(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation:

This amendment establishes the licensure and certification requirements for critical care paramedics, flight paramedics, and tactical paramedics. This amendment also removes the existing prerequisites to be eligible to enroll in a community paramedic or wilderness paramedic education and training program. To be eligible for initial licensure and certification under this amendment, applicants must complete an education and training program covering the topic areas outlined by the International Board of Specialty Certification (IBSC) for the applicable type of advanced practice paramedic. To be eligible for renewal under this amendment, an advanced practice paramedic must either maintain current IBSC certification or take at least 50 hours of continuing education covering the applicable IBSC topic areas. For paramedics who are currently certified by the IBSC, who are operating under a community paramedic pilot program, or who have a critical care endorsement, this amendment provides a process to transition those paramedics to licensed and certified advanced practice paramedics. Paramedics who are currently certified by the IBSC as a community, wilderness, critical care, flight, or tactical paramedic are not required to submit a course completion certificate for initial licensure and certification, so long as they apply for an advanced practice paramedic license and certification by September 30, 2026. Paramedics operating under a board-approved community paramedic pilot program are not required to submit proof of current IBSC

certification as a community paramedic for initial certification and licensure, so long as they apply for an advanced practice paramedic certification by September 30, 2026. Paramedics who have a critical care endorsement are not required to submit proof of current IBSC certification as a critical care paramedic for initial licensure and certification, so long as they apply for an advanced practice paramedic certification by September 30, 2026. Finally, this amendment includes a renewal provision for active duty military in accordance with KRS 12.355, provisions governing validation and audits of certifications and continuing education, a requirement that agencies adopt a policy requiring annual clinical competency assessments for their advanced practice paramedics, and establishes requirements for reinstating and surrendering an advanced practice paramedic license and certification.

This amendment conforms to the content of KRS 311A.170 by establishing those requirements.

(d) How the amendment will assist in the effective administration of the statutes:

This amendment will assist in the effective administration of KRS 311A.170 by establishing the requirements for licensure and certification as advanced practice paramedic.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation:

This administrative regulation will affect advanced practice paramedics and paramedics seeking licensure and certification as an advanced practice paramedic.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment:

Paramedics will be required to satisfy all requirements of this administrative regulation to obtain and maintain an advanced practice paramedic license and specialty certification. Advanced practice paramedics will be required to comply with the requirements of this administrative regulation to maintain their advanced practice paramedic license and certification(s).

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3):

Compliance with this administrative regulation will cost advanced practice paramedics seeking to renew their specialty certification(s) \$10 for each certification, as established in 202 KAR 7:030.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3):

This administrative regulation will enable paramedics to become licensed advanced practice paramedics and certified community, wilderness, critical care, flight, and/or

tactical paramedics if the requirements of this administrative regulation are satisfied. Paramedics will benefit from being able to obtain specialty certifications and the public will benefit from having access to care provided by advanced practice paramedics.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially:

There will be no additional cost to the administrative body to implement this administrative regulation.
