall establish, by administrative regulation, the terms and conditions for the award, cancellation, and repayment of teacher scholarships including, but not limited to, the selection criteria, eligibility for renewal awards, amount of scholarship payments, deferments, the rate of repayment, and the interest rate thereon.

(g) Notwithstanding any other statute to the contrary, the maximum interest rate applicable to repayment of a promissory note under this section shall be eight percent (8%) per annum, except that if a judgment is rendered to recover payment, the judgment shall bear interest at the rate of five percent (5%) greater than the rate actually charged on the promissory note.

(7) A repayment obligation imposed by this section shall not be voidable by reason of the age of the recipient at the time of receiving the teacher scholarship.

(8) Failure to meet repayment obligations imposed by this section shall be cause for the revocation of a person's teaching certificate, subject to the procedures set forth in KRS 161.120.

(9) All moneys repaid to the authority under this section shall be added to the appropriations made for purposes of this section, and the funds and unobligated appropriations shall not lapse.

(10) The authority may execute appropriate contracts and promissory notes for administering this section.

(11) Notwithstanding any other statute to the contrary, if available funds are insufficient for all requested scholarships for eligible applicants during any fiscal year, the authority shall give priority consideration to eligible applicants who previously received teacher scholarships and, until June 30, 2018, to loan forgiveness for teachers who have outstanding loan balance eligibility for Best in Class loans issued prior to June 30, 2008. If funds are insufficient to make all requested renewal scholarships to eligible applicants, the authority shall reduce all scholarship awards to the extent necessary to provide scholarships to all qualified renewal applicants. If, after awarding all eligible renewal applicants, funds are not depleted, initial applications shall be ranked according to regulatory selection criteria, which may include expected family contribution and application date, and awards shall be made to highly qualified applicants until funds are depleted.

(6) Each school district shall administer the statewide student assessment during the last fourteen (14) days of school in the district's instructional calendar. The Kentucky Board of Education may change the testing window to allow for innovative assessment systems or other online test administration and shall promulgate administrative regulations that minimize the number of days of testing and outline the procedures to be used during the testing process to ensure test security, including procedures for testing makeup days, and to comply with federal assessment requirements.

(7) A student enrolled in a district-operated or district-contracted alternative program shall participate in the appropriate assessments required by this section.

(8) A local school district may select and use commercial interim or formative assessments or develop and use its own formative assessments to provide data on how well its students are growing toward mastery of Kentucky academic standards, so long as the district's local school board develops a policy minimizing the reduction in instructional time related to the administration of the interim assessments. Nothing in this section precludes teachers from using ongoing teacher-developed formative processes.

(9) Each school that enrolls primary students shall use diagnostic assessments and prompts that measure readiness in reading and mathematics for its primary students as determined by the school to be developmentally appropriate. Accommodations provided in a manner allowed by a student's individualized education program as defined in KRS 158.281 for a student whose disability precludes valid assessment of his or her academic abilities using the accommodations provided under subparagraph 1. of this paragraph when the student's scores are not reportable to a postsecondary institution for admissions and placement purposes.

(12) Kentucky teachers shall have a significant role in providing feedback about the design of the assessments, except for the college admissions exam described in subsection (5)(b)5. of this section. The assessments shall be designed to:

(14) The Department of Education shall gather information to establish the validity of the assessment and accountability program. It shall develop a biennial plan for validation studies that shall include but not be limited to the consistency of student results across multiple measures, the congruence of school scores with documented improvements in instructional practice and the school learning environment, and the potential for all scores to yield fair, consistent, and accurate student performance level and school accountability decisions. Validation activities shall take place in a timely manner and shall include a review of the accuracy of scores assigned to students and schools, as well as of the testing materials. The plan shall be submitted to the Commission by July 1 of the first year of each biennium. A summary of the findings shall be submitted to the Legislative Research Commission by September 1 of the second year of the biennium.

(15) The Department of Education and the state board shall offer optional assistance to local school districts and schools in developing and using continuous assessment strategies needed to ensure student progress. The continuous assessment shall provide diagnostic information to improve instruction to meet the needs of individual students.

(16) The Administration Code for Kentucky's Assessment Program shall include prohibitions of inappropriate test preparation activities by school district employees charged with test administration and oversight, including but not limited to the issue of teachers being required to do test practice in lieu of regular classroom instruction and test practice outside the normal work day. The code shall include disciplinary sanctions that may be taken toward a school or individuals.

(17) The Kentucky Board of Education, after the Department of Education has received advice from the Office of Education Accountability; the School Curriculum, Assessment, and Accountability Council; and the department's technical advisory committee, shall promulgate an administrative regulation under KRS Chapter 13A to establish the components of a reporting structure for assessments administered under this section. The data shall be disaggregated by gender, race, students with disabilities, and economic status;

3. Nonacademic achievement, including the school's attendance, retention, graduation rates, and student transition to postsecondary;

4. School learning environment, including measures of parental involvement; and

5. Any other school performance data required by the Every Student Succeeds Act of 2015, Pub. L. No. 114-95, or its successor;

The department shall include the essential workplace ethics program on the school profile report.

(b) By October 1 of each year, each school principal shall complete the school profile report, which shall be signed by the members of the school council, or the principal if no school council exists, and the superintendent. The report shall be electronically transmitted to the Kentucky Department of Education, and the original shall be maintained on file at the local board office and made available to the public upon request. The department shall include a link to each school's profile report on its website.

➔Section 4. KRS 350.060 is amended to read as follows:

(1) (a) No person shall engage in surface coal mining and reclamation operations without having first obtained from the cabinet a permit designating the area of land affected by the operation. Permits shall authorize the permittee to engage in surface coal mining and reclamation operations upon the area of land described in his application for a period not to exceed five (5) years. However, if an applicant demonstrates that a specified longer term is reasonably needed to obtain necessary financing for equipment and the opening of the operation and if the application is full and complete for the specified longer term, the cabinet may grant a permit for the longer term. No mining shall be permitted beyond the time period obligations of the initial or extended bond coverage.

(b) Subject to the provisions of KRS 350.010(1) and (2), no person shall knowingly and willfully receive, transport, sell, convey, transfer, trade, exchange, donate, purchase, deliver, or in any way derive benefit from coal removed from any surface mining operation which does not have a permit as required under this section.

(2) No permit or revision application shall be approved unless the application affirmatively demonstrates, and the cabinet finds in writing on the basis of the information set forth in the application or from information otherwise available, that the permit application is accurate and complete and that all the requirements of this chapter have been complied with.

(3) A person desiring a permit to engage in surface coal mining operations shall file an application which shall state:

(a) The location and area of land to be affected by the operation, with a description of access to the area from the nearest public highways;

The permittee shall submit updates of this information as changes occur or as otherwise provided by administrative regulation; however, failure to submit updated information shall constitute a violation of this chapter only upon the permittee's refusal or failure to timely submit the information to the cabinet upon request. Upon receipt of updated information satisfactory to the cabinet, the cabinet shall promptly update its computer system containing the information;

(h) A listing of any violations of this chapter, Public Law 95-87, and any law, rule, or regulation in effect for the protection of air or water resources incurred by the applicant in connection with any surface coal mining and reclamation operation during the three (3) year period prior to the date of an application. The list shall indicate the final resolution of the violations; and

(4) The application for a permit shall be accompanied by an official document, and an affidavit attesting to the document's authenticity, which will evidence what particular business entity the applicant is, whether a foreign or domestic corporation, a partnership, an entity doing business as another, or, if sole proprietorship, an affidavit so stating.

(5) The application for a permit shall be accompanied by copies, in numbers satisfactory to the cabinet, of a United States Geological Survey topographic map or other map acceptable to the cabinet on which the applicant has indicated the location of the operation, the course which would be taken by drainage from the operation to the stream or streams to which the drainage would normally flow, the name of the applicant and date, and the name of the person who located the operation on the map.

(6) The application for a permit shall be accompanied by copies, in numbers satisfactory to the cabinet, of an enlarged United States Geological Survey topographic map or other map acceptable to the cabinet meeting the requirements of paragraphs (a) to (i) of this subsection. The map shall:

(a) Be prepared and certified by a professional engineer registered under the provisions of KRS Chapter 322. The certification shall be in the form as provided in subsection (8) of this section, except that the engineer shall not be required to certify the true ownership of property under paragraph (d) of this subsection;

(b) Identify the area to correspond with the application;

(c) Show adjacent deep mining;

(d) Show the boundaries of surface properties and names of owners of the affected area and adjacent to any part of the affected area;

(f) Show the names and locations of all streams, creeks, or other bodies of public water, roads, buildings, cemeteries, oil and gas wells, and utility lines on the area of land affected within three hundred (300) feet of an as-drilled oil or gas well, but as-drilled locations of oil and gas wells shall be certified only by a licensed surveyor and the well locations shall be entered in coordinates in feet units, using NAD 83, with Single Zone Projection, as those terms are defined in KRS 350.010;

(g) Show by appropriate markings the boundaries of the area of land affected, the cropline of the seam or deposit of coal to be mined, and the total number of acres involved in the area of land affected;

(h) Show the date on which the map was prepared, the north point, and the quadrangle name; and

(i) Show the drainage plan on and away from the area of land affected. The plan shall indicate the directional flow of water, constructed drainways, natural waterways used for drainage, and the streams or tributaries receiving the discharge.

(7) Each application shall include a determination of the probable hydrologic consequences of the mining and reclamation operations, both on and off the mine site, with respect to the hydrologic regime, quantity and quality of water in surface and groundwater systems, including the dissolved and suspended solids under seasonal flow conditions, and the collection of sufficient data for the mine site and surrounding areas so that an assessment can be made by the cabinet of the probable cumulative impacts of all anticipated mining in the area upon the hydrology of the area and particularly upon water availability. This determination shall not be required until the time hydrologic information on the general area prior to mining is made available from an appropriate federal or state agency. The permit shall not be approved until the information is available and is incorporated into the application.

(8) All certifications required by this chapter to be made by professional engineers shall be done in the form prescribed by the cabinet and shall be reasonably specific as to the work being certified. The cabinet may reject any document or map as incomplete if it is not properly certified.

(9) In addition to the information and maps required above, each application for a permit shall be accompanied by detailed plans or proposals showing the method of operation; the manner, time, and distance for backfilling; grading work; and a reclamation plan for the affected area, which proposals shall meet the requirements of this chapter and administrative regulations adopted pursuant thereto.

(10) The application for a permit shall be accompanied by proof that the applicant has public liability insurance coverage satisfactory to the cabinet for the surface mining and reclamation operations for which the permit is sought, or proof that the applicant has satisfied self-insurance requirements as provided by administrative regulations of the cabinet. The coverage shall be maintained in full force and effect during the terms of the permit and any permit renewal, and until reclamation operations are completed.

(11) ***(a)*** A basic fee set by administrative regulation, and bearing a reasonable relationship to the cost of processing the permit application but not to exceed two thousand five hundred dollars ($2,500), plus a fee set by administrative regulation but not to exceed seventy-five dollars ($75), for each acre or fraction thereof of the area of land to be affected by the operation, shall be paid before the permit required in this section shall be issued; provided that if the cabinet approves an incremental bonding plan submitted by the applicant, the acreage fees may be paid in increments and at times corresponding to the approved plan.

(b) The applicant shall file with the cabinet a bond payable to the Commonwealth of Kentucky with surety satisfactory to the cabinet in the sum to be determined by the cabinet for each acre or fraction thereof of the area of land affected, with a minimum bond of ten thousand dollars ($10,000), conditioned upon the faithful performance of the requirements set forth in this chapter and of the administrative regulations of the cabinet. The cabinet shall forfeit the entire amount of the bond for the permit area or increment in the event of forfeiture.

(c) In determining the amount of the bond, the cabinet shall take into consideration the***:***

1. Character and nature of the overburden;

2. ~~[the]~~Future suitable use of the land involved;

3. ~~[the]~~Cost of backfilling, grading, and reclamation to be required; and

4. ~~[the]~~Probable difficulty of reclamation, giving consideration to such factors as topography, geology, hydrology, and revegetation potential.

(d) The bond amount shall initially be computed to be sufficient to ensure completion of reclamation if the work had to be performed by the cabinet in the event of forfeiture.

(e) For any permit or permit increment identified by the cabinet as requiring long-term treatment, the cabinet shall calculate an additional bond or other financial assurance instrument amount based on the estimated annual treatment cost, provided by the permittee and verified by the cabinet, multiplied by a factor of twenty-five (25), plus any capital cost of the treatment system. The cabinet shall use its own estimate for annual treatment costs if the cabinet cannot verify the permittee's estimate.

(f) Within thirty (30) days of a cabinet determination of a need to change a bond protocol currently in use, the cabinet shall immediately promulgate administrative regulations setting forth bonding requirements, including but not limited to requirements for the amount, duration, release, and forfeiture of bonds. Bond protocols shall not be exempt from KRS 13A.100 and shall be established by promulgating administrative regulations under KRS Chapter 13A. Failure to include the formula for establishing the

amount of the bond in any administrative regulation on bonding requirements shall be deemed a failure to comply with the prescriptions of this section and the administrative regulation shall automatically be declared deficient in accordance with KRS Chapter 13A.

(12) The cabinet shall promulgate administrative regulations for the permitting of operations with surface effects of underground mining and other surface coal mining and reclamation operations consistent with this section. The cabinet shall recognize the distinct differences between the surface effects of underground mining and strip mining, as also provided in KRS 350.151, in promulgating permitting requirements for these operations.

(13) Any valid permit issued pursuant to this chapter shall carry with it the right of successive renewal upon expiration with respect to areas within the boundaries of the existing permit. An applicant for renewal of a permit shall pay a basic fee set by regulation, not to exceed seven hundred fifty dollars ($750). The holders of the permit may apply for renewal and the renewal shall be issued, provided that on application for renewal the burden shall be on the opponents of renewal, subsequent to the fulfillment of the public notice requirements of this chapter, unless it is established and written findings by the cabinet are made that:

(a) The terms and conditions of the existing permit are not being satisfactorily met;

(b) The present surface coal mining and reclamation operation is not in compliance with the environmental protection standards of this chapter;

(c) The renewal requested substantially jeopardizes the applicant's continuing responsibility on existing permit areas;

(d) The applicant has not provided evidence that the performance bond in effect for the operation will continue in full force and effect for any renewal requested in the application as well as any additional bond the cabinet might require; or

(e) Any additional revised or updated information required by the cabinet has not been provided.

Prior to the approval of any renewal of permit, the cabinet shall provide notice to the appropriate public authorities.

(14) If an application for renewal of a valid permit includes a proposal to extend the mining operation beyond the boundaries authorized in the existing permit, the portion of the application for renewal of a valid permit which addresses any new areas of surface disturbance shall be subject to the full standards applicable to new applications under this chapter.

(15) Any permit renewal shall be for a term not to exceed the period of the original permit. Application for permit renewal shall be made at least one hundred twenty (120) days prior to the expiration of the valid permit.

(16) Notwithstanding any of the provisions of this section, a permit shall terminate if the permittee has not commenced the surface coal mining operations covered by the permit within three (3) years of the issuance of the permit. However, the cabinet may grant reasonable extensions of time upon a showing that the extensions are necessary by reason of litigation precluding commencement of operations, or threatening substantial economic loss to the permittee, or by reason of conditions beyond the control and without the fault or negligence of the permittee. With respect to coal to be mined for use in a synthetic fuel facility or specific major electric generating facility, the permittee shall be deemed to have commenced surface mining operations at the time the construction of the synthetic fuel or generating facility is initiated.

(17) Each application for a permit or revision for auger mining on a previously mined area shall contain information to describe the area to be affected, to show that the proposed method of operation will result in stable post-mining conditions, and reduce or eliminate adverse environmental conditions created by previous mining activities. If the cabinet determines that the affected area cannot be stabilized and reclaimed subsequent to augering or that the operation will result in an adverse impact to the proposed or adjacent area, the permit or revision shall not be issued. The cabinet shall, consistent with all applicable requirements of this chapter, issue a permit or revision if the applicant demonstrates that the proposed coal mining operations will provide for reduction or elimination of the highwall, or reduction or abatement of adverse impacts resulting from past mining activities, or stabilization or enhancement of a previously mined area. The cabinet shall insure that all reasonably available spoil material will be used to backfill the highwall to the extent practical and feasible; provided, however, that in all cases the holes be properly sealed and backfilled to a minimum of four (4) feet above the coal seam being mined.

(18) All operations involving the loading of coal which do not separate the coal from its impurities, and which are not located at or near the mine site, shall be exempt from the requirements of this chapter.

➔Section 5. Whereas it is critical to the orderly administration of the Commonwealth's environmental protection laws that waters be properly defined, and critical to the health and safety of the citizens of the Commonwealth that appropriate financial assurance be obtained to address long-term post-mining water discharges in the event of operator default, an emergency is declared to exist, and this Act takes effect upon its passage and approval by the Governor or upon its otherwise becoming a law.

Veto Overridden March 27, 2025.

➔Section 8. KRS 164.011 is amended to read as follows:

(1) There is hereby created and established a Council on Postsecondary Education in Kentucky as an agency, instrumentality, and political subdivision of the Commonwealth and a public body corporate and politic having all powers, duties, and responsibilities as are provided to it by law, appointed for a term set by law pursuant to Section 23 of the Constitution of Kentucky. The council shall be composed of the commissioner of education, a faculty member, a student member, and thirteen (13) citizen members appointed by the Governor. The citizen members shall be confirmed by the Senate under KRS 11.160, and the commissioner of education shall serve as a nonvoting ex officio member. Citizen council members shall be selected from a list of nominees provided to the Governor under the nominating process set forth in KRS 164.005. If the General Assembly is not in session at the time of the appointment, persons appointed shall serve prior to confirmation, but the Governor shall seek the consent of the Senate at the next regular session or at an intervening extraordinary session if the matter is included in the call of the General Assembly.

