This emergency administrative regulation is being promulgated to enable the Department for Medicaid Services (DMS) to establish a state maximum-allowable cost for any drug for which there are (2) or more multisource drugs with a significant cost difference exist; to determine a state maximum-allowable cost for a drug by reviewing the pricing sources average wholesale price (AWP), wholesale acquisition cost (WAC), and direct price for the drug and approximating, as closely as possible, the estimated acquisition cost and utilizing that amount as the state maximum-allowable cost; to alter drug reimbursement effective February 15, 2005, from AWP minus twelve (12) percent to AWP minus sixteen (16) percent and effective January 1, 2006 to AWP minus seventeen (17) percent; to revise the unit dose drug packaging payment to $0.02 per unit dose for a nonunit dose drug repackaged in unit dose form by a pharmacist; to allow one (1) dispensing fee per rolling twenty-four (24) day period per nursing facility service recipient per drug except for certain circumstances; to establish for an outpatient service recipient that a maintenance drug shall be dispensed, if appropriate, up to a ninety-two (92) day supply with only one (1) dispensing fee allowed for the maintenance drug refill within the ninety-two (92) day time period; to establish that if the dispensing of an emergency supply of a drug results in partial filling of the quantity or amount prescribed, that only one dispensing fee shall be allowed for the combined partial fill and subsequent completion fill; and to add gross amount due to drug reimbursement options. This action must be taken on an emergency basis to ensure the viability of the Medicaid Program. Failure to enact this administrative regulation on an emergency basis would pose an imminent threat to the public health, safety or welfare of Medicaid recipients whose receipt of services may be jeopardized due to a lack of funding. This emergency administrative regulation differs from the emergency administrative regulation filed with the Legislative Research Commission on December 3, 2004 in that it alters drug reimbursement on February 15, 2005, from average wholesale price (AWP) minus twelve (12) percent to AWP minus sixteen (16) percent and effective January 1, 2007 to AWP minus seventeen (17) percent; in that it revises the drug repackaging payment to $0.02 per unit dose for a nonunit dose drug repackaged by a pharmacist; in that it allows one (1) dispensing fee per rolling twenty-four (24) day period per nursing facility service recipient per drug except for certain circumstances; and in that it establishes for an outpatient service recipient that a maintenance drug shall be dispensed, if appropriate, up to a ninety-two (92) day supply with only one (1) dispensing fee allowed for the maintenance drug refill within the ninety-two (92) day time period. This emergency administrative regulation shall be replaced by an ordinary administrative regulation filed with the Regulations Compiler.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen or Teresa Goodrich (502-6204)

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the method for determining reimbursement for drugs through the Medicaid Outpatient Pharmacy Program.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the method for determining reimbursement for drugs through the Medicaid Outpatient Pharmacy Program.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing the method for determining reimbursement for drugs through the Medicaid Outpatient Pharmacy Program.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation currently assists and will continue to assist in the effective administration of the authorizing statutes by establishing the method for determining reimbursement for drugs through the Medicaid Outpatient Pharmacy Program.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment to this administrative regulation includes establishing a state maximum-allowable cost for any drug for which 2 or more multisource drugs with a significant cost difference exist; determining a state maximum-allowable cost for a drug by reviewing the pricing sources average wholesale price (AWP), wholesale acquisition cost (WAC), and direct price for the drug and approximating, as closely as possible, the estimated acquisition cost and utilizing that as the state maximum-allowable cost; allowing drug reimbursement effective February 15, 2005, from AWP minus 12% to AWP minus 16% and effective January 1, 2006 to AWP minus 17%; revising the unit dose drug packaging payment to $0.02 per unit dose for a nonunit dose drug repackaged in unit dose form by a pharmacist; allowing one dispensing fee per rolling 24 day period per nursing facility service recipient per drug except for certain circumstances; establishing for an outpatient service recipient that a maintenance drug shall be dispensed, if appropriate, to a 92 day supply only 1 dispensing fee allowed for the maintenance drug refill within the 92 day time period; establishing that if the dispensing of an emergency supply of a drug results in partial filling of the quantity or amount prescribed, that...
only one dispensing fee shall be allowed for the combined partial fill and subsequent completion fill; and adding gross amount due to drug reimbursement options.

(b) The necessity of the amendment to this administrative regulation: The amendment to this administrative regulation is necessary to control rising pharmacy reimbursement costs in the Medicaid program in order to maintain the financial viability of the Department for Medicaid Services. Currently, DMS is subsidizing the commercial market via high reimbursement to pharmacies for excessively inflated drug ingredient costs and high dispensing fees. This amendment would bring Medicaid more in line with other state Medicaid plans as well as the commercial sector.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment to this administrative regulation conforms to the content of the authorizing statutes by establishing a state maximum-allowable cost for any drug for which 2 or more multisource drugs with a significant cost difference exist; determining a state maximum-allowable cost for a drug by reviewing the pricing sources average wholesale price (AWP), wholesale acquisition cost (WAC), and direct price for the drug and approximating, as closely as possible, the estimated acquisition cost and utilizing that as the state maximum-allowable cost; altering drug reimbursement effective February 15, 2005, from AWP minus 2% to AWP minus 16% and effective January 1, 2006 to AWP minus 17%; revising the unit dose drug packaging payment to $0.02 per unit dose for a nonunit dose drug repackaged in unit dose form by a pharmacist; allowing 1 dispensing fee per rolling 24 day period per nursing facility service recipient per drug except for certain circumstances; establishing for an outpatient service recipient that a maintenance drug shall be dispensed, if appropriate, up to a 92 day supply with only 1 dispensing fee allowed for the maintenance drug refill within the 92 day time period; establishing that if the dispensing of an emergency supply of a drug results in partial filling of the quantity or amount prescribed, that only 1 dispensing fee shall be allowed for the combined partial fill and subsequent completion fill; and adding gross amount due to drug reimbursement options.

(d) How the amendment will assist in the effective administration of the statutes: The amendment to this administrative regulation will assist in the effective administration of the authorizing statutes by establishing a state maximum-allowable cost for any drug for which 2 or more multisource drugs with a significant cost difference exist; determining a state maximum-allowable cost for a drug by reviewing the pricing sources average wholesale price (AWP), wholesale acquisition cost (WAC), and direct price for the drug and approximating, as closely as possible, the estimated acquisition cost and utilizing that as the state maximum-allowable cost; altering drug reimbursement effective February 15, 2005, from AWP minus 12% to AWP minus 16% and effective January 1, 2006 to AWP minus 17%; revising the unit dose drug packaging payment to $0.02 per unit dose for a nonunit dose drug repackaged in unit dose form by a pharmacist; allowing 1 dispensing fee per rolling 24 day period per nursing facility service recipient per drug except for certain circumstances; establishing for an outpatient service recipient that a maintenance drug shall be dispensed, if appropriate, up to a 92 day supply with only 1 dispensing fee allowed for the maintenance drug refill within the 92 day time period; establishing that if the dispensing of an emergency supply of a drug results in partial filling of the quantity or amount prescribed, that only 1 dispensing fee shall be allowed for the combined partial fill and subsequent completion fill; and adding gross amount due to drug reimbursement options.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: All Medicaid outpatient pharmacy providers and drug manufacturers will be affected by this administrative regulation.

(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment: Pharmaceutical providers or manufacturers shall be affected in that effective February 15, 2005, drug reimbursement will change from its current AWP minus 12% to AWP minus 16% and effective January 1, 2006, to AWP minus 17%; that a state maximum-allowable cost may be established for any drug for which 2 or more multisource drugs with a significant cost difference exist; in that the pricing methodology for determining a state maximum-allowable cost is being replaced; that if the dispensing of an emergency supply of a drug results in partial filling of the quantity or amount prescribed, that only 1 dispensing fee shall be allowed for the combined partial fill and subsequent completion fill. Long term care pharmaceutical providers will be impacted in that the long term care repackaging fee will be $0.02 per unit dose for a nonunit dose drug repackaged in unit dose form by a pharmacist. Providers of maintenance drugs outpatient recipients will be affected in that a maintenance drug shall be dispensed, if appropriate, up to a 92 day supply with only 1 dispensing fee allowed for the maintenance drug refill within the 92 day time period. Additionally, this administrative regulation allows one dispensing fee per rolling 24 day period per nursing facility service recipient per drug except for certain circumstances and clarifies that over-the-counter drugs dispensed to nursing facility service recipients shall not be reimbursed via the Medicaid Outpatient Pharmacy Program but rather shall be considered part of nursing facility reimbursement.

(5) Provide an estimate of how much it will cost to implement this administrative regulation: Initially: DMS estimates that the amendment to this administrative regulation could reduce expenditures as much as $42.5 million annually ($29.66 million federal funds; $12.84 million state funds).

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Neither an increase in fees nor funding will be necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all those individuals or entities regulated by it. Disparate treatment of any person or entity subject to this administrative regulation could raise questions of arbitrary action on the part of the agency. The equal protection clauses of the Fourteenth Amendment of the U.S. Constitution may be implicated as well as Sections 2 and 3 of the Kentucky Constitution.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. Pursuant to 42 U.S.C. 1396a et. seq., the Commonwealth of Kentucky has exercised the option to establish a Medicaid Program for indigent Kentuckians. This administrative regulation complies with federal statutes/regulations governing the Medicaid program and drug reimbursement.

2. State compliance standards. This administrative regulation establishes the Department for Medicaid Services reimbursement for drugs in compliance with federal regulations governing drug reimbursement.

3. Minimum or uniform standards contained in the federal mandate. This administrative regulation establishes the Department for Medicaid Services reimbursement for drugs in compliance with federal regulations governing drug reimbursement.

4. Will this administrative regulation impose stricter require-
ments, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not impose stricter than federal requirements.
5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. This administrative regulation does not impose stricter than federal requirements.

STATEMENT OF EMERGENCY
907 KAR 1:019E

This emergency administrative regulation is being promulgated to cover up to three (3) brand name drug prescriptions per recipient per month; to allow for unlimited generic drug prescriptions; to establish that a maintenance drug shall be dispensed in a ninety-two (92) day supply if the recipient demonstrates stability on the maintenance drug; and to clarify that over-the-counter drugs provided to Medicaid recipients receiving nursing facility services shall be excluded from coverage via the Outpatient Pharmacy Program. This action must be taken on an emergency basis to ensure the viability of the Medicaid Program. Failure to enact this administrative regulation on an emergency basis would pose an imminent threat to the public health, safety or welfare of Medicaid recipients whose receipt of services may be jeopardized due to a lack of funding. This emergency administrative regulation shall be replaced by an ordinary administrative regulation filed with the Regulations Compiler.

