STATEMENT OF EMERGENCY
32 KAR 1:030E

This emergency administrative regulation is being promulgated in response to the changes to KRS Chapter 121 under House Bill No. 88 that was passed by the 2010 Kentucky General Assembly during regular session and signed by the Governor on April 9, 2010. House Bill No. 88 will be effective on November 3, 2010. The Kentucky Registry of Election Finance ("registry") is expressly required to promulgate administrative regulations necessary to carry out the provisions of KRS Chapter 121 under KRS 121.120(1)(g) and to prescribe official forms for the making of required reports under KRS 121.120(4)(a). Failure to enact this administrative regulation on an emergency basis would pose imminent threat to the public health, safety or welfare of Kentucky. An ordinary administrative regulation would not be sufficient because the current reporting forms for disclosing campaign finances are not consistent with the changes under House Bill No. 88. The revised forms for use by persons and entities regulated by the registry must be made available by November 11, 2010, the first filing deadline for an election finance statement following the effective date of 2010 House Bill 88, so as to ensure consistency on all required filings by candidates, slates of candidates, and committees. This emergency administrative regulation is identical to the ordinary administrative regulation. This emergency administrative regulation shall be replaced by an ordinary administrative regulation.

This administrative regulation specifies the forms to be used by candidates, slates of candidates, campaign committees, and committees and incorporates those forms by reference. KRS 121.120(4) requires the registry to promulgate administrative regulations and prescribe forms for the making of reports under KRS Chapter 121.

Section 1. The following candidates, slates of candidates, and committees shall file the reports required by KRS 121.180 on the forms incorporated by reference in this administrative regulation:

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Emily Dennis, General Counsel

(1) Provide a brief summary of:

(a) What this administrative regulation does:
This administrative regulation amends existing forms for the filing of election finance statements by candidates, slates of candidates, and committees, which includes the following committee types: campaign committees, county executive committees, district executive committees, state executive committees, permanent committees, caucus campaign committees, and inaugural committees.

(b) The necessity of this administrative regulation: KRS 121.120(1)(g) and 121.120(4) require the registry to promulgate this administrative regulation. Changes to existing forms for the filing of Election Finance Statements were necessitated by the passage of 2010 HB 88, effective November 3, 2010. 2010 HB 88 amends KRS 121.180 to require the registry to include an entry reading, "No change since last report." on each paper and electronic form that it supplies for the filing of an election finance statement.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation specifically conforms to the provisions of KRS 121.120(1)(g), as it promulgates an administrative regulation to carry out the provisions of KRS Chapter 121, and 121.120(4), as it prescribes a form for the making of reports.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The administrative regulation assists in the effective administration of the reporting requirements under KRS 121.180 and specifically complies with the provisions of 2010 HB 88.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment updates the latest version of official reporting forms for the filing of election finance statements by all regulated persons and entities. The amendment further clarifies that gubernatorial slates and all campaign committees who receive contributions or make expenditures in excess of $3,000 are subject to regulation. The inclusion of gubernatorial slates and deletion of "candidate" from campaign committees is a housekeeping measure only. Gubernatorial slates and campaign committees not authorized by any candidate are recognized under existing law (see KRS 121.015(9) and 121.015(3)(a), respectively), and are required to file election finance statements on the same reporting schedule as candidates and campaign committees authorized by candidates.

(b) The necessity of the amendment to this administrative regulation: KRS 121.120(4) requires the registry to adopt official forms, more specifically, to develop prescribed forms for the making of required reports. 2010 HB 88 requires the registry to include an entry reading, "No change since last report." on each paper and electronic form that it supplies for the filing of election statements.
FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments, or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? Commonwealth of Kentucky - General Government - registry of Election Finance.

3. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation: KRS 121.120(1)(g) and (4), 121.180 (1), (2),(3), (6) and 2010 HB 88.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is in effect:
   (a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? No revenue will be generated as a result of this administrative regulation.
   (b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? No revenue will be generated in subsequent years as a result of this administrative regulation.
   (c) How much will it cost to administer this program for the first year? Changes to the registry’s “Election Finance Statement” forms necessitated by 2010 HB 88 will result in an additional cost of $5,000 to the registry of Election Finance in year one, for the printing of new forms and the necessary programming updates to the agency’s electronic filing system, to display campaign finance data electronically in the registry’s electronic system.
   (d) How much will it cost to administer this program for subsequent years? No additional costs are anticipated in subsequent years, as these costs constitute ongoing administrative costs consistent with the agency’s function.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Revenues (+/-): None
Expenditures (+/-): + $5,000 in year one (1) no additional costs in subsequent years.