(2) By no later than thirty (30) days after May 30, 1997, the Governor's Postsecondary Education Nominating Committee shall submit nominations to the Governor as set forth in KRS 164.005. On making appointments to the council, the Governor shall ensure broad geographical and political representation; ensure equal representation of the two (2) sexes, inasmuch as possible; ensure no less than proportional representation of the two (2) leading political parties of the Commonwealth based on the state's voter registration and the political affiliation of each appointee as of December 31 of the year preceding the date of his or her appointment; and ensure that appointments reflect the minority racial composition of the Commonwealth based on the total minority racial population using the most recent census or estimate data from the United States Census Bureau. If the determination of proportional minority representation does not result in a whole number of minority members, it shall be rounded up to the next whole number. A particular political affiliation shall not be a prerequisite to appointment to the council generally; however, if any person is appointed to the council that does not represent either of the two (2) leading political parties of the Commonwealth, the proportional representation by political affiliation requirement shall be determined and satisfied based on the total number of members on the council less any members not affiliated with either of the two (2) leading political parties. In filling vacancies to the council, the Governor shall act so as to provide, inasmuch as possible, equal representation of the two (2) sexes by appointing a member of the sex that is the lesser represented at the time of the appointment. AN ACT relating to maternal health and declaring an emergency.

WHEREAS, the right to life is the most fundamental human right, forming the basis for all other rights, as recognized in the principles of natural law, the Constitution of the United States, and the Constitution of Kentucky; and

WHEREAS, appropriate and comprehensive perinatal care is essential for ensuring the health and well-being of both the mother and the unborn child, encompassing prenatal, intrapartum, and postpartum care to optimize health outcomes and address potential complications; and

WHEREAS, all childbearing women and families have the right to receive comprehensive, evidence-based information regarding their perinatal care and birth setting options; and

WHEREAS, accredited freestanding birth centers follow established standards of care, ensuring high-quality, evidence-based maternity services while maintaining collaborative relationships with hospitals and medical providers for seamless transfer when necessary; and

WHEREAS, freestanding birth centers provide a safe and regulated alternative for maternity care, offering a medically directed care, midwifery-led model that emphasizes holistic, patient-centered care; and

WHEREAS, elective abortion restrictions under Kentucky law, as enacted, include medically necessary exceptions and interventions required to preserve the life of the mother; and

WHEREAS, there is a need to clarify the distinction between an elective abortion and illegal termination of the life of an unborn child protected under Kentucky law and medically necessary interventions that affirm the fundamental right to life, ensure compassionate and comprehensive care for mothers and unborn children that are appropriate medical management for serious and life-threatening perinatal medical complications such as spontaneous miscarriage, or to treat conditions such as ectopic and molar pregnancies; and

WHEREAS, lifesaving miscarriage management, including medical procedures necessary to address spontaneous abortion, also known as miscarriage, inevitable abortion, or incomplete abortion, is an essential component of comprehensive medical care and is distinct from elective abortion; and

WHEREAS, medical conditions such as ectopic pregnancy, molar pregnancy, sepsis, and hemorrhage may necessitate emergency interventions to prevent maternal death or serious and permanent impairment of a life-sustaining organ; and

WHEREAS, in cases where a pregnancy has ended, or is in the unavoidable and untreatable process of ending, it is necessary to provide appropriate consultation and medical care, including the removal of a deceased unborn child from the uterine cavity when no fetal cardiac activity is present; and

WHEREAS, lifesaving miscarriage management refers to medically necessary interventions performed by healthcare professionals to protect the life of a pregnant woman experiencing a spontaneous pregnancy loss or a life-threatening pregnancy complication, distinguishing these interventions from elective abortion as these interventions are intended solely to address natural pregnancy complications where the unborn child has already died, the pregnancy is no longer viable, or to prevent the death or substantial risk of death to the pregnant woman due to a physical condition, or to prevent the serious, permanent impairment of a life-sustaining organ of a pregnant woman; and

WHEREAS, stillbirth, early fetal demise, and the death of an unborn child have many causes, including perinatal and intrapartum complications, hypertension, diabetes, infection, congenital and genetic abnormalities, placental dysfunction, and pregnancy continuing beyond 40 weeks and are catastrophic events with lasting consequences on the expectant mother, family, and all of society; and

WHEREAS, initiatives such as Kentucky Perinatal Quality Collaborative (KyPQC), formed in 2019 as a statewide network working in collaboration with healthcare providers, delivery hospitals, insurers, advocacy groups, and state and national stakeholders, demonstrate an ongoing commitment to improve the quality of care during pregnancy, delivery, and throughout the first year of a child's life in the Commonwealth; and

WHEREAS, perinatal palliative care programs provide essential support and resources to pregnant women and families facing complex and life-limiting prenatal diagnoses, ensuring compassionate care, informed decision-making, and emotional, spiritual, and medical guidance; and

WHEREAS, hospitals, birthing centers, maternal-fetal specialists, and midwives have a shared responsibility to offer or refer patients to perinatal palliative care programs and support services when a prenatal diagnosis indicates that a baby may die before or after birth, or when a newborn is diagnosed with a life-limiting condition; and

WHEREAS, the Cabinet for Health and Family Services should maintain a list of perinatal palliative care programs and providers to ensure accessibility and awareness among healthcare professionals and expectant families; and

WHEREAS, the 2024 committee opinion of the American College of Obstetricians and Gynecologists' Committee on Obstetric Practice and Ethics expresses support for perinatal palliative care as a coordinated care strategy that comprises options for obstetric and newborn care that include a focus on maximizing quality of life and comfort for newborns with a variety of conditions considered to be life-limiting in early infancy and a dual focus on

ameliorating suffering and honoring patient values, perinatal palliative care provided concurrently with life-prolonging treatment; and

WHEREAS, the 2024 committee opinion of the American College of Obstetricians and Gynecologists' Committee on Obstetric Practice and Ethics states that the birth plan is an individualized proposal for delivery and neonatal care and a critical prenatal component of perinatal palliative comfort care; and

WHEREAS, the American Academy of Pediatrics and the Society for Maternal-Fetal Medicine endorsed the 2024 committee opinion on perinatal palliative care of the American College of Obstetricians and Gynecologists' committees;

The public-use data agreement shall include, at a minimum, a prohibition against the sale or further release of data, and guidelines for the use and analysis of the data released to the public related to provider quality, outcomes, or charges.

(4) Collection of data about individual patients shall include information commonly used to identify an individual for assigning a unique patient identifier. Upon assigning a unique patient identifier, all direct identifying information shall be stripped from the data and shall not be retained by the cabinet or the cabinet's designee.

(5) All data and information collected shall be kept in a secure location and under lock and key when specifically responsible personnel are absent.

(6) Only designated cabinet staff shall have access to raw data and information. The designated staff shall be made aware of their responsibilities to maintain confidentiality. Staff with access to raw data and information shall sign a statement indicating that the staff person accepts responsibility to hold that data or identifying information in confidence and is aware of penalties under state or federal law for breach of confidentiality. If more than one (1) harness track conducts live racing at different times on the same day, the harness host track with the highest average daily handle, based on the preceding year, shall be the host track for purposes of splitting the commissions earned on interstate wagering at receiving tracks within the Commonwealth. For purposes of this subsection, average daily handle includes live handle, intertrack wagering handle, and simulcast facility handle. Also for purposes of this subsection, the time of day during which a host track conducts live racing commences with its first published post time and conclude ten (10) minutes after the published post time of its last race of the day, regardless of actual post times.

(f) Each harness track which desires to conduct interstate wagering pursuant to the provisions of this subsection shall during each year make application to the corporation for no less than one hundred percent (100%) of the number of racing days awarded to the track in 1994 and one hundred percent (100%) of the number of races scheduled to be run by the track in 1993.

Interstate simulcasts received by a harness host track

CHAPTER 125

(HB 684)

AN ACT relating to elections.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

➔Section 1. KRS 117.045 is amended to read as follows:

(1) (a) The county board of elections shall in the manner prescribed by this section, not later than March 20 each year, except in a year in which no primary and regular elections are scheduled, appoint for each precinct in the county two (2) judges, one (1) clerk and one (1) sheriff of election. They shall serve in all elections held in the county during the year, except for minors seventeen (17) years of age who will become eighteen (18) years of age on or before the day of the regular election who may only serve as election officers for the primary and regular elections as provided in subsection (9) of this section.

(b) If a special election is ordered to be held in a year in which no elections are scheduled, the county executive committee of each political party in each county in the territory affected by the special election shall, not later than twenty-eight (28) days preceding the date of the special election, submit a written list of nominees for precinct election officers to serve in the special election in a manner consistent with the provisions of subsection (2) of this section. The county board of elections in each county in the territory affected by the special election shall, not later than twenty-one (21) days preceding the date of the special election, appoint precinct election officers to serve in the special election in a manner consistent with the provisions of subsections (4), (5), and (6) of this section.

(c) The State Board of Elections shall promulgate an administrative regulation under KRS Chapter 13A establishing evaluation procedures which county boards of elections may use to qualify persons nominated to serve as precinct election officers.

(2) The county executive committees of the two (2) political parties having representation on the State Board of Elections may, on or before March 15 each year, designate in writing to the county board of elections a list of not less than four (4) names for each precinct; except that, in any precinct where there are not as many as four (4) persons possessing the qualifications of an election officer belonging to the political party filing the list, ***or***

when the State Board of Elections has approved a county board of elections' precinct consolidation plan requesting a lesser number of precinct officers, a lesser number may be designated. If there are two (2) or more contending executive committees of the same party in any county, the one recognized by the written certificate of the chair of the state central committee of the party shall be the one authorized to submit the lists. The lists shall contain the full name, address, phone number, and Social Security number, if available, of each person listed. The lists shall be accompanied by a signed statement from each person stating that he or she is willing to serve, has not failed to serve without excuse in the past, and has not been convicted of an election law offense or any felony, unless the person's civil rights have been restored by the Governor. The State Board of Elections shall prescribe the form of the list by administrative regulation promulgated under KRS Chapter 13A.

(3) The Attorney General shall notify each party state central committee of the duties of the party.

(4) (a) If lists are submitted by the county executive committees under subsection (2) of this section, the county board of elections shall select one (1) judge at each voting place from each political party's list, and the county board shall select the sheriff from one (1) political party's list and the clerk from the other.

(b) If no lists are submitted by the county executive committees under subsection (2) of this section, the two (2) members of the county board of elections who are appointed by the State Board of Elections may submit lists; and the county board of elections shall select the sheriff and one (1) judge from one (1) list and the clerk and the other judge from the remaining list.

(c) If no lists are submitted by the county executive committees under subsection (2) of this section, or by the county board of elections under paragraph (b) of this subsection, the county clerk shall select the sheriff and one (1) judge from the membership of one (1) party and the clerk and the other judge from the membership of the remaining party. If no members of one (1) of the two (2) political parties are available or willing to serve as a judge, the county clerk shall select any qualified and registered voter within the county to serve as a judge at a voting place.

(d) The county board of elections shall, when possible, also appoint an adequate number of alternate precinct election officers from names on the lists which were submitted but which were not selected by the county board as precinct election officers. If alternate precinct election officers are not appointed from the lists of nominees who were not selected as precinct election officers, the county board of elections shall submit its method of selecting alternate precinct election officers to the State Board of Elections for its approval. If no lists are submitted to the county board of elections as provided in this subsection, the county clerk shall select an adequate number of alternate precinct election officers.

(e) The names of all precinct election officers and alternate precinct election officers selected by the county clerk shall be submitted to the county board of elections for its approval.

(f) Nothing in this subsection shall prevent the selection of any registered and qualified voter who is not registered with either of the two (2) political parties to serve as a precinct election officer in a precinct in which the officer resides or as otherwise provided in this subsection.

(5) If, after all reasonable efforts have been made, neither the county board of elections nor the county clerk are able to find two (2) qualified officers for each precinct who are affiliated with the two (2) political parties having representation on the State Board of Elections or any other qualified and registered voter within the county, the county board of elections shall submit a list of emergency election officer appointments to the State Board of Elections. The county board of elections shall also present, in writing, its efforts to recruit and appoint election officers as prescribed in subsection (4) of this section. The State Board of Elections, after its review, may approve any or all of the emergency appointments submitted by the county board of elections or may direct the county board to take other action. Any emergency appointment shall be made for the next ensuing election only.

(6) In addition to precinct election officers appointed under subsection (1) of this section, a county board of elections or the county clerk may appoint up to two (2) additional precinct election officers per precinct with the approval of the State Board of Elections. The State Board of Elections shall promulgate an administrative regulation under KRS Chapter 13A establishing conditions under which additional precinct officers may be approved.

(7) The county board of elections shall, not less than ten (10) days before the next ensuing election, send to each election officer written notice of his or her appointment. The county board of elections may direct the sheriff of the county to serve the notice of appointment, if it deems the action is necessary.

(8) The State Board of Elections may require the county board of elections to submit its list of precinct officers for review. The State Board of Elections may, after a hearing, direct the removal of any election officer who the board finds would not fairly administer the state election laws. The State Board of Elections shall provide for the method and manner of the hearing by administrative regulation promulgated under KRS Chapter 13A, and shall replace any officer so removed.

(9) (a) An election officer shall be a qualified voter of the precinct; except that, where no qualified voter of the required political party is available within the precinct, the election officer shall be a qualified voter of the county.

(b) A minor seventeen (17) years of age who will become eighteen (18) years of age on or before the day of the regular election may serve as an election officer for the primary and regular elections in which he or she is qualified to vote; however, no precinct shall have more than one (1) person serving as an election officer who is a minor seventeen (17) years of age.

(c) An election officer shall not be a candidate for office during the election year.

(d) An election officer shall not be the spouse, parent, brother, sister, or child of a candidate who is to be voted for at the election in the precinct in which the election officer will serve on election day.

(e) An election officer shall not have changed his or her voter registration party affiliation after December 31 immediately preceding his or her appointment to serve for the primary, or after the second Tuesday in August to serve for the regular election.

(f) An election officer may be removed, for cause, at any time up to five (5) days before an election. Vacancies shall be filled by the county board of elections or the county clerk with alternate precinct election officers and if the vacancy occurs in the appointment of a judge, the person appointed to fill the vacancy shall be of the same political affiliation as the vacating officer, except for emergency appointments made as provided in subsection (5) of this section.

(10) If the county board of elections or the county clerk fails to appoint election officers, or if any officer is not present at the precinct at the time for commencing the election, or refuses to act, and if no alternate is available, the officer in attendance representing the political party of the absentee shall appoint a suitable person to act in his or her place for that election. If both representatives of the same political party are absent, qualified voters present affiliating with that party shall elect, viva voce, suitable persons to act in their places.

(11) Each election officer shall be paid a minimum of sixty dollars ($60) per election day served, and such an additional amount as compensation as may be determined by the county board of elections, with the approval of the governing body which would be responsible for funding the election officers' pay, for each election in which the election officer serves, to be paid by the county. For delivering the election packets to the polls, the precinct election officers shall additionally receive the mileage reimbursement provided for state employees, for each mile necessarily traveled in the delivery of the packets to the polls, or a flat fee if the fee equals or exceeds that amount. For delivering election returns, the precinct election judges shall additionally receive the mileage reimbursement provided for state employees for each mile necessarily traveled in the delivery of election returns, or a flat fee if the fee equals or exceeds that amount. The fee paid to the precinct election judges for delivering election returns shall be paid by the county.

➔Section 2. KRS 117.065 is amended to read as follows:

(1) The county board of elections shall, not later than January 15 of each year, establish the voting place for each precinct. If a change becomes necessary after that date, notice of change shall be published pursuant to KRS Chapter 424. If a change becomes necessary on election day, notice shall be posted at the former voting place. The expense of renting voting places, for which rent of not less than twenty dollars ($20) shall be paid, shall be paid in the same manner as other election expenses.

(2) The county board of elections shall have the authority to designate as voting places, on election day and all days of excused and no-excuse in-person absentee voting, without cost to the board, buildings constructed in whole or in part with tax revenues.

(3) ***The county board of elections shall notify a local board of education that it intends to designate one (1) or more school buildings as voting places no later than December 1 prior to the election. The county board of elections shall specify which school buildings will be used and the expected dates and times of use.***

(4) The county board of elections shall designate as voting places only those places which are accessible to all eligible voters, including those with physical limitations and the elderly.

(5)~~[(4)]~~ The county board of elections shall ensure that each precinct polling place in the county has immediate access to a telephone within the polling place on the day of any election.

➔Section 3. KRS 117.066 is amended to read as follows:

(1) The county board of elections may, pursuant to KRS 117.055 and subsection (3) of this section, designate a single voting location for more than one (1) precinct if the voting location is equipped with voting equipment capable of providing or accepting separate ballots without endangering the integrity of the ballots or without violating any other election law.

(2) If a single voting location for more than one (1) precinct is approved under subsection (3) of this section, the primary or election shall be conducted as follows:

(a) One (1) voting equipment may be used for more than one (1) precinct if ballots are tabulated for each separate precinct, and if separate ballots may be placed upon any voting equipment to be used without endangering the integrity of the ballots or without violating any other election law. Otherwise, separate voting equipment shall be used for each precinct. In the instance of a precinct which has a small number of voters such that the use of separate voting equipment would be cost-prohibitive, the county clerk may make application to the State Board of Elections to use supplemental paper ballots under KRS 118.215 to conduct the voting for the small precinct on any primary or election day. If the use of supplemental paper ballots is approved by the State Board of Elections, at the close of voting on any primary or election day, the locked supplemental paper ballot box shall be transported to the county board of elections along with the federal provisional ballot receptacle, and ballots shall be counted by the county board of elections as provided by KRS 117.275***(9) to (15)***~~[(10) to (16)]~~;

(c) A separate set of election forms and reports required by this chapter and the State Board of Elections shall be maintained for each precinct.

