STATEMENT OF EMERGENCY
31 KAR 4:140E

The Uniformed and Overseas Citizens Absentee Voting Act, 42 U.S.C. 19730-1, allows states to implement the Department of Defense Interim Voting Assistance System (IVAS) to expedite the absentee voting process using existing e-mail technology. This emergency amendment to the administrative regulation must be placed into effect immediately to apply to the general election and to not interfere with the constitutional right to vote of members of the military and overseas citizens. This amendment to the administrative regulation updates the forms necessary to carry out the procedures established by this administrative regulation. The reasons why an ordinary amendment to the administrative regulation is not sufficient: An ordinary amendment to the administrative regulation is not sufficient because it may not be effective until after the general election or until after absentee voting has begun for the general election, and may interfere with the constitutional right to vote of members of the military and overseas citizens. This emergency administrative regulation shall be replaced by an ordinary administrative regulation filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

STATE BOARD OF ELECTIONS
(Emergency Amendment)

31 KAR 4:140E. Submitting absentee ballot applications to the Department of Defense Interim Voting Assistance System (IVAS) by electronic mail.

RELATES TO: KRS 117.079, 117.085, 369.107(4), and 42 U.S.C. 19730f-1
STATUTORY AUTHORITY: KRS 117.015(1)(a), 117.079, 42 U.S.C. 19730f-1
EFFECTIVE: October 13, 2006

NECESSITY, FUNCTION, AND CONFORMITY: KRS 117.015(1) authorizes the State Board of Elections to promulgate administrative regulations necessary to properly carry out its duties. KRS 117.079 requires the board to promulgate necessary administrative regulations to preserve the absentee voting rights of residents of Kentucky who are military personnel serving on active duty outside the United States and other residents of Kentucky residing outside the United States, as circumstances warrant and with the concurrence of the Attorney General. The Uniformed and Overseas Citizens Absentee Voting Act, 42 U.S.C. 19730f, authorizes the Department of Defense to implement an interim voting assistance system for the purposes of expediting the absentee voting process for deployed members of the Armed Forces of the United States using existing e-mail technology. This administrative regulation implements IVAS.

Section 1. Definitions. (1) "Absentee ballot application" means the Federal Post Card Application, Standard Form 76, electronically mailed to the county clerk from IVAS.
(2) "Instructions to voter sheet" means the instructions for Voting to a Qualified Kentucky Resident Who Has Been Faxed an Absentee Ballot, SBE 46A (form containing instructions for voting).
(3) "IVAS" means the Department of Defense Interim Voting Assistance System.
(4) "Registered voter" means a resident of Kentucky who is eligible to vote and is a deployed member of the Armed Forces of the U.S.
(5) "Voter verification sheet" means the form the registered voter signs and the voter assistance oath.

Section 2. Processing a Completed Application by Electronic Mail. (1) If the absentee ballot application is received by electronic mail from IVAS less than seven (7) days before the applicable election, the county clerk shall not process the application.
(2) If the completed absentee ballot application is received by electronic mail from IVAS not less than seven (7) days before the election, then the county clerk shall affix his seal to the absentee ballot application.
(3) The county clerk shall then verify the voter's voter eligibility. If the voter is eligible to vote in the current election, then the county clerk shall prepare an electronic copy in Portable Document Format (PDF) of the original absentee ballot. The original absentee ballot is then marked electronically mailed to IVAS and retained.
(4) The original absentee ballot shall not be reused. The electronic copy of the original absentee ballot shall be sent via electronic mail to IVAS, along with the Instructions to Voter sheet and the voter verification sheet.

Section 3. Voter's Instructions on Completing an Electronic Absentee Ballot Received From IVAS. (1) When a voter receives an absentee ballot via electronic mail, the voter shall print the absentee ballot, mark the absentee ballot and seal it in an inner envelope.
(2) The voter shall then complete and sign the Voter Verification Sheet. If the voter required assistance, the person rendering assistance shall complete the voter assistance section on the voter verification sheet.
(3) The voter shall print his or her name, voting address and precinct number on the back of the outer envelope as found on the voter verification sheet. The voter shall then seal the voter verification sheet and the inner envelope containing the absentee ballot in an outer envelope. The voter shall then sign across the back flap of the outer envelope. The voter shall print "Absentee Ballot" on the front of the outer envelope, but shall not obstruct the address area.

In order to establish requirements for the ICARE Program and inform the regulated entities and beneficiaries of requirements that directly affect them prior to January 1, 2007, the effective date of 2006 Ky. Acts ch. 252, Part XXIII, sections 1 through 8, and to enable eligible employers to apply for and receive health care incentive payments from the ICARE Program beginning in January 2007, it is necessary to promulgate this emergency administrative regulation. Furthermore, ICARE Program participating insurers need immediate regulatory guidance for the identification of previously approved health benefit plans and development of new plans that may be designated by the Office as ICARE Program qualified health benefit plans, as well as guidance for the development of a disclosure required under 2006 Ky. Acts ch. 252, Part XXIII, sec. 8(1). This emergency regulation shall be replaced by an ordinary administrative regulation. (e) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment establishes a consumer-directed option services program that allows Medicaid home and community based waiver participants to assist with the design of their programs, choose their providers of services, and direct the delivery of services to meet their needs.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to implement the consumer-directed option services program established by KRS 205.5606.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of KRS 205.2605 and 205.5508 by implementing the consumer-directed option services program.

(d) How the amendment will assist in the effective administration of the statutes: This amendment assists in the effective administration of the statutes by implementing a consumer-directed option services program for home and community based waiver recipients in accordance with KRS 205.5605 and 5606.

(e) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This administrative regulation will affect Medicaid's home and community based waiver recipients who opt to participate in the consumer-directed services program. Currently, there are approximately 13,000 members enrolled in the home and community based waiver program.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Medicaid home and community based waiver recipients may opt to participate in the consumer directed option services program. An individual who chooses to participate will be assisted by a support broker. Individual who wish to provide consumer directed services must meet basic requirements including: complete and submit a consumer directed option provider agreement to the consumer's support broker; complete a self-care and consumer directed service training curriculum; complete cardiopulmonary resuscitation and first aid training, be a U.S. citizen; sign a confidentiality agreement; report any suspected abuse, neglect, or exploitation; declare in writing that they are free of infectious or contagious disease; demonstrate ability to safely attend to consumer; provide record-keeping services for the consumer; and be able to communicate effectively.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? This amendment is required by KRS 205.5606 and does not impose a cost on regulated entities.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? A home and community based waiver recipient who opts to participate in the consumer directed option program will be able to assist with the design of their programs, choose their providers of services, and direct the delivery of services to meet their needs. This initiative allocates a monthly budgeted allowance to consumers to spend on nonresidential and nonmedical home and community based services and supports.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: Pursuant to KRS 205.5606(1), the budget allowance made available each month to consumers for purchasing covered services and supports shall not exceed the amount that would have been allocated in the traditional Medicaid program for nonresidential and nonmedical services for the consumer; however, the department is absorbing an administrative cost (support brokers and fiscal intermediaries). Additionally, utilization is unpredictable; therefore, the DMS is unable to determine a precise fiscal impact at this time.

(b) On a continuing basis: Pursuant to KRS 205.5606(1), the budget allowance made available each month to consumers for purchasing covered services and supports shall not exceed the amount that would have been allocated in the traditional Medicaid program for nonresidential and nonmedical services for the consumer; however, the department is absorbing an administrative cost (support brokers and fiscal intermediaries). Additionally, utilization is unpredictable; therefore, the DMS is unable to determine a precise fiscal impact at this time.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Neither an increase in fees or funding will be necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does not establish or increase any fees.

