(2) Upon a decrease in the provider's base rate, a utility that has previously revised its rates pursuant to this administrative regulation shall decrease each of its rate schedules by a treated sewage adjustment factor determined in accordance with Section 3 of this administrative regulation to pass through its decreased treated sewage costs on a per unit basis regardless of customer classification.

Section 3. Treated Sewage Adjustment Factor. (1) The treated sewage adjustment factor to adjust a utility's rate to reflect a change in the utility's base rate shall be determined using the following formula:

(2) The treated sewage adjustment factor shall be expressed in cents per gallons or cubic feet, depending upon the unit of measure that the utility bases its customer bills.
