The amendment strikes language that allowed grandfathering of pre-existing supervision agreements with other professional credential holders since time has expired for grandfathering; clarifies requirements to qualify as a supervisor and strikes redundant language; clarifies the supervisor applicant have no unresolved complaints versus citation and adds a two-year restriction to supervision following any discipline; and provides clarification on the requirements for out-of-state supervisory applicants, including removal of the requirement for a graduate and supervisory training courses and strikes the grandfather provision since the time it would apply for has lapsed; reduces the maximum number of supervisees from twelve (12) to nine (9); and includes new provisions regarding supervisors under discipline.

(b) The necessity of the amendment to this administrative regulation:

standards and restrictions on supervisory qualification or status during and after discipline to protect the public.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation:

There are 4017 active and 56 inactive licensees who may be affected by the amendments in some capacity, as well as any new applicants for licensure. Presently, there are 2692 active licensed professional clinical counselors (LPCCs) of which 1055 has a supervisor credential and 531 are actively supervising. There are 1325 active licensed professional clinical counselor associates (LPCAs) under supervision who will be directly affected by these amendments.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment:

This amendment will require supervisors with more than nine (9) supervisees to reduce the number of supervisees they supervise through attrition. Therefore, the supervisors will not be required to terminate supervision agreements for any number over nine (9) at this time, but if a supervision agreement is terminated for any reason, the supervisor shall not enter into a new supervision agreement with a supervisee until such time as the supervisor has fewer than nine (9) supervisees. There are now eight (8) supervisors who have more than nine (9) supervisees and who will eventually be affected by this change.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3):

There is no new cost/fee associated with the amendments. However, any reduction in the number of supervisees by a supervisor will result in an overall loss of income based on a reduced number of supervision fees to those supervisors. This will affect 2.9% of all licensees with the supervisory credential and 5.8% of those who are active supervisors.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3):

The benefit is that a supervisor is properly trained and a board-approved supervisor, that licensees needing supervision are not being supervised by someone who is or has recently been under discipline, and that a supervisor does not have too many supervisees to ensure competency, avoid burnout and protect the public protect.
