ADMINISTRATIVE REGULATION REVIEW PROCEDURE - OVERVIEW
(See KRS Chapter 13A for specific provisions)

Filing and Publication
Administrative bodies shall file with the Regulations Compiler all proposed administrative regulations, public hearing and comment period information, regulatory impact analysis and tiering statement, fiscal note, federal mandate comparison, and incorporated material information. Those administrative regulations received by the deadline established in KRS 13A.050 shall be published in the Administrative Register.

Public Hearing and Public Comment Period
The administrative body shall schedule a public hearing on proposed administrative regulations which shall not be held before the 21st day or later than the last workday of the month of publication. Written comments shall also be accepted until the end of the calendar month in which the administrative regulation was published.

The administrative regulation shall include: the place, time, and date of the hearing; the manner in which persons may submit notification to attend the hearing and written comments; that notification to attend the hearing shall be sent no later than 5 workdays prior to the hearing date; the deadline for submitting written comments; and the name, position, address, and telephone and fax numbers of the person to whom notification and written comments shall be sent.

The administrative body shall notify the Compiler, by phone and letter, whether the hearing was held or cancelled and whether written comments were received. If the hearing was held or written comments were received, the administrative body shall file a statement of consideration with the Compiler by the fifteenth day of the calendar month following the month of publication.

A transcript of the hearing is not required unless a written request for a transcript is made, and the person requesting the transcript shall have the responsibility of paying for same. A recording may be made in lieu of a transcript.

Review Procedure
After the public hearing and public comment period processes are completed, the administrative regulation shall be reviewed by the Administrative Regulation Review Subcommittee at its next meeting. After review by the Subcommittee, the administrative regulation shall be referred by the Legislative Research Commission to an appropriate jurisdictional committee for a second review. The administrative regulation shall be considered as adopted and in effect as of adjournment on the day the appropriate jurisdictional committee meets or 30 days after being referred by LRC, whichever occurs first.
Pursuant to House Bill 1 passed during the Kentucky General Assembly 2010 Extraordinary Session, the Secretary of Personnel must promulgate an administrative regulation prior to the furlough of any state employee. The first mandatory furlough date for all state executive branch employees is set for September 3, 2010. Accordingly, pursuant to KRS 13A.190(1)(3), this administrative regulation must be filed as an emergency regulation to meet the deadline as stated in 2010 Extra. Sess. Ky. Acts ch. 1, Part IV, 11(g). The decision to implement furloughs was necessary to achieve the savings required by the budget passed by the General Assembly. In the first fiscal year alone, over $24 million dollars in savings will be recognized. The emergency amendment will be replaced by an ordinary amended administrative regulation. The ordinary administrative regulation was filed with the Regulations Compiler on August 13, 2010. This emergency administrative regulation is identical to the ordinary administrative regulation. This emergency administrative regulation differs from the previously filed emergency administrative regulation in that it provides detailed information on the furlough dates for the 2010-2011 fiscal year, the specific classifications which may be exempted from the furlough requirements, how furlough plans shall be submitted to the Personnel Cabinet, and also contains technical changes in compliance with KRS Chapter 13A.

Section 1. Definitions. (1) "Appointing Authority" means:
(a) An individual who meets the definition of KRS 18A.005(1) or 151B.010(1); or
(b) For employees governed by KRS Chapter 16, the Commissioner of the Department of Kentucky State Police.

(2) "Furlough" or "reduction in hours" means the temporary reduction of hours an employee is scheduled to work by the appointing authority within a pay period.

(3) "Lack of funds" means a current or projected deficiency of funds to maintain current or projected levels of staffing and operations of state government in a fiscal year.

(4) "Secretary" means the Secretary of the Personnel Cabinet as provided for in KRS 18A.115.

Section 2. General Provisions. (1) Based upon the lack of funds certified by the State Budget Director, and the approval of the Governor, the requirements established in this administrative regulation shall govern the furlough of all state Executive Branch employees.

(2) A furlough plan shall be developed by each executive branch Cabinet or independent agency in conformity with these requirements, and upon approval by the Secretary, shall be implemented at the Cabinet or independent agency level by an appointing authority.

(3) Furlough plans shall include the following provisions:
(a) All state Executive Branch employees, classified and unclassified, shall be furloughed for a total of six (6) working days over the course of the 2010-2011 fiscal year.
(b) An employee shall not be furloughed more than twenty-four (24) work hours in a six (6) month calendar period, as provided in this paragraph.

1. An employee regularly assigned to a forty (40) hour work schedule shall not be furloughed more than three (3) work days or twenty-four (24) work hours.

2. An employee regularly assigned to a 37.5-hour work schedule shall not be furloughed more than three (3) work days or twenty-two and one-half (22.5) work hours, which is the equivalent reduction of hours and corresponding pay.

3. Any other employee on a different work schedule shall be furloughed in a manner to achieve an equivalent reduction of hours and corresponding pay. These provisions shall be set forth in the furlough plan provided by the Cabinet Secretary or independent agency head and approved by the Secretary of Personnel.

(4) Unclassified employees appointed pursuant to KRS 18A.115(1)(d), (e), (f), (g), (h), or (i) may be furloughed additional work hours at the discretion of the appointing authority.

(5) A furloughed employee whose hours of work are temporarily reduced:
(a) Shall remain eligible for state-paid benefits during the temporary reduction of hours;
(b) Shall be notified in writing by the appointing authority at least seven (7) calendar days prior to the date of furlough, except that an employee may voluntarily agree in writing to waive the seven (7) day notice requirement;
(c) Shall not be furloughed more than twenty (20) percent of an employee’s scheduled work hours in any one (1) work week, except as provided in subsection (6) of this section;
(d) Shall not be eligible to utilize accrued leave balances in lieu of temporary reduction of hours without pay; and
(e) Shall not be entitled to appeal the reduction of work hours to the Personnel Board, the Kentucky Technical Education Personnel Board, the Department of Kentucky State Police Personnel Board, or the applicable administrative body.

(6) In addition to the mandatory furlough hours, any employee may volunteer, with the prior approval of the appointing authority, to take leave without pay and retain accrued leave balances. An employee shall submit the Voluntary Furlough Request Form to the Secretary of Personnel before the effective date of a voluntary furlough.

(7) A contract worker shall not perform services pursuant to the contract when the assigned state office building is closed due to furlough. The work schedules of all contract workers shall be reduced in the same manner as state employees during other periods of furlough.

Section 3. Furlough Dates. (1) The six (6) furlough days shall be scheduled as follows:
(a) In order to maximize operational costs, state government shall "shut down" and close on three (3) of the furlough days:
   1. September 3, 2010;
   2. November 12, 2010; and
(b)1. The remaining three (3) furlough days shall be applied in the following months:
   a. October 2010;
   b. March 2011; and
c. April 2011.
   2. Each Cabinet Secretary, independent agency head, or designated appointing authority shall furlough each employee not exempted in subsection (2) of this section the equivalent of one (1) day during each of the months listed in subparagraph 1. of this paragraph.

(2) The individuals employed in the following specific job classifications may be exempted from any or all provisions of the furlough requirements, as approved by the Secretary of the Personnel Cabinet, upon request and certification by the Secretary of the Justice and Public Safety Cabinet, the Secretary of the Cabinet for Health and Family Services, or the Commissioner of State Police:
(a) Job classifications directly responsible for the care or safety
of inmates or residents in twenty-four (24) hour correctional or juvenile justice facilities;

(b) Job classifications directly responsible for the care or safety of residents in twenty-four (24) hour mental health facilities; and

(c) Job classifications of uniformed law enforcement officers or trainees that are required to protect the lives and safety of the citizens of the Commonwealth.

(3) In conjunction with the appointing authority, the Secretary shall provide maximum flexibility to the facilities with twenty-four (24) hour, seven (7) day-a-week operations to ensure that the employees within these facilities are appropriately furloughed while any disruption of services is minimized.

(4) Each Cabinet Secretary and independent agency head, in conjunction with the Secretary, shall consider the impact of these furlough requirements on the specific public services the individual Cabinet or independent agency provides and the impact of the scheduled furloughs on the workforce within the individual Cabinet or independent agency. This information shall be provided to the Secretary within the furlough plan.

(5) Each Cabinet or independent agency, once approved by the Secretary, may designate additional appointing authorities to effectuate the furlough of its employees.

(6) If there is an emergency or natural disaster, as certified by the Governor, the Secretary may alter, amend, revoke, suspend, or otherwise set aside any of the furlough requirements as necessary.

Section 4. Incorporation by Reference. (1) The Voluntary Furlough Request Form, July 2010, is incorporated by reference.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Dinah T. Bevington

(1) Provide a brief summary of:

(a) What this administrative regulation does: This regulation establishes the requirements for implementing furlough plans for all state Executive Branch employees.

(b) The necessity of this administrative regulation: 2010 Extra, Sess. Ky. Acts ch. 1, Part IV, 11(g) established that the Secretary of Personnel must promulgate an administrative regulation prior to the furlough of any employee. The regulation is necessary to implement the authorized furloughs, establish the criteria which must be included, and also notify employees of the consistent guidelines which will apply to all employees when the furloughs are implemented.

(c) How this administrative regulation conforms to the content of the authorizing statutes: 2010 Extra, Sess. Ky. Acts ch. 1, Part IV, 11(g) requires the Personnel Secretary to promulgate this regulation prior to exercising the authority with which the Personnel Cabinet, the Governor, and the Office of the State Budget Director were expressly granted. Further, KRS 18A.030 allows the Secretary to promulgate comprehensive administrative regulations consistent with the provisions of KRS Chapters 13A and 18A.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This regulation will assist in the effective administration of the requirements of those set forth in 2010 Extra. Sess. Ky. Acts ch. 1, Part IV, 11(g), as it establishes when the furloughs will be implemented and the additional guarantees that all employees will receive.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: N/A

(b) The necessity of the amendment to this administrative regulation: N/A

(c) How the amendment conforms to the content of the authorizing statutes: N/A

(d) How the amendment will assist in the effective administration of the authorizing statutes: N/A

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This regulation impacts all state Executive Branch Cabinets and independent agencies.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Each entity will have to review how these furlough requirements will impact their workforce and the services the cabinet or agency provides to the Commonwealth of Kentucky. This will involve the determination of whether any staff should be exempted from any specific furlough requirement, per the limitations set forth in the regulation. Each entity will then be responsible for implementation of the furloughs, as well as the oversight and tracking of the unpaid leave of its employees. Proper notice to each employee is required, which is handled at the cabinet/agency level, as well as the handling of additional questions or issues which may arise.

STATEMENT OF EMERGENCY
601 KAR 1:018E

The current language of this administrative regulation forbids the movement of self propelled farm implements on Kentucky interstate highways, toll roads, or fully controlled access highways. However, the reclassification of many streets in Kentucky cities is resulting in a change in the flow of traffic from one (1) way streets to two way streets. This emergency administrative regulation is being promulgated to address the imminent risk to public safety by the presence of overdimensional self propelled farm implements traveling in two way traffic on city streets. The emergency language will allow a self propelled farm implement to obtain a permit to travel on a fully controlled access highway within specific safety parameters thus avoiding travel against oncoming traffic on two (2) way city streets. This emergency regulation is also being promulgated to alleviate a situation that is causing an economic hardship and a potential loss of jobs and revenue to the citizens of Fayette County and the Commonwealth. This emergency administrative regulation adds language that will permit overweight and overdimensional loads originating in Fayette County to travel on Interstates 64 and 75 in Fayette County during rush hour traffic. This emergency administrative regulation shall be replaced by an ordinary administrative regulation filed simultaneously with the emergency administrative regulation. The ordinary administrative regulation is identical to the emergency administrative regulation.

and processes used in the Supplemental Nutrition Assistance Pro-
gram (formerly called the Food Stamp Program) on August 1, 2010,

921 KAR 3:030E

This emergency administrative regulation, 921 KAR 3:030E, Application process, is, necessary due to federally required changes to the application forms and processes used in the Supplemental Nutrition Assistance Program (formerly called the Food Stamp Program) on August 1, 2010, as provided in the final rule issued January 2010 for the Farm Security and Rural Investment Act of 2002; and guidance from the Kentucky State Board of Elections regarding voter registration. The amendment ensures timely implementation of, and compliance with, the new federal final rule; provides for the alignment of the Supplemental Nutrition Assistance Program with other public assistance programs, such as Kentucky Transitional Assistance Program (K-TAP), Medicaid, and State Supplementation, for the consuming public’s ease; and re-issues voter registration material in accordance with the National Voter Registration Act. An ordinary administrative regulation would not allow the agency to meet the federally required implantation date of August 1, 2010, or have timely congruency with the National Voter Registration Act. This ordinary administrative regulation is identical to the emergency administrative regulation. This emergency administrative regulation shall be replaced by an ordinary administrative regulation.

(b) Acoustic calibration shall be performed at least annually in accordance with subsection (7)(b) of this section: Acoustic Calibration of Audiometers. 1. Test frequencies below 500 Hz and above 8,000 Hz may be omitted from this check.

2. Deviations of fifteen (15) decibels or greater shall require an exhaustive calibration.

4(a) The language relating to audiometric test requirements for occupational noise exposure in paragraph (b) of this subsection shall apply in lieu of 29 C.F.R. 1910.95(h)(5)(iii).

(b) An exhaustive calibration shall be performed at least every two (2) years in accordance with sections 4.1.2; 4.1.3; 4.1.4; 4.2; 4.4.1; 4.4.2; 4.4.3; and 4.5 of the American National Standard Specification for Audiometers, S3.6-1969. Test frequencies below 500 Hz and above 8,000 Hz may be omitted from this calibration.

a. The equipment necessary to perform these measurements shall be a sound level meter, octave-band filter set, and a National Bureau of Standards 9A coupler.

b. In making these measurements, the accuracy of the calibrating equipment shall be sufficient to determine that the audiometer is within the tolerances permitted by American National Standard Specification for Audiometers, S3.6-1969.

3. Sound pressure output check.

a. Place the earphone coupler over the microphone of the sound level meter and place the earphone on the coupler.

b. Set the audiometer’s hearing threshold level (HTL) dial to seventy (70) dB. c. Measure the sound pressure level of the tones that each test frequency from 500 Hz through 8,000 Hz for each earphone.

d. At each frequency the readout on the sound level meter should correspond to the levels in Table E-1 or Table E-2 of this administrative regulation, as appropriate for the type of earphone, in the column entitled “sound level meter reading”. 4. Linearity check.

a. With the earphone in place, set the frequency to 1,000 Hz and the HTL dial on the audiometer to seventy (70) dB.

b. Measure the sound levels in the coupler at each ten (10) dB decrement from seventy (70) dB to ten (10) dB, noting the sound level meter reading at each setting.

c. For each ten (10) dB decrement on the audiometer the sound level meter shall indicate a corresponding ten (10) dB decrease.

d. This measurement may be made electrically with a voltmeter connected to the earphone terminals.

5(a) Tolerances. If any of the measured sound levels deviate from the levels in Table E-1 or Table E-2 of this administrative regulation plus or minus three (3) dB at any test frequency between 500 and 3,000 Hz, four (4) dB at 4,000 Hz, or five (5) dB at 6,000 Hz and 8,000 Hz, the employer shall consider conducting an exhaustive calibration.

b. The employer shall conduct an exhaustive calibration if the deviations are greater than ten (10) dB at any test frequency.

(b) The necessity of this administrative regulation: This regulation is necessary for the efficient and uniform application of the requirements of House Bill 166, which amended current sections of and enacted new sections in KRS Chapter 380. KRS 380.050 requires the Attorney General to promulgate administrative regulations to ensure the proper administration and enforcement of KRS Chapter 380, and KRS 380.040(5) requires a debt adjuster to file an initial registration form and renew the registration annually in accordance with administrative regulations promulgated by the Attorney General.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS Chapter 380, as amended and enacted by House Bill 166, imposes certain requirements for debt adjusters, including registration (KRS 380.040(5)), trust accounts (KRS 380.040(1)(b)), fee limits (KRS 380.040(2)), annual audits (KRS 380.040(6)), insurance coverage (KRS 380.040(7)), a surety bond or irrevocable letter of credit in lieu thereof (KRS 380.040(8)), prohibited acts and representations (KRS 380.040(9)), consumer cancellation rights and notice thereof in the contract KRS 380.060, privacy and information security regarding consumer’s personal information KRS 380.070, 380.080 and 380.090, and requirements and limitations on contracts (KRS 380.10). This administrative regulation establishes the registration process and certain requirements for the trust accounts, annual audit, insurance coverage, surety bond and irrevocable letter of credit applicable to debt
adjurers, and incorporates a registration form, an audit checklist, a bond form, and an irrevocable letter of credit form to be utilized by persons subject to this administrative regulation.