(3) The county board of elections may petition the State Board of Elections to allow the consolidation of precincts and the consolidation of precinct election officers at any voting location where voters of more than one (1) precinct vote. (h) The plan for how the voting location will serve as a focal point to meet the needs of a diverse community; and

(i) The number of parking spaces available at the location and a determination as to whether the location has sufficient parking spaces.

(4) Beginning on January 1, 2025, if the petition submitted under subsection (3) of this section is approved by the State Board of Elections, it shall apply for the entire year and the precinct election officers designated to serve as election officers for more than one (1) precinct shall meet the eligibility requirements of KRS 117.045.

(5) At least one hundred twenty (120) days before ***a primary or regular***~~[an]~~ election, ***or fifty-six (56) days before a special election,*** a county board of elections may petition the State Board of Elections to allow an amendment the county board deems necessary to the petition previously submitted and approved under subsection (3) of this section.

(6) A mail-in absentee ballot may be transmitted by facsimile machine or by the electronic transmission system established under KRS 117A.030(4) to a covered voter as defined in KRS 117A.010. The covered voter shall be notified of the options for transmittal of the mail-in absentee ballot, and the mail-in absentee ballot shall be transmitted by the method chosen for receipt by the resident of Kentucky who is a covered voter.

(7) The outer envelope of the mail-in absentee ballot shall bear the words "Absentee Ballot", the address and official title of the county clerk, a printed barcode or other label that is unique to the individual voter issued by the State Board of Elections, and adequate space for the voter's signature, voting address, precinct number, and signatures of two (2) witnesses if the voter signs the form with the use of a mark instead of the voter's signature. A detachable flap on the secrecy envelope shall provide space for the voter's signature, voting address, precinct number, signatures of two (2) witnesses if the voter signs the form with the use of a mark instead of the voter's signature and notice of penalty provided in KRS 117.995(5). The county clerk shall type the voter's address and precinct number in the upper left hand corner of the outer envelope and of the detachable flap on the secrecy envelope immediately below the blank space for the voter's signature. Sealed envelopes so marked shall not be opened. The county clerk shall remove the voter's name from the list of persons who were sent mail-in absentee ballots, and the voter may vote in the precinct in which he or she is properly registered.

(9) Any voter qualified for a mail-in absentee ballot who does not receive a requested mail-in absentee ballot within a reasonable amount of time shall contact the county clerk, who shall ***issue another*** ~~[reissue a second]~~ mail-in absentee ballot. The county clerk shall keep a record of the mail-in absentee ballots issued and returned by mail, hand-delivered, or placed in a secure drop-box or receptacle, and the in-person absentee voting and federal in-person provisional absentee voting that is conducted, to verify that only the first voted ballot is counted. Upon the return of any mail-in absentee ballot after the first mail-in absentee ballot is returned, the county clerk shall mark on the outer envelope of the sealed ballot the words "Canceled because ballot reissued."

(10) Any covered voter as defined in KRS 117A.010 who has received a mail-in absentee ballot but who knows that he or she will be in the county on election day or during the days of no-excuse in-person absentee voting shall cancel his or her mail-in absentee ballot and vote in person during the days of no-excuse in-person absentee voting or on the day of the election. Sealed envelopes so marked shall not be opened. The county clerk shall remove the voter's name from the list of persons who were sent mail-in absentee ballots, allow the voter to vote by means of no-excuse in-person absentee ballot, or provide the voter with written authorization to vote at the precinct on election day. If the voter is unable to return the mail-in absentee ballot to the county clerk's office on or before election day, at the time he or she votes in person, he or she shall sign a written oath as to his or her qualifications on a form prescribed by the State Board of Elections pursuant to KRS 117.245.

(11) The State Board of Elections shall promulgate administrative regulations to:

(a) Ensure election officials have real-time knowledge of which voters have requested mail-in absentee ballots; and

(b) Provide procedures to be followed if a voter attempts to vote more than once at a primary or an election.

➔Section 6. KRS 117.086 is amended to read as follows:

In order to be counted, all mail-in absentee ballots shall be received by the county clerk no later than the time established by the election laws generally for the closing of the polls, which time shall not include the extra hour during which those voters may vote who were waiting in line to vote at the scheduled poll closing time.

(2) (a) The county clerk shall provide a minimum of one (1) secure ballot drop-box to receive voted mail-in absentee ballots for each primary, regular election, or special election. Public notice of all secure ballot receptacle locations shall be given in the same manner as provided under KRS 117.076(4), and posted to the website of the county clerk. A request under the Kentucky Open Records Act, KRS 61.870 to 61.884, for this video after an election shall be made during the sixty (60) consecutive days following the election, and the video may be disposed of after those sixty (60) days, or upon compliance with the Kentucky Open Records Act or the closure of an investigation or any litigation, including appeals, in a District, Circuit, or federal court, whichever is later.***

(e) A drop-box or receptacle located inside the county clerk's office shall be under direct supervision of the staff of the county clerk at all times and be accessible to the public.

(f)~~[(e)]~~ Each receptacle or drop-box shall be emptied by the county clerk and at least one (1) member of the county board of elections or one (1) member of the central ballot counting board if one is appointed, who is not of the same political affiliation as the county clerk at least once each business day or more frequently, as needed, to reasonably secure and accommodate the volume of the voter-delivered mail-in absentee ballots. The ballots deposited in the drop-box or receptacle shall be removed with a record of the date and time ballots were removed, and the names of the persons removing them. If the drop-box or receptacle is located outside the county clerk's office, the ballots shall be returned to the county clerk in locked transport containers, and the county clerk shall transfer the ballots upon receipt in accordance with subsection (3) of this section.

(g)~~[(f)]~~ Except for those times ballots are being removed and transported from a secure ballot drop box to the county clerk as provided in this subsection, the county clerk and at least one (1) member of the county board of elections who is not of the same political affiliation or one (1) member of the central

(h) ~~[(g)]~~ The State Board of Elections may establish additional security measures and procedures for the use of the ballot drop-box or receptacle through administrative regulations promulgated under KRS Chapter 13A.

(3) Upon receipt of a mail-in absentee ballot, the county clerk shall scan the barcode or label that is unique to the individual voter to note the receipt of the mail-in absentee ballot, and deposit all of the mail-in absentee ballots in a locked ballot box immediately upon receipt without opening the outer envelope. The ballot box shall be locked with two (2) locks. The keys to the ballot box shall be retained by at least two (2) members of the county board of elections who are not of the same political affiliation or two (2) members of the central ballot counting board if one (1) is appointed, who are not of the same political affiliation, and the box shall remain locked until the ballots are processed, reviewed, or counted under KRS 117.087.

(4) The county clerk shall keep separate lists for each election of all persons who:

Notwithstanding the provisions of the Kentucky Open Records Act, KRS 61.870 to 61.884, each list of all persons who return their mail-in absentee ballots or who cast their ballots by means of an excused in-person absentee or no-excuse in-person absentee shall not be made public until after the close of business hours on the primary or election day for which the list applies, except when provided to the county board of elections under KRS 117.087. The county clerk and the Secretary of State shall keep a record of the number of votes cast by each method listed in paragraphs (a) to (c) of this subsection, which are cast in any primary or election as a part of the official certification of the primary or election.

(5) The county board of elections shall report to the State Board of Elections within ten (10) days after any primary or regular election as to the number of rejected absentee ballots, including rejected mail-in absentee ballots and ballots cast under subsection (3) of this section, and the reasons for rejecting the ballots on a form prescribed and furnished by the State Board of Elections in administrative regulations promulgated under KRS Chapter 13A.

The voter shall indicate in the oath the specific reason that requires the voter to receive assistance. The oath shall be upon a voter assistance form prescribed and furnished by the State Board of Elections pursuant to administrative regulations promulgated under KRS Chapter 13A. Any person assisting a voter shall complete the voter assistance form.

(3) Upon making and filing the oath with the precinct clerk, the voter requiring assistance shall retire to the voting booth or ballot completion area with the precinct judges, and one (1) of the judges shall, in the presence of the other judge and the voter, complete the ballot as the voter directs. (7) In primaries, before a voter is permitted to use the voting equipment, a judge of the election shall adjust the voting equipment so that the voter will only be able to vote for the persons for whom the voter is qualified to vote.

(8) If the voting equipment is so constructed as to require adjustment after one (1) person has voted before another person may vote, the judges of election shall adjust it after each person has voted.

(9) The election officers shall constantly maintain a watch in order to prevent any person from voting more than once.

(10) For voters voting as federal provisional voters, or if supplemental paper ballots have been approved as provided in KRS 118.215, the voter shall vote his or her federal provisional or supplemental ballot in privacy in a voting booth provided for that purpose by the county clerk. (14)~~[(15)]~~ (a) Unofficial election results transmitted online to the county board of elections or the State Board of Elections shall occur by means of a secure online connection after results are tallied on the tally computer that has been certified in accordance with KRS 117.379 as part of a voting system as defined in KRS 117.001.

(b) If an external device is used to upload election results for the subsequent transmission, the device shall be used for that primary or election only and be of a type approved by the State Board of Elections as part of a voting system under KRS 117.379. The upload of the election results shall occur in the presence of two (2) members of the county board of elections who are of a different political affiliation.

All the data and figures shall be examined by the court, judge, county board of elections, State Board of Elections, or committee in the presence of the officer having the custody of the voting equipment, ballots, and ballot boxes. In the event of a contest of election, the court in which the contest is pending or the committee before which the contest is being heard may, upon motion of any party to the contest, issue an order requiring that the voting equipment, ballots, and ballot boxes shall remain continuously locked for further time as may be reasonable or necessary, with due regard for the preparation of the voting equipment for a succeeding primary, regular election, or special election, but in no event shall the order compel that the voting equipment remain locked to a time within thirty (30) days next preceding any approaching primary, regular election, or special election.

(3) During the period when the voting equipment and the ballot boxes are required to be kept locked, the keys thereto shall remain in the possession of the county board of elections. ➔Section 12. KRS 117.355 is amended to read as follows:

The report shall also include a breakdown by precinct of the number of voters requiring assistance to vote and the reasons therefor; the number of special ballots cast by category; and any other information required by the state board.

(3) Within thirty (30) days after any primary or general election, the county board of elections shall transmit the information required by KRS 117.275***(3) to (6)***~~[(4) to (7)]~~.

(4) The State Board of Elections shall issue administrative regulations under KRS Chapter 13A to prescribe the forms required by this section.

➔Section 13. KRS 117.383 is amended to read as follows:

The State Board of Elections shall promulgate administrative regulations under KRS Chapter 13A which shall maintain the maximum degree of correctness, impartiality, and efficiency of the procedures of voting and shall provide methods to:

(1) Count, tabulate, and record votes;

(2) Place items on any ballot which shall, as closely as possible, follow the requirements pertaining to ballots;

(3) Design the ballots to include a system to ensure an accurate record of all voting activities;

(4) Instruct voters in the use of the voting system, including any ballot marking device;

(5) Provide for checking the accuracy of the voting system;

(6) Provide necessary supplies, including those necessary for a write-in vote, to ensure voter privacy;

(7) Provide for the conducting and review of an audit of any component of a voting system or any voting equipment, and a review of any audit log;

(8) Provide for the conducting and review of an election audit which shall establish the protocol by which ballots are checked, compared, and verified with the results produced by vote tallying equipment to ensure accuracy through a hand-to-eye ***audit***~~[recount]~~ defined and conducted as follows:

(a) To validate the accuracy and fidelity of the vote tabulation, the Secretary of State or his or her designee shall randomly select, in all counties of the Commonwealth, one (1) ballot scanner and one (1) race tabulated on that scanner for a hand-to-eye ***audit***~~[recount]~~ to be performed by each county board of elections or its designee;

(b) The sealed ballot boxes and signed tabulator tally tape or record from election day, as established in KRS 117.275, shall be provided by the county board of elections at an agreed upon location, and shall be accessible for public viewing. The sealed ballots are only to be unsealed in the presence of the county board of elections or its designee and public witnesses;

(c) A minimum of two (2) qualified poll workers, not of the same political party, shall be selected from lists of available volunteers, sworn in by the county board of elections or its designee to do the hand-to-eye ***audit***~~[recount]~~, and compensated at the local poll worker rate. A video recording device shall be used for recording the event and it may be streamed for public internet viewing***. A request under the Kentucky Open Records Act, KRS 61.870 to 61.884, for this video after an election shall be made during the sixty (60) consecutive days following the election, and the video may be disposed of after those sixty (60) days, or upon compliance with the Kentucky Open Records Act or the closure of an investigation or any litigation, including appeals, in a District, Circuit, or federal court, whichever is later***;

(d) Ballots are to be aligned for stacking as needed, then viewed one (1) at a time, with each volunteer making a tally mark on a tally sheet for each vote cast for each candidate. Any ballots that are disputed or unclearly marked shall be set aside and the county board of elections or its designee shall determine voter intent;

(e) Once the hand-to-eye ***audit***~~[recount]~~ is completed, each volunteer shall add up the tally marks for each candidate, write down a total number of votes for each candidate, and sign the tally sheet. The county board of elections or its designee shall verify if the two (2) separate hand-to-eye tallies match. If the two (2) hand-to-eye tallies do not match each other, the process must be repeated until the totals are matching. Once this occurs, the county board of elections or its designee shall also verify the tallies by signing each tally sheet. Then, the ballots must be returned to the ballot box and resealed in the presence of the county board of elections or its designee and public witnesses;

(f) The county board of elections or its designee shall compare the signed register tape total from the vote tabulation machine on election day to the hand-to-eye tallies. If there is a discrepancy between the machine count and the hand-to-eye ***audit***~~[recount]~~, other than instances of voter intent markings outside the designated marking area on the paper ballot that were unreadable by the scanner, or unscanned overvotes resulting from two (2) or more voter intent marks on the same race, the county board of elections or its designee shall open an election investigation including a review of election day irregularity reports. If more discrepancies are found, the county board of elections or its designee shall broaden the investigation until the reason for the discrepancy is discovered and subsequently resolved. A determination as to whether the outcome of the race could have been impacted by the discrepancies shall be made and any findings shall be reported to the Attorney General and Secretary of State; and

(g) The county board of elections or its designee shall examine the electronic or paper sign-in records from the precinct or vote center and validate that the ballots cast and recounted were less than or equal to the sign-in records for that precinct or vote center. If the cast ballots for the precinct or vote center exceed the number of voters on the sign-in records for the precinct or vote center, the county board of elections shall open an election investigation and report the findings to the Attorney General and Secretary of State;

(9) Provide a method for maintaining sufficient documents, including ballots and records, so that votes can be recounted;

(10) Ensure the county board of elections produces accurate precinct-by-precinct summaries of tabulation sheets showing the results of each precinct during in-person absentee voting, election day voting, and when a county is approved to use a vote center;

(11) Except as otherwise required in this chapter, all records and papers relating to specified elections be retained for twenty-two (22) months, such documents and records shall be maintained for thirty (30) days following an election; and

(12) Unless contrary to the Help America Vote Act of 2002, ensure that all federal provisional voting shall be conducted in a manner as prescribed by KRS Chapters 116 to 120.

The declaration shall be subscribed and sworn to before an officer authorized to administer an oath by the candidate and by the two (2) voters making the declaration and signing the candidate's petition for office.

(3) When the notice and declaration has been filed with the Secretary of State or county clerk, as appropriate, and certified according to KRS 118.165, the Secretary of State or county clerk, as appropriate, shall have the candidate's name printed on the ballot according to the provisions of this chapter, except as provided in KRS 118.185.

The supervisor shall give prior approval and shall monitor compliance with the requirements of this paragraph. In the case of teachers, a professional development committee or the school council by council policy may be responsible for reviewing requests for approval.

(5) (a) 1. In setting the school calendar, school may be closed for two (2) consecutive days for the purpose of permitting professional school employees to attend statewide professional meetings.

2. These two (2) days for statewide professional meetings may be scheduled to begin with the first Thursday after Easter, or upon request of the statewide professional education association having the largest paid membership, the commissioner of education may designate alternate dates.

3. If schools are scheduled to operate during days designated for the statewide professional meeting, the school district shall permit employees who are delegates to attend as compensated professional leave time and shall employ substitute teachers in their absence.

4. The commissioner of education shall designate one (1) additional day during the school year when schools may be closed to permit professional school employees to participate in regional or district professional meetings.

5. These three (3) days so designated for attendance at professional meetings may be counted as a part of the minimum school term.

(b)~~[1.]~~ If any school in a district is used as a ***voting***~~[polling]~~ place ***pursuant to Section 2 of this Act***, the school district ***may***~~[shall]~~ be closed on the ***days***~~[day]~~ of the election, and those days may be used for professional development activities, professional meetings, or parent-teacher conferences.~~[~~

Continuing education time may include extended days, extended weeks, or extended years. A local board of education may adopt a policy requiring its students to participate in continuing education. The local policy shall set out the conditions under which attendance will be required and any exceptions which are provided. The Kentucky Board of Education shall promulgate administrative regulations establishing criteria for the allotment of grants to local school districts and shall include criteria by which the commissioner of education may approve a district's request for a waiver to use an alternative service delivery option, including providing services during the student attendance day on a limited basis. These grants shall be allotted to school districts to provide instructional programs for pupils who are identified as needing additional time to achieve the outcomes defined in KRS 158.6451. A school district that has a school operating a model early reading program under KRS 158.792 may use a portion of its grant money as part of the matching funds to provide individualized or small group reading instruction to qualified students outside of the regular classroom during the student attendance day.

(8) Notwithstanding any other statute, each school term shall include no less than the equivalent of the student instructional year in subsection (1)(f) of this section, or a variable student instructional year in subsection (1)(h) of this section, except that the commissioner of education may grant up to the equivalent of ten (10) student attendance days for school districts that have a nontraditional instruction plan approved by the commissioner of education on days when the school district is closed for health or safety reasons. The district's plan shall indicate how the nontraditional instruction process shall be a continuation of learning that is occurring on regular student attendance days. Instructional delivery methods, including the use of technology, shall be clearly delineated in the plan. Average daily attendance for purposes of Support Education Excellence in Kentucky program funding during the student attendance days granted shall be calculated in compliance with administrative regulations promulgated by the Kentucky Board of Education.

