STATEMENT OF EMERGENCY
101 KAR 3:045E

This emergency administrative regulation amends 101 KAR 3:045, Compensation plan and compensation incentive systems to create a severance award program for federally-funded, time-limited employees in the unclassified service of the executive branch of state government whose positions are entirely federally funded and whose positions are being abolished due to the termination or elimination of the federal program in which they are employed. The severance package which is implemented by this emergency administrative regulation is entirely financed by federal funds which have been allocated for the specific purpose of providing “musterling out” pay to state employees whose jobs are being eliminated due to the termination of the federal program or project. There is currently no legal authority by which the money that the federal government has made available for this purpose can be passed through to this group of employees. Unless this administrative regulation is implemented as an emergency measure, the federal funds that have been allocated for this purpose will be lost to the state and its employees. This emergency administrative regulation shall not be replaced by an ordinary administrative regulation.

ROBERT S. PETERS, Secretary

PERSONNEL CABINET

101 KAR 3:045E. Compensation plan and compensation incentive systems.

RELATES TO: KRS 18A.155
STATUTORY AUTHORITY: KRS 18A.155(1)(b)
EFFECTIVE: February 28, 1997
NECESSITY, FUNCTION, AND CONFORMITY: KRS 18A.155 requires the Secretary (Commissioner) of Personnel to submit to the Governor proposed administrative regulations for persons in positions enumerated in KRS 18A.115(1)(g), (h), (i), (j), (k), (p), (u) and (v).

Section 1. Classification Plan. The principles and provisions of 101 KAR 2:020 shall apply to positions in the unclassified service.

Section 2. Compensation Plan. (1) With the exception of the provisions of Section 3 of this administrative regulation relating to probationary increments, the principles and provisions of 101 KAR 2:036 shall apply to employees and positions in the unclassified service. An employee in the unclassified service who completes the initial six (6) month period following appointment with satisfactory performance may be granted a statutory increment at the beginning of the month following completion of such period.

(a) An employee who was eligible for but did not receive a five (5) percent salary advancement as the result of any of the following actions: promotional increase, reallocation, or class grade changes, on or after January 3, 1986, may have his salary adjusted upon request by the appointing authority and approval by the secretary (commissioner). In no case may the salary adjustment be made retroactive to the official effective date but shall be granted on the first of the month following approval of the increase.

(b) Inasmuch as the appointing authority has the option of not providing salary increases under this section, an eligible employee whose salary is not adjusted is not considered to have been penalized and therefore shall have no basis for appeal.

(c) An appointing authority, with the approval of the secretary (commissioner), may grant a salary adjustment, equivalent to the budgeted annual increment for classified employees, to seasonal, temporary, FFITL and other unclassified employees who have completed twelve (12) months total full-time employment in the classified or unclassified service without a salary increase. The salary adjustment, if granted, shall be effective on the first day of the month following approval of the increase.

(2) Physicians, employed as such and pursuant to KRS 64.655, shall be exempt from the provisions of 101 KAR 2:036, Section 1, and may be appointed to any rate within the pay range when justified in writing by the appointing authority and approved by the secretary (commissioner).

Section 3. Severance Award Program. A program to establish a severance plan for federally-funded time-limited employees whose employment is terminated based on the expiration of a federal grant, program or agreement is established by this section.

(1) A federally-funded time-limited employee who is employed under a program or project which is entirely federally-funded shall be eligible for a severance award based on months of service upon termination of his employment and the program or project if the employee is not under investigation for allegations of poor work performance or misconduct which could lead to disciplinary action; and

(2) The severance award shall be paid in a lump sum based on the employee’s hourly rate at the time of the termination.

(3) The amount of the severance award shall be based on:

(a) The number of months of service the employee has had with the program or project being terminated; and

(b) A schedule to be agreed upon between the agency and the Secretary of the Personnel Cabinet that is consistent with the federal funding available.

Section 4. Educational Achievement Award. Upon request of the appointing authority and subject to the approval of the secretary (commissioner):

(1) An employee may receive one (1) lump sum educational achievement award per fiscal year for satisfactorily completing outside of work hours, 260 classroom hours (or the equivalent as determined by the secretary (commissioner)) of job related instruction in approved courses. Approved courses must have been completed after an employee initially served six (6) months in state government. Employees shall not receive credit for hours taken while on educational leave, for hours paid for by the agency through tuition assistance, or for hours which previously counted toward an educational achievement award. The lump sum educational achievement award shall be ten (10) percent of the employee’s annual base salary but not more than $2,500. The lump sum payment shall be granted only if the 260 classroom hours (or equivalent) have been completed within the past five (5) years prior to the effective date of the increase; or

(2) An employee may receive one (1) lump sum educational achievement award for earning an approved diploma, high school equivalency certificate, or a passing score on the GED test. The approved high school diploma, certificate, or passing score shall have been obtained by the state employee on or after January 1, 1984 while in state service. Employees receiving an approved high school
loosing their jobs based on such closures.

**STATEMENT OF EMERGENCY**

**301 KAR 3:022E**

This emergency amendment extends the period of validity of 1996 waterfowl permits from February 28, 1997 to March 10, 1997. An ordinary administrative regulation is not sufficient because unforeseen delays in reprogramming the department's automated license sale system to meet federal requirements for collecting harvest information from migratory bird hunters will delay availability of 1997 waterfowl permits until April 1997. Waterfowl permits normally expire after February 28, but a portion of the 1996-97 waterfowl season runs through March 10, 1997. This emergency amendment to 301 KAR 3:022, by extending the validity of 1996 permit, will allow waterfowl hunters to hunt legally during the March portion of the current waterfowl season. An ordinary administrative regulation will not be filed with the Regulations Compiler because this is a temporary measure to address a nonrecurring problem.

STATEMENT OF EMERGENCY
806 KAR 38:090E

This emergency administrative regulation sets forth the requirements for open enrollment by health maintenance organizations which is required by KRS 304.38-080(3). The department views the current individual health insurance market as a serious problem. Due to the limited number of options for individual health insurance and changes in health insurance laws, the department believes that it is imperative to set forth specific guidelines for an open enrollment period for individual health insurance. This emergency administrative regulation puts those guidelines in place as soon as possible to assist those individuals seeking more options in the individual health insurance market. This emergency administrative regulation shall be replaced by an ordinary administrative regulation which is to be filed at a later date.

REGULATORY IMPACT ANALYSIS

Agency Contact Person: Marty Mason, Director
(1) Type and number of entities affected: The provisions that are being incorporated into this administrative regulation as a result of the implementation of PL 104-193, sections 807, 808, 809, 810, 829, and 911 are mandatory changes to the financial eligibility criteria of the Food Stamp Program. These changes affect the method of excluding the earnings of children, weatherization payments, the earned income deduction to households that fail to timely report income changes, homeless shelter standard, and increases the vehicle resource exclusion. Sections 829 and 911 of the above-referenced law prohibits an increase in food stamp benefits as the result of a decrease in another means-tested public assistance or welfare program due to the households failure to comply with the other programs eligibility requirements. To prevent an increase in food stamp benefits, states are permitted to use the sanctioning method that is utilized in the other means-tested program to sanction the food stamp household or reduce the food stamp allotment by an amount up to 25%. Due to the administrative complexity of trying to determine all of the reasons why an individual could be sanctioned in another means-tested program, the department has elected to use the method of reducing the food stamp allotment by 25%. Other changes that are incorporated into this administrative regulation include technical changes to the policy relating to the exclusion of student income and prepaid burial plans. These changes and clarifications are being incorporated into this emergency administrative regulation as the result of federal regulations that were published as final regulations and must be implemented effective for March 1, 1997. All of the changes that are incorporated into this emergency administrative regulation are mandated. Some of the changes will have a positive impact on the food stamp households while other changes in policy will have a negative impact. The cabinet cannot determine the number of individuals that may be affected by the above-referenced changes in the federal law and regulations. The cabinet anticipates that the promulgation of this emergency administrative will not have a significant impact on any of the entities that will be affected the changes in food stamp policy.

