STATEMENT OF EMERGENCY
101 KAR 2:210E

This emergency regulation incorporates the 2008 summary plan descriptions, by reference, which specifies health insurance benefit information for the Public Employee Health Insurance Program. KRS 18A.2254 requires the Personnel Cabinet to promulgate an administrative regulation to incorporate by reference the eleven (11) summary plan descriptions. This emergency regulation is necessary to meet a deadline for the promulgation of an administrative regulation that is established by state law. KRS 18A.2254, requires the Personnel Cabinet to promulgate an administrative regulation to incorporate, by reference, the summary plan descriptions for the Public Employee Health Insurance Program. The Personnel Cabinet was unable to file an ordinary administrative regulation with the Legislative Research Commission before October 12, 2006, because it did not have an opportunity to review second quarter financial data from the 2007 plan year in its effort to secure the lowest possible health insurance rates for its participants. This material was first compiled and available for detailed analysis by the Personnel Cabinet in August 2007. Subsequently, the Personnel Cabinet was obliged to comply with a mandatory 20-day review period before the Kentucky Personnel Board which further delayed filing of the original ordinary administrative regulation. As a result, the Personnel Cabinet has determined that the ordinary administrative regulation will not be effective January 1, 2008, the first day of the 2008 plan year. Therefore to comply with KRS 18A.2254, the Personnel Cabinet has withdrawn the original ordinary regulation filed October 12, 2007, and files this emergency regulation. This emergency regulation will be replaced by an ordinary administrative regulation because the summary plan descriptions for the Public Employee Health Insurance Program will be updated for the 2008 plan year and every year thereafter. This emergency regulation will be identical to the ordinary administrative regulation filed January 1, 2008 [2007], edition,

STATEMENT OF EMERGENCY
201 KAR 30:190E

This emergency regulation establishes the education requirements for certification or licensure of applicants before the Kentucky Real Estate Appraisers Board. This emergency administrative regulation must be placed into effect immediately in order to extend a deadline that would otherwise go into effect on January 1, 2008. This extension is necessary to implement changes mandated under Title XI of the Financial Institutions Reform, Recovery and Enforcement Act of 1989, 12 U.S.C. 3331-3331. The extension will give certain applicants an additional two (2) years to complete the experience requirements for certification or licensure. This emergency administrative regulation shall be replaced by an ordinary administrative regulation. The ordinary administrative regulation was filed with the Regulations Compiler on December 14, 2007.

STATEMENT OF EMERGENCY
705 KAR 4:250E

2007 HB 1, which was passed during the second special legislative session of 2007, requires the KDE to establish an energy technology engineering career track program for high school students. The bill provided for an appropriation of $300,000 for FY 2007-2008 to be distributed to local school districts to support this work. The enacted bill requires the Kentucky Board of Education to promulgate an administrative regulation for the administration of the energy technology career track program. Approval by the Kentucky Board of Education of an emergency regulation is necessary to enable the Kentucky Department of Education to immediately begin work on developing the energy technology engineering career path program and the criteria to be followed in the distribution of grants to local school districts prior to the end of the 2007-2008 school year, consistent with the intent of the statute. The emergency administrative regulation will establish a process for the administration of the program, the approval of grant recipients, and the distribution of funds. This emergency administrative regulation shall be replaced by an ordinary administrative regulation. (14) Benefits shall be denied to a family for a month in which a parent with whom the child is living is, on the last day of the month, participating in a strike, and the individual's needs shall not be considered in determining eligibility for Medicaid for the family if, on the last day of the month, the individual is participating in a strike. A strike shall include a concerted stoppage of work by employees (including a stoppage by reason of expiration of a collective bargaining agreement) and any concerted slowdown or other concerted interruption of operations by employees.
(15) A caretaker relative (but not a child) removed from a family related Medicaid only case due to failure to meet a technical eligibility requirement shall not be eligible for Medicaid as a medically needy individual unless the individual is separately eligible for medical assistance without regard to eligibility as a member of the group from which the individual has been removed; and
(16) A caretaker relative, but not a child, who is ineligible for K- TAP benefits for failure to comply with K-TAP work requirements shall not be eligible for medical assistance unless the individual is eligible as a pregnant woman.

Section 7. Emergency Shelters. An individual or family group who is in an emergency shelter for a temporary period of time shall be eligible for medical assistance even though the shelter is considered a public institution under certain conditions. These conditions shall be as follows:
(1) The individual or family group shall:
(a) Be a resident of an emergency shelter no more than six (6) months in any nine (9) month period; and
(b) Not be in the facility serving a sentence imposed by the court, or awaiting trial; and
(2) Eligibility for Medicaid shall have existed immediately prior to admittance to the shelter, or it shall exist immediately after leaving the shelter.

Section 8. Application for Other Benefits. (1) As a condition of eligibility for Medicaid, an applicant or recipient shall apply for each annuity, pension, retirement, and disability benefit to which he is entitled, unless he can show good cause for not doing so.
(a) Good cause shall be considered to exist if other benefits have previously been denied with no change of circumstances, or the individual does not meet all eligibility conditions.
(b) Annuities, pensions, retirement, and disability benefits shall include:
1. Veterans' compensations and pensions;
2. Retirement and survivors disability insurance benefits;
3. Railroad retirement benefits;
4. Unemployment compensation; and

(b) The applicant or recipient believes that applying for the benefit would be to his disadvantage.
(3) An individual who would be eligible for supplemental security income (SSI) but has not made application shall not be eligible for Medicaid.

Section 9. Assignment of Rights to Medical Support. By accepting assistance for or on behalf of a child, a recipient shall be deemed to have made an assignment to the Cabinet for Health and Family Services of any medical support owed for the child not to exceed the amount of Medicaid payments made on behalf of the recipient.

Section 10. Third-party Liability as a Condition of Eligibility. (16) Except as provided in subsection (3) of this section, an individual applying for or receiving Medicaid shall be required as a condition of eligibility to cooperate with the Cabinet for Health and Family Services in identifying, and providing information to assist the cabinet in pursuing, any third party who may be liable to pay for care or services available under the Medicaid program unless the individual has good cause for refusing to cooperate.
(b) Good cause for failing to cooperate shall exist if cooperation:
1. Could result in physical or emotional harm of a serious nature to a child or custodial parent;
2. Is not in a child's best interest because the child was conceived as a result of rape or incest; or
3. May interfere with adoption considerations or proceedings.

Section 11. Provision of Social Security Numbers. (1) Except as provided in subsections (2) and (3) of this section, an applicant or recipient of Medicaid shall provide a social security number as a condition of eligibility.
(2) An individual shall not be denied eligibility or discontinued from eligibility due to a delay in receipt of a social security number from the Social Security Administration if appropriate application for the number has been made.
(3) If the parent or caretaker relative and the child, unless the child is a deemed eligible newborn, refuses to cooperate with obtaining a social security number for the newborn child or other dependent child, the parent or caretaker relative shall be ineligible due to failure to meet technical requirements.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact: Stuart Owen 502 564-6204 or Lee Lee 502 564-6890
(1) Provide a brief summary of:
(2) What this administrative regulation does: This administrative regulation establishes provisions related to technical eligibility requirements for Medicaid recipients.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish provisions related to technical eligibility requirements for Medicaid recipients.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing provisions related to technical eligibility requirements for Medicaid recipients.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing provisions related to technical eligibility requirements for Medicaid recipients.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment results from a congressional initiative to encourage states to adopt the option of allowing individuals with disabilities to purchase Medicaid coverage that is necessary to enable such individuals to maintain employment. The Initiative creates a new Medicaid eligibility group known as Medicaid individuals. Currently, individuals receiving Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI) who choose to work, lose Medicaid health benefits because their income exceeds the allowable limit. This Initiative will allow individuals with disabilities who choose to work and whose income is less than or equal to 250% of the federal poverty level the opportunity to purchase Medicaid coverage by paying a premium. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid waiver option they will simply pay a monthly premium and not have to continue return-

ing to a local office to qualify via spend down. Additionally, this
option allows individuals to increase their expendable income by
working and maintaining Medicaid eligibility rather than having to
choose between working and preserving Medicaid benefits.
(b) The necessity of the amendment to this administrative
regulation: There is a need to extend Medicaid cov-
erage to individuals with disabilities who work. Currently individuals
who qualify via a spend down option receive benefits for three (3)
months and then have to return to a local office and re-apply each
time they desire a spend down eligibility card. If these individuals
elect to be covered via the Medicaid works option they will simply
pay a monthly premium and not have to continue returning to a
local office to qualify via spend down. Additionally, this option al-
lores individuals to increase their expendable income by working
and maintaining Medicaid eligibility rather than having to choose
between working and preserving Medicaid benefits.
(c) How the amendment conforms to the content of the author-
izing statutes: This amendment conforms to the content of the
authorizing statutes by ensuring that provisions relating to eligibility
requirements are within the limits established in 42 U.S.C.
1396a(a)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f), 42
(d) How the amendment will assist in the effective administra-
tion of the statutes: This amendment will assist in the effective
administration of the authorizing statutes by ensuring that provi-
sions relating to eligibility requirements are within the limits estab-
lished in 42 U.S.C. 1396a(a)(2) and 42 U.S.C. 1396a(a)(10), 42
(e) List the type and number of individuals, businesses, organi-
zations, or state and local government affected by this adminis-
trative regulation: This administrative regulation will affect indi-
viduals with disabilities between the ages of sixteen (16) and sixty-five (65)
who choose to work and whose income is less than or equal to
250% of the federal poverty level.
(f) An analysis of how the entities identified in question (3)
will be impacted by either the implementation of this adminis-
trative regulation, if new, or by the change, if it is an amendment,
including:
(a) List the actions that each of the regulated entities identified in
question (3) will have to take to comply with this administrative
regulation or amendment. Individuals choosing Medicaid coverage
via this option must pay a monthly premium in order to receive
benefits under this program. In addition, recipients must pay nomi-
cial copayments for specified services.
(b) In complying with this administrative regulation or amend-
ment, how much will it cost each of the entities identified in ques-
tion (3). Members eligible via the Medicaid works option will be
subsidized for pharmacy and medical benefits through the
Medicaid program. Currently individuals who qualify via a
spend down option receive benefits for three (3) months and then
have to return to a local office and re-apply each time they desire a
spend down eligibility card. If these individuals elect to be covered
via the Medicaid works option they will simply pay a monthly premi-
num and not have to continue returning to a local office to qualify
via spend down. Additionally, this option allows individuals to in-
crease their expendable income by working and maintaining Medi-
caid eligibility rather than having to choose between working and
preserving Medicaid benefits.
(g) Provide an estimate of how much it will cost to implement
this administrative regulation:
(a) Initially: The Department for Medicaid Services (DMS) an-
ticipates that the system modifications will cost $36,275.
(b) On a continuing basis: DMS anticipates medical and phar-
aceutical costs to be approximately $912,000 during the first
year; however, this amount will be offset by cost sharing in the
form of premiums totaling $108,000. Additionally, DMS anticipates
that sixty-five (65) percent of recipients expected to enroll for cov-
erage via the Medicaid works option will already be enrolled in
another Medicaid Program. Considering all factors, DMS projects
total annual costs to be $211,200, of which $147,840 would be
federal funds.
(h) What is the source of the funding to be used for the im-
plementation and enforcement of this administrative regulation: The
sources of revenue to be used for implementation and enforcement
of this administrative regulation are federal funds authorized under
Title XIX of the Social Security Act, matching funds from general
fund appropriations, and monthly premium payments made by
recipients participating in the program.
(i) Provide an assessment of whether an increase in fees or
funding will be necessary to implement this administrative regula-
tion, if new, or by the change if it is an amendment: No increase in
funding will be necessary as DMS anticipates any increased cost
will be absorbed within the existing Medicaid budget.
(j) State whether or not this administrative regulation estab-
lishes any fees or directly or indirectly increases any fees: This
amendment establishes monthly premium fees for recipients eligi-
ble via the Medicaid works option.
(k) Tiering: Is tiering applied? Tiering is applied to monthly
premium amounts. The monthly premium is based on income
brackets in order to make the program affordable to individuals in
the lower income brackets. Recipients whose monthly income is
below 100% of the federal poverty level will pay no premium while
recipients above this level will vary with each increase of fifty (50)
percent or more.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal man-
date
The Centers for Medicare and Medicaid Services (CMS) does not
mandate that state Medicaid programs cover working individuals
who are disabled, however, relevant provisions for states who
choose to offer this coverage are established in 42 U.S.C.
1396a(a)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f),

2. State compliance standards. KRS 205.520(3) authorizes the
cabinet, by administrative regulation, to comply with a require-
ment that may be imposed or opportunity presented by federal law for
the provision of medical assistance to Kentucky's indigent citizen.

