

**STATEMENT OF EMERGENCY**  
**200 KAR 5:021E.**

This emergency amendment to an existing administrative regulation is necessary to update the Finance manual of policies and procedures to comply with statutory changes in 24 RS SB 91, which was enacted into law with an emergency clause rendering the changes effective on passage. Accordingly, this emergency amendment to the existing administrative regulation is being promulgated pursuant to KRS 13A.190(1)(a)3. to meet an imminent deadline for the promulgation of an administrative regulation that is established by state statute or federal law. Senate Bill 91 adjusted small purchase authority for construction projects, contract valuation thresholds which trigger bond requirements, and valuation thresholds for capital construction to determine whether Finance and Administration Cabinet approval is required. The Finance manual of policies and procedures, attached as incorporated material to 200 KAR 5:021, contains polices that address these issues and must be updated to comply. An ordinary amendment to the existing administrative regulation is not sufficient because the effective date of an ordinary regulation would leave an extended and unnecessary period of time where the Finance manual of policies and procedures would be in direct conflict with statutory language made effective with the passage of Senate Bill 91. The emergency amendment to the existing administrative regulation is limited to updates necessary to remain in compliance with statutory language amended by the passage of SB 91. This administrative regulation will be replaced through an emergency amendment by an ordinary administrative regulation. The ordinary administrative regulation will retain the updated provisions of this administrative regulation through an emergency amendment but will also contain additional updates to the Finance manual of policies and procedures of a non-emergency nature.

For example, the manual had reduced administrative requirements for small purchase amounts, as opposed to larger purchases where greater oversight is necessary. Additionally, per 13A.210(2), the manual generally aims to provide clarification and eliminate ambiguity regarding provisions of the model procurement code which might otherwise cause confusion and administrative inefficiency for agencies and vendors.