(9) Tiering: Is tiering applied? Tiering was not appropriate in this administrative regulation, because the administrative regulation does not equalize the effects of the consumer directed option services program on the different consumers or entities regulated by it. Disparate treatment of any person or entity subject to this administrative regulation could raise questions of arbitrary action on the part of the agency. The "equal protection" and "due process" clauses of the Fourteenth Amendment of the U.S. Constitution may be implicated as well as Sections 2 and 3 of the Kentucky Constitu-
VOLUME 33, NUMBER 5 – NOVEMBER 1, 2006

STATEMENT OF EMERGENCY
921 KAR 2:006E

This emergency administrative regulation, 921 KAR 2:006E, Technical Requirements for the Kentucky Transitional Assistance Program (K-TAP), is necessary to meet the federal legislative and regulatory mandates, including timeframes, established in the provisions of the Deficit Reduction Act of 2005 (Pub. L. 109-171) and related interim federal regulations, issued June 29, 2006, pertaining to the reauthorization of the Temporary Assistance for Needy Families Block Grant (TANF) under Title IV-A of the Social Security Act. The Deficit Reduction Act of 2005 and interim federal regulations reauthorizing TANF clarified participation requirements for families receiving public assistance or K-TAP benefits, including the application of participation requirements. Under the new rule, disqualified parents who are ineligible for TANF assistance (i.e., facing felons, drug-related felons, and persons ineligible because of past fraud) must now participate in the Kentucky Works Program and will be included in the work participation rate. Without the immediate effective date of this emergency administrative regulation, the Cabinet for Health and Family Services would fail to comply with these federal laws by their effective date, October 1, 2006, and would risk associated federal financial penalties. This emergency administrative regulation will ensure Kentucky’s compliance with these federal legislative and regulatory provisions, prevent a loss of federal and state funds, and maintain this financial safety net, K-TAP, for eligible Kentucky citizen’s access. An ordinary administrative regulation would not allow the agency sufficient time to implement policy and program changes by October 1, 2006, to comply with the provisions of the Deficit Reduction act of 2005 (Pub. L. 109-171) and the related interim federal regulations pertaining to the reauthorization of the TANF block grant, and to avoid associated federal financial penalties. This emergency administrative regulation shall be replaced by an ordinary administrative regulation. The ordinary administrative regulation is identical to this emergency administrative regulation.

STATEMENT OF EMERGENCY
921 KAR 2:370E

This emergency administrative regulation, 921 KAR 2:370E, Technical Requirements for the Kentucky Works Program (KWP), is necessary to meet the federal legislative and regulatory mandate, including the standards and thresholds for the provisions of the Deficit Reduction Act of 2005 (Pub. L. 109-171) and related interim federal regulations, issued June 29, 2006, pertaining to the reauthorization of the Temporary Assistance for Needy Families Block Grant (TANF) under Title IV-A of the Social Security Act. The Deficit Reduction Act of 2005 and interim federal regulations reauthorizing TANF clarified participation requirements for families receiving public assistance or Kentucky Transitional Assistance Program (K-TAP) benefits, including the application of the participation requirements, activities qualifying as participation, and documentation necessary to verify participation. Without the immediate effective date of this emergency administrative regulation, the Cabinet for Health and Family Services would fail to comply with these federal laws by their effective date, October 1, 2006, and would risk associated federal financial penalties. This emergency administrative regulation will ensure Kentucky's compliance with these federal legislative and regulatory provisions, prevent a loss of federal and state funds, and maintain this financial safety net, K-TAP, for eligible Kentucky citizen's access. An ordinary administrative regulation would not allow the agency sufficient time to implement policy and program changes by October 1, 2006, to comply with the provisions of the Deficit Reduction Act of 2005 (Pub. L. 109-171) and the related interim federal regulations pertaining to the reauthorization of the TANF block grant, and to avoid associated federal financial penalties. This emergency administrative regulation shall be replaced by an ordinary administrative regulation. The ordinary administrative regulation is identical to this emergency administrative regulation.

tive regulation establishes the technical requirements of activities
allowed under the Kentucky Works Program (KWP).

(b) The necessity of this administrative regulation: This admin-
istrative regulation is needed to establish uniform technical re-
quirements for all individuals participating in KWP.

(c) How this administrative regulation conforms to the content
of the authorizing statute: KRS 205.200(2) requires the Cabinet
for Health and Family Services to prescribe by administrative reg-
ulation the conditions of eligibility for public assistance in conformity
with federal statutes and regulations. This administrative regulation
conforms to the content of the authorizing statutes by establishing
the technical requirements of activities allowed under the KWP.

sistance for Needy Families (TANF) block grant authorized by 42
U.S.C. 601-619). This administration regulation sets forth these
standards in conformity with the Title IV-A or TANF State Plan.

(e) How this administrative regulation currently assists or will
assist in the effective administration of the statutes: This adminis-
trative regulation assists in the effective administration of the stat-
utes by establishing uniform technical eligibility requirements for
participation in KWP, including weekly participation requirements,

failure to participate without good cause.

regulation: This administrative regulation is being amended to
comply with the Deficit Reduction Act of 2005 (Pub. L. 109-171),
which reauthorized TANF, and related interim federal regulations
revised on June 29, 2006. The amendments update the activities who

drugs and medications are not administered to horses.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to bring the standardized regulations into conformance with evolving industry standards. This amendment to the regulation will place Kentucky at the forefront of standardized racing in the country in terms of regulating drugs, medications, and other substances in standardized horses.

(c) How this amendment conforms to the content of the authorizing statutes: This amendment enables the Authority to carry out its statutory directive to "prescribe necessary and reasonable... regulations... under which horse racing... shall be conducted." KRS 230.260(3). Additionally, KRS 230.240(2) specifically authorizes the Authority to "promulgate administrative regulations for effectively promoting the use of improper devices or prohibiting the use and administration of drugs or stimulants or other improper acts to horses prior to participating in a race."

(d) How the amendment will assist in the effective administration of the statutes: This amendment will provide an effective, comprehensive and far-reaching rule regarding the administration of drugs and medications to standardized horses and will, therefore, assist in the effective administration of the statutes in Kentucky.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This regulation affects all aspects of the standardized racing industry. Owners, trainers, drivers, exercise personnel, the betting public, and others who work in and around harness race tracks and other licensed facilities in Kentucky will be affected by this regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment.

Owners—No additional action will need to be taken. Trainers—Will continue to be responsible for their horses, just as they were in the past. They will need to make sure they understand the regulation and operate in compliance with the regulation. Drivers—No additional action will need to be taken. Exercise personnel—No additional action will need to be taken. Betting public—No additional action will need to be taken. People who work in and around the harness track—Veterinarians will need to become familiar with the regulation. Licensed Facilitators—No additional action will need to be taken.

Kentucky Horse Racing Authority—Veterinarians have already been testing horses for drugs. They will continue testing. Security has already been monitoring the track for illegal activities. Such surveillance will continue.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts)?

(c) How much will it cost each of the entities identified in question (3): Owners—May incur additional costs for testing if split samples are taken. Trainers—May incur additional costs for testing if split samples are taken. This cost will probably be passed on to the owner. Drivers—Will not incur additional costs. Exercise Personnel—Will not incur additional costs. Betting Public—Will not incur additional costs. People who work in and around the harness track—Will not incur additional costs.

(d) As a result of compliance, what benefits will accrue to the entities identified in question (3): Owners—Owners will have more confidence in the system and racing will be conducted on more level playing field. Trainers—Trainers will be competing on a more level playing field. Drivers—Drivers will be competing on a more level playing field and will be safer on the track. Exercise Personnel—Exercise personnel will be safer. Betting Public—Will have more confidence in the industry. The playing field should be leveled for the betting public. Licensed Facilities—The integrity of the industry will be improved. If the handle increases because the betting public has more confidence in the honesty of the racing, this will inure to the bottom line of the licensed facilities. An increased handle may also result in increased purses. Kentucky Horse Racing Authority—The integrity of the industry will be improved. An increased handle will result in an increase in tax revenue to the Commonwealth and increased contributions to certain funds administered by the KHRA.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: A similar regulation has already been implemented in the thoroughbred side of racing. There should not be any increased cost for the initial implementation.