3. Minimum or uniform standards contained in the federal
mandate. CMS does not mandate that state Medicaid programs
cover working individuals who are disabled; however, relevant
provisions for states who choose to offer this coverage are estab-
lished in 42 U.S.C. 1396a(a)(2) and 42 U.S.C. 1396a(a)(10), 42
U.S.C. 1396b(f) and 42 U.S.C. 1396d(q)(2)(B), and Pub.L. 106-
170. Provisions established in this administrative regulation con-
form to the federal requirements.

4. Will this administrative regulation impose stricter require-
ments, or additional or different responsibilities or requirements,
than those required by the federal mandate? This administrative
regulation does not impose stricter, than federal, requirements.

5. Justification for the imposition of the stricter standard, or
additional or different responsibilities or requirements. This adminis-
trative regulation does not impose stricter, than federal, require-
ments.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program,
service, or requirements of a state or local government (including
cities, counties, fire departments or school districts)? Yes
2. What units, parts or divisions of state or local government
(including cities, counties, fire departments, or school districts) will
be impacted by this administrative regulation? This amendment
will affect an organization that chooses to hire an individual with a
disability.
3. Identify each state or federal regulation that requires or au-
thorizes the action taken by the administrative regulation. Relevant
provisions for states who choose to offer this coverage are estab-
lished in 42 U.S.C.1396a(a)(2) and 42 U.S.C. 1396a(a)(10), 42
- 1640 -
U.S.C. 1396b(f) and 42 U.S.C. d(q)(2)(B), and Pub.L. 106-170. KRS 205.520(3) authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky's indigent citizenry.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amount of revenue this administrative regulation will generate for state or local government is contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of worked per individual and the rate of pay each receives.

(b) How much will it cost to administer this program for the first year? The Department for Medicaid Services (DMS) anticipates that the Medicaid Management Information System (MMIS) modifications associated with this initiative will cost approximately $360,000.

(c) How much will it cost to administer this program for subsequent years? DMS anticipates the enhanced coverage may result in additional cost; however, the measures are necessary to enhance access to health services. DMS anticipates medical and pharmaceutical costs to be approximately $912,000 during the first year. However, this amount will be offset by cost sharing in the form of premiums totaling $108,000. In addition, research shows that sixty-five (65) percent of individuals expected to participate in this option were already enrolled in another Medicaid Program. DMS anticipates offsets in premiums and, due to the fact that approximately sixty-five (65) percent of recipients in this program would move from another Medicaid program, total annual costs are expected to be $211,250, of which $147,640 would be federal funds.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact: Stuart Owen (502) 564-6204 or Lisa Lee (502) 564-6890
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes cost-sharing provisions for Medicaid and Kentucky Children’s Health Insurance Program (KCHIP) recipients.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish cost-sharing provisions for Medicaid and KCHIP recipients.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of KRS 205.6312(5) and Pub L. 109-171 (aka the Deficit Reduction Act of 2005) by establishing cost-sharing procedures regarding Medicaid and KCHIP recipients.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation currently assists and will continue to assist in the effective administration of the authorizing statutes by establishing the cost-sharing provisions related to Medicaid and KCHIP recipients.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(e) How the amendment will change this existing administrative regulation: This amendment results from a congressional initiative to encourage states to adopt the option of allowing individuals with disabilities to purchase Medicaid coverage that is necessary to establish individual individuals to maintain employment. The initiative creates a new Medicaid eligibility group known as Medicaid works individuals. Currently, individuals receiving Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI) who choose to work, lose Medicaid health benefits because their income exceeds the allowable limit. This initiative will allow individuals with disabilities who choose to work and whose income is less than or equal to 250% of the federal poverty level the opportunity to purchase Medicaid coverage by paying a premium. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits. The amendment also establishes premiums which are tiered based on federal poverty levels. In addition to establishing Medicaid works policy this administrative regulation corrects a prior inadvertent mistake by eliminating the ophthalmological and optometric office visit cost sharing for the comprehensive choic and optimum choices individuals.
(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to extend Medicaid coverage to individuals with disabilities who work. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits. The amendment also establishes premiums which are tiered based on federal poverty levels. In addition to establishing Medicaid works policy this administrative regulation corrects a prior inadvertent mistake by eliminating the ophthalmological and optometric office visit cost sharing for the comprehensive choic and optimum choices individuals.
(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(a)(1) and 42 U.S.C. 1396b(a)(1), 42 U.S.C. 1396d(q)(2)(B) and Pub L. 105-170.
(d) How the amendment will assist in the effective administration of the statutes: This amendment will assist in the effective administration of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(a)(1) and 42 U.S.C. 1396a(a)(1), 42 U.S.C. 1396b(a), 42 U.S.C. 1396d(q)(2)(B) and Pub L. 105-170.
(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This administrative regulation will affect individuals with disabilities between the ages of sixteen (16) and sixty-five (65) who choose to work and whose income is less than or equal to 250% of the federal poverty level.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Individuals choosing Medicaid coverage via the Medicaid works eligibility option must pay a monthly premium in order to receive benefits under this program. In addition, recipients must pay nominal copayments for specified services.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? Members eligible via the Medicaid works option will be subject to pharmacy and medical copayments that are capped at - 1664 -
$225 each per year per recipient. Therefore, recipients the maximum amount of co-payments per recipient will be $450 per year. In addition, recipients will be responsible for a monthly premium based on income levels. Premiums range from thirty-five (35) dollars for single recipients to ninety-five (95) dollars for family recipients.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Individuals eligible via the Medicaid works option will receive pharmacy and medical benefits through the Medicaid program. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits.

The provider of an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS) anticipates that the system modifications will cost $36,275.

(b) On a continuing basis: DMS anticipates medical and pharmaceutical costs to be approximately $392,000 during the first year; however, this amount will be offset by cost sharing in the form of premiums totaling $50,000. Additionally, DMS anticipates that thirty-five (35) percent of recipients expected to enroll for coverage via the Medicaid works option will already be enrolled in another Medicaid program. Considering all factors, DMS projects total annual costs to be $211,800, of which $147,840 would be federal funds.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Federal funds authorized under the Social Security Act, Title XIX, and matching funds of general fund appropriations and collections will be used to fund the implementation and enforcement of this administrative regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if now, or by the change if it is an amendment. No increase in funding will be necessary as DMS anticipates any increased cost will be absorbed within the existing Medicaid budget.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation increases and imposes certain designated cost-sharing requirements.

(9) Tiering: Is being applied? This administrative regulation includes tiering in order to tailor the cost-sharing provisions to individual medical needs and circumstances and to assist in transforming the Medicaid program in conjunction with a related administration regulation 907 KAR 1:900 (KyHealth Choices Benefit Packages). The transformed program provides innovative opportunities to Medicaid and Kentucky Children's Health Insurance Program (KCHIP) beneficiaries which will promote healthy lifestyles, personal accountability and responsible program governance for a healthier Commonwealth.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. Pursuant to 42 U.S.C. 1396a et. seq., the Commonwealth of Kentucky has exercised the option to establish a Medicaid Program for Indigent Kentuckians. Having elected to offer Medicaid coverage, the state must comply with federal requirements contained in 42 U.S.C. 1396 et. seq. This administrative regulation complies with federal statutes and regulations, including Pub.L. 109-171, governing the Medicaid program including the domain of recipient cost sharing.

2. State compliance standards. This administrative regulation complies with KRS 205 6312(5) by establishing cost-sharing provisions for Medicaid recipients, their spouses, or parents, under the provisions of Section 1916 of Title XIX of the Federal Social Security Act, 42 U.S.C. sec. 1396a. This administrative regulation complies with KRS 205 6480(1) by establishing the premium contribution per family of health insurance coverage available under the Kentucky Children's Health Insurance Program.

3. Minimum or uniform standards contained in the federal mandate. This administrative regulation establishes cost-sharing provisions for Medicaid recipients, their spouses, or parents, under the provisions of Section 1916 of Title XIX of the Federal Social Security Act, 42 U.S.C. sec. 1396a, and Public Law 109-171.4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The amendment is necessary to assist in transforming the Medicaid Program in conjunction with a related administration regulation 907 KAR 1:900 (KyHealth Choices Benefit Packages). This action is necessary to maintain the viability of the Medicaid Program, to render it better oriented to recipient individual needs while best utilizing the resources available to the Medicaid Program.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This amendment will affect an organization that chooses to hire an individual with a disability.

3. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. Relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(h)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f) and 42 U.S.C. d(q)(2)(B) and Pub.L. 106-170. KRS 205.520(3) authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky's indigent citizen.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amount of revenue this administrative regulation will generate for state or local government is contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of worked per individual and the rate of pay each receives.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amount of revenue this administrative regulation will generate for state or local government is contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of worked per individual and the rate of pay each receives.

(c) How much will it cost to administer this program for the first year? The Department for Medicaid Services (DMS) anticipates the enhanced coverage may result in additional cost; however, the measures are necessary to enhance access to health services. DMS anticipates medical and pharmaceutical costs to be approximately $392,000 during the first year. However, this amount will be offset by cost sharing in the form of premiums totaling $50,000. In addition, research shows that thirty-five (35) percent of individuals expected to participate in this option were already
enrolled in another Medicaid program. DMS anticipates offsets in premiums and, due to the fact that approximately sixty-five (65) percent of recipients in this program would move from another Medicaid Program, total annual costs are expected to be $211,200, of which $147,840 would be federal funds.