(9) The Kentucky Board of Education shall promulgate administrative regulations to prescribe the conditions and procedures for districts to be approved for the nontraditional instruction program. Administrative regulations promulgated by the board under this section shall specify:

Documentation to support the use of nontraditional instruction days shall include clear evidence of learning continuation;

(c) Timelines for initial approval as a nontraditional instruction district, length of approval, the renewal process, and ongoing evaluative procedures required of the district;

(d) Reporting and oversight responsibilities of the district and the Kentucky Department of Education, including the documentation required to show clear evidence of learning continuation during nontraditional instruction days; and

(11) Notwithstanding any other statute to the contrary, the following provisions shall apply to a school district that misses student attendance days due to emergencies, including weather-related emergencies:

(a) A certified school employee shall be considered to have fulfilled the minimum one hundred eighty-five (185) day contract with a school district under KRS 157.350 and shall be given credit for the purpose of calculating service credit for retirement under KRS 161.500 for certified school personnel if:

1. The employee works for a school district with a school calendar approved by the Kentucky Department of Education that contains a provision that additional instructional time per day shall be used to make up full days missed due to an emergency;

2. The employee's contract requires a minimum six (6) hour work day; and

3. The employee's job responsibilities and work day are extended when the instructional time is extended for the purposes of making up time.

(c) Classified employees who are regularly scheduled to work less than six (6) hours per day and who do not have additional work responsibilities as a result of lengthened student attendance days shall be excluded from the provisions of this subsection. These employees may be assigned additional work responsibilities to make up service credit under KRS 78.615 that would be lost due to lengthened student attendance days.

(10) The stabilization reserve account shall consist of amounts in two (2) separate accounts:

(a) One (1) that includes employer contributions as provided by KRS 161.550(1)(d)1. and 2. that exceeds the combined actuarially required employer contribution for the foundational benefit component and the mandatory employer contribution to the supplemental benefit component as provided by KRS 161.633 and 161.635 for those individuals who become nonuniversity members on or after January 1, 2022; and

(b) One (1) that includes employer contributions as provided by KRS 161.550(1)(e)1. and 2. that exceeds the combined actuarially required employer contribution for the foundational benefit component and the mandatory employer contribution to the supplemental benefit component as provided by KRS 161.634 and 161.636 for those individuals who become university members on or after January 1, 2022.

Notwithstanding any other statute to the contrary, funds in these accounts shall only be used to pay off the unfunded liability of the pension and life insurance funds.

➔Section 3. KRS 161.540 is amended to read as follows:

(1) (a) Each individual who becomes a contributing nonuniversity member prior to January 1, 2022, shall contribute to the retirement system twelve and eight hundred fifty-five thousandths percent (12.855%) of annual compensation, of which:

1. Nine and one hundred five thousandths percent (9.105%) of annual compensation shall be used to fund pension benefits; and

2. Three and three-quarters percent (3.75%) of annual compensation shall be used to fund retiree health benefits.

(b) Each individual who becomes a contributing university member prior to January 1, 2022, shall contribute to the retirement system ten and four-tenths percent (10.4%) of annual compensation, of which:

1. Seven and six hundred twenty-five thousandths percent (7.625%) of annual compensation shall be used to fund pension benefits; and

2. Two and seven hundred seventy-five thousandths percent (2.775%) of annual compensation shall be used to fund retiree health benefits.

(c) Each individual who becomes a contributing nonuniversity member on or after January 1, 2022, shall contribute to the retirement system fourteen and three-quarters percent (14.75%) of annual compensation, of which:

1. Nine percent (9%) of annual compensation shall be used to fund pension benefits in the foundational benefit component as described by KRS 161.633. The contribution provided by this subparagraph shall not be used to fund the supplemental benefit account as provided by KRS 161.635;

2. Two percent (2%) of annual compensation shall fund the required employee contribution in the supplemental benefit component in KRS 161.635, except that the board may direct these contributions on a prospective basis into the pension and life insurance funds to contain costs of the foundational benefit component within the provisions of KRS 161.633; and

3. Three and three-quarters percent (3.75%) of annual compensation shall be used to fund retiree health benefits.

(d) Each individual who becomes a contributing university member on or after January 1, 2022, shall contribute to the retirement system nine and seven hundred seventy-five thousandths percent (9.775%) of annual compensation, of which:

1. Five percent (5%) of annual compensation shall be used to fund pension benefits in the foundational benefit component as described by KRS 161.634. The contribution provided by this subparagraph shall not be used to fund the supplemental benefit account as provided by KRS 161.636;

2. Two percent (2%) of annual compensation shall fund the required employee contribution in the supplemental benefit component in KRS 161.636, except that the board may direct these contributions on a prospective basis into the pension and life insurance funds to contain costs of the foundational benefit component within the provisions of KRS 161.634; and

3. Two and seven hundred and seventy-five thousandths percent (2.775%) of annual compensation shall be used to fund retiree health benefits.

(e) When the ***funds established to actuarially fund pension annuities and the*** medical insurance fund established under KRS 161.420~~[(5)]~~ ***become fully funded***~~[achieves a sufficient prefunded status]~~ as determined by the ***annual actuarial valuation***~~[Retirement System's actuary]~~, the board of trustees shall

recommend to the General Assembly that the contributions required under paragraph (a)2., (b)2., (c)3., or (d)3. of this subsection shall, in an actuarially accountable manner, be either decreased, suspended, or eliminated.

(f) Payments authorized by statute that are made to retiring members, who became members of the system before July 1, 2008, for not more than sixty (60) days of unused accrued annual leave shall, subject to KRS 161.220(10), be considered as part of the member's annual compensation, and shall be used only for the member's final year of active service. Notwithstanding the provisions of this subsection or any other statute to the contrary, for retirement calculation purposes, members may only be credited for payment of annual leave under the following conditions:

1. Payment by an employer for annual leave shall be equally available to all members serving under contracts requiring the same number of worked days and greater; and

2. At least two (2) members of the employer shall receive payment for annual leave.

(g) The contribution of members shall not exceed the applicable percentages on annual compensation as set forth in this section or as where otherwise limited by statute. When a member retires, if it is determined that he or she has made contributions on a salary in excess of the amount to be included for the purpose of calculating his or her final average salary, any excess contribution shall be refunded in a lump sum to the member's employer for distribution to the member.

(2) Each public board, institution, or agency listed in KRS 161.220(4) shall, solely for the purpose of compliance with Section 414(h) of the United States Internal Revenue Code, pick up the member contributions required by this section for all compensation earned after August 1, 1982, and the contributions so picked up shall be treated as employer contributions in determining tax treatment under the United States Internal Revenue Code and KRS 141.010. The picked-up member contribution shall satisfy all obligations to the retirement system satisfied prior to August 1, 1982, by the member contribution, and the picked-up member contribution shall be in lieu of a member contribution. Each employer shall pay these picked-up member contributions from the same source of funds which is used to pay earnings to the member. The member shall have no option to receive the contributed amounts directly instead of having them paid by the employer to the system. Member contributions picked-up after August 1, 1982, shall be treated for all purposes of KRS 161.220 to 161.714 in the same manner and to the same extent as member contributions made prior to August 1, 1982.

➔Section 4. KRS 161.550 is amended to read as follows:

(1) Each employer, except as provided ***in***~~[under]~~ KRS 161.555 ***and Section 1 of this Act***, shall contribute annually to the Teachers' Retirement System a permanent employer contribution rate on behalf of each employee it employs equal to:

(c) Thirteen and sixty-five hundredths percent (13.65%) of the total annual compensation of university members who become members prior to January 1, 2022. Of this permanent employer contribution rate:

1. Ten and eight hundred seventy-five thousandths percent (10.875%) of the total annual compensation shall be used to fund pension and life insurance benefits; and

If the board of trustees establishes a trust fund under 26 U.S.C. sec. 115, the board may deposit the employer contribution provided in this subparagraph in that trust fund ***except as provided in Section 1 of this Act***;

(d) Ten and three-quarters percent (10.75%) of the total annual compensation of nonuniversity members who become members on or after January 1, 2022. Of this permanent employer contribution rate:

1. Eight percent (8%) of the total annual compensation shall be used to fund pension and life insurance benefits. The contribution provided by this subparagraph shall not be used to fund the supplemental benefit account as provided by KRS 161.635;

2. Two percent (2%) of the total annual compensation shall be used to fund the mandatory employer contribution of the supplemental benefit component, except that the board may direct these contributions on a prospective basis into the pension and life insurance funds to contain costs within the provisions of KRS 161.633; and

3. ***Except as provided in Section 1 of this Act,*** three-quarters of one percent (0.75%) of annual compensation shall be used to provide funding to the medical insurance fund as provided under KRS 161.420(5). If the board of trustees establishes a trust fund under 26 U.S.C. sec. 115, the board may deposit the employer contribution provided in this subdivision in that trust fund ***except as provided in Section 1 of this Act***; and

(e) Nine and seven hundred seventy-five thousandths percent (9.775%) of total annual compensation of university members who become members on or after January 1, 2022. Of this permanent employer contribution rate:

1. Five and seven hundred seventy-five thousandths percent (5.775%) of the total annual compensation shall be used to fund pension and life insurance benefits. The contribution provided by this subparagraph shall not be used to fund the supplemental benefit account as provided by KRS 161.636;

2. Two percent (2%) of the total annual compensation shall be used to fund the mandatory employer contribution of the supplemental benefit component, except that the board may direct these contributions on a prospective basis into the pension and life insurance funds to contain costs within the provisions of KRS 161.634; and

3. ***Except as provided in Section 1 of this Act,*** two percent (2%) of annual compensation shall be used to provide funding to the medical insurance fund as provided under KRS 161.420(5). If the board of trustees establishes a trust fund under 26 U.S.C. sec. 115, the board may deposit the employer contribution provided in this subparagraph in that trust fund ***except as provided in Section 1 of this Act***.

(2) In addition to the required contributions in subsection (1) of this section, the state shall contribute annually to the Teachers' Retirement System a percentage of the total salaries of the state-funded and federally funded members it employs to pay the cost of health insurance coverage for retirees who are not eligible for Medicare and who retire on or after July 1, 2010, less the amounts that are otherwise required to be paid by the retirees under KRS 161.675. The board shall deposit funds in the medical insurance fund unless the board of trustees has established a trust fund under 26 U.S.C. sec. 115 for this purpose. In this case, the board may deposit the employer contribution in that trust fund. This contribution shall be known as the state medical insurance fund stabilization contribution. The percentage to be contributed by the state under this subsection:

(a) Shall be determined by the retirement system's actuary for each biennial budget period;

(b) May be suspended or adjusted by the General Assembly if in its judgment the welfare of the Commonwealth so demands; and

(c) Shall not exceed the lesser of the actual benefit cost for retirees not eligible for Medicare who retire on or after July 1, 2010, or the amount contributed by employers under subsection (3) of this section.

(3) All employers who employ nonuniversity members shall make a contribution for each payroll on behalf of their active employees who participate in the Teachers' Retirement System in an amount equal to three percent (3%) of payroll of those active employees. ***Except as provided in Section 1 of this Act,*** the contribution specified by this subsection shall be used to fund retiree health benefits.

(4) When ***the funds established to actuarially fund pension annuities and*** the medical insurance fund established under KRS 161.420~~[(5)]~~ ***become fully funded***~~[achieves a sufficient prefunded status]~~ as determined by the ***annual actuarial valuation***~~[Teachers' Retirement System's actuary]~~, the board of trustees shall recommend to the General Assembly that the contributions required under subsections (1)(c)2. and (e)3. and (3) of this section shall, in an actuarially accountable manner, be either decreased, suspended, or eliminated. The decrease, suspension, or elimination in contributions required under subsection (1)(c)2. of this section shall not exceed two and twenty-five thousandths percent (2.025%) of annual compensation. The decrease, suspension, or elimination in contributions required under subsection (1)(e)3. of this section shall not exceed one and twenty-five hundredths percent (1.25%) of annual compensation.

(5) Each employer shall remit the required employer contributions to the retirement system under the terms and conditions specified for member contributions under KRS 161.560. The state shall provide annual appropriations based upon estimated funds needed to meet the requirements of KRS 161.155, 161.168, 161.507(4), 161.515, 161.545, 161.553, 161.605, 161.612, and 161.620(1), (3), (5), (6), and (7). In the event an annual appropriation is less than the amount of these requirements, the state shall make up the deficit in the next biennium budget appropriation to the retirement system. Employer contributions to the retirement system are for the exclusive purpose of providing benefits to members and annuitants and these contributions shall be considered deferred compensation to the members. This subsection shall not apply to costs applicable to individuals who become members on or after January 1, 2022.

➔Section 5. KRS 161.675 is amended to read as follows:

(1) The board of trustees shall arrange by appropriate contract or on a self-insured basis to provide a broad program of group hospital and medical insurance for present and future eligible recipients of a retirement allowance from the Teachers' Retirement System. The board of trustees may also arrange to provide health insurance coverage through an insurer licensed pursuant to Subtitle 38 of KRS Chapter 304 and offering a managed care plan as defined in KRS 304.17A-500 as an alternative to group hospital and medical insurance for persons eligible for hospital and medical benefits under this section. The board of trustees may authorize eligible recipients of a retirement allowance from the Teachers' Retirement System who are less than age sixty-five (65) to be included in the state-sponsored health insurance that is provided to active teachers and state employees under KRS 18A.225. Members who are sixty-five (65) or older and retired for service shall not be eligible to participate in the state employee health insurance program as described in KRS 18A.225.

(2) (a) The coverage provided shall be as set forth in the contracts and the administrative regulations of the board of trustees. The board of trustees may change the levels of coverage and eligibility conditions to meet the changing needs of the annuitants and, when necessary, to contain the expenses of the insurance program within the funds available to finance the insurance program, except as provided by paragraph (b) of this subsection. The contracts and administrative regulations shall provide for but not be limited to hospital room and board, surgical procedures, doctors' care in the hospital, and miscellaneous hospital costs. An annuitant whose effective date of retirement is July 1, 1974, and thereafter, must have a minimum of five (5) years' creditable Kentucky service in the Teachers' Retirement System or five (5) years of combined creditable service in the state-administered retirement systems if the member is retiring under the reciprocity provisions of KRS 61.680, 61.702, and 78.5536. An annuitant shall not elect coverage through more than one (1) of the state-administered retirement systems. The board of trustees shall offer coverage to the disabled child of an annuitant regardless of the disabled child's age if the annuitant pays the entire premium for the disabled child's coverage. A child shall be considered disabled if he ***or she*** has been determined to be eligible for federal Social Security disability benefits.

(b) Individuals who become members of the Kentucky Teachers' Retirement System on or after July 1, 2008, shall not be eligible for benefits under this section unless the member has at least fifteen (15) or more years of service credited under KRS 161.500 or another state-administered retirement system.

(3) All expenses for benefits under this section shall be paid from the funding provisions contained in KRS 161.420(5), from a trust fund established by the board under 26 U.S.C. sec. 115, premium charges received from the annuitants and the spouses, and from funds that may be appropriated or allocated by statute.

(4) (a) The board of trustees shall determine the amount of health insurance supplement payments that the Teachers' Retirement System will provide to assist eligible annuitants in paying the cost of their health

insurance, based on the funds available in the medical insurance fund and any trust fund established by the board for this purpose under 26 U.S.C. sec. 115. The board of trustees shall establish the maximum monthly amounts of health insurance supplement payments that will be made by the Kentucky Teachers' Retirement System for eligible annuitants. The board of trustees shall annually establish the percentage of the maximum monthly health insurance supplement payment that will be made, based on age and years of service credit of eligible recipients of a retirement allowance. Monthly health insurance supplement payments made by the retirement system may not exceed the amount of the single coverage insurance premium chosen by the eligible annuitants. In order to qualify for health insurance supplements, the annuitant must agree to pay the difference between the insurance premium and the applicable supplement payment, by payroll deduction from his ***or her*** retirement allowance, or by a payment method approved by the retirement system.

(b) ***1.*** The board shall, effective July 1, 2010, have the authority to charge retired members who are not paying the Standard Medicare Part B premium an amount equal to the Standard Medicare Part B premium in addition to any other payments determined by the board to be necessary to contain costs within the available funding. If the board determines that retired members who are not paying the Standard Medicare Part B premium should pay the equivalent of the Standard Medicare Part B premium, the board shall phase in the premium according to the following schedule:

July 1, 2010..... Thirty-three percent (33%)

July 1, 2011..... Sixty-seven percent (67%)

July 1, 2012, and thereafter..... One hundred percent (100%)

2. If the board requires retired members to pay the charges specified in subparagraph 1. of this paragraph, the amount payable shall not be reduced by the board until the funds established to actuarially fund pension annuities and the medical insurance fund established under Section 2 of this Act each achieve an actuarial funding level of at least one hundred percent (100%).

3. Nothing in this paragraph shall limit the board's authority to change the levels of coverage, eligibility conditions, or levels of health insurance supplement for retirees in order to contain costs within available funding.

(c) The board of trustees may offer, on a full-cost basis, health care insurance coverage provided by the retirement system to spouses and dependents of eligible annuitants not otherwise eligible for regular coverage. Recipients of a retirement allowance from the retirement system must agree to pay the cost of this coverage by payroll deduction from their retirement allowance or by a payment method approved by the retirement system.

(d) The board of trustees shall offer, on a full-cost basis, health insurance coverage provided by the retirement system to the disabled child of an annuitant, regardless of the age of the disabled child. A child shall be considered disabled for purposes of this section if the child has been determined to be eligible for federal Social Security disability benefits.