(b) On a continuing basis: See (4) above.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: No additional cost in enforcing and implementing this regulation initially. The veterinarians, security personnel, stewards and KHRA were already enforcing the prior regulation and are enforcing a similar regulation in the thoroughbred industry. It is possible additional personnel may be needed. The licensed associations are responsible for paying these costs pursuant to KRS 230.240. See (4) above.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by changes if it is an amendment:

Additional costs may be incurred because the veterinarians will have more duties, there may be more testing and there may be an increase in security as a result of the regulation. The associations are required pursuant to KRS 230.240 to pay for the reasonable compensation of veterinarians, security officers and inspectors.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This amendment does not increase any fees.

(9) TIERING: Is tiering applied: No, tiering does not apply to this regulation.

Pursuant to 42 U.S.C. 1396a et. seq., the Commonwealth of Kentucky has exercised the option to establish a Medicaid Program for Indigent Kentuckians. Having elected to offer Medicaid coverage, the state must comply with federal requirements contained in 42 U.S.C. 1396 et. seq.
4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This amendment will not generate any additional revenue for state or local governments during the first year of implementation.
(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This amendment will not generate any additional revenue for state or local governments during subsequent years of implementation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen or Stephanie Brammer-Banes

(1) Provide a brief summary of the administrative regulation.

(a) What the administrative regulation does: This administrative regulation establishes reimbursement criteria for services provided by dentists to Medicaid recipients.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to comply with federal and state laws that require provision of dental services to Kentucky’s indigent citizenry.

(c) How this administrative regulation conforms to the content of the authorizing statute: This administrative regulation fulfills requirements implemented in KRS 194A.050(1) related to the execution of policies to establish and direct health programs mandated by federal law.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statute: This administrative regulation establishes the reimbursement criteria for payment of medically necessary dental services to Medicaid recipients.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of

(a) How the amendment will change this existing administrative regulation: This amendment is being promulgated as a companion to 907 KAR 1:026E (Dental Services). 907 KAR 1:026E enables the Department for Medicaid Services to establish limitations on dental services in conjunction with 907 KAR 1:900E (KyHealth Choices Benefit Packages). The administrative regulation increases reimbursement for dental services to individuals under 21 years of age, increases reimbursement for a disabled malocclusion, and establishes reimbursement (in conjunction with 907 KAR 1:026) for a full mouth debridement for pregnant women. The amended after comments regulation adds the following to the grid of procedures that are reimbursable for recipients under 21 years of age: "Replace missing or broken tooth on denture". This procedure is covered at an upper limit of $40.30. The amended after comments regulation also deletes the following from the grid of procedures that are reimbursable for recipients under 21 years of age: "topical fluoride with prophylaxis"; "apicoectomy, root surgery molar" (this procedure is a duplication of a procedure already listed); and "surgical removal of impacted tooth with mucoperi flap".

(b) The necessity of the amendment to this administrative regulation: The amendments are necessary in conjunction with a companion administrative regulation (907 KAR 1:026E – Dental Services) which is a component of the Medicaid transformation known as KyHealth Choices. The amendments are necessary to promote dental coverage access for individuals under 21 years of age as well as to enhance coverage for pregnant women. The amended after comments regulation is necessary to make changes agreed upon with the chair of the Dental Technical Advisory Council.

(c) How the amendment conforms to the content of the authorizing statute: The amendments and the amended after comments regulation promote dental coverage access for individuals under 21 years of age, as well as to enhance coverage for pregnant women in accordance with authorizing statutes.

(d) How the amendment will assist in the effective administration of the statute: The amendment and the amended after comments regulation promote dental coverage access for individuals under 21 years of age, as well as to enhance coverage for pregnant women in accordance with authorizing statutes.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This amendment and the amended after comments regulation affect all Medicaid program dental recipients, recipients under 21 years of age and pregnant women receiving dental services.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, included:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No further action is required if regulated entities for compliance with this amendment and amended after comments regulation.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No costs are required of regulated entities for compliance with this amendment and amended after comments regulation.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3) (see Dental reimbursement rates will increase for services provided to individuals under 21 years of age. Dental providers who perform a full mouth debridement on pregnant women will now be reimbursed for the procedure, and providers will receive a higher reimbursement for a disabling malocclusion service.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: This amendment is being implemented with a companion administrative regulation (907 KAR 1:026E – Dental Services) which the Department for Medicaid Services (DMS) estimates could save approximately a potential maximum of $12.4 million ($8.47 million federal funds; $3.93 million state funds) annually; however, DMS anticipates that the reimbursement increases implemented in this administrative regulation could cost approximately $8.1 million ($5.5 million federal funds; $2.6 million state funds) annually; however, the savings are indeterminable given that the limits are soft (may be overridden) and utilization cannot be accurately predicted at this time.

(b) On a continuing basis: This amendment is being implemented with a companion administrative regulation (907 KAR 1:026E – Dental Services) which the Department for Medicaid Services (DMS) estimates could save approximately a potential maximum of $12.4 million ($8.47 million federal funds; $3.93 million state funds) annually; however, DMS anticipates that the reimbursement increases implemented in this administrative regulation could cost approximately $8.1 million ($5.5 million federal funds; $2.6 million state funds) annually; however, the savings are indeterminable given that the limits are soft (may be overridden) and utilization cannot be accurately predicted at this time.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation:

(a) Sources of funding to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.

(b) Provide an assessment of whether an increase in fees or funds will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: The current fiscal year budget will not need to be adjusted to provide funds for implementing this administrative regulation.

(c) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This
administrative regulation does not establish or increase fees.

(9) Tiering: Is tiering applied? Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all those individuals or entities regulated by it. Disparate treatment of any person or entity subject to this administrative regulation could raise questions of arbitrary action on the part of the agency. The "equal protection" and "due process" clauses of the Fourteenth Amendment of the U.S. Constitution may be implicated as well as Sections 2 and 3 of the Kentucky Constitution.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This amendment and amendment to complimentary regulations will affect those enrolled in the Medicaid program. This amendment will also affect the Medicaid program administered by the Cabinet for Health and Family Services.

3. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. Because this amendment and amended after comments regulation is being promulgated in conjunction with 907 KAR 1:060E (KY Health Choices Benefit Packages), this amendment is authorized by the Deficit Reduction Act of 2005 (Pub.L. 109-171).

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is in effect?

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years of implementation?