(d) How much will it cost to administer this program for subsequent years? DMS anticipates the enhanced coverage may result in additional cost; however, the measures are necessary to enhance access to health services. DMS anticipates medical and pharmaceutical costs to be approximately $912,000 during the first year. However, this amount will be offset by cost sharing in the form of premiums totaling $108,000. In addition, research shows that sixty-five (65) percent of individuals expected to participate in this option were already enrolled in another Medicaid Program. DMS anticipates offsets in premiums and, due to the fact that approximately sixty-five (65) percent of recipients in this program would move from another Medicaid program, total annual costs are expected to be $211,200, of which $147,840 would be federal funds.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen (502) 564-6204 or Lisa Lee (502) 564-6690

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes provisions related to Medicaid eligibility income standards.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish provisions related to Medicaid eligibility income standards.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing provisions related to Medicaid eligibility income standards.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment results from a congressional initiative to encourage states to adopt the option of allowing individuals with disabilities to purchase Medicaid coverage that is necessary to enable such individuals to maintain employment. The initiative creates a new Medicaid eligibility group known as Medicaid works individuals. Currently, individuals receiving Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI) who choose to work, lose Medicaid health benefits because their income exceeds the allowable limit. This initiative will allow individuals with disabilities who choose to work and whose income is less than or equal to 250% of the federal poverty level the opportunity to purchase Medicaid coverage by paying a premium. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and re-apply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their spend-down benefits through working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits. The special income factors established in this administrative regulation for Medicaid works individuals exceed those established for other recipients and result from a review of other states' standards as well as feedback from the advocate community.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to extend Medicaid coverage to individuals with disabilities who work. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and re-apply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their spend-down benefits through working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits. The special income factors established in this administrative regulation for Medicaid works individuals exceed those established for other recipients and result from a review of other states' standards as well as feedback from the advocate community.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(j)(2) and 1396a(q)(10), 1396b(f), 1396d(q)(2)(B), and Pub.L. 105-170.

(d) How the amendment will assist in the effective administration of the statutes: This amendment will assist in the effective administration of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(j)(2) and 1396a(q)(10), 1396b(f), 1396d(q)(2)(B), and Pub.L. 105-170.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This administrative regulation will affect individuals with disabilities between the ages of sixteen (16) and sixty-five (65) who choose to work and whose income is less than or equal to 250% of the federal poverty level.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Individuals choosing Medicaid coverage via this option must pay a monthly premium in order to receive benefits under this program. In addition, recipients must pay nominal copayments for specified services.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? Members eligible under the Medicaid works option will be subject to pharmacy and medical copayments that are capped at $225 each year per recipient. Therefore, the maximum amount of copayments per recipient will be $450 per year. In addition, recipients will be responsible for a monthly premium based on income levels. Premiums range from thirty-five (35) dollars to fifty-five (55) dollars.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? Individuals eligible via the Medicaid works option will receive pharmacy and medical benefits through the Medicaid program. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and re-apply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their spend-down benefits through working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits. The special income factors established in this administrative regulation for Medicaid works individuals exceed those established for other recipients and result from a review of other states' standards as well as feedback from the advocate community.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS) anticipates that the system modifications will cost $36,275.

(b) On a continuing basis: DMS anticipates medical and phar-
maceutical costs to be approximately $912,000 during the first year; however, this amount will be offset by cost sharing in the form of premiums totaling $108,000. Additionally, DMS anticipates that sixty-five (65) percent of recipients expected to enroll for coverage via the Medicaid work option will already be enrolled in another Medicaid Program. Considering all factors, DMS projects total annual costs to be $211,200, of which $147,840 would be federal funds.

(5) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation? The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal, state, and program funds. Title XXIX of the Social Security Act, matching funds from general fund appropriations, and monthly premium payments made by recipients participating in the program.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. No increase in funding will be necessary as DMS anticipates any increased cost will be absorbed within the existing Medicaid budget.

(9) Tiering: Is tiering applied? Tiering is applied to monthly premium amounts. The monthly premium is based on income brackets in order to make the program available to individuals in higher income brackets. Recipients whose monthly income is below 100% of the federal poverty level will pay no premium while recipients above this level will vary with each increase of fifty (50) percent or more.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. The Centers for Medicare and Medicaid Services (CMS) does not mandate that state Medicaid programs cover working individuals who are disabled; however, relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(r)(2) and 42 U.S.C. 1396a(t)(10), 42 U.S.C. 1396b(f), 42 U.S.C. 1396d(q)(2)(B), and Pub L. 106-170.

2. State compliance standards. KRS 205.520(3) authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky's indigent citizenry.

3. Minimum or uniform standards contained in the federal mandate. CMS does not mandate that state Medicaid programs cover working individuals who are disabled; however, relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(r)(2) and 42 U.S.C. 1396a(t)(10), 42 U.S.C. 1396b(f), 42 U.S.C. 1396d(q)(2)(B), and Pub L. 106-170. Provisions established in this administrative regulation conform to the federal requirements.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not impose stricter, than federal, requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. This administrative regulation does not impose stricter, than federal, requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This amendment will affect an organization that chooses to hire an Individual with a disability.

3. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. Relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(r)(2) and 42 U.S.C. 1396a(t)(10), 42 U.S.C. 1396b(f), 42 U.S.C. 1396d(q)(2)(B), and Pub L. 106-170. KRS 205.520(3) authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky's indigent citizenry.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is in effect. The amount of revenue this administrative regulation will generate for state or local government is contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of worked per individual and the rate of pay each receives.

5. How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amount of revenue this administrative regulation will generate for state or local government is contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of worked per individual and the rate of pay each receives.

6. How much will it cost to administer this program for the first year? The Department for Medical Services (DMS) anticipates that the Medicaid Management Information System (MMIS) modifications associated with this initiative will cost approximately $36,275.

7. How much will it cost to administer this program for subsequent years? DMS anticipates the enhanced coverage may result in additional cost; however, the measures are necessary to enhance access to health services. DMS anticipates medical and pharmaceutical costs to be approximately $912,000 during the first year. However, this amount will be offset by cost sharing in the form of premiums totaling $108,000. In addition, research shows that sixty-five (65) percent of individuals expected to participate in this option were already enrolled in another Medicaid Program. DMS anticipates offsets in premiums and, due to the fact that approximately sixty-five (65) percent of recipients in this program would move from another Medicaid program, total annual costs are expected to be $211,200, of which $147,840 would be federal funds.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

          ation.

          to repair or replace the excluded resource within nine (9) months
          of the date of receipt.
      (12) A life interest that a Medicaid applicant or recipient has in

         (b) its sale is barred by a legal impediment; or
         (c) The owner's reasonable efforts to sell by informing the pub-

          being held at the beginning of the second month following its re-
          cept, it shall be considered a resource.

          or a retroactive payment of benefits from retirement, survivors,
          and disability insurance (RSDI) benefits or SSI shall be excluded as
          a resource for the first six (6) months following the month in which
          the amount is received.
      (16) A federal Republic of Germany reparation payment shall not
          be considered as an available resource.
      (17) An amount received from a victim's compensation fund
          established by a state to aid victims of crime shall be:
         (a) Completely excluded as a resource if the individual can
              show that the amount was paid as compensation for expenses
              incurred or losses suffered as a result of a crime; or
         (b) Excluded as a resource for nine (9) months if the individual
              can show that the amount was paid for pain and suffering.
      (18) An Austrian social insurance payment based on a wage
          credit granted under Sections 500-506 of the Austrian General
          Social Insurance Act shall be excluded from resource considera-

      (19) An individual retirement account, Keogh plan, or other tax
          deferred asset shall be excluded as a resource until withdrawn.
      (20) A payment made from a fund established by a settlement
          in the case of Susan Walker v. Bayer Corporation or payment
          made for release of claims in this action shall be excluded from
          consideration as an available resource.
      (21) A payment received from a class action lawsuit entitled
          "Factor VIII or IX Concentrate Blood Products Litigation" shall be
          excluded from consideration as an available resource.
      (22) An annuity that is irrevocable and cannot be sold or trans-
          ferred shall be excluded from consideration as a resource.

Section 4. Resource Exemptions. (1) A resource which is ex-
empted from consideration for purposes of computing eligibility for
the SSI Program shall be exempted from consideration by the de-
partment.
(2) For an AFDC-related or a family-related Medicaid case, all
nonliquid resources shall be exempted.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact: Stuart Owen (502) 564-6204 or Lisa Lee (502) 564-6890

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes provisions related to Medicaid eligibility resource standards.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish provisions related to Medicaid eligibility resource standards.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing provisions related to Medicaid eligibility resource standards.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing provisions related to Medicaid eligibility resource standards.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment results from a congressional initiative to encourage states to adopt the option of allowing individuals with disabilities to purchase Medicaid coverage that is necessary to enable such individuals to maintain employment. The initiative creates a new Medicaid eligibility group known as Medicaid works individuals. Currently, Individuals receiving Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI) who choose to work, lose Medicaid health benefits because their income exceeds the allowable limit. The initiative will allow individuals with disabilities who choose to work and whose income is less than or equal to 250% of the federal poverty level the opportunity to purchase Medicaid coverage by paying a premium. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits. The resource standards established in this administrative regulation for Medicaid works individuals exceed those established for other recipients and result from a review of other states’ standards as well as feedback from the advocate community.
(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to extend Medicaid coverage to individuals with disabilities who work. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits. The resource standards established in this administrative regulation for Medicaid works individuals exceed those established for other recipients and result from a review of other states’ standards as well as feedback from the advocate community.
(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(j)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f), 42 U.S.C. 1396d(q)(2)(B), and Pub.L. 106-170. The amendment will assist in the effective administration of the statutes: This amendment will assist in the effective administration of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(j)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f), 42 U.S.C. 1396d(q)(2)(B), and Pub.L. 106-170.

(3) List the type and names of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This administrative regulation will affect individuals with disabilities between the ages of sixteen (16) and sixty-five (65) who choose to work and whose income is less than or equal to 250% of the federal poverty level.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Individuals choosing Medicaid coverage via this option must pay a monthly premium in order to receive benefits under this program. In addition, recipients must pay nominal copayments for specified services.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). Members eligible via the Medicaid works option will be subject to pharmacy and medical copayments that are capped at $225 each per year per recipient. Therefore, recipients the maximum amount of co-payments per recipient with $450 per year. In addition, recipients will be responsible for a monthly premium based on income levels. Premiums range from thirty-five (35) dollars to fifty-five (55) dollars.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Individuals eligible via the Medicaid works option will receive pharmacy and medical benefits through the Medicaid program. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits. The resource standards established in this administrative regulation for Medicaid works individuals exceed those established for other recipients and result from a review of other states’ standards as well as feedback from the advocate community.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: The Department for Medicaid Services (DMS) anticipates that the system modifications will cost $36,275.
(b) On a continuing basis: DMS anticipates medical and pharmaceutical costs to be approximately $912,000 during the first year; however, this amount will be offset by cost sharing in the form of premiums totaling $108,000. Additionally, DMS anticipates that sixty-five (65) percent of recipients expected to enroll for coverage via the Medicaid works option will already be enrolled in another Medicaid Program. Considering all factors, DMS projects total annual costs to be $211,200, of which $147,840 would be federal funds.
(c) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act, matching funds from general fund appropriations, and monthly premium payments made by recipients participating in the program.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in funding will be necessary as DMS anticipates any increased cost will be absorbed within the existing Medicaid budget.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This amendment establishes monthly premium fees for recipients eligible via the Medicaid works option.
FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate.
   The Centers for Medicare and Medicaid Services (CMS) does not mandate that state Medicaid programs cover working individuals who are disabled; however, relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(l)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f), 42 U.S.C. 1396d(q)(2)(B) and Public Law 106-170.