(d) How this administrative regulation currently assists or will assist the persons affected by this administrative regulation will assist in the effective administration of KRS Chapter 380, amended and enacted by House Bill 166, by establishing the registration process and certain requirements for the trust accounts, annual audit, insurance coverage, surety bond and irrevocable letter of credit applicable to debt adjusters, and incorporating an amended registration form, an amended audit checklist, a new bond form, and a new irrevocable letter of credit form to be utilized by persons subject to this administrative regulation.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendments to the existing administrative regulation will create and incorporate a bond form and an irrevocable letter of credit form to be utilized by persons subject to this administrative regulation. The amendments will also amend the existing registration form and audit checklist utilized by persons subject to this administrative regulation to require additional information or materials relating to certain new requirements for debt adjusters as amended and enacted by House Bill 166 and to otherwise revise certain information or materials currently required.

(c) How the amendment conforms to the content of the authorizing statutes: KRS Chapter 380, as amended and enacted by House Bill 166, imposes certain requirements for debt adjusters, including registration (KRS 380.040(5)), trust accounts (KRS 380.040(1)(b)), fee limits (KRS 380.040(2)), annual audits (KRS 380.040(6)), insurance coverage (KRS 380.040(7)), a surety bond or irrevocable letter of credit in lieu thereof (KRS 380.040(8)), prohibited acts and representations (KRS 380.040(9)), consumer cancellation rights and notice thereof in the contract (KRS 380.060), prohibitions (KRS 380.040(3): The specific cost of compliance may vary by debt adjuster based on a number of factors, including, but not limited to, the face amount and deductible amount of the insurance obtained by the debt adjuster, the amount of the surety bond obtained by the debt adjuster, and the cost of an irrevocable letter of credit if the debt adjuster provides that in lieu of the surety bond. Some costs of compliance may decrease because the amended administrative regulation does not require copies of certain organizational documents (such as, for instance, articles of incorporation) and does not require a complete copy of the insurance policy or policies if they were provided with the previous registration.

(3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take in order to comply with this administrative regulation or amendment: The enactment of House Bill 166 adds additional requirements and amends some existing requirements for a person engaging in debt adjusting with Kentucky residents. This administrative regulation will impact debt adjusters by amending the registration process to include certain of the additional requirements, incorporating an amended registration form and an amended audit checklist form to be utilized by persons subject to this administrative regulation, and incorporating a bond form and an irrevocable letter of credit form to be utilized by persons subject to this administrative regulation. Debt adjusters registered with the Attorney General prior to the effective date of this amended administrative regulation will be required to use the amended registration form and the amended audit checklist form at the time of filing a renewal registration. All debt adjusters will be required to comply with the new surety bond or irrevocable letter of credit requirement enacted in House Bill 166 as of the effective date of that law on July 15, 2010, and shall use the surety bond form or irrevocable letter of credit form incorporated by reference with this amended administrative regulation. Additionally, if compliance with the requirements of House Bill 166 will cause material changes to a current registration with the Attorney General, the debt adjuster shall notify the Attorney General within 30 days of the change as currently required by Section 6(2) of this administrative regulation. This could include, for example, changes to a sample contract form or insurance policy.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? The specific cost of compliance may vary by debt adjuster based on a number of factors, including, but not limited to, the face amount and deductible amount of the insurance obtained by the debt adjuster, the amount of the surety bond obtained by the debt adjuster, and the cost of an irrevocable letter of credit if the debt adjuster provides that in lieu of the surety bond. Some costs of compliance may decrease because the amended administrative regulation does not require copies of certain organizational documents (such as, for instance, articles of incorporation) and does not require a complete copy of the insurance policy or policies if they were provided with the previous registration.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? By complying with this administrative regulation, a person engaging in debt adjusting with Kentucky residents will be registered with the Attorney General as required by KRS 380.040(5).

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: None

(b) On a continuing basis: None

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: General fund appropriations and agency receipts.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change, if it is an amendment: None expected at this time.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: No, the administrative regulation does not create any fees. KRS 380.040(5) currently provides for a fee of $250.00 to register as debt adjuster.

(9) TIERING: Tiering is not applied in this administrative regulation because the administrative regulation does not disproportionately impact certain classes of regulated entities and the registra-
tion requirements of the statutes apply uniformly to any person that engages in debt adjusting.

KRS 150.440 authorizes the Department to set seasons and creel limits for rough fish. KRS 150.470 authorizes the department to set size, season, and possession limits.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will fill the purposes of KRS 150.025, KRS 150.440, and KRS 150.470 by regulating the devices and methods used, areas open, and setting the seasons and limits that are to be used when taking fish with non-traditional fishing methods.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment will limit harvest of blue and channel catfish using jugs, limb lines, and trot lines to 15 fish per day and
only one over 25 inches in Taylorsville Lake. It will also allow unlimited harvest and culling of Asian carp.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to prevent over harvest of catfish in Taylorsville Lake. Blue catfish are easily targeted using these nontraditional fishing methods, and the catfish are currently harvested in high numbers. Our intent for stocking blue catfish in this reservoir was to establish a trophy fishery, but most of the fish are harvested before they can attain trophy sizes. It is also necessary to promote unlimited harvest of Asian carp that are posing threats to Kentucky’s endemic fish species.

(c) How the amendment conforms to the content of the authorizing statutes: See (1)(c) above.

(d) How the amendment will assist in the effective administration of the statutes: See (1)(d) above.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All individuals who fish using nontraditional methods in Taylorsville Lake in Kentucky will be affected by this administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (2) have to take to comply with this administrative regulation or amendment: Individuals who fish with nontraditional gear on Taylorsville Lake will be limited to harvest 15 catfish of which only one will be over 25 inches.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There will be no cost to the anglers.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): By complying with this administrative regulation, the anglers will eventually have the opportunity to catch larger catfish, and since the creel restriction will affect only a few anglers, more anglers will catch more catfish. Anglers harvesting larger numbers of Asian carp will help control the overabundant species.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: This administrative regulation change will result in no initial change in cost.

(b) On a continuing basis: There will be no additional cost on a continuing basis.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The source of funding for enforcement is the State Game and Fish Fund.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: It will not be necessary to increase any other fees or to increase funding to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: No new fees will be established.

(9) TIERING: Is tiering applied? Tiering was not applied because all anglers are treated equally.

**FISCAL NOTE ON STATE OR LOCAL GOVERNMENT**

Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation: KRS 150.025 authorizes the Department to promulgate administrative regulations to regulate creel limits and possession limits of fish, to fix open seasons, to regulate the type of any device and methods used, and areas that are open to take fish. KRS 150.470 authorizes the department to set size, season, and possession limits.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect:

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? No revenue will be generated by this administrative regulation during the first year.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? No revenue will be generated by this administrative regulation during subsequent years.

(c) How much will it cost to administer this program for the first year? There will be no additional costs incurred for the first year.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact person: Millie Ellis
(1) Provide a brief summary of:
(a) What this administrative regulation does:
This administrative regulation establishes standards of performance for new indirect heat exchangers with heat input capacity between one (1) million and 250 million BTU heat input per hour.
(b) The necessity of this administrative regulation:
This administrative regulation regulates indirect heat exchangers as part of the Kentucky State Implementation Plan (SIP).
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 224.10-100(5) requires the Energy and Environment Cabinet to promulgate administrative regulations for the prevention, abatement, and control of air pollution. This
Volume 37, Number 3 – September 1, 2010
administrative regulation provides for the control of emissions of specific pollutants of concern from new indirect heat exchangers with heat input capacity between one (1) million and 250 million BTU heat input per hour or more that are not subject to a standard for each pollutant and effluent under a federal New Source Performance Standard (NSPS) as required under the Kentucky SIP.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The administrative regulation regulates indirect heat exchangers as required under the Kentucky SIP.

(2) If this is an amendment to an existing administrative regulation: provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment to this administrative regulation adds clarifying language to Section 3(3), which allows the use of an alternative method for determining allowable emission rate at the source. The language at Section 7(7), which provides for approval of the alternative monitoring system, PM CEMS, to be available to regulated entities for monitoring emissions from indirect heat exchangers, is also corrected and clarified to ensure the U.S. EPA's approval of this revision to the Kentucky State Implementation Plan (SIP). The amendment also restores the reference to "affected facilities" throughout the administrative regulation, which was inadvertently changed in the previous amendment.

(b) The necessity of the amendment to this administrative regulation: It is necessary to amend this administrative regulation to clarify the provision in Section 7(7), which allows the use of particulate matter continuous emissions monitoring (PM CEMS) so that use of this alternative will be approvable as a revision to the Kentucky SIP. After the revision to this administrative regulation is effective, source-specific SIP revisions will no longer be necessary for sources approved by the Cabinet on a case-by-case basis to use PM CEMS as an alternative to COMS. While this is the only substantive amendment being proposed, existing regulatory language has been further amended to clarify provisions in Section 3 and to restore references to "affected facilities". Amendments in formatting and grammar were also necessary in order to comply with KRS Chapter 13A.

(c) How the amendment conforms to the content of the authorizing statutes: The administrative regulation, as amended, conforms to KRS Chapter 224 in that it provides the same test method alternatives that are allowed under the federal regulation, 40 C.F.R. Part 60, Subpart D.

(d) How the amendment will assist in the effective administration of statutes: The administrative regulation, as amended, will provide sources with additional reference methods that are approved by the cabinet and the U.S. EPA. This will allow the collection and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation. This administrative regulation will continue to apply to indirect heat exchangers with heat input capacity between one (1) million and 250 million BTU heat input per hour or more.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: While owners or operators of indirect heat exchangers subject to this administrative regulation will continue to be required to monitor the emissions from these units and to maintain the units so that emissions are within permitted limits, the amendment results in no new requirements for sources. Instead, the amendment provides additional U.S. EPA-approved flexibility to sources for demonstrating compliance.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the identified entities in question (3): There are no added costs resulting from this amendment, but rather, the amendment will result in cost savings to regulated sources.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): As a result of this amendment, sources will have greater flexibility in choosing reference methods for monitoring emissions and demonstrating compliance for the opacity standard.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: There are no additional costs associated with this amendment.

(b) On a continuing basis: While there are no new costs associated with the amendment to this administrative regulation, continuing costs are included in the Division for Air Quality's normal day-to-day operating budget.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: No new revenue is required because the funding for this program has been included in the Division for Air Quality's operating budget.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. No increase in fees or funding is necessary to implement the amendment to this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees. This administrative regulation does not establish any fees, nor does it directly or indirectly increase any fees.

(9) TIERING: Is tiering applied? Consistent with the federal regulation for indirect heat exchangers, this administrative regulation is tiered by heat input capacity size and by the variations in fuels used.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Jonathan Buckley
(1) Provide a brief summary of:
(a) What this administrative regulation does: This regulation established standards for the practice of land surveying by professional land surveyors in Kentucky.
(b) The necessity of this administrative regulation: This regulation was necessary in order to establish a consistent, written set of standards for the practice of land surveying in Kentucky so that all professional land surveyors know what is expected of them in the areas addressed by the regulation. Additionally, this amendment to the existing regulation sets out standards for the use of newer technology not addressed by the existing regulation.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 322.290(1) authorizes the board to administer KRS Chapter 322. KRS 322.290(12) requires the board to adopt appropriate standards of practice for professional land surveyors in Kentucky. This administrative regulation establishes standards of practice for professional land surveyors in Kentucky.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: It establishes written requirements for the practice of land surveying in Kentucky so that licensees will understand what is required of them in the areas addressed by the regulation, and board staff can enforce such requirements.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: It will clarify the existing regulation with regard to the requirements of performing boundary surveys, set standards for newer technology used in performing boundary surveys in Kentucky, set standards for written disclosure of work by licensees other than boundary surveys, but falling within the definition of land surveying in Kentucky.
(b) The necessity of the amendment to this administrative regulation: The amendment is necessary in order to require that standards be established and updated for the practice of land surveying in Kentucky so that licensees know what is expected of them in the performance of their work, so that the public is protected by the requirement for standards for work by the professional land surveyor, and so that standards be published for disciplinary action purposes for any failure of a licensee to meet those standards. Without this regulation, the work product delivered to the public may be meaningless, and enforcement would not be possible without a standard to measure the actions and omissions by licensees against. Established standards of performance of professional services benefit the public and enforcement of violations of those standards protect the public.
(c) How the amendment conforms to the content of the authorizing statutes: KRS 322.290(1) authorizes the board to administer KRS Chapter 322. KRS 322.290(12) requires the board to adopt appropriate standards of practice for professional land surveyors in Kentucky.
(d) How the amendment will assist in the effective administration of the statutes: It will allow us to more effectively investigate complaints as required by KRS 322.190.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: It will affect the approximate 1,800 licensees. However, since this is an amendment to an already existing regulation, professional land surveyors presently know that they must meet standards adopted by the board in the performance of their professional work.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: They will have to abide by the standards adopted by the board in the performance of their work.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There should be little if any, additional cost involved to the licensees; the standards reflect in large measure, what competent professional land surveyors already do in the performance of their work.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Licensees will produce a quality work product and they will be able to support their work product by the documentation required by the regulation, in the event of any enforcement action.
(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: $0
(b) On a continuing basis: $0
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: No funding is necessary.
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in funding will be necessary.
(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: No fees are established or increased as a result of this proposed amendment.
(9) TIERING: Is tiering applied? Tiering was not used because this regulation should not disproportionately affect any particular group of people.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contract Person: William Monterosso

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the registration and reporting requirements that an unemployed worker must meet to draw benefits, the dates a worker must claim benefits to be valid, the length of time a claim may be backdated, and the procedures for electronic, telephone and mail claims.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish procedures for unemployed workers to comply with while receiving unemployment insurance benefits.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 341.115 (1) authorizes the secretary to promulgate administrative regulations deemed necessary or suitable for the proper administration of KRS Chapter 341.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will specify the requirements for unemployed workers to register and report to the Office of Employment and Training, Division of Unemployment Insurance.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation? This amendment will add one additional week for unemployed workers to request their initial benefits. Currently, the regulation states that an unemployed worker shall claim his benefits during the calendar week following the second week of the period. The amendment would allow for benefits to be claimed in the second week as well.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to provide service to the
unemployed worker. Currently if an initial claim for benefits is filed late in the week of separation the claimant may only have one day to request benefits. This amendment would allow for an additional week.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 341.115 authorizes the secretary to promulgate administrative regulations deemed necessary or suitable for the proper administration of KRS Chapter 341.

(d) How the amendment will assist in the effective administration of the statutes: This amendment will provide a service to the unemployed workers. There will be a positive impact to the unemployment offices located throughout the state as the need for unemployed workers to make requests for backdating and the issuance of manual payments decreases.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: There are approximately 8,000-9,000 initial claims for unemployment insurance benefits made each week in Kentucky. This change would provide an additional service to those individuals. The Office of Employment and Training would be responsible for updating the current processing system to accommodate this request. Also, all Kentucky employers may be impacted by this regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: It would not be necessary for the unemployed worker to take any steps to comply with this amendment. The Office of Employment and Training would need to provide technical resources to accommodate the necessary programming updates.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There will be no cost to the unemployed worker. The Office of Employment and Training will be responsible for funding the technical upgrades. There may be a slight increase in benefit charges to employers’ reserve accounts as benefits that were once not payable may now be.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The unemployed worker will receive benefits otherwise missed as a result of an untimely request. The Office of Employment and Training will experience a decrease in the issuance of determinations and appeal hearings specific to this topic.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: It will be necessary that changes are made to the processing system. These programming changes will be negligible in costs and absorbed in the course of normal operating expenses.

(b) On a continuing basis: There is no cost on a continuing basis.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation? Unemployment Insurance is entirely federally funded. Unemployment insurance administrative funds will be used to make the necessary programming changes.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new or by the change if it is an amendment: There will be no fees necessary for this change. The unemployment insurance program is entirely federally funded and technical changes necessary will be funded by unemployment insurance administrative funds.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees. This administrative regulation does not establish or increase any direct or indirect fees.

(9) TIERING: Is tiering applied? This amendment deals with the reporting requirements necessary for unemployed workers. The amendment will be applied uniformly to all individuals and tiering is not applicable.

together with horses of higher numbers, shall be grouped in the mutuel field as a single betting interest, and a wager on one (1) horse in the mutuel field shall be a wager on all horses in the same mutuel field.

(9) (a) If an error is made in calculating the payout on a winning wager, resulting in overpayment, the association shall be responsible for the amount between the correct payout and the amount paid.

(b) If the error in calculation results in a payout being too low, the amount between the correct payout and the amount paid shall be added to the net pool of the same position in the following race on the same day or, if it is the last race of the day, then it shall be added to the net pool of the same position in the same race on the following day. If an error occurs in computing the daily double pool, the underpayment shall be added to the daily double pool of the following day.