(5) The board of trustees is empowered to require the annuitant and the annuitant's spouse to pay a premium charge to assist in the financing of the hospital and medical insurance program. The board of trustees is empowered to pay the expenses for insurance coverage from the medical insurance fund, from any trust fund established by the board for this purpose under 26 U.S.C. sec. 115, from the premium charges received from the annuitants and the spouses, and from funds that may be appropriated or allocated by statute. The board may provide insurance coverage by making payment to insurance carriers including health insurance plans that are available to active and retired state employees and active teachers, institutions, and individuals for services performed, or the board of trustees may elect to provide insurance on a "self-insurance" basis or a combination of these provisions.

(6) The board of trustees may approve health insurance supplement payments to eligible annuitants who are less than sixty-five (65) years of age, as reimbursement for hospital and medical insurance premiums made by annuitants for their individual coverage. Eligible annuitants or recipients are those annuitants who are not eligible for Medicare and who do not reside in Kentucky or in an area outside of Kentucky where comparable coverage is available. The reimbursement payments shall not exceed the minimum supplement payment that would have been made had the annuitant lived in Kentucky. Eligible annuitants or recipients shall submit proof of payment to the retirement system for hospital and medical insurance that they have obtained. Reimbursement payments shall be made on a quarterly basis.

(7) Contracts negotiated may include the provision that a stated amount of hospital cost or period of hospitalization shall incur no obligation on the part of the insurance carrier or the retirement system or any trust fund established for this purpose by the board.

(8) The board of trustees is empowered to promulgate administrative regulations to assure efficient operation of the hospital and medical insurance program.

(9) Premiums paid for hospital and medical insurance coverage procured under authority of this section shall be exempt from any premium tax which might otherwise be required under KRS Chapter 136. The payment of premiums by the medical insurance fund or another trust fund established by the board for this purpose shall not constitute taxable income to an insured recipient.

(10) In the event that a member is providing services on less than a full-time basis under KRS 161.605, the retirement system may pay the full cost of the member's health insurance coverage for the full fiscal year that the member is providing those services, at the conclusion of which, the retirement system may then bill the active employer and the active employer shall reimburse the retirement system for the cost of the health insurance coverage incurred by the retirement system on a pro rata basis for the time that the member was employed by the active employer.

CHAPTER 137

(HCR 22)

A CONCURRENT RESOLUTION declaring that nuclear power generation is a clean and dispatchable means of providing baseload electricity to the residents and businesses of the Commonwealth.

WHEREAS, for decades, a moratorium on the construction of nuclear power facilities in Kentucky caused the Commonwealth to fall behind the rest of the country in the development and deployment of nuclear power, including the neighboring states of Illinois, Tennessee, Ohio, and Virginia; and

WHEREAS, in 2017, the General Assembly lifted the long-standing nuclear moratorium in the Commonwealth with the passage of Senate Bill 11; and

WHEREAS, in 2023, the General Assembly passed Senate Joint Resolution 79 to convene a working group of state officials and representatives of the utility and nuclear industries to advise the General Assembly on the establishment of a permanent nuclear energy commission to provide for the education, coordination of resources, and professional expertise necessary to foster the development of the nuclear industry in the Commonwealth; and

WHEREAS, as a result of the report produced by the Nuclear Energy Development Working Group, and with the passage of Senate Bill 198 in 2024, the General Assembly established the Kentucky Nuclear Energy Development Authority to serve as the nonregulatory, trusted state government agency on nuclear energy issues and to support and facilitate the development of the nuclear energy ecosystem across the Commonwealth; and

WHEREAS, interest in developing the nuclear energy industry in Kentucky has never been greater for many reasons, including the emergence of promising new nuclear technologies like small modular reactors that may be useful in a range of applications in the Commonwealth and the need for new baseload energy generation to be sited in the Commonwealth in order to maintain the resiliency and reliability of the electric grid; and

WHEREAS, nuclear power should be an important part of the Commonwealth's all of the above energy approach; and

WHEREAS, nuclear power is an excellent option for generating large amounts of baseload electricity that is reliable, dispatchable, and produces no emissions while in operation; and

WHEREAS, the practice of reprocessing spent nuclear fuel for reuse reduces the volume of high-level wastes produced from the nuclear energy generation process and decreases demand for new fuel, both of which contribute to the cleanliness of nuclear energy as a baseload electricity source; and

WHEREAS, the nuclear industry is among the most thoroughly tested and regulated industries in the world, and nuclear power plants constructed in the United States are well designed to withstand natural disasters like floods, droughts, earthquakes, and hurricanes, as well as man-made threats;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky, the Senate concurring therein:

➔Section 1. The General Assembly finds and declares that nuclear power generation is a clean and dispatchable means of providing baseload electricity to the residents and businesses of the Commonwealth, and that adding nuclear power to Kentucky's energy portfolio would result in a more resilient and reliable electric grid.

➔Section 2. The General Assembly further finds that adding nuclear power generation to Kentucky's energy portfolio in a timely manner is more important than ever given the speed of ongoing retirements of fossil fuel-fired generation resources in the Commonwealth, which have provided reliable and dispatchable baseload electricity for decades but are being replaced with intermittent and less reliable generation resources that are not capable of providing baseload power.

Signed by Governor March 31, 2025.

CHAPTER 138

(SB 9)

AN ACT relating to teacher benefit provisions and declaring an emergency.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

➔Section 1. KRS 161.155 is amended to read as follows:

(1) As used in this section:

(a) "Teacher" shall mean any person for whom certification is required as a basis of employment in the common schools of the state;

(b) "Employee" shall mean any person, other than a teacher, employed in the public schools, whether on a full or part-time basis;

(c) "Immediate family" shall mean the teacher's or employee's spouse, children including stepchildren and foster children, grandchildren, daughters-in-law and sons-in law, brothers and sisters, parents and spouse's parents, and grandparents and spouse's grandparents, without reference to the location or residence of said relative, and any other blood relative who resides in the teacher's or employee's home;

(d) "Sick leave bank" shall mean an aggregation of sick leave days contributed by teachers or employees for use by teachers or employees who have exhausted all sick leave and other available paid leave days; and

(e) "Assault" shall mean an act that intentionally causes injury so significant that the victim is determined to be, by certification of a physician or surgeon duly qualified under KRS Chapter 342, incapable of performing the duties of his or her job.

(2) Each district board of education shall allow to each teacher and full-time employee in its common school system not less than ten (10) days of sick leave during each school year, without deduction of salary. Sick leave shall be granted to a teacher or employee if he or she presents a personal statement or a certificate of a physician stating that the teacher or employee was ill, that the teacher or employee was absent for the purpose of attending to a member of his or her immediate family who was ill, or for the purpose of mourning a member of his or her immediate family. The ten (10) days of sick leave granted in this subsection may be taken by a teacher or employee on any ten (10) days of the school year and shall be granted in addition to accumulated sick leave days that have been credited to the teacher or employee under the provisions of subsection (4) of this section.

(3) A school district shall coordinate among the income and benefits from workers' compensation, temporary disability retirement, and district payroll and benefits so that there is no loss of income or benefits to a teacher or employee for work time lost because of an assault while performing the teacher's or employee's assigned duties for a period of up to one (1) year after the assault. In the event a teacher or employee suffers an assault while performing his or her assigned duties that results in injuries that qualify the teacher or employee for workers' compensation benefits, the district shall provide leave to the teacher or employee for up to one (1) year after the assault with no loss of income or benefits under the following conditions:

(a) The district shall pay the salary of the teacher or employee between the time of the assault and the time the teacher's or employee's workers' compensation income benefits take effect, or the time the teacher or employee is certified to return to work by a physician or surgeon duly qualified under KRS Chapter 342, whichever is sooner;

(b) The district shall pay, for up to one (1) year from the time of the assault, the difference between the salary of the teacher or employee and any workers' compensation income benefits received by the teacher or employee resulting from the assault. Payments by the district shall include payments for intermittent work time missed as a result of the assault during the one (1) year period. If the teacher's or employee's workers' compensation income benefits cease during the one (1) year period after the assault, the district shall also cease to make payments under this paragraph;

(c) The Commonwealth, through the Kentucky Department of Education, shall make the employer's health insurance contribution during the period that the district makes payments under paragraphs (a) and (b) of this subsection;

(d) The Commonwealth, through the Kentucky Department of Education, shall make the employer's contribution to the retirement system in which the teacher or employee is a member during the period that the district makes payments under paragraphs (a) and (b) of this subsection; and

(e) Payments to a teacher or employee under paragraphs (a) and (b) of this subsection shall be coordinated with workers' compensation benefits under KRS Chapter 342, disability retirement benefits for teachers under KRS 161.661 to 161.663, and disability retirement benefits for employees under KRS 61.600 to 61.621 and 78.5522, 78.5524, 78.5526, 78.5528, and 78.5530 so that the teacher or employee receives income equivalent to his or her full contracted salary, but in no event shall the combined payments exceed one hundred percent (100%) of the teacher's or employee's full contracted salary.

(4) Days of sick leave not taken by an employee or a teacher during any school year shall accumulate without limitation and be credited to that employee or teacher. Accumulated sick leave may be taken in any school year. Any district board of education may, in its discretion, allow employees or teachers in its common school system sick leave in excess of the number of days prescribed in this section and may allow school district employees and teachers to use up to three (3) days' sick leave per school year for emergency leave pursuant to KRS 161.152(3). Any accumulated sick leave days credited to an employee or a teacher shall remain so credited in the event he or she transfers his or her place of employment from one (1) school district to another within the state or to the Kentucky Department of Education or transfers from the Department of Education to a school district.

(5) Accumulated days of sick leave shall be granted to a teacher or employee if, prior to the opening day of the school year, a statement or a certificate of a physician is presented to the district board of education, stating that the teacher or employee is unable to commence his or her duties on the opening day of the school year, but will be able to assume his or her duties within a period of time that the board determines to be reasonable.

(6) Any school teacher or employee may repurchase previously used sick leave days with the concurrence of the local school board by paying to the district an amount equal to the total of all costs associated with the used sick leave.

(7) A district board of education may adopt a plan for a sick leave bank. The plan may include limitations upon the number of days a teacher or employee may annually contribute to the bank and limitations upon the number of days a teacher or employee may annually draw from the bank. Only those teachers or employees who contribute to the bank may draw upon the bank. Days contributed will be deducted from the days available to the contributing teacher or employee. The sick leave bank shall be administered in accordance with a policy adopted by the board of education.

(8) (a) A district board of education shall establish a sick leave donation program to permit teachers or employees to voluntarily contribute sick leave to teachers or employees in the same school district who are in need of an extended absence from school. A teacher or employee who has accrued more than fifteen (15) days' sick leave may request the board of education to transfer a designated amount of sick leave to another teacher or employee who is authorized to receive the sick leave donated. A teacher or employee may not request an amount of sick leave be donated that reduces his or her sick leave balance to less than fifteen (15) days.

(b) A teacher or employee may receive donations of sick leave if:

1. a. The teacher or employee or a member of his or her immediate family suffers from a medically certified illness, injury, impairment, or physical or mental condition that has caused or is likely to cause the teacher or employee to be absent for at least ten (10) days; or

b. The teacher or employee suffers from a catastrophic loss to his or her personal or real property, due to either a natural disaster or fire, that either has caused or will likely cause the employee to be absent for at least ten (10) consecutive working days;

2. The teacher's or employee's need for the absence and use of leave are certified by a licensed physician for leave requested under subparagraph 1.a. of this subsection;

3. The teacher or employee has exhausted his or her accumulated sick leave, personal leave, and any other leave granted by the school district; and

4. The teacher or employee has complied with the school district's policies governing the use of sick leave.

(c) While a teacher or employee is on sick leave provided by this section, he or she shall be considered a school district employee, and his or her salary, wages, and other employee benefits shall not be affected.

(d) Any sick leave that remains unused, is not needed by a teacher or employee, and will not be needed in the future shall be returned to the teacher or employee donating the sick leave.

(e) The board of education shall adopt policies and procedures necessary to implement the sick leave donation program.

(9) ***(a)*** A teacher or employee may use up to thirty (30) days of sick leave following the birth or adoption of a child or children. Additional days may be used when the need is verified by a physician's statement.

(b) On or before July 1, 2030, each school district shall establish a policy to provide up to thirty (30) paid maternity leave days for a teacher or employee who gives birth to a child. The maternity leave days shall be used without deduction of salary and shall be used prior to the teacher or employee using any other leave. Any maternity leave days unused by the teacher or employee shall not transfer into sick leave or be converted to any other leave type and shall expire upon return to work. This paragraph shall not limit a school district's authority to establish additional paid maternity benefits or to provide paid parental leave benefits.

(10) (a) ~~[After July 1, 1982,]~~A district board of education may compensate, at the time of retirement or upon the death of a member in active contributing status at the time of death who was eligible to retire by reason of service, an employee or a teacher, or the estate of an employee or teacher, for each unused sick leave day. The rate of compensation for each unused sick leave day shall be based on a percentage of the daily salary rate calculated from the employee's or teacher's last annual salary, not to exceed thirty percent (30%).

(b) Except as provided in paragraph (c) of this subsection, payment for unused sick leave days under this subsection shall be incorporated into the annual salary of the final year of service for inclusion in the calculation of the employee's or teacher's retirement allowance only at the time of his or her initial retirement, provided that the member makes the regular retirement contribution for members on the sick leave payment. The accumulation of these days includes unused sick leave days held by the employee or teacher at the time of implementation of the program.

(c) For a teacher or employee who becomes a nonuniversity member of the Teachers' Retirement System on or after January 1, 2022, as provided by KRS 161.220, payment for unused sick leave days under this subsection shall not be incorporated into the annual compensation used to calculate the teacher's or employee's retirement allowance in the foundational benefit component as described by KRS 161.633 but may be deposited into the nonuniversity member's supplemental benefit component as provided by KRS 161.635.

(d) For a teacher or employee who begins employment with a local school district on or after July 1, 2008, the maximum amount of unused sick leave days a district board of education may recognize in calculating the payment of compensation to the teacher or employee under this subsection shall not exceed three hundred (300) days.

(e) 1. Actuarial costs to the Teachers' Retirement System for the inclusion of payment for unused sick leave days that are eligible for compensation under paragraph (b) of this subsection shall be funded in accordance with this paragraph.

2. The state shall pay the actuarial costs for the compensation attributable to the actual unused sick leave accrued as of June 30, 2025, plus annual adjustments to the sick leave balance each

fiscal year thereafter, based upon the sick leave accrued or used by the teacher or employee, not to exceed thirteen (13) additional days per year. Unused sick leave payable by the state shall not include any annual leave described by KRS 161.540(1)(f) or the cost of unused sick days for employees retiring from agencies listed in KRS 161.220(4)(d) and (f).

3. The last employer who is compensating the unused sick day as provided in paragraph (a) of this subsection shall pay the actuarial costs of compensation for unused sick leave days not paid by the state under subparagraph 2. of this paragraph. Upon the teacher's or employee's retirement, the Teachers' Retirement System shall bill the last employer for the cost of the unused sick days, and the employer shall pay the costs within fifteen (15) days after receiving notification of the cost from the system.

4. The actuarial costs of the unused sick days shall be the amount payable for unused sick days after the fixed statutory employee and employer contributions have been paid as provided in KRS 161.540 and 161.550(1) and that is necessary to fund the benefit.

(f) For the fiscal year ending June 30, 2025, and each fiscal year thereafter, each school district shall annually report to the Teachers' Retirement System the sick leave balances for each teacher and employee who is a member of the Teachers' Retirement System. The report shall include for each teacher or employee:

1. The sick leave days accrued at the beginning of the fiscal year;

2. The sick leave days accrued during the fiscal year;

3. Any other days of leave added to the sick leave balance during the fiscal year by rollover, conversion, or any other method;

4. The sick leave days used during the fiscal year; and

5. The sick leave balance at the end of the fiscal year.

The board of trustees of the Teachers' Retirement System shall be responsible for final determination of membership eligibility and may direct employers to take whatever action that may be necessary to correct any error relating to membership.

(2) Service credit shall be forfeited upon withdrawal. If a member again enters service it shall be as a new member, except that any teacher who withdraws by claiming his or her deposits may repay the system the amount withdrawn plus interest and reestablish his or her service credit as provided in subsection (3) of this section.

(3) Effective July 1, 1988, and thereafter, an active contributing member of the retirement system with contributing service equal to one (1) year may regain service credit by depositing in the teachers' savings fund the amount withdrawn with interest at the rate to be set by the board of trustees, and computed from the first of the month of withdrawal and including the month of redeposit.

(4) Effective July 1, 1974, any active contributing member with at least two (2) years of contributing service credit who declined membership as provided in Acts 1938 (1st Ex. (b) Following marriage or remarriage, or the death of the designated beneficiary, a retiree may elect a new optional plan of payment based on the actuarial equivalent of a single lifetime benefit at the time of the election, as determined by the board. (3) Except as otherwise provided in this section, a beneficiary designation shall not be changed after the effective date of retirement except for retirees who elect the life annuity with refundable balance or the predetermined years certain and life thereafter option. If a member elects to remove a beneficiary, the member's retirement allowance shall not change regardless of the retirement option selected by the member, even if the removed beneficiary predeceases the member. ***A member who is subject to the beneficiary designation restriction of this subsection shall only be allowed to name a new beneficiary when experiencing a qualifying event under subsection (2) of this section, and shall make this change within the deadline established in subsection (4) of this section.***

(4) A member who experiences a qualifying event under subsection (2) of this section and who elects a new optional plan of payment shall make that election within sixty (60) days of the qualifying event. ***The deadline for electing a new optional plan of payment or for changing a beneficiary shall not be subject to the jurisdiction of any court or appeal process, nor shall it otherwise be tolled or waived.***

(6) This section only applies to individuals who become university members of the Teachers' Retirement System on or after January 1, 2022.

(2) The retirement system may impose a penalty on the employer not to exceed one thousand dollars ($1,000) when the employer does not meet the August 1 filing date or fails to provide the information required for employment of annuitants of the retirement system. However, the retirement system may waive the penalty for good cause.