(2) Direct and indirect costs or savings on the:
(a) Cost of living and employment in the geographical area in which the administrative regulation will be implemented, to the extent available from the public comment received: To be determined after the publication of the Notice of Intent.
(b) Cost of doing business in the geographical area in which the administrative regulation will be implemented, to the extent available from the public comment received: To be determined after the publication of the Notice of Intent.
(c) Compliance, reporting, and paperwork requirements, including factors increasing or decreasing costs (note any effects upon competition) for the:
1. First year following implementation: This administrative regulation will not create any additional compliance, reporting or paperwork requirements.
2. Second and subsequent years: See item #1.
(3) Effects on the promulgating administrative body:
(a) Direct and indirect costs or savings:
1. First year: 1997- None. The provisions that are incorporated into this emergency administrative regulation affect the financial eligibility determination for the Food Stamp Program. None of the changes being implemented will significantly increase or decrease the number of people who are eligible for food stamp benefits. Thus, the department does not anticipate any additional administrative costs resulting the promulgation of this administrative regulation. Any cost or savings in food stamp benefits that are realized as a result of changes to financial eligibility criteria will be insignificant. Since food stamp benefits are 100% federally funded, a cost or savings will not have any impact on the state agency.
2. Continuing costs or savings: 1998 - same as #1.
3. Additional factors increasing or decreasing costs: None
(b) Reporting and paperwork requirements: None
(4) Assessment of anticipated effect on state and local revenues:
No effect.
(5) Source of revenue to be used for implementation and enforcement of administrative regulation: 100% federal funds.
(6) To the extent available from the public comments received, the economic impact, including effects of economic activities arising from administrative regulation, on:
(a) Geographical area in which administrative regulation will be implemented: To be determined after the publication of the Notice of Intent.
(b) Kentucky: To be determined after the publication of the Notice of Intent.
(7) Assessment of alternative methods; reasons why alternatives were rejected: Alternative methods were not considered since the cabinet is responsible to meet the federal requirements pursuant to PL 104-193, sections 807, 808, 809, and 810. However, sections 829 and 911 require the state agency to prevent an increase in the food stamp allotment when the benefits of a household are reduced in another means-tested public assistance or welfare program due to the failure of the household to comply with the program's eligibility requirements. To prevent an increase in food stamp benefits, states are permitted to use the sanctioning method that is utilized in the other means-tested program to sanction the food stamp household or reduce the food stamp allotment by an amount up to 25%. Due to the administrative complexity of trying to determine all of the reasons why an individual could be sanctioned in another means-tested program, the department has elected to use the method of reducing the food stamp allotment by 25%.
(8) Assessment of expected benefits:
(a) Identify effects on public health and environmental welfare of the geographical area in which implemented and on Kentucky: None
(b) State whether a harmful effect on environment and public health would result if not implemented: A detrimental effect on public health would result if this amendment is not implemented.
(c) If detrimental effect would result, explain detrimental effect: It is necessary to promulgate this administrative regulation to prevent the possible loss of federal funding (100% of food stamp benefits, 50% of federal match for administrative funds, and 100% of federal enhanced funding), due to the failure to implement the federal mandates of PL 104-193, sections 807, 808, 809, 810, 829, and 911.
(9) Identify any statute, administrative regulation or government policy which may be in conflict, overlapping, or duplication: None
(a) Necessity of proposed regulation if in conflict: None
(b) If in conflict, was effort made to harmonize the proposed administrative regulation with conflicting provisions: None
(10) Any additional information or comments: None
(11) TIERING: is tiering applied? No. Tiering was not applied since application of policy is applied in a like manner for all individuals as set forth through federal requirements.

recognized by the employer as retirement;
(f) Employment which becomes unsuitable by not meeting criteria
in Section 8 after the acceptance of the employment;
(g) Acceptance of a bona fide offer of employment of more than
twenty (20) hours a week or in which the weekly earnings are
equivalent to the federal minimum wage multiplied by twenty (20)
hours which, because of circumstances beyond the control of the
household member [primary-wage earner], subsequently either does
not materialize or results in employment of less than twenty (20)
hours a week or weekly earnings of less than the federal minimum
wage multiplied by twenty (20) hours; and
(h) Leaving a job in connection with patterns of employment in
which workers frequently move from one (1) employer to another as
in migrant farm labor or construction work.

(4) Good cause for voluntary quit or reduction in work effort shall
be verified if questionable.

Section 10. Curing Sanction for Voluntary Quit. (1) An individual
[a household] may begin participation in the Food Stamp Program
following the voluntary quit disqualification period, pursuant to Section
7(2) of this administrative regulation, if he [it] applies again and is
determined eligible.

(2) Eligibility may be reestablished following the minimum period
of disqualification imposed pursuant to Section 7(2) of this administra-
tive regulation [during a disqualification period] and the household
member shall, if otherwise eligible, be allowed to resume participation
if he [the member who caused the disqualification];
(a) Secures new employment which is comparable in salary or
hours to the job which was quit or;
(b) Increases the number of work hours that he was working prior
to the reduction in work effort that caused the imposition of the
disqualification period [leaves the household];
(3) A work registrant who
(a) Is required to participate in the:
1. Food Stamp Employment and Training Program; or
2. Kentucky Transitional Assistance Program [for a family with
dependents];
(b) [fails to participate shall be ineligible to receive food stamp
benefits for a period pursuant to Section 7(2) of this administrative
regulation [two (2) months] unless:
1. Good cause exists;
2. [The noncompliant individual was participating in a Job
Opportunities and Basic Skills Program component which is more
enlightening than the components of the Food Stamp Employment and
Training Program]; or
3. The noncompliant Job Opportunities and Basic Skills Program
participant is otherwise exempt from work registration in the Food
Stamp Employment and Training Program.

(4) An individual who is not sanctioned in the Food Stamp Program
as meeting the criteria in paragraph (b)(2) of this subsection shall be

1. The number of hours of community service that the individual
intends to perform each month and
2. At each subsequent recertification or change in household

815 is extremely complex for sanctioning the entire household. If the entire household is sanctioned, after the minimum disqualification period is served, the household may reestablish participation in the Food Stamp Program provided that the individual causing the sanction complies with the work requirement. If the individual still refuses to comply, the household remains ineligible for the remainder of 6 months. If at the end of the 6 month period the noncompliant individual refuses to cooperate with the work requirement, the remaining household members may participate, however, the noncompliant individual remains ineligible and his income and resources are counted toward the entire household. Therefore, to avoid penalizing children and spouses for the actions of an individual household member and to streamline and to simplify the sanctioning process, the cabinet is not exercising the option, thereby rejecting the alternative method of sanctioning the entire household. As a conformity change, the definition of "primary wage earner" is removed as it is no longer relevant to the sanctioning process.

(b) Assessment of expected benefits:
   (a) Identify effects on public health and environmental welfare of
       the geographical area in which implemented and on Kentucky: The
       cabinet is required to administer the work program pursuant to 7 USC
       2015(d) for the determination of eligibility for food stamp benefits.
       Individuals who comply with the work requirements have the opportu-
       nity to receive assistance in finding employment and obtaining
       education and training. This administrative regulation is needed to
       comply with the federal mandates of PL 104-193, section 815. Also,
       individuals who are subject to the work requirement pursuant to 904
       KAR 3:025E, Section 3(8), who cannot find a job can participate in
       the Food Stamp Program by complying with the requirements of the
       Work Experience Program (WEP), a component of the Food Stamp
       Employment and Training Program. Food stamp recipients who want
       to secure their own service provider may do so as a participant in the
       Community Service Program (CSP). By implementing these provi-
       sions, including WEP and CSP, program participants will benefit by
       a nutritious diet.

   (b) State whether a harmful effect on environment and public
       health would result if not implemented: A detrimental effect on public
       health would result if this amendment is not implemented.

   (c) If detrimental effect would result, explain detrimental effect: It
       is necessary to promulgate this administrative regulation to prevent
       the possible loss of federal funding (100% of food stamp benefits,
       50% of federal match for administrative funds, and 100% of federal
       enhanced funding), due to the failure to implement the federal man-
       dates of PL 104-193, section 815.

(b) Identify any statute, administrative regulation or government
   policy which may be in conflict, overlapping, or duplication: None
   (a) Necessity of proposed regulation if in conflict: None
   (b) If in conflict, was effort made to harmonize the proposed
       administrative regulation with conflicting provisions: None
   (10) Any additional information or comments: None
   (11) TIERING: Is tiering applied? No. Tiering was not applied
       since application of policy is applied in a like manner for all individuals
       as set forth through federal requirements.