8. A barbiturate;
9. A benzodiazepine; or

(c) The drug is prepackaged by the manufacturer and is intended to be dispensed as the intact unit and it is impractical for the pharmacist to dispense only a month's supply because one (1) or more units of the prepackaged drug will provide more than a thirty-two (32) day supply; or

acters, of a physician assistant for the state in the individual practices.

(9) [7] If it is determined by the department to be in the best interest of a recipient (recipient), the department may designate a legend drug that may be provided through prior authorization to a recipient in an inpatient facility that does not bill patients, Medicaid, or other third-party payers for drugs.

(7) [6] A recipient who has been restricted to a single pharmacy in accordance with 907 KAR 1:677 shall be required to obtain non emergency pharmacy services from the pharmacy to which the recipient has been restricted.

(8) Effective March 1, 2005, the department shall:

A request shall be submitted in accordance with the following:

(a) Drug Prior Authorization Request Form. This form shall be used by the prescriber or the pharmacist to request prior authorization for a drug other than a drug classified as a proton pump inhibitor or a H2 receptor blocker or for a brand name only request if the generic form of the drug is available. This form may also be used by the pharmacist to obtain prior authorization for special dispensing requests involving:
   1. Maintenance drug dispensing fee exceptions; or
   2. Exceptions to the thirty-two (32) day maximum quantity limit including additional drugs needed for travel or other valid medical reasons.

(b) Brand Name Drug Request Form. Except as provided in paragraphs (c) and (d) of this subsection, this form shall be used by the prescriber to request prior authorization for a brand name only request if the generic form of the drug is available, unless the department has specifically exempted the drug from the requirement to use this form. The prescriber shall:
   1. Complete a Brand Name Drug Request Form;
   2. Include on the Brand Name Drug Request Form the handwritten phrase "brand medically necessary" or "brand necessary" and the prescriber’s signature for each specific drug requested; and
   3. Indicate on the Brand Name Drug Request Form:
      a. Whether the recipient has received treatment with available generic forms of the brand name drug and the length of therapy; and
      b. Why the recipient’s medical condition is unable to be adequately treated with the generic forms of the drug.

(c) A Brand Name Drug Request Form shall not be required if:
   1. It has been determined by the department to be in the best interest of a recipient (recipient) not to require completion of a Brand Name Drug Request Form; and
   2. The prescriber certifies that the brand name is medically necessary in accordance with subsection (3) of this section.

(d) PPI and H2 Blocker Request Form. This form shall be used to request prior authorization for a drug classified as a proton pump inhibitor or a H2 receptor blocker. This form may also be used for a brand name only request if the generic form of the proton pump inhibitor or H2 receptor is available and the prescriber completes the applicable section of the form and:
   1. Includes on the form the handwritten phrase "brand medically necessary" or "brand necessary" and the prescriber’s signa-
ture for each specific drug requested;
   2. Indicates whether the recipient has received treatment with available generic forms of the brand name drug and the length of therapy; and
   3. Indicates why the recipient’s medical condition is unable to be adequately treated with the generic forms of the drug.

(2) If a recipient presents a prescription to a pharmacist for a drug which requires prior authorization, the pharmacist:
   (a) Shall, unless the form is one (1) which has to be completed by the prescriber, submit a request for prior authorization in accordance with subsection (1) of this section;
   (b) Shall notify the prescriber or the prescriber’s authorized representative that the drug requires prior authorization and;
   (c) In the case of a drug list alternative available without prior authorization is acceptable and provides a new prescription, shall dispense the drug list alternative; or
   2. If the prescriber indicates that drug list alternatives available without prior authorization have been tried and failed or are clinically inappropriate or if the prescriber is unwilling to consider drug list alternatives, shall:
   (a) Request that the prescriber obtain prior authorization from the department; or
   b. Unless the form is one (1) which has to be completed by the prescriber, submit a prior authorization request in accordance with subsection (1) of this section; or
   (c) Except as restricted by subparagraphs 3 and 4 of this paragraph, may provide the recipient with an emergency supply of the prescribed drug in an emergency situation in accordance with all of the following:
      1. The emergency situation shall:
         a. Occur outside normal business hours of the department's drug prior authorization office, except for medications dispensed to a long term care recipient in which an emergency supply may be dispensed after 8 p.m. EST; and
         b. Exist if, based on the clinical judgement of the dispensing pharmacist, it would reasonably be expected that, by a delay in providing the drug to the recipient, the health of the recipient would be placed in serious jeopardy or the recipient would experience substantial pain and suffering;
      2. At the time of the dispensing of the emergency supply, the pharmacist shall in accordance with subsection (1) of this section:
         a. Submit a prior authorization request to the department's urgent fax number; or
         b. If applicable, notify the prescriber as soon as possible that an emergency supply was dispensed and that the prescriber is required to obtain prior authorization for the requested drug from the department;
      3. An emergency supply shall not be provided for an over-the-counter (OTC) drug;
      4. An emergency supply shall not be provided for a drug excluded from coverage in accordance with Section 3(1) (a), (b) and (c) of this administrative regulation; and
      5. The quantity of the emergency supply shall be:
         a. The lesser of a seventy-two (72) hour supply of the drug or the amount prescribed; or
         b. The amount prescribed if it is not feasible for the pharmacist to dispense just a seventy-two (72) hour supply because the drug is packaged in such a way that it is not intended to be further divided at the time of dispensing but rather dispensed as originally packaged.

(3) In addition to the requirements of subsection (1) of this section, the prescriber shall be required to certify a brand name only request by including for each brand name drug requested the prescriber’s signature and the phrase "Brand Medically Necessary" or "Brand Necessary" handwritten directly on:
   (a) The prescription; or
   (b) The nursing facility order sheet; or
   (c) A separate sheet of paper which includes the name of the recipient and the brand name drug requested and is attached to the original prescription or nursing facility order sheet.

(4) The department’s notification of a decision on a request for prior authorization shall be made in accordance with the following:
   (a) If the department approves a prior authorization request, notification of the approval shall be provided by telephone or fax to
the party requesting the prior authorization and, if known, to the pharmacist.

(b) If the department denies a prior authorization request:
   1. The department shall provide a denial notice:
      a. By mail to the recipient and in accordance with 907 KAR 1:563; and
      b. By fax, telephone, or if necessary by mail to the party who requested the prior authorization.

(5) The department may grant approval of a prior authorization request for a drug for a specific recipient for a period of time not to exceed 365 days. Approval of a new prior authorization request shall be required for continuation of therapy subsequent to the expiration of a time-limited prior authorization request.

(6) Prior authorization of drugs for a Medicaid long-term care recipient [recipient] in a nursing facility [nursing-facilities] shall be in accordance with the following:
   (a) The department may specify in its drug list specific drugs or drug classes which shall:
      1. Not be exempted from prior authorization; or
      2. Be exempt from prior authorization for Medicaid recipients in nursing-facilities.

(3) The drug review process to determine if a drug shall require prior authorization shall be in accordance with the following:
   (a) The determination as to whether a drug is in an excludable category specified in Section 3(1) of this administrative regulation shall be made by the department.
      1. If a drug which has been determined to require prior authorization becomes available on the market in a new strength, package size, or other form that does not meet the definition of a new drug the new strength, package size, or other form shall require prior authorization.

A brand name drug for which there is a generic form that contains identical amounts of the same active drug ingredients in the same dosage form and that meets comparable or other applicable standards of strength, quality, containment, and purity with the brand name drug shall require prior authorization in accordance with Section 4 of this administrative regulation, unless there has been a review and determination by the department that it is in the best interest of a recipient [recipient] for the department to cover the drug without prior authorization.

(b) The committee shall make a recommendation to the department regarding prior authorization of a drug based on:
   1. A review of clinically-significant adverse side effects, drug interactions and contraindications and an assessment of the likelihood of significant abuse of the drug; and
   2. An assessment of the cost of the drug compared to other drugs used for the same therapeutic indication and whether the drug offers a substantial clinically-meaningful advantage in terms of safety, effectiveness, or clinical outcome over other available drugs used for the same therapeutic indication. Cost shall be based on the net cost of federal rebate and supplemental rebate dollars.

(c) Within thirty (30) days of the date the committee's recommendation is posted on the department's web site, the secretary, in consultation with the commissioner and the department's pharmacy director, shall review the recommendations of the committee and make the final determination whether a drug requires prior authorization. If the recommendation of the committee is not accepted, the secretary shall present the basis for the final determination in accordance with Section 9(3) of this administrative regulation.

11 KAR 5:140. KTG award determination procedure.

RELATES TO: KRS 164.744(2)-164.753(4), 164.780, 164.785
STATUTORY AUTHORITY: KRS 164.748(4), 164.753(4)
NECESSITY, FUNCTION, AND CONFORMITY: KRS 164.748(4) requires the authority to promulgate administrative regulations pertaining to the awarding of grants, scholarships, and honorary scholarships as provided in KRS 164.740 to 164.7891 [164.788]. KRS 164.753(4) requires the authority to promulgate administrative regulations pertaining to grants. This administrative regulation establishes the award determination procedures for the Kentucky tuition grant program.

Section 1. Kentucky Tuition Grant (KTG) Program Awards. An application submitted pursuant to 11 KAR 5:130 shall be reviewed for determination of eligibility for a KTG.

Section 2. KTG Need. For each KTG eligible applicant, the KTG need shall be computed according to the following formula: KTG need equals total cost of education minus the sum of:

(1) Expected Pell grant;
(2) Expected family contribution; and
(3) CAP grant.

Section 3. KTG Award. (1) If an applicant does not qualify for a CAP grant and the KTG need is an amount equal to or greater than $200, the KTG shall be the lesser of the KTG need or the maximum grant authorized by KRS 164.785(3), except that KTG awards shall be offered only to the extent funds are available.

(2) If the applicant does not qualify for a CAP grant, and the KTG need is an amount less than $200, an award shall not be made.

(3) If an applicant has received a CAP award and KTG need is an amount equal to or greater than fifty (50) dollars, the KTG award shall be the lesser of the KTG need or the maximum grant specified in Section 5 of this administrative regulation except that KTG awards shall be offered only to the extent that funds are available.

(4) A KTG award shall not exceed $2,400 for an academic year.

Section 4. (1) A KHEAA grant shall not exceed the cost of tuition and fees charged to the student during the academic year of the award.

(2) A KHEAA grant awarded to an incarcerated individual shall be considered an overaward to the extent that the KHEAA grant, in combination with financial assistance received from other sources, exceeds the student's actual cost for tuition, fees, and books.

(3) A semester award shall not exceed tuition and fee charges for that semester.

(4) A KHEAA grant award shall not be made for a summer academic term.

Section 5. (1) A KHEAA grant award shall not exceed the applicant's total cost of education less expected family contribution and other anticipated student financial assistance.

(2) The authority shall reduce or revoke a KHEAA grant upon receipt of documentation that financial assistance from other sources in combination with the KHEAA grant exceeds the educational institution's determination of financial need for that student.

