

STATE BOARD OF ELECTIONS
(New Administrative Regulation)

31 KAR 5:025. Ballot Standards and Election Security.

RELATES TO: KRS 117.001, 117.085, 117.086, 117.087, 117.145, 117.225, 117.228

STATUTORY AUTHORITY: KRS 117.015(1)(a)

NECESSITY, FUNCTION, AND CONFORMITY: KRS 117.015(1)(a) authorizes the State Board of Elections to promulgate administrative regulations necessary to properly carry out its duties. Several Kentucky Revised Statutes require the State Board of Elections to promulgate administrative regulations that provide for measures that establish standards for the ballots used during elections, as well as, measures that ensure that votes cast during an election are done so in a free, fair, and secure manner. This administrative regulation provides for those measures.

Section 1. In addition to the requirements for printed ballots outlined in KRS 117.145, ballots caused to be printed by the county clerk of each county shall meet quality and size standards specific to the voting systems certified by both the State Board of Elections and the United States Election Assistance Commission.

Section 2. The outer envelope of all mail-in absentee ballots shall bear a barcode or other label that is unique to the individual voter and capable of being read by an electronic optical scanner. The unique barcode or label for each mail-in absentee ballot outer envelope shall be issued by the State Board of Elections.

Section 3. Upon the time of certification of each candidate and each question to be voted upon, all printed paper ballots shall be secured by the county clerk of each county, under lock and key, in an area under the direct control of the county clerk and approved by the county board of elections. The possession of all printed ballots shall be accounted for on SBE Form 76, "Ballot Accountability Statement." Upon the need for paper ballots to be printed at a county clerk's office, an accounting of the printed ballots shall be made on either the SBE Form 76, "Ballot Accountability Statement" or by the printing equipment. Upon the transfer of ballots from the area under the direct control of the county clerk to a polling location, the transfer shall be noted on the SBE Form 76, "Ballot Accountability Statement." Beginning with the casting of ballots during the period described in KRS 117.085(2), each voted ballot shall remain in a locked and sealed receptacle, until the conclusion of the period described in KRS 117.295(1). At the conclusion of each day of voting, an accounting of the number of all voted, unvoted, and spoiled ballots shall be recorded on the SBE Form 76, "Ballot Accountability Statement." All ballots and election materials not secured in an area under the direct control of the county clerk after the close of polls shall be secured on location by the county sheriff, in coordination with the county board of elections, from the time described in KRS 117.085(2) until the conclusion of voting on the day of an election. As mail-in absentee ballots are received by county clerks, they shall have their unique barcode or label scanned. Upon each mail-in absentee ballot being processed, the unique barcode or label shall be scanned again. If a mail-in absentee ballot is found to be without the need for a signature cure, or a mail-in absentee ballot has been returned along with a completed SBE Form 77, "Missing or Discrepant Mail-in Absentee Signature," the ballot shall be recorded into an optical scanner, to be deposited in a locked and sealed receptacle for the period described in KRS 117.295(1). Any completed SBE Form 76,

“Ballot Accountability Statement” shall be turned over to the Commonwealth’s Attorney along with any other materials required under KRS 117.365.

Section 4. Any voter who is disabled may request a mail-in absentee ballot via an online accessible ballot portal which shall conform to web accessible design standards as set forth by the W3C Web Accessibility Initiative.

Section 5. Upon receipt of a valid mail-in ballot request, through the online request portal or other valid request method, the request of the voter shall be noted in the Voter Registration System, and reflected in the electronic pollbooks used by precinct election officers. Should a voter noted to have requested a mail-in absentee ballot appear at a polling location in order to vote in-person, the precinct election officer shall communicate with the county clerk, who shall make a determination as to whether the requested mail-in absentee ballot has been completed and returned as a cast ballot by the voter. If the mail-in absentee ballot is found to have been completed and returned as a cast ballot, the voter shall not be permitted to cast an in-person vote. If the mail-in absentee ballot is found not to have been completed and returned as a cast ballot and the ballot has been returned to the county clerk no later than seven (7) days prior to the date of the election as required by KRS 117.085(11), the county clerk shall immediately cancel the issued ballot in the Voter Registration System and allow the voter to cast an in-person ballot after the voter completes Form SBE 32, “Oath of Voter,” copies of which shall be forwarded to the Commonwealth’s Attorney.

Section 6. A voter, or an individual identified by KRS 117.0861(1), may deliver a mail-in absentee ballot to the office of the county clerk in the county where the voter is registered, or to a secure drop-off location if one is maintained by the county clerk in the county where the voter is registered, rather than mailing the ballot via the United States Postal Service. Any county choosing to use a receptacle for ballot drop-off other than a drop-box provided by the State Board of Elections, must formally seek the State Board of Elections’ approval of the receptacle before any ballot shall be allowed to be deposited inside. Any county choosing to utilize a drop-off receptacle, including those provided by the State Board of Elections, shall inform the State Board of Elections of the number of receptacles being used, the type of each receptacle being used, and the location of each drop-off location. Any receptacle located outside a County Clerk’s Office shall be placed in a well-lit, easily accessible location, be bolted down, and be under video surveillance at all times. Any drop-box located inside, shall be under direct supervision of the staff of the county clerk at all times that it is accessible to the public. All drop-boxes used for the receipt of ballots shall be clearly marked as for use by voters in the election, so as to differentiate the drop-box from any other that may be in use in the area. Any other non-elections related drop-box in use by a county clerk for any other official business shall clearly indicate that the other drop-box is not for the return of election material. Each county clerk utilizing one or more ballot drop-off receptacle shall empty each receptacle at least once each business day of the county clerk’s office, and secure the absentee ballots therein in a manner consistent with KRS 117.086(7); however, county clerks shall empty receptacles more frequently than daily, as needed, so as to reasonably accommodate the volume of voter-delivered absentee ballots.

Section 7. After the receipt of a mail-in absentee ballot by the county clerk and the examination of the signatures located on the outer envelope and the detachable flap, as well as, the voter’s signature of record, if a signature match cannot be made, the county board of elections, central counting board, or the county clerk shall make a reasonable effort to contact the voter,

which shall, at minimum, include the mailing of Form SBE 77, "Missing or Discrepant Mail-in Absentee Signature," to provide notice to the voter that they may cure their signature before the closing of the polls on the day of the election. Upon the county board of elections, central counting board, or the county clerk noting the need for a signature cure, the ballot shall be noted in the Voter Registration System, which shall prompt the facilitation of the printing of the SBE 77. The State Board of Elections shall facilitate the printing of the SBE 77 on behalf of the counties with a state-approved vendor, the cost of which shall be borne by the county required to contact the voter.

Section 8. A voter unable to provide proof of identification as required under KRS 117.225, and as defined under KRS 117.001, shall meet the requirements of KRS 117.228(1)(c) by executing SBE Form 71, "Voter Affirmation Form." A voter personally known to an election officer may cast a ballot in accordance with KRS 117.228(4) upon the election officer executing SBE Form 72, "Election Officer Affirmation Form." Both the SBE 71 and SBE 72 shall be forwarded to the Commonwealth's Attorney following the election.