(c) How much will it cost to administer this program for the first year? This amendment is being implemented in conjunction with a companion administrative regulation (907 KAR 1:026E – Dental Services), which the Department for Medicaid Services (DMS) estimates could save approximately a potential maximum of $12.4 million ($8.47 million federal funds; $3.93 million state funds) annually; however, DMS anticipates that the reimbursement increases implemented in this administrative regulation could cost approximately $8.1 million ($5.5 million federal funds; $2.6 million state funds) annually.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen or Stephanie Brammer-Barnes
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes standards for the provision and receipt of dental services under the Medicaid program.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to comply with federal and state laws that require the provision of dental services to Kentucky's indigent citizens.
(c) How this administrative regulation conforms to the content of the authorizing statute: This administrative regulation fulfills the requirement of KRS 194A.0501 related to the execution of policies to establish and direct health programs mandated by federal law.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation provides the necessary criteria for the provision of medically-necessary dental services to Medicaid recipients.
(e) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment enables the Department for Medicaid Services to establish limitations on dental services in conjunction with 907 KAR 1:900E (KyHealth Choices Benefit Packages). The amendment defines the term "disabling malocclusion", a condition for which corrective treatment is covered; establishes limitations on dental services by limiting the number of dental cleanings covered per year as well as number of visits per month; allows services provided by a dental hygienist in accordance with KRS 313.310 and delivered under the general supervision of a practitioner to be covered; permits coverage for services delivered by a dental resident, student, or dental hygiene student under the direction of a participating provider in an American Dental Association-accredited institution; exempts x-rays necessary for a root canal or oral surgical procedure from the limit on the number of covered x-rays; and establishes coverage of full mouth debridements for pregnant women. These actions are being taken in conjunction with 907 KAR 1:900E (KyHealth Choices Benefit Packages). 907 KAR 1:900 transforms the Kentucky Medicaid program into a program which tailors benefit packages to individual needs and circumstances and is necessary to maintain the viability of the Medicaid Program. The benefit packages, already approved by the Centers for Medicare and Medicaid Services, established via KyHealth Choices are comprehensive choices, family choices, global

choices, and optimum choices. Comprehensive choices is designed for individuals with nursing facility level of care needs. Family choices is designed for children. Global choices is the basic coverage plan, and optimum choices is designed for individuals with mental retardation or developmental disabilities level of care needs. This amendment further conforms with the state Dental Practice Act by allowing dental hygienists to apply sealants or provide other services in accordance with KRS 313.310 while being under the general supervision, rather than direct supervision, of a dentist.

(a) List the actions that each of the regulated entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This amendment will affect all Medicaid recipients who are subject to the new service limitations as well as dental providers enrolled in the Medicaid program.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The service limitations on dental services are authorized by the Department of Family Services and the Centers for Medicare and Medicaid Services in conjunction with KAR 1:900E (KvHealth Choices Benefit Packages). 907 KAR 1:900E transforms the Kentucky Medicaid program into a program which tailors benefit packages to individual needs and circumstances and is necessary to maintain the viability of the Medicaid Program. The benefit packages, established via KyHealth Choices are comprehensive choices, family choices, and optimum choices. Comprehensive choices is designed for individuals with mental retardation or developmental disabilities level of care needs. This amendment further conforms with the state Dental Practice Act by allowing dental hygienists to apply sealants or provide other services in accordance with KRS 313.310 while being under the general supervision, rather than direct supervision, of a dentist.

(2) The necessity of the amendment to this administrative regulation: This amendment is necessary to maintain the financial viability of the Medicaid program and is enacted in conjunction with 907 KAR 1:900E (KyHealth Choices Benefit Packages). 907 KAR 1:900E transforms the Kentucky Medicaid program into a program which tailors benefit packages to individual needs and circumstances and is necessary to maintain the viability of the Medicaid Program. The benefit packages, established via KyHealth Choices are comprehensive choices, family choices, and optimum choices. Comprehensive choices is designed for individuals with nursing facility level of care needs. Family choices is designed for children. Global choices is the basic coverage plan, and optimum choices is designed for individuals with mental retardation or developmental disabilities level of care needs. The amended after comments regulation clarifies that individuals age 21 and over are subject to a soft limit of 1 dental visit per month per provider. The amended after comments regulation further clarifies that two comprehensive oral evaluations during a 12-month period may be covered for members under 21 years of age if the second comprehensive oral evaluation is provided in conjunction with a prophylaxis. The amended after comments regulation also clarifies that a limited oral evaluation will be covered in cases of acute infection, adds "surgical extraction" and "incision and drainage of infection" to the list of services for which a limited oral evaluation may be covered if provided in conjunction with either of these services, and restores the original regulatory language of Section (5)(3) to reflect that the limitation on the number of x-rays shall be per recipient, per provider.

(c) How the amendment conforms to the content of the authorizing statute: This amendment and the amended after comments regulation establishes limitations on dental services as authorized by the Deficit Reduction Act of 2005 and the Centers for Medicare and Medicaid Services in conjunction with 907 KAR 1:900E (KvHealth Choices Benefit Packages). 907 KAR 1:900E transforms the Kentucky Medicaid program into a program which tailors benefit packages to individual needs and circumstances and is necessary to maintain the viability of the Medicaid Program. The benefit packages, established via KyHealth Choices are comprehensive choices, family choices, global choices, and optimum choices. Comprehensive choices is designed for individuals with nursing facility level of care needs. Family choices is designed for children. Global choices is the basic coverage plan, and optimum choices is designed for individuals with intermediate care facility for individuals with mental retardation or developmental disabilities level of care needs. This amendment further conforms with the state Dental Practice Act by allowing dental hygienists to apply sealants or provide other services in accordance with KRS 313.310 while being under the general supervision, rather than direct supervision, of a dentist.
(9) Tiering. Is tiering applied? This administrative regulation includes tiering, by age, in order to assist transforming the Medicaid program into one tailored to individual medical needs and circumstances in conjunction with KRS 907 KAR 1:030 (KyHealth Choices Benefit Packages). The transformed program provides incentives to enroll Medicaid and Kentucky Children's Health Insurance Program (KCHIP) beneficiaries who will promote healthy lifestyles, personal accountability and responsible program governance for a healthier Commonwealth.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments, or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This amendment will affect all Medicaid recipients who are subject to the new service limitations, as well as dental providers enrolled in the Medicaid program. This amendment will also affect the Medicaid program administered by the Cabinet for Health and Family Services.

3. Identify each state or federal regulation that requires or authorizes the actions taken by the administrative regulation. Because this amendment and amended after comments regulation enables the Department for Medicaid Services to establish limitations on dental services in conjunction with KRS 907 KAR 1:030E (KyHealth Choices Benefits Packages), this amendment is authorized by the Deficit Reduction Act of 2005 (Pub.L. 109-171).

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This amendment will not generate any additional revenue for state or local governments during the first year of implementation.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This amendment will not generate any additional revenue for state or local governments during subsequent years of implementation.

(c) How much will it cost to administer this program for the first year? Implementation of this amendment will not result in any additional costs during the first year; however, DMS anticipates a potential maximum savings of approximately $12.4 million ($8.47 million federal funds; $3.93 million state funds) annually as a result of this amendment. The exact savings are indeterminate given that the limits are soft (may be overridden) and utilization cannot be accurately predicted at this time.

(d) How much will it cost to administer this program for subsequent years? Implementation of this amendment will not result in any additional costs during subsequent years of implementation; however, DMS anticipates a potential maximum savings of approximately $12.4 million ($8.47 million federal funds; $3.93 million state funds) annually as a result of this amendment. The exact savings are indeterminate given that the limits are soft (may be overridden) and utilization cannot be accurately predicted at this time.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment establishes the use of criteria to determine clinical appropriateness of durable medical equipment. The amendment after comments regulation clarifies that coverage of prosthetic devices shall not exceed $1500 per 12-month period for members of the Family Choices benefit plan, clarifies that Medicaid care criteria will be used to determine coverage if clinical appropriateness criteria pursuant to 907 KAR 3.130 does not exist or is unavailable, raises the prior authorization threshold from $150 to $300, and incorporates a new form for use when an individual requests an item or service not covered by the department.