Other Explanation: N/A

STATEMENT OF EMERGENCY
32 KAR 1:190E

This emergency administrative regulation is being promulgated in response to the changes to KRS Chapter 121 under 2010 House Bill 151 that was passed by the 2010 Kentucky General Assembly during the 2010 regular session and signed by the Governor on April 12, 2010. In addition, effective July 15, 2008, KRS 118.227(1)(b) requires that any changes made to a slate of candidates must be made on forms prescribed by the State Board of Elections and filed with the Secretary of State. The Kentucky Registry of Election Finance (“Registry”) is expressly required to promulgate administrative regulations necessary to carry out the provisions of KRS Chapter 121 under 2010 HB 151 and KREF Form 040/G - “Gubernatorial Slate Media Report” and KREF Form 034/G - “Notice of Gubernatorial Slate Replacement”, are now obsolete due to these legislative changes. Failure to enact this emergency administrative regulation on an emergency basis would pose imminent threat to the public health, safety or welfare of Kentucky. An ordinary administrative regulation would not be sufficient because the current reporting forms aids in such disclosure are not consistent with the changes under 2010 HB 151 and KREF Form 034/G.

The amendment deleting these forms must be made by November 3, 2010, the first day for gubernatorial slates to file nominating papers to avoid confusion regarding reporting requirements, and an ordinary administrative regulation would not be effective by such date.
This emergency administrative regulation is identical to the ordinary administrative regulation. This emergency administrative regulation shall be replaced by an ordinary administrative regulation.

STATEMENT OF EMERGENCY
900 KAR 5:020E

This emergency administrative regulation is being promulgated to become compliant with amendments to KRS 214B.450, which requires the cabinet to implement changes to the State Health Plan to develop Certificate of Need requirements for applications for Level I psychiatric residential treatment facilities and Level II psychiatric residential treatment facilities. An ordinary administrative regulation is not sufficient because the changes must be in place on October 13, 2010, when the amendments to KRS 216B.450 are effective. Failure to enact this administrative regulation on an emergency basis will compromise the Cabinet’s ability to comply with the new requirements of KRS 216B.450 as applicants will not be able to submit Certificate of Need Applications for Level I psychiatric residential treatment facilities and Level II psychiatric residential treatment facilities. KRS 216B.450 allows the establishment of Level I psychiatric residential treatment facilities and Level II psychiatric residential treatment facilities to meet the treatment needs of children ages four (4) to twenty-one (21) who have an emotional disability, persistent aggressive behaviors, intellectual disability, sexually acting out behaviors, or development disability. This emergency administrative regulation shall be replaced by an ordinary administrative regulation to be concurrently filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

**STATEMENT OF EMERGENCY**

**902 KAR 20:320E**

This emergency administrative regulation is being promulgated as an amendment to the existing administrative regulation to establish minimum licensure requirements for the operation of Level II psychiatric residential treatment facilities. Level II psychiatric residential treatment facilities will offer specialty programs to treat children and adolescents who have a severe emotional disability as defined by KRS 200.503 in addition to severe and persistent aggressive behaviors, intellectual disability, sexually acting out behaviors, or development disability. Residents of Level II psychiatric residential treatment facilities do not meet the medical necessity criteria for an acute care hospital or a psychiatric hospital, and they have treatment needs that cannot be met in an ambulatory care setting. Level I psychiatric residential treatment facility, or other less restrictive environment. This action must be taken on an emergency basis in accordance with KRS 13A.190(1)(a) to meet a deadline for the promulgation of an administrative regulation required by the passage of HB 231 during the 2010 Session of the General Assembly. Children with severe psychiatric disorders are now treated out-of-state because of a lack of options in Kentucky. However, with the passage of HB 231, children placed out-of-state may return home, and others who would have been placed out of state will now benefit from in-state options through the establishment of Level II psychiatric residential treatment facilities. Failure to enact this administrative regulation on an emergency basis will compromise the Cabinet’s ability to comply with the requirements of HB 231 enacted by the 2010 General Assembly. This emergency administrative regulation shall be replaced by an ordinary administrative regulation to be concurrently filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments, or school districts)? Yes

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This administrative regulation relates to the licensure of Level I and Level II psychiatric residential treatment facilities.

3. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 216B.457(21)

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is in effect:

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This
This emergency administrative regulation is being promulgated as an amendment to the existing administrative regulation to establish minimum licensure standards for Level II psychiatric residential treatment facilities. Level II psychiatric residential treatment facilities will offer specialty programs to treat children and adolescents who have a severe emotional disability as defined by KRS 200.503 in addition to severe and persistent aggressive behaviors, intellectual disability, sexually acting out behaviors, or development disability. Residents of Level II psychiatric residential treatment facilities do not meet the medical necessity criteria for an acute care hospital or a psychiatric hospital, and they have treatment needs that cannot be met in an ambulatory care setting, Level I psychiatric residential treatment facility, or other less restrictive environment. This action must be taken on an emergency basis in accordance with KRS 13A.190(1)(a) to meet a deadline for the promulgation of an administrative regulation required by the passage of HB 231 during the 2010 Session of the General Assembly. Children with severe psychiatric disorders are now treated out-of-state because of a lack of options in Kentucky. However, with the passage of HB 231, children placed out-of-state may return home, and others who would have been placed out of state will now benefit from in-state options through the establishment of Level II psychiatric residential treatment facilities. Failure to enact this administrative regulation on an emergency basis will compromise the cabinet’s ability to comply with the requirements of HB 231 enacted by the 2010 General Assembly. This emergency administrative regulation shall be replaced by an ordinary administrative regulation to be concurrently filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

To determine the allocation to school councils for certified staff, the district shall provide sufficient funds:

   (b) To meet other classroom teaching and certified staff positions not included in paragraph (a) of this subsection that are generated by the local board certified staffing policy.
   (2) Any revisions of staffing policy or guidelines for the next school year shall be adopted by the local board and submitted to the Kentucky Department of Education by May 1 of each year.
   (3) Funds for positions allocated in subsection (1) of this section shall be based on the previous year’s actual 185 day certified salary for the number of contract days, or otherwise required by the Kentucky General Assembly within a biennial budget adjusted by changes in rank, additional years of experience, and changes in the district’s salary schedule for each existing staff member.

   (5) Any adjustments to the allocation due to increases in salary schedules, salary adjustments, or increases or decreases in enrollment shall be made by September 15. A council shall be notified of an adjustment if the adjustment represents a change in staffing due to enrollment increases or decreases.

Section 6. Other Minimum Allocations. (1) School councils shall receive a minimum allocation of three and one-half (3 1/2) percent of the statewide guaranteed base funding level for Support Education Excellence in Kentucky (SEEK) based on prior year final average daily attendance.

   (3) Allocations for operating expenses, including utilities, or for health and safety requirements of schools shall not be included in the allocations required by Sections 4, 5, 7, or 8 of this administrative regulation or this section. If funds are given to a school for these purposes, the funds shall be distributed in a separate allocation.

(1) The balance between the amount generated in Sections 4, 5, and 6 of this administrative regulation and the amount available for distribution to school councils from Section 3 of this administrative regulation shall be distributed by the local board in one (1) of the following manners:

Section 11. The provisions of this administrative regulation notwithstanding, a district shall not be prohibited from passing on to school councils any reduction in state and local revenues.

Section 12. The Kentucky Board of Education may approve requests from local school districts annually to use an alternative formula to allocate funds to schools.
Section 2. A local district may provide bus transportation for the district's secondary school pupils from their parent school to a vocational school [e.g., a state vocational-technical school, an area vocational education center, or a vocational training site] where an integral part of the basic vocational instructional program is being provided.

Section 3. A district providing transportation to a vocational school shall submit a request for reimbursement by submitting a completed Form VT-2, District's Annual Claim to Receive Reimbursement for Pupil Transportation Vocational Schools, annually on or before June 30 of the current school year to the Office of District Support Services in the Department of Education. This application showing anticipated transportation of pupils to a vocational school for which reimbursement is to be claimed shall be submitted to the Office of District Support Services for approval on or before October 1 of the current school year.