601 KAR 9:140. Temporary registration plates.

RELATES TO: KRS 186A.100 [Chapters 186-186A]
STATUTORY AUTHORITY: KRS 186A.100
NECESSITY, FUNCTION, AND CONFORMITY: KRS Chapter 186A allows a county clerk to issue a thirty (30) day temporary registration plate to a vehicle registered and titled in another state for which a properly completed application for title and registration has been submitted. It also provides for currently licensed motor vehicle dealers to issue thirty (30) day temporary plates to be placed on motor vehicles which have been [not] previously registered in Kentucky. Finally, a county clerk may issue a one (1) to seven (7) day temporary tag for a motor vehicle which is currently registered and titled in Kentucky when necessary to maintain the registration and if emergency or unusual conditions exist. The thirty (30) day temporary registration plate may only be issued by the county clerk while the documents necessary to register the vehicle in Kentucky are being assembled. This administrative regulation prescribes the procedure for applying for a temporary registration plate and the proper use of such plates. It further specifies how the temporary registration plate is to be completed by either the county clerk or motor vehicle dealer.

Section 1. Application. (1) The properly completed application referred to in KRS 186A.100(4) shall be on the form mandated in KRS 186A.060.

(6) Amendment of charges. At any time before the matter is submitted for final decision, the statement of charge(s) may be amended or supplemented. Section 7. Conduct of Hearing. (1) Unless otherwise authorized by the Education Professional Standards Board, the board shall use the hearing officer to hear all cases, to make findings of fact, conclusions of law, and recommended orders to the board for a decision. The hearing officer shall be empowered to make all decisions and rule on all matters concerning the conduct of the hearing, including prehearing motions. He shall require an orderly and proper decorum at the hearing, shall be authorized to restrict the number of witnesses and to set a reasonable time limit on the length of the hearing, and shall be authorized to require compliance with his rulings.

(2) If the board hears a case, a legal advisor provided by the Office of the Attorney General shall preside at the hearing and advise the board on matters of law. The board shall itself exercise all other powers relating to the conduct of the hearing but may delegate any or all of them to the legal advisor, including the admission and exclusion of evidence.

(b) The legal advisor shall remain with the board during its deliberations, shall not engage in deliberations, or in the discussions of the facts or the factual findings. The legal advisor may respond to questions regarding legal issues and assist the board in the drafting and final wording of the findings of fact, conclusions of law, and order.

(3) A hearing officer or a member of the board shall voluntarily disqualified himself and withdraw from any case in which he cannot afford the certificate holder a fair and impartial hearing. The parties may conduct a voir dire of the board member or hearing officer. Any party may request the disqualification of a hearing officer or a board member and shall state with particularity the grounds upon which it is claimed that there is bias or prejudice and that a fair and impartial hearing cannot be afforded. When the request concerns a board member, the question shall be determined by the other members of the board. When the request concerns a hearing officer, the question shall be determined by the executive secretary of the board.

(4) Evidence:
(a) Oral evidence shall be taken only on oath or affirmation.
(b) Each party shall have those rights to:
1. A trial-type hearing;
2. Conduct a voir dire;
3. Call and examine witnesses;
4. Introduce exhibits;
5. Cross-examine opposing witnesses on any matter relevant to the issues.
6. Impose any witness regardless of which party first called the witness to testify; and
7. Rebut evidence.

(c) If the certificate holder does not testify in his behalf, he may be called and examined as if under cross-examination. Upon motion by either party and authorization by the board or the hearing officer, either party may submit rebuttal evidence by deposition either party after the hearing is adjourned for good cause shown. The introduction of testimony taken in this manner shall be limited to rebuttal testimony only and shall be submitted within a defined time frame as ordered by the board or the hearing officers.

(d) The hearing shall not be conducted according to technical rules relating to evidence and witnesses. The formal rules of evidence and civil procedure shall not apply. Any relevant evidence may be admitted if it is the sort of evidence on which reasonably prudent persons rely in the conduct of their serious affairs, regardless of the existence of any common law or statutory rule which might make inadmissible the admission of evidence over objection in civil actions. Hereafter evidence may be used for the purpose of supplementing or explaining other evidence but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions. Inadmissible evidence may be excluded.

(e) Upon a showing of unavailability or other good cause, the testimony of any witness previously examined under oath or affirmation in a criminal, civil or administrative adjudicatory action and recorded by audio, video or written transcription, subject to cross-examination by the certificate holder, may be presented by either party in lieu of oral testimony. A request to substitute the oral testimony of any witness shall be submitted in writing to the hearing officer, or if the board is to hear the case, to the executive secretary of the board, at least ten (10) days prior to the hearing. The opposing party may file written objections setting forth in detail the reason for the objection at least five (5) days prior to the hearing.

(5) The proceedings and evidence presented shall be recorded by a court reporter.

(6) Administrative Notice. In reaching a decision, the board or hearing officer may take official notice of cognizable facts which may be judicially noticed by the courts of Kentucky and of any generally accepted technical and scientific matter. Board members or the hearing officer may utilize their experience, technical competence and specialized knowledge in the evaluation of the evidence presented. Parties present at the hearing shall be informed of the matters to be noticed, and those matters shall be noted in the record, referred to in the record, or appended to the record. Any party shall be given a reasonable opportunity on request to refute the officially noticed matters of evidence by evidence or by written or oral presentation or authority. The board or its hearing officer shall determine the manner by which a party may refute the officially noticed matter.

Section 8. Findings and Recommendations. Exceptions. (1) Following completion of the hearing, the hearing officer shall prepare within thirty (30) days after the case is submitted a recommended order, including findings of fact and recommendations, based on the evidence, facts, and information presented at the hearing and contained in the record. The recommended order shall be in such form that it may be adopted as the decision in the case.

(2) The recommended order shall be issued at the discretion of the hearing officer through the office of the board’s executive secretary. A copy shall be mailed by means of certified mail, return receipt requested, by the executive secretary to each party or his attorney if represented by counsel.

(3) Any party may submit written exceptions to the hearing officer’s findings of fact and recommended order. Exceptions shall be filed with the board through the office of the executive secretary within ten (10) days following receipt of the recommended order. The hearing officer for good cause shown may order the period enlarged if request is made before expiration of the period originally prescribed. The length of the written exceptions shall be limited to ten (10) pages unless otherwise extended by permission of the hearing officer upon motion for extension by either party.

(4) Exceptions not timely filed shall be noted and made a part of the record, but shall not be considered by the board in making its final decision. For the purpose of this section, written exceptions shall be considered to have been timely filed if postmarked on the date due.

Section 9. Board Review and Final Action. (1) The board may adopt or reject the recommended order of the hearing officer in its entirety, or may increase or reduce the proposed period of revocation or suspension and adopt the balance of the recommended order.

(h) If the recommended order is rejected by the board as provided in paragraph (a) of this subsection, the board may decide the case upon the record, with or without taking additional evidence or may remand the case to the hearing officer for further action as deemed appropriate and ordered by the board. If additional evidence is introduced before the board, board members shall not vote on the final

NECESSITY, FUNCTION, AND CONFORMITY: Executive Order 96-862, effective July 2, 1996, reorganized the Cabinet for Human Resources and placed the Department for Social Insurance and its programs under the Cabinet for Families and Children. The Cabinet for Families and Children [Human Resources] has responsibility to administer a Food Stamp Program. KRS 194.050 provides that the secretary shall, by administrative regulation, develop policies and operate programs concerned with the welfare of the citizens of the Commonwealth. This administrative regulation specifies the technical eligibility requirements used by the cabinet in the administration of the Food Stamp Program.

Section 1. Definitions. (1) "Certification period" means a definite period of time within which a household shall be eligible to receive food stamp benefits.

(4) "Student status" means any person who is between the ages of eighteen (18) and fifty (50) inclusive, physically and mentally fit, and enrolled at least half-time in an institution of higher education.

Section 2. Technical Eligibility. In accordance with federal regulations promulgated by the Food and Consumer Service (FCS), of the United States Department of Agriculture, the cabinet utilizes national uniform requirements of technical eligibility for the Food Stamp Program.

(1) Residency. A household shall live in the county in which they make application;

(2) Identity. The applicant's identity shall be verified; and

available from the public comment received: No requests for a hearing were received as a result of the publication of the Notice of Intent and no written comments were received.

(b) Cost of doing business in the geographical area in which the administrative regulation will be implemented, to the extent available from the public comment received: No requests for a hearing were received as a result of the publication of the Notice of Intent and no written comments were received.

