STATUTORY AUTHORITY: KRS 311B.050(2), 311B.080  
NECESSITY, FUNCTION, AND CONFORMITY: KRS 311B.050(2) requires the Kentucky Board of Medical Imaging and Radiation Therapy to promulgate administrative regulations to administer and enforce KRS Chapter 311B. KRS 311B.080 requires the board to recognize and enforce national practice standards, scopes of practice, and ethical standards. This administrative regulation establishes uniform standards for the licensure of individuals who perform medical imaging and radiation therapy for diagnostic and therapeutic purposes while under the supervision of a licensed practitioner of the healing arts.

Section 1. Applicability. A licensee shall only perform medical imaging or radiation therapy for diagnostic medical imaging or therapeutic purposes while under the direct or indirect supervision as specified by a licensee’s practice standards, by a licensee's scope of practice, or in the ACR-AAPM Technical Standard for the Management of the Use of Radiation in Fluoroscopic Procedures as listed in Section 3 of this administrative regulation.

Section 2. If a licensee’s practice standards, a licensee's scope of practice, or the ACR-AAPM Technical Standard for the Management of the Use of Radiation in Fluoroscopic Procedures fails to specify who may provide direct or indirect supervision, a licensee shall only perform medical imaging or radiation therapy for diagnostic medical imaging or therapeutic purposes while under the direct or indirect supervision of a licensed practitioner of the healing arts.

Section 3. Practice Standards. A licensee shall perform according to practice standards of the discipline for which the licensee holds a credential, as established by the American Society of Radiologic Technologists (ASRT), the American College of Radiology (ACR), the American Association of Physicists in Medicine (AAPM), and the Society of Nuclear Medicine and Molecular Imaging (SNMMI) and incorporated by reference. These standards include the:

1. Radiography Practice Standards;
2. Nuclear Medicine Technologist Scope of Practice and Performance Standards;
3. Positron Emission Tomography (PET) Technologist Scope of Practice and Performance Standards;
4. Scope of Practice for the Nuclear Medicine Advanced Associate;
