(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment:

No cost is imposed.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3):

Individual beneficiaries will benefit from the additional dental services and visits. Vision services providers will benefit from the opportunity to provide services to an additional population of Medicaid beneficiaries. (5) Provide an estimate of how much it will cost to implement this administrative regulation:

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially:

The Department for Medicaid Services (DMS) anticipates an increase of about $0.75 for each adult beneficiary's per member per month capitation (PMPM) managed care organization (MCO) capitation rate. The total state expenditure for this additional benefit should be about $2.1 million. This expenditure should be balanced against expected savings that could be generated within the Medicaid adult population. Consistent with national trends, DMS expects that Medicaid vision coverage will increase the likelihood of working full-time for adult beneficiaries. This could result in individuals leaving the Medicaid program as a result of receiving full-time employment.

(b) On a continuing basis:

DMS anticipates that additional actuarial analysis of vision services utilization could reduce the annual PMPM for vision services or even the overall PMPM. The availability of additional vision services should be beneficial for the adult population, as this removes a significant cost barrier to eyewear. As a result, DMS does expect some movement out of the Medicaid program could be expected for adult beneficiaries able to access adequate vision services. Absent additional information, DMS will continue to anticipate a $0.75 PMPM and approximately $2.1 million annual expenditure in state funds.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation:

The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act, state matching funds, and agency appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment:

No increase in funding will be necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees:

This administrative regulation neither establishes nor directly nor indirectly increases any fees.

(9) TIERING: Is tiering applied?

Tiering is no longer applied within this administrative regulation as vision services are now available to all Medicaid recipients.

FEDERAL MANDATE ANALYSIS COMPARISON

(1) Federal statute or regulation constituting the federal mandate.

42 U.S.C. 1396a(a)(30)(A), 42 U.S.C. 1396a(a)(33), 42 C.F.R. 441.56(c)(1), 42 C.F.R. 441.30, Section 2711 of the Affordable Care Act, and 45 C.F.R. 147.126.

(2) State compliance standards.

Vision services for Medicaid recipients are not mandated by Kentucky law; however, the Department for Medicaid Services is required by KRS 205.8453 to "institute other measures necessary or useful in controlling fraud and abuse." KRS 205.520(3) states: ". .. . it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."

(3) Minimum or uniform standards contained in the federal mandate.

Coverage of vision services is mandated only for certain children within the early and periodic screening, diagnosis and treatment (EPSDT) program for individuals under age twenty-one (21). 42 C.F.R. 441.30 states, "The plan must provide for payment of optometric services as physician services, whether furnished by an optometrist or a physician, if— (a) The plan does not provide for payment for services provided by an optometrist, except for eligibility determinations under §§435.531 and 436.531 of this subchapter, but did provide for those services at an earlier period; and (b) The plan specifically provides that physicians' services include services an optometrist is legally authorized to perform." Additionally, state Medicaid programs are required to take measures to monitor that services are appropriate. States are required to establish a plan for review of the appropriateness and quality of care and services furnished to Medicaid recipients by appropriate health care professionals. The plan helps protect against overutilization or unnecessary care and to assure that reimbursement is consistent with efficiency, economy and quality of care. 42 U.S.C. 1396a(a)(30)(A) requires Medicaid state plans to: ".. .. .. provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(i)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services. .. ." 45 C.F.R. 147.126 prohibits the application of annual dollar limits on essential health benefits. Medicaid program benefits are included in the scope of essential health benefits.

(4) Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate?

No.

(5) Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements.

Stricter requirements are not imposed.

KRS 194A.030(2), 194A.050(1), 205.520(3), 42 C.F.R. 441.30, 42 C.F.R. 441.56(c)(1), and 45 C.F.R. 147.126.

(c) How much will it cost to administer this program for the first year?

The Department for Medicaid Services (DMS) anticipates an increase of about $0.75 for each adult beneficiary's per member per month capitation (PMPM) managed care organization (MCO) capitation rate. The total state expenditure for this additional benefit should be about $2.1 million. This expenditure should be balanced against expected savings that could be generated within the Medicaid adult population. Consistent with national trends, DMS expects that Medicaid vision coverage will increase the likelihood of working full-time for adult beneficiaries. This could result in individuals leaving the Medicaid program as a result of receiving full-time employment.

(d) How much will it cost to administer this program for subsequent years?

DMS anticipates that additional actuarial analysis of vision services utilization could reduce the annual PMPM for vision services or even the overall PMPM. The availability of additional vision services should be beneficial for the adult population, as this removes a significant cost barrier to eyewear. As a result, DMS does expect some movement out of the Medicaid program could be expected for adult beneficiaries able to access adequate vision services. Absent additional information, DMS will continue to anticipate a $0.75 PMPM and an approximately $2.1 million annual expenditure in state funds.