If horses representing four (4) or fewer betting interests qualify to start in a live horse race, the association may prohibit both place and show wagering on that race.

(2) If a horse is scratched by the judges after wagering has commenced or a horse is prevented from running in a live horse race because of failure of a starting-gate door to open properly, and the number of actual starters representing different betting interests is:

(a) Reduced to five (5), the association may cancel show wagering on that race and the entire show pool shall be refunded upon presentation and surrender of show tickets; or

(b) Reduced to four (4) or fewer, the association may cancel both place and show wagering on that race and the entire place and show pool shall be refunded upon presentation and surrender of place and show tickets.

Section 17. Emergency Situation. If any emergency arises in connection with the operation of the pari-mutuel department not provided for by this administrative regulation, the pari-mutuel manager shall take immediate corrective action and shall by the quickest means possible notify the presiding judge and render a full report to the commission.

Section 18. Severability. In the event that any provision or administrative regulation of this chapter is found to be invalid, the remaining provisions of this chapter shall not be affected nor diminished thereby.
and horses excluded shall be numbered to indicate that they are not coupled in the field. Horses once excluded from the betting shall remain excluded during the day or race in which they are scheduled to start.

(14) A horse of the entry or field horses representing separate interests are started in a race in the number of post positions on the infield tote board, all horses in excess of a number of interests one (1) less than the number of post positions on the infield tote board shall be grouped in the betting as the field.

(15) A refund at cost value shall be made to all holders of a purchased ticket bearing the number of a horse in any race which has been scratched or withdrawn before the horse has become a starter in the race under the rules, unless the horse is part of an entry, and one (1) or more of the entry starts.

Section 3. Payments. (1) Payments due on all wagerers shall be made in conformity with the well-established practice of the pari-mutuel system. The practice shall work in dollars and not in the number of tickets. The minimum payoff of each one (1) dollar wagered shall be one (1) ten cents on each (1) horse. If no horse finishes the race, all money wagered on winning tickets shall be returned in full plus the profit. For a winning mutual pool, each licensee shall redistribute not less than one (1) dollar and ten (10) cents on each (1) dollar wagered. If there is a minus pool, the minimum payoff of each one (1) dollar wagered shall be one (1) dollar and five (5) cents.

(2) At the end of each race, the judges shall advise the manager of the pari-mutuel department by the use of the tote equipment or by telephone of the official placement of the horses, and no payoffs shall be made until the receipt of the notice.

(3) If a horse wins and there is no money wagered on him to win, the win pool shall be apportioned among the holders of the place tickets on that horse, if any, otherwise among holders of the show tickets.

(4) If no money has been wagered to place on a horse which is placed first or second in a race, the show pool for that race shall be apportioned among the holders of the place tickets on the other horses which were placed first or second.

(5) If no money has been wagered to show on a horse which has placed first, second, or third in a race, the show pool in that race shall be apportioned among the holders of show tickets on the other horses which were placed first, second, or third in that race.

(6) If only two (2) horses finish in any one (1) race, the show pool shall be figured the same as the place pool and monies shall be apportioned to the holders of show tickets on the two (2) finishing horses. If only one (1) horse finishes in any one (1) race, all three (3) pools shall be figured separately as straight pools and all the monies shall be awarded to the ticket Holders of the finishing horse. If no horse finishes the race, then the entire pool shall be returned to all the holders of show tickets.

(7) If two (2) horses finish in a dead heat for first place, the money in the win mutual pool shall be divided between the two (2) dead heaters according to their proportionate shares in the pool.

(8) If two (2) horses finish in a dead heat for second place, the division shall be made as follows. There shall be allotted to the pool of the winner of the race one half (1/2) of the place pool and the two (2) dead heaters one half (1/2) each of the remaining half of the place pool.

(9) If two (2) horses coupled in the betting as an entry or the field finish first and second, first and third, or second and third, and horses excluded shall be numbered to indicate that they are not coupled in the field. Horses once excluded from the betting shall remain excluded during the day or race in which they are scheduled to start.

(10) If one (1) horse of the entry or field finishes first or second and the other part of the entry or field finishes in a dead heat for third with another horse, the division of the net show pool shall be as follows: one half (1/2) of the net show pool shall be allotted to the pool of the entry, one third (1/3) to the nonentry horse not involved in the dead heat, and one sixth (1/6) to the nonentry horse finishing in the dead heat.

(11) If the entry or field horses finish first, second, and third, and no other tickets shall be sold to the entry or field tickets, and no other tickets shall participate.

(12) A multilateral pari-mutuel ticket that is not easily identifiable as a valid ticket shall not be accepted for payment.

(13) Claims for lost pari-mutuel tickets shall not be considered.

(14) If an error is made in calculation resulting in a price being too high, the association shall lose the amount between the proper price and the one paid. If the error in calculation results in a price being too low, the amount between proper price and price paid shall be added to the net pool of the same position in the following race on the same day or if it is the last race of the day then it shall be added to the net pool of the same position in the same race on the following day. If an error occurs causing underpayment on the last race of the entire racing meeting, the underpayment shall be paid to the Kentucky Revenue Cabinet.

Section 4. Daily Doubles. (1) There shall not be an exchange of daily double tickets after the purchaser has left the sales window.

(2) The daily double shall not be a parlay, and shall not have a connection with or relation to any other pari-mutuel pool conducted by the association, nor to any win, place, or show pool shown on the totislot board. All tickets on the daily double shall be calculated in an entirely separate pool. Without prior commission approval only one (1) daily double shall be permitted during any single program.

(3) All tickets shall be to win (straight) only. Entries and the field shall run as one (1) horse in the daily double. If two (2) or more horses in a race are coupled on the same totalizer ticket, there shall not be refunds, unless all of the horses so coupled are excluded before off time.

(4) Selections shall be made of one (1) horse for each of the two (2) races in the daily double by tote program numbers.

(5) If no ticket is sold combining the two (2) winners of the daily double, the pool shall then be apportioned equally between those having tickets including the winner in the first race of the daily double and those having tickets including the winner in the second race of the daily double in the same manner in which a place pool is calculated and distributed.

(6) If no ticket is sold on the winner of the first race of the daily double on any combination, the entire pool shall be apportioned to the holders of tickets on the winner of the second race of the daily double. If no ticket is sold on the winner of the second race of the daily double or any combination, the entire pool shall be apportioned to the holders of tickets on the winner of the first race of the daily double.

(7) If a dead heat to win results in either the first or second race of the daily double, the total pool shall be calculated as a place pool. If there is a dead heat for the winner of the first race of the daily double, the posting of payoff prices shall be made after the winner of the second race of the daily double is official.

(8) If no ticket is sold containing the numbers of either winner on any combination, the pool shall be allotted to those having tickets on that horse finishing no winner.

(9) If any horse or horses in the first half of the daily double are excused by the judges after the horses have left the paddock for the post, or after the betting on the daily double has been closed, or if any horse or horses in the first half of the daily double are prevented from racing because of failure of the arm or arms of the starting gate to open, the money wagered on any horse or horses excused or prevented from racing shall be deducted from the daily double pool and refunded to the purchaser or purchasers of tickets on the horse or horses excused or prevented from racing.

(10) If a horse is scratched from the second half of the daily double before it becomes a starter in the second half, but after the first half of the daily double has been run, all daily double tickets combining the scratched horse in the second race of the daily double with the actual winner of the first race of the daily double shall be paid a price equivalent to that fraction of the net pool derived by dividing the net pool by the total purchase price of all tickets combining the winner of the first race of the daily double with all horses in the second race of the daily double. The total payoff on all tickets combining the winner of the first race of the daily double with the scratched horse in the second race of the daily double as determined by the method of calculation set forth in this rule shall be deducted from the net daily double pool.

(11) The possible payoff prices shall be posted or announced to the public before the start of the last race of the daily double, and as soon as possible after the horses in the race of the last half of the daily double have entered upon the track on the way to the
Section 5. Perfecta Wagering. (1) The perfecta shall be a contract by the purchaser of a ticket combining two (2) horses in a single race, selecting the two (2) horses that will subsequently finish first and second in that race. Payment of the ticket shall be made only to the purchaser who has selected the same order of finish as officially posted.

(2) The perfecta shall not be a parlay and shall not have a connection with or relation to the win, place, or show betting and shall be calculated as an entirely separate pool.

(3) If no ticket is sold on the winning combination of a perfecta pool, the net pool shall be distributed equally between holders of tickets selecting the winning horse to finish first. If no ticket is sold on the winning combination of a perfecta pool or tickets selecting the winning horse to finish first, the net pool shall be distributed equally between holders of tickets selecting the second place horse to finish second.

(4) If no ticket is sold that would require distribution of a perfecta pool to a winner pursuant to subsection (3) of this section, the association shall make a complete and full refund of the perfecta pool.

(5) If a horse is scratched in the first race of the double perfecta, after the first race of the double perfecta has been declared "no race" or declared "no race" by the judges after the first daily post, the net perfecta pool shall be calculated and distributed as a place pool to holders of tickets of the winning combinations. If there is a dead heat between two (2) horses for second place, the perfecta pool shall be figured as a place pool, and the holders of tickets combining the winning horse and the two (2) horses finishing second shall participate in the payoff.

(6) If there is a dead heat for second place, and if no ticket is sold on one (1) of the two (2) winning combinations, the entire net pool shall be calculated as a win pool and distributed to those holding tickets on the other winning combination. If no ticket combines the winning horse with either of the place horses in the dead heat, the perfecta pool shall be calculated and distributed as a place pool to holders of tickets representing any interest in the net pool.

(7) If a horse is scratched in the second race of the double perfecta, after the first race of the double perfecta exchange ticket combines only one (1) horse, the net perfecta pool shall be open to make the exchange only after the first race has been declared official.

(8) If a horse is scratched in the second race of the double perfecta, after the first race of the double perfecta has been declared official, all exchange tickets combining the scratched horse shall become consolation tickets and shall be paid a price per dollar denomination calculated as follows: the net double perfecta pool (gross pool less commission) shall be divided by the total purchase price of all tickets combining the winners of the first race of the double perfecta. The quotient thus obtained shall be the price to be paid to holders of exchange tickets combining the scratched horse in the second race of the double perfecta. The entire consolation pool (number of eligible tickets times the consolation price) shall be deducted from the net double perfecta pool.

(9) If no ticket is sold on the winning combination of a quinella pool, the net pool shall then be apportioned equally between those having tickets including the horse finishing first and those having tickets including the horse finishing second in the same manner in which the place pool is distributed in a quinella pool.

(10) If no ticket is sold that would require distribution of a quinella pool to a winner as defined in this section, the association shall make a complete and full refund of the quinella pool.

(11) If a perfecta or quinella is scheduled to be held, each association shall print an abbreviated version of the rules established by this section on the day’s racing program.

Section 6. Quinella Wagering. (1) The quinella shall be a form of pari-mutuel wagering consisting of selecting the first two (2) horses that will subsequently finish first and second, or first, second, and third, the winning combination shall be the coupled horses and the horse placed immediately behind such entry or field.

(2) Double perfecta tickets shall be sold only at double perfecta windows and only from automatic double issue machines.

(3) Each bettor purchasing double perfecta tickets shall designate his two (2) selections as the first two (2) horses to finish in that order in the first of two (2) consecutive races.

(4) If no ticket is sold on the winning combination of a perfecta pool, the net pool shall be distributed as a consolation pool to those having tickets including the horse finishing first and second in each of two (2) consecutive races in the exact order as officially posted.

(5) Double perfecta tickets shall be sold only at double perfecta windows and only from automatic double issue machines.

(6) Each bettor purchasing double perfecta tickets shall designate his two (2) selections as the first two (2) horses to finish in that order in the first of two (2) consecutive races.

(7) If no ticket is sold on the winning combination of a perfecta pool, the net pool shall be distributed as a consolation pool to those having tickets including the horse finishing first and second in each of two (2) consecutive races in the exact order as officially posted.

(8) If no ticket is sold on the winning combination of a perfecta pool, the net pool shall be distributed as a consolation pool to those having tickets including the horse finishing first and second in each of two (2) consecutive races in the exact order as officially posted.

(9) If no ticket is sold on the winning combination of a perfecta pool, the net pool shall be distributed as a consolation pool to those having tickets including the horse finishing first and second in each of two (2) consecutive races in the exact order as officially posted.

(10) If no ticket is sold on the winning combination of a perfecta pool, the net pool shall be distributed as a consolation pool to those having tickets including the horse finishing first and second in each of two (2) consecutive races in the exact order as officially posted.

(11) If no ticket is sold on the winning combination of a perfecta pool, the net pool shall be distributed as a consolation pool to those having tickets including the horse finishing first and second in each of two (2) consecutive races in the exact order as officially posted.

(12) If for any reason the second race of the daily double is cancelled or declared “no race” by the judges after the first daily double race is declared official, the net daily double pool shall be distributed to wagering combinations which include the horse or betting interest which finished first in the first daily double race.

(13) If a daily double is scheduled to be held, subsections (1) to (12) of this section shall be printed in conspicuous places in the grandstand area and an abbreviated version shall be printed on the day’s racing program, and a notice shall be printed on the program as follows: “Return Your Tickets Until The Result of the Daily Double Has Been Posted.”

(14) If there is a dead heat for place in the second race of the double perfecta races, the double perfecta pool shall be divided, calculated, and distributed as a place pool to the holders of double perfecta exchange tickets combining the first horse and either of the place horses. If there is a dead heat to place and there are no tickets sold on one (1) combination, then the other combination having the winning horses shall be declared the winner. If no exchange tickets combine the winning horse with either of the place horses in the dead heat, the double perfecta pool shall be calculated and distributed as a win pool to holders of tickets representing any interest in the net pool.

(15) If for any reason the second of the double perfecta races is cancelled or declared “no race”, the pool shall be calculated as a straight pool and shall be distributed among the holders of the tickets combining the first two (2) horses. Tickets combining the first horse and the scratched horse are not eligible for double perfecta exchange tickets and also distributed to holders of the double perfecta exchange tickets.

(a) The Big Q shall consist of selecting the quinella (the first two (2) horses to finish) of each of two (2) consecutive races. Pari-mutuel wagering tickets shall be sold upon the first race of the (2) races. The Big Q pool shall be the price to be paid to holders of exchange tickets and shall be calculated as follows: The net Big Q pool (gross pool less commission) shall be divided by the total purchase price of all tickets combining the winnings of the first race of the Big Q. The quotient obtained shall be the price to be paid to holders of exchange tickets combining the scratched horse in the second race of the Big Q. The entire consolation pool (number of eligible tickets times the consolation price) plus the breakage shall be deducted from the net Big Q pool.

(i) If no ticket is sold as a winning combination in the first race of the Big Q, the Big Q pool shall be divided among those having tickets including the horse finishing first or second and the distribution tickets combining the first horse and either of the place horses shall be eligible for exchange for Big Q exchange tickets.

(j) If no Big Q exchange ticket is sold on the winning combination, the net pool shall be apportioned equally between those having tickets including the horse finishing second in the same manner in which a place pool is calculated and distributed.

(k) If a Big Q exchange ticket combines only one (1) of the winning horses and no Big Q exchange ticket combines both of the winning horses, the entire pool shall be distributed as a straight pool to the holders of those tickets.

(l) If no exchange ticket includes either the first or second horse of the second half of the Big Q, the entire net pool shall be distributed as a straight pool to all holders of exchange tickets and winning combinations of the first half that have not been exchanged.

(n) If for any reason the first race of the Big Q races is cancelled or declared “no race”, a full and complete refund shall be made from the Big Q pool.

(o) If for any reason the second of the Big Q races is cancelled or declared “no race”, the purses established for the first race of the Big Q shall be divided among the holders of tickets combining the first horse and either of the place horses. If the purses are declared “no race”, the exchange windows have closed, all exchange windows shall be open to make the exchange only after the first race has been declared official and the windows shall close at post time at the start of the second race of the Big Q races.

(p) If a winning Big Q ticket from the first race is not presented for exchange within the time provided, the bettor shall forfeit all rights to any distribution or refund unless the second half of the Big Q is cancelled or declared “no race”. If no exchange ticket includes either the first or second horse of the second half of the Big Q, the bettor shall forfeit all rights to the payoff unless the second half of the Big Q is cancelled or declared “no race”.

(s) If there is a dead heat for place in the first race of the Big Q, the Big Q pool shall be divided among those having tickets including the horse finishing first or second and the distribution tickets combining the first horse and either of the place horses shall be eligible for exchange for Big Q exchange tickets.

(t) If no Big Q exchange ticket is sold on the winning combination, the net pool shall be apportioned equally between those having tickets including the horse finishing second in the same manner in which a place pool is calculated and distributed.