(c) Compliance, reporting, and paperwork requirements, including factors increasing or decreasing costs (note any effects upon competition) for the:

1. First year following implementation: None of the changes that are incorporated into this administrative regulation will significantly increase or decrease the number of people who are eligible for food stamp benefits. Thus, the department does not anticipate any additional administrative costs resulting from the promulgation of this administrative regulation. Any costs or savings in food stamp benefits that are realized as a result of changes to technical eligibility criteria will be insignificant. Since food stamp benefits are 100 percent federally funded, any costs or savings will not have an impact on the state agency. Most noncitizens who apply for food stamp benefits will not have any additional compliance, reporting and paperwork requirements as a result of the new alien requirements pursuant to PL 104-193, §402. It is anticipated that less than 500 noncitizens will be subject to additional paperwork requirements to determine if they will be eligible for food stamps. Individuals who are subject to 7 USC 2015(o), as amended by §824 of PL 104-193, will be required to verify employment, participation in an approved work program or exemption in order to participate in the Food Stamp Program for more than 3 months in a 36 month period.

2. Second and subsequent years: See item #1.

(3) Effects on the promulgating administrative body:

(a) Direct and indirect costs or savings:

1. First year: None

2. Continuing costs or savings: None

3. Additional factors increasing or decreasing costs: None

(b) Reporting and paperwork requirements: None

(4) Assessment of anticipated effect on state and local revenues:

No effect.

(5) Source of revenue to be used for implementation and enforcement of administrative regulation: Federal and state funds.

(6) To the extent available from the public comments received, the economic impact, including effects of economic activities arising from administrative regulation, on:

(a) Geographical area in which administrative regulation will be implemented: No requests for a hearing were received as a result of the publication of the Notice of Intent and no written comments were received.

(b) Kentucky: No requests for a hearing were received as a result of the publication of the Notice of Intent and no written comments were received.

(7) Assessment of alternative methods; reasons why alternatives were rejected: Alternative methods were not considered since the methods which are incorporated into this administrative regulation are specifically mandated by PL 104-193, §402 and §824, and PL 104-208, §510.

(8) Assessment of expected benefits:

(a) Identify effects on public health and environmental welfare of the geographical area in which implemented and on Kentucky: The state is required to administer the program required under 7 USC 2011 et seq., for the determination of eligibility for food stamp benefits. *For family size above eight (8), the parent fee shall not increase.  

(a) Except fees shall not be assessed in:  
1. A child protective case under SSBG; or  
2. A K-TAP [AN-APDC], medical assistance or food stamp case where clients are receiving dependent care disregard.  

(b) The DCW shall determine the maximum daily reimbursement rate and parent fee, not to exceed rates as specified in Section 7(2) of this administrative regulation and monitor the payment to the child care provider using the DSS-77, Day Care Billing Statement, herein incorporated by reference. If the parent fails to pay the fee the DCW shall develop a plan with the parent to pay the fee.  

(c) The DCW shall advise the client to report family and financial changes that may affect authorization of payments. Reauthorizations shall be determined:  
1. Every six (6) months; and  
2. Upon receipt of reported changes.  

(4) The Cabinet for Families and Children [Human Resources] may, except for TCC and protective service cases, establish priorities for child care services as follows:  
(a) Children with special needs;  
(b) Job Opportunity and Basic Skills Program or TCC participants who have children ineligible for child care payments under the programs;  
(c) Families who lose eligibility in another child care program; and  
(d) Other low income working parents or parents attending training or educational programs.  

(5) The Department for Social Services shall exchange TCC client specific information to the Department for Social Insurance within twenty (20) days of discovery.  

(a) The DCW shall report the following case terminations to the local DSI, Division of Field Services Office:  
1. When a TCC client quits a job without good cause;  
2. Based on a TCC client's failure to pay a parent fee; and  
3. Based on a TCC client's refusal to cooperate with the Division of Child Support Enforcement; and
1. First year: The first year direct and indirect costs to the agency include the cost of one time mailouts and follow-up for the 2600 unregulated providers needing to complete the enrollment process. Continuing costs to the agency will include only the cost of completing the enrollment process for new providers chosen by parents.

3. Additional factors increasing or decreasing costs: There are no additional factors increasing or decreasing costs but the requirement to have minimum health and safety standards for individuals caring for children provides parents with some assurance about the quality of care their children will receive.

(b) Reporting and paperwork requirements: With the required enrollment process the agency will have additional reporting and paperwork requirements to process the application for enrollment and complete the necessary follow-up to allow child care subsidy payments to enrolled providers.

4. Assessment of anticipated effect on state and local revenues: The only anticipated effect on state and local revenues is that with the completed enrollment process the unregulated providers will be eligible for payment pursuant to the Child Care Development Block Grant, Transitional Child Care Programs, At-Risk Child Care Programs, and child care services pursuant to 904 KAR 2:017.

5. Source of revenue to be used for implementation and enforcement of administrative regulation: The source of revenue to be used for implementation is the Child Care and Development Block Grant as amended with the new welfare reform legislation.

6. To the extent available from the public comments received, the economic impact, including effects of economic activities arising from administrative regulation on:
(a) Geographical area in which administrative regulation will be implemented: A public hearing was scheduled for the Notice of Intent on December 30, 1996 during which no additional comment was received from affected entities.
(b) Kentucky: A public hearing was scheduled for the Notice of Intent on December 30, 1996 during which no additional comment was received from affected entities.

7. Assessment of alternative methods; reasons why alternatives were rejected: The other alternative method to provide minimum health and safety standards and comply with 45 CFR 98.41 was to require all providers receiving CCDBG funds as amended by the new welfare reform legislation to become certified. Since many of the unregulated providers are caring for between one and three children, it was determined that requiring them to become certified as governed by KRS 195.8982 could be detrimental to a parents choice of potential child care providers. The certification requirement may have curtailed the number of eligible providers available for the provision of subsidized child care to families in need.

8. Assessment of expected benefits: Expected benefits for the enrollment process are that unregulated providers will become enrolled and be eligible for subsidies under the CCDBG, Transitional Child Care Programs, At-Risk Child Care Programs and child care services pursuant to 904 KAR 2:017. Additionally the unregulated providers through the enrollment process will comply with 45 CFR 98.41 which requires at a minimum that providers protect the health and safety of children through the prevention and control of infectious diseases including immunizations, building and physical premises safety and minimum health and safety training. Additionally the requirement to have minimum health and safety standards for individuals caring for children provides parents with some assurance about the quality of care their children will receive.

(a) Identity effects on public health and environmental welfare of the geographical area in which implemented and on Kentucky: One effect on the public health is that the unregulated providers through the enrollment process will comply with 45 CFR 98.41 which requires at a minimum that providers protect the health and safety of children through the prevention and control of infectious diseases including immunizations, building and physical premises safety and minimum health and safety training.

(b) State whether a detrimental effect on environment and public health would result if not implemented: There is no detrimental effect as unregulated providers would be ineligible for subsidies under the CCDBG as amended by the new welfare reform legislation.

(c) If detrimental effect would result, explain detrimental effect: There would be no detrimental effect.

9. Identify any statute, administrative regulation or government policy which may be in conflict, overlapping, or duplication: There is no statute, administrative regulation, or governmental policy which may be in conflict with, overlap, or duplicate the proposed regulation.

(a) Necessity of proposed regulation if in conflict: There is no statute, administrative regulation, or governmental policy which may be in conflict with, overlap, or duplicate the proposed regulation.

(b) If in conflict, was effort made to harmonize the proposed administrative regulation with conflicting provisions: There is no statute, administrative regulation, or governmental policy which may be in conflict with, overlap, or duplicate the proposed regulation.

10. Any additional information or comments: There are no additional information or comments of which we are aware.

11. TIERING: Is tiering applied? No. The change in the welfare reform law requires that unregulated providers receiving subsidies statewide are required to comply with 45 CFR 98.41 and become enrolled pursuant to this administrative regulation.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. PL 104-193, Personal Responsibility and Work Opportunity Reconciliation Act of 1996 and 45 CFR 98.41
2. State compliance standards. In order to comply with the requirements of the above referenced mandate the state has established an enrollment process in order for unregulated providers to become eligible to receive payments under the Child Care Development Block Grant as amended by PL 104-193.
3. Minimum or uniform standards contained in the federal mandate. Pursuant to 45 CFR 98.41 providers are required to protect the health and safety of children through the prevention and control of infectious diseases including immunization, building and physical premises safety and minimum health and safety training.
4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No, prior to the amendment to the Child Care and Development Block Grant with PL 104-193, all unregulated providers requesting payment were required to become certified. With the expansion of the Child Care and Development Block Grant to include Title IV-A child care providers the cabinet developed the enrollment process that will provide minimum health and safety requirements for providers of child care that are not required by statute to be licensed or certified.
5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements.

