REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Jenny Gilbert

(1) Provide a brief summary of:

(a) What this administrative regulation does:

This administrative regulation establishes size limits, daily creel limits, and possession limits for sport fish that may be taken from Kentucky waters.

(b) The necessity of this administrative regulation:

This administrative regulation is necessary to properly manage the sport fish populations of Kentucky.

(c) How this administrative regulation conforms to the content of the authorizing statutes:

KRS 150.025(1) authorizes the Department to promulgate administrative regulations to establish seasons for the taking of fish and wildlife, to regulate daily limits and methods of take, and to make these requirements apply to a limited area. KRS 150.470 authorizes the department to establish daily limits and size limits for fish.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes:

This administrative regulation will assist in the effective administration of the statutes by limiting the number and size of fish that may be taken from Kentucky's waters. This will ensure that Kentucky's valuable sport fish populations are maintained at high levels.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation:

This amendment places a special size and daily limit regulation on channel and blue catfish at Yatesville Lake, changes the lower boundary for special walleye and smallmouth bass size and daily limits on the Barren River and tributaries due to the removal of Lock and Dam #1 on the Barren River, removes the definitions section due to creation of a new definitions regulation (301 KAR 1:001), and changes "daily creel limit" to "daily limit" throughout the regulation to match the new definitions regulation (301 KAR 1:001).

(b) The necessity of the amendment to this administrative regulation:

The Department is now stocking blue catfish in Yatesville Lake and is imposing stricter regulations to protect this new population. In addition, a new lower boundary for special smallmouth bass and walleye regulations on the Barren River is needed due to the removal of the old lower boundary marker which was Lock and Dam #1 on the Barren River. Finally, the definitions section of this regulation is being removed due to creation of a new definitions regulation (301 KAR 1:001) and the use of "daily creel limit" is being changed to "daily limit" to match the newly created 301 KAR 1:001.

(c) How the amendment conforms to the content of the authorizing statutes:

See 1(c) above.

(d) How the amendment will assist in the effective administration of the statutes:

See 1(d) above.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation:

All anglers fishing at Yatesville Lake and the Barren River and its tributaries will be affected. The "daily limit" wording change is not a regulation change and should have no impact on anglers.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment:

All anglers fishing at the water bodies and for the species identified in 2(a) above will have to follow the new regulations.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3):

There will be no cost incurred by the anglers identified.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3):

Anglers who fish at the water bodies and for the species identified in 2(a) above will benefit in the long run from a higher quality sport fishery as well as an easy to identify lower boundary on the Barren River.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially:

There will be no initial cost to implement this administrative regulation.

(b) On a continuing basis:

There will be no additional cost on a continuing basis.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation:

The source of funding is the State Game and Fish Fund.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment:

It will not be necessary to increase fees or funding to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees:

This administrative regulation does not establish any fees, nor does it indirectly increase any fees.

(9) TIERING: Is tiering applied?

Tiering was not applied because all individuals fishing in Kentucky must abide by the same requirements.

FISCAL NOTE

(1) What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation?

The Kentucky Department of Fish and Wildlife Resources' Divisions of Fisheries and Law Enforcement will be impacted by this amendment.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation.

KRS 150.025(1) authorizes the Department to promulgate administrative regulations to regulate bag, daily, and possession limits of game and fish. KRS 150.470 authorizes the department to promulgate daily limits and size limits for fish.

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year?

It is unknown if this administrative regulation could indirectly increase any fishing license sales during the first year.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years?

There will be no direct revenue generated in subsequent years, and it is unknown if fishing license sales will be indirectly increased because of this amendment.

(c) How much will it cost to administer this program for the first year?

There will be no initial cost to implement this administrative regulation for the first year.

(d) How much will it cost to administer this program for subsequent years?

There will be no cost in subsequent years.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Expenditures (+/-):

Other Explanation:

(4) Estimate the effect of this administrative regulation on the expenditures and cost savings of regulated entities for the first full year the administrative regulation is to be in effect.

(a) How much cost savings will this administrative regulation generate for the regulated entities for the first year?

There will be no anticipated cost savings for the regulated entities in the first year.

(b) How much cost savings will this administrative regulation generate for the regulated entities for subsequent years?

There will be no anticipated cost savings for the regulated entities in subsequent years.

(c) How much will it cost the regulated entities for the first year?

There will be no additional costs for the regulated entities in the first year.

(d) How much will it cost the regulated entities for subsequent years?

There will be no additional costs for the regulated entities in subsequent years.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Cost Savings (+/-):

Expenditures (+/-):

Other Explanation:

(5) Explain whether this administrative regulation will have a major economic impact, as defined below.

"Major economic impact" means an overall negative or adverse economic impact from an administrative regulation of five hundred thousand dollars (\$500,000) or more on state or local government or regulated entities, in aggregate, as determined by the promulgating administrative bodies. [KRS 13A.010(13)] This amendment will have no major economic impact as defined above.