2. State compliance standards. KRS 205.520(9) authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky’s Indigent citizenry.

3. Minimum or uniform standards contained in the federal mandate. CMS does not mandate that state Medicaid programs cover working individuals who are disabled; however, relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(l)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f) and 42 U.S.C. 1396d(q)(2)(B), and Pub.L. 106-170 Provisions established in this administrative regulation conform to the federal requirements.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not impose stricter, than federal, requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. This administrative regulation does impose stricter, than federal, requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This amendment will affect an organization that chooses to hire an individual with a disability.

3. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. Relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(l)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f) and 42 U.S.C. 1396d(q)(2)(B), and Pub.L. 106-170. KRS 205.520(3) authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky’s Indigent citizenry.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amount of revenue this administrative regulation will generate for state or local government is contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of worked per individual and the rate of pay each receives.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amount of revenue this administrative regulation will generate for state or local government is contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of worked per individual and the rate of pay each receives.

(c) How much will it cost to administer this program for the first year? The Department for Medicaid Services (DMS) anticipates that the Medicaid Management Information System (MMIS) modifications associated with this initiative will cost approximately $36,275.

(d) How much will it cost to administer this program for subsequent years? DMS anticipates the enhanced coverage may result in additional cost; however, the measures are necessary to enhance access to health services. DMS anticipates medical and pharmaceutical costs to be approximately $912,000 during the first year. However, this amount will be offset by cost sharing in the form of premiums totaling $106,000. In addition, research shows that sixty-five (65) percent of individuals expected to participate in this option were already enrolled in another Medicaid program. DMS anticipates offsets in premiums and, due to the fact that approximately sixty-five (65) percent of recipients in this program would move from another Medicaid program, total annual costs are expected to be $211,200, of which $147,800 would be federal funds.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes provisions related to KyHealth Choices benefit plans.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish provisions related to KyHealth Choices benefit plans.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing provisions related to KyHealth Choices benefit plans.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing provisions related to KyHealth Choices benefit plans.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment results from a congressional initiative to encourage states to adopt the option of allowing individuals with disabilities to purchase Medicaid coverage that is necessary to enable such individuals to maintain employment. The Iniative creates a new Medicaid eligibility group known as Medicaid works individuals. Currently, individuals receiving Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI) who cannot work, lose Medicaid health benefits because their income exceeds the allowable limit. This initiative will allow individuals with disabilities who choose to work and whose income is less than or equal to 250% of the federal poverty level the opportunity to purchase Medicaid coverage by paying a premium. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and re-apply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their spendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits.
(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to extend Medicaid coverage to individuals with disabilities who work. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and re-apply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their spendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits.
(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes by requiring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(a)(2) and 42 1396a(a)(10), 42 1396b(f), 42 1396d(q)(2)(B), and Pub. L. 106-170.
(d) How the amendment will assist in the effective administration of the statutes: This amendment will assist in the effective administration of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(a)(2) and 42 1396a(a)(10), 42 1396b(f), 42 1396d(q)(2)(B) and Pub. L. 106-170.
(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This administrative regulation will affect individuals with disabilities between the ages of sixteen (16) and sixty-five (65) who choose to work and whose income is less than or equal to 250% of the federal poverty level.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Individuals choosing Medicaid coverage via this option must pay a monthly premium in order to receive benefits under this program. In addition, recipients must pay nominal co-payments for specified services.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? Members eligible via the Medicaid works option will be subject to pharmacy and medical co-payments that are capped at $225 each per year per recipient. Therefore, recipients the maximum amount of co-payments per recipient will be $450 per year. In addition, recipients will be responsible for a monthly premium based on income levels. Premiums range from thirty-five (35) dollars to fifty-five (55) dollars.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? Individuals eligible via the Medicaid works option will receive pharmacy and medical benefits through the Medicaid program. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and re-apply each time they desire a spend down eligibility card. If these individuals elect to be covered

via the Medicaid works option they will simply pay a monthly premium and not have to return to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS) anticipates that the system modifications will cost $36,275.

(b) On a continuing basis: DMS anticipates medical and pharmaceutical costs to be approximately $312,000 during the first year; however, this amount will be offset by cost sharing in the form of premiums totaling $108,000. Additionally, DMS anticipates that sixty-five (65) percent of recipients expected to enroll for coverage via the Medicaid works option will already be enrolled in another Medicaid program. Considering all factors, DMS projects total annual costs to be $211,800, of which $147,840 would be federal funds.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation? The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act, matching funds from general fund appropriations, and monthly premium payments made by recipients participating in the program.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if now, or by the change if it is an amendment: No increase in funding will be necessary as DMS anticipates any increased cost will be absorbed within the existing Medicaid budget.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This amendment establishes monthly premium fees for recipients eligible via the Medicaid works option.

(9) Tiering: Is tiering applied? Tiering is applied to monthly premium amounts. The monthly premium is based on income brackets in order to make the program affordable to individuals in the lower income brackets. Recipients whose monthly income is below 100% of the federal poverty level will pay no premium while recipients above this level will vary with each increase of fifty (50) percent or more.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. The Center for Medicare and Medicaid Services (CMS) does not mandate that state Medicaid programs cover working individuals who are disabled, however, relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(r)(2) and 1396a(a)(10), 1396b(i), 1396d(q)(2)(B) and Pub.L. 106-170.

2. State compliance standards. KRS 205.520(3) authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky's indigent citizenry.

3. Minimum or uniform standards contained in the federal mandate. CMS does not mandate that state Medicaid programs cover working individuals who are disabled; however, relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(r)(2) and 1396a(a)(10), 1396b(i), 1396d(q)(2)(B) and Pub.L. 106-170. Provisions established in this administrative regulation conform to the federal requirements.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not impose stricter, than federal, requirements.

5. Justification for the imposition of the stricter standards, or additional or different responsibilities or requirements. This administrative regulation does not impose stricter, than federal, requirements.

STATEMENT OF EMERGENCY
921 KAR 2:015E

This emergency administrative regulation is necessary to change the standards for all levels of care for the State Supplementation Program due to the federal and states agreements to
pass through the Supplemental Security Income 2008 cost of living adjustment, an increase of two and three-tenths (2.3) percent. This administrative regulation is needed to comply with the agreement the Commonwealth of Kentucky has with the U.S. Department of Health and Human Services to pass along any cost of living adjustments in Supplemental Security Income benefits to State Supplementation Program recipients. Failure to comply with this agreement jeopardizes the state’s Medicaid funds pursuant to 20 C.F.R. 416.2099. The Social Security Administration notified the Department for Community Based Services of the amount of the Supplemental Security Income cost of living adjustment in October 2007. An ordinary administrative regulation would not allow the agency sufficient time to have an administrative regulation in place in order to revise the payment standards effective January 1, 2008. This emergency administrative regulation shall be replaced by an ordinary administrative regulation. The ordinary administrative regulation is identical to this emergency administrative regulation.

921 KAR 2:015E. Supplemental programs for persons who are aged, blind, or have a disability.

(1) Approval of a program shall be through the program process established in Section 11 of this administrative regulation except that a new program not submitted during the regular accreditation cycle or a program substantively revised since submission during the accreditation process shall be submitted for approval by the EPSB prior to admission of a student to the program.

(2) For a new or substantially revised program, the EPSB shall consider a recommendation by staff, including review by the Continuous Assessment Review Committee, Content Program Review
Committee, and the Reading Committee.

1. Approval;
2. Denial of approval;
3. Denial of approval, indicating that a serious problem exists which jeopardizes the quality of preparation of school personnel.

(5) The EPSB shall order review of a program if it has cause to believe that the quality of preparation is seriously jeopardized. The review shall be conducted under the criteria and procedures established in the EPSB "Emergency Review of Certification Programs Procedure" policy incorporated by reference. The on-site review shall be conducted by EPSB staff and a Board of Examiners team. The review shall result in a report to which the institution may respond. The review report and institutional response shall be used by the Executive Director of the EPSB as the basis for a recommendation to the full EPSB for:

Section 2. Criteria For Determining A Project Footprint. In accordance with KRS 65.7073(8), 65.7075(5), and 65.7077(8), for each project approved for incentives, the commission shall determine the footprint including both:
(a) [The commission is required by the provisions of KRS 65.7073(4), 65.7075(6), and 65.7077(8) to determine the footprint of each project for purposes of the project footprint is also] The area within which the minimum capital investment required for the Commonwealth participation programs shall be made; and

2. Purely private development is not combined with independent, purely public infrastructure development that would have likely occurred without incentives for the purpose of creating a source of recovery for the private development.
(d)(b) In making this determination of a discrete footprint, the commission shall consider whether:
1. The proposed capital investments and areas included in the proposed footprint have a common thematic linkage, other than general economic development, between or among the discrete items of capital investment that has been centrally managed or coordinated to result in a unified economic impact; and
2. The project(s) taken in its entirety would not be feasible or complete without any of the discrete items of capital investment that are aggregated as part of the proposed footprint.
(3)(c) Incremental revenues.
(a) For revenues to be included as incremental revenues, the taxable activity shall occur within the footprint, and the new revenues shall be reasonably and directly related to the capital investments made.
(b) The purpose of tax increment financing shall be to allow for the pledge of revenues generated through capital improvements to support the development of those capital improvements.
(c) Therefore, in pledging incremental revenues, the commission shall:
1. Consider whether proposed capital improvements will reasonably result in increased revenues; and
2. Pledge only those incremental revenues that it determines are reasonably generated as a result of the proposed capital investment.

(a) How the amendment will change this existing administrative regulation: This amendment results from a congressional initiative to encourage states to adopt the option of allowing individuals with disabilities to purchase Medicaid coverage that is necessary to enable such Individuals to maintain employment. The initiative creates a new Medicaid eligibility group known as Medicaid Individuals. Currently, Individuals receiving Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI) who choose to work, lose Medicaid health benefits because their income exceeds the allowable limit. This initiative will allow individuals with disabilities who choose to work and whose income is less than or equal to 250% of the federal poverty level the opportunity to purchase Medicaid coverage by paying a premium. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they...

will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to extend Medicaid coverage to individuals with disabilities who work. Currently, individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and re-apply each time they desire a spend down eligibility card. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits.

(c) How the amendment conforms to the content of the authorizing statutes. This amendment conforms to the content of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(a)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f), 42 U.S.C. 1396d(c)(2)(B), and Pub.L. 106-170.