(d) The amendment will assist in the effective administration of the statutes: The amendment to this administrative regulation assists in the effective administration of the statutes by establishing the use of clinical criteria to determine the appropriateness of durable medical equipment.
(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation. This amendment affects all durable medical equipment providers and recipients.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or, by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The amendment after comments clarifies that Medicare criteria will be used to determine coverage if clinical appropriateness criteria pursuant to 907 KAR 3.130 does not exist or is unavailable, raises the prior authorization threshold from $150 to $300, and incorporates a new form for use when an Individual requests an item or service not covered by the department. (8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does not establish or increase any fees.
(9) Tiering: Is tiering applied? Tiering was not appropriate in this administrative regulation, because the administrative regulation applies equally to all those individuals or entities regulated by
it. Disparate treatment of any person or entity subject to this admin-
istrative regulation could raise questions of arbitrary action on the
part of the agency. The "equal protection" and "due process" clause
of the Fourteenth Amendment of the U.S. Constitution may be
implicated as well as Sections 2 and 3 of the Kentucky Constitu-

Contact Person: Stuart Owen or Stephanie Brammer-Barnes
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes cost-sharing provisions for Medicaid and Kentucky Children's Health Insurance Program (KCHIP) recipients.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish cost-sharing provisions for Medicaid and KCHIP recipients.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of KRS 205.6312(5) and Pub.L. 109-171 (aka the Deficit Reduction Act of 2005) by establishing cost-sharing provisions regarding Medicaid and KCHIP recipients.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) The amendment:
(b) How the amendment will change this existing administrative regulation: This amendment is being promulgated to structure Department for Medicaid Services (DMS) cost-sharing in accordance with the Medicaid transformation known as KyHealth Choices. A companion regulation, 907 KAR 1:900E (KyHealth Choices Benefit Packages), will re-design the Kentucky Medicaid program into one tailored to individual needs and circumstances. The benefit packages established via KyHealth Choices are comprehensive choices, family choices, global choices, and optimum choices. Comprehensive choices is designed for individuals with nursing facility level of care needs. Family choices is designed for children. Global choices is the basic coverage plan, and optimum choices is designed for individuals with intermediate care facility for individuals with mental retardation or developmental disabilities level of care needs. This initiative, which has already been approved by the Centers for Medicare and Medicaid Services and is being enacted in accordance with the Deficit Reduction Act of 2005, is necessary to maintain the viability of the program, to provide innovative opportunities to Medicaid and KCHIP beneficiaries, and to promote healthy lifestyles, personal accountability and responsible program governance for a healthier Commonwealth. The amended coverage and benefits regulation removes "occupational therapy" and its corresponding copayment from the Global Choices grid, because occupational therapy will not be a covered service at this time unless it is covered under adult day care for individuals participating in the Home and Community Based Waiver program, or covered under physician services in a situation where the occupational

therapist is employed as a full-time employee of the physician and the procedure is billed under the physician's provider number. The amended after comments regulation further clarifies that the 5% co-surance fee for non-preferred brand name drugs will not exceed $20 per prescription. Additionally, the amended after comments regulation inserts a new provision which, in effect, 是 denoting that the non-emergency co-surance will not be deducted from the provider's reimbursement, refers to 907 KAR 1:900 benefit plan definitions to ensure uniformity as well as deletes definitions related to benefit plans.

(b) The necessity of the amendment to this administrative regulation: The amendment and amended after comments regulation is necessary to assist in transforming the Medicaid program and to transform it into a program tailored to beneficiaries' needs. The transformed program provides innovative opportunities to Medicaid and KCHIP beneficiaries which will promote healthy lifestyles, personal accountability and responsible program governance for a healthier Commonwealth.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment and amended after comments regulation conforms to the content of the authorizing statutes, including KRS 205.6312 and Pub.L. 109-171 (aka the Deficit Reduction Act of 2005), by assisting in transforming the Medicaid program to maintain its viability and to tailor it to beneficiaries' needs. The transformed program provides innovative opportunities to Medicaid and KCHIP beneficiaries which will promote healthy lifestyles, personal accountability and responsible program governance for a healthier Commonwealth.

(d) How the amendment will assist in the effective administration of the statutes: The amendment and amended after comments regulation conforms to the content of the authorizing statutes, including KRS 205.6312 and Pub.L. 109-171 (aka the Deficit Reduction Act of 2005) by assisting in transforming the Medicaid program to maintain its viability and to tailor it to beneficiaries' needs. The transformed program provides innovative opportunities to Medicaid and KCHIP beneficiaries which will promote healthy lifestyles, personal accountability and responsible program governance for a healthier Commonwealth.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This amendment and amended after comments regulation will affect all Medicaid and KCHIP program recipients who are not exempt from co-payment or co-insurance fees.

(4) Provide an analysis of how the entities identified in question (3) (including the states and the participating states and circumstances) will be impacted by this administrative regulation: This administrative regulation and amended after comments regulation will affect all Medicaid and KCHIP program recipients who are not exempt from co-payment or co-insurance fees.

This administrative regulation and amended after comments regulation will affect all Medicaid and KCHIP program recipients who are not exempt from co-payment or co-insurance fees.

3. Identify each state or federal regulation that requires or authorizes the action taken by this administrative regulation: Pursuant to 42 U.S.C. 1396 et seq., the Commonwealth has exercised the option to establish a Medicaid Program for indigent Kentuckians. Having elected to offer Medicaid coverage, the state must comply with federal requirements contained in 42 U.S.C. 1396 et. seq. Additionally, this administrative regulation and amended after comments regulation comply with Pub.L. 109-171, governing Medicaid program and KRS 205.6312(5) by establishing cost-sharing provisions for Medicaid recipients, their spouses, or parents, under the provisions of Section 1916 of Title XIX of the Federal Social Security Act, 42 U.S.C. sec. 1396c. Also, this administrative regulation and amended after comments regulation comply with KRS 205.6485(1) by establishing the premium contribution per family of health insurance coverage available under the Kentucky Children's Health Insurance Program.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect:

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect? This amendment will not generate any additional revenue for state or local governments during the first year of implementation. (b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This amendment will not generate any additional revenue for state or
local governments during subsequent years of implementation.
(c) How much will it cost to administer this program for the first year? Implementation of this amendment will not result in any additional costs during the first year; however, DMS anticipates that this amendment and amended after comments regulation will generate a savings of approximately $31.1 million ($21.1 million federal funds; $10.0 million state funds) during State Fiscal Year (SFY) 2007.
(d) How much will it cost to administer this program for subsequent years? Implementation of this amendment will not result in any additional costs during subsequent years of implementation; however, DMS anticipates that this amendment and amended after comments regulation will generate a similar but higher level of annual savings in subsequent years.
Note. If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.
Revenues (+/-): ___
Expenditures (+/-): ___
Other Explanation: No additional expenditures are necessary to implement this amendment.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact Person: Stuart Owen or Stephanie Brammer-Barnes
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes reimbursement criteria for services provided by dentists to Medicaid recipients.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to comply with federal and state laws that require provision of dental services to Kentucky's indigent citizens.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation fulfills requirements implemented in KRS 194A.050(1) related to the execution of policies to establish and direct health programs mandated by federal law.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation establishes the reimbursement criteria for payment of medically-necessary dental services to Medicaid recipients.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative...
regulation: This amendment is being promulgated as a companion to 907 KAR 1:025E, Dental services. 907 KAR 1:026E enables the Department for Medicaid Services to establish limitations on dental services in conjunction with 907 KAR 1:900E, Kentucky Health Choices Benefit Packages. This administrative regulation increases reimbursement for dental services to individuals under 21 years of age, increases reimbursement for a disabling malocclusion, and establishes reimbursement (in conjunction with 907 KAR 1:026) for a full mouth debreidment for pregnant women. The necessity of the amendment to this administrative regulation: The amendments are necessary in conjunction with a companion administrative regulation; 907 KAR 1:028, Dental services; which is a companion of the Medicaid transformed known as Kentucky Health Choices. The amendments are necessary to promote dental coverage access for individuals under 21 years of age as well as to enhance coverage for pregnant women.

(b) How the amendment conforms to the content of the authorizing statutes: The amendments promote dental coverage access for individuals under 21 years of age as well as to enhance coverage for pregnant women in accordance with authorizing statutes.