(3) The KHEAA grant program officer (KGPO) and the grant recipient shall make every reasonable effort to provide the author-

ity the information needed to prevent an overaward.

(4) If the applicant's expected family income, disbursed KHEAA grant amount, plus other student financial assistance exceeds his cost of education by more than $300, the amount over $300 shall be considered to be an overpayment. If an overpayment occurs, this amount shall be returned to the authority immediately.

Section 6. (1) If the authority receives revised data that, upon re-computation, results in the student becoming ineligible for a KHEAA grant that has already been offered, but not disbursed, the grant shall be revoked.

(2) If the student is determined to be ineligible after the KHEAA grant has been disbursed, the student shall repay to the authority the entire amount of the KHEAA grant for which the student was ineligible.

Section 7. (1) If the authority receives revised data that, upon re-computation, necessitates reduction of the KHEAA grant and the grant has not yet been disbursed, the reduction shall be made to both the fall and spring disbursements, and the student shall be notified of the reduction.

(2) If the grant for the fall academic term has already been disbursed, the reduction shall be made to the spring disbursement.

(3) If both the fall and spring disbursements have been made, the student shall repay the overaward to the authority.

Section 8. Students requested by the institution to provide verification of data for any financial assistance program shall provide the verification before receiving disbursement of a KHEAA grant. Any student who is awarded a KHEAA grant who fails to provide verification requested by the educational institution shall be deemed ineligible, and the grant shall be revoked.

11 KAR 5:160. Disbursement procedures.

RELATES TO: KRS 164.7535, 164.780, 164.785
STATUTORY AUTHORITY: KRS 164.748(4), 164.753(4)
NECESSITY, FUNCTION, AND CONFORMITY: KRS 164.748(4) requires the authority to promulgate administrative regulations pertaining to the awarding of grants, scholarships, and honorary scholarships as provided in KRS 164.740 to 164.7891 [164.788]. KRS 164.753(4) requires the authority to promulgate administrative regulations pertaining to grants. This administrative regulation establishes the disbursement procedures for KHEAA grant programs.

Section 1. Eligibility Verification. (1) The KGPO shall certify the eligibility of students and submit to the authority a complete and accurate eligibility verification file (EVF), according to instructions accompanying the eligibility verification file layout provided by the authority, to indicate which KHEAA grant recipients are actually enrolled at the institution.

(2) The educational institution shall submit to the authority a properly certified eligibility verification file (EVF):

(a) For the fall academic term, by:
   1. October 1 for educational institutions using nonquarter hour academic terms; and
   2. October 15 for educational institutions using quarter hour academic terms; and

(b) For the spring academic term, by:
   1. February 15 for educational institutions using nonquarter
hour academic terms; and
2. April 15 for educational institutions using quarter hour academic terms.

(3) The instructions accompanying the eligibility verification file layout shall specify:
(a) Conditions under which a KHEAA grant shall be disbursed to the benefit of the KHEAA grant recipient, and
(b) Conditions under which KHEAA grant funds shall be returned to the authority.

(4) If the KGPO fails to provide complete and accurate information in the proper format in the eligibility verification file according to the instructions or fails to submit the file to the authority by the deadline established in subsection (2) of this section, the authority shall not advance KHEAA grant funds in the next academic term until the file for the next academic term is properly certified and submitted.

Section 2. Disbursement and Delivery of Funds. KHEAA grant funds shall be disbursed by the authority twice during an academic year to educational institutions for subsequent delivery to eligible students or application of the funds to the accounts of eligible students during the academic term for which the funds are received by the educational institution.

(1)(a) Except as provided in Section 1(4) of this administrative regulation and subject to the availability of funds, the authority shall disburse in August to educational institutions, for subsequent delivery to eligible students or application of the funds to the accounts of eligible students enrolled at the institution during the fall academic term, the amount of KHEAA grant funds equal to the total amount of KHEAA grant funds that the institution properly paid to students for the fall academic term of the preceding academic year.

(b) Except as provided in Section 1(4) of this administrative regulation and subject to the availability of funds, the authority shall disburse in January to educational institutions, for subsequent delivery to eligible students or application of the funds to the accounts of eligible students enrolled at the institution during the spring academic term, the amount of KHEAA grant funds equal to the total amount of KHEAA grant funds that the institution properly paid to students for the spring academic term of the preceding academic year.

(2) The educational institution shall deliver KHEAA grant funds to eligible students or apply KHEAA grant funds to the accounts of eligible students enrolled for the academic term beginning not earlier than ten (10) days before the first day of classes of each semester, trimester or quarter of the academic term.

(3)(a) Upon receipt of the properly certified eligibility verification file for that academic term, the authority shall process the EVF data and update the grant database with award information.

(b) Based on the newly-revised database, the authority shall generate a semester college disbursement report/file for each institution.

(c) Based on this update, the authority shall determine through a reconciliation process whether any additional funds are owed to or refunds are due from the institution.

1. If additional funds are owed to the institution, the authority shall forward those funds to the institution.

2. If refunds are due from the institution, the authority shall bill the institution.

(4) Not later than thirty (30) days after the end of the academic term, the KGPO shall return to the authority, according to instructions attached to the eligibility verification file layout, all funds advanced for that academic term that remain undispensed to eligible students. The authority may withhold any services and funds from the educational institution from the due date until the eligibility verification file and all funds advanced, that remain undispensed to eligible students, are received by the authority.

Section 3. A KTG awarded for the academic year shall be disbursed by the authority:
(1) To institutions using nonquarter hour academic terms, in the amount of one-half (1/2) for the fall academic term and one-half (1/2) for the spring academic term; and
(2) To institutions using quarter hour academic terms, no more than one-third (1/3) per quarter two-thirds (2/3) for either the fall or the spring academic term.

Section 4. (1) A CAP grant awarded for the academic year shall be disbursed by the authority:
(a) To institutions using nonquarter hour academic terms, in the amount of one-half (1/2) for the fall academic term and one-half (1/2) for the spring academic term; and
(b) To institutions using quarter hour academic terms, no more than one-third (1/3) per quarter two-thirds (2/3) for either the fall or the spring academic term.

(2) The educational institution shall adjust the amount of the CAP grant delivered to an eligible student or applied to the account of an eligible student enrolled at the institution if the student is enrolled part time during the academic term.

Section 5. (1) KHEAA grants disbursed by the authority to eligible students enrolled at an educational institution that uses a short winter term in combination with longer fall and spring terms shall be applied by the institution to the student's account or delivered to the student so that the first disbursement shall be in the fall academic term and the second disbursement shall be in the spring academic term.

(2) Enrollment during the shorter winter term shall not qualify a student for KHEAA grant assistance for that academic term. Credit hours for which the student is enrolled during the short winter academic term may be added to credit hours for which the student enrolls in the fall and spring academic terms to establish enrollment as a full-time student during those academic terms.

Section 6. (1) The educational institution shall:
(a) Be responsible for proper disbursement of KHEAA grants to eligible students during the academic term for which the grants are intended;
(b) Not make KHEAA grant funds available to the grant recipient or apply those funds to the recipient's account:
1. Prior to the date that the recipient has completed the registration requirements (except for the payment of tuition and fees) at the institution for each academic semester or quarter for which the KHEAA grant is awarded; or
2. After the end of the academic term for which the funds are received by the institution;
(c) Be liable for disbursement to the wrong individual or to an ineligible student or for untimely disbursement pursuant to this section; and
(d) Make restitution to the authority of any amount improperly disbursed.

(2) Failure of the institution to make restitution when required shall, without precluding other remedies, be deemed cause for limitation, suspension or termination of the participation of the institution in accordance with 11 KAR 4:020.

(4) The cabinet shall allocate the payment amount determined in subsection (3)(c) of this section to each of the obligor's arrears obligations subject to income withholding.
(5) If the obligor's current support and arrears obligations subject to income withholding are satisfied for the current month, the cabinet shall allocate a remaining income withheld amount proportionately according to subsections (1) and (2) of this section.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: It eliminates an applicability date for the regulation since that time has passed, provides better detail as to the requirements candidates who do not have 150 hours in education must meet to sit for the exam after March 31, 2007, allows for the extension of time if necessary for a candidate to sit for the exam, and corrects an error in the calculation of time associated with carrying forward credit earned when a section of the exam is passed.

It will also clarify for candidates the standards used for the carrying forward credit earned on the exam and if some candidates fail to pass the exam by March 31, 2007 the requirements must then meet to sit for the exam.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Ellen F. Benzing
(1) Provide a brief summary of:
(a) What the administrative regulation does: This administrative regulation establishes the procedures for transporting and holding exotic wildlife in Kentucky.
(b) The necessity of the administrative regulation: To prohibit the importation and holding of exotic species that have the potential to damage native ecosystems.
(c) How does this administrative regulation conform to the authorizing statute: KRS 150.180 authorizes the department to promulgate administrative regulations governing the transportation of wildlife. KRS 150.280(2) authorizes the department to identify species of wildlife potentially damaging to native ecosystems and prohibit the transportation and holding of those species.
(d) How will this administrative regulation assist in the effective administration of the statutes: This regulation establishes the list of inherently dangerous animals that are not native to Kentucky. The listed species are banned from transportation and possession in the state of Kentucky.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change the existing administrative regulation: The amendment expands the list of species, which are prohibited from transportation into Kentucky and prohibited from possession in Kentucky. The amendment creates and clarifies exemptions for persons or entities which may possess the listed species and establishes exemptions where the animals may be transported through Kentucky (i.e. the listed species of prohibited animals may be transported and displayed if less than 96 hours and the animal is confined.)
(b) The necessity of the amendment to this administrative regulation: The KDFWR is receiving increasing numbers of complaints regarding possession and escape of the listed species.
(c) How does the amendment conform to the authorizing statutes: See "(c)" above.
(d) How the amendment will assist in the effective administration of the statutes: See "(d)" above.
(3) List the type and number of individuals, businesses, organizations or state and local governments that will be affected: It is not determinable how many persons currently possess the species listed in Section 2(2) of this administrative regulation. Those persons who do possess the listed species may still possess them. However, those persons who wish to acquire and hold the species listed in Section 2(2) in the future may not do so. It is not determinable how many persons this prohibition will effect.
(4) Provide an assessment of how the above groups will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment: Persons already holding the species of animals listed in Section 2(2) will not be affected. Those persons may still possess their animals. However, these persons will not be permitted to acquire new animals listed on the prohibited species list after the effective date of the regulation unless they qualify for an exemption established in Section 2(3).
(5) Provide an estimate of how much it will cost to implement this administrative regulation: There will be no cost associated with the implementation of this administrative regulation.
(a) Initially: There will be no additional cost to the agency to implement this administrative regulation.
(b) On a continuing basis: There will be no additional cost to the agency.
(5) What is the source of funding to be used for implementation and enforcement of this administrative regulation: The current budget of the Department of Fish and Wildlife Resources Division of Law Enforcement already oversees the enforcement of administrative regulations. The Division of Wildlife oversees wildlife transportation and holding permits. Both divisions' current budgets will provide for the implementation and enforcement of this administrative regulation.
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. It will not be necessary to increase a fee or funding to implement this administrative regulation.
(8) State whether or not this administrative regulation establishes any fees directly or indirectly increases any fees: No fees.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Dan Figert

(1) Provide a brief summary of:

(a) What the administrative regulation does: establishes the requirements for harvesting elk that have caused destruction; establishes the procedures for elk quota hunts and the application requirements; and establishes procedures for taking elk outside of the restoration area.

