REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Jenny Gilbert

(1) Provide a brief summary of:

(a) What this administrative regulation does:

This administrative regulation establishes the requirements for commercial wildlife control permits and wildlife control operators.

(b) The necessity of this administrative regulation:

This regulation authorizes the department to issue permits to qualified persons to take and transport wildlife causing damage under commercial wildlife control permits.

(c) How this administrative regulation conforms to the content of the authorizing statutes:

KRS 150.025(1)(h) authorizes the department to promulgate any other administrative regulations reasonably necessary to implement or carry out the purposes of KRS Chapter 150. KRS 150.105 authorizes the commissioner, with the approval of the commission, to authorize any person to destroy or bring under control any wild animal, fish, or wild birds, protected or unprotected, which are causing damage to persons, property, other animals, or spreading diseases. KRS 150.275 authorizes the department to issue permits to qualified persons to take and transport wildlife at any time for commercial wildlife control. This administrative regulation establishes the requirements for commercial wildlife control permits, and wildlife control operators. KRS 150.235 prohibits persons from performing acts authorized to be performed by a permit without first procuring the permit and the permit or license shall be kept on their person while conducting acts. KRS 150.170 prevents persons from doing any act or assisting a person with an act authorized by any kind of license or permit unless they hold the kind of permit that authorizes the act.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes:

This administrative regulation will fulfill the purposes of KRS 150.170 and KRS 150.105 by providing a permitting mechanism for commercial wildlife control operators to take wildlife causing damage or threat to agriculture, human health, or property.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation:

This amendment removes any reference to fees and replaces them with a reference to the fee regulation, 301 KAR 5:022, and similarly updates any applicable material incorporated by reference. This amendment also removes all reference to "nuisance" wildlife and establishes the legal means and methods for WCOs who wish to take deer causing damage.

(b) The necessity of the amendment to this administrative regulation:

This amendment is necessary to allow future fee changes to be promulgated in 301 KAR 5:022 without the need for promulgating matching amendments to this regulation. This amendment also provides an avenue for WCOs to take deer causing

damage which will help local farmers who experience yield loss to crops from deer damage.

(c) How the amendment conforms to the content of the authorizing statutes:

KRS 150.025(1) grants authority for the department to promulgate regulations necessary to carry out the purposes of KRS Chapter 150. KRS 150.175 sets out licenses and tags to be sold by the department. KRS 150.195 requires the department to establish administrative regulations to provide for the control, design, issuance, distribution, and other matters related to licenses and permits issued by the department.

(d) How the amendment will assist in the effective administration of the statutes:

This amendment will consolidate any associated fees into a single fee regulation, 301 KAR 5:022. This amendment provides a new mechanism for the effective administration of KRS 150.105 which allows the Dept. to bring under control animals causing damage.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation:

All individuals who wish to obtain the associated license or permit.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment:

No action will be required to comply with the amendments, however, the individuals would need to look to 301 KAR 5:022 for the regulation which establishes the cost of the associated license or permit. WCOs will have to follow the restrictions on taking deer that are established by this amendment and comply with all annual reporting and sample submission requirements.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3):

There will be no cost to comply with the amendments to this regulation.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3):

Compliance with these amendments will allow individuals to obtain the associated license or permit.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially:

There will be no cost to implement these regulatory amendments initially.

(b) On a continuing basis:

There will be no continuing costs to implement these amendments.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation:

The Fish and Game Fund

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment:

There will be no increase in fees or funding necessary to implement these changes.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees:

This administrative regulation does not establish any fees or directly or indirectly increase any fees. Any associated fees are addressed in 301 KAR 5:022.

(9) TIERING: Is tiering applied?

Tiering is not applied as all individuals will need to look to 301 KAR 5:022 for the regulation which establishes the cost of the associated permits. New WCO requirements for taking deer apply equally to all WCOs.