(c) Review of the necessity and reasonableness of any costs claimed under Section 5(3) of this administrative regulation.
(3) The fund may request supporting documentation in addition to that listed in subsection (1) of this section to verify the reasonableness or necessity of any cost.
(4) If circumstances necessitate the closure in place of tanks, rather than their removal, the costs incurred may be reimbursed from this account. The owners bear the burden of showing the necessity for the closure in place and the cost effectiveness of closure in place versus tank removal.

REGULATORY IMPACT ANALYSIS
Agency contact: David B. Wicker
(1) Type and number of entities affected: The proposed regulation will affect a small portion of the approximately 15,000 facilities with underground storage tanks containing petroleum products.
(a) Direct and indirect costs or savings to those affected:
1. First year: Owners of petroleum storage tanks that meet the requirements of this account will be relieved of the cost of removing the tanks if the removal is required by state and federal law.
2. Continuing costs or savings: This proposed regulation should not increase cost to the public.
3. Additional factors increasing or decreasing costs: (Note any effects upon competition): There are no additional factors increasing or decreasing costs.
(b) Reporting and paper requirements: Tank owners or operators will be required to complete, file, maintain and process application and claim forms.

(2) Effects on the promulgating administrative body:
(a) Direct and indirect costs or savings:
1. First year: The Office of the Petroleum Storage Tank Environmental Assurance Fund receives operating expenses from the Petroleum Storage Tank Environmental Assurance Fund. The regulation proposes to commit $3,000,000 per year to this account.
2. Continuing costs or savings: The fund anticipates continuing costs associated with staff and general operation of the program.
3. Additional factors increasing or decreasing costs: There are no additional factors increasing or decreasing costs. The fund believes that it has adequate staff at this time to administer this program.
(b) Reporting and paperwork requirements: The fund is required to collect, review, maintain, and process review files.
(3) Assessment of anticipated effect on state and local revenues: See fiscal note on local government.
(4) Assessment of alternative methods: reasons why alternatives were rejected:
(a) HB 167 required creation of this regulation.
ALTERNATIVE:
1. LESS STRINGENT: The fund cannot be less stringent than the statute allows.
2. MORE STRINGENT: The fund cannot be more stringent than the statute allows.
3. PRESENT PROPOSAL: The present proposal complies with KRS 224.60-130, as amended by HB 167.
(5) Geographical and environmental impact
(a) Geographical: The effect of this regulation will be equal through all geographic regions of the state.
(b) Environmental: This regulation will benefit the environment as it provides a method for low income tank owners to remove potential environmental hazards.
(6) Identify any statute, administrative regulation or government policy which may be in conflict, overlapping or duplication: None
(a) Necessity of proposed regulation if in conflict: There is no conflict.
(b) If in conflict, was report made to harmonize the proposed regulation with conflicting provisions: There is no conflict.
(7) Source of revenue: The monies expended by the fund will come from the Petroleum Storage Tank Environmental Assurance Fee, pursuant to KRS 224.60-145.

(9) Any additional information or comments: There is no additional information.
(10) Tiering statement: Was tiering applied: Yes, tiering was applied. The amount of reimbursement an owner is entitled to is tiered based on the number of tanks owned. The regulation only applies to tank owners with less than $50,000 annual income.

FEDERAL MANDATE ANALYSIS COMPARISON
1. Federal statute or regulation constituting the federal mandate. None
2. State compliance standards. None
3. Minimum or uniform standards contained in the federal mandate. None
4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No
5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. Not applicable.

FISCAL NOTE ON LOCAL GOVERNMENT
1. Does this administrative regulation relate to any aspect of a local government, including any service provided by that local government?

VOLUME 23, NUMBER 10 - APRIL 1, 1997
policy which may be in conflict, overlapping, or duplication: None
   (a) Necessity of proposed regulation if in conflict: N/A
   (b) If in conflict, was effort made to harmonize the proposed
       administrative regulation with conflicting provisions: N/A
   (10) Any additional information or comments: None
   (11) TIERING: Is tiering applied? No, Tiering was not appropriate
       in this administrative regulation because the administrative regulation
       applies equally to all those individuals or entities regulated by it.
       Disparate treatment of any person or entity subject to this administrat-
       ive regulation would raise questions of arbitrary action on the part of
       the agency. The "equal protection" and "due process" clauses of the
       Fourteenth Amendment of the U.S. Constitution may be implicated as
       well as Sections 2 and 3 of the Kentucky Constitution.

       storage tanks that are interconnected or are less than three (3) feet
       apart, where oil is collected from a wellhead.

Section 2. (1) An operator or owner shall display a printed sign
on each tank battery, whether it is in active production or has been
abandoned.
   (2) Each sign shall, at a minimum, contain the following word
       and phrases:
          (a) "Danger";

       through shall be displayed on each side of the words "no smoking or
       open flame".

Section 3. (1) The sign shall also use the numbering system set
out in the NFPA Edition 704, entitled "Standard System for the
Identification of the Fire Hazards of Materials", which has a classification
and marking system for identification of the fire hazards of certain
materials, including petroleum crude oil. Under this system, the
following classifications of petroleum crude oil are subject to the
numbers and colors indicated.
   (2) A "health hazards" ranking of "1" shall be identified by a black
       "1" in a blue square located in a square-on-point field at the nine (9)

       o'clock position without the colored square.
   (3) A "flammability hazards" ranking of "3" shall be identified by
       a black "3" in a red square located in a square-on-point field at the
twelve (12) o'clock position, or the number may be colored red in the
twelve (12) o'clock position without the colored square.
   (4) A "reactivity hazards" ranking of "0" shall be identified by a
       black "0" in a yellow square located in a square-on-point field at the

              than three (3) inches nor more than four (4) inches in height;
          (b) The words "no smoking or open flame" shall be in uniformly
              sized letters not less than one (1) inch nor more than one and
              one-half (1 1/2) inches in height; and
          (c) The words set out in Section 2(2)(c) through (f) of this
              administrative regulation shall be in uniformly sized letters not less

   (5) The background color of the sign shall contrast with the
       foreground color of the letters and the NFPA numbers to make them
       clearly visible (e.g., white background and black letters).

Section 5. There shall be a minimum of one (1) sign per tank
battery unless individual tanks are controlled by more than one (1)
operator, in which case a sign is required for each tank. A sign shall
be displayed a minimum of five (5) feet off the ground, at the most
visible location from approach, and shall be maintained in proper
condition and replaced when it is no longer readable, is damaged,
and/or if it is stolen.

Section 6. Signs in Existence Prior to this Administrative
Regulation. An operator having a danger sign posted on a tank or tank
battery prior to the effective date of this administrative regulation may
keep the existing sign posted under the following conditions:
   (1) The operator shall petition the director in writing for a waiver
       to use a sign which is designed in a manner other than that required
       in this administrative regulation.
   (2) Each sign shall be clearly displayed on each tank or tank
       battery at the most visible location from approach.
   (3) The existing sign shall not be painted on the tank.
   (4) Each danger sign shall be replaced with the sign described in
       this administrative regulation when it is no longer readable, is
       damaged, vandalized or if it is stolen.

Section 7. Violations for Failure to Post a Sign. (1) Upon locating
a tank or tank battery without a danger sign, the inspector shall issue
a notice of noncompliance to the last known operator.
   (2) The notice of noncompliance shall be mailed to the operator
       by certified mail, return receipt requested. If the violation is not
       corrected by the posting of a proper sign within forty-five (45) days
       of his receipt of the notice of noncompliance, the operator shall be
       subject to the penalties set out in KRS 353.991.

Section 8. Material Incorporated by Reference. (1) The following
material is incorporated by reference: NFPA Edition 704, "Standard
System for the Identification of Fire Hazards of Materials", 1990
edition, Chapters 1-4 and Figure 6.1.