(b) The necessity of the administrative regulation: To assure the proper destruction of elk who are causing damage to property, to assure the fair selection of hunters who apply for the elk quota hunts, to establish procedures for eradication of elk outside the restoration area, and to protect and conserve elk in the commonwealth.

(c) How does this administrative regulation conform to the authorizing statute: KRS 150.025 authorizes the department to promulgate administrative regulations governing the taking of wildlife. KRS 150.390 authorizes the department to promulgate administrative regulations for the harvesting of elk that are causing destruction to property. KRS 150.390(4) authorizes the KDFWR to establish elk hunting seasons and requirements.

(d) How will this administrative regulation assist in the effective administration of the statute: The elk population has reached a level that will support limited harvesting as the statute provides. Also, procedures are established for the destruction of elk they cause damage to property. Finally, provisions are in place to allow the taking of elk outside of the restoration area. Without the procedures, harm may be caused to the elk population and the department's restoration and management efforts.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change the existing administrative regulation: The amendment increases the number of quota elk tags that may be awarded from 41 to 100, allows elk hunting on public areas, and creates the "landowner cooperators permit". The landowner cooperators permit is a permit that may be issued to qualified landowners that agree to enter into a 5-year public hunting and access agreement with the department.

(b) The necessity of the amendment to this administrative regulation: Data from the 2004 elk season reveals that the Kentucky elk population can and should sustain greater elk hunting pressure. To sustain greater numbers of elk hunters, the elk hunters may need access to private and public lands. By establishing a landowner cooperators permit, a vehicle to provide public access to private land is created.

(c) How does the amendment conform to the authorizing statutes: See "C" above.

(d) How the amendment will assist in the effective administration of the statutes: See "D" above.

(3) List the type and number of individuals, businesses, organizations or state and local governments that will be affected: Persons wishing to apply for an annual elk quota hunt will be positively affected as chances for being drawn increase as the number of tags increased from 40 to 100. 8,500 persons applied for the 2004 quota elk hunt. Persons who own land over 5,000 acres who enter into an agreement with the department for public hunting access may receive one elk tag.

(4) Provide an assessment: of how the above groups will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment: Elk quota hunt applicants will be affected positively as their chances for being selected grew with the increase in the number of elk tags from 40 to 100. Persons who own 5,000 or more acres will be affected positively as they may receive an elk tag if they agree to allow public hunting on their lands.

(5) Provide an estimate of how much it will cost to implement this administrative regulation: There will be no cost associated with the implementation of this administrative regulation.

(a) Initially: There will be no additional cost to the agency to implement this administrative regulation.

(b) On a continuing basis: There will be no additional cost to the agency.

(6) What is the source of funding to be used for implementation and enforcement of this administrative regulation: The current budget of the Department of Fish and Wildlife Resources, Division of Wildlife oversees the elk program. There will be no additional costs associated with the quota hunt. The department already has the mechanisms in place for administering quota hunt application procedures and random drawings.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. It will not be necessary to increase a fee or funding to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees directly or indirectly increases any fees: No fees.

(9) TIERING: Is tiering applied? Tiering was not used because all persons wishing to harvest elk or participate in the landowners cooperative permit program will be treated the same.

(c) A primary classification of a prisoner shall be accomplished as soon as practical after his initial court appearance, or prior to a permanent housing placement within the institutional population. The purpose of primary classification is to address the long term housing, supervision and health care needs of the prisoner. (4) A recategorization component shall be developed that reassesses the prisoner’s risk, need and housing assignment and supervision based upon either time, event, change of status or request.

(5) An instrument of assessment shall be developed for each of the classification components using sources including charged offense, criminal history of the prisoner, available institutional behavior history, interview and observation of the prisoner or other information sources available to the institution.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: It establishes the regulation required concerning jails by the authorizing statute.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendment revises the minimum standards for jails that elect not to house state prisoners.
(b) The necessity of the amendment to this administrative regulation: To conform to the requirements of KRS 441.055.

RELATES TO: KRS 160.105
STATUTORY AUTHORITY: KRS 156.070, 160.105
NECESSITY, FUNCTION, AND CONFORMITY: KRS 160.105 directs the Kentucky [State] Board of [for Elementary and Secondary] Education to require by administrative regulation that each school district provide for fire and extended insurance coverage on nonresidential buildings, at not greater than replacement cost but allowing for coinsurance and deductible features. This administrative regulation implements that function by providing for a level of insurance coverage on school district buildings and structures sufficient to protect both the local school districts and any school revenue bond holders, as their interests may appear.

Section 1. (1) A [Each] local board of education shall procure [submit to the chief state school officer for his approval, not less than sixty (60) days nor more than 120 days prior to the date of awarding] insurance coverage, [a schedule of values] which reflects the estimated replacement cost, actual cash values, and the amount of fire and extended insurance coverage provided for each building and its contents owned by the local board of education which is not surplus to its needs as shown by the approved facilities plan.

(2) A [Each] building and its contents shall be insured for an amount equal to 100 percent of the replacement cost [thereof] as shown on the schedule of values, and each policy covering the [such] building and contents shall provide an agreed amount endorsement.

(3) The replacement cost of the building shall include the increased cost of construction brought about by code changes that have occurred since the original structure was built and which would be required to be incorporated within the rebuilt structure.

(4) Despite the required insuring of individual buildings and contents at 100 percent of replacement cost, a blanket limitation on an insurance carrier's liability per occurrence may be procured [approved by the chief state school officer] if an individual district's schedule of values exceeds $100,000,000 and if the blanket limitation equals at least $100,000,000 and, [in addition, at least fifty (50) percent of total replacement costs as reflected by the approved schedule of values].

Section 2. Insurance on property specified in Section 1 shall be provided by carriers licensed to do business in the State of Kentucky and shall have features that provide for:

(1) A minimum of eighty (80) percent coinsurance;

(2) A per occurrence deductible on all perils not to exceed five (5) percent of the prior year's capital outlay allotment or $10,000, whichever amount is smaller; and

(3) A replacement cost endorsement.

Section 3. A building [Building] requiring insurance and containing a steam boiler [boilers] shall have boiler and machinery coverage having a limit of liability equal to the total value of the real and personal property in the building in which the steam boiler is located.

Section 4. A school district [districts] may cover property in a self-insurance pool providing coverage at least equal to the standard of coverage specified in Sections 2 and 3 of this administrative regulation. [Such] A self-insurance pool shall be adequately regulated by a carrier approved to do business in the state of Kentucky and shall provide facilities for insuring all of the property of an individual district to which this administrative regulation applies.

Section 5. If [in the event] a school building cannot be insured on a replacement cost basis, the policy insuring the building shall carry an agreed amount endorsement, and a certification signed by the local superintendent and board chairman shall be attached to the policy stating that it would not be fiscally responsible to provide replacement cost coverage for the building being insured.

Section 6. Insurance coverage provided for in Sections 2 and 3 of this administrative regulation shall be obtained by local school districts by bids [submitted on standard bid forms provided by the chief state school officer] after having advertised for bids, if [where] bids are required by KRS Chapter 45A or 424 [as applicable].

This is to certify that the chief state school officer has reviewed and recommended this administrative regulation prior to its adoption by the Kentucky Board of Education, as required by KRS 156.070(4).

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation identifies the components of professional development planning and requires each school and local district to incorporate in its school or district improvement plan, the professional development program for the school or district. This administrative regulation establishes this program as an integrated set of high-quality professional development experiences linked to the goals of the improvement plan or the individual professional growth plans of teachers. Finally, this administrative regulation provides for all instructional leaders to participate in a statewide training program implemented under KRS 156.101.
(b) The necessity of this administrative regulation: This administrative regulation was necessary to implement provisions of KRS 156.095 and 158.070.
(c) How this administrative regulation conforms to the content of the authorizing statute: This administrative regulation provides the specifics for the type of professional development program that school districts should provide to their instructional and administrative staff, (KRS 156.095(5)). It provides specific guidelines for the duties of the professional development coordinator, (KRS 156.095(2)). It provides guidance as to what constitutes appropriate professional development and the appropriate use of the professional development funds required in KRS 158.070(4).
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This regulation provides the specifics for the planning of the professional development program, the duties of the professional development coordinator, and the use of the required 4 days of professional development in the school calendar.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: It will clarify the practices that districts should follow to ensure an effective professional development program. It will also bring the regulation in alignment with current federal requirements for professional development as well as state practice.
(b) The necessity of the amendment to this administrative regulation: The necessity of this amendment changes to school improvement planning have occurred and a separate professional development plan is no longer collected. Professional development activities are incorporated in the Comprehensive School Improvement Plan (CSIP) or the Comprehensive District Improvement Plan (CDIP). In addition, the No Child Left Behind (NCLB) federal legislation has caused changes to the definitions of professional development and the requirement for teachers to receive "high-quality" professional development.
(c) How the amendment conforms to the content of the authorizing statute: This amendment provides an update to the specifics for the type of professional development program that school districts should provide to their instructional and administrative staff, (KRS 156.095(5)). It provides updated guidance as to what constitutes appropriate professional development and the appropriate use of the 4 professional development days required in KRS 158.070(4).
(d) How the amendment will assist in the effective administration of the statutes: It will clarify the requirement for a high-quality professional development program and it will clarify the reporting requirements for professional development plans.

(3) List the types, number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All school districts.