(3) The retirement system may promulgate administrative regulations in accordance with KRS Chapter 13A to require employers to report more frequently than on an annual basis.

➔Section 15. KRS 161.661 is amended to read as follows:

(1) (a) Any member who is accredited by the Teachers' Retirement System for five (5) or more years of service in Kentucky after July 1, 1941, may retire for disability and be granted a disability allowance if found to be eligible as provided in this section. Application for disability benefits shall be made within one (1) year of the last contributing service in Kentucky, and the disability must have occurred during the most

recent period of employment in a position covered by the Teachers' Retirement System and subsequent to the accreditation by the Teachers' Retirement System of five (5) years of retirement system service credit in Kentucky. ***The deadline for filing an application for disability benefits shall not be subject to the jurisdiction of any court or appeal process, nor shall it otherwise be tolled or waived.*** A disability occurring during the regular vacation immediately following the last period of active service in Kentucky or during an official leave for which the member is entitled to make regular contributions to the retirement system, shall be considered as having occurred during a period of active service.

(b) The annual disability allowance shall be equal to sixty percent (60%) of the member's final average salary.

(c) The following individuals shall not be eligible for disability benefits under this section:

1. Members with twenty-seven (27) or more years of service credit; and

2. Individuals who become members on or after July 1, 2021, who are eligible for an unreduced benefit under KRS 161.600(1)(b)2. or (d).

(2) The provisions of KRS 161.520, 161.525, and subsections (3), (4), and (5) of this section shall not apply to disability retirees whose benefits were calculated on the service retirement formula nor to survivors of these members.

(3) Members shall earn one (1) year of entitlement to disability retirement, at sixty percent (60%) of the member's final average salary, for each four (4) years of service in a covered position, but any member meeting the service requirement for disability retirement shall be credited with no less than five (5) years of eligibility.

(4) A member retired by reason of disability shall continue to earn service credit at the rate of one (1) year for each year retired for disability. This service shall be credited to the member's account at the expiration of entitlement as defined in subsection (3) of this section, or when the member's eligibility for disability benefits is terminated upon recommendation of a medical review committee, and this service shall be used in calculating benefits as provided in subsection (5) of this section, but under no circumstances shall this service be used to provide the member with more than twenty-seven (27) years of total service credit. The service credit shall be valued at the same level as service earned by active members as provided under KRS 161.600 or 161.620.

(5) Any member retired by reason of disability and remaining disabled at the expiration of the entitlement period shall have his or her disability benefits recalculated using the service retirement formula with service credit earned as set out in subsection (4) of this section. The retirement allowance shall be calculated as set forth in KRS 161.620, except that those persons less than sixty (60) years of age shall be considered as sixty (60) years of age. Members having their disability benefits recalculated under this subsection shall not be entitled to a benefit based upon an average of their three (3) highest salaries as set forth in KRS 161.220(9), unless approved otherwise by the board of trustees.

(6) Members who have their disability retirement allowance recalculated at the expiration of the entitlement period shall continue to have coverage under the post-retirement medical insurance program. Restrictions on employment shall remain in effect until the member attains age seventy (70) or until the member's eligibility is discontinued. KRS 161.520 and 161.525 shall not apply to survivors of disability retirees whose retirement allowances have been recalculated at the expiration of the entitlement period. Members who have their disability retirement allowance recalculated at the expiration of their entitlement period shall be entitled to a minimum monthly allowance of five hundred dollars ($500) as the basic straight life annuity. The minimum allowance shall be effective July 1, 1992, and shall apply to those members who have had their allowance recalculated prior to that date and to disability retirees who will have their benefit allowance recalculated on or after that date. For individuals who become members on or after July 1, 2021, disability retirement payments and any other recurring payments payable by any other state-administered retirement system shall be applied to reduce, on a dollar-for-dollar basis, the minimum monthly disability retirement allowance payable under this subsection.

(7) Effective July 1, 1992, members retired for disability prior to July 1, 1964, shall be entitled to a minimum monthly allowance of five hundred dollars ($500) as their basic straight life annuity and their surviving spouse shall be eligible for survivor benefits as provided in KRS 161.520(1)(a) and (b).

(8) Any member retired by reason of disability may voluntarily waive disability benefits and ~~[return to teaching or]~~any member, who is ***immediately eligible for service retirement***~~[age sixty (60) years or older]~~, may elect to

waive disability benefits and retire for service on the basis of service credited to the member on the effective date of the disability retirement.

(9) In order to qualify for retirement by reason of disability a member must suffer from a physical or mental condition presumed to be permanent in duration and of a nature as to render the member incapable of being gainfully employed in a covered position. The incapability must be revealed by a competent examination by a licensed physician or physicians and must be approved by a majority of a medical review committee.

(10) A member retired by reason of disability shall be required to undergo periodic examinations at the discretion of the board of trustees to determine whether the disability allowance shall be continued. When examination and recommendation of a medical review committee indicate the disability no longer exists, the allowance shall be discontinued. ***Failure to undergo examinations and provide the Teachers' Retirement System with requested medical documentation shall result in a suspension of disability benefits.***

(11) Eligibility for payment shall begin on the first day of the month following receipt of the application in the Teachers' Retirement System office, or the first of the month next following the last payment of salary or sick leave benefits by the employer, whichever is the later date.

(12) No person who receives a disability allowance may be employed in a position that entails duties or qualification requirements similar to positions subject to participation in the retirement system either within or without the State of Kentucky. So doing shall constitute a misdemeanor and shall result in loss of the allowance from the first date of this service. For purposes of this subsection and subsection (13) of this section, "employment" and "occupation," and derivatives thereof, mean any activity engaged in by the member receiving disability allowance from which income is earned. A member who applies for and is approved for disability retirement on or after July 1, 2002, and whose annual disability benefit is less than forty thousand dollars ($40,000) may earn income in any occupation other than covered employment only to the extent that the annual income from the other employment when added to the annual disability benefit does not exceed forty thousand dollars ($40,000). For any member who exceeds this limit as a result of income from other employment, the Kentucky Teachers' Retirement System shall reduce the member's disability benefit on a dollar-for-dollar basis for each dollar that the member's combined annual disability benefit and annual income from other employment exceeds forty thousand dollars ($40,000). The board of trustees may annually increase the forty thousand dollar ($40,000) limit by the percentage increase in the annual average of the consumer price index for all urban consumers for the most recent calendar year as published by the Federal Bureau of Labor Statistics, not to exceed five percent (5%). The retirement system may require income ***and employment*** verification from the member, including but not limited to copies of tax returns and federal forms W-2 and W-4P. ***Failure to provide the Teachers' Retirement System with requested income and employment verification documentation shall result in a suspension of disability benefits. Submission of false or fraudulent documentation shall, in addition to criminal penalties, result in disqualification of all disability benefits from the date the fraudulent documentation was submitted.***

(13) All members who applied for disability retirement before July 1, 2002, and were approved as a result of that application shall be subject to the income limitations as they existed on June 30, 2002, until July 1, 2006. Effective July 1, 2006, the twenty-seven thousand dollar ($27,000) limitation shall be increased to forty thousand dollars ($40,000) and may be adjusted by the board of trustees by the consumer price index in the manner described in subsection (12) of this section. The recipient of a disability allowance who engages in any gainful occupation other than covered employment must make a report of the duties involved, compensation received, and any other pertinent information required by the board of trustees. The retirement system may require income ***and employment*** verification from the member, including but not limited to copies of tax returns and federal forms W-2 and W-4P. ***Failure to provide the Teachers' Retirement System with requested income and employment verification documentation shall result in a suspension of disability benefits. Submission of false or fraudulent documentation shall, in addition to criminal penalties, result in disqualification of all disability benefits from the date the fraudulent documentation was submitted.***

(14) The board of trustees shall designate medical review committees, each consisting of three (3) licensed physicians. A medical review committee shall pass upon all applications for disability retirement and upon all applicant statements, medical certifications, and examinations submitted in connection with disability applications. The disposition of each case shall be recommended by a medical review committee in writing to the retirement system. Members of a medical review committee shall follow administrative regulations regarding procedures as the board of trustees may enact and shall be paid reasonable fees and expenses as authorized by the board of trustees in compliance with the provisions of KRS 161.330 and 161.340. The retirement system may secure additional medical examinations and information as it deems necessary. A member may appeal any final agency decision denying his or her disability retirement application pursuant to

the provisions of KRS 161.250(2). ***In the event of such an appeal, the member and his or her legal counsel shall be entitled to all written recommendations and reports submitted by the medical review committee to the Teachers' Retirement System. Such recommendations and reports shall otherwise be maintained in a confidential manner and shall not be subject to release under any conditions, including in response to a subpoena or order issued by a court of law notwithstanding any other statute to the contrary.***

(15) A disability may be presumed to be permanent if the condition creating the disability may be reasonably expected to continue for one (1) year or more from the date of application for disability benefits.

(16) Any member who has voluntarily waived disability benefits or whose disability benefits have been discontinued on recommendation of a medical review committee, may apply for reinstatement of disability benefits. The application for reinstatement must be made to the retirement system within twelve (12) months of the date disability benefits terminated. If the termination of benefits were voluntary, the reinstatement may be made without medical examination if application is made within three (3) months of the termination date. Other applications for reinstatement will be processed in the same manner as new applications for benefits.

(17) No person who is receiving disability benefits under this section may be employed in a position which qualifies the person for membership in a retirement system financed wholly or in part with public funds. Employment in a position prohibited by this subsection shall result in disqualification for those disability benefits from the date of employment in the prohibited position.

(18) Any person who is receiving benefits and becomes disqualified from receiving those benefits under this section, or becomes disqualified from receiving a portion of those benefits due to income from other than covered employment, shall immediately notify the Teachers' Retirement System of this disqualification in writing and shall return all benefits paid after the date of disqualification. Failure to comply with these provisions shall create an indebtedness of that person to the Teachers' Retirement System. Interest at the rate of eight percent (8%) per annum***, beginning on the date the written notice of disqualification is sent,*** shall be charged if the debt is not repaid within sixty (60) days after the date of ***written notice of*** disqualification. Failure to repay this debt creates a lien in favor of the Teachers' Retirement System upon all property of the person who improperly receives benefits and does not repay those benefits. The Teachers' Retirement System may, in order to collect an outstanding debt, reduce or terminate any benefit that a member is otherwise entitled to receive.

(19) Notwithstanding any other provision of this section to the contrary, individuals who become members on or after January 1, 2022, shall be eligible for an actuarially determined disability benefit as prescribed by the board of trustees via administrative regulations promulgated by the board. The board of trustees shall arrange by appropriate contract or on a self-insured basis a disability plan to provide the disability benefits and may adjust the benefits in accordance with KRS 161.633(3) or 161.634(3).

➔Section 16. KRS 161.680 is amended to read as follows:

(1) If any change or error in a record results in any individual receiving from the retirement system more or less than the individual was entitled to receive ***as determined by the board of trustees or staff of the Teachers' Retirement System***, the board of trustees ***or staff*** shall, when the error is discovered, correct the error, and as far as practicable adjust the payments so that the actuarial equivalent of the benefit to which the individual was entitled shall be paid.

(2) The Teachers' Retirement System shall take all practicable and cost-effective steps to collect overpayments from a member's or retiree's account. Methods of correction of overpayments from any member's or retiree's account shall include but are not limited to reclamation of the overpayment from the member's or retiree's account at the depository bank, the deduction of moneys from account refunds, deduction from the retirement allowance or joint and survivor annuity payable from the account, and deduction of moneys from the life insurance benefit. Collection of overpayments shall be initiated regardless of the designated beneficiary for any amounts payable from the account.

In the event an annual appropriation is less than the amount of these requirements, the state shall make up the deficit in the next biennium budget appropriation to the retirement system. Employer contributions to the retirement system are for the exclusive purpose of providing benefits to members and annuitants and these contributions shall be considered deferred compensation to the members. (2) An audit of the employers listed in subsection (4) of Section 2 of this Act to determine if any listed employers are providing coverage in the Teachers' Retirement System for other entities on a contract basis, through a memorandum of agreement, or other method. The audit shall provide a listing of each employer providing the retirement coverage, a listing of entities for which retirement coverage is being provided through the employer and the number of employees covered for each entity, and any estimated costs to the state for providing the Teachers' Retirement System coverage to these entities; and

(3) An audit of the Teachers' Retirement System's annual leave program established by KRS 161.540(1)(f) to report the agencies that are including annual leave payments in a retiring employee's final average salary as defined in Section 2 of this Act, to report the policies of each agency participating in the annual leave program and the number of employees covered by the policy of each agency, to evaluate how annual leave is reported to the system and whether changes should be made to annual leave reporting process to the system to ensure proper cost estimates, and a review of the cost of the annual leave program that is required to be disclosed in the annual valuation as required by Section 5 of this Act.

➔Section 22. Whereas ensuring the accuracy of data and costs of the sick leave programs provided by the Teachers' Retirement System will ensure the reliability of future pension costs, an emergency is declared to exist, and this Act takes effect upon its passage and approval by the Governor or upon its otherwise becoming a law.

(2) (a) During the term of an easement the landowner and the landowner's assigns, agents, or leasees shall not perform, nor knowingly allow others to perform, any act on or affecting the restricted land that is inconsistent with the provisions of this section. The landowner shall be deemed to have authorized the PACE board to enforce these provisions.

(b) Unless otherwise specified, the landowner shall not be required to take any action to restore the condition of the restricted land after any act of God or other event over which the landowner had no control.

(c) Nothing in the PACE Program shall relieve the landowner of any obligation or restriction on the use of the property imposed by law.

(d) The Commonwealth shall not locate landfills, sewage treatment plants, or other public service facilities that are not compatible with or complimentary to agricultural production on restricted lands.

(3) (a) To retain the agricultural viability of the restricted land, the PACE board shall require, and the owner of the restricted land shall implement, a conservation plan approved by the soil and water conservation district. This plan shall be updated every ten (10) years and any time the basic farming operation conducted on restricted lands is changed. All farming operations shall be conducted substantially in accordance with the plan.

(b) In addition to the requirements established by the soil and water conservation district, the conservation plan shall require that:

2. The excavation of soil, sand, gravel, stone, or other materials for use in agricultural production on the restricted land is consistent with subsection (4)(h) of this section and is conducted in a location and manner that retains the viability of the restricted land for agricultural production; and

(c) All existing single-family residential dwellings may be repaired, reasonably enlarged, and replaced at their current locations without further permission of the PACE board. No new single-family residential dwellings may be built on the restricted land without the advance approval of the PACE board. The PACE board shall give approval within a reasonable time, unless it determines that a proposed dwelling

would not be properly located or would significantly diminish the agricultural production capacity of the restricted land.

The term "granting of rights-of-way" includes the right to construct or install the lines. The construction or installation of utility lines other than the types stated in this paragraph is prohibited on the restricted land.

The PACE board shall give approval within a reasonable time, unless it determines that the proposed paving or covering of the soil, or the location of any road, will substantially diminish or impair the agricultural productivity of the restricted land.

(g) Trees may be cut to control insects and disease, to prevent personal injury and property damage, and for firewood and other domestic uses, including construction of permitted buildings and fences on the restricted land. Trees may also be cut to clear land for cultivation or use of livestock, but only if done in accordance with the conservation plan required by subsection (3) of this section. Any commercial timber harvesting on the restricted land shall be conducted on a sustainable yield basis and in substantial accordance with a forest management plan prepared by a competent professional forester.

(h) The mining or extraction of soil, sand, gravel, rock, oil, natural gas, fuel or any other mineral substance, using any method that disturbs the surface of the land, is prohibited without the advance written approval of the PACE board. The PACE board shall give approval within a reasonable time, unless it determines that the proposed mining or extraction will substantially diminish or impair the agricultural productivity of the restricted land.

(i) The dumping or accumulation of any kind of trash or refuse on the restricted land is prohibited. However, this shall not prevent the storage of agricultural products and by-products on the restricted land, so long as it is done in accordance with all applicable laws, administrative regulations, and ordinances.

(j) Golf courses are prohibited on the restricted land. Buildings and facilities for any other public or private recreational use may not be built on the restricted land without the advance written approval of the PACE board. The PACE board shall not give approval unless it determines that the proposed use or facilities will not substantially diminish or impair the agricultural productivity of the restricted land.

(k) Notwithstanding any other provision of this section to the contrary, upon a proper application, which shall include supporting documentation from the appropriate federal agency, the PACE board may give its written approval of a proposal to erect structures, roads, and pathways on the surface of the restricted land as long as:

1. An underground training facility for federal agency personnel exists below the restricted land surface;

b. Provides documentation of the county fiscal court's consent to the construction of the proposed structures, roads, or pathways; and

c. Agrees in writing to all of the requirements for the exemption as established by the PACE board.

These ownership rights include, but are not limited to, the right to exclude any member of the public from trespassing on the restricted land and the right to sell or otherwise transfer the restricted land to anyone of the landowner's choice.