805 KAR 1:170. Content of the operations and reclamation proposal; form on which the proposal is filed.

RELATES TO: KRS 353.520, 353.570, 353.590, 353.5901, 353.595, 353.597
STATUTORY AUTHORITY: KRS 353.540, 353.550, 353.5901, 353.670
NECESSITY, FUNCTION, AND CONFORMITY: KRS 353.5901(1)

requires a well operator to submit to the Department of Mines and Minerals an operations and reclamation proposal applicable to all tracts on which there has been a complete severance of the ownership of the oil and gas from the ownership of the surface to be disturbed. This administrative regulation specifies the content of the operations and reclamation proposal, creates the form on which that proposal is to be filed, and provides for the form on which well transfers are indicated.

Section 1. Definitions. In addition to those set out in KRS 353.510, the following definitions shall apply to this administrative regulation:

(1) "Cross drain" means an open ditch, constructed across the roadway, to carry off road surface water and which is not intended to replace culverts or prohibit vehicular traffic.

(2) "Diversion ditch" means a channel or ridge constructed across a slope for diverting surface runoff.

(3) "Filter strip" means a natural vegetative strip, left undisturbed, between the disturbed construction area and a water course, and which acts as a buffer area to catch sediment before it enters the water course.

(4) "Final reclamation" means the date on which the operator has completed his drilling operations at the well site, has plugged the well and has performed all obligations described in the operations and reclamation proposal.

(5) "Surface owner" means the person in whose name title to the surface of the land subject to disturbance by drilling operations is recorded and who is assessed property taxes by the property valuation administrator of the county where the land is located.

Section 2. (1) The operations and reclamation proposal shall be filed on Form ED-10, effective February 14, 1997, entitled "Plan to Prevent Erosion of and Sedimentation from a Well Site".

(2) In addition to the requirements set out in KRS 353.5901, the following information shall be set out on Form ED-10:

(a) The operator's and surface owner's names, addresses and telephone numbers, the county in which the well is proposed to be drilled, and the well number:

(b) A listing or description of fertilizers and soil amendments and seed or trees planted for each affected area requiring revegetation treatment and the types and amounts per acre of seed and trees planted; and

(c) A detailed drawing of the road, well location and proposed area of disturbance, which shall be in sufficient detail to allow ready identification of surface features and which shall satisfy the following requirements:

1. The surface owner's tract(s) shall be identified on the drawing, which shall also indicate the acreage to be disturbed;

2. The drawing may be made over an enlarged section of the United States Geological Survey (USGS) 1:24000 topographic map and may be enlarged to approximately 1"=400' and be submitted on an eight and one-half (8 1/2) inch by fourteen (14) inches sheet, using the symbols set out on Form ED-10.

3. The drawing shall have a legend with the operator's and surface owner's names, the scale of the map, the well name and number, and the lease name.

(3) Signatory sections for the operator and surface owner shall be completed on Form ED-10 in the following manner:

(a) The name and title, if any, of the operator shall be indicated and his signature notarized, which signature shall be either that of an officer of the company or of some other person who holds a duly recorded power of attorney to execute documents, a copy of which power of attorney shall be filed with the division. If the prospective operator is an individual, the signatory shall be in the same name as the applicant's or a power of attorney to execute documents shall be submitted to the division if the signatory is someone other than the applicant;

(b) The surface owner's name shall be indicated and his signature notarized if he approves of the operations and reclamation proposal, together with any attachments submitted with it.

Section 3. Unscheduled Reclamation Forms. If the owner of the surface of the severed mineral tract is unwilling or for some other reason has failed to execute Form ED-10, the operator shall file a written petition for mediation, together with the following, at the time the application for permit is filed, in accordance with KRS 353.5901:

(1) A copy of the certified mail receipt verifying that the operations and reclamation proposal, the statement required in KRS 353.5901(2)(b), and the plat were mailed to and received by the surface owner or, if not received, the original or a copy of the unclaimed envelope. A copy of the operations and reclamation proposal and the attachments enclosed in the envelope mailed to the surface owner shall also be included.

(2) If the surface owner cannot be reached at his last known address of record and certified mail is returned as undeliverable or unknown, the operator shall publish a notice of intended activity, together with a request for information on the whereabouts of the surface owner, which publication shall be made two (2) consecutive times in a local newspaper in the county where the proposed well is located and once in a newspaper with statewide distribution. A copy of the notice of intended activity and request for surface owner information shall be included when the operator files his application for permit and shall include:

(a) The name and address of the operator;

(b) A brief description of the intended activity as set out in the operations and reclamation proposal;

(c) The date upon which the surface owner must respond; and

(d) A statement of where interested persons may obtain additional information as to the operator's intended activity.

Section 4. Mediation of Dispute. (1) The surface owner may file with the division a request for mediation at any time after he has received from the operator the proposed operations and reclamation proposal, but only after the operator has filed his request for mediation and not later than the time set forth in the Notice of Request for Mediation provided by the department and mailed to the surface owner. The surface owner's request to participate in mediation shall include the mediation fee, in accordance with KRS 353.5901(2)(b).

(2) If the surface owner does not file his mediation fee within the time and in the manner required in the Notice of Request for Mediation, he shall be deemed to have failed to satisfy the statutory requirements applicable to mediation, the mediator shall file a report noting such failure and recommend the acceptance of the operator's operations and reclamation proposal.

(3) Upon his receipt of a request for mediation, proof of notification or attempted notification and copies of the published notice of intended activity, if required by Section 3 of this administrative regulation, and the mediation fee required in KRS 353.5901(4), the mediator shall issue an order scheduling mediation and send it by certified mail to the well operator and all surface owners of areas to be disturbed by drilling who have not agreed to the operations and
ADMINISTRATIVE REGISTER - 3657

2. Continuing costs or savings: Since permitting and field inspections are recurring obligations, the costs described above are anticipated to remain fairly consistent from year to year.

3. Additional factors increasing or decreasing costs: If there is an increase in permit activity on severed mineral tracts, costs may increase, just as they would be expected to decrease if such activity decreases.

(b) Reporting and paperwork requirements: Since this agency is currently permitting and performing field inspections, little additional impact on associated reporting and paperwork activities is anticipated as a result of this proposed administrative regulation.

(4) Assessment of anticipated effect on state and local revenues: It is anticipated that this administrative regulation will have minimal effect on state and local economies, since only 70 to 100 wells will be drilled per year on lands having severed minerals, based on 1996 activity, thereby requiring operators to satisfy the requirements of this proposal.

(5) Source of revenue to be used for implementation and enforcement of administrative regulation: The current budget allocated for permitting and field inspection will provide for funding of this proposed regulation. It is anticipated that no additional funding will be required.

(6) To the extent available from the public comments received, the economic impact, including effects of economic activities arising from administrative regulation, on:

(a) Geographical area in which administrative regulation will be implemented: None

(b) Kentucky: None

(7) Assessment of alternative methods; reasons why alternatives were rejected: The requirements of this administrative regulation are necessary to better provide protection of the surface owner's property from erosion and sedimentation from an operator's drilling activity and to better provide protection of his water sources. This proposal is required to implement the mandate of KRS 353.5901.

(8) Assessment of expected benefits:

(a) Identify effects on public health and environmental welfare of the geographical area in which implemented and on Kentucky: Benefits to the surface owner will include better description of the operator's activities relating to the operations and reclamation proposal in a manner designed to prevent erosion, control drainage, establish permanent vegetative cover and correct slides and settlement problems.

(b) State whether a detrimental effect on environment and public health would result if not implemented: Yes

If detrimental effect would result, explain detrimental effect: If this administrative regulation is not implemented, the surface owner would be less able to express his concerns over the surface use and reclamation of the area proposed to be disturbed. Erosion could result and revegetation might not be performed.

(9) Identify any statute, administrative regulation or government policy which may be in conflict, overlapping, or duplication: This proposed administrative regulation neither conflicts with, overlaps, nor duplicates any statute, administrative regulation or government policy.

(a) Necessity of proposed regulation if in conflict: There is no conflict.

(b) If in conflict, was effort made to harmonize the proposed administrative regulation with conflicting provisions: There is no conflict.

(10) Any additional information or comments: The enactment of this proposed administrative regulation will require periodic retraining of office staff and division field inspectors in order for them to be updated on new technology and changes in well site reclamation and the drilling industry, generally.

(11) TIERING: Was tiering applied: Yes. Tiering was applied in this proposed administrative regulation. Operators are required to satisfy the requirements of this administrative regulation when their proposed drilling activity is on lands where the minerals are severed,

VOLUME 23, NUMBER 10 - APRIL 1, 1997
producing oil and gas wells, for which production information is statutory required. Persons or operators wishing to invest in or drill wells in the Commonwealth will be aided by production information which shows area trends.