(d) How the amendment will assist in the effective administration of the statutes: This amendment will assist in the effective administration of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(1)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f), 42 U.S.C. 1396d(c)(2)(B), and Pub.L. 106-170.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This administrative regulation will affect individuals with disabilities between the ages of sixteen (16) and sixty-five (65) who choose to work and whose income is less than or equal to 250% of the federal poverty level.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Individuals choosing Medicaid coverage via this option must pay a monthly premium in order to receive benefits under this program. In addition, recipients must pay normal copayments for specified services.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)?

(c) What is the anticipated cost to the state Medicaid programs covering working individuals who are disabled, however, relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(1)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f), 42 U.S.C. 1396d(c)(2)(B), and Pub.L. 106-170.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

Additionally, DMS anticipates that sixty-five (65) percent of recipients expected to enroll for coverage via the Medicaid works option will already be enrolled in another Medicaid Program. Currently, all factors. DMS projects total annual costs to be $211,200, of which $147,840 would be federal funds.

What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation is federal funds authorized under Title XIX of the Social Security Act, matching funds from general fund appropriations, and monthly premium payments made by recipients participating in the program.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. No increase in funding will be necessary as DMS anticipates any increased cost will be absorbed within the existing Medicaid budget.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees. This amendment establishes monthly premium fees for recipients eligible via the Medicaid works option.

Tiering: Is tiering applied? Tiering is applied to monthly premium amounts. The monthly premium is based on income brackets in order to make the program affordable to individuals in the lower income brackets. State Medicaid programs are mandated to cover FQHC behavioral health services furnished by clinical psychologists, clinical social workers and nurse practitioners, within their authorized scope of practice, to individuals who are categorically needy or medically needy (if the state Medicaid program has elected to cover federally-qualified health center services to individuals who are medically needy).

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact: Stuart Owen (502) 564-6204 or Lisa Lee (502) 564-6890
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes cost-sharing provisions for Medicaid and Kentucky Children’s Health Insurance Program (KCHIP) recipients.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish cost-sharing provisions for Medicaid and KCHIP recipients.
(c) How the administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of KRS 205.6312(5) and Pub.L. 109-171 (aka the Deficit Reduction Act of 2005) by establishing cost-sharing provisions regarding Medicaid and KCHIP recipients.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment results from a congressional initiative to encourage states to adopt the option of allowing individuals with disabilities to purchase Medicaid coverage that is necessary to enable such individuals to maintain employment. The initiative creates a new Medicaid eligibility group known as Medicaid disabled working individuals.
(b) As a result of compliance, what benefits will accrue to the entities identified in question (3). Individuals eligible via the Medicaid disabled working option will receive pharmacy and medical copayments that are capped at $225 each per year per recipient. Therefore, recipients the maximum amount of co-payments per recipient will be $450 per year. In addition, recipients will be responsible for a monthly premium based on income levels. Premiums range from thirty-five (35) dollars to fifty-five (55) dollars.
(c) How will the administrative regulation affect the expenditure of Medicaid funds: The regulations will result in a decreased expenditure of Medicaid funds through the Medicaid program. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits. The amendment also establishes premiums which are tiered based on federal poverty levels. In addition to establishing Medicaid works policy this administrative regulation corrects a prior inadvertent mistake by eliminating the ophthalmological and optometric office visit cost sharing for the comprehensive choices and optimum choices individuals.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:...
(a) Initially, the Department for Medicaid Services (DMS) anticipates that the system modifications will cost $36,275.

(b) On a continuing basis, DMS anticipates medical and pharmaceutical costs to be approximately $912,000 during the first year; however, this amount will be offset by cost sharing in the form of premiums totaling $108,000. Additionally, DMS anticipates that sixty-five (65) percent of recipients expected to enroll for coverage via the Medicaid works option will already be enrolled in another Medicaid program. Considering all factors, DMS projects total annual costs to be $211,200, of which $147,840 would be federal funds.

(c) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation? Federal funds authorized under the Social Security Act, Title XIX, and matching funds of general fund appropriations and collections will be used to fund the implementation and enforcement of this administrative regulation.

(d) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. No increase in funding will be necessary as DMS anticipates any increased cost will be absorbed within the existing Medicaid budget.

(e) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees. This administrative regulation increases and imposes certain designated cost-sharing requirements.

(f) Is cost sharing or any other fee being charged? This administrative regulation includes tying in order to tailor the cost-sharing provisions to individual medical needs and circumstances and to assist in transforming the Medicaid program in conjunction with a related administration regulation 907 KAR 1:900 (KyHealth Choices Benefit Packages). The transformed program provides innovative opportunities to Medicaid and Kentucky Children’s Health Insurance Program (KCHIP) beneficiaries which will promote healthy lifestyles, personal accountability and responsible program governance for a healthier Commonwealth.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. Pursuant to 42 U.S.C. 1396a et. seq., the Commonwealth of Kentucky has exercised the option to establish a Medicaid Program for indigent Kentuckians. Having elected to offer Medicaid coverage, the state must comply with federal requirements contained in 42 U.S.C. 1396 et. seq. This administrative regulation complies with federal statutes and regulations, including Pub.L. 109-171, governing the Medicaid program including the domain of required cost-sharing.

2. State compliance standards. This administrative regulation complies with KRS 205.6312(5) by establishing cost-sharing provisions for Medicaid recipients, their spouses, or parents, under the provisions of Section 1915 of Title XIX of the Federal Social Security Act, 42 U.S.C. section 1396a. This administrative regulation complies with KRS 205.6465(1) by establishing the premium contribution per family of health insurance coverage available under the Kentucky Children’s Health Insurance Program.

3. Minimum or uniform standards contained in the federal mandate. This administrative regulation establishes cost-sharing provisions for Medicaid recipients, their spouses, or parents, under the provisions of Section 1915 of Title XIX of the Federal Social Security Act, 42 U.S.C. section 1396a, and Public Law 109-171.4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate.

4. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The amendment is necessary to assist in transforming the Medicaid Program in conjunction with a related administration regulation 907 KAR 1:900 (KyHealth Choices Benefit Packages). This action is necessary to maintain the viability of the Medicaid Program to render it better oriented to recipient individual needs while best utilizing the resources available to the Medicaid Program.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This amendment will affect an organization that chooses to hire an individual with a disability.

3. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. Relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(c)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(b) and 42 U.S.C. c(1)(2)(B) and Pub L. 106-170. KRS 205.520(3) authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky’s indigent citizen.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amount of revenue this administrative regulation will generate for state or local government is contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of work performed by each recipient.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amount of revenue this administrative regulation will generate for state or local government is contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of work performed by each recipient.

(c) How much will it cost to administer this program for the first year? The Department for Medicaid Services (DMS) anticipates the enhanced coverage may result in additional cost; however, the measures are necessary to enhance access to health services. DMS anticipates medical and pharmaceutical costs to be approximately $912,000 during the first year. However, this amount will be offset by cost sharing in the form of premiums totaling $108,000. In addition, research shows that sixty-five (65) percent of individuals expected to participate in this option were already enrolled in another Medicaid program. DMS anticipates offsets in premiums and, due to the fact that approximately sixty-five (65) percent of recipients in this program would move from another Medicaid Program, total annual costs are expected to be $211,200, of which $147,840 would be federal funds.

(d) How much will it cost to administer this program for subsequent years? DMS anticipates the enhanced coverage may result in additional cost; however, the measures are necessary to enhance access to health services. DMS anticipates medical and pharmaceutical costs to be approximately $912,000 during the first year. However, this amount will be offset by cost sharing in the form of premiums totaling $108,000. In addition, research shows that sixty-five (65) percent of individuals expected to participate in this option were already enrolled in another Medicaid Program. DMS anticipates offsets in premiums and, due to the fact that approximately sixty-five (65) percent of recipients in this program would move from another Medicaid Program, total annual costs are expected to be $211,200, of which $147,840 would be federal funds.

(1) Provide a brief summary of:
(a) What this administrative regulation does: This adminis-
trative regulation establishes provisions related to Medicaid eligibility
income standards.

(b) The necessity of this administrative regulation: This adminis-
trative regulation is necessary to establish provisions related to
Medicaid eligibility income standards.

(c) How this administrative regulation conforms to the content
of the authorizing statutes: This administrative regulation conforms
to the content of the authorizing statutes by establishing provisions
related to Medicaid eligibility income standards.

(d) How this administrative regulation currently assists or will
assist in the effective administration of the statutes: This adminis-
trative regulation assists in the effective administration of the
statutes by establishing provisions related to Medicaid eligibility in-
come standards.

(2) If this is an amendment to an existing administrative regu-
lation, provide a brief summary of:
(a) How the amendment will change this existing administrative
regulation: This amendment results from a congressional initiative
to encourage states to adopt the option of allowing individuals with
disabilities to purchase Medicaid coverage that is necessary to enable
such individuals to maintain employment. The initiative creates
a new Medicaid eligibility group known as Medicaid works
Individually. Currently, Individually receiving Supplemental Security
Income (SSI) or Social Security Disability Insurance (SSDI) who
choose to work, lose Medicaid health benefits because their in-
come exceeds the allowable limit. This Initiative will allow the individu-
als with disabilities who choose to work and whose income is less
than or equal to 250% of the federal poverty level the opportunity
to purchase Medicaid coverage by paying a premium. Currently
individuals who qualify via a spend down option receive benefits for
three (3) months and then have to return to a local office and re-
apply each time they desire a spend down eligibility card. If these
individuals elect to be covered via the Medicaid works option they
will simply pay a monthly premium and not have to continue return-
ing to a local office to qualify via spend down. Additionally, this
option allows individuals to increase their expendable income by
working and maintaining Medicaid eligibility rather than having to
choose between working and preserving Medicaid benefits. The
specific income factors established in this administrative regulation
for Medicaid works individuals exceed those established for other recipients and result from a review of other states’ standards as well as feedback from the advocate community.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to extend Medicaid coverage to individuals with disabilities who work. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits. The special income factors established in this administrative regulation for Medicaid works individuals exceed those established for other recipients and result from a review of other states’ standards as well as feedback from the advocate community.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(r)(2) and 42 U.S.C. 1396a(a)(10), 1396b(f), 42 U.S.C. 1396d(q)(2)(B), and Pub.L. 106-170.

(d) How the amendment will assist in the effective administration of the statutes: This amendment will assist in the effective administration of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(r)(2) and 42 U.S.C. 1396a(a)(10), 1396b(f), 42 U.S.C. 1396d(q)(2)(B), and Pub.L. 106-170.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This administrative regulation will affect individuals with disabilities between the ages of sixteen (16) and sixty-five (65) who choose to work and whose income is less than or equal to 250% of the federal poverty level.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take in order to comply with this administrative regulation or amendment. Individuals choosing Medicaid coverage via this option must pay a monthly premium in order to receive benefits under this program. In addition, recipients must pay nominal copayments for specified services.

(b) As a result of compliance with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). Members eligible via the Medicaid works option will be subject to pharmacy and medical copayments that are capped at $225 each per year per recipient. Therefore, the maximum amount of copayments per recipient will be $450 per year. In addition, recipients will be responsible for a monthly premium based on income levels. Premiums range from thirty-five (35) dollars to fifty-five (55) dollars.