CHAPTER 144

(HB 441)

AN ACT relating to reemployment after retirement in the Teachers' Retirement System.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

➔Section 1. KRS 161.605 is amended to read as follows:

Any member retired by reason of service may return to work in a position covered by the Kentucky Teachers' Retirement System and continue to receive his or her retirement allowance under the following conditions:

(1) Any member who is retired with thirty (30) or more years of service may return to work in a full-time or a part-time position, or in a position providing substitute teaching service, covered by the Teachers' Retirement System and earn up to a maximum of seventy-five percent (75%) of the member's last annual compensation measured on a daily rate to be determined by the board of trustees. For purposes of determining whether the salary of a member returning to work is seventy-five percent (75%) or less of the member's last annual compensation, all remuneration paid and benefits provided to the member, on an actual dollar or fair market value basis as determined by the retirement system, excluding employer-provided medical insurance required under subsection ***(4)***~~[(5)]~~ of this section, shall be considered. Members who were retired on or before June 30, 2002, shall be entitled to return to work under the provisions of this section as if they had retired with thirty (30) years of service. Nonqualified service credit purchased under the provisions of KRS 161.5465 or elsewhere with any state-administered retirement system shall not be used to meet the thirty (30) year requirement set forth in this subsection. Out-of state teaching service provided in public schools for kindergarten through grade twelve (12) may count toward the thirty (30) year requirement set forth in this subsection even if it is not purchased as service credit, if the member obtains from his or her out-of-state employer certification of this service on forms prescribed by the retirement system;

(2) Any member who is retired with less than thirty (30) years of service after June 30, 2002, may return to work in a full-time or part-time position, or in a position providing substitute teaching service, covered by the Teachers' Retirement System and earn up to a maximum of sixty-five percent (65%) of the member's last annual compensation measured on a daily rate to be determined by the board of trustees. For purposes of determining whether the salary of a member returning to work is sixty-five percent (65%) or less of the member's last annual compensation, all remuneration paid and benefits provided to the member, on an actual dollar or fair market value basis as determined by the retirement system, excluding employer-provided medical insurance required under subsection ***(4)***~~[(5)]~~ of this section, shall be considered;

(3) ~~[Reemployment of a retired member under subsection (1) or (2) of this section in a full-time teaching or nonteaching position in a local school district shall be permitted only if the employer certifies to the Kentucky Teachers' Retirement System that there are no other qualified applicants available to fill the teaching or nonteaching position. The employer may use any source considered reliable, including but not limited to data provided by the Education Professional Standards Board and the Department of Education, to determine whether other qualified applicants are available to fill the teaching or nonteaching position. The Kentucky Board of Education shall promulgate administrative regulations to establish procedures to determine whether other qualified applicants are available to fill a teaching or nonteaching position and, if not, for filling the~~

~~position with a retired member who will then be permitted to return to work in that position under subsection (1) or (2) of this section. The administrative regulations shall ensure that a retired member shall not be hired in a teaching or nonteaching position by a local school district until the superintendent of the school district assures the Kentucky Teachers' Retirement System that every reasonable effort has been made to recruit other qualified applicants for the position on an annual basis;~~

~~(4) ~~]Under this section, an employer may employ full-time a number of retired members not to exceed ***ten***~~[three]~~ percent ***(10%)***~~[(3%)]~~ of the membership actively employed full-time by that employer. The board of trustees may reduce this ***ten***~~[three]~~ percent ***(10%)***~~[(3%)]~~ cap upon recommendation of the retirement system's actuary if a reduction is necessary to maintain the actuarial soundness of the retirement system. The board of trustees may increase the ***ten***~~[three]~~ percent ***(10%)***~~[(3%)]~~ cap upon a determination that an increase is warranted to help address a shortage in the number of available teachers and upon the determination of the retirement system's actuary that the proposed cap increase allows the actuarial soundness of the retirement system to be maintained. For purposes of this subsection, "full-time" means the same as defined by KRS 161.220(21). A local school district may exceed the quota established by this subsection by making an annual written request to the Kentucky Department of Education which the department may approve on a year-by-year basis~~[if the statewide quota has not been met. A district's written request to exceed its quota shall be submitted no sooner than two (2) weeks after the start of the school year]~~;

(4)~~[(5)]~~ (a) Except as provided by subsection ***(9)***~~[(10)]~~ of this section, a member returning to work in a full-time or part-time position, or in a position providing substitute teaching service, under subsection (1) or (2) of this section shall contribute to an account with the retirement system that shall be administered independently from and with no reciprocal impact with the member's original retirement account, or any other account from which the member is eligible to draw a retirement allowance.

(b) Except as provided by subsection ***(9)***~~[(10)]~~ of this section, a member returning to work under subsection (1) or (2) of this section shall make contributions to the retirement system at the rate provided under KRS 161.540. The new account shall independently meet all vesting requirements as well as all other conditions set forth in KRS 161.600(1) or (2), as applicable, before any retirement allowance is payable from this account. The retirement allowance accruing under this new account shall be calculated pursuant to KRS 161.620. This new account shall not entitle the member to a duplication of the benefits offered under KRS 161.620(7) or 161.675, nor shall this new account provide the benefits offered by KRS 161.520, 161.525, 161.620(3), 161.655, 161.661, or 161.663.

(c) A member returning to work under subsection (1) or (2) of this section shall waive his or her medical insurance with the Teachers' Retirement System during the period of reemployment and shall receive the medical insurance coverage that is generally provided by the member's active employer to the other members of the retirement system that the active employer employs. If medical insurance coverage is not available from the employer, the Kentucky Teachers' Retirement System may provide coverage for the member.

(d) A member returning to work under subsection (1) or (2) of this section shall not be eligible to purchase service credit for any service provided after the member's effective date of retirement but prior to the date that the member returns to work. A member returning to work under subsection (1) or (2) of this section shall not be eligible to purchase service credit that the member would have otherwise been eligible to purchase prior to the member's initial retirement.

(e) A member who returns to work under subsection (1) or (2) of this section, or in the event of the death of the member, the member's estate or applicably designated beneficiary, shall be entitled, within ninety (90) days of the posting of the annual report submitted by the employer, to a refund of contributions as permitted and limited by KRS 161.470;

(5)~~[(6)]~~ The board of trustees may annually, on July 1, adjust the current daily rate of a member's last annual compensation, for each full twelve (12) month period that has elapsed subsequent to the member earning his or her last annual compensation, by the percentage increase in the annual average of the consumer price index for all urban consumers for the calendar year preceding the adjustment as published by the Federal Bureau of Labor Statistics, not to exceed five percent (5%) annually. Each annual adjustment shall become part of the member's daily rate base. Failure to comply with the salary limitations set forth in subsections (1) and (2) of this section as may be adjusted by this subsection shall result in a reduction of the member's retirement allowance or any other benefit to which the member would otherwise be entitled on a dollar-for-dollar basis for each dollar that the member exceeds these salary limitations, and the member shall be refunded his or her retirement contributions made on the compensation that exceeds these salary limitations. Notwithstanding any other provision of law to the contrary, a member retiring from a local school district who returns to work for a

local school district under subsection (1) or (2) of this section shall be entitled, without any reduction to his or her retirement allowance or any other retirement benefit, to earn a minimum amount equal to one hundred seventy dollars ($170) per day;

(6)~~[(7)]~~ (a) A retired member returning to work under subsection (1) or (2) of this section shall have separated from service for a period of at least one (1) year if returning to work for the same employer on a full-time basis, and at least three (3) months if returning to work for a different employer on a full-time basis. A retired member returning to work under subsection (1) or (2) of this section on a part-time basis shall have separated from service for a period of at least three (3) months before returning to work for any employer.

(b) As an alternative to the separation-from-service requirements in paragraph (a) of this subsection, a retired member who is returning to work for the same employer in a full-time position under subsections (1) and (2) of this section may elect a separation-from-service of not less than two (2) months followed by a forfeiture of the retired member's retirement allowance on a month-to-month basis for each month that the member has separated from service for less than twelve (12) full months. A retired member returning to work for the same employer in a part-time position, or for a different employer in a full-time position, may elect an alternative separation-from-service requirement of at least two (2) months followed by a forfeiture of the member's retirement allowance for one (1) month. During the period that the member forfeits his or her retirement allowance and thereafter, member and employer contributions shall be made to the retirement system as a result of employment in any position subject to membership in the retirement system. The member shall contribute to an account with the retirement system subject to the conditions set forth in subsection ***(4)***~~[(5)]~~ of this section.

(c) A retired member who is returning to work for an employer that has employees who participate in the Teachers' Retirement System shall comply with the separation-from-service requirements in this subsection before performing any service for the employer, regardless of whether the retired member is providing service in a position covered by the Teachers' Retirement System.

(d) The starting date for any separation from service required under this subsection shall be the effective date of the member's retirement.

(e) The separation-from-service requirements of this subsection are not met if there is a prearranged agreement between the member and an employer that has employees who participate in the Teachers' Retirement System prior to retirement for the member to work for the employer after retirement.

(f) The Teachers' Retirement System may require the member and the employer for which the member is returning to work to certify in writing on a form prescribed by the Teachers' Retirement System that no prearranged agreement was or will be entered into between the member and employer prior to retirement for the member to work for the employer after retirement.

(g) Failure to comply with the separation-from-service requirements in this subsection voids a member's retirement and the member shall be required to return all the retirement benefits he or she received, with interest, for the period of time that the member returned to work without a sufficient separation from service;

(7)~~[(8)]~~ (a) Effective July 1, 2004, local school districts may employ retired members in full-time or part-time teaching or administrative positions ***in critical shortage areas*** without limitation on the compensation of the retired members that is otherwise required by subsections (1) and (2) of this section.~~[Under provisions of this subsection, a local school district may only employ retired members to fill critical shortage positions for which there are no other qualified applicants as determined by the local superintendent.]~~ The number of retired members that a local school district may employ under this subsection shall be no more than ***four (4)***~~[two (2)]~~ members per local school district or ***ten***~~[one]~~ percent ***(10%)***~~[(1%)]~~ of the total active members employed by the local school district on a full-time basis as defined under KRS 161.220(21), whichever number is greater. Retired members returning to work under this subsection shall be subject to the separation-from-service requirements set forth in subsection ***(6)***~~[(7)]~~ of this section. Retired members returning to work under this subsection shall waive their medical insurance coverage with the retirement system during their period of reemployment and receive medical insurance coverage that is offered to other full-time members employed by the local school district. Retired members returning to work under this subsection shall contribute to an account subject to the conditions set forth in subsection ***(4)***~~[(5)]~~ of this section. Retired members returning to work under this subsection shall make contributions to the retirement system at the rate provided under KRS 161.540. The employer shall make contributions at the rate provided under KRS 161.550. Local school

districts shall make annual payments to the retirement system on the compensation paid to the reemployed retirees at the rates determined by the retirement system's actuary that reflect any accrued liability resulting from the reemployment of these members.

(b) The Department of Education may employ retired members in full-time or part-time teaching or nonteaching positions without the limitations on compensation otherwise required by subsections (1) and (2) of this section to fill critical shortage areas in the schools it operates, including the Kentucky School for the Blind~~[,]~~ ***and*** the Kentucky School for the Deaf,~~[and the Kentucky Virtual High School,]~~ and to serve on audit teams. The department shall be subject to the same requirements as local school districts as provided in paragraph (a) of this subsection, except the Teachers' Retirement System shall determine the maximum number of employees that may be employed under this paragraph;

(8)~~[(9)]~~ The return-to-work limitations set forth in this section shall apply to retired members who are returning to work in the same position from which they retired, or a position substantially similar to the one from which they retired, or a position described in KRS 161.046 or any position listed in KRS 161.220(4) which requires membership in the retirement system. Positions which generally require certification or graduation from a four (4) year college or university as a condition of employment which are created, or changed to remove the position from coverage under KRS 161.220(4) are also subject to the return to work limitations set forth in this section. The board of trustees shall determine whether employment in a nonteaching position is subject to this subsection;

(9)~~[(10)]~~ (a) Notwithstanding the provisions of this section, individuals who become members on or after January 1, 2022, who subsequently retire and begin drawing a monthly lifetime retirement allowance from the Teachers' Retirement System, who following retirement are reemployed with an employer participating in the Teachers' Retirement System, shall not be eligible to contribute to or earn benefits in a second retirement account in the Teachers' Retirement System during the period of reemployment.

(b) The provisions of subsections (1) to ***(7)***~~[(8)]~~ of this section are not subject to KRS 161.714;~~[~~

~~(11) Any member retired by reason of service may waive his or her annuity and return to full-time employment in a position covered by the Teachers' Retirement System under the following conditions:~~

~~(a) The member shall receive no annuity payments while employed in a covered position, shall waive his or her medical insurance coverage with the Teachers' Retirement System during the period of reemployment, and shall receive the medical insurance coverage that is generally offered by the member's active employer to the other members of the retirement system employed by the active employer. The member's estate or, if there is a beneficiary applicably designated by the member, then the beneficiary, shall continue to be eligible for life insurance benefits as provided in KRS 161.655. Service subsequent to retirement shall not be used to improve an annuity, except as provided in paragraphs (b) and (c) of this subsection;~~

~~(b) Any member who waives regular annuity benefits and returns to teaching or covered employment shall be entitled to make contributions on the salaries received for this service and have his or her retirement annuity recalculated as provided in the regular retirement formula in KRS 161.620(1), less any applicable actuarial discount applied to the original retirement allowance due to the election of a joint and last survivor option. Retirement option and beneficiary designation on original retirement shall not be altered by postretirement employment, and dependents and spouses of the members shall not become eligible for benefits under KRS 161.520, 161.525, or 161.661 because of postretirement employment;~~

~~(c) When a member returns to full-time teaching or covered employment as provided in subsection (b) of this section, the employer is required to withhold and remit regular retirement contributions. The member must be employed full-time for at least one (1) consecutive contract year to be eligible to improve an annuity. The member shall be returned to the annuity rolls on July 1 following completion of the contract year or on the first day of the month following the month of termination of service if full-time employment exceeds one (1) consecutive contract year. A member shall not be returned to the annuity rolls until after he or she has filed a retirement application in compliance with KRS 161.600(6). Any discounts applied at the time of the original retirement due to service or age may be reduced or eliminated due to additional employment if full-time employment is for one (1) consecutive contract year or longer; and~~

~~(d) A member retired by reason of service who has been employed the equivalent of twenty-five (25) days or more during a school year under KRS 161.605 may waive the member's retirement annuity and~~

~~return to regular employment covered by the Teachers' Retirement System during that school year a maximum of one (1) time during any five (5) year period, beginning with that school year;]~~

(10) ~~[(12)]~~ Retired members may be employed in a part-time teaching capacity by an agency described in KRS 161.220(4)(b) or (n), not to exceed the equivalent of twelve (12) teaching hours in any one (1) fiscal year. Retired members may be employed for a period not to exceed the equivalent of one hundred (100) days in any one (1) fiscal year in a part-time administrative or nonteaching capacity by an agency described in KRS 161.220(4)(b) or (n) in a position that would otherwise be covered by the retirement system. Except as otherwise provided by this subsection, the return to work provisions set forth in subsections (1) to ***(7)*** ~~[(8)]~~ of this section shall not apply to retired members who return to work solely for an agency described in KRS 161.220(4)(b) or (n). Calculation of the number of days and teaching hours for part-time teaching, substitute teaching, or part-time employment in a nonteaching capacity under this section shall not exceed the ratio between a school year and the actual months of retirement for the member during that school year. The board of trustees by administrative regulation may establish fractional equivalents of a day of teaching service. Any member who exceeds the twelve (12) hour or one hundred (100) day limitations of this subsection shall be subject to having his or her retirement voided and be required to return all retirement allowances and other benefits paid to the member or on the member's behalf since the effective date of retirement. In lieu of voiding a member's retirement, the system may reduce the member's retirement allowance or any other benefit to which the member would otherwise be entitled on a dollar-for-dollar basis for each dollar of compensation that the member earns in employment exceeding twelve (12) hours, one hundred (100) days, or any apportionment of the two (2) combined. Retired members returning to work for an employer described in KRS 161.220(4)(b) or (n) shall comply with the separation-from-service requirements of subsection ***(6)*** ~~[(7)]~~ of this section;

(11) ~~[(13)]~~ When a retired member returns to employment in a part-time teaching capacity or in a nonteaching capacity as provided in subsection ***(10)*** ~~[(12)]~~ of this section, the employer shall contribute annually to the retirement system on the compensation paid to the retired member at rates determined by the retirement system actuary that reflect accrued liability for retired members who return to work under subsection ***(10)*** ~~[(12)]~~ of this section; and

(12) ~~[(14)]~~ For retired members who return to work during any one (1) fiscal year in both a position described in KRS 161.220(4)(b) or (n) and in a position described under another provision under KRS 161.220(4), and for retired members who return to work in a position described under KRS 161.220(4)(b) or (n) in both a teaching and an administrative or nonteaching capacity, the board of trustees shall adopt a methodology for a pro rata apportionment of days and hours that the retired member may work in each position.

(13) Notwithstanding any other provision of KRS 161.220 to 161.716 to the contrary, an annuitant who has returned to work following retirement with an employer that does not participate in the state-administered retirement systems shall not be required to take health insurance coverage through the employer and the system shall continue to provide health insurance coverage and benefits to the annuitant during the period of employment, except as may be required by the Medicare Secondary Payer Act under 42 U.S.C. sec. 1395y(b).

➔Section 2. KRS 156.106 is amended to read as follows:

➔Section 10. KRS 157.360 is amended to read as follows:

(1) (a) In determining the cost of the program to support education excellence in Kentucky, the statewide guaranteed base funding level, as defined in KRS 157.320, shall be computed by dividing the amount appropriated for this purpose by the prior year's statewide average daily attendance.

(b) When determining the biennial appropriations for the program, the average daily attendance for each fiscal year shall include an estimate of the number of students graduating early under the provisions of KRS 158.142.

(2) Each district shall receive an amount equal to the base funding level for each pupil in average daily attendance in the district in the previous year, except a district shall receive an amount equal to one-half (1/2) of the state portion of the average statewide per pupil guaranteed base funding level for each student who graduated early under the provisions of KRS 158.142. Each district's base funding level shall be adjusted by the following factors:

(a) The number of at-risk students in the district. At-risk students shall be identified as those approved for the free lunch program under state and federal guidelines. The number of at-risk students shall be multiplied by a factor to be established by the General Assembly. Funds generated under this paragraph may be used to pay for:

1. Alternative programs for students who are at risk of dropping out of school before achieving a diploma; and

2. A hazardous duty pay supplement as determined by the local board of education to the teachers who work in alternative programs with students who are violent or assaultive;

(b) The number and types of exceptional children in the district as defined by KRS 157.200. Specific weights for each category of exceptionality shall be used in the calculation of the add-on factor for exceptional children; and

(c) Transportation costs. The per-pupil cost of transportation shall be calculated as provided by KRS 157.370. Districts which contract to furnish transportation to students attending nonpublic schools may adopt any payment formula which ensures that no public school funds are used for the transportation of nonpublic students.