(u) If a Big Q exchange ticket combines only one (1) of the winning horses and no Big Q exchange ticket combines both of the winning horses, the entire pool shall be distributed as a straight pool to the holders of those tickets.

(v) If no exchange ticket includes either the first or second horse of the second half of the Big Q, the entire net pool shall be distributed as a straight pool to all holders of exchange tickets and winning combinations of the first half that have not been exchanged.

(w) If there is a dead heat for place in the first race of the Big Q races, all Big Q tickets combining the first horse and either of the place horses shall be eligible for exchange for Big Q exchange tickets.

(x) If there is a dead heat for place in the second race of the Big Q races, the pool shall be calculated and distributed as a place pool to holders of tickets combining either of the place horses, except if any exchange tickets combining both horses in the dead heat for place, the Big Q pool shall be calculated and distributed as a place pool to holders of such tickets.

(y) If for any reason the first race of the Big Q races is cancelled or declared “no race”, a full and complete refund shall be made from the Big Q pool.

(z) If for any reason the second of the Big Q races is cancelled or declared “no race”, the purses established for the first race of the Big Q shall be divided among the holders of tickets combining the first horse and either of the place horses. If the purses are declared “no race”, the exchange windows have closed, all exchange windows shall be open to make the exchange only after the first race has been declared official and the windows shall close at post time at the start of the second race of the Big Q races.

(aa) If a winning Big Q ticket from the first race is not presented for exchange within the time provided, the bettor shall forfeit all rights to any distribution or refund unless the second half of the Big Q is cancelled or declared “no race”. If no exchange ticket includes either the first or second horse of the second half of the Big Q, the bettor shall forfeit all rights to the payoff unless the second half of the Big Q is cancelled or declared “no race”.

(bb) If a winning Big Q ticket from the first race is not presented for exchange within the time provided, the bettor shall forfeit all rights to any distribution or refund unless the second half of the Big Q is cancelled or declared “no race”. If no exchange ticket includes either the first or second horse of the second half of the Big Q, the bettor shall forfeit all rights to the payoff unless the second half of the Big Q is cancelled or declared “no race”.

(cc) If a winning Big Q ticket from the first race is not presented for exchange within the time provided, the bettor shall forfeit all rights to any distribution or refund unless the second half of the Big Q is cancelled or declared “no race”. Section 9. Trifecta Wagering. (1) The trifecta shall be a contract by the purchaser of a ticket combining three (3) horses in a single race, selecting the three (3) horses that will subsequently finish first, second, and third in that race. Payment of the ticket shall be made only to the purchaser who has selected the same order of finish as officially posted.

(2) The trifecta shall not be a parlay and shall have no connection or relation to the win, place, and show betting and shall be calculated as an entirely separate pool.

(3) Trifecta tickets shall not be sold in less than one (1) dollar denominations.

If a ticket is sold on the winning combination of a trifecta pool, the net pool shall be distributed to the holders of tickets selecting the win and place finishers in that order. If no ticket is sold combining the win and place finish, the net pool shall be distributed to the holders of tickets selecting the winner.

(4) If no ticket is sold that requires distribution of the net trifecta pool to a winner pursuant to subsection (4) of this section, the association shall make a full refund of the trifecta pool.

(5) If there is a dead heat or dead heats, all trifecta tickets selecting the correct order of finish, counting a horse in a dead heat as finishing in either position dead heated, shall be winning tickets. The payoff shall be calculated as a place pool.

(6) If there is a scratch in the trifecta, no exchanges shall be made. All tickets which include the scratched horse shall be eliminated from further participation in the trifecta pool and shall be refunded.

(8) Those horses constituting an entry of coupled horses or those horses coupled to constitute a field in a race comprising the trifecta shall race as a single wagering interest for the purpose of trifecta pari-mutuel pool calculations and payouts to the public.

(9) Trifecta tickets shall be sold only by the licensee through pari-mutuel machines programmed to print all selections on one (1) ticket. Resale of such tickets from one (1) individual to another shall be prohibited and shall be grounds for ejection.

(10) Each association shall print in heavy type in a conspicuous place in its printed program all the provisions of this section and post printed copies of this section about the track.

(11) For the purpose of trifecta wagering, the trifecta race shall be broken down to consist of six (6) separate wagering interests.

(12) If a horse is scratched from the first race of the twin trifecta, all twin trifecta tickets on the scratched horse shall be refunded.

(13) If there is a dead heat in either the first or second half of the twin trifecta, the bettor may still collect the monetary value attached to the ticket, but shall forfeit all rights to any distribution of the second race twin trifecta pool.

(14) If there is no trifecta ticket issued accurately selecting the officially declared first three (3) finishers of the second race, the pari-mutuel pool shall be divided into two (2) separate pools of equal amounts.

(15) The money in the first part of the divided pool shall be distributed to the holders of the twin trifecta tickets selecting the first three (3) horses, in order, on the first designated twin trifecta race, in accordance with this administrative regulation. The term “first part of divided pool” shall mean one-half (1/2) of the net distributive pool of the total money wagered in the twin trifecta on the current program only, and specifically excluded therefrom shall be any carry-over of any special cumulative second race twin trifecta pool from any previous program.

(16) The second part of the divided pool shall be placed in a separate pool to be distributed to holders of second half twin trifecta tickets selecting the first three (3) horses, in order, on the second designated twin trifecta race, in accordance with this administrative regulation.

(17) In the first half of the twin trifecta only, if there is a failure to select, in exact order, the first three (3) horses, payoffs and exchanges shall be made on twin trifecta tickets selecting in the following order of priority:

(a) The first two (2) horses in exact order, if no such ticket is outstanding; then

(b) The first horse, and any ticket within the applicable above order of priority shall be deemed a winning ticket entitled the holder thereof to an exchange ticket, in addition to the usual payoff for first half winners; and

(c) Failure to select winner to win, regardless of the selection of the exact order of the second or third horse shall cause a refund to all twin trifecta tickets.

(18) After the official declaration of the first three (3) horses to finish in the first race of the twin trifecta, each bettor holding a winning ticket shall, prior to the running of the second twin trifecta race, exchange the winning ticket for both the monetary value established by the association’s mutuel department and a twin trifecta exchange ticket and shall select the three (3) horses to finish in the second race of the twin trifecta in exact order as officially posted. Failure to make the required exchange of the winning ticket in order to make the exchange. Each association conducting the twin trifecta shall designate all windows to be used as exchange windows unless after the half payoff is $900 or more in winnings (if such winnings are at least 300 times the amount of the single wager). If that occurs, valid exchange tickets shall be exchanged only at all windows designated IRS windows.

(19) A twin trifecta exchange ticket upon the second race of the twin trifecta shall not be issued except upon surrender of the winning twin trifecta ticket from the first race of the twin trifecta pursuant to subsection (9) of this section. Windows for the purpose of cashing and exchanging twin trifecta tickets shall be open only after the first race of the twin trifecta has been declared official and windows shall close when wagering closes for the race designated as the second half of the twin trifecta. More than one (1) race shall not be used between the race designated the first half of the twin trifecta and the race designated as the second half of the twin trifecta.

(20) If a winning twin trifecta ticket from the first race is not presented for cashing and exchange with the time provided, the bettor may still collect the monetary value attached to the ticket but shall forfeit all rights to any distribution of the second race twin trifecta pool and the carry-over jackpot.

(21) If a horse is scratched from the first race of the twin trifecta, all twin trifecta tickets on the scratched horse shall be refunded. If a horse is scratched from the second race of the twin trifecta, public address announcements shall be made and a reasonable time shall be given for exchange of tickets on the scratched horse.

(22) If there is a dead heat in either the first or second half of the twin trifecta, all twin trifecta tickets selecting the correct order of finish counting a horse in a dead heat as finishing in any position dead heated shall be winning tickets. If there is a dead heat occurring in the first half, the payoff shall be calculated as a win pool. If there is a dead heat occurring in the second half, contrary to the usual pari-mutuel practice, the aggregate number of winning tickets shall be divided into the net pool and be paid the same payoff price.

(23) If there is no twin trifecta ticket issued accurately selecting the officially declared first three (3) finishers of the second race, the pari-mutuel pool shall be divided into two (2) separate pools of equal amounts. The sum shall be termed the “carry-over jackpot”. Distribution
the special cumulative second race twin trifecta pool shall be made only upon the accurate selection, in exact order, of the first three (3) officially declared finishers of the second twin trifecta race except on the closing program of the meeting pursuant to subsection (16) of this section.

(15) If for any reason the second half of the twin trifecta is not declared "official", the winning ticket holders who have cashed their tickets on the first half and have received an exchange ticket shall be entitled to the remaining amount of the current program's divided pool.

(16) On the closing program of the meeting, the current carry-over, if any, plus the second half pool for that program shall be combined and distributed in the following manner:

(a) The total twin trifecta pool shall be distributed to the holders of twin trifecta exchange tickets showing the first three (3) horses to finish, in exact order.

(b) If there are no twin trifecta exchange tickets showing the first three (3) horses, in the exact order, the payoff shall be made on twin trifecta exchange tickets selecting the first two (2) horses in exact order.

(c) If there is no twin trifecta exchange ticket showing the first two (2) horses in exact order, the first horse, and any ticket within the applicable above order of priority shall be deemed a winning ticket entitling the holder to the total twin trifecta pool.

(d) If there are no valid exchange ticket holders, the total twin trifecta pool shall be distributed to the holders of first half tickets selecting the first two (2) horses in the exact order.

(e) If there are no first half twin trifecta tickets showing the first two (2) horses, the total twin trifecta pool shall be distributed to the holders of first half tickets selecting the horse of the first half of the twin trifecta.

(f) If no ticket is sold that requires the distribution of the net pool, established by this subsection, shall equally distribute the total twin trifecta pool to all first half ticket holders.

(17) Sales of twin trifecta tickets other than from the association's ticket issuing machines or from one (1) individual to another shall be deemed illegal. Exchange tickets shall not be transferable. Persons involved in the unauthorized transfer of exchange tickets shall be ejected.

Section 11. Superfecta Wagering. (1) The superfecta shall be a contract by the purchaser of a ticket combining four (4) horses in a single race, selecting the four (4) horses that subsequently finish first, second, third, and fourth in that race.

(2) Payment of the ticket shall be made only to the purchaser who has selected the same order of finish as officially posted.

(3) The superfecta pool shall not have a connection with or relation to the win, place, or show betting and shall be calculated as an entirely separate pool.

(4) Superfecta tickets shall not be sold in less than one (1) dollar denominations.

(5) If no ticket is sold on the winning combination of a superfecta pool, the net pool shall be distributed to the holders of tickets selecting the win, place, and show finishers in that order.

(a) If no ticket is sold combining the win, place, and show finish, the net pool shall be distributed to the holders of tickets selecting the win, and place finishers in that order.

(b) If no ticket is sold combining the win and place finish, the net pool shall be distributed to the holders of tickets selecting the winner.

(c) If no ticket is sold that requires distribution of the net superfecta pool to a winner pursuant to subsection (5) of this section, the association shall make a full refund of the superfecta pool.

(7) If there is a dead heat or dead heats, all superfecta tickets selecting the correct order of finish, counting a horse in a dead heat as finishing in either position dead heated, shall be winning tickets and the payoff shall be calculated as a place pool.

(8) If there is a scratch in the superfecta, exchanges shall not be made. All tickets which include the scratched horse shall be eliminated from further participation in the superfecta pool and shall be refunded.

(9) Those horses constituting an entry of coupled horses or those horses coupled to constitute the field in a race comprising the superfecta shall race as a single wagering interest for the purpose of superfecta pari-mutuel pool calculations and payouts to the public.

(10) Superfecta tickets shall be sold only by the licensee through the pari-mutuel machines programmed to print all sections on one (1) ticket. Resale of the tickets from one (1) individual to another shall be prohibited and shall be grounds for ejection.

(11) Each association shall print in heavy type in a conspicuous place in its printed program all the provisions of this section and post printed copies of this section about the track.

(12) For the purposes of superfecta wagering, the superfecta race shall be drawn to consist of eight (8) separate wagering interests.

(a) If a horse or horses are scratched from a superfecta race with the race now containing less than eight (8) separate wagering interests and wagering has not commenced, the superfecta pool shall be cancelled.

(b) If a horse or horses are scratched from a superfecta race and wagering has commenced, the superfecta race shall remain until there are less than six (6) separate wagering interests.

(13) Nothing in this section shall preclude the sale of combination superfecta tickets in the amount of twenty-four (24) dollars.

Section 12. Pick 3 Wagering. (1) The Pick 3 pari-mutuel pool is not a parlay and has no connection with or relation to any other pari-mutuel pool. The association shall make a complete refund of the win, place, or show pool shown on the totalizator board, nor to the administrative regulation governing the distribution of the other pools.

(2) A valid Pick 3 ticket shall be evidence of a binding contract between the holder of the ticket and the racing association, and the ticket shall constitute an acceptance of Pick 3 provisions and administrative regulations.

(3) The Pick 3 pari-mutuel pool consists of amounts contributed for a selection for win only in three (3) consecutive races designated by the association with the approval of the Kentucky Racing Commission. Each person purchasing a Pick 3 ticket shall designate the winning horse in each of the three (3) races comprising the Pick 3.

(4) Those horses constituting an entry of coupled horses or those horses coupled to constitute the field in a race comprising the Pick 3 shall race as a single wagering interest for the purpose of the Pick 3 pari-mutuel pool calculations and pay outs to the public. If any part of either entry or field racing as a single interest is a starter in a race, the entry or the field selection shall remain as the designated selection to win in that race for the Pick 3 calculation, and the selection shall not be deemed scratched.

(5) The net amount in the pari-mutuel pool subject to distribution among winning tickets shall be distributed among the holders of tickets which correctly designate the winners in all three (3) races comprising the Pick 3.

(6) If no ticket is sold combining the three (3) winners of the Pick 3, the net amount in the pari-mutuel pool shall be distributed among the holders of tickets which include the winners of at least two (2) of the three (3) races comprising the Pick 3.

(7) If no ticket is sold combining at least two (2) winners of the Pick 3, the net amount in the pari-mutuel pool shall be distributed among the holders of tickets which include the winner of any one (1) race comprising the Pick 3.

(8) If no ticket is sold that requires distribution of the Pick 3 pool to a winner pursuant to subsections (6) and (7) of this section, the association shall make a complete and full refund of the Pick 3 pool.

(9) If for any reason one of the races comprising the Pick 3 is cancelled, the net amount of the pari-mutuel pool shall be distributed as provided above in subsections (6), (7), and (8) of this section.

(10) If for any reason two (2) or more races comprising the Pick 3 are cancelled, a full and complete refund shall be made of the Pick 3 pool.

(11) If a Pick 3 ticket designates a selection in any one (1) or more races comprising the Pick 3 and that selection is scratched, excused, or determined by the judges or stewards to be a nonstarter in a race, the actual favorite, as evidenced by the amounts wagered in the final win pool of the race, shall be substituted for the actual favorite.
the nonstarting selection for all purposes, including pool calculations and payoffs. If the win pool total for two (2) or more favorites is identical, the substitute selection shall be the betting interest with the lowest program number.

If there is a dead heat for win between two (2) or more horses in any Pick 3 race, all of the horses in the dead heat for win shall be considered as winning horses in the race for the purpose of calculating the pool.

(13) A pari-mutuel ticket for the Pick 3 shall not be sold, exchanged, or cancelled after the time of the closing of wagering in the first of the three (3) races comprising the Pick 3, except for refunds on Pick 3 tickets as required by this administrative regulation, and a person shall not disclose the number of tickets sold in the Pick 3 pool or the number of tickets selecting winners of Pick 3 races until the time that the judges or stewards have determined the last race comprising the Pick 3 to be official.

Section 13. Pick 4 Wagering. (1) The Pick 4 pari-mutuel pool is not a parlay and has no connection with or relation to any other pari-mutuel pool conducted by the association, nor to any win, place, or show pool shown on the totalizer board, nor to the rules governing the distribution of the other pools.

(2) A valid Pick 4 ticket shall be evidence of a binding contract between the holder of the ticket and the racing association, and the ticket shall constitute an acceptance of Pick 4 provisions and administrative regulations as provided in this administrative regulation, and a person shall not disclose the number of tickets sold in the Pick 4 pool or the number of tickets selecting winners of Pick 4 races until the time that the judges or stewards have determined the last race comprising the Pick 4 to be official.

(3) The Pick 4 pari-mutuel pool consists of amounts contributed for a selection in any one (1) or more races comprising the Pick 4, and that selection is scratched, or determined by the judges or stewards to be a nonstarter in a race, the actual favorite, or evidenced by the amounts wagered in the final win pool of the race, shall be substituted for the nonstarting selection for all purposes, including pool calculations and payoffs. If the win pool total for two (2) or more favorites are identical, the substitute selection shall be the betting interest with the lowest program number.