(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment: It will allow local school districts to provide better support to their schools by clarifying requirements for professional development experiences and how they are reported. This should allow districts to focus on professional development that addresses the identified needs in their schools and to not be confused by contradictions between requirements for district improvement planning and professional development planning.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) No cost. The changes are intended to make the professional development process in school districts more efficient.
(b) On a continuing basis: None.
(c) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: No funding needed.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding will be necessary to implement these changes to this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does not establish fees or directly or indirectly increase any fee.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact person: Chuck Stirling
(1) Provide a brief summary of:
   (a) What this administrative regulation does: This administration regulation, in Section 4, incorporates by reference the June 8, 2004 Federal Register, Volume 69, Number 110, which corrects a technical error in 29 C.F.R. 1910.103. 29 C.F.R. 1910.103 contains requirements for the installation of gaseous hydrogen systems on consumer premises where the hydrogen supply to the consumer premises originates outside the consumer premises and is delivered by mobile equipment. On October 24, 1978, the Occupational Safety and Health Administration (OSHA) revised certain safety and health standards, including Table H-2 in 29 C.F.R. 1910.103. The table contained specifications for the minimum distances used to determine placement of hydrogen systems of indicated capacity located outdoors, in special buildings, or in special rooms to any specified outdoor exposure. Table H-2 was amended by removing line 14 and line 14 because they dealt with public safety and property protection and were not within agency regulatory jurisdiction. However, OSHA omitted a reference to line 14 in Table H-2 (referred to as "item" 14) found at 29 C.F.R. 1910.103(b)(2)(i)(c) and it was not removed at that time. The paragraph still contains a cross-reference to the nonexistent item 14. This amendment will remove the cross-reference to the nonexistent item 14 and clarify the requirements. This administrative regulation also corrects a previous incorporation by reference typographical error. Prior amendment incorporated the federal requirements through 29 C.F.R. 1910.120 whereas the incorporation should have been through 29 C.F.R. 1910.120. This requirement has not been changed. This amendment simply corrects that error. Finally, this administrative regulation updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.
   (b) The necessity of this administrative regulation: Kentucky's occupational safety and health program is mandated by 29 C.F.R. Part 1953 to be at least as effective as the federal OSHA. Having already adopted OSHA's 29 C.F.R. 1910.103, as stated in Table H-2, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, OSHA encouraged Kentucky to revise our standard according to the June 8, 2004 final rule. To ensure consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted this technical amendment.
   (c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS 338.051 and 338.061.
   (d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This amendment will enhance worker safety throughout Kentucky and keep the state program as effective as the federal program. Improved employee protection is likely to result from promulgation of this amendment because employers and employees who clearly understand the requirements are more likely to comply with the requirements.
   (2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
   (a) How the amendment will change this existing administrative regulation: This amendment, in Section 4, incorporates by reference the June 8, 2004, Federal Register, Volume 69, Number 110, making a technical revision to 29 C.F.R. 1910.103 for purpose of correcting an incorrect reference in Table H-2. This administrative regulation also corrects a previous incorporation by reference typographical error. Prior amendment incorporated the federal requirements through 29 C.F.R. 1910.120 whereas the incorporation should have been through 29 C.F.R. 1910.126. The requirements have not changed. This amendment simply corrects that error. Finally, this regulation also updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.
   (b) The necessity of the amendment to this administrative regulation: Having already adopted OSHA's 29 C.F.R. 1910.103 standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, OSHA encouraged Kentucky to revise our standard according to the June 8, 2004 final rule. To ensure consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted the technical amendment.
   (c) How the amendment conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS 338.051 and 338.061.
   (d) How the amendment will assist in the effective administration of the statutes: The amendments will enhance worker safety throughout Kentucky. This amendment ensures consistency and provides employers and employees with a clear understanding of the requirements. Improved employee protection is likely to result from promulgation of this amendment because employers and employees who clearly understand the requirements are more likely to comply with the requirements.
   (3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This amendment affects all private and public sector employers in the commonwealth engaged in general industry activities covered by KRS Chapter 338.
   (4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative
regulation, if new, or by the change if it is an amendment: The
above groups will not be impacted by this administrative regulation
as this amendment only corrects an inaccurate reference, typo-
graphical error, and updates the incorporation by reference of the

(5) Provide an estimate of how much it will cost to implement
this administrative regulation:
(a) Initially: There will be no initial cost to implement this regu-
lation.
(b) On a continuing basis: There will be no additional costs on
a continuing basis to implement this administrative regulation.
(6) What is the source of the funding to be used for the imple-
mentation and enforcement of this administrative regulation: Cur-
rent state and federal funding.
(7) Provide an assessment of whether an increase in fees or
funding will be necessary to implement this administrative regula-
tion, if new, or by the change if it is an amendment: There is nei-
ther an increase in fees nor a need for increase in funding neces-
sary to implement this revision.
(8) State whether or not this administrative regulation estab-
lishes any fees or directly or indirectly increases any fees: This
ordinary administrative regulation neither establishes any fees nor
directly or indirectly increases any fees.
(9) TIERING: Is tiering applied? Tiering is not applied. Ken-
tucky's Occupational Safety and Health Program regulations affect
each employer with 1 or more employees. Inspections are con-
ducted at facilities that pose higher risks to worker safety and
health or at sites where the Kentucky Occupational Safety and
Health Program has received referrals, worker complaints, or
where a workplace fatality or an accident resulting in the hospitali-
zation of 3 or more employees has occurred.

a federal revision correcting an inaccurate reference in 29 C.F.R.
1910.103. This administrative regulation also corrects a previous
incorporation by reference typographical error and updates the
incorporation by reference of the Code of Federal Regulations to
July 1, 2004.
3. Minimum or uniform standards contained in the federal
mandate. This amendment, in Section 4, incorporates by reference
a technical amendment published in the June 8, 2004, Federal
Register, Volume 69, Number 110, page 31881, correcting an
inaccurate reference in 29 C.F.R. 1910.103, Table H-2. This
administrative regulation also corrects a previous incorporation by
reference typographical error and updates the incorporation by
4. Will this administrative regulation impose stricter require-
ments, or additional or different responsibilities or requirements,
than those required by the federal mandate? This administrative
regulation will not impose stricter, additional, or different require-
ments or responsibilities than those required by the federal stan-
dards.
5. Justification for the imposition of the stricter standard, or
additional or different responsibilities or requirements. This adminis-
trative regulation will not impose stricter, additional, or different
requirements or responsibilities than those required by the federal
standards.

FISCAL NOTE ON LOCAL GOVERNMENT

1. Does this administrative regulation relate to any aspect of a
local government, including any service provided by that local
government? Yes
2. State what unit, part, or division of local government this
administrative regulation will affect. This amendment affects any

which this administrative regulation relates, including identification
of the applicable state or federal statute or regulation that mandates
the aspect or service or authorizes the action taken by the

general industry work. Consequently, this administrative regulation
may relate to any aspect or service of local government. KRS

1970 - Section 18, and 29 C.F.R. 1952.11 authorize the action
taken by this administrative regulation.

4. Estimate the effect of this administrative regulation on the
expenditures and revenues of a local government for the first full
year the administrative regulation is to be in effect. If specific dollar
estimates cannot be determined, provide a brief narrative to ex-
plain the fiscal impact of the administrative regulation.

Revenues (+/-): There will be no increase or decrease in local
government revenues as a result of this amendment.

Expenditures (+/-): There will be no increase or decrease in
local government expenditures as a result of this amendment.

Other explanation: The purpose of this technical amendment is to
ensure consistency and provide employers and employees with a clear

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: David Stumbo

(1) Provide a brief summary of:

(a) What this administrative regulation does: This ordinary administrative regulation, in Section 2, incorporates the revision to 29 C.F.R. 1910.134, "Respiratory Protection" and Appendix A to 29 C.F.R. 1910.134, as published in the August 4, 2004, Federal Register, Volume 69, Number 149. The revision provides for the addition of the REDON controlled negative pressure fit-testing protocol for respirators to Appendix A to 29 C.F.R. 1910.134. Several minor changes were also made to 29 C.F.R. 1910.134 to reflect the addition of the REDON protocol. Additionally, this ordinary administrative regulation updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004, and updates the administrative regulation to meet KRS 13A requirements.

(b) The necessity of this administrative regulation: Kentucky's occupational safety and health program is mandated by 29 C.F.R. Part 1953 to be at least as effective as federal OSHA. Having already adopted 29 C.F.R. 1910.134 and its Appendix A, the Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, OSHA strongly encouraged Kentucky to revise its standard to include the amendments to 29 C.F.R. 1910.134 and its Appendix A as published in the August 4, 2004, Federal Register, Volume 69, Number 149. To ensure consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted the changes as published in the August 4, 2004, Federal Register, Volume 69, Number 149.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This ordinary administrative regulation conforms to the content of the authorizing statutes of KRS 338.051 and 338.051.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This amendment will enhance worker safety throughout Kentucky and keep the state program as effective as the federal program. Improved employee protection can result from promulgation of this amendment because employers will have an additional protocol to choose from. An added benefit to employers is that the REDON protocol requires less time to complete than existing protocols.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This ordinary administrative regulation, in Section 2, incorporates the revision to 29 C.F.R. 1910.134, "Respiratory Protection" and Appendix A to 29 C.F.R. 1910.134, as published in the August 4, 2004, Federal Register, Volume 69, Number 149. (c) How the amendment conforms to the content of the authorizing statutes: This ordinary administrative regulation conforms to the content of the authorizing statutes of KRS 338.051 and 338.051.

(d) How the amendment will assist in the effective administration of the statutes: This amendment will enhance worker safety throughout Kentucky and keep the state program as effective as the federal program. Improved employee protection can result from promulgation of this amendment because employers will have an additional protocol to choose from. An added benefit to employers is that the REDON protocol requires less time to complete than existing protocols.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This amendment will affect all private and public sector employers in the commonwealth who are covered by KRS Chapter 338 and have employees who undergo fit-testing associated with the use of respirators.

(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment: The implementation of the amendment to this administrative regulation will provide an additional choice to employers as to which fit-testing protocol they will utilize for fit-testing employees for the use of tight fitting respirators. Additionally, the REDON protocol requires less time to perform than existing protocols. Accordingly, employers can realize cost savings should they choose to utilize the REDON protocol, while still provoking an approved protocol to assess respirator fit.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: There will be no initial cost to implement this regulation.

(b) On a continuing basis: There will be no additional costs on a continuing basis to implement this administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Current state and federal funding.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is neither an increase in fees nor an increase in funding necessary to implement these revisions.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This ordinary administrative regulation neither establishes any fees nor directly or indirectly increases any fees.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

(1) Provide a brief summary of:
   (a) What this administrative regulation does: This administrative regulation, in Section 5, incorporates by reference the June 8, 2004 Federal Register, Volume 69, Number 110, which corrects technical errors in 29 C.F.R. 1910.217 and 219. On December 3, 1974, the Occupational Safety and Health Administration (OSHA) published in the Federal Register a final rule on Mechanical Power Presses based on a petition to revoke 29 C.F.R. 1910.217(d)(1) and (d)(2). As part of the final rule, a new paragraph (c)(5) was added. The new paragraph (c)(5) corrected technical errors that change the meaning of the paragraph and imply that a Type B gate is a presence-sensing device. This is not the case. A Type B gate is considered a safety device when used with a failsafe control system and a brake monitor as OSHA also stated in the same 1974 Federal Register. In this amendment, correction of the typographical error in 1910.217(c)(5) is achieved by adding a comma after the word "device" and deleting the word "of" before the word "Type." 29 C.F.R. 1910.219 contains requirements for the construction of guards for all types of mechanical power-transmission apparatus. On November 24, 1978, OSHA revoked Tables O-12 and O-13 in 29 C.F.R. 1910.219. These tables contained specifications for materials used in guarding mechanical power-transmission apparatus. They were revoked because they were considered too restrictive and did not reflect the actual materials used for guards. Further, all references to these 2 tables were also to be removed. However, OSHA neglected to remove 2 references to Table O-12. The first reference to Table O-12 that still appears is found in paragraph (e)(1)(i) of 29 C.F.R. 1910.219. The second reference to Table O-12 is found in paragraph (o)(5)(ii) of 29 C.F.R. 1910.219. This amendment removes the text referring to Table O-12. This amendment also updates this administrative regulation to meet KRS Chapter 13A considerations. Finally, this administrative regulation updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.