Section 3.2 [A request for reimbursement for actual transportation to a vocational school shall be made on an annual basis on or before June 30 of the current school year to the Office of District Support Services in the Department of Education.]

Section 4.5 [Tentative] Funding in the current year shall be based upon information submitted on district applications. Any necessary adjustments shall be made in the following year based on the actual transportation provided.

Section 5.[b.] A local district that transports pupils to a vocational school on buses owned and operated by the district shall be reimbursed for these expenditures as follows:

1. Bus mileage at a rate not to exceed the average cost per bus mile for county school districts, exclusive of driver's cost, as calculated by the Office of District Support Services for the previous school year; and

2. The vocational school bus driver's cost at an hourly rate not to exceed the hourly rate paid by the district to a driver in the district's regular transportation program with similar qualifications.

Section 6.[Z.] If a district's pupils are transported to a vocational school over a toll road as the nearest or best route, either on a board-owned bus or a bus contracted to the board, the district shall be reimbursed for the toll road fee in addition to mileage and driver's cost.

Section 7.[b.] (1) A district that contracts for the transportation of its pupils to a vocational school shall be reimbursed an amount not to exceed the total amount that would result if:

(a) The vocational school bus mileage is multiplied by the average cost per bus mile for county districts exclusive of driver's cost; and

(b) The driver's total hours are multiplied by the average hourly rate paid by county school districts plus necessary toll road fees.

(2) The average mileage cost and average hourly rate shall be those calculated by the Office of District Support Services for the previous school year.

Section 8.[a.] (1) Bus mileage shall be calculated from the parent school to the vocational school over the nearest and best route. If the same bus is used to transport pupils to a vocational school from more than one (1) school within the same district, bus mileage shall be calculated from the school located farthest from the vocational school over the nearest and best route as the bus serves the other schools en route to the vocational school.

(2) A bus round trip shall be considered the transportation of the student to and from a vocational school.

(a) A bus driver transporting students on a bus from a high school to a vocational school and returning back without the students to the high school shall be considered to have made half of a round trip.

(b) Similarly, a bus driver departing from the high school without the students, going to the vocational school and returning back to the high school with the students shall be considered to have made half of a round trip.

Section 9. (1)[b.] If the driver waits at the vocational school for the full time that the pupils are in class, the driver's time shall start when the bus leaves the parent school farthest from which pupils are transported to the vocational school and shall stop when the pupils are returned to the farthest parent school; or

(b) If the driver unloads the pupils at the vocational school, then takes the bus to another location and returns to pick up the pupils when the classes are finished, the first half of the driver's time shall start when the bus leaves the parent school farthest from which pupils are transported to the vocational school and shall end when the driver arrives at the parent school; or

(b)[Z.] If possible or practical, the district shall pay the bus driver by the method that results in the least cost when the driver's time and the required bus mileage are considered in combination.
Section 10. The driver of the bus that transports pupils to a vocational school shall meet the same requirements as the district's bus drivers that transport pupils to the district's public schools.

Section 11. A school district shall be reimbursed for the cost of vocational school transportation for the actual number of days that pupils were transported to the vocational school not to exceed the number of instructional days in the school district's approved amended calendar (up to a maximum of 175 days per school year).

Section 12. [14.] One (1) district may make a contract with another district to transport the other district's pupils to a vocational school on the same bus with the transporting district's pupils or on a separate bus.

(2) If one (1) district contracts to provide a bus or buses to transport another district's pupils to a vocational school, the district providing the bus or buses shall claim additional reimbursement only for the extra bus miles required and the extra hours of bus driver time required to provide this service for the other district.

Section 13. A district shall make maximum use of the bus that transports pupils to a vocational school through planning and routing. The use of more than one (1) bus for transporting pupils from any school or group of schools to a vocational school shall be approved only if the length of time required for one (1) bus to pick up and transport the pupils would be impractical or the number of pupils on one (1) bus would exceed seating capacity.

Section 14. A district shall not be reimbursed for:
(1) The transportation of vocational school pupils on field trips, excursions, competitions, or recreational trips; or
(2).