(c) How the amendment will assist in the effective administration of the statutes: The amendments promote dental coverage access for individuals under 21 years of age as well as to enhance coverage for pregnant women in accordance with authorizing statutes.

(3) List the type and number of individuals, businesses, organizations, state and local government agencies (including cities, counties, fire departments, or school districts) affected by the amendment: This amendment will affect all Medicaid Program dental providers, recipients under 21 years of age and pregnant women receiving dental services.

(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment: Dental reimbursement rates will increase for services provided to individuals under 21 years of age, dental providers who perform a full mouth debreidment on pregnant women will now be reimbursed for the procedure, and providers will receive a higher reimbursement for a disabling malocclusion service.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: This amendment is being implemented in conjunction with a companion administrative regulation; 907 KAR 1:028E, Dental services; which the Department for Medicaid Services (DMS) estimates could save approximately $12.4 million ($8.47 million federal funds; $3.93 million state funds) annually; however, DMS estimates that the reimbursement increases implemented in this administrative regulation could cost approximately $8.1 million ($5.5 million federal funds; $2.6 million state funds) annually.

(b) On a continuing basis: This amendment is being implemented in conjunction with a companion administrative regulation; 907 KAR 1:028E, Dental services; which the Department for Medicaid Services (DMS) estimates could save approximately $12.4 million ($8.47 million federal funds; $3.93 million state funds) annually; however, DMS estimates that the reimbursement increases implemented in this administrative regulation could cost approximately $8.1 million ($5.5 million federal funds; $2.6 million state funds) annually.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX, and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: The current fiscal year budget will not need to be adjusted to provide funds for implementing this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does not establish or increase fees.

(9) Tiering: Is tiering applied? Tiering was not appropriate in this administrative regulation, because the administrative regulation applies equally to all those individuals or entities regulated by it. Disparate treatment of any person or entity subject to this administrative regulation could raise questions of arbitrary action on the part of the agency. The "equal protection" and "due process" clauses of the Fourteenth Amendment of the U.S. Constitution may be implicated as well as Sections 2 and 3 of the Kentucky Constitution.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This amendment and amended after comments regulation will affect dental providers enrolled in the Medicaid program. This amendment will also affect the Medicaid program administered by the Cabinet for Health and Family Services.

3. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. Because this amendment and amended after comments regulation is being promulgated as a companion to 907 KAR 1:028E (Dental Services), which enables the Department for Medicaid Services to establish limitations on dental services in conjunction with 907 KAR 1:900E (KyHealth Choices Benefit Packages), this amendment is authorized by Section 10a-171.4, KRS.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect:

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This amendment will not generate any additional revenue for state or local governments during the first year of implementation. However, dental reimbursement rates will increase for services provided to individuals under 21 years of age. Dental providers who perform a full mouth debreidment on pregnant women will now be reimbursed for the procedure and providers will receive a higher reimbursement for a disabling malocclusion service.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This amendment will not generate any additional revenue for state or local governments during the first year of implementation. However, dental reimbursement rates will increase for services provided to individuals under 21 years of age. Dental providers who perform a full mouth debreidment on pregnant women will now be reimbursed for the procedure and providers will receive a higher reimbursement for a disabling malocclusion service.

(c) How much will it cost to administer this program for the first year? This amendment is being implemented in conjunction with a companion administrative regulation (907 KAR 1:028E – Dental Services), which the DMS estimates could save approximately a potential maximum of $12.4 million ($8.47 million federal funds; $3.93 million state funds) annually; however, DMS estimates that the reimbursement increases implemented in this administrative regulation could cost approximately $8.1 million ($5.5 million federal funds; $2.6 million state funds) annually.

(d) How much will it cost to administer this program for subsequent years? This amendment is being implemented in conjunction with a companion administrative regulation (907 KAR 1:028E – Dental Services), which the DMS estimates could save approximately a potential maximum of $12.4 million ($8.47 million federal funds; $3.93 million state funds) annually; however, DMS estimates that the reimbursement increases implemented in this administrative regulation could cost approximately $8.1 million ($5.5 million federal funds; $2.6 million state funds) annually.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen or Stephanie Brammer-Barnes
(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes coverage provisions related to chiropractic services.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish chiropractic service coverage.

(c) How this administrative regulation conforms to the content of the authorizing statute: This administrative regulation allows for payment to be made under the Medicaid program for services that are within the lawful scope of practice of a chiropractor licensed pursuant to KRS Chapter 312, to the extent that Medicaid pays for the same services provided by a physician.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statute: This administrative regulation allows Medicaid coverage of chiropractic services provided by a licensed chiropractor in accordance with KRS 205.560.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amended after comments regulation removes the
originally proposed chiropractic visit limit and prior authorization requirement established in the original amendment. In the original amendment, the department proposed that reimbursement would be available for no more than 15 chiropractic visits per year for a recipient age 21 and older, and no more than 7 chiropractic visits per year for a recipient under age 21. The original amendment also required prior authorization before each chiropractic visit. The amended after comments regulation clarifies that chiropractic services will be limited to no more than 26 visits per 12-month period for all KyHealth Choices members regardless of age. This visit limit will not be subject to overrides. Therefore, the department will not approve visits in excess of 26 per year. The amended after comments regulation further removes the prior authorization requirement for chiropractic visits. Prior authorization will not be required before any of the twenty-six (26) allowable visits per 12 months.

(b) The necessity of the amendment to this administrative regulation: This amendment and amended after comments regulation is being enacted in conjunction with 907 KAR 1:900E (KyHealth Choices Benefit Packages). 907 KAR 1:900E transforms the Kentucky Medicaid program into a program which tailors benefit packages to individual needs and circumstances and is necessary to maintain the viability of the Medicaid Program. The benefit packages, already approved by the Centers for Medicare and Medicaid Services, established via KyHealth Choices are comprehensive choices, family choices, global choices, and optimum choices. Comprehensive choices are designed for individuals with nursing facility level of care needs. Family choices are designed for children. Global choices is the basic coverage plan, the base of the funding to be used for the implementation and enforcement of this administrative regulation: Sources of funding to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund and restricted fund appropriations.

(5) Provide an estimate of how much will it cost to implement this administrative regulation:

(a) Initially: No additional costs are necessary to implement this amendment; the department anticipates an initial savings of $130,390 as a result of capping chiropractic visits at 26 per 12-month period.

(b) On a continuing basis: No additional costs are necessary to implement this amendment; the department anticipates a continuing savings of $130,390 as a result of capping chiropractic visits at 26 per 12-month period.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Recipients will be financially responsible for any chiropractic visit in excess of 26 per 12-month period.

(6) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does not establish or increase fees.

(7) Is tiering being applied? Tiering by age group was applied in conjunction with 907 KAR 1:900E (KyHealth Choices Benefit Packages). 907 KAR 1:900E transforms the Kentucky Medicaid program into a program which tailors benefit packages to individual needs and circumstances and is necessary to maintain the viability of the Medicaid Program. The benefit packages, already approved by the Centers for Medicare and Medicaid Services, established via KyHealth Choices are comprehensive choices, family choices, global choices, and optimum choices. Comprehensive choices are designed for individuals with nursing facility level of care needs. Family choices is the basic coverage plan, and optimum choices is designed for individuals with intermediate care facility for individuals with mental retardation or developmental disabilities level of care needs.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: David Gayle

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes criteria for implementation of the voluntary quality rating system for Type II licensed child care centers and certified family child care providers, and establishes the amount of each monetary incentive awarded to a participant in the STARS for KIDS NOW program.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish a voluntary quality rating system for licensed child care centers and certified family child care providers and related monetary incentive payments to those centers and homes.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by implementing a voluntary quality-based graduated rating system for child care providers, agency timeframes for the review of quality ratings, an appeals process under KRS Chapter 13A, a process for the reevaluation of quality ratings, and related monetary incentives for child care providers. The administrative regulation further complies with quality improvement initiatives required as a part of the State's eligibility for the Child Care Development Block Grant.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the statutes by developing a program of monetary incentives and to participation in a quality rating system for child care providers.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this administrative regulation: The amendment modifies the existing administrative regulation's renewal process to align the process's timeframes and related child care provider requirements with those suggested by the National Association for the Education of Young Children. The amendment also makes other technical corrections to ensure greater clarity for the public and compliance with KRS Chapter 13A.