(b) The necessity of this administrative regulation: Kentucky's occupational safety and health program is mandated by 29 C.F.R. Part 1910, as of at least as effective as the federal OSHA. Having already adopted OSHA's Division of Educational and Technical Assistance (ETA), and as a result, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, OSHA encouraged Kentucky to revise our standard according to the June 8, 2004 final rule. To ensure consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted this technical amendment.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS 338.05 et seq.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This amendment will enhance worker safety throughout Kentucky and keep the state program as effective as the federal program. Improved employee protection is likely to result from promulgation of this amendment because employers and employees who clearly understand the requirements are more likely to comply with the requirements.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
   (a) How the amendment will change this existing administrative regulation: This amendment, in Section 5, incorporates by reference the June 8, 2004 Federal Register, Volume 69, Number 110,
making a technical revision to 29 C.F.R. 1910.217 and .219 for purpose of correcting typographical errors and erroneous refer-

tency and provide employers and employees with a clear under-
standing of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted the technical amendment.

(c) How the amendment conforms to the content of the authorizing statute: This administrative regulation conforms to the content of the authorizing statutes of KRS 338.051 and 338.061.

(d) How the amendment will assist in the effective administra-
tion of the statutes: The amendments will enhance worker safety throughout Kentucky. This amendment ensures consistency and provides employers and employees with a clear understanding of the requirements. zations, or state and local governments affected by this adminis-
trative regulation: This amendment affects all private and public sector employers in the commonwealth engaged in general industry activities covered by KRS Chapter 338.

(4) Provide an assessment of how the above groups or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment: The above groups will not be impacted by this administrative regulation as this amendment only makes a technical revision to 29 C.F.R. 1910.217 and .219 for purpose of correcting typographical errors and erroneous references, updates this administrative regulation to meet KRS Chapter 13A considerations, and updates the incorpo-

(a) Initially: There will be no initial cost to implement this regulation.

(b) On a continuing basis: There will be no additional costs on a continuing basis to implement this administrative regulation.

(6) What is the source of the funding to be used for the imple-
mentation and enforcement of this administrative regulation: Current state and federal funding.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is nei-
ther an increase in fees nor a need for increase in funding neces-
sary to implement this revision.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes any fees nor directly or indirectly increases any fees.

(9) TIERING: Is tiering applied? Tiering is not applied. Ken-
tucky's Occupational Safety and Health Program regulations affect all employers with 1 or more employees. Inspections are con-
ducted at facilities that pose higher risks to worker safety and health or at sites where the Kentucky Occupational Safety and Health Program has received referrals, worker complaints, or where a workplace fatality or an accident resulting in the hospitali-
ization of 3 or more employees has occurred.

2. State compliance standards. This amendment makes a technical revision to 29 C.F.R. 1910.217 and .219 for purpose of correcting typographical errors and erroneous references, updates this administrative regulation to meet KRS Chapter 13A considerations, and updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.

3. Minimum or uniform standards contained in the federal mandate. This amendment, in Section 6, incorporates by reference a technical amendment published in the June 8, 2004 Federal Register, Volume 69, Number 110, page 31882, correcting an typographical errors to 29 C.F.R. 1910.217(c)(5) and erroneous references to Table O-12 in paragraphs (e)(1)(i) and (o)(5)(ii) of 29 C.F.R. 1910.217. Additionally, this amendment updates this administrative regulation to meet KRS Chapter 13A considerations, and updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact person: Chuck Stribling
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation, in Section 3, incorporates by reference the June 8, 2004 Federal Register, Volume 69, Number 110, which corrects a technical error in 29 C.F.R. 1910.268. On June 18, 1998, the Occupational Safety and Health Administration (OSHA) published a final rule in the Federal Register removing and revising certain standards that were out of date, duplicative, unnecessary, or inconsistent. In that final rule, the Telecommunications Standard, 29 C.F.R. 1910.268, was amended to revise paragraph (f)(1), remove paragraphs (f)(2) through (f)(4), and (f)(7) through (f)(9), and re-designate paragraphs (f)(5) and (f)(6) as (f)(2) and (f)(3). However, re-designated paragraph (f)(3) of 29 C.F.R. 1910.268 (former paragraph (f)(6)) has continued to include a cross-reference to former paragraph (f)(5). The 1998 Federal Register notice should have corrected the cross-reference to refer to re-designated paragraph (f)(2) instead of (f)(5). This amendment corrects the cross-reference accordingly. This administrative regulation also updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.

(b) The necessity of this administrative regulation: Kentucky’s occupational safety and health program is mandated by 29 C.F.R. Part 1953 to be at least as effective as possible OSHA. Having already adopted OSHA’s former 29 C.F.R. 1910.268 standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, OSHA encouraged Kentucky to revise our standard according to the June 8, 2004 final rule. To ensure consistency and provide employers and employees with a clear understanding of the requirements, the Occupational Safety and Health Standards Board adopted this technical amendment.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS 338.051 and 338.061.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This amendment will enhance worker safety throughout Kentucky and keep the state program as effective as the federal program. Improved employee protection is likely to result from promulgation of this amendment because employers and employees who clearly understand the requirements are more likely to comply with the requirements.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment, in Section 3, incorporates by reference the June 8, 2004 Federal Register, Volume 69, Number 110, making a technical revision to 29 C.F.R. 1910.268 correcting an erroneous cross-reference. This amendment also updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.

(b) The necessity of the amendment to this administrative regulation: Having already adopted OSHA’s former 29 C.F.R. 1910.268 standard, the Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, OSHA encouraged Kentucky to revise our standard according to the June 8, 2004 final rule. To ensure consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted this technical amendment.

(d) How the amendment will assist in the effective administration of the statutes: The amendment will enhance worker safety throughout Kentucky. This amendment ensures consistency and

provides employers and employees with a clear understanding of the requirements. Improved employee protection is likely to result from promulgation of this amendment because employers and employees who clearly understand the requirements are more likely to comply with the requirements.

(3) List the type and number of individuals, businesses, organizations, or jurisdictions affected by the administrative regulations or standards set forth in this amendment: This amendment affects all private and public sector employers in the Commonwealth engaged in general industry activities covered by KRS Chapter 338.

(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment: The above groups will not be impacted by this administrative regulation as this amendment only makes a technical revision to 29 C.F.R. 1910.268 for purpose of correcting an erroneous cross-reference, and updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: There will be no initial cost to implement this regulation.

(b) On a continuing basis: There will be no additional costs on a continuing basis to implement this administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Current state and federal funding.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is neither an increase in fees nor a need for increase in funding necessary to implement this revision.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This ordinary administrative regulation neither establishes any fees nor directly or indirectly increases any fees.

(9) TIERING: Is tiering applied? Tiering is not applied. Kentucky's Occupational Health and Safety Program regulations affect all employers with 1 or more employees. Inspections are conducted at facilities that pose higher risks to worker safety and health or at sites where the Kentucky Occupational Safety and Health Program has received referrals, worker complaints, or where a workplace fatality or an accident resulting in the hospitalization of 3 or more employees has occurred.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Chuck Stibrig

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation, in Section 4, incorporates by reference the February 17, 2004 Federal Register, Volume 69, Number 31, which allows employers of recreational diving instructors and diving guides to comply with an optional alternative set of requirements instead of the decompression chamber requirements in the current standard. The purpose of having a decompression chamber available and ready for use at a dive site is to treat decompression sickness (DCS) and arterial gas embolism (AGE). DCS may occur from breathing air or mixed gases at diving depths and durations that require decompression, while AGE may result from overpressurizing the lungs, usually following a rapid ascent to the surface during a dive without proper exhalation. This amendment enables employers to protect their recreational diving instructors and diving guides from the risks of DCS and AGE while using a breathing-gas mixture consisting of a high percentage of O2 mixed with nitrogen (nitrox) supplied by an open-circuit, semi-closed-circuit, or closed-circuit self-contained breathing apparatus. Recreational diving instructors and diving guides covered by this amendment will receive a level of safety and health protection that is equivalent to recreational diving instructors and diving guides who have a decompression chamber at the dive site. Therefore, a decompression chamber near the dive site is unnecessary for the divers covered by this amendment. Employers of recreational diving instructors and diving guides who wish to comply with the conditions in this amendment will be able to expand their operations to include nitrox diving because they will not need to purchase and maintain a decompression chamber at the dive site. By providing regulatory flexibility to these employers, this amendment may reduce their costs and increase productive time. This amendment will reduce employers' compliance burden by eliminating the requirement to have a decompression chamber at the dive site and compel employers to comply with the conditions of the amendment. This amendment also updates this administrative regulation to meet KRS Chapter 13A considerations. Finally, this administrative regulation updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.

(b) The necessity of this administrative regulation: Kentucky's occupational safety and health program is mandated by 29 C.F.R. Part 1953 to be at least as effective as the federal OSHA. Having already adopted OSHA's former commercial diving standards, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, OSHA strongly encouraged Kentucky to revise our standard according to the February 17, 2004 final rule. To ensure consistency, provide employers and employees with a clear understanding of the requirements, and provide this compliance option to employers in the commonwealth, the Kentucky Occupational Safety and Health Standards Board adopted this amendment.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS 338.051 and 338.061.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This amendment will enhance worker safety throughout Kentucky and keep the state program as effective as the federal program. Improved employee protection is likely to result from promulgation of this amendment because employers and employees who clearly understand the requirements are more likely to comply with the requirements. In addition, employers may find it easier to comply with the revision because it is more performance-oriented than the for-
mer regulation. By providing regulatory flexibility to these employers, this amendment may reduce their costs and increase productive time. This amendment will reduce employers' compliance burden by eliminating the requirement to have a decompression chamber at the dive site when they comply with the conditions of the revision.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment, in Section 4, incorporates by reference the February 17, 2004 Federal Register, Volume 69, Number 31, which allows employers of recreational diving instructors and diving guides to comply with an alternative set of requirements instead of the decompression chamber requirements in the current standard. This amendment enables employers to protect their recreational diving instructors and diving guides from the risks of DCS and AEG while using a breathing-gas mixture consisting of a high percentage of O₂ mixed with nitrogen supplied by an open-circuit, semi-closed-circuit, or closed-circuit self-contained breathing apparatus. Employers of recreational diving instructors and diving guides who wish to comply with the conditions in the amendment will be able to expand their operations to include nitrox diving because they will not need to purchase and maintain a decompression chamber at the dive site. Employers covered by this amendment are currently covered by the commercial diving standards. This final rule extends an optional alternative procedure to those employers. This amendment will reduce employers' compliance burden by eliminating the requirement to have a decompression chamber at the dive site when they comply with the conditions of the revision. This amendment also updates this administrative regulation to meet KRS Chapter 13A considerations. Finally, this administrative regulation updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.