(c) As a result of compliance with this administrative regulation, what benefits will accrue to the entities identified in question (3). Individuals eligible via the Medicaid works option will receive pharmacy and medical benefits through the Medicaid program. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits. The special income factors established in this administrative regulation for Medicaid works individuals exceed those established for other recipients and result from a review of other states’ standards as well as feedback from the advocate community.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS) anticipates that the system modifications will cost $35,275.

(b) On a continuing basis: DMS anticipates medical and pharmaceutical costs to be approximately $912,000 during the first year; however, this amount will be offset by cost sharing in the form of premiums totaling $108,000. Additionally, DMS anticipates that sixty-five (65) percent of recipients expected to enroll for coverage via the Medicaid works option will already be enrolled in another Medicaid Program. Considering all factors, DMS projects total annual costs to be $211,200, of which $147,840 would be federal funds.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The source of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act, matching funds from general fund appropriations, and monthly premium payments made by recipients participating in the program.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in funding will be necessary as DMS anticipates any increased cost will be absorbed within the existing Medicaid budget.

(8) State whether or not this administrative regulation establishes any fees or directly increases any fees: This amendment establishes monthly premium fees for recipients eligible via the Medicaid works option.

(9) Tiering: Is tiering applied? Tiering is applied to monthly premium amounts. The monthly premium is based on income brackets in order to make the program affordable to individuals in the lower income brackets. Recipients whose monthly income is below 100% of the federal poverty level will pay no premium while recipients above this level will vary with each increase of fifty (50) percent or more.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. The Centers for Medicare and Medicaid Services (CMS) does not mandate that state Medicaid programs cover working individuals who are disabled; however, relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(r)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f), 42 U.S.C. 1396d(q)(2)(B), and Pub.L. 106-170.

2. State compliance standards. KRS 2007-2009 authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky’s indigent citizenry.

3. Minimum or uniform standards contained in the federal mandate. CMS does not mandate that state Medicaid programs cover working individuals who are disabled; however, relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(r)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f), 42 U.S.C. 1396d(q)(2)(B), and Pub.L. 106-170.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not impose stricter, than federal, requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. This administrative regulation does not impose stricter, than federal, requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This amendment will
affect an organization that chooses to hire an individual with a disability.

3. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. Relevant provisions for the state or federal government are presented in the administrative regulation. KRS 205.520(3) authorizes the cabinet by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky's indigent citizenry.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amount of revenue from this administrative regulation will be contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of worked per individual and the rate of pay each receives.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amount of revenue from this administrative regulation will be contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of worked per individual and the rate of pay each receives.

(c) How much will it cost to administer this program for the first year? The Department for Medicaid Services (DMS) anticipates that the Medicaid Management Information System (MMIS) modifications associated with this initiative will cost approximately $36,275.

(d) How much will it cost to administer this program for subsequent years? DMS anticipates the enhanced coverage may result in additional cost; however, the measures are necessary to enhance access to health services. DMS anticipates medical and pharmaceutical costs to be approximately $912,000 during the first year. However, this amount will be offset by cost sharing in the form of premiums totaling $108,000. In addition, research shows that sixty-five (65) percent of individuals expected to participate in this option were already enrolled in another Medicaid Program. DMS anticipates offsets in premiums and, due to the fact that approximately sixty-five (65) percent of recipients in this program would move from another Medicaid program, total annual costs are expected to be $211,200, of which $147,840 would be federal funds.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact: Stuart Owen (502) 564-6204 or Lisa Lee (502) 564-6890
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes provisions related to Medicaid eligibility resource standards.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish provisions related to Medicaid eligibility resource standards.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing provisions related to Medicaid eligibility resource standards.
(d) How this administrative regulation will assist or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing provisions related to Medicaid eligibility resource standards.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment results from a congressional initiative to encourage states to adopt the option of allowing individuals with disabilities to purchase Medicaid coverage that is necessary to enable such individuals to maintain employment. The initiative creates a new Medicaid eligibility group known as Medicaid works individuals. Currently, individuals receiving Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI) who choose to work, lose Medicaid related benefits because their income exceeds the allowable limit. This initiative will allow individuals with disabilities who choose to work and whose income is less than or equal to 250% of the federal poverty level the opportunity to purchase Medicaid coverage by paying a premium. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits. The resource standards established in this administrative regulation for Medicaid works individuals exceed those established for other recipients and result from a review of other states' standards as well as feedback from the advocate community.
(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to extend Medicaid coverage to individuals with disabilities who work. Currently, individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits. The resource standards established in this administrative regulation for Medicaid works individuals exceed those established for other recipients and result from a review of other states' standards as well as feedback from the advocate community.
(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396(a)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396a(l), 42 U.S.C. 1396d(q)(2)(B), and Pub.L. 106-170.
(d) How the amendment will assist in the effective administration of the statutes: This amendment will assist in the effective
administeration of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(a)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f), 42 U.S.C. 1396d(q)(2)(B), and Pub.L. 106-170.

(3) List the type and number of individuals, businesses, organizations, state and local government entities affected by this administrat-

ive regulation: This administrative regulation will affect individuals with disabilities between the ages of sixteen (16) and sixty-five (65) who choose to work and whose income is less than or equal to 250% of the federal poverty level.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrat-

ive regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Individuals choosing Medicaid coverage via this option must pay a monthly premium in order to receive benefits under this program. In addition, recipients must pay nominal copayments for specified services.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). Members eligible via the Medicaid works option will be subjected to pharmacy and medical copayments that are capped at $225 each per year per recipient. Therefore, recipients the maximum amount of copayments per recipient will be $450 per year. In addition, recipients are responsible for a monthly premium based on income levels. Premiums range from thirty-five (35) dollars to fifty-five (55) dollars.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Individuals eligible via the Medi-

caid works option will receive pharmacy and medical benefits through the Medicaid program. Currently individuals who qualify via a spend down option will receive benefits for three (3) months and then have to return to a local office and reapply each time they desire a spend down eligibility card. If those individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medi-
caid eligibility rather than having to choose between working and preserving Medicaid benefits. The resource standards established in this administrative regulation for Medicaid works individuals exceed those established for other recipients and result from a review of other states' standards as well as feedback from the advocates.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS) antici-

pates that the system modifications will cost $36,275.

(b) On a continuing basis: DMS anticipates medical and phar-

maceutical costs to be approximately $121,000 during the first year; however, this amount will be offset by cost sharing in the form of premiums totaling $105,000. Additionally, DMS anticipates that sixty-five (65) percent of recipients expected to enroll for coverage via the Medicaid works option will already be enrolled in another Medicaid Program. Considering all factors, DMS projects total annual costs to be $211,200, of which $147,840 would be federal funds.

(6) What is the source of the funding to be used for the imple-

mentation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act, matching funds from general fund appropriations, and monthly premium payments made by recipients participating in the program.

(7) Provide an assessment of whether an increase in fees or function will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. No increase in funding will be necessary as DMS anticipates any increased cost will be absorbed within the existing Medicaid budget.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This amendment establishes monthly premium fees for recipients eleg-

able via the Medicaid works option.

(9) Tieng: Is tiering applied? Tiering is applied to monthly premium amounts. The monthly premium is based on income brackets in order to make the program affordable to individuals in the lower income brackets. Recipients whose monthly income is below 100% of the federal poverty level will pay no premium while recipients above this level will vary with each increase of fifty (50) percent or more.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate.

The Centers for Medicare and Medicaid Services (CMS) does not mandate that state Medicaid programs cover working individuals who are disabled; however, relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(a)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f), 42 U.S.C. 1396d(q)(2)(B) and Public Law 106-170.

2. State compliance standards. KRS 205.520(3) authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky's indigent citizenry.

3. Minimum or uniform standards contained in the federal mandate. CMS does not mandate that state Medicaid programs cover working individuals who are disabled; however, relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(a)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f) and 42 U.S.C. 1396d(q)(2)(B), and Pub.L. 106-170. Provisions established in this administrative regulation conform to the federal requirements.

4. Does this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not impose stricter, than federal, requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. This administrat-

ive regulation does not impose stricter, than federal, requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This amendment will affect an organization that chooses to hire an individual with a disability.

3. Identify each state or federal regulation that requires or au-

thorizes the action taken by the administrative regulation. Relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(a)(2) and 42 U.S.C. 1396a(a)(10), 42 U.S.C. 1396b(f) and 42 U.S.C. d(q)(2)(B), and Pub.L. 106-170. KRS 205.520(3) authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky's indigent citizenry.

4. Estimate the cost of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation gener-

ate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amount of revenue this administrative regulation will generate for state or local government is contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of worked per individual and the rate of pay each receives.

(b) How much revenue will this administrative regulation gen-
erate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amount of revenue this administrative regulation will generate for state or local government is contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of work performed per individual and the rate of pay each receives.

(c) How much will it cost to administer this program for the first year? The Department for Medicaid Services (DMS) anticipates that the Medicaid Management Information System (MMIS) modifications associated with this initiative will cost approximately $36,275.

(d) How much will it cost to administer this program for subsequent years? DMS anticipates the enhanced coverage may result in additional cost; however, the measures are necessary to enhance access to health services. DMS anticipates medical and pharmaceutical costs to be approximately $912,000 during the first year. However, this amount will be offset by cost sharing in the form of premiums totaling $108,000. In addition, research shows that sixty-five (65) percent of individuals expected to participate in the option were already enrolled in another Medicaid program. DMS anticipates offsets in premiums and, due to the fact that approximately sixty-five (65) percent of recipients in this program would move from another Medicaid program, total annual costs are expected to be $211,200, of which $147,840 would be federal funds.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administra-
tive regulation establishes provisions related to KyHealth Choices
benefit plans.
(b) The necessity of this administrative regulation: This admin-
istrative regulation is necessary to establish provisions related to
KyHealth Choices benefit plans.
(c) How this administrative regulation conforms to the content of
the authorizing statutes: This administrative regulation conforms
to the content of the authorizing statutes by establishing provisions
related to KyHealth Choices benefit plans.
(d) How this administrative regulation currently assists or will
assist in the effective administration of the statutes: This admin-
istrative regulation assists in the effective administration of the stat-
utes by establishing provisions related to KyHealth Choices benefit
plans.
(2) If this is an amendment to an existing administrative regula-
tion, provide a brief summary of:
(a) How the amendment will change this existing administrative
regulation: This amendment results from a congressional initiative
to encourage states to adopt the option of allowing individuals with
disabilities to purchase Medicaid coverage that is necessary to
enable such individuals to maintain employment. The initiative

- 1858 -
creates a new Medicaid eligibility group known as Medicaid works individuals. Currently, individuals receiving Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI) who choose to work, lose Medicaid home-care benefits but their income recourses are not increased, so they are not eligible for Medicaid. This limitation will allow individuals with disabilities who choose to work and whose income is less than or equal to 25% of the federal poverty level the opportunity to purchase Medicaid coverage by paying a premium. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and re-apply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits.

(b) The necessity of the amendment to this administrative regulation: The amendment is necessary to extend Medicaid coverage to individuals with disabilities who work. Currently, individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and re-apply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(a)(10), 1396a(a)(10), 1396b(f), 42 U.S.C. 1396a(a)(2)(B), and 1396d(q)(2)(B), and Pub.L. 106-170.