(2) Direct and indirect costs or savings on the:
(a) Cost of living and employment in the geographic area in which the administrative regulation will be implemented, to the extent available from the public comments received;
(b) Cost of doing business in the geographic area in which the administrative regulation will be implemented to the extent available from the public comments received: Any direct costs associated with this proposal are attributable to the requirement that an operator having producing oil and gas wells in the Commonwealth file with this agency production information for quantities of oil and gas produced from his wells. It is anticipated that the in-house cost for a small operator to provide this information is less than $100 per year. However, a larger operator having several thousand wells will have significantly higher costs for providing this information.
(c) Compliance, reporting, and paperwork requirements, including factors increasing or decreasing costs (note any effects upon competition) for the:
1. First year following implementation: This administrative regulation requires an operator to annually file production information on his producing wells on the form required by this agency. Since operators are currently statutorily required to file that information, this administrative regulation will not require any additional costs to the operator; it simply prescribes the form used to file the production information with this agency.
2. Second and subsequent year: Compliance, reporting and paperwork requirements are anticipated to be the same in succeeding years, since the reporting requirement is an annual one.
(3) Effects on the promulgating administrative body: This proposed administrative regulation will require this agency to record the information required from each operator on forms to be made available to the public. This will be accomplished by entry into a data system already in place.
(a) Direct or indirect costs or savings: The costs for administering this administrative regulation will not increase over those costs already budgeted for administration of the production reporting provisions of KRS 353.205.
1. First year: None anticipated, since production information is already being received and Form ED-17 provides clarification of the production reporting required in KRS 353.550(1). This administrative regulation requires the identification of producing leases, to be submitted on the form on which production is required by the department to be reported.
2. Continuing costs or savings: It is anticipated that second year costs will be the same as the first.
3. Additional factors increasing or decreasing costs: There are none anticipated at this time.
(b) Reporting and paperwork requirements: Since this agency is already requiring the filing of production information, this proposed administrative regulation will not increase costs. It merely provides clarification for the filing of that information by means of a form created in the administrative regulation.
(4) Assessment of anticipated effect on state and local revenues: It is anticipated this administrative regulation will have minimal effect on state and local revenues.
(5) Source of revenue to be used for implementation and enforcement of administrative regulation: The costs for the administration of production reporting is provided for by legislative budget.
(6) To the extent available from the public comments received, the economic impact, including effects of economic activities arising from administrative regulation, on:
(a) Geographic area in which administrative regulation will be implemented: None
(b) Kentucky: None
(7) Assessment of alternative methods; reasons why alternatives were rejected: This administrative regulation is necessary in order to create the form used to file production data.
(8) Assessment of expected benefits:
(a) Identify effects on public health and environmental welfare of the geographic area in which implemented and on Kentucky: This administrative regulation will allow production information to be recorded in a more useful manner and may promote more drilling or exploration, thereby increasing production and benefiting the local economy. It will also be of assistance to the investor wishing to inquire as to a well's or region's production history.
(b) State whether a detrimental effect on environment and public health would result if not implemented: No
(c) If detrimental effect would result, explain detrimental effect: None
(9) Identify any statute, administrative regulation or government policy which may be in conflict, overlapping, or duplication: This proposed administrative regulation neither conflicts with, overlaps, nor duplicates any statute, administrative regulation or government policy.
(a) Necessity of proposed regulation if in conflict: There is no conflict.
(b) If in conflict, was effort made to harmonize the proposed administrative regulation with conflicting provisions? There is no conflict.
(10) Any additional information or comments: None
(11) TIERING: Was tiering applied? Yes, Tiering was applied to this administrative regulation to allow electronic filing of production data in lieu of submitting Form ED-17. Electronic filing will reduce the number of copies an operator is required to make and he may have the production data for many wells submitted on a single disk or submitted as an electronic mail attachment.

(New Administrative Regulation)

807 KAR 5:063. Filing requirements and procedures for proposals to construct telecommunications antenna towers.

RELATES TO: KRS 278.630
STATUTORY AUTHORITY: KRS 278.020(1), 278.040(3), 278.650 NECESSITY, FUNCTION, AND CONFORMITY: KRS 278.040(3) provides that the commission may adopt, in keeping with KRS Chapter 13A, reasonable administrative regulations to implement the provisions of KRS Chapter 278. KRS 278.020(1) authorizes the commission to issue certificates of public convenience and necessity for utility construction. KRS 278.650 prescribes procedures to be followed for proposals to construct antenna towers in a county containing a city of the first class which differ from those to be followed for proposals to construct antenna towers outside a county containing a city of the first class. This administrative regulation prescribes filing requirements and procedures to be followed in applying for a certificate of public convenience and necessity to construct a telecommunications antenna tower.

Section 1. A utility proposing to construct a telecommunications antenna tower in a county which does not contain a city of the first class shall file:
(1) All documents and information required by 807 KAR 5:001, Sections 8 and 9(2)(a), (b), (c), (d) and (g);
(2) Copies of the utility's applications to the Federal Aviation Administration and Kentucky Airport Zoning Commission and written authorizations from these agencies as soon as they are available;
(3) Copies of the utility's application to, and authorization from, the Federal Communications Commission, if applicable;
(4) A geotechnical investigation report that includes boring logs,
ADMINISTRATIVE REGISTER - 3661

factors increasing or decreasing costs (note any effects upon competition) for the:
1. First year following implementation: Little, if any, increase in the cost of compliance, reporting, and paperwork requirements is expected. Utilities proposing to construct wireless telecommunications facilities routinely notify nearby residents. Moreover, any increase in notification expense will be, at least in part, offset by eliminating the filing of cost information. Such information is not necessary since the commission no longer regulates cellular rates.
2. Second and subsequent years: See answer to (2)(c)(1) above.
3. Direct and indirect costs or savings:
   (a) First year: No direct or indirect costs or savings to the commission are expected. Regulation of tower siting will continue to be handled in the ordinary course of business.
   (b) Reporting and paperwork requirements: None
4. Assessment of anticipated effect on state and local revenues:
   (a) No effect on state or local revenues is anticipated.
   (b) Source of revenue to be used for implementation and enforcement of administrative regulation: No additional revenue is required to implement this regulation.
5. To the extent available from the public comments received, the economic impact, including effects of economic activities arising from administrative regulation:
   (a) Geographical area in which administrative regulation will be implemented: No public comments were received. However, no economic effect on any geographical area is expected.
   (b) No public comments were received. However, no economic effect on Kentucky is expected.
   (c) Assessment of alternative methods; reasons why alternatives were rejected: No alternative methods have been suggested. The commission believes the regulation as proposed is the best method for insuring that wireless telecommmunications facilities construction is appropriately monitored pursuant to the requirements of KRS 278.650.
7. Assessment of expected benefits: Information and documents submitted pursuant to the proposed regulation will not be made unless a written request for a transcript is made. OTHER BUSINESS

1. Commissioner Tom Bennett, Department of Fish and Wildlife
Resources

Report on the Long-Term Funding Task Force (HCR 76)
Report on Long-Term Funding Task Force. Tom Bennett, Commissioner, Tom Young, Deputy Commissioner, and Jim Owens, Budget Analyst, represented the Department.

Mr. Bennett stated that: (1) in 1996, the General Assembly
determined that: (a) people with a Railroad disability would be
permitted to hunt and fish for free in Kentucky; (b) while this determi-
nation did not directly affect the Department revenues, it increased
the number of persons permitted to hunt and fish for free to over
100,000 people in Kentucky, about 1 in 7 persons; and (c) this
resulted in a loss of 15% of potential Department revenue; (2) by
the passage of House Concurrent Resolution 76, the General Assembly
created a task force, with six (6) legislators and ten (10) other
persons on it, to study the long term funding of fish and wildlife and
nature related recreation in Kentucky, because it realized that, in the
long term a reduction in revenue would result because: (a) Kentucky’s
senior citizen population is getting larger; and (b) the number and
effect of all exemptions had increased; (3) Senator Pendleton is the
co-chair of the task force, and Representatives Royce Adams,
Horlander, Will Scott, Dwight Butler, and Senator Borders are
members of the task force; (4) The Task Force has had 6 meetings.