(b) The necessity of the amendment to this administrative regulation: Kentucky's occupational safety and health program is mandated by 29 C.F.R. Part 1953 to be at least as effective as the federal OSHA. Having already adopted OSHA's former commercial diving standards the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, OSHA strongly encouraged Kentucky to revise our standard according to the February 17, 2004 final rule. To ensure consistency, provide employers and employees with a clear understanding of the requirements, and provide this compliance option to employers in the commonwealth, the Kentucky Occupational Safety and Health Standards Board adopted this amendment.

(c) How the amendment conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes of KRS 338.051 and 338.061.

(d) How the amendment will assist in the effective administration of the statute: This amendment makes emergency workers in Kentucky.t least as effective as the federal OSHA. This amendment ensures consistency and provides employers and employees with a clear understanding of the requirements. Improved employee protection is likely to result from promulgation of this amendment because employers and employees who clearly understand the requirements are more likely to comply with the requirements. Employers may find it easier to comply with the revision because it is more performance-oriented than the former regulation. By providing regulatory flexibility to these employers, this amendment may reduce their costs and increase productive time. This amendment will reduce employers' compliance burden by eliminating the requirement to have a decompression chamber at the dive site when they comply with the conditions of the revision.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This amendment affects all private and public sector employers in the Commonwealth engaged in general industry activities covered by KRS Chapter 338.

(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment: Improved employee protection is likely to result from promulgation of this amendment because employers and employees who clearly understand the requirements are more likely to comply with the requirements. In addition, employers may find it easier to comply with the amendment because it is more performance-oriented than the former regulation. By providing regulatory flexibility to these employers, this amendment may reduce their costs and increase productive time. This amendment will reduce employers' compliance burden by eliminating the requirement to have a decompression chamber at the dive site when they comply with the conditions of the revision. This change will have little anticipated impact in Kentucky. The amendment applies to general industry.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: There will be no initial cost to implement this regulation. This voluntary compliance option does not impose any expenditure on any employer.

(b) On a continuing basis: There will be no additional costs on a continuing basis to implement this administrative regulation.

(c) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Current state and federal funding.

(d) Provide an assessment of whether an increase in fees or funds will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There is neither an increase in fees nor a need for increase in funding necessary to implement this revision.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes any fees nor directly or indirectly increases any fees.

(9) TIERING: Is tiering applied? Tiering is not applied. Kentucky's Occupational Safety and Health Program regulations affect all employers with 1 or more employees. Inspections are conducted at facilities that pose higher risks to worker safety and health or at sites where the Kentucky Occupational Safety and Health Program has received referrals, worker complaints, or where a workplace fatality or an accident resulting in the hospitalization of 3 or more employees has occurred.

3. Minimum or uniform standards contained in the federal mandate. This administrative regulation, in Section 4, incorporates by reference the February 17, 2004 Federal Register, Volume 69, Number 31, which allows employers of recreational diving instructors and diving guides to comply with an optional alternative set of requirements instead of the decompression chamber requirements in the current standard. Additionally, this amendment updates this administrative regulation to meet KRS Chapter 13A considerations and updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation, in Section 3, incorporates by reference the June 8, 2004, Federal Register, Volume 69, Number 110, which corrects a technical error in 29 C.F.R. 1926.307. 29 C.F.R. 1926.307 contains requirements for the construction of guards for all types of mechanical power-transmission apparatus. On November 24, 1978, the Occupational Safety and Health Administration (OSHA) revoked certain safety and health standards, including Table O-12 in 29 C.F.R. 1910.219. The table contained specifications for materials used in guarding mechanical power-transmission apparatus. It was revoked because it was considered overly detailed and too restrictive of the kinds of materials used for guards. Further, all references to the table were also to be removed. However, OSHA neglected to remove 2 references to Table O-12 in 29 C.F.R.
The first reference to Table O–12 that still appears is found in paragraph (e)(1)(i) of 29 C.F.R. 1926.307. The second reference to Table O–12 is found in paragraph (o)(5)(ii) of 29 C.F.R. 1926.307. This amendment removes the text referring to Table O–12. This amendment also updates this administrative regulation to meet KRS Chapter 13A considerations. Finally, this administrative regulation updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.

(b) The necessity of this administrative regulation: Kentucky's occupational safety and health program is mandated by 29 C.F.R. Part 1953 to be at least as effective as federal OSHA. Having already adopted OSHA's former 29 C.F.R. 1926.307 standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, OSHA encouraged Kentucky to revise our standard according to the June 8, 2004 final rule. To ensure consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted this technical amendment.

(c) How this administrative regulation conforms to the content of the authorizing statute: This administrative regulation conforms to the content of the authorizing statutes of KRS 338.051 and 338.061.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statute: This amendment will enhance worker safety throughout Kentucky and keep the state program as effective as the federal program. Improved employee protection is likely to result from promulgation of this amendment because employers and employees who clearly understand the requirements are more likely to comply with the requirements.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment, in Section 3, incorporates by reference to Table O–12 in 42 Federal Register, Volume 69, Number 69, making a technical revision to 29 C.F.R. 1926.307 for purpose of correcting erroneous references. This amendment also updates this administrative regulation to meet KRS Chapter 13A considerations. Finally, this administrative regulation updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.

(b) The necessity of the amendment to this administrative regulation: Having already adopted OSHA's former 29 C.F.R. 1926.307 standard, the Kentucky Occupational Safety and Health Standards Board was not obligated to adopt this amendment. However, OSHA encouraged Kentucky to revise our standard according to the June 8, 2004 final rule. To ensure consistency and provide employers and employees with a clear understanding of the requirements, the Kentucky Occupational Safety and Health Standards Board adopted the technical amendment.

(c) How the amendment conforms to the content of the authorizing statute: This administrative regulation conforms to the content of the authorizing statutes of KRS 338.051 and 338.061.

(d) How the amendment will assist in the effective administration of the statute: The amendments will enhance worker safety throughout Kentucky. This amendment ensures consistency and provides employers and employees with a clear understanding of the requirements. Improved employee protection is likely to result from promulgation of this amendment because employers and employees who clearly understand the requirements are more likely to comply with the requirements.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This amendment affects all private and public sector employers in the commonwealth engaged in general industry activities covered by KRS Chapter 336.

(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment: The above groups will be impacted by this administrative regulation as this amendment only makes a technical revision to 29 C.F.R. 1926.307 for purpose of correcting erroneous references, updates the regulation to meet KRS Chapter 13A considerations, and updates the incorporation by reference of the Code of Federal Regulations to July 1, 2004.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: There will be no initial cost to implement this regulation.

(b) On a continuing basis: There will be no additional costs on a continuing basis to implement this administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Current state and federal funding.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment:

(a) If an amendment: There is neither an increase in fees nor a need for increase in funding necessary to implement this revision.

(b) If new: Kentucky's Occupational Safety and Health Program regulations affect all employers with 1 or more employees. Inspections are conducted at facilities that pose higher risks to worker safety and health or at sites where the Kentucky Occupational Safety and Health Program has received referrals, worker complaints, or where a workplace fatality or an accident resulting in the hospitalization of 3 or more employees has occurred.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen or Teresa Goodrich (502-6204)

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the method for determining reimbursement for drugs through the Medicaid Outpatient Pharmacy Program.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the method for determining reimbursement for drugs through the Medicaid Outpatient Pharmacy Program.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing the method for determining reimbursement for drugs through the Medicaid Outpatient Pharmacy Program.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation currently assists and will continue to assist in the effective administration of the authorizing statutes by establishing the method for determining reimbursement for drugs through the Medicaid Outpatient Pharmacy Program.

(2) This is a proposed amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendment to this administrative regulation includes establishing a state maximum-allowable cost for any drug for which 2 or more multisource drugs with a significant cost difference exist; determining a state maximum-allowable cost for a drug by reviewing the pricing sources average wholesale price (AWP), wholesale acquisition cost (WAC), and direct price for the drug and approximating, as closely as possible, the estimated acquisition cost and utilizing that as the state maximum-allowable cost; altering drug reimbursement effective February 15, 2005, from AWP minus 12% to AWP minus 16% and effective January 1, 2006 to AWP minus 17%; revising the unit dose drug packaging payment to $0.02 per unit dose for a nonunit dose drug repackage in unit dose form by a pharmacist; allowing a dispensing fee per rolling 24 day period per nursing facility service recipient per drug except for certain circumstances; establishing for an outpatient service recipient that a maintenance drug shall be dispensed, if appropriate, up to a 92 day supply with only 1 dispensing fee allowed for the maintenance drug refill within the 92 day time period; establishing that if the dispensing of an emergency supply of a drug results in partial filling of the quantity or amount prescribed, that only one dispensing fee shall be allowed for the combined partial fill and subsequent completion fill; and adding gross amount due to drug reimbursement options.
(b) The necessity of the amendment to this administrative regulation: The amendment to this administrative regulation is necessary to control rising pharmacy reimbursement costs in the Medicaid program in order to maintain the financial viability of the Department for Medicaid Services. Currently, DMS is subsidizing the commercial market via high reimbursement to pharmacies on excessively inflated drug ingredient costs and high dispensing fees. This amendment would bring Medicaid more in line with other state Medicaid plans as well as the commercial sector.
(c) How the amendment conforms to the content of the authorizing statutes: The amendment to this administrative regulation conforms to the content of the authorizing statutes by establishing a state maximum-allowable cost for any drug for which 2 or more multisource drugs with a significant cost difference exist; determining a state maximum-allowable cost for a drug by reviewing the pricing sources average wholesale price (AWP), wholesale acquisition cost (WAC), and direct price for the drug and approximating, as closely as possible, the estimated acquisition cost and utilizing that as the state maximum-allowable cost; altering drug reimbursement effective February 15, 2005, from AWP minus 12% to AWP minus 16% and effective January 1, 2006 to AWP minus 17%; revising the unit dose drug packaging payment to $0.02 per unit dose for a nonunit dose drug repackage in unit dose form by a pharmacist; allowing 1 dispensing fee per rolling 24 day period per nursing facility service recipient per drug except for certain circumstances; establishing for an outpatient service recipient that a maintenance drug shall be dispensed, if appropriate, up to a 92 day supply with only 1 dispensing fee allowed for the maintenance drug refill within the 92 day time period; establishing that if the dispensing of an emergency supply of a drug results in partial filling of the quantity or amount prescribed, that only one dispensing fee shall be allowed for the combined partial fill and subsequent completion fill; and adding gross amount due to drug reimbursement options.
(d) How the amendment will assist in the effective administration of the statutes: The amendment to this administrative regulation will assist in the effective administration of the authorizing statutes by establishing a state maximum-allowable cost for any drug for which 2 or more multisource drugs with a significant cost difference exist; determining a state maximum-allowable cost for a drug by reviewing the pricing sources average wholesale price (AWP), wholesale acquisition cost (WAC), and direct price for the drug and approximating, as closely as possible, the estimated acquisition cost and utilizing that as the state maximum-allowable cost; altering drug reimbursement effective February 15, 2005, from AWP minus 12% to AWP minus 16% and effective January 1, 2006 to AWP minus 17%; revising the unit dose drug packaging payment to $0.02 per unit dose for a nonunit dose drug repackage in unit dose form by a pharmacist; allowing 1 dispensing fee per rolling 24 day period per nursing facility service recipient per drug except for certain circumstances; establishing for an outpatient service recipient that a maintenance drug shall be dispensed, if appropriate, up to a 92 day supply with only 1 dispensing fee allowed for the maintenance drug refill within the 92 day time period; establishing that if the dispensing of an emergency supply of a drug results in partial filling of the quantity or amount prescribed, that only one dispensing fee shall be allowed for the combined partial fill and subsequent completion fill; and adding gross amount due to drug reimbursement options.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: All Medicaid outpatient pharmacy providers and drug manufacturers will be affected by this administrative regulation.