Section 15. Incorporation by Reference. (1) "Form VT-2, District's Annual Claim to Receive Reimbursement for Pupil Transportation Vocational Schools", November 2010, is incorporated by reference.

The resulting amount shall be the estimated total approved direct graduate medical education costs;

total graduate medical education costs related to the Medicaid Program; and
6. Medicaid Program graduate medical education costs shall then be multiplied by the budget neutrality factor.

Section 6.5 Budget Neutrality Factors. (1) When rates are rebased, estimated projected reimbursement in the universal rate year shall not exceed payments for the same services in the prior year adjusted for inflation based on changes in the Price Index Levels in the CMS IPPS Hospital Input Price Index using the inflation factor prepared by GII for the universal rate year and adjusted for changes in patient utilization.

Section 7.6 Reimbursement Updating Procedures. (1) For rate years between rebasing periods, the department shall annually, on July 1, update the hospital-specific base rates for inflation based on changes in the Price Index Levels in the CMS IPPS Hospital Input Price Index from the midpoint of the previous rate year to the midpoint of the universal rate year (use the inflation factor prepared by GII for the universal rate year to inflate a hospital’s DRG base rate for rate years between rebasing periods).

(2) Except for an appeal in accordance with Section 21(20) of this administrative regulation, the department shall make no other adjustment.

(3) The department shall rebase DRG reimbursement rates on July 1, 2012 and every fourth year after that (every four [4] years).

(2) The department shall trend for inflation based on changes in the Price Index Levels in the CMS IPPS Hospital Input Price Index using the inflation factor prepared by GII as the trending factor for the period being trended.

Section 12.44 Indexing for Inflation. (1) After an allowable Medicaid cost has been trended to the beginning of a universal rate year, an indexing factor shall be applied to project inflationary cost in the universal rate year.

(2) The department shall trend for inflation based on changes in the Price Index Levels in the CMS IPPS Hospital Input Price Index using the inflation factor prepared by GII as the indexing factor for the universal rate year.

Section 13.46 Readmission. (1) An inpatient admission within fourteen (14) calendar days of discharge for the same diagnosis shall be considered a readmission and reviewed by the QIO.

discharge to the outlier threshold, by multiplying the sum of the
hospital-specific operating and capital-related mean cost-to-charge
ratios by the discharge-allowed charges.

3. The department shall use the Medicare operating and capi-
tal-related cost-to-charge ratios published in the Federal Register
for outlier payment calculations as of October 1 of the year imme-

4. The outlier payment amount shall equal eighty (80) percent
of the amount which estimated costs exceed the discharge’s outlier
threshold.

for an out-of-state claim using the same method used to determine
the cost outlier threshold for an in-state claim.

(b) The department shall calculate the estimated cost of each
discharge, for purposes of comparing the estimated cost of each
discharge to the outlier threshold, by multiplying the sum of the
hospital-specific operating and capital-related mean cost-to-charge
ratios by the discharge-allowed charges.

(c) The department shall use the Medicare operating and capi-
tal-related cost-to-charge ratios published in the Federal Register
for outlier payment calculations as of October 1 of the year imme-

additionally meets the criteria of a Type III hospital in an amount:

   a. Equal to the difference between payments made in accor-

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the preparation and certification program for school principals.
(b) The necessity of this administrative regulation: The administrative regulation is necessary to inform principal candidates of the minimum requirements to enter a Kentucky principal preparation program and to notify teacher educator institutions of the standards and procedures that shall be met in order to offer an approved principal preparation program in Kentucky.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 161.027 requires the Education Professional Standards Board to establish by administrative regulation the requirements for a preparation program in institution of higher education for all new applicants for principal certification and establish criteria for admission to the program.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation sets the standards and the review process for accreditation of principal preparation programs.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative
regulation: This amendment corrects a drafting error in a previous amendment so that candidates who have three (3) years experience teaching in a nonpublic school that is regionally or nationally accredited may enter into a principal program. This amendment also removes the expiration period for the principal redesign review committee and replaces the word “vocational” with term “career and technical.”