(b) The necessity of the amendment to this administrative regulation: This administrative regulation is necessary to align the frequency of onsite assessments for licensed child care centers and certified family child care homes that request participation in the STARS for KIDS NOW Program, an incentive-based and graduated quality rating system, with the best practices of the National Association for the Education of Young Children. In 45 C.F.R. 98.51, the U.S. Department of Health and Human Services requires Kentucky to set aside a percentage of the federal Child Care and Development Fund Block Grant, the federal funding source for Kentucky's Child Care Assistance Program, to improve the quality of child care. The amendment ensures that the Department for Community Based Services has the capacity to improve the quality of child care by servicing more centers and providing more intensive technical assistance to them. In addition to the overall improvement of child care centers' programs, health and safety standards, the amendment eliminates the possibility of any lost federal or state funding available to the STARS for KIDS NOW Program and Kentucky's child care program.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the content of the authorizing statutes by aligning departmental practices with national best practice standards and clarifying those practices and related provider requirements for the public.

(d) How the amendment will assist in the effective administration of the statutes: The amendment will assist in the effective administration of the statutes by providing a framework for child care centers and certified family child care providers and related monetary incentive payments to those centers and homes.

(e) How the amendment will assist in the effective administration of the statutes by aligning departmental practices with national best practice standards and clarifying those practices and related provider requirements for the public.

(f) List the type and number of individuals, business, organizations, or state and local governments affected by this administrative regulation: At this time, 536 licensed child care centers and 134 family child care homes are participating in the STARS for KIDS NOW Program.

(g) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment: STARS rated providers will be impacted by the amendment to this administrative regulation in that they will be subject to renewal and provider requirements more consistent with national best practices and standards. The amendment clarifies those practices and related provider requirements for the public.

(h) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change, if it is an amendment: There will not be an increase in fees or funding to implement the amendment to this administrative regulation.

(i) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: There are not any fees, directly or indirectly attached to the amendment to this administrative regulation.

(j) TIERING: Is being applied? Policy is applied in a like manner for all licensed child care centers and family home providers.

(2) If the completed absentee ballot application is received by electronic mail from IVAS not less than seven (7) days before the election, then the county clerk shall affix his seal to the absentee ballot application.

(3) The county clerk shall then verify the voter’s [voter’s] eligibility. If the voter is eligible to vote in the current election, then the county clerk shall prepare an electronic copy in Portable Document Format (PDF) of the original absentee ballot. The original absentee ballot is then marked "electronically mailed to IVAS" and retained.

(4) The original absentee ballot shall not be reused. The electronic copy of the original absentee ballot shall be sent via electronic mail to IVAS, along with the Instructions to Voter sheet and the voter verification sheet.

Section 3. Voter’s Instructions on Completing an Electronic Absentee Ballot Received From IVAS. (1) When a voter receives an absentee ballot via electronic mail, the voter shall print the absentee ballot, mark the absentee ballot and seal it in an inner envelope.

1. Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the procedure for the filing of retirement applications and determining effective dates of annuity payments.
(b) The necessity of this administrative regulation: The retirement system as well as its members must have procedures in place for the orderly filing of retirement applications as well as clear guidelines as to when annuity payments may be made.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 161.600(4) provides that no retirement annuity shall be effective until written application forms are filed with the retirement office in accordance with administrative regulations of the board of trustees.

2. (a) How the administrative regulation currently assists or will assist in the effective administration of the statutes: The statutes do not specifically address the procedure for filing retirement applications or determining the effective dates of annuity payments. This administrative regulation adds the needed detail so that these procedures may be implemented.
(b) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change the existing administrative regulation: This amendment will require members who wish to file for a June 1 retirement date to file their retirement application on or before May 1.
(b) The necessity of the amendment to this administrative regulation: Historically, July 1 has been the most requested retirement date. As such, July 1 retirement dates have required a minimum one-month advance filing deadline so that the retirement applications received for that date can all be adequately processed, thus permitting retirees to receive their first retirement annuity payments on time. June 1, second only to July 1 as the most requested retirement date, is becoming increasingly popular. As such, it is becoming increasingly challenging to adequately process June 1 retirement applications without a minimum advance filing deadline similar to that required for July 1 retirements.
(c) How the amendment conforms to the content of the authorizing statutes: KRS 161.600(4) contemplates that the board of trustees promulgating administrative regulations for the filing of retirement applications.

4. (a) Provide an analysis of how the entities identified in question (3) will be impacted by the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There is no cost to members under this amendment.

5. (a) Provide an estimate of how much it will cost to implement this administrative regulation.

6. (a) Initially: No cost.
(b) On a continuing basis: No cost.

7. (a) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: No additional funding is necessary as there is no additional cost.

8. (a) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding will be necessary to implement this administrative regulation.

(b) Tieiring: Is tieiring applied? Tieiring as described under KRS 13A.210 applies to the proposed regulatory amendment only to the extent that the amendment would require a one-month advance filing deadline only for June 1 retirements (in addition to the July 1 retirements already provided for), and not for any of the other less requested retirement dates.

This initiative allocates a monthly budgeted allowance to consumers to spend on nonresidential and nonmedical home and community based services and supports.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does not establish or increase any fees.

Tiering was not appropriate in this administrative regulation, because the administrative regulation applies equally to all those individuals or entities regulated by it. Disparate treatment of any person or entity subject to this administrative regulation could raise questions of arbitrary action on the part of the agency. The "equal protection" and "due process" clauses of the Fourteenth Amendment of the U.S. Constitution may be implicated as well as Sections 2 and 3 of the Kentucky Constitution.

Contact Person: David Gayle

(1) Provide a brief summary of:

(a) What administrative regulation does: This administrative regulation establishes the technical requirements for the Kentucky Transitional Assistance Program (K-TAP).

(b) The necessity of this administrative regulation: This administrative regulation is needed to establish uniform conditions and requirements regarding technical eligibility for K-TAP.

(c) How this administrative regulation conforms to the content of the statutes: KRS 205.300(2) requires the Cabinet for Health and Family Services to prescribe administrative regulations that contain the conditions of eligibility for public assistance in conformity with federal statutes and regulations. This administrative regulation establishes the requirements for technical eligibility for K-TAP, the assistance program funded by the Temporary Assistance for Needy Families (TANF) block grant authorized by 42 U.S.C. 601-619. This administrative regulation sets forth these standards in conformity with the Title IV-A State Plan.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation establishes K-TAP technical eligibility requirements. The administrative regulation establishes the technical requirements of school attendance, residency, citizenship, deprivation of parental rights, age, cooperation in child support activities, minor teenage parent provisions, and time limitations for eligibility for K-TAP benefits.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment to this administrative regulation requires disqualified parents, who are ineligible for TANF assistance (i.e., fleeing felons, drug-related felons, and persons ineligible because of past fraud), to participate in the Kentucky Works Program as regulated in 921 KAR 2:370, Technical Requirements for Kentucky Works. This amendment also clarifies exceptions to the 60-month lifetime limit on the receipt of TANF benefits and makes technical corrections to comply with KRS Chapter 13A.