(4) A pari-mutuel ticket for the Pick 4 shall not be sold, exchanged, or cancelled after the time of the closing of wagering in the first of the four (4) races comprising the Pick 4, except for refunds on Pick 4 tickets as required by this administrative regulation, and a person shall not disclose the number of tickets sold in the Pick 4 pool or the number of tickets selecting winners of Pick 4 races until the time that the judges or stewards have determined the last race comprising the Pick 4 to be official.

Section 14. Pick 4 Wagering with Carryover. (1) The Pick 4 with a carryover abides by the same requirements as stated in Section 13 of this administrative regulation with the exception of how the payoff is calculated.

(2) The net amount of the pari-mutuel pool subject to distribution among winning ticket holders shall be distributed among the holders of tickets which correctly designate the winners of all four (4) races comprising the Pick 4.

(3) If no ticket is sold combining the four (4) winners of the Pick 4, then a designated percentage of the net pool shall be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick 4 races.

(4) The remainder of the net pool shall be added to the carryover. The carryover amount shall then be added to the Pick 4 pool the following race day.

(5) If there is no ticket sold combining the four (4) winners of the Pick 4 and it is the final race of the meet, the entire net pool shall be distributed as a single price pool to those who selected the first-place finisher in the greatest number of races.

Section 15. The following types of wagering shall be permitted at all tracks given racing dates by the commission:

(1) Normal win, place, and show betting on each race;
(2) A daily double on the first and second race; and
(3) Any other methods of betting approved in advance by the commission.

Section 16. Betting Interests Involving More than One (1) Horse. If two (2) or more horses entered for the same race are determined by the commission to have common ties through ownership and are joined by the commission as a mutual entry, the mutual entry shall become a single betting interest and a wager on one (1) horse in a mutual entry shall be a wager on all horses in the same mutual entry. If the number of horses competing in a race exceeds the numbering capacity of the totalizer, the racing secretary shall assign the highest pari-mutuel numbers to horses so that the highest numbered horse within the numbering capacity of the totalizer together with horses of higher numbers, shall be grouped in the mutual field as a single betting interest, and a wager on one (1) horse in the mutual field shall be a wager on all horses in the same mutual field.

Section 17. Emergency Situation. If any emergency arises in connection with the operation of the pari-mutuel department not provided for by this administrative regulation, the pari-mutuel manager shall make an immediate decision and shall by the quickest means possible notify the presiding judge and render a full report to the commission.

Regulatory impact analysis and tiering statement

contact person: timothy a. west

1) Provide a brief summary of:

(a) What this administrative regulation does: This regulation establishes the regulatory framework that applies to all pari-mutuel wagering on live and historical horse races in the commonwealth. It authorizes pari-mutuel wagering on historical horse races and requires the use of seed pools for such wagers. It establishes where, and under what circumstances, pari-mutuel wagering on live and historical horse races may take place. it places requirements on how winning pari-mutuel wagers shall be paid. it requires associations to maintain records regarding all pari-mutuel wagering at their facilities and to make them available to the commission on request. it establishes guidelines for the equipment used by the association to offer pari-mutuel wagering and provides requirements for the sale of pari-mutuel tickets. it establishes minimum wagers and payouts for pari-mutuel wagers on live and historical horse races.

(b) The necessity of this administrative regulation: This regulation is necessary for the commission to regulate the integrity of pari-mutuel wagering in the commonwealth.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 230.215(2) grants the commission the authority to regulate conditions under which standardbred racing and pari-mutuel wagering thereon shall be conducted in the commonwealth. KRS 230.361(1) requires the commission to promulgate administrative regulations governing and regulating pari-mutuel wagering on horse races under the pari-mutuel system of wagering. this amendment is necessary to address innovations in pari-mutuel wagering.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: KRS 230.215(2) grants the commission the authority to regulate conditions under which standardbred racing and pari-mutuel wagering thereon shall be conducted in the commonwealth. this amendment provides the specific rules for pari-mutuel wagering on live and historical horse races in the commonwealth.

2) if this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) how the amendment will change this existing administrative regulation: The existing regulation required updating to address certain innovations in pari-mutuel wagering. this amendment takes those innovations into account the number of terminals at each association. the increased costs will likely include the addition of new employees and equipment. there will be no additional costs to owners, trainers, jockeys, or patrons placing pari-mutuel wagers.

(b) the necessity of the amendment to this administrative regulation: This amendment is necessary to address innovations in the way pari-mutuel wagering is offered and to bring uniformity among pari-mutuel wagering for thoroughbred, standardbred, and quarter horse/appaloosa/arabian racing. the amendment is also necessary to establish guidelines governing pari-mutuel wagering on historical horse races.

(c) how the amendment conforms to the content of the authorizing statutes: KRS 230.215(2) grants the commission the authority to regulate conditions under which standardbred racing and pari-mutuel wagering thereon shall be conducted in the commonwealth. This amendment provides the specific rules for pari-mutuel wagering on live and historical horse races in the commonwealth.

(d) how the amendment will assist in the effective administration of the statutes: KRS 230.215(2) grants the commission the authority to regulate conditions under which standardbred racing and pari-mutuel wagering thereon shall be conducted in the commonwealth. This amendment provides the specific rules for pari-mutuel wagering on live and historical horse races in the commonwealth.

3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation will affect the eight currently-licensed racing associations in the commonwealth, any applicant for a final racing association license, the owners and trainers who participate in racing in the commonwealth, the jockeys who ride in the commonwealth, the patrons who place pari-mutuel wagers on live and historical horse races in the commonwealth, and the commission.

4) Provide an analysis of how the entities identified in question (2) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The licensed racing associations will be required to follow the procedure outlined in the regulation to offer any exotic wager that has not been previously approved by the commission. if an association requests and is granted permission by the commission to offer pari-mutuel wagering on historical horse races, then the association will be required to conduct such pari-mutuel wagering in a designated area (as defined in 811 KAR 1:005). the associations that offer pari-mutuel wagering on historical horse races will also be required to enter into an agreement with the Kentucky Harness Horsemen's Association regarding the allocation of the takeout between the association and the horsemen and file a memorandum with the commission outlining the terms of the agreement.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): If an association requests and receives permission to offer pari-mutuel wagering on historical horse races, then the association will incur costs constructing or renovating a designated area (as defined in 811 KAR 1:005) to house the terminals. an association will also incur costs purchasing or leasing commission-approved terminals and hiring additional employees to staff the designated area and maintain the terminals. any association offering pari-mutuel wagering on historical horse races will also be required to reimburse the commission pursuant to KRS 230.240 to cover the commission's increased regulatory costs relating to compensation of additional personnel and other expenses.

The total increase in the commission's regulatory costs will be based on the number of associations that offer pari-mutuel wagering on historical horse races and the number of terminals at each association. the increased costs will likely include the addition of new employees and equipment. there will be no additional costs to owners, trainers, jockeys, or patrons placing pari-mutuel wagers.
(c) As a result of compliance, what benefits will accrue to the
entities identified in question (3): The associations will be able to
offer increased pari-mutuel wagering options to patrons and can
expect an increase in on-track attendance and total pari-mutuel
handle. The increased revenue can be used to maintain and im-
prove racing association facilities and supplement purses for live
races run at each association. The increased purses will help the
associations to compete with racing associations in neighboring
states that offer expanded gaming options. The owners, trainers,
jockeys will benefit from increased purses, as well as any im-
provements to an association’s facilities. The patrons will benefit
from any improvements to an association’s facilities as well as from
increased pari-mutuel wagering options.

(5) Provide an estimate of how much it will cost the administra-
tive body to implement this administrative regulation:

(a) Initially: See answer to question 4(b).

(b) On a continuing basis: With respect to pari-mutuel wagering
on historical horse races, the commission anticipates that the first
year such wagering is allowed will see the greatest increase in
regulatory costs. Thereafter, the commission expects the continu-
ing costs to be mainly for employee compensation and expenses
and equipment maintenance. The commission will be reimbursed
by the associations for additional employee compensation and other
expenses pursuant to KRS 230.240.

(6) What is the source of the funding to be used for the imple-
mentation and administration of this administrative regulation?
The commission anticipates that its regulatory costs will increase based
upon the number of associations that offer pari-mutuel wa-
gering on historical horse races and the number of terminals in-
stalled at each association.

(b) How much will it cost to administer this program for subse-
quent years? In subsequent years, the commission anticipates the
costs largely to come from employee compensation and expenses
and equipment maintenance. The commission will be reimbursed
for these costs by the associations.

Note: If specific dollar estimates cannot be determined, provide
a brief narrative to explain the fiscal impact of the administrative
regulation.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program,
   service, or requirements of a state or local government (including
   cities, counties, fire departments, or school districts)? Yes

2. What units, parts or divisions of state or local government
   (including cities, counties, fire departments, or school districts) will
   be impacted by this administrative regulation? The Kentucky Horse
   Racing Commission and the Department of Revenue.

3. Identify each state or federal statute or federal regulation
   that requires or authorizes the action taken by the administrative

4. Estimate the effect of this administrative regulation on the
   expenditures and revenues of a state or local government agency
   (including cities, counties, fire departments, or school districts) for
   the first full year the administrative regulation is to be in effect. The
   commission anticipates that its regulatory costs will increase based
   upon the associations offering pari-mutuel wagering on historical
   horse races. The increased costs will likely include the addition of
   new employees and equipment. The total increase will be based
   upon the number of associations that offer pari-mutuel wagering
   on historical horse races and the number of terminals at each associa-
   tion. The associations that offer pari-mutuel wagering on historical
   horse races will be required to reimburse the commission the costs
   associated with compensation of employees and other expenses
   pursuant to KRS 230.240. The Department of Revenue may have
   an increase in collection duties, but they are minimal and can be
   absorbed by the Department.

(a) How much revenue will this administrative regulation gen-
erate for the state or local government (including cities, counties,
fire departments, or school districts) for the first year? The amount
of tax revenue generated is dependent upon the number of termin-
als the associations install and operate. While that number is un-
known at this time, it is estimated that annual tax revenue will be
somewhat less than $1,000 per terminal.

(b) How much revenue will this administrative regulation gen-
erate for the state or local government (including cities, counties,
fire departments, or school districts) for subsequent years? Based
upon the experience of Oaklawn Park, the commission anticipates
that revenue will more than double from the first to the second
year, and more than triple from the second to the third year.

(c) How much will it cost to administer this program for the first
year? The increased regulatory costs of the commission will be
based upon the number of associations that offer pari-mutuel wa-
gering on historical horse races and the number of terminals in-
stalled at each association.

(d) How much will it cost to administer this program for subse-
quent years? In subsequent years, the commission anticipates the
costs largely to come from employee compensation and expenses
and equipment maintenance. The commission will be reimbursed
for these costs by the associations.

Note: If specific dollar estimates cannot be determined, provide
a brief narrative to explain the fiscal impact of the administrative
regulation.

(a) In the event of a dead heat for first: between horses representing the same betting interest, the place pool is distributed as if a win pool; if between horses representing two (2) different betting interests, the place pool is distributed as if one (1) betting interest finished first and the other finished second, or between horses representing three (3) different betting interests, the place pool is distributed as if a show pool.

(3) Show pool. The amounts wagered to show on the first three (3) horses to finish are deducted from the net pool to determine the profit; the profit is divided into three (3) equal amounts; one-third (1/3) of the profit is divided by the amount wagered to show on the first finisher, such quotient being the profit is divided by the amount wagered to show on the first finisher, such quotient being the profit per dollar wagered to show on the first finisher; and one-third (1/3) of the profit is divided by the amount wagered to show on the second finisher, such quotient being the profit per dollar wagered to show on the second finisher; and one-third (1/3) of the profit is divided by the amount wagered to show on the third finisher, such quotient being the profit per dollar wagered to show on the third finisher; payoffs include return of amount wagered and profit thereon as to each of the first three (3) finishers.

(a) In the event of a dead heat for first: between two (2) horses involving different betting interests, or three (3) horses involving three (3) different betting interests, the show pool is distributed as if no dead heat occurred; if between two (2) horses involving the same betting interest two-thirds (2/3) of the profit is allocated to wagers to show on the coupled betting interest, and one-third (1/3) allocated to wager to show on the other horse among the first three (3) finishers; if between three (3) horses involving one (1) betting interest, the show pool is distributed in proportion to each.

(b) In the event of a dead heat for second: between two (2) horses involving two (2) different betting interests, the show pool is distributed as if no dead heat occurred; if between horses involving the same betting interest, two-thirds (2/3) of the profit shall be allocated to wagers to show on the coupled betting interest, and one-third (1/3) allocated to wagers to show on the other horse finishing first, if between two (2) horses involving two (2) or three (3) betting interests, one-third (1/3) of the profit is allocated to wagers to show on the horse finishing first, and the remaining one-third (1/3) of the profit is divided equally by the number of betting interests finishing in a dead heat for second for proportionate distribution on wagers to show on each such betting interest finishing in a dead heat for second.

(c) In the event of a dead heat for third: between horses involving the same betting interests, the show pool is distributed as if no dead heat occurred; if between horses involving two (2) or more betting interests, two-thirds (2/3) of the profit shall be allocated to wagers to show on the first two (2) finishers, and the remaining one-third (1/3) is divided equally by the number of betting interests finishing in a dead heat for third for proportionate distribution on wagers to show on each such betting interest finishing in a dead heat for third.

(d) In the event the first three (3) horses to finish comprise one (1) betting interest, the show pool shall be distributed as a win pool.

(e) In the event the first two (2) horses to finish were as a single betting interest, the show pool is distributed as if a place pool, with half (1/2) of the profit allocated to wagers to show on the horse finishing first or second, or first and third, or second and third, two-thirds (2/3) of the profit shall be allocated to wagers to show on the horses finishing first or second, and the remaining one-sixth (1/6) of such profit shall be allocated to wagers on the horses finishing in a dead heat for third with such field or entry.

(4) Daily double pool. The amount wagered on the winning combination, such being the horse or betting interest which finishes first in the first daily double race, is deducted from the net pool to determine the profit; the profit is divided by the amount wagered on the winning combination, such quotient being the profit per dollar wagered on the winning daily double combination; payoffs include the amount wagered and profit thereon.

(a) In the event of a dead heat for first involving two (2) different betting interests, in one (1) of the two (2) daily double races, the daily double pool is distributed as if a place pool, with half (1/2) of the profit allocated to wagers combining the single winner of one (1) daily double race and one (1) of the betting interests involved in the dead heat in the other daily double race, with the other half of the profit allocated to wagers combining the single winner of one (1) daily double race and the other betting interest involved in the dead heat in the other daily double race.

(b) In the event of dead heats for first involving different betting interests in each of the two daily double races, resulting in four (4), or six (6), or nine (9), winning combinations for proportionate allocation for each such winning daily double wager.

(c) In the event no daily double ticket is sold combining the horse or betting interest which finishes first in one (1) of the daily double races, the daily double pool is distributed as if win pool with

(d) In the event no daily double ticket is sold combining the horse or betting interest which finished first in both the first and second race of the daily double, then the winning combination for distribution of the daily double profit shall be that combining the horses or betting interests which finished second in each of the daily double races.

(e) If after daily double wagering has commenced and a horse not coupled with another as a betting interest in the first race of the daily double is excused by the stewards or is prevented from racing because of failure of the starting gate to open properly, then daily double wagers combining such horse shall be deducted from the daily double pool and refunded upon presentation and surrender of daily double tickets thereon.

(f) If, prior to closing of the daily double wagering, a scheduled starter in the second half of the daily double which is not coupled in the bet on any race by the stewards or is prevented from racing because of failure of the starting gate to open properly, then daily double wagers combining the winner of the first daily double race with such horses prevented from racing in the second daily double race shall be allocated consolation payoffs:

1. Consolation daily double payoffs shall be determined by dividing the net daily double pool by the amount wagered combining the winner of the first daily double race with every horse or betting interest scheduled to start in the second race. Such quotient being the consolation payoff per dollar wagered combining the winner of the first daily double race with such horse prevented from racing in the second daily double race;

2. Such consolation payoffs shall be deducted from the net daily double pool before calculation and allocation of wagers on the winning daily double combination.

(g) If, for any reason the first daily double race is cancelled or declared "no race" by the stewards, the entire daily double pool shall be refunded upon presentation and surrender of daily double tickets thereon. (m) If no ticket is sold that would require distribution of an exacta pool to winner as above defined, the association shall make a complete and full refund of exacta pool.

(n) In case of a dead heat between two (2) horses for first place, the net exacta pool shall be calculated and distributed as a place pool to holders of tickets selecting the winning horse to finish first and/or holders of tickets selecting the winning horse to finish second participating in the payoff.