(b) The necessity of the amendment to this administrative regulation: This amendment standardizes language for career and technical staff and corrects a prior drafting error which misaligned the regulation with other educational statutes that allowed teaching service in a nonpublic school that is regionally or nationally accredited. This regulation also makes the principal redesign review committee a permanent committee ensuring that all future accredited principal programs will be reviewed under the same rigorous standards.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 161.027 requires the Education Professional Standards Board to establish by administrative regulation the requirements for a preparation program in institution of higher education for all new applicants for principal certification and establish criteria for admission to the program.

(d) How the amendment will assist in the effective administration of the statutes: This administrative regulation sets the standards and the review process for accreditation of principal preparation programs.

2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Education Professional Standards Board, local school districts, and state funded institutions of higher education.

3. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 161.027, 161.028, and 161.030.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This regulation should not generate any revenue.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? No revenue should be generated.

(c) How much will it cost to administer this program for the first year? The members of the principal redesign committee are all volunteers and the only cost associated with their service is travel expenses. It is not possible to estimate the total amount of travel related expenses per year since the committee only meets on an as needed basis when programs are submitted.

(d) How much will it cost to administer this program for subsequent years? There should be no additional cost.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Emily Dennis, General Counsel

(1) Provide a brief summary of:

(a) What this administrative regulation does:

This administrative regulation amends existing forms for the filing of election finance statements by candidates, slates of candidates, and committees, which includes the following specific committee types: campaign committees, county executive committees, district executive committees, state executive committees, permanent committees, caucus campaign committees, and inaugural committees.

(b) The necessity of this administrative regulation: KRS 121.120(1)(g) and 121.120(4) require the registry to promulgate this administrative regulation. Changes to existing forms for the filing of Election Finance Statements were necessitated by the passage of 2010 HB 88, effective November 3, 2010. 2010 HB 88 amends KRS 121.180 to require the registry to include an entry reading, “No change since last report.” on each paper and electronic form that it supplies for the filing of an election finance statement. This amendment simplifies the process of reporting by those candidates, gubernatorial slates and campaign committees who receive contributions or make expenditures in excess of $3,000 are subject to regulation. The inclusion of gubernatorial slates and deletion of “candidate” from campaign committees is a housekeeping measure only. Gubernatorial slates and campaign committees not authorized by any candidate are recognized under existing law (see KRS 121.015(9) and 121.015(3)(a), respectively), and are required to file election finance statements on the same reporting schedule as candidates and campaign committees authorized by candidates.

(b) The necessity of the amendment to this administrative regulation: KRS 121.120(4) requires the registry to adopt official forms and, more specifically, to develop prescribed forms for the making of required reports. 2010 HB 88 requires the registry to include an entry reading, “No change since last report.” on each paper and electronic form that it supplies for the filing of election finance statements. Amendment to the administrative regulation is necessary to bring the registry’s forms into compliance with 2010 HB 88.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment specifically conforms to the provisions of KRS 121.120(1)(g) by promulgating an administrative regulation to carry out the provisions of KRS Chapter 121 and 121.015(4) by prescribing forms for the making of reports.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment updates the latest version of official reporting forms for the filing of election finance statements by all regulated persons and entities. The amendment further clarifies that gubernatorial slates and all campaign committees who receive contributions or make expenditures in excess of $3,000 are subject to regulation. The inclusion of gubernatorial slates and deletion of “candidate” from campaign committees is a housekeeping measure only. Gubernatorial slates and campaign committees not authorized by any candidate are recognized under existing law (see KRS 121.015(9) and 121.015(3)(a), respectively), and are required to file election finance statements on the same reporting schedule as candidates and campaign committees authorized by candidates.

(b) The necessity of the amendment to this administrative regulation: KRS 121.120(4) requires the registry to adopt official forms and, more specifically, to develop prescribed forms for the making of required reports. 2010 HB 88 requires the registry to include an entry reading, “No change since last report.” on each paper and electronic form that it supplies for the filing of election finance statements. Amendment to the administrative regulation is necessary to bring the registry’s forms into compliance with 2010 HB 88.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment specifically conforms to the provisions of KRS 121.120(1)(g) by promulgating an administrative regulation to carry out the provisions of KRS Chapter 121 and 121.015(4) by prescribing forms for the making of reports.