odology for determining a state maximum-allowable cost is being replaced; that if the dispensing of an emergency supply of a drug results in partial filling of the quantity or amount prescribed, that only 1 dispensing fee shall be allowed for the combined partial fill and subsequent completion fill. Long term care pharmaceutical providers will be impacted in that the long term care repackaging fee will be $0.02 per unit dose for a nonunit dose drug repackaged in unit dose form by a pharmacist. Providers of maintenance drugs outpatient recipients will be affected in that a maintenance drug shall be dispensed, if appropriate, up to a 92 day supply with only 1 dispensing fee allowed for the maintenance drug refill within the 92 day time period. Additionally, this administrative regulation allows one dispensing fee per rolling 24 day period per nursing facility service recipient per drug except for certain circumstances and clarifies that over-the-counter drugs dispensed to nursing facility service recipients shall not be reimbursed via the Medicaid Outpatient Pharmacy Program but rather shall be considered part of nursing facility reimbursement.

(b) On a continuing basis: DMS estimates that the amendment to this administrative regulation could reduce expenditures as much as $42.5 million annually ($29.66 million federal funds; $12.84 million state funds).

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Federal funds authorized under the Social Security Act, Title XIX, and matching funds of general fund appropriations and collections will be used to fund the implementation and enforcement of this administrative regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, and to change if it is an amendment: Neither an increase in fees nor funding will be necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all those individuals or entities regulated by it. Disparate treatment of any person or entity subject to this administrative regulation could raise questions of arbitrary action on the part of the agency. The "equal protection" and "due process" clauses of the Fourteenth Amendment of the U.S. Constitution may be implicated as well as Sections 2 and 3 of the Kentucky Constitution.

3. Minimum or uniform standards contained in the federal mandate. This administrative regulation establishes the Department for Medicaid Services reimbursement for drugs in compliance with federal regulations governing drug reimbursement.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. This administrative regulation does not impose stricter than federal requirements.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Shirley Eldridge, (502) 564-3556

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes technical requirements for the Kentucky Transitional Assistance Program (K-TAP).
(b) The necessity of this administrative regulation: This administrative regulation is needed to establish uniform conditions and requirements regarding technical eligibility for K-TAP.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 205.200(2) requires the Cabinet for Health and Family Services to prescribe by regulation the conditions of eligibility for public assistance in conformance with federal statutes and regulations. This administrative regulation establishes the requirements for technical eligibility for K-TAP, the assistance program funded by the Temporary Assistance for Needy Families (TANF) block grant authorized by 42 U.S.C. 601 et seq. This administrative regulation sets forth these standards in conformance with
the Title IV-A State Plan.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation establishes K-TAP technical eligibility requirements. The administrative regulation establishes the technical requirements of school attendance, residency, citizenship, deprivation, living with a relative, age, cooperation in child support activities, minor teenage parent provisions, and time limitations for eligibility for K-TAP benefits.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this administrative regulation: This administrative regulation is being amended to implement the 60-month lifetime limit of receipt of K-TAP assistance on drug and fugitive felons, implements a full-family sanction for failure to cooperate with Kentucky Works at 3 months, allows victims and relatives of victims of a severe form of trafficking eligible for K-TAP assistance, adds a definition of constant care, and adds a definition of recipient.

(b) The necessity of the amendment to this administrative regulation: It is necessary to amend this regulation to align time limits on receipt of K-TAP assistance by drug and fugitive felons to be consistent with recipients who cooperate with Kentucky Works. Implementing a full-family sanction after 3 months of penalty will assist the cabinet with meeting the federal participation rate. The state is required to allow eligibility for victims and relatives of victims of a severe form of trafficking under 22 U.S.C 7105(b). The definition of constant care clarifies the time in which an individual is considered to care for a disabled family member to be eligible for an extension in receipt of benefits. The definition of recipient clarifies nonresponsible specified caregivers are required to participate with child support.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to 42 U.S.C. 601 et seq. by clarifying technical eligibility requirements for K-TAP recipients who are drug or fugitive felons, victims and relatives of victims of a severe form of trafficking, and K-TAP recipients out of compliance with Kentucky Works requirements pursuant to 921 KAR 2:370.

(d) How the amendment will assist in the effective administration of the statutes: KRS 205.300(2) requires the cabinet to prescribe by regulation the conditions of eligibility for public assistance in conformity with federal statutes and regulations. This administrative establishes K-TAP technical requirements of school attendance, residency, citizenship, deprivation, living with a relative, age, cooperation in child support activities, and time limitation for eligibility for K-TAP benefits. These amendments to this administrative regulation clarifies policy for those who may be eligible for K-TAP assistance.

(3) List the type and number of individuals, business, organizations, or state and local governments affected by this administrative regulation: This administrative regulation will affect families who are receiving assistance from K-TAP. As of October 2004, there were 32,075 families receiving K-TAP.

(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment: K-TAP families that contain a specified relative who is either a drug or fugitive felon will only be allowed to receive assistance for 5 years in a lifetime. The number of months that a family is sanctioned will be reduced. However, the process prior to discontinuance will not change. The client will still have the opportunity for reconciliation and demonstrate cooperation before losing benefits. Nonresponsible specified caregivers will be required to participate with child support activities or receive a 25% reduction in benefits. There should only be a slight impact on K-TAP recipients as a result of this amendment since the current hardship reason established the lifetime limit was only clarified.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Roger Wright.

(1) Provide a brief summary of:
(a) What this administrative regulation does: This regulation implements the procedures by which the Kentucky State Police shall collect background information and fingerprints from both initial and renewal applicants for a hazardous materials endorsement for a commercial driver's license. The Department of Homeland Security, Transportation Security Administration, commencing January 31, 2005 for initial applicants and May 31, 2005 for renewal applicants, has mandated a security threat assessment be conducted prior to the issuance or renewal of a hazardous materials endorsement. This regulation further establishes the fee to

be charged applicants for collection of the required background information and fingerprints.
(b) The necessity of this administrative regulation: 49 C.F.R. Part 1572, et seq., requires that security threat assessments be conducted on applicants for a hazardous materials endorsement for a commercial driver's license. The Commonwealth of Kentucky, in accordance with the option provided in 49 C.F.R. part 1572.133(f)(1) has elected to collect the applicant background information and fingerprints required for this security threat assessment. This regulation establishes the procedures for the collection of the required information and fingerprints as well as the fee to be charged for this collection service.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This regulation implements the procedures directed by the Transportation Security Administration in 49 C.F.R. Part 1572, et seq., with respect the Commonwealth of Kentucky's obligation to ensure that a hazardous materials endorsement issued to a Kentucky commercial driver's license holder has undergone the federally-mandated security threat assessment which as of January 31, 2005, and May 31, 2005 (for renewal applicants) is prerequisite to the issuance of said endorsement.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This regulation implements the procedures for the collection of background information and fingerprints necessary for the Transportation Security Administration to conduct the federally-mandated security threat assessment.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of: Not applicable.
(a) How the amendment will change this existing administrative regulation: Not applicable.
(b) The necessity of the amendment to this administrative regulation: Not applicable.
(c) How the amendment conforms to the content of the authorizing statutes: Not applicable.
(d) How the amendment will assist in the effective administration of the statutes: Not applicable.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This regulation places new obligations on the Kentucky State Police with respect to the issuance of hazardous materials endorsements for a commercial driver's license. This regulation also has an impact on initial and renewal applicants for a hazardous materials endorsement for a commercial driver's license.
(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment: Kentucky State Police will be responsible for collecting security threat assessment background information forms and fingerprints for submission to the Federal Transportation Security Administration and the Federal Bureau of Investigation, respectively. Applicants for hazardous materials endorsement will be required to complete the background form and to submit to fingerprinting.
(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: Kentucky State Police estimates that it will cost $469,712 per year to collect applicant background information for submission to the Transportation Security Administration, and to collect and submit fingerprints to the Federal Bureau of Investigation. Based upon an estimated number of 9,000 hazardous materials endorsement applicants per year, the cost per applicant is approximately $114.44.
(b) On a continuing basis: Same as initial costs.
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Fingerprint and background information collection fee to be charged to hazardous materials endorsement applicants in the amount of $115.
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Not applicable.
(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation establishes a fee of $115 to be charged to
hazardous materials endorsement applicants to cover the cost of fingerprinting and collection of applicant background information.

(9) TIERING: Tiering is not applicable to this administrative regulation. 49 C.F.R. Part 1572 mandates that all initial and renewal applicants for hazardous materials endorsement for commercial driver's licenses submit to a security threat assessment involving a fingerprint verified criminal history check and completion of a background information sheet. There is no means by which to apply tiering under these circumstances.