(o) In the event of a dead heat for second place, if no ticket is sold on one (1) of the two (2) winning combinations, the entire net pool shall be calculated as a place pool and distributed to those holding tickets on the other winning combination. If no tickets combine the winning horse with either of the place horses in the dead heat, the exacta pool shall be calculated and distributed as a place pool to holders of tickets representing any interest in the net pool.

(p) In the event of an entry finishing first and second, the net exacta pool shall be distributed to holders of tickets selecting the entry to win combined with the horse finishing third.

Payment of the ticket shall be made only to the purchaser who has selected the same order of finish as officially posted.

(r) The trifecta is not a parlay and has no connection with or relation to the win, place and show betting and will be calculated as an entirely separate pool.

(s) If no ticket is sold on the winning combination of a trifecta pool, the net pool shall be distributed to the holders of tickets selecting the win and place finishers in that order. If no ticket is sold combining the win and place finish, the net pool will be distributed to the holders of tickets selecting the winner.

(u) In the event of a dead heat or dead heats, all trifecta tickets selecting the correct order of finish, counting a horse in a dead heat for first, second and third, the net triangular pool shall be allocated to wagers combining such single betting interest with the horse or betting interest which finishes third.

(v) In the event no quinella ticket is sold combining:

1. The first finisher with one (1) of the horses finishing in a dead heat for second, then the net quinella pool is allocated to wagers combining the first finisher with the other horse finishing in a dead heat for second;

2. The first finisher with either of the horses finishing in a dead heat for second, then the net quinella pool is allocated to wagers combining the two (2) horses which finished in the dead heat for second;

3. The first finisher with either of the horses finishing in a dead heat for second, or combining the two (2) horses which finished in a dead heat for second, then the net quinella pool is distributed as if a show pool and is allocated to wagers combining any of the first three (3) finishers with any other horses;

4. The first two (2) finishers, then the net quinella pool shall be distributed as if a place pool and is allocated to wagers combining the first finisher with any other horses, and wagers combining the second finisher with any other horse.

6. Exacta pool. The exacta pool is a contract by the purchaser of a ticket combining two (2) horses in a single race, selecting the two (2) horses finishing first and second in that race. Payment of the ticket shall be made only to the purchaser who has selected the same order of finish as officially posted.

7. Trifecta pool. Payment of the ticket shall be made only to the purchaser who has selected the same order of finish as officially posted.

8. Quinella pool. The amount wagered on the winning combination, such being the first two (2) finishers irrespective of which horse finishes first and which horse finishes second, is deducted from the net pool to determine the profit, the profit is divided by the amount wagered on the winning combination, such quotient being the profit per dollar wagered on the winning quinella combination; payoff includes the amount wagered and profit thereon.

9. In the event the exacta pool is a contract by the purchaser of a ticket combining two (2) horses in a single race, selecting the two (2) horses finishing first and second in that race. Payment of the ticket shall be made only to the purchaser who has selected the same order of finish as officially posted.

10. In the event the trifecta pool is a contract by the purchaser of a ticket combining three (3) horses in a single race, selecting the three (3) horses which will subsequently finish first, second and third in that race. Payment of the ticket shall be made only to the purchaser who has selected the same order of finish as officially posted.
heat as finishing in either position dead-heated, shall be winning tickets. The payoff will be calculated as a place pool.

(a) No entries or field horses shall be allowed in any race that the trifecta is being sold.

(b) For the purposes of trifecta wagering the trifecta race shall be drawn to consist of eight (8) starters and four (4) also eligibles.

(c) Twin Trifecta. The twin trifecta is a form of pari-mutuel wagering. It is not a parlay and has no connection with or relation to any other pari-mutuel pools made and conducted by an association nor is the twin trifecta connected with or related to any win, place and show pools shown on the totalizator board, nor is it governed by any division rules pertaining to the distribution of any other pari-mutuel pools.

(a) In the twin trifecta, the bettor selects the three (3) horses that will finish first, second and third in each of the two (2) designated twin trifecta races in the exact order as officially posted.

(b) Twin trifecta tickets shall be sold and exchanged only from the association's ticket-issuing machines.

(c) Twin trifecta wagers shall be made only in denominations of three (3) dollars.

(d) Each better purchasing twin trifecta tickets shall designate three (3) selections as the first three (3) horses to finish in that order in the first race of the designated two (2) twin trifecta races.

(e) After the wagering closes for the first half of the twin trifecta, the commissions will be deducted from the pool in accordance with the laws of the state of Kentucky. The remaining pool will then be divided into two (2) separate pools of equal amounts.

(f) The money in the first part of the divided pool will be distributed to the holders of the twin trifecta tickets selecting the first three (3) horses, in order, on the first designated twin trifecta race, in accordance with the established pari-mutuel practice. The term "first part of divided pool" shall mean one half (1/2) of the net distributable pool of total money wagered in the twin trifecta on the current program only and, specifically excluded therefrom shall be any carry-over of any special cumulative second race twin trifecta pool from any previous program.

(g) The second part of the divided pool will be placed in a separate pool to be distributed to holders of "second half" twin trifecta tickets selecting the first three (3) horses, in order, on the second designated twin trifecta race, in accordance with the established pari-mutuel practice.

(h) In the first half of the twin trifecta only, if there is a failure to select, in exact order, the first three (3) horses, payoffs and exchanges shall be made on twin trifecta tickets selecting in the following order of priority:

1. The first two (2) horses in exact order, if no such ticket is outstanding, then;
2. The first horse, and any such ticket within the applicable order of priority shall be deemed a winning ticket entitling the holder thereof to an exchange ticket, in addition to the usual payoff for first half winners;
3. Failure to select winner to win, regardless of the selection of the exact order of the second and/or third horse shall cause a refund to all twin trifecta tickets.

(i) After the official declaration of the first three (3) horses to finish in the first race of the twin trifecta, eachbettor holding a winning ticket must, prior to the running of the second twin trifecta race, exchange such winning ticket for both the monetary value established by the association's pari-mutuel department and a twin trifecta "exchange" ticket and at such time shall select the three (3) horses to finish in the second race of the twin trifecta in exact order as officially posted. No further money shall be required of the holders of the winning ticket in order to make the exchange. Each association conducting the twin trifecta shall designate all windows to be used as "exchange" windows except when the first half payoff is $900 or more in winnings (if such winnings are at least 300 times the amount of the single wager). In this case, valid exchange tickets will be exchanged only at windows designated IRS windows.

(j) If for any reason the second half of the twin trifecta is not declared "official," the winning ticket holders who have cashed their tickets on the first half and have received an exchange ticket will be entitled to the remaining amount of the current program's divided pool.

(k) On the closing program of the meeting, the current carry-over, if any, in the second half pool for that program will be combined and distributed in the following manner:

1. The total twin trifecta pool shall be distributed to the holders of twin trifecta exchange tickets showing the first three (3) horses to finish, in exact order.
2. If there are no twin trifecta exchange tickets showing the first three (3) horses, in the exact order, the payoff will be made on twin trifecta exchange tickets selecting the first two (2) horses in exact order. If no such ticket is outstanding, then;
3. The first horse, and any such ticket within the applicable order of priority shall be deemed a winning ticket entitling the holder to the total twin trifecta pool.
4. If there are no valid exchange ticket holders, the total twin trifecta pool shall be distributed to the holders of first half tickets selecting the first two (2) horses in the exact order.
5. If there are no first half twin trifecta tickets showing the first two (2) horses, the total twin trifecta pool shall be distributed to the holders of first half tickets selecting the horse of the first half of the twin trifecta.
6. If no such ticket is sold that would require the distribution of the net pools as described above, the association shall equally distribute the total twin trifecta pool to all first half ticket holders.

(l) Sales of twin trifecta tickets other than from the association's ticket-issuing machines or from one (1) individual to another shall be deemed illegal. Exchange tickets shall be nontransferable. Persons involved in the unauthorized transfer of exchange tickets shall be ejected.

(m) Refunds.

1. A winner's closure of the second win, place, or show wagering, or if no such ticket is outstanding, then;
2. The wagering has commenced on a horse not coupled with another or a bettor's interest is excused by the stewards or is prevented from racing because of failure of the starting gate to open properly, the wagers on such horse shall be deducted from the win, place, and show pools, as the case may be, and refunded upon presentation and surrender thereof.
than one (1) horse represents a single betting interest by reason of coupling as a mutuel entry, or mutuel field, such single betting interest being the sole subject of a wager or part of a combination in a daily double, exacta or quinella or trifecta wager, then there shall be no refund unless all of the horses representing such single betting interest are excused by the stewards and/or are prevented from racing because of failure of the starting-gate doors to open properly.

(b) If, after exacta and, quinella and trifecta wagering has commenced, a horse not coupled with another as a betting interest is excused by the stewards or is prevented from racing because of failure of the starting-gate door to open properly, then exacta and, quinella and trifecta pools and refunded upon presentation and surrender of exacta and, quinella and trifecta quinella tickets thereon.

(10) Race cancelled. If for any reason a race is cancelled or declared “no race” by the stewards after wagering has commenced on such race, then all wagering thereon shall be refunded upon presentation and surrender of pari-mutuel tickets thereon; except as to daily double wagers upon cancellation of the second daily double race, which shall be distributed as provided under subsection (4)(h) of this section.

(11) Totalizer breakdown. In the event of an irreparable breakdown of the totalizer during the wagering on a race, the wagering on that race shall be declared closed and no association responsible for ticket sales entered into but not completed by individuals that have placed a bet shall be refunded upon surrender of such place and show tickets thereon.

Section 5. Minimum Wager and Payoff. The minimum wager to be accepted by any licensed association shall be two (2) dollars. The minimum payoff on a two (2) dollar wager shall be two (2) dollars and twenty (20) cents. In the event of a minus pool, the minimum pay-off on each one (1) dollar wager shall be one (1) dollar and five (5) cents.

Section 6. Minors Prohibited from Wagering. No minor shall be permitted by any licensed association to purchase or cash a pari-mutuel ticket.

Section 7. Odds or Payoffs Posted. Approximate odds, based on win- pool betting for finishing first for each betting interest, shall be posted on one (1) or more boards or television screens within view of the wagering public, at intervals of not more than ninety (90) seconds. If daily double wagering is conducted, before off-time of the second daily double race, the possible payoff for each two (2) dollar daily double wager combining the winner of the first daily double race with any horse or betting interest in the second daily double race, except that, in the event of a dead heat for first in the first daily double race, or a scheduled starter in the second daily double race is excused so as to cause a consolation daily double pool, then posting of all possible payoffs shall not be mandatory, but the association shall make every effort to compute such daily double prices and advise the public of same by posting or public address announcement as soon as possible and prior to the running of the second daily double race.

Section 8. Betting Explanation. Each association shall cause to be published in the daily race programs a general explanation of pari-mutuel betting and an explanation of each type of betting pool offered; such explanation also shall be posted in conspicuous places about the association grounds so as to adequately inform the public. Such explanation shall be submitted to the state steward prior to publication so as to insure an absence of conflict with these rules.

Section 9. Prior Approval Required for Betting Pools. Each association desiring to conduct more than nine (9) betting races on a single day, or desiring to offer betting on any other than pari-mutuel wagering, shall first apply therefor in writing to the commission and obtain specific approval as to number of betting races and type of wagering to be offered on a single day.

Section 10. Pools Dependent upon Entries. (1) Unless the commission approves a prior written request from the association to alter wagering opportunities for a specific race, each association shall offer win, place, and show wagering on all programmed races involving six (6) or more betting interests.

Pari-mutuel tickets may be sold only if horses representing four (4) or fewer betting interests qualify to start in a race, then the association may prohibit show wagering on that race. If horses representing four (4) or fewer betting interests qualify to start in a race, then the association may prohibit both place and show wagering on that race.

(3) If, by reason of a horse being excused by the stewards after wagering has commenced or a horse is prevented from racing because of failure of the starting-gate door to open properly, the number of actual starters representing different betting interests is:

(a) Reduced to five (5), then the association may cancel show wagering on that race and the entire show pool shall be refunded upon presentation and surrender of show tickets thereon;

(b) Reduced to four (4) or fewer, then the association may cancel both place and show wagering on that race and the entire place pool and show pool shall be refunded upon presentation and surrender of such place and show tickets thereon.

Section 11. Pari-mutuel Ticket Sales. (1) No pari-mutuel tickets shall be sold except by the association conducting the races on which such wagers are made. No pari-mutuel ticket may be sold after the totalizer has been locked and no association shall be responsible for tickets sold and the payoff thereon by issuance of a ticket before the totalizer has been locked.

(2) Any claim by a person that he has been issued a ticket other than that which he requested, must be made before such person leaves the seller window and before the totalizer is locked.

(3) After purchasing a ticket and after leaving a ticket window, a person shall not be entitled to enter for an incorrect ticket, or claim refund or payment for tickets discarded, lost, or destroyed, or mutilated beyond identification.

(4) Payment on valid pari-mutuel tickets shall be made only upon presentation and surrender thereof to the association where such wager was made within two (2) years following the running of the race on which such wager was made. Failure to present any such ticket within two (2) years shall constitute a waiver of the right to receive payment therefor.

(5) Payment on valid pari-mutuel tickets shall be made on the basis of the order of finish as purposely posted on the infield results board and declared “official” by the stewards; any subsequent change in such order of finish or award of purse money as may result from a subsequent ruling by the stewards or commission, shall in no way affect the pari-mutuel payoff.

(6) If an error is made in posting the payoff figures on the public board, and ascertained before any tickets are cashed thereon, such posting error may be corrected accompanied by a public address announcement, and only the correct amounts shall be used in the payoff, irrespective of the initial error on the public board.

(7) Prior to posting payoffs, the pari-mutuel manager shall require each of the computer printout sheets (calculating sheets) of such race to be proven by the computer (calculator) and the winners verified. Such proof shall show the amounts for commission, breakage, and payoffs, which added together shall equal the total pool. All pay slips shall be checked with computer printout sheets (calculating sheets) as to winners and prices before being issued to cashiers, and all board prices are to be rechecked with the computer printout sheet (calculator) before released to the public.

(8) Whenever the recapitulation of the sales registered by each ticket issuing machine subsequently proves that the actual amount in the pool or pools, is less than the amount used in calculating the payoff, such deficiency shall be deposited in the pool or pools by the association. Should the recapitulation of sales prove that the actual amount in the pool is greater than the amount used in calculating the payoff due to a mechanical error of the totalizer such error resulting in underpayment to the public, then the aggregate of such underpayments shall be paid into the corresponding pool of the next race or races, in such amounts as may be determined by the state steward and the pari-mutuel manager. If any
such error should occur in computing the daily double pool, the underpayment shall be added to the daily double pool of the following day. Overpayments and underpayments subsequently discovered upon recapitulation after the close of a meeting may be adjusted, and any underpayment resulting from such final adjustment shall be paid to the Department of Revenue.

Section 12. Betting Interests Involved more than One (1) Horse. When two (2) or more horses entered for the same race are determined by the stewards to have common ties through ownership or training and are joined by the stewards as a "mutuel entry," such mutuel entry shall become a single betting interest and a wager on one (1) horse in a mutuel entry shall be a wager on all horses in the same mutuel entry. When the number of horses competing in a race exceeds the numbering capacity of the totalizer, the racing secretary shall assign the highest pari-mutuel numbers to horses so that the highest numbered horse within the numbering capacity of the totalizer, together with horses of higher numbers, shall be grouped in the "mutuel field" as a single betting interest, and a wager on one (1) horse in the mutuel field shall be a wager on all horses in the same mutuel field.

Section 13. Emergency Situations. In the event any emergency arises in connection with the operation of the pari-mutuel department not provided for by these rules, then the pari-mutuel manager shall make an immediate decision and render a full report to the commission.

If an association requests and is granted permission by the commission to offer pari-mutuel wagering on historical horse races, then the association will be required to conduct such pari-mutuel wagering in a designated area (as defined in 811 KAR 2:010). The associations that offer pari-mutuel wagering on historical horse races will also be required to enter into an agreement with the Kentucky Quarter Horse Racing Association, or the Arabian Jockey Club, or a horsemen’s organization representing the appaloosa breed regarding the allocation of the takeout between the association and the horsemen and file a memorandum with the commission outlining the terms of the agreement.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): If an association requests and receives permission to offer pari-mutuel wagering on historical horse races, then the association will incur costs constructing or renovating a designated area (as defined in 811 KAR 2:010) to house the terminals. An association will also incur costs purchasing or leasing commission-approved terminals and hiring additional employees to staff the designated area and maintain the terminals. Any association offering pari-mutuel wagering on historical horse races will also be required to reimburse the commission pursuant to KRS 230.240 to cover the commission’s increased regulatory costs relating to compensation of additional personnel and other expenses.

