REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Persons: Stephanie Brammer-Barnes, email: stephanie.brammer@ky.gov., phone: 502-564-2888; and Chase Coffey

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes minimum licensure requirements for the operation of behavioral health services organizations (BHSO) for mental health treatment. The BHSO licensure category was originally created via emergency administrative regulation on July 15, 2014, to enhance access to behavioral health

services and address the Kentucky Medicaid Program's efforts to expand the behavioral health network.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the minimum requirements for the licensure of BHSOs that provide services to treat, support, and encourage individuals with mental health disorder to achieve and maintain the highest possible level of health and self-sufficiency.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of KRS 216B.042, which includes establishing licensure standards and procedures to ensure safe, adequate, and efficient health facilities and health services.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing standards for licensed BHSOs for mental health treatment.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment is being filed concurrently with the Department for Medicaid Services' behavioral health services regulation, 907 KAR 15:020. Changes to this administrative regulation, 902 KAR 20:430, are as follows: Adds clarifying language to the title of this administrative regulation that aligns with the title of 907 KAR 15:020, thereby emphasizing that this licensure level will be for the treatment of mental health disorder only; Deletes the definition of "peer support specialist" and adds definitions for "adult peer support specialist", "family peer support specialist", and "youth peer support specialist" to Section 1; Adds definitions for "targeted case manager" and "telehealth" to Section 1; Moves "licensed behavioral analyst" under the definition of "behavioral health professional"; Moves "licensed assistant behavioral analyst" under the definition of "behavioral health professional under clinical supervision"; Deletes "certified alcohol and drug counselor" and "substance use disorder" from Section 1 and removes references to these terms throughout the body of this administrative regulation; Amends Section 4 to delete unnecessarily duplicative language related to case managers because the training requirements and qualifications for targeted case managers are established in 908 KAR 2:260; Removes language allowing BHSOs to use the Kentucky National Background Check Program (NBCP) to satisfy the State-level criminal record check requirements. Use of the NBCP was originally included in this administrative regulation by error, prior to receiving additional information from the Federal Bureau of Investigation which clarified that the Kentucky State Police relies upon a federal statute, Section 6201 of the Affordable Care Act, for the submission of fingerprints to the FBI for direct patient access employees in voluntarily participating long-term care settings. Because BHSOs are not included in the statutory definition of a "long-term care facility" or otherwise covered under Section 6201 of the ACA, BHSOs cannot voluntarily participate in the NBCP; Allows for after-hours services to be provided via telehealth; Removes the requirement for a BHSO to be separately licensed as an alcohol and other drug treatment entity (AODE) if the BHSO provides residential or outpatient services to clients with substance use disorder (SUD) or a co-occurring disorder in which SUD is the primary diagnosis. This change aligns with efforts to streamline the licensure process and improve the AODE regulations pursuant to the passage of HB 124 from the 2018 legislative session. Therefore, all requirements related to treatment of SUD have been deleted from this administrative regulation as such is covered under 908 KAR Chapter 1; Allows for screening, assessment, crisis intervention, individual outpatient therapy, family outpatient therapy, and collateral outpatient therapy to be provided via telehealth; Adds partial hospitalization as a service that a BHSO for mental health treatment may provide; and Makes technical changes for clarity.

(b) The necessity of the amendment to this administrative regulation: The passage of HB 124 from the 2018 legislative session required the Cabinet to conduct a comprehensive review of all current state licensure and quality standards applicable to SUD treatment programs as well as develop enhanced standards for treatment and recovery services. Therefore, in addition to the Cabinet's efforts to enhance the AODE standards under 908 KAR Chapter 1, this amendment seeks to streamline the licensure process for greater efficiency by eliminating the requirement for AODE programs to be separately licensed as a BHSO for purposes of Medicaid enrollment. Eliminating the dual licensure requirement will have the effect of transforming the BHSO licensure category so that BHSO services will be for the treatment of mental health disorder only. SUD treatment programs are subject to AODE licensure standards established under 908 KAR Chapter 1 and will be allowed to enroll in Medicaid under the appropriate tier.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of KRS 216B.042 by establishing standards for licensed behavioral health services organizations for mental health treatment.