(d) How the amendment will assist in the effective administration of the statutes: This amendment will assist in the effective administration of the authorizing statutes by ensuring that provisions relating to eligibility requirements are within the limits established in 42 U.S.C. 1396a(a)(10), 1396b(f), 42 U.S.C. 1396d(q)(2)(B), and Pub.L. 106-170.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This administrative regulation will affect individuals with disabilities between the ages of sixteen (16) and sixty-five (65) who choose to work and whose income is less than or equal to 25% of the federal poverty level.

(4) Provide an analysis of how the entity identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Individuals choosing Medicaid coverage via the option must pay a monthly premium in order to receive benefits under this program. In addition, recipients must pay nominal co-payments for specified services.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). Members eligible via the Medicaid works option will be subject to pharmacy and medical co-payments that are capped at $25 each per year per recipient. Therefore, recipients the maximum amount of co-payments per recipient will be $450 per year. In addition, recipients will be responsible for a monthly premium based on income levels. Premiums range from thirty-five (35) dollars to fifty-five (55) dollars.

(c) As a result of compliance, what benefits will accrue to the entity identified in question (3). Individuals eligible via the Medicaid works option will receive pharmacy and medical benefits through the Medicaid program. Currently individuals who qualify via a spend down option receive benefits for three (3) months and then have to return to a local office and re-apply each time they desire a spend down eligibility card. If these individuals elect to be covered via the Medicaid works option they will simply pay a monthly premium and not have to continue returning to a local office to qualify via spend down. Additionally, this option allows individuals to increase their expendable income by working and maintaining Medicaid eligibility rather than having to choose between working and preserving Medicaid benefits.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially, the Department for Medicaid Services (DMS) anticipates that the system modifications will cost $36,275.

(b) On a continuing basis, DMS anticipates medical and pharmaceutical costs to be approximately $3,120,000 during the first year; however, this amount will be offset by cost sharing. In the form of premiums totaling $108,000. Additionally, DMS anticipates that sixty-five (65) percent of recipients expected to enroll for coverage via the Medicaid works option will already be enrolled in another Medicaid program. Considering all factors, DMS projects total annual costs to be $211,620, of which $147,840 would be federal funds.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act, matching funds from general fund appropriations, and monthly premium payments made by recipients participating in the program.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in funding will be necessary as DMS anticipates any increased cost will be absorbed within the existing Medicaid budget.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This amendment establishes monthly premium fees for recipients eligible via the Medicaid works option.

(9) Tiensong: Is tiensong applied to monthly premium amounts. The monthly premium is based on income brackets in order to make the program affordable to individuals in the lower income brackets. Recipients whose monthly income is below 100% of the federal poverty level will pay no premium while recipients above this level will pay with each increase of fifty (50) percent or more.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate: The Centers for Medicare and Medicaid Services (CMS) does not mandate that state Medicaid programs cover working individuals who are disabled, however, relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(a)(10), 1396b(f), 1396d(q)(2)(B), and Pub.L. 106-170.

2. State compliance standards KRS 205.520(3) authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky's indigent citizen.

3. Minimum or uniform standards contained in the federal mandate. CMS does not mandate that state Medicaid programs cover working individuals who are disabled, however, relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(a)(2) and 1396a(a)(10), 1396b(f), 1396d(q)(2)(B), and Pub.L. 106-170.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not impose stricter, than federal, requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. This administrative regulation does not impose stricter, than federal, requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program,
service, or requirements of a state or local government (including cities, counties, fire departments or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This administrative regulation will affect an organization that chooses to hire an individual with a disability.

3. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. Relevant provisions for states who choose to offer this coverage are established in 42 U.S.C. 1396a(l)(2) and 42 1396a(a)(10), 42 1398b(f) and 42 d(c)(2)(B), and Pub L. 106-170. KRS 205.520(3) as amended by the administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky's indigent citizenry.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amount of revenue this administrative regulation will generate for state or local government is contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of worked per individual and the rate of pay each receives.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amount of revenue this administrative regulation will generate for state or local government is contingent upon the number of individuals who enroll via the Medicaid works option. Individuals who meet criteria established by this amendment will be allowed to enter the workforce, increase their earnings and remain eligible to receive benefits. State revenue is contingent upon the number of hours of worked per individual and the rate of pay each receives.

(c) How much will it cost to administer this program for the first year? The Department for Medicaid Services (DMS) anticipates that the Medicaid Management Information System (MMIS) modifications associated with this initiative will cost approximately $36,275.

(d) How much will it cost to administer this program for subsequent years? DMS anticipates the enhanced coverage may result in additional cost; however, the measures are necessary to enhance access to health services. DMS anticipates medical and pharmaceutical costs to be approximately $12,000 during the first year. However, this amount will be offset by cost sharing in the form of premium totaling $108,000. In addition, research shows that sixty-five (65) percent of individuals expected to participate in this option were already enrolled in another Medicaid program. DMS anticipates offsets in premiums and, due to the fact that approximately sixty-five (65) percent of recipients in this program would move from another Medicaid program, total annual costs are expected to be $211,200, of which $147,800 would be federal funds.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Justin Damerger
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the requirements for the establishment, review, and modification of child support and medical support orders.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to implement requirements for the establishment, review, and modification of child support and medical support orders.
(c) How this administrative regulation conforms to the content of the authorizing statutes: The Cabinet has responsibility under KRS 194A 050(1), 205.795, 405.520 and by virtue of applying for federal funds under 42 U.S.C. 651-669 to establish, review, and modify support obligations. This administrative regulation sets forth such procedures and processes.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing procedures used by the Cabinet to establish, review, and modify child support and medical support orders.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment will change the three (3) year review on public assistance child support cases to become mandatory in accordance with requirements of the Deficit Reduction Act (DRA) of 2005. The amendment updates four (4) child support forms for technical content. Other corrections were made to the administration regulation to clarify requirements and comply with KRS Chap-
The amendment removes the section pertaining to hearings and appeal procedures from this regulation. A new administrative regulation is being promulgated to specify Kentucky's process for administrative hearings regarding the Child Support Program.

(b) The necessity of the amendment to the administrative regulation: This amendment is necessary in order to mandate a three (3) year review on public assistance child support cases in accordance with requirements of the Deficit Reduction Act (DRA) of 2005. Adhering to the DRA should decrease the state's potential of incurring financial penalties. Additionally, revisions were necessary for two (2) child support forms in order to comply with state and federal requirements.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the requirements of KRS 194A.050(1), 205.795, 405.520 and federal requirements of Title IV-D (of the Social Security Act) agencies by clarifying the criteria used by the Cabinet in establishing, reviewing, and modifying child support and medical support orders.

(d) How the amendment will assist in the effective administration of the statutes: The amendment ensures that the Kentucky Child Support Program conforms to and remains compliant with federal and state requirements.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: The Cabinet examines approximately 334,663 child support cases, which will be subject to provisions contained within this administrative regulation. Approximately fourteen (14) additional state child support staff have been hired to help perform these extra administrative tasks. This amendment will cost the state approximately $750,000 per year related to employ these additional staff. The cost of these positions will be funded by 100% Federal TANF funds.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3) This amendment will clarify child support and medical support requirements for child support staff and clients and provide TANF participants the opportunity to have their child support order reviewed, and possibly increased, every three (3) years without having to request a review. By complying with this amendment, child support staff, state officials, and contracting officials, have the potential to increase performance, reduce the risk of non-compliance with federal mandates, and thereby reduce the risk of federal penalties in the TANF grant.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: For the current fiscal year, the amendment to this administrative regulation will cost the Child Support Program approximately $562,500 for additional administrative actions taken on these TANF related child support cases and their increased administrative cost of the Child Support Program. Approximately fourteen (14) additional state child support staff have been hired to help perform these extra administrative tasks. This amendment will cost the state approximately $750,000 per year related to employ these additional staff. The cost of these positions will be funded by 100% Federal TANF funds. The existing SFY 06 budget has sufficient funds to cover these costs.

(b) On a continuing basis: The amendment to this administrative regulation will cost the Child Support Program approximately $750,000 annually for additional administrative staff. The cost of these positions will be funded by 100% Federal TANF dollars. The allotment received for the SFY 08 budget is sufficient to cover these costs at this time.

What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of funding include State General Funds and federal funds under 42 U.S.C. 401-19, Title IV-A of the Social Security Act.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There are no fees and no increase in funding for this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees. This administrative regulation does not establish any fees or directly or indirectly increase any fees.

(9) TIERING: Is tiering applied? No. Tiering was not applied, as this administrative regulation will be applied in a like manner on a state-wide basis.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Justin Dearinger, DCBS Regulation Coordinator

(a) What this administrative regulation does: This administrative regulation establishes the procedures by which the cabinet shall conduct background checks for foster or adoptive parents, caretaker relatives, and their household members and related reporting requirements.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment clarifies Kentucky’s child abuse and neglect check processes for other states, makes Kentucky’s background check requirements consistent with the federal mandates governing approval of foster/adoptive homes, distinguishes background check requirements for caretaker relatives, makes technical corrections, and updates incorporated materials.

(b) The necessity of the amendment to this administrative regulation: Pub.L. 109-248, The Adam Walsh Child Protection and Safety Act of 2006, made changes to Title IV-E of the Social Security Act that include new state requirements regarding the approval of prospective foster/adoptive homes. If a prospective foster/adoptive parent (i.e., applicant) has lived in another state within the previous five years, the approving state agency must ensure the applicant submits to a child abuse and neglect check(s) conducted by the previous state(s) of residence. All applicants will be required to submit to a fingerprint check of the Federal Bureau of Investigation’s National Crime Information Database. The amendment is necessary to ensure federal compliance, provide clarification to other states, and avoid federal financial penalty to Kentucky’s Title IV-E funding or a percentage of $51 million federal dollars provided to Kentucky’s foster and adoptive programs and their proper administration.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment to this administrative regulation conforms to the content of the authorizing statute by ensuring compliance with recently enacted federal mandates.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: A prospective foster/adoptive parent will be required to submit a fingerprint check of the National Crime Information Database as a condition of the initial approval, upon adoption of this regulatory amendment. In addition, if the prospective foster/adoptive parent has resided in another state(s) in the previous five years, the prospective foster/adoptive parent will be required to submit to child abuse and neglect check(s) conducted by the other state(s) of residence.

(b) In complying with the administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Private child-placing agencies will incur the fees charged for criminal background checks in the course of their consideration of a prospective foster/adoptive parent applicant. Prospective foster/adoptive parents and caretaker relatives will not incur any costs.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Affected entities will benefit through their compliance with the federal mandate, Kentucky’s avoidance of federal financial penalty to its Title IV-E funding, and enhanced safeguards for children in out-of-home care.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There will be no increases in fees or funding to implement this administrative regulation due to the avoidance of federal financial penalty.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation did not establish or increase any fees, either directly or indirectly.