The total increase in the commission’s regulatory costs will be based upon the number of associations that offer pari-mutuel wagering on historical horse races and the number of terminals at each association. The increased costs will likely include the addition of new employees and equipment. There will be no additional costs to owners, trainers, jockeys, or patrons placing pari-mutuel wagers.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The associations will be able to offer increased pari-mutuel wagering options to patrons and can expect an increase in on-track attendance and total pari-mutuel handle. The increased revenue can be used to maintain and improve racing association facilities and supplement purses for live races run at each association. The increased purses will help the associations to compete with racing associations in neighboring states that offer expanded gaming options. The owners, trainers, and jockeys will benefit from increased purses, as well as any improvements to an association’s facilities. The patrons will benefit from any improvements to an association’s facilities as well as from increased pari-mutuel wagering options.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: See answer to question 4(b).

(b) On a continuing basis: With respect to pari-mutuel wagering on historical horse races, the commission anticipates that the first year such wagering is offered will see the greatest increase in regulatory costs. Thereafter, the commission expects the continuing costs to be mainly for employee compensation and expenses and equipment maintenance. The commission will be reimbursed by the associations for additional employee compensation and other expenses pursuant to KRS 230.240.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The commission will be reimbursed by the associations for additional employee compensation and other expenses pursuant to KRS 230.240.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: The associations that request and receive permission to offer pari-mutuel wagering on historical horse races will be required to reimburse the commission for the cost of compensation of additional employees and other expenses pursuant to KRS 230.240.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increased any fees: The associations that request and receive permission to offer pari-mutuel wagering on historical horse races will be required to reimburse the commission for the cost of compensation of additional employees and other expenses pursuant to KRS 230.240.

(9) TIERING: Is tiering applied? Tiering is not applied. All aspects of this regulation will be applied equally to each association.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments, or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Kentucky Horse Racing Commission and the Department of Revenue.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. The commission anticipates that its regulatory costs will increase based upon the associations offering pari-mutuel wagering on historical horse races. The increased costs will likely include the addition of new employees and equipment. The total increase will be based upon the number of associations that offer pari-mutuel wagering on historical horse races and the number of terminals at each association. The associations that offer pari-mutuel wagering on historical horse races will be required to reimburse the commission the costs associated with compensation of employees and other expenses pursuant to KRS 230.240. The Department of Revenue may have an increase in collection duties, but they are minimal and can be absorbed by the Department.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amount of tax revenue generated is dependent upon the number of terminals the associations install and operate. While that number is unknown at this time, it is estimated that annual tax revenue will be somewhat less than $1,000 per terminal.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? Based upon the experience of Oaklawn Park, the commission anticipates that revenue will more than double from the first to the second year, and more than triple from the second to the third year.

(c) How much will it cost to administer this program for the first year? The increased regulatory costs of the commission will be based upon the number of associations that offer pari-mutuel wagering on historical horse races and the number of terminals installed at each association.

(d) How much will it cost to administer this program for subsequent years? In subsequent years, the commission anticipates the costs largely to come from employee compensation and expenses and equipment maintenance. The commission will be reimbursed for these costs by the associations.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

1. Recognized by the Plan for purposes of calculating a member’s benefit under the Plan;
2. Which the member has not received under the Plan; and
3. Which the member may receive only by making a voluntary additional contribution, in an amount determined under the Plan, which does not exceed the amount necessary to fund the benefit attributable to the service credit.

(b) Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, such term may include service credit for periods for which there is no performance of service, and, notwithstanding paragraph (a)2 of this subsection, may include service credited in order to provide an increased benefit for service credit which a member is receiving under the Plan.

(5) Plan means the Kentucky Judicial Retirement Plan and the Kentucky Legislators Retirement Plan.

Section 2. This administrative regulation shall apply to the Plans as of July 1, 2007. Subject to the provisions of this administrative regulation, benefits paid from, and employee contributions made to, these Plans shall not exceed the maximum benefits and the maximum annual addition, respectively, as applicable under 26 U.S.C. 415 and Treasury Regulations located in 26 C.F.R. 1.415(a)-1 to 1.415(j)-1.

Section 3. Basic 415(b) Limitation. If the benefit under the Plan is other than the form specified in Section 3 of this administrative regulation, the benefit shall be adjusted so that it is the equivalent of the annual benefit, using factors prescribed in Treasury Regulations located in 26 C.F.R. 1.415(b)-1.

Section 5. Benefits Not Taken into Account for 415(b) Limit. (1) For purposes of this administrative regulation, the following benefits shall not be taken into account in applying these limits:

(a) Any ancillary benefit which is not directly related to retirement income benefits;

(1) The maximum retirement benefits payable to any member who has completed less than ten (10) years of service shall be the amount determined under Section 4 of this administrative regulation multiplied by a fraction, the numerator of which is the number of the members years of service and the denominator of which is ten (10).

Section 8. Service Purchases Under Section 415(n). (1) Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, if a member makes one (1) or more contributions to purchase permissive service credit under the Plan, the requirements of 26 U.S.C. 415(n) shall be treated as met only if:

(a) The requirements of 26 U.S.C. 415(b) are met, determined by treating the accrued benefit derived from all these contributions as an annual benefit for purposes of the 415(b) limit; or

(b) The requirements of 26 U.S.C. 415(c) are met, determined by treating all these contributions as annual additions for purposes of the 415(c) limit.

(2) For purposes of applying this section, the Plan shall not fail to meet the reduced limit under 26 U.S.C. 415(b)(2)(C) solely by reason of this section and shall not fail to meet the percentage limitation under 26 U.S.C. 415(c)(1)(B) solely by reason of this section.

(3) The Plan shall fail to meet the requirements of this section if:

(a) More than five (5) years of nonqualified service credit are taken into account for purposes of this section; or

(b) Any nonqualified service credit is taken into account under this section before the member has at least five (5) years of participation under the Plan.

(4) For purposes of subsection (3) of this section, effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, nonqualified service credit shall be the permissive service credit other than that allowed with respect to:

(a) Service as an employee of the Government of the United States, any state or political subdivision thereof, or any agency or instrumentality of any of the foregoing (other than military service or service for credit which was obtained as a result of a repayment described in 26 U.S.C. 415(k)(3));

(b) Service as an employee (other than as an employee described in paragraph (a) of this subsection) of an educational organization described in 26 U.S.C. 170(b)(1)(A)(ii) which is a public, private, or sectarian school which provides elementary or secondary education (through grade 12), or a comparable level of education, as determined under the applicable law of the jurisdiction in which the service was performed;

(c) Service as an employee of an association of employees who are described in paragraph (a) of this subsection; or

(d) Military service (other than qualified military service under 26 U.S.C. 414(u)) recognized by the Plan.

(5) For service described in subsection (4)(a), (b), or (c) of this section, the service shall be nonqualified service if recognition of the service would cause a member to receive a retirement benefit for the same service under more than one plan.

(6) For a trustee-to-trustee transfer after December 31, 2001, to which 26 U.S.C. 403(b)(13)(A) or 457(e)(17)(A) applies (without regard to whether the transfer is made between plans maintained by the same employer):

(a) The limitations of subsection (3) of this section shall not apply in determining whether the transfer is for the purchase of permissive service credit; and

(b) The distribution rules applicable to the Plan shall apply to these amounts and any benefits attributable to these amounts.

Section 9. Repayments of Cashouts. Any repayment of contributions (including interest) to the Plan with respect to an amount previously refunded upon a forfeiture of service credit under the Plan or another governmental plan maintained by the Commonwealth or a local government within the Commonwealth shall not be taken into account for purposes of the 415(b) or (c) limits.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirement of a state or local government (including cities, counties, fire departments, or school districts)? Yes
2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Kentucky Department of Financial Institutions.
3. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. The statutory authority for this administrative regulation is found in KRS Chapter 286.8, 808 KAR Chapter 12 and the Housing and Economic Recovery Act of 2008, Title V, the Secure and Fair Enforcement for Mortgage Licensing Act of 2008, 15 U.S.C. 5101, et seq. (d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: By advising of the fee amounts for the statutorily-required examinations and investigations and the consequences of nonpayment, there is no general fund expenditure because the efforts pay for themselves.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: N/A

(b) The necessity of the amendment to this regulation: N/A

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Fees generated cover the cost.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: None

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

1. Provide a brief summary of:
   (a) What this administrative regulation does: This administrative regulation establishes the procedures for distributing and using funds from the Mortgage Fraud Prosecution Fund.
   (b) The necessity of this administrative regulation: KRS 286.8-225, the statute creating the Mortgage Fraud Prosecution Fund, directed the Department of Financial Institutions to establish procedures for distributing and using the funds.

- 890 -
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 286.8-140(1) authorizes the executive director to promulgate administrative regulations necessary to accomplish the basic purposes of KRS Chapter 286.8 and 286.8-225 specifically requires regulations for the use of these funds.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation ensures that the funds from the Mortgage Fraud Prosecution Fund are used to detect, prevent, and prosecute fraud in the mortgage lending process in Kentucky.

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Kentucky Department of Financial Institutions, the office of the Kentucky Attorney General, the office of any county or commonwealth attorney in Kentucky, and applicable state regulatory agencies.

3. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. The statutory authority for this administrative regulation is found in KRS Chapter 286.8 and 808 KAR Chapter 12.

4. Evaluate the impact of this administrative regulation on expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. The impact of this administrative regulation on expenditures or revenues is uncertain at this time because it is impossible to predict the occurrence of fraud and the subsequent need for these funds. Note: The administrative regulation itself does not generate revenue. It merely describes the procedures by which appropriate agencies may use the funds in the account. To the extent funds are disbursed to a prosecutorial agency, that agency will derive "revenue" and the Department of Financial Institutions would have a corresponding "cost." There will be no net fiscal impact on state and local government.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? None. The administrative regulation itself does not generate revenue. It merely describes the procedures by which appropriate agencies may use the funds in the account.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? None. The administrative regulation itself does not generate revenue. It merely describes the procedures by which appropriate agencies may use the funds in the account.

(c) How much will it cost to administer this program for the first year? There will be no cost to administer this regulation in the first year. Fines imposed by the department will be used as the source of funding. No additional agency funds will be used.

(d) How much will it cost to administer this program for subsequent years? There will be no cost to administer this regulation in subsequent years. Fines imposed by the Department will be used as the source of funding. No additional agency funds will be used.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact Person: Timothy A. West
(1) Provide a brief summary of:

(a) What this administrative regulation does: This regulation clarifies the process for licensed racing associations to request permission from the Kentucky Horse Racing Commission (the "commission") to offer exotic forms of pari-mutuel wagers on live and historical horse races. "Exotic wagers" are defined as "any pari-mutuel wager placed on a live or historical horse race, other than a win, place, or show wager placed on a live horse race." It includes a process for associations to request permission to offer pari-mutuel wagering on live and historical horse races and establishes criteria for the commission to evaluate such requests.

(b) The necessity of this administrative regulation: This regulation is necessary for the commission to regulate the integrity of pari-mutuel wagering in the Commonwealth.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 230.215(2) grants the commission the authority to regulate conditions under which thoroughbred rac-
ing and pari-mutuel wagering thereon shall be conducted in Kentucky. KRS 230.361(1) requires the commission to promulgate administrative regulations governing and regulating pari-mutuel wagering on horse races under the pari-mutuel system of wagering. This regulation establishes the procedures and regulations governing exotic forms of pari-mutuel wagering under KRS Chapter 230 and the commission’s administrative regulations.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: KRS 230.361 requires the commission to promulgate administrative regulations governing and regulating pari-mutuel wagering on horse races under the pari-mutuel system of wagering. This administrative regulation establishes the criteria for determining whether exotic wagers requested by licensed racing associations comply with the provisions of KRS Chapter 230 and the commission’s administrative regulations.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of: N/A
(a) How the amendment will change this existing administrative regulation: N/A
(b) The necessity of the amendment to this administrative regulation: N/A
(c) How the amendment conforms to the content of the authorizing statutes: N/A
(d) How the amendment will assist in the effective administration of the statutes: N/A
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation will affect the eight currently-licensed racing associations in the Commonwealth, any applicant for the final racing association license, the owners and trainers who participate in racing in the Commonwealth, the jockeys who ride in the Commonwealth, the patrons who place pari-mutuel wagers on live and historical horse in the Commonwealth, and the commission.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The licensed racing associations will be required to follow the procedure outlined in the regulation to offer any exotic wager that has not been previously approved by the commission. If an association requests and is granted permission by the commission to offer pari-mutuel wagering on historical horse races, then the association will be required to conduct such pari-mutuel wagering in a designated area (as defined in 810 KAR 1:001). The associations that offer pari-mutuel wagering on historical horse races will also be required to enter into an agreement with the Horsemens’s Benevolent and Protective Association or the Kentucky Thoroughbred Owners and Breeders Association, Inc. regarding the allocation of the takeout between the association and the horsemens and file a memorandum with the commission outlining the terms of the agreement.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): If an association requests and receives permission to offer pari-mutuel wagering on historical horse races, then the association will incur costs constructing or renovating a designated area (as defined in 810 KAR 1:001) to house the terminals. An association will also incur costs purchasing or leasing commission-approved terminals and hiring additional employees to staff the designated area and maintain the terminals. Any association offering pari-mutuel wagering on historical horse races will also be required to reimburse the commission pursuant to KRS 230.240 to cover the commission’s increased regulatory costs relating to compensation of additional personnel and other expenses.

The total increase in the commission’s regulatory costs will be based upon the number of associations that offer pari-mutuel wagering on historical horse races and the number of terminals at each association. The increased costs will likely include the addition of new employees and equipment.

There will be no additional costs to owners, trainers, jockeys, or patrons placing exotic wagers.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The associations will have a defined process to follow to request exotic wagers. They will be able to offer increased pari-mutuel wagering options to patrons and can expect an increase in on-track attendance and total pari-mutuel handle. The increased revenue can be used to maintain and improve racing association facilities and supplement purses for live races run at each association. The increased purses will help the associations to compete with racing associations in neighboring states that offer expanded gaming options.

The owners, trainers, and jockeys will benefit from increased purses, as well as any improvements to an association’s facilities.

The patrons will benefit from any improvements to an association’s facilities as well as from increased pari-mutuel wagering options.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
(a) Initially: See answer to question 4(b).
(b) On a continuing basis: With regards to pari-mutuel wagering on historical horse races, the commission anticipates that the first year such wagering is offered will see the greatest increase in regulatory costs. Thereafter, the commission expects the continuing costs to be mainly for employee compensation and expenses and equipment maintenance.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation or amendment and if so, by the amount it is an amendment: The associations that request and receive permission to offer pari-mutuel wagering on historical horse races will be required to reimburse the commission for the cost of compensation of additional employees and other expenses pursuant to KRS 230.240.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: The associations that request and receive permission to offer pari-mutuel wagering on historical horse races will be required to reimburse the commission for the cost of compensation of additional employees and other expenses pursuant to KRS 230.240.

(9) TIERING: Is tiering applied? Tiering is not applied. All aspects of this administrative regulation will be applied equally to all of the regulated persons and entities.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments, or school districts)? Yes
2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Kentucky Horse Racing Commission and the Department of Revenue.
4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. The commission anticipates that its regulatory costs will increase based upon the associations offering pari-mutuel wagering on historical horse races. The increased costs will likely include the addition of new employees and equipment. The total increase will be based upon the number of associations that offer pari-mutuel wagering on historical horse races and the number of terminals at each association. The associations that offer pari-mutuel wagering on historical horse races will be required to reimburse the commission the costs associated with compensation of employees and other expenses pursuant to KRS 230.240. The Department of Revenue may have
an increase in collection duties, but they are minimal and can be absorbed by the department.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, school districts) for the first year? The amount of tax revenue generated is dependent upon the number of terminals the associations install and operate. While that number is unknown at this time, it is estimated that annual tax revenue will be somewhat less than $1,000 per terminal.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, school districts) for subsequent years? Based upon the experience of Oaklawn Park, the commission anticipates that revenue will be more than double from the first to the second year, and more than triple from the second to the third year.

(c) How much will it cost to administer this program for the first year? The increased regulatory costs of the commission will be based upon the number of associations that offer pari-mutuel wagering on historical horse races and the number of terminals installed at each association.

