(b) Waives its right of review.
(2) The cabinet shall provide a statement that sets forth the legal and factual basis for the

   1. The permit application, draft permit or permit revision, and supporting information no later
      than the first day of the public comment period; and
   2. All timely submitted public comments after the close of the public comment period;
(b) The draft permit shall become the final permit or permit revision at the end of the U.S.

(b) If the U.S. EPA objects to a permit action as a result of a petition filed, the cabinet shall not issue the permit until the U.S. EPA objection has been resolved, except that a petition for review does not stay the effectiveness of a permit or its requirements if the permit was issued after the end of the forty-five (45) day review period and prior to the U.S. EPA objection.

(c) If the cabinet issues a permit or permit revision prior to receipt of a U.S. EPA objection:

1. The U.S. EPA will modify, terminate, or revoke the permit consistent with the procedures in 40 C.F.R. 70.7(g)(4) and (5);

3. The source shall not be in violation for failing to submit a complete and timely application.

(10) To the extent possible, all information provided to the U.S. EPA shall be submitted in an electronic format that is compatible with the U.S. EPA's national database management system.

(11) The cabinet shall keep records of all information submitted to the U.S. EPA for a period of at least five (5) years.

(12)(a) If the cabinet is authorized by the source to submit confidential information to the U.S. EPA, a claim of confidentiality shall accompany the relevant information.

(b) If the cabinet is not authorized by the source to submit confidential information to the U.S. EPA, the source shall submit the confidential information directly to the U.S. EPA with a claim of confidentiality.