Senator Pendleton: (1) commended Commissioner Bennett and
his people for their work on the Task Force because they had seen
the future potential for a crisis in wildlife funding and the need to take
action; (2) stated that: (a) the Commissioner had taken the Task
Force across the State to hold meetings and hearings that permitted
people to participate and express any concerns or ideas that they
had; (b) these meetings would help meet the needs of the Fish
and Wildlife Department in the 21st century; and (c) The Department was
a $3 billion dollar industry that supported about 52,000 jobs; (3)
commended the Commission for the fine job it had done; and (4)
stated that: (a) people want to make sure that Fish and Wildlife could
continue this; (b) the Task Force viewed the number of free licenses
not only as an issue of a free licenses, but also as one relating to a
loss of federal dollars that the State was losing because of the free
licenses; (c) at some point, the General Assembly would have to
consider how the State can overcome the loss of about $650,000
in federal matching funds due to the exemptions granted 100,000
people from licensure; (d) one of the big questions was who should
pay for wildlife conservation in Kentucky; (e) while the polls show that
about 50 % of the people believe that all of citizens should pay
through general tax revenues, in reality, the program is paid for only
program was a 19 year program that could not be confined or accomplished within a 2 year biennial budget cycle; (4) the state had to commit today for the future; (5) people who are in farming and connected with the wood products industry know that these programs are 5, 10, and 15 year programs; (6) growing hardwoods in Kentucky is a 20 year program; and (6) the raccoon the Department was required to project revenues is that, as with these activities and programs, the activities for which the Department is responsible also required it to that far ahead.

With regard to budget and revenue issues, Mr. Bennett stated that: (1) he had included with the handout a chart of revenues and expenditures to show when the Department believed the crisis would start; and (2) the Department believed that serious budget problems would occur some time after the turn of the century; (3) while he was aware that the General Assembly's plate was full, he knew a number of legislators were well versed in the problems facing the Department relating to funding of the Department and its effect on the General Fund; (4) the Department's problem was a little more complicated because it was directly affected by the aging of the population of Kentucky; (5) a graph in the handout showed the projected population of Kentuckians 18 to 64; and (6) this group were the people who paid salaries, bought boats, and went to the water on Sunday afternoon; (7) this age group was: (a) the primary license buying age group in Kentucky; and (b) was projected to increase slightly until about the year 2010 when it would crash with the result that license buying persons in Kentucky will; (8) as a baby boomer, when he retired, he would become a part of the largest group of senior citizens ever to come into Kentucky; (9) in the handout, the Department had made a projection that, around the year 2010, the senior citizen population: (a) will explode; and (b) more and more people will be hunting and fishing for free; (10) with regard to those exempted from license fees because of disability, information from the Social Security Administration showed that the numbers of disabled persons will increase over the next 10 years; (11) the Task Force planned to conduct: (a) between 5 and 6 more meetings across the state; and (b) 1 additional meeting in the State; and (12) the Department would sponsor a number of public meetings.

Mr. Bennett stated that the Department: (1) did not: (a) have a solution; or (b) know what the Task Force would recommend; and (2) would accommodate Subcommittee members who: (a) had particular areas of concern; and (b) would like the Department to come into their area. Mr. Bennett stated that: (1) the Department is aware of action taken by other states; (2) Missouri and Arkansas were the benchmarks by which fish and wildlife agencies across the country are gauging themselves by; (3) fish and wildlife was not only an important part of Kentucky life, but was also: (a) part of our heritage and an existing industry that meant a lot of jobs, whether it involved: 1. working in a marina; 2. guiding someone on a fishing or hunting trip; or 3. selling sporting goods; (b) big business in Kentucky, and constituted about half of the outdoor recreation in Kentucky; (4) the Department was trying to address problems before: (a) a crisis developed; and (b) the Department was required to curtail some of the state's very important programs; (5) Kentucky: (a) makes a higher commitment in the education of our young people with regard to conservation than any state in America; (b) was the only state in America with: 1. 19 full-time conservation educators working in the school systems; and 2. three conservation camps for kids in the Summer; (6) that Kentuckians really care about fish and wildlife, and nature related recreation was shown by the fact that the Department's TV program: (a) continued to enjoy broad-based success; and (b) was believed to be KET's number one program. Mr. Bennett stated that the schedule to be followed was to hold the public meetings, and report to the Legislative Research Commission with an official report from the Task Force on October 1st.

In response to questions by Representative Allen, Mr. Bennett stated that: (1) annual license sales generated about $16 million per year for the Department; (2) about 50% of the money was derived from hunting licenses, and 50% from fishing licenses; (3) annually, the federal revenue returning to Kentucky for the upcoming year will be about: (a) $4 million from fisheries; and $2.8 million from hunting; (4) federal revenue returning to Kentucky was based on a 75-25 match; (5) the Department had to put 25 cents on the dollar as those funds are expended; and (6) of the $16 million derived each year from license sales: (a) $3.6 million is derived directly from deer permits and (b) turkey permit revenue was about $600,000.

Representative Allen stated that: (1) he had seen a decline in hunting in his area; and (2) there were a lot of people who just liked to watch game now; (3) there were several species that had overpopulated, such as opossum, skunk, and raccoon, which upset the balance of small game; (4) the Department might take a look at promoting small game hunting of rabbit, squirrel, and quail hunting, with the junior hunting license people; (5) a lot of people in his area believed that the Department was putting too much emphasis on turkey and deer, which was understandable because it is the meat of the program and where the finances come from; (6) if we could get these people interested in hunting small game and they became avid hunters, sooner or later, they would go after a deer or turkey; and (7) an approach the Department might want to look at was to encourage the young hunter into hunting something different.

In response to Representative Allen's comments, Mr. Bennett stated that: (1) when the Commission tried the youth deer hunting day 2 years ago, it was somewhat anxious about taking a day away from the adults; (2) when it followed it the next year with a deer hunting weekend for kids 16 and under, the number of participants increased by 11%; (3) at the Commission meeting last Friday, the Commission recommended administrative regulations for next hunting season that: (a) will be brought before the Subcommittee; and (b) would increase the: 1. squirrel season by 30 days; and 2. opportunity for young people to go out and hunt.

Representative Allen stated that: (1) there was a lot of concern over quail hunting in his area, with some people thinking that turkey are destroying the quail nest; (2) although he had seen some destruction, he had some doubt that it was attributable to turkeys alone; (3) nevertheless these people also needed help; (4) when you get a quail hunter out there, soon, he could become a turkey hunter or a deer hunter also; (5) all hunting related and rated together; and (6) the Department should not end the emphasis on small game, if it expected an increase in the larger game field.

Mr. Bennett stated that: (1) for the most part, the reason that wild turkey had done so well was because the: (a) landscape of Kentucky was favorable to turkeys; and (b) habitat conditions for quail had declined all over the state; (2) probably the best quail habitat was Eastern Kentucky with the change in mining offering opportunities for new habitats; and (3) it was a big problem to maintain good small numbers of quail.

Chairman Arnold stated that: (1) the quail in Union County were very limited now; (2) a lot of hunters believed that the coyote and the turkey were the reason for that; and (3) he hoped that there was some sort of program on the horizon to try to restore a population of quail in the western part of the state.

Mr. Bennett stated that: (1) the Department did not have a major program on the drawing board; (2) had been timid about trying to establish that kind of a new program without a funding source to actually pay for it; (3) there was some concern about predator populations in western Kentucky which historically had been the state's premiere quail and rabbit hunting area; (4) in his lifetime, in the western part of the state: (a) 6 million acres of farmland had been taken out of production; and (b) the size of the average farm in Kentucky had doubled from about 80 to almost 160 acres; and (4) this indicated a major shift in farming techniques to the larger type farms, the more production oriented agriculture that created less edge and less cover for the quail.

In response to questions by Chairman Arnold, Mr. Bennett stated that: (1) fescue provided very little food value or cover for the quail.

Locator Index - Effective Dates ........................................... J2

The Locator Index lists all administrative regulations published in VOLUME 23 of the Administrative Register from July, 1996 through June, 1997. It also lists the page number on which each administrative regulation is published, the effective date of the administrative regulation after it has completed the review process, and other action which may affect the administrative regulation. NOTE: The administrative regulations listed under VOLUME 22 are those administrative regulations that were originally published in the Volume 22 (last year's) issues of the Administrative Register but had not yet gone into effect when the 1996 bound Volumes were published.

The KRS Index is a cross-reference of statutes to which administrative regulations relate. These statute numbers are derived from the RELATES TO line of each administrative regulation submitted for publication in VOLUME 23 of the Administrative Register.

Subject Index ............................................................ J30