(9) Tiering: Is tiering applied? Tiering will not be applied as this administrative regulation will be implemented statewide in the same manner.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Dennis Shepherd

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes drug-testing procedures for test-designated employees at state veterans nursing homes.

(b) The necessity of this administrative regulation: This administrative regulation is necessary in order to ensure the safety and well-being of sick, disabled, Alzheimer-inflicted, and otherwise ill veterans who are residents of state veterans nursing homes, and to safeguard the children of nursing home employees who attend the child care centers located within these homes.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 40.325 authorizes the Kentucky Department of Veterans Affairs to promulgate administrative regulations to carry out its mission. KRS 18A.043, 41 U.S.C. 701-707 provide a federally mandated state program to ensure a drug-free workplace. This regulation is the means to carry out the federally mandate.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will allow for the establishment of a drug testing program to be conducted with test-designated employees at state operated nursing homes that will ensure compliance with federal law requiring certification of a drug-free workplace.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: N/A
(b) The necessity of the amendment to this administrative regulation: N/A
(c) How the amendment conforms to the content of the authorizing statutes: N/A
(d) How the amendment will assist in the effective administration of the statutes: N/A

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Currently a total of approximately three facilities operated by the Kentucky Department of Veterans Affairs, with approximately 750 employees (both state and contract), will be impacted by this administrative regulation, with up to 250 additional employees affected upon authorization and establishment of a fourth KDVA nursing home.

(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment: Employees who provide care and support services to disabled veterans and to children at the state’s veterans nursing homes will potentially be impacted in 3 ways:

- 1901 -
(a) Prospective new test-designated employees will be required to successfully pass a drug test as a condition for employment.
(b) Up to twenty-five (25) percent of the current test-designated workforce at the nursing homes will be subject to random drug tests per year.
(c) Any current test-designated employee will be subject to drug testing when there is reasonable suspicion to believe that the employee is in violation of this administrative regulation and when a serious work accident occurs.
(5) Provide an estimate of how much it will cost to implement this administrative regulation:
Using the current total nursing home workforce of 750 employees, the implementation costs may be computed as follows: Pre-employment applicant drug screening: The current average new hires for the nursing homes is 200 per year. Assuming this average number, the annual cost would be calculated by multiplying 200 by forty-two (42) dollars, with forty-two (42) dollars being the current cost per sample. This total equals $8,400. Random tests = twenty-five (25) percent of 750 times the current estimated cost of testing one sample. Therefore, the cost per year if twenty-five (25) percent of the workforce is tested is: 188 times $42.00, or $7,976. Other tests: The incidents that would trigger reasonable suspicion testing or post-accident testing, based upon past nursing home experience may range from 25 to 15 tests. Therefore, using 25 as the upper limit, this adds an additional $1,950 to the annual costs of implementation (25 times $42). In addition, follow-up testing should be conducted at a conservative estimate of five test-designated employees who require up to three follow-up tests, or an additional annual total of 15 tests. This would add $630 to the annual implementation costs.

- Pre-employment applicants: $8,400
- Random test costs per year: $7,976
- Reasonable suspicion/Post-accident costs: $1,950
- Follow-up testing: $630
- Estimated Total Implementation Costs: $17,976
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: All costs associated with the drug testing of prospective or current test-designated facility employees will be borne by the Office of the Veterans Affairs. All costs associated with the central office administration of the drug-testing program will be borne by the Kentucky Department of Veteran Affairs.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change it is an amendment: No increase in fees or funding is anticipated.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees:
No new or increased fees are anticipated.

(9) TIERING: Is tiering applied? Tiering was not appropriate in this administrative regulation, because the administrative regulation applies equally to all individuals or entities regulated by it. Disparate treatment of a person or entity subject to this administrative regulation could raise questions of arbitrary action on the part of the agency. The "equal protection" and "due process" clauses of the Fourteenth Amendment of the Constitution may be implicated as well as Sections 2 and 3 of the Kentucky Constitution.

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government: No
2. What units, parts or divisions of state or local government will be impacted by this administrative regulation: Kentucky Department of Veteran Affairs.

(d) How much will it cost to administer this program for subsequent years: $17,976

Teaching Certificates

In response to a question by Co-Chair Roeding, Mr. Carr stated that the master's program was redesigned to grant a "teacher leader" endorsement on the certificate of individuals who successfully completed the program. That endorsement allowed teachers to work with other teachers as coaches, consultants, and resource teachers.

Dr. Troupe stated that a teacher who already had a master's degree would also be able to get the endorsement. She stated that the master's program was designed through collaboration between the universities and the local districts and that this administrative regulation would not create any delay and was supported by the universities.

A university or private vendor in another state could provide online training in Kentucky without becoming accredited but was required to become accredited in order to have a physical presence in Kentucky. She stated this did not affect anyone currently working or teaching in the state.

Ms. Sneed stated that the new standards would likely be effective later in 2008 in order to allow time for individuals to complete a program they were already enrolled in and choose a future program that would meet the new requirements.

A motion was made and seconded to approve the following amendments: to amend the RELATES TO paragraph and Sections 5 and 6 to correct citations. Without objection, and with agreement of the agency, the amendments were approved.

In response to questions by Co-Chair Roeding, Mr. Gray stated that this administrative regulation required the range qualification form to be delivered to the applicant rather than to the department to reduce the risk of loss. He stated they had made law enforcement groups aware of the changes and they would post it on the state police Web site once the administrative regulations were effective.

In response to questions by Co-Chair Damon, Mr. Gray stated that, in response to a comment from a retired FBI agent, they had revised the application requirements to allow a copy of an affidavit as proof of retirement, rather than an original affidavit. He stated that, under federal law, retired officers had to meet the same range qualifications as active law enforcement officers which was to qualify once every twelve (12) months.

810 KAR 1 027. Entries, subscriptions, and declarations. John Forgy, general counsel; John Veitch, chief state steward; and Jamie Hayton, director of Incentives and Development, represented the authority. Martin Malone, executive director of the Horsemen's Benevolent and Protective Association, appeared in opposition to this administrative regulation.

Mr. Malone stated that his association had two concerns with the charges to this administrative regulation. He stated that the first issue was that it prevented the entry of multiple horses trained by the same trainer in a single race. He stated that multiple owners may use the same trainer for their horses and the proposed change to this administrative regulation would allow the trainer to choose which horse could enter a race. He stated that owners invested a tremendous amount of money to get a horse trained and developed to compete and yet could be barred from entering the horse in a particular race because he used the same trainer as that of another horse.

He stated that the association's second concern was with the increase in the number of days on the veterinarian's list for a horse scratched from a race from six (6) days to nine (9). He stated that a horse may be scratched from a race due to a temporary problem, such as a minor case of colic, in which case, nine (9) days was too long to prohibit the horse from racing.

Mr. Veitch stated that the prohibition of multiple entries with the same trainer was intended to promote a level playing field that was fair to all owners. He stated that the increase in the number of days on the veterinarian's list was intended to discourage the withdrawal of a horse from a race without reason and to maintain larger fields in races.

In response to questions by Senator Pendleton, Mr. Veitch stated that the association wanted to prevent the possibility a trainer could manipulate the outcome of a race, which became
more likely the more entries a trainer had. He stated that this prohibition would not affect the Kentucky Derby because its entries were established by earnings.

In response to questions by Senator Tapp, Mr. Veitch stated that the association had no evidence that a trainer had manipulated a race. He stated that the association wanted to maintain the integrity of racing and avoid negative public perceptions. He stated there had been no public outcry on the issue.

Senator Tapp stated that any problem that occurred could be addressed through discipline of the trainer, not by penalizing the owners.

In response to questions by Representative Weston, Mr. Veitch stated that generally, trainers with larger stables had established themselves. He stated that a trainer could be wagering on horses he trained and that a win by one horse against a horse with better odds would create a perception that the trainer affected the outcome of the race to increase his winnings from wagering.

Representative Weston stated that this administrative regulation could affect the ability of horse owners and trainers to earn a living because of things that might never happen.

In response to questions by Senator Tapp and Representative Lee, Mr. Veitch stated that if there were more entries for a race than the maximum, the entries accepted were determined by lot.

Senator Pendleton stated that the proposed restriction could lead owners to change the names of trainers of record in order to get their horses into races.

In response to a question by Representative Weston, Mr. Veitch stated that a horse on the veterinarian's list stayed on the list the full time and there was no mechanism to remove the horse from the list sooner.

810 KAR 1:090. Kentucky Thoroughbred Development Fund.

A motion was made and seconded to defer consideration of 810 KAR 1:027 and 810 KAR 1:090 until the Subcommittee's January meeting. Mr. Forgy stated that the department would agree to defer these administrative regulations. Without objection and with agreement of the agency, these administrative regulations were deferred.

CABINET FOR HEALTH AND FAMILY SERVICES: Office of the Secretary: E-Health

Department for Mental Health and Mental Retardation Services: Division for Mental Health and Substance Abuse: Mental Health
808 KAR 2:220. Peer Specialist Services. Sandy Silver, peer specialist consultant, represented the division. Maureen Fitzgerald, director of protection and advocacy, appeared in opposition to this administrative regulation. Molly Clouse, peer specialist, appeared in support of this administrative regulation.

Ms. Fitzgerald stated this administrative regulation was very positive and her agency supported it except for certain provisos. She stated that the requirement that a peer specialist have a high school diploma or complete a GED program should be deleted. She stated there was a real need for peer specialists in Kentucky in order to make access to mental health services more affordable.

She stated that a person could be an effective peer specialist without having a diploma or GED certificate. She stated that a 2006 study showed that only nine (9) of fourteen (14) states that had programs required peer specialists to have a diploma or GED certificate.

Ms. Silver stated the division would like to keep the requirement to encourage qualified individuals to obtain a diploma or GED certificate before becoming a peer specialist. She stated that a peer specialist worked on a team with mental health professionals, which required some level of literacy. She stated that a diploma or GED certificate is a condition of employment for all employees at the mental health centers where they worked.

Ms. Clouse stated that, because it was a new program, peer specialists faced barriers to acceptance by other members of the mental health team. She stated that holding a diploma or GED certificate gave peer specialists a level of credibility with other team members.

Representative Lee stated that requiring a diploma could prevent a lot of qualified individuals from becoming peer specialists. He stated that literacy and other issues could be addressed through training to ensure the individuals were sophisticated and qualified enough to be effective.

Ms. Silver stated that peer specialists should have a diploma because they would be an employee of the system and part of the treatment team. She stated their program assisted individuals in obtaining a diploma or GED certificate in order to become qualified and that the requirement motivated them to obtain their diplomas or GED certificates.

Co-Chair Roeding stated that qualified individuals should not be overlooked but individuals should be encouraged to obtain a diploma or GED certificate.

Co-Chair Damron stated that a high priority should be placed on encouraging individuals to obtain high school diplomas or GED certificates but that there may not be an adequate number of individuals who meet that requirement.

A motion was made and seconded to defer consideration of this administrative regulation until the Subcommittee's January meeting. Ms. Silver stated that the department agreed to defer this administrative regulation. Without objection and with agreement of the agency, this administrative regulation was deferred.

The motion was seconded and passed without objection.

The Subcommittee adjourned at 12:10 until January 2008.