(b) The necessity of the amendment to this administrative regulation: The amendment to this administrative regulation is necessary to comply with the changes in the Deficit Reduction Act (DRA) of 2005 (Pub. L. 109-171) and related interim federal regulations, released June 29, 2006, which reauthorized the TANF block grant under Title IV-A of the Social Security Act. The amendment is necessary to avoid state penalties associated with non-compliance with these new federal requirements.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to 42 U.S.C. 601-619 by clarifying technical eligibility requirements for K-TAP recipients, the reasons in which a case may receive an extension of benefits beyond the 60-month lifetime limit of receipt, and making technical corrections to comply with KRS Chapter 13A.

(d) How the amendment will assist in the effective administration of the statutes: KRS 205.300(2) requires the cabinet to prescribe by administrative regulation the conditions of eligibility for public assistance in conformity with federal statutes and regulations. This administrative regulation establishes K-TAP technical requirements of school attendance, residency, citizenship, deprivation of parental rights, age, cooperation in child support activities, and time limitation for eligibility for K-TAP benefits. The amendment to this administrative regulation clarifies policy for those who may be eligible for K-TAP assistance.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation will affect families who are receiving assistance from K-TAP. As of June 2006, there were 14,753 families receiving K-TAP.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Parents, who are ineligible to receive K-TAP assistance (i.e., fleeing felons, drug-related felons, and persons ineligible because of past fraud), will be required to participate in the Kentucky Works Program and included in the work participation rate. In order for a case to receive an extension of benefits beyond the 60-month lifetime limit, the work-eligible individual will be required to meet one of the reasons for extension as specified in this administrative regulation.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? By amending this administrative regulation, the state will avoid certain financial penalties. Additionally, ineligible parent recipients will now receive the same supportive services as parent recipients in their efforts to become self-sufficient prior to reaching the 60-month lifetime limit of receipt.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? There will be no accrued benefits to the entities as a result of compliance.

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the technical requirements of activities allowed under the Kentucky Works Program (KWP).

(b) The necessity of this administrative regulation: This administrative regulation is needed to establish uniform technical requirements for all individuals participating in KWP.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 205.200[2] requires the Cabinet for Health and Family Services to prescribe by administrative regulation the conditions of eligibility for public assistance in conformity with federal statutes and regulations. This administrative regulation conforms to the content of the authorizing statutes by establishing the technical requirements and allowed activities of the KWP. The KWP is the work program under the Kentucky Temporary Assistance Program (K-TAP), the assistance program funded by the Title IV-A of the Social Security Act (a.k.a., the Temporary Assistance for Needy Families (TANF) block grant authorized by 42 U.S.C. 601-619). This administrative regulation sets forth these standards in conformity with the Title IV-A or TANF State Plan.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing uniform technical eligibility requirements for participation in KWP, including weekly participation requirements, allowable activities, good cause reasons for failure to participate, exemption criteria from program participation, and penalties for failure to participate without good cause.

(e) If this is an amendment to an existing administrative regulation, provide a brief summary of:

This administrative regulation establishes technical eligibility requirements for the KWP program. The amendment assists in the effective administration of the statutes through its incorporation of federal requirements necessitated by TANF's Reauthorization.

Administrative Regulations Reviewed by the Subcommittee:

EDUCATION PROFESSIONAL STANDARDS BOARD: Kentucky Teaching Certificates

16 KAR 2:010. Teaching certificates. Alicia Snead, director of legal services; Mike Carr, director of certification; Marilyn Troupe, director of educator preparation; and Cindy Owen, director of professional learning and assessment, represented the board.

In response to a question by Senator Tapp, Mr. Carr stated that two options for alternative certification were available for engineers who wished to become teachers. Option 1 recognized ten years of work experience and required a portfolio submission. Option 2 permitted applicants to begin teaching upon their entry into a university-based alternative certification route and was frequently used by teachers for math, science, or special education. It took about three years to finish the alternative certification program.

A motion was made and seconded to approve the following amendments: to amend Sections 1 and 5 to comply with the drafting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

In response to a question by Co-chair Pullin, Mr. Carr stated that individuals who begin teaching under an occupation-based or technical education certificate are required to enroll in a 64-hour university program. Some universities have been awarding credit to these individuals based on work and life experiences which exempted them from some of the coursework the board considered necessary. The amended administrative regulation will prohibit counting such credits toward certification requirements.

A motion was made and seconded to approve the following amendments: to amend Section 2 to: (1) comply with the drafting and format requirements of KRS Chapter 13A; and (2) clarify that credit granted by postsecondary institutions for occupational proficiency based upon past relevant experience or credit by examination shall not be applied toward the provisional certificate renewal requirements. but that it was cyclical. A few years ago there were too many. Physical therapy assistants worked under the supervision of a physical therapist and followed the prescribed plan of care. There were three schools that train physical therapists and five schools that train physical therapy assistants in Kentucky.

Co-chair Pullin stated that there was a shortage of engineers, physical therapists, and nurses in Kentucky, while there were still Kentuckians who need jobs. She stated this was a challenge for the General Assembly and the agencies to find ways to provide training opportunities for Kentucky citizens to assist them in obtaining employment and address the shortage of qualified personnel in those fields.

A motion was made and seconded to approve the following amendments: to amend Section 8 to (1) delete language that repeated or modified statutory provisions; (2) include a reference to the authorizing statute, and (3) correct minor drafting errors. Without objection, and with agreement of the agency, the amendments were approved.

Hunting and Fishing

301 KAR 3 022. License, tag and permit fees.

In response to questions by Representative Lee, Mr. Gassett stated the department did not currently have the authority to set fee increases based on the consumer price index but the department may seek to introduce legislation on that topic in the future.

In response to questions by Co-chair Pullin, Mr. Gassett stated that discounted hunting and fishing licenses for seniors were for individuals age 65 and over. The department could consider lowering the age but it may not be financially feasible. If the department did not raise its fees, it would have to make cuts in its private pond fish stocking program and possibly its landowner assistance program. It had already increased camp fees and magazine subscription costs. Kentucky's deer herds and turkey flocks were among the best in the country and justified higher fees. Many other states charged higher fees to nonresidents than Kentucky does so increases in nonresident fees would even things out. All of the members of the department's board have supported the fee increases.

In response to questions by Representative Reinhardt, Mr. Gassett stated that Kentucky was overstocked with deer but not with turkeys. Northern and western Kentucky have too many deer which they were trying to reduce through doe management. A new "hunters for the hungry" program created during the last session of the General Assembly will allow hunters to kill doves to donate them to the poor for food. There were nine members on the department's board. Of those, five were selected by sportsmen and appointed by the governor. Disabled persons of any age were eligible for the $5.00 license. The permit for $5.00 covered everything except the fee to apply for a deer or elk hunt.

In response to questions by Senator Tapp, Mr. Gassett stated that the fee increases were intended to generate additional income as well as simplify the overall fee structure and reduce the number of different rates and permits. The department tried to eliminate the 15-day nonresident fishing license and reduce the seven-day permit to a five-day to be consistent with hunting licenses but, after a public hearing, they did not do that.

A motion was made and seconded to approve the following amendment: to amend the RELATES TO paragraph to correct statutory citations. Without objection, and with agreement of the agency, the amendment was approved. Co-chair Pullin stated that she wanted her objection to this administrative regulation noted in the record.

Without objection, and with agreement of the agency, the amendments were approved.

302 KAR 16:020. Operation of amusement rides or amusement attractions.

In response to questions from Representative Reinhardt, Mr. Farrow stated that in 2005 there were three reported accidents, and one reported in 2006 to date. Since 1986 there have been zero rider deaths and one death of an amusement ride worker in Kentucky. In 2006 the department performed initial inspections on at least 2,305 rides and follow-up inspections on at least 3,000. This administrative regulation adds hay rides to the list of attractions that were not inspected.