(d) How much will it cost to administer this program for subsequent years? In subsequent years, the commission anticipates the costs largely to come from employee compensation and equipment maintenance. The commission will be reimbursed for these costs by the associations offering wagering on historical horse races.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(9) TIERING: Is tiering applied? Tiering is not applied. All aspects of this administrative regulation will be applied equally to all of the regulated persons and entities.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments, or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Kentucky Horse Racing Commission and the Department of Revenue.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. The commission anticipates that its regulatory costs will increase based upon the associations offering pari-mutuel wagering on historical horse races. The increased costs will likely include the addition of new employees and equipment. The total increase will be based upon the number of associations that offer pari-mutuel wagering on historical horse races and the number of terminals at each association. The associations that offer pari-mutuel wagering on historical horse races will be required to reimburse the commission the costs associated with the compensation of employees and other expenses pursuant to KRS 230.240. The Department of Revenue may have an increase in collection duties, but they are minimal and can be absorbed by the department.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amount of tax revenue generated is dependent upon the number of terminals the associations install and operate. While that number is unknown at this time, it is estimated that annual tax revenue will be somewhat less than $1,000 per terminal.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? Based upon the experience of Oaklawn Park, the commission anticipates that revenue will more than double from the first to the second year, and more than triple from the second to the third year.

(c) How much will it cost to administer this program for the first year? The increased regulatory costs of the commission will be based upon the number of associations that offer pari-mutuel wagering on historical horse races and the number of terminals installed at each association.

(d) How much will it cost to administer this program for subsequent years? In subsequent years, the commission anticipates the costs largely to come from employee compensation and equipment maintenance. The commission will be reimbursed for these costs by the associations offering wagering on historical horse races.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(a) The presentation shall be made by the association during a meeting of the commission.

(b) The presentation shall be limited to the information contained in the written request and any supplemental information relevant to the commission's determination of the suitability of the wager.

(4) In reviewing a written request for an exotic wager, the commission may consider any information, data, reports, findings, or other factors available which it considers important or relevant to its determination of whether the wager should be approved.

(5) The commission or its designee shall review and test the exotic wager and shall give its approval if it is satisfied that:

(a) The wager does not adversely affect the safety or integrity of horse racing or pari-mutuel wagering in the Commonwealth; and

(b) The wager complies with KRS Chapter 230 and these administrative regulations.

(c) The commission shall have the right to withdraw the approval of any exotic wager if it determines that the criteria set forth in subsection (5) of this section are no longer being met.

(d) A detailed description of the proposed designated area and the terminal(s) on which the pari-mutual wagers shall be made, including an architect's rendering of the proposed designated area which describes the size, construction, layout, capacity, number of terminals, location of surveillance and other security equipment, and at least one (1) photograph of the designated area when construction is completed;

(e) The practices and procedures that will ensure the security, safety, and comfort of patrons in the designated area;

(f) The manufacturer, make, and model of the terminal, including a copy of all literature supplied by the manufacturer of the terminal;

(g) The maintenance and repair procedures that will ensure the integrity of the terminals;

(h) A complete list of individuals who are authorized to examine and repair the terminals for any reason; and

1. No less than 100 percent of the number of racing days initially requested by the association in its application to conduct quarter horse, appaloosa or Arabian racing for the 2010 racing year; and

2. No less than 100 percent of the number of races initially requested by the association in its application to conduct quarter horse, appaloosa or Arabian racing for the 2010 racing year.

(b) An association may apply for less than 100 percent of the number of racing days initially applied for by the association in its application to conduct quarter horse, appaloosa and Arabian racing for 2010, or the number of races initially applied for by the association in its application to conduct quarter horse, appaloosa and Arabian racing for 2010, if written approval is obtained from the commission and one of the following horsemen’s organizations, as applicable: the Kentucky Quarter Horse Racing Association; the Arabian Jockey Club; or a horsemen’s organization representing appaloosa racing.

Section 5. Terminals Used for Wagering on an Historical Horse race. (1) Wagering on historical horse races shall be conducted on terminals approved by the commission. The commission shall not require any particular make of terminal.

(2) The commission shall require testing of each terminal used for wagering on historical horse races by an independent testing laboratory to ensure its integrity and proper working order.

(b) The independent testing laboratory shall be chosen by the commission and the expense of the testing shall be paid by the association offering the wagering on historical horse races.

(3) Each terminal for wagering on an historical horse race shall display odds or pool amounts that the patron will receive for a winning wager on each pari-mutuel wagering pool.

(b) The agreement shall include provisions allocating a percentage of the takeout to purses on live races run by the association.

(c) Each association shall provide a memorandum outlining the terms of the agreement to the commission.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Timothy A. West

(1) Provide a brief summary of:
(a) What this administrative regulation does: This regulation clarifies the process for licensed racing associations to request permission from the Kentucky Horse Racing Commission (the “commission”) to offer exotic forms of pari-mutuel wagers on live and historical horse races. “Exotic wagers” are defined as “any pari-mutuel wager placed on a live or historical horse race, other than a win, place, show wager, or wager placed on a live horse race.” It includes a process for associations to request permission to offer pari-mutuel wagering on live and historical horse races and establishes criteria for the commission to evaluate such requests.

(b) The necessity of this administrative regulation: This regulation is necessary for the commission to regulate the integrity of pari-mutuel wagering in the Commonwealth.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 230.215(2) grants the commission the authority to regulate conditions under which quarter horse, appaloosa and arabian racing and pari-mutuel wagering thereon shall be conducted in Kentucky. KRS 230.361(1) requires the commission to promulgate administrative regulations governing and regulating mutual wagering on horse races under the pari-mutuel system of wagering. This regulation establishes the procedures and regulations governing exotic forms of pari-mutuel wagering under KRS Chapter 230 and the commission’s administrative regulations.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: KRS 230.361 requires the commission to promulgate administrative regulations governing and regulating mutual wagering on horse races under the pari-mutuel system of wagering. This administrative regulation establishes the criteria for determining whether exotic wagers requested by licensed racing associations comply with the provisions of KRS Chapter 230 and the commission’s administrative regulations.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of: N/A
(a) How the amendment will change this existing administrative regulation: N/A
(b) The necessity of the amendment to this administrative regulation: N/A
(c) How the amendment conforms to the content of the authorizing statutes: N/A
(d) How the amendment will assist in the effective administration of the statutes: N/A

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation will affect the eight currently-licensed racing associations in the Commonwealth, any applicant for the final racing association license, the owners and trainers who participate in racing in the Commonwealth, the jockeys who ride in the Commonwealth, the patrons who place pari-mutuel wagers on live and historical horse in the Commonwealth, and the commission.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The licensed racing associations will be required to follow the procedure outlined in the regulation to offer any exotic wager that has not been previously approved by the commission. If an association requests and is granted permission by the commission to offer pari-mutuel wagering on historical horse races, then the association will be required to conduct such pari-mutuel wagering in a designated area (as defined in 811 KAR 2:010). The associations that offer pari-mutuel wagering on historical horse races will also be required to enter into an agreement with the Kentucky Quarter Horse Racing Association, or the Arabian Jockey Club, or a horsemen’s organization representing the appaloosa breed regarding the allocation of the takeout between the association and the horsemen and file a memorandum with the commission outlining the terms of the agreement. In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): If an association requests and receives permission to offer pari-mutuel wagering on historical horse races, then the association will incur costs constructing or renovating a designated area (as defined in 811 KAR 2:010) to house the terminals. An association will also incur costs purchasing or leasing commission-approved terminals and hiring additional employees to staff the designated area and maintain the terminals. The association offering pari-mutuel wagering on historical horse races will also be required to reimburse the commission pursuant to KRS 230.240 to cover the commission’s increased regulatory costs relating to compensation of additional personnel and other expenses.

The total increase in the commission’s regulatory costs will be based upon the number of associations that offer pari-mutuel wagering on historical horse races and the number of terminals at each association. The increased costs will likely include the addition of new employees and equipment.

There will be no additional costs to owners, trainers, jockeys, or patrons placing exotic wagers.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The associations will have a defined process to follow to request exotic wagers. They will be able to offer increased pari-mutuel wagering options to patrons and can expect an increase in on-track attendance and total pari-mutuel handle. The increased revenue can be used to maintain and improve racing association facilities and supplement purses for live races run at each association. The increased purses will help the associations to compete with racing associations in neighboring states providing pari-mutuel wagering.

The owners, trainers, and jockeys will benefit from increased purses, as well as any improvements to an association’s facilities. The patrons will benefit from any improvements to an association’s facilities as well as increased pari-mutuel wagering options.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation: (a) Initially: See answer to question 4(b).

On a continuing basis: With regards to pari-mutuel wagering on historical horse races, the commission anticipates that the first year such wagering is offered will see the greatest increase in regulatory costs. Thereafter, the commission expects the continuing costs to be mainly for employee compensation and expenses and equipment maintenance.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The commission will be reimbursed by the associations for the additional employee compensation and other expenses pursuant to KRS 230.240.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: The associations that request and receive permission to offer pari-mutuel wagering on historical horse races will be required to reimburse the commission for the cost of compensation of additional employees and other expenses pursuant to KRS 230.240.
(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: The associations that request and receive permission to offer pari-mutuel wagering on historical horse races will be required to reimburse the commission for the cost of compensation of additional employees and other expenses pursuant to KRS 230.240.

(9) TIERING: Is tiering applied? Tiering is not applied. All aspects of this administrative regulation will be applied equally to all of the regulated persons and entities.

In subsequent years, the commission anticipates the costs largely to come from employee compensation and equipment maintenance. The commission will be reimbursed for these costs by the associations offering wagering on historical horse races.

In response to a question by Senator Givens, Mr. Vest stated that 201 KAR 9:005 was being repealed because it was redundant. The statute already required compliance with American Medical Association standards, which included ethics standards for physicians.

Kentucky Real Estate Appraisers Board: Board

201 KAR 30:040. Standards of Practice. Larry Disney, executive director, and Jim Grawe, assistant attorney general, represented the board.

In response to a question by Representative Ford, Mr. Disney stated that this administrative regulation adopted the most recent uniform appraisal standards, which did not change substantively.

In response to questions by Senator Givens, Mr. Sims stated that the requirements were specifically written to simulate the licensing process. The continuing education requirements were also changing to require more credit hours for certain licensees. Currently, the agency offered continuing education six (6) times per year, but was considering offering additional classes soon.

ENERGY AND ENVIRONMENT CABINET: Department for Natural Resources: Division of Mine Permitting

405 KAR 8:010 & E. General provisions for permits. Mike Haines, general counsel; Allen Luttrell, director; and Michael Mulkins, administrative regulation coordinator, represented the division. David Gooch, Coal Operators and Associates president, appeared in support of this administrative regulation.

In response to questions by Representative Ford, Mr. Luttrell stated that as a result of this administrative regulation, nineteen (19) new regulators had been hired. $89,000 had been recovered for permit fees.

In response to questions by Co-Chair Combs, Mr. Luttrell stated that 2010 House Bill (HB) 283, which raised fee limits, was drafted and passed on behalf of and after requests from the coal mining industry. HB 283 directly prompted the fee increases in this administrative regulation in order to improve the speed of permit processing. At the risk of the backlogs, the division reported 130 delinquent permit processing requests outstanding. Since the emergency administrative regulation had been in effect, permit processing had steadily improved, and there were currently approximately eighty-five (85) delinquent permit processing requests outstanding. Slurry and other impoundment permit processing was time consuming because review consisted of two (2) federal oversight programs designed to minimize risk to workers’ safety and structural failure. The 2001 Martin County coal slurry disaster was cited as an example of the importance of thorough permit review.

In 2009 the division processed fifteen (15) impoundment permits. The division had processed thirty (30) impoundment permits. Co-Chair Combs stated that industry requests for this fee increase were for the purpose of improving timely permit processing. House Bill 283 had been enacted by the General Assembly to help the coal mining industry. Co-Chair Combs requested that the division continue to improve timely permit processing without risking safety.

Mr. Gooch stated that the division’s review and enforcement regarding this administrative regulation was currently adequate. The division worked closely with the coal mining industry to facilitate this administrative regulation, and the industry was pleased with the cooperation of state government.

A motion was made and seconded to approve the following amendments: (1) to amend the RELATES TO and STATUTORY AUTHORITY paragraphs to correction citations; and (2) to amend Sections 2 through 6, 8, 9, 11, 12, 13, and 15 through 26 to comply with the drafting and format requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

503 KAR 3:040. Telecommunications academy trainee requirements: misconduct; penalties; discipline procedures.

In response to a question by Senator Givens, Mr. Lynn stated that this administrative regulation required good hygiene and prohibited excessive perfume and cologne because the academy space was very limited and there had been numerous complaints.

A motion was made and seconded to approve the following amendments: (1) to amend Section 1 to specify that the criminal history check shall be conducted in the ninety (90) days before the trainee attends the academy; (2) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph to clearly state the necessity for and function served by this administrative regulation, as required by KRS 13A.220; and (3) to amend Sections 1, 3, 4, 6, and 10 to comply with the drafting and format requirements of KRS Chapter 13A. In response to questions by Representative Damron, Ms. Redmon stated that these administrative regulations were not more stringent than federal requirements. The division could not simply reference the federal regulations because only certain standards were updated.

In response to questions by Representative Ford who agreed with Representative Damron that referencing the federal regulation would be a more efficient way of keeping the administrative regulations up-to-date with federal requirements, Ms. Redmon stated that these administrative regulations did not change compliance requirements for industry stakeholders.

A motion was made and seconded to approve the following amendment: to amend the RELATES TO paragraph to correct a citation. Without objection, and with agreement of the agency, the amendment was approved.

The following administrative regulations were deferred to the September 14, 2010, meeting of the Subcommittee:

Department of Parks: Parks and Campgrounds

304 KAR 1:040. Campgrounds. Catherine York, deputy general counsel, and Sam Devine, customer service director, represented the department.

In response to questions by Representative Ford, Ms. York stated that this administrative regulation was necessary to clarify that joyriding in a nonlicensed motorized vehicle on a state campground was prohibited, except for those used by mobility-impaired persons. Mr. Devine stated that there had been near accidents and numerous complaints. Ms. York stated that this did not affect areas like the Daniel Boone National Forest because it was outside the jurisdiction of a state campground. A state campground consisted of an area within a state park where camping facilities were available and that is located after a post where a prospective camper paid for camping privileges.

In response to a question by Senator Pendleton, Ms. York stated that the intent of this administrative regulation was to allow entry and exit of nonlicensed motorized vehicles but to prohibit joyriding within the campground.

In response to questions by Co-Chair Tori, Ms. York stated that golf carts were included in the category of a nonlicensed motorized vehicle. Some campgrounds were too small to facilitate traffic from nonlicensed motorized vehicles. Those persons who did not qualify as mobility impaired but who had a statement from a physician indicating a mobility difficulty, temporary or permanent, would also qualify to use a nonlicensed motorized vehicle within a state campground.

Senator Pendleton requested that the agency further amend this administrative regulation to clarify what constituted joyriding, which vehicles were included in the category of nonlicensed motorized vehicles, and what options were available for golf cart usage.

Co-Chair Combs requested that the agency examine and consider eliminating redundancy with this administrative regulation and other existing laws.

A motion was made and seconded to defer this administrative regulation in order to amend it to clarify the agency’s intent. Ms. York stated that the department would agree to defer this administrative regulation. Without objection, and with agreement of the agency, the motion was approved.

Locator Index - Effective Dates

The Locator Index lists all administrative regulations published in VOLUME 37 of the Administrative Register from July 2010 through June 2011. It also lists the page number on which each administrative regulation is published, the effective date of the administrative regulation after it has completed the review process, and other action which may affect the administrative regulation. NOTE: The administrative regulations listed under VOLUME 36 are those administrative regulations that were originally published in VOLUME 36 (last year’s) issues of the Administrative Register but had not yet gone into effect when the 2010 bound Volumes were published.

KRS Index

The KRS Index is a cross-reference of statutes to which administrative regulations relate. These statute numbers are derived from the RELATES TO line of each administrative regulation submitted for publication in VOLUME 37 of the Administrative Register.

Technical Amendment Index

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2010 bound Volumes. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10) or 13A.312(2). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the Administrative Register. Subject Index

The Subject Index is a general index of administrative regulations published in VOLUME 37 of the Administrative Register, and is mainly broken down by agency.

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2010 bound Volumes. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10) or 13A.312(2). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the Administrative Register. NOTE: Finalized copies of the technically amended administrative regulations are available for viewing on the Legislative Research Commission Web site at http://www.lrc.ky.gov/home.htm.

The Board of Nursing has requested that technical amendments be made to reflect the statutory change of the term "Advance Registered Nurse Practitioner" or "ARNP" to "Advance Practice Registered Nurse" or "APRN". This change was applied to 201 KAR 20:059, 201 KAR 20:161, 201 KAR 20:163, 201 KAR 20:215, 201 KAR 20:220, 201 KAR 20:235, 201 KAR 20:400, 201 KAR 20:410, 201 KAR 20:450, and 201 KAR 20:490, as of July 15, 2010.