(3) Beginning with the 2015-2016 school year and each year thereafter, the General Assembly shall annually allocate funds equal to one-half (1/2) of the state portion of the average statewide per pupil guaranteed base funding level for each student who graduated early under the provisions of KRS 158.142 the previous school year to the Kentucky Higher Education Assistance Authority for deposit in the early graduation scholarship trust fund.

(4) The program to support education excellence in Kentucky shall be fully implemented by the 1994-95 school year.

(5) (a) Except for those schools which have implemented school-based decision making, the commissioner of education shall enforce maximum class sizes for every academic course requirement in all grades except in vocal and instrumental music, and physical education classes. Except as provided in subsection (6) of this section, the maximum number of pupils enrolled in a class shall be as follows:

1. Twenty-four (24) in primary grades (kindergarten through third grade);

2. Twenty-eight (28) in grade four (4);

3. Twenty-nine (29) in grades five (5) and six (6);

(c) The commissioner of education, upon approval of the Kentucky Board of Education, shall adopt administrative regulations for enforcing this provision. These administrative regulations shall include procedures for a superintendent to request an exemption from the Kentucky Board of Education when unusual circumstances warrant an increased class size for an individual class. A request for an exemption shall include specific reasons for the increased class size with a plan for reducing the class size prior to the beginning of the next school year. A district shall not receive in any one (1) year exemptions for more classes than enroll twenty percent (20%) of the pupils in the primary grades and grades four (4) through eight (8).

(d) In all schools the commissioner of education shall enforce the special education maximum class sizes set by administrative regulations adopted by the Kentucky Board of Education. A superintendent may request an exemption pursuant to paragraph (c) of this subsection. A local school council may request a waiver pursuant to KRS 156.160(2). An exemption or waiver shall not be granted if the increased class size will impede any exceptional child from achieving his or her individual education program in the least restrictive environment.

(6) In grades four (4) through six (6) with combined grades, the maximum class size shall be the average daily attendance upon which funding is appropriated for the lowest assigned grade in the class. There shall be no exceptions to the maximum class size for combined classes. In combined classes other than the primary grades, no ungraded students shall be placed in a combined class with graded students. In addition, there shall be no more than two (2) consecutive grade levels combined in any one (1) class in grades four (4) through six (6). However, this shall not apply to schools which have implemented school-based decision making.

(7) If a local school district, through its admission and release committee, determines that an appropriate program in the least restrictive environment for a particular child with a disability includes either part-time or full-time enrollment with a private school or agency within the state or a public or private agency in another state, the school district shall count as average daily attendance in a public school the time that the child is in attendance at the school or agency, contingent upon approval by the commissioner of education.

(8) Pupils attending a center for child learning and study established under an agreement pursuant to KRS 65.210 to 65.300 shall, for the purpose of calculating average daily attendance, be considered as in attendance in the school district in which the child legally resides and which is party to the agreement. For purposes of subsection (1) of this section, teachers who are actually employees of the joint or cooperative action shall be considered as employees of each school district which is a party to the agreement.

(9) Program funding shall be increased when the average daily attendance in any district for the first two (2) months of the current school year is greater than the average daily attendance of the district for the first two (2) months of the previous school year. The program funds allotted the district shall be increased by the percent of increase. The average daily attendance in kindergarten is the kindergarten full-time equivalent pupils in average daily attendance.

(10) If the average daily attendance for the current school year in any district decreases by ten percent (10%) or more than the average daily attendance for the previous school year, the average daily attendance for purposes of calculating program funding for the next school year shall be increased by an amount equal to two-thirds (2/3) of the decrease in average daily attendance. If the average daily attendance remains the same or decreases in the succeeding school year, the average daily attendance for purposes of calculating program funding for the following school year shall be increased by an amount equal to one-third (1/3) of the decrease for the first year of the decline.

(11) If the percentage of attendance of any school district shall have been reduced more than two percent (2%) during the previous school year, the program funding allotted the district for the current school year shall be increased by the difference in the percentage of attendance for the two (2) years immediately prior to the current school year less two percent (2%).

(12) (a) Instructional salaries for vocational agriculture classes shall be for twelve (12) months per year. Vocational agriculture teachers shall be responsible for the following program of instruction during the time period beyond the regular school term established by the local board of education: supervision and instruction of students in agriculture experience programs; group and individual instruction of farmers and agribusinessmen; supervision of student members of agricultural organizations who are involved in

leadership training or other activity required by state or federal law; or any program of vocational agriculture established by the Department of Education. During extended employment, no vocational agriculture teacher shall receive salary on a day that the teacher is scheduled to attend an institution of higher education class which could be credited toward meeting any certification requirement.

(b) Each teacher of agriculture employed shall submit an annual plan for summer program to the local school superintendent for approval. The summer plan shall include a list of tasks to be performed, purposes for each task, and time to be spent on each task. Approval by the local school superintendent shall be in compliance with the guidelines developed by the Department of Education. The supervision and accountability of teachers of vocational agriculture's summer programs shall be the responsibility of the local school superintendent. The local school superintendent shall submit to the commissioner of education a completed report of summer tasks for each vocational agriculture teacher. Twenty percent (20%) of the approved vocational agriculture programs shall be audited annually by the State Department of Education to determine that the summer plan has been properly executed.

(13) (a) In allotting program funds for home and hospital instruction, statewide guaranteed base funding, excluding the capital outlay, shall be allotted for each child in average daily attendance in the prior school year who has been properly identified according to Kentucky Board of Education administrative regulations. Attendance shall be calculated pursuant to KRS 157.270 and shall be reported monthly on forms provided by the Department of Education; and

(b) Pursuant to administrative regulations of the Kentucky Board of Education, local school districts shall be reimbursed for home and hospital instruction for pupils unable to attend regular school sessions because of short-term health impairments. A reimbursement formula shall be established by administrative regulations to include such factors as a reasonable per hour, per child allotment for teacher instructional time, with a maximum number of funded hours per week, a reasonable allotment for teaching supplies and equipment, and a reasonable allotment for travel expenses to and from instructional assignments, but the formula shall not include an allotment for capital outlay. Attendance shall be calculated pursuant to KRS 157.270 and shall be reported annually on forms provided by the Department of Education.

(14) Except for those schools which have implemented school-based decision making and the school council has voted to waive this subsection, kindergarten aides shall be provided for each twenty-four (24) full-time equivalent kindergarten students enrolled.

(15) Effective July 1, 2001, there shall be no deduction applied against the base funding level for any pupil in average daily attendance who spends a portion of his or her school day in a program at a state-operated career and technical education or vocational facility.

(16) During a fiscal year, a school district may request that the Department of Education recalculate its funds allocated under this section if the current year average daily attendance for the twenty (20) day school month as defined in KRS 158.060***(2)*** ~~[(1)]~~ that contains the most days within the calendar month of January exceeds the prior year adjusted average daily attendance plus growth by at least one percent (1%). Any adjustments in the allotments approved under this subsection shall be proportional to the remaining days in the school year and subject to available funds under the program to support education excellence in Kentucky.

(17) To calculate the state portion of the program to support education excellence in Kentucky for a school district, the Department of Education shall subtract the local effort required under KRS 157.390(5) from the calculated base funding under the program to support education excellence in Kentucky, as required by this section. The value of the real estate used in this calculation shall be the lesser of the current year assessment or the prior year assessment increased by four percent (4%) plus the value of current year new property. The calculation under this subsection shall be subject to available funds.

(18) Notwithstanding any other statute or budget of the Commonwealth language to the contrary, time missed due to shortening days for emergencies may be made up by lengthening school days in the school calendar without any loss of funds under the program to support education excellence in Kentucky.

➔Section 11. KRS 156.070 is amended to read as follows:

(5) The state student assessments shall include the following components:

(a) Elementary and middle grades requirements are:

(6) Each school district shall administer the statewide student assessment during the last fourteen (14) days of school in the district's instructional calendar. The Kentucky Board of Education may change the testing window to allow for innovative assessment systems or other online test administration and shall promulgate administrative regulations that minimize the number of days of testing and outline the procedures to be used during the testing process to ensure test security, including procedures for testing makeup days, and to comply with federal assessment requirements.

(7) A student enrolled in a district-operated or district-contracted alternative program shall participate in the appropriate assessments required by this section.

(8) A local school district may select and use commercial interim or formative assessments or develop and use its own formative assessments to provide data on how well its students are growing toward mastery of Kentucky academic standards, so long as the district's local school board develops a policy minimizing the reduction in instructional time related to the administration of the interim assessments. Nothing in this section precludes teachers from using ongoing teacher-developed formative processes.

(9) Each school that enrolls primary students shall use diagnostic assessments and prompts that measure readiness in reading and mathematics for its primary students as determined by the school to be developmentally appropriate. The schools may use commercial products, use products and procedures developed by the district, or develop their own diagnostic procedures. The results shall be used to inform the teachers and parents or guardians of each student's skill level.

(10) The state board shall ensure that a technically sound longitudinal comparison of the assessment results for the same students shall be made available.

(11) The following provisions shall apply to the college admissions examination described in subsection (5)(b)5. of this section:

(a) The cost of the college admissions examination administered to students in high school shall be paid for by the Kentucky Department of Education. The costs of additional college admissions examinations shall be the responsibility of the student;

(b) If funds are available, the Kentucky Department of Education shall provide a college admissions examination preparation program to all public high school juniors. The department may contract for necessary services; and

(c) Accommodations provided to a student with a disability taking the college admissions assessment under this subsection shall consist of:

1. Accommodations provided in a manner allowed by the college admissions assessment provider when results in test scores are reportable to a postsecondary institution for admissions and placement purposes, except as provided in subparagraph 2. of this paragraph; or

2. Accommodations provided in a manner allowed by a student's individualized education program as defined in KRS 158.281 for a student whose disability precludes valid assessment of his or her academic abilities using the accommodations provided under subparagraph 1. of this paragraph when the student's scores are not reportable to a postsecondary institution for admissions and placement purposes.

(12) Kentucky teachers shall have a significant role in providing feedback about the design of the assessments, except for the college admissions exam described in subsection (5)(b)5. of this section. The assessments shall be designed to:

(a) Measure grade appropriate core academic content, basic skills, and higher-order thinking skills and their application;

(b) Provide valid and reliable scores for schools. If scores are reported for students individually, they shall be valid and reliable;

(c) Minimize the time spent by teachers and students on assessment; and

(d) Assess Kentucky academic standards only.

(13) The results from assessment under subsections (3) and (5) of this section shall be reported to the school districts and schools no later than seventy-five (75) days following the last day the assessment can be administered. Assessment reports provided to the school districts and schools shall include an electronic copy of an operational subset of test items from each assessment administered to their students and the results for each of those test items by student and by school.

(14) The Department of Education shall gather information to establish the validity of the assessment and accountability program. It shall develop a biennial plan for validation studies that shall include but not be limited to the consistency of student results across multiple measures, the congruence of school scores with documented improvements in instructional practice and the school learning environment, and the potential for all scores to yield fair, consistent, and accurate student performance level and school accountability decisions. The cabinet or its designated representative shall participate in an investigation of noncustodial physical abuse or neglect at the request of the local law enforcement agency or the Department of Kentucky State Police. The cabinet shall participate in all investigations of reported or suspected sexual abuse or human trafficking of a child.

(4) School personnel or other persons listed in KRS 620.030(2) do not have the authority to conduct internal investigations in lieu of the official investigations outlined in this section.

(5) (a) If, after receiving the report, the law enforcement officer, the cabinet, or its designated representative cannot gain admission to the location of the child, a search warrant shall be requested from, and may be issued by, the judge to the appropriate law enforcement official upon probable cause that the child is dependent, neglected, or abused. If, pursuant to a search under a warrant, a child is discovered and appears to be in imminent danger, the child may be removed by the law enforcement officer.

(b) If a child who is in a hospital or under the immediate care of a physician appears to be in imminent danger if he or she is returned to the persons having custody of him or her, the physician or hospital administrator may hold the child without court order, provided that a request is made to the court for an emergency custody order at the earliest practicable time, not to exceed seventy-two (72) hours.

(c) Any appropriate law enforcement officer may take a child into protective custody and may hold that child in protective custody without the consent of the parent or other person exercising custodial control or supervision if there exist reasonable grounds for the officer to believe that the child is in danger of imminent death or serious physical injury, is being sexually abused, or is a victim of human trafficking and that the parents or other person exercising custodial control or supervision are unable or unwilling to protect the child. The officer or the person to whom the officer entrusts the child shall, within twelve (12) hours of taking the child into protective custody, request the court to issue an emergency custody order.

(d) When a law enforcement officer, hospital administrator, or physician takes a child into custody without the consent of the parent or other person exercising custodial control or supervision, he or she shall provide written notice to the parent or other person stating the reasons for removal of the child. Failure of the parent or other person to receive notice shall not, by itself, be cause for civil or criminal liability.

(e) 1. If a report includes a child fatality or near fatality, and the law enforcement officer has reasonable grounds to believe any parent or person exercising custodial control or supervision of the child was under the influence of alcohol or drugs at the time the fatality or near fatality occurred, the law enforcement officer shall request a test of blood, breath, or urine from that person.

2. If, after making the request, consent is not given for the test of blood, breath, or urine, a search warrant shall be requested from and may be issued by the judge to the appropriate law enforcement official upon probable cause that a child fatality or near fatality has occurred and that the person exercising custodial control or supervision of the child at the time of the fatality or near fatality was under the influence.

3. Any test requested under this section shall be conducted pursuant to the testing procedures and requirements in KRS 189A.103.

(6) The cabinet shall make efforts as soon as practicable to determine any military status of a parent or legal guardian of a child who is the subject of an investigation or assessment pursuant to this section. If the cabinet determines that the parent or legal guardian is a member of the United States Armed Forces, the cabinet shall notify the Department of Defense family advocacy program operating within the service member's assigned installation of the investigation or assessment and provide case information.

(c) The multidisciplinary team shall review child sexual abuse cases and child human trafficking cases involving commercial sexual activity referred by participating professionals, including those in which the alleged perpetrator does not have custodial control or supervision of the child or is not responsible for the child's welfare. The purpose of the multidisciplinary team shall be to review investigations, assess service delivery, and to facilitate efficient and appropriate disposition of cases through the criminal justice system.

(d) The team shall hold regularly scheduled meetings if new reports of sexual abuse or child human trafficking cases involving commercial sexual activity are received or if active cases exist. At each meeting, each active case shall be presented and the agencies' responses assessed.

(e) The multidisciplinary team shall provide an annual report to the public of nonidentifying case information to allow assessment of the processing and disposition of child sexual abuse cases and child human trafficking cases involving commercial sexual activity.

(f) Multidisciplinary team members and anyone invited by the multidisciplinary team to participate in a meeting shall not divulge case information, including information regarding the identity of the victim or source of the report. Team members and others attending meetings shall sign a confidentiality statement that is consistent with statutory prohibitions on disclosure of this information.

(g) The multidisciplinary team shall, pursuant to KRS 431.600 and 431.660, develop a local protocol consistent with the model protocol issued by the Kentucky Multidisciplinary Commission on Child Sexual Abuse. The local team shall submit the protocol to the commission for review and approval.

(h) The multidisciplinary team review of a case may include information from reports generated by agencies, organizations, or individuals that are responsible for investigation, prosecution, or treatment in the case, KRS 610.320 to KRS 610.340 notwithstanding.

(i) To the extent practicable, multidisciplinary teams shall be staffed by the local children's advocacy center.

(9) Nothing in this section shall limit the cabinet's investigatory authority under KRS 620.050 or any other obligation imposed by law.

➔Section 7. KRS 620.048 is amended to read as follows:

(1) During a child protective services investigation conducted pursuant to the authority in this chapter where ***there is a safety plan negotiated and agreed upon between the cabinet and the parent, guardian, person in a position of authority or special trust, as defined in KRS 532.045, or other person having custodial control or supervision of the child or responsibility for his or her welfare that the child cannot safely remain in the home***~~[a child is placed outside of his or her home on a safety plan]~~, the cabinet shall file a petition in court within seventy-two (72) hours if the child remains placed outside of his or her home for more than fourteen (14) consecutive days.

(3) By December 1, 2024, and quarterly thereafter, the cabinet shall make available, on its website and to the Legislative Research Commission for referral to the Interim Joint Committee, Senate Standing Committee, and House Standing Committee on Families and Children, the report on safety plans established in subsection (2) of this section.

The cabinet may accept any gift, devise, or bequest made to it for its purposes.

(2) The cabinet shall establish a reimbursement system, within existing appropriation amounts, for foster parents that comes as close as possible to meeting the actual cost of caring for foster children. The cabinet shall consider providing additional reimbursement for foster parents who obtain additional training, and foster parents who have served for an extended period of time. In establishing a reimbursement system, the cabinet shall, to the extent possible within existing appropriation amounts, address the additional cost associated with providing care to children with exceptional needs.

(3) The cabinet shall review reimbursement rates paid to foster parents and shall issue a report upon request comparing the rates paid by Kentucky to the figures presented in the Expenditures on Children by Families Annual Report prepared by the United States Department of Agriculture and the rates paid to foster parents by other states. To the extent that funding is available, reimbursement rates paid to foster parents shall be increased on an annual basis to reflect cost of living increases.

(4) The cabinet is encouraged to develop pilot projects both within the state system and in collaboration with private child caring agencies to test alternative delivery systems and nontraditional funding mechanisms.

zoning regulations, the provision of quality, affordable housing through qualified manufactured homes serves an essential public purpose.

(2) As used in this section, unless the context requires otherwise:

(a) "Compatibility standards" means standards that have been enacted by a local government under the authority of this section for the purpose of protecting and preserving the monetary value of real property located within the local government's jurisdiction;

3. Placed at a depth below grade adequate to prevent frost damage***, in accordance with the manufacturer's installation requirements and KRS 227.570***.