(3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No action will be required of the regulated entities. The registry will provide the new forms, both in hard copy format and electronically, to the regulated entities.

(3) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No action will be required of the regulated entities. The registry will provide the new forms, both in hard copy format and electronically, to the regulated entities. The change, necessitated by 2010 HB 88, requires the registry to include an entry reading, “No change since last report.” on its reporting forms for a filer to designate, if the filer has received no money, loans or other things of value from any source since the date of the last report and has not authorized, incurred, or made any expenditures since that date, during any applicable reporting period.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No cost will be incurred by regulated entities as a result of this administrative regulation. However, this regulation does not create a new requirement as this is a form change only. To the extent the public, media, and other interest groups depend on the registry’s disclosure function, they will also be affected by this administrative regulation.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The change to the reporting form will simplify the process of reporting by those effective, gubernatorial slates and committees that have received no contributions and made no expenditures during any applicable reporting period by providing a check box for “No change since last report.” A filer designating “No change since last report.” shall only be required to
state the balance carried forward from the last report but need not specify receipts or expenditures in further detail, per 2010 HB 88.

5. Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: Initial costs to administer the program are estimated to be less than $5,000.

(b) On a continuing basis: Ordinary printing costs are anticipated in the registry's budget.

6. What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Registry budget funding will be used for implementation and enforcement.

7. Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding will be necessary to implement this administrative regulation.

8. State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation establishes no fees either directly or indirectly.

9. TIERING: Is tiering applied? No, tiering is not applied because the provisions of this regulation apply equally to all candidates, slates of candidates, and committees.

4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? No revenue will be generated in subsequent years as a result of this administrative regulation.

(c) How much will it cost to administer this program for the first year? Changes to the registry's "Election Finance Statement" forms necessitated by 2010 HB 88 will result in an additional cost of $5,000 to the registry of Election Finance in year one, for the printing of new forms and the necessary programming updates to the agency's electronic filing system, to display campaign finance data electronically in the format mandated by 2010 HB 88.

(d) How much will it cost to administer this program for subsequent years? No additional costs are anticipated in subsequent years, as these costs constitute ongoing administrative costs consistent with the agency's function.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Contact Person: Richard Carroll

(b) The necessity of this administrative regulation: To insure that CPAs are aware of the procedures to renew their license for a period of (1) one month after it expires and to reinstate their license.
(c) How this administrative regulation conforms to the content of the statutes: The amendment includes change made to the law in 2010 that decreases the fee from (6) six to (1) one month grace period for CPAs to renew their license after it expires and to allow CPAs to reinstate their licenses.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: It will include changes made to the law in 2010 that decreases the grace period from (6) six to (1) one month for CPAs to renew their license after it expires and to allow CPAs to reinstate their licenses.
(b) The necessity of the amendment to this administrative regulation: The current regulation does not include changes made in 2010 to the late renewal and reinstatement process.
(c) How the amendment conforms to the content of the authorizing statutes: The regulation adopts the new grace period and changes to the reinstatement process made to the statute in 2010.
(d) How the amendment will assist in the effective administration of the statutes: The amendment includes changes made in 2010 to the statute that governs the late renewal and reinstatement process.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Approximately 7,000 CPAs.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Due to the change in the statute CPAs will now only have a (1) one month grace period after their license expires to renew their license. Under the previous law they had up to (6) six months to renew an expired license. Also the CPAs who were not practicing public accounting at the time they failed to renew their license will only have to complete (60) sixty hours of CPE, as opposed to (80) eighty hours, (2) two of which must be an ethics course to be eligible to reinstate their license.

Also CPAs who were not practicing public accounting when they failed to renew their license (which meant they had to complete only sixty (60) as opposed to eighty (80) hours of CPE) will be able to reinstate their license by completing only sixty (60) instead of eighty (80) hours of CPE.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The board operates solely on the funds contained in its trust and agency account.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: There is no increase in the fee for a license to be reinstated. There is an increase in the late renewal fee but under the old renewal process some CPAs were charged the $200 fee if they waited 6 months to renew their license after it expired.

201 KAR 26:115. Definition of psychological testing.

RELATES TO: KRS 319.010
STATUTORY AUTHORITY: KRS 319.032
NECESSITY, FUNCTION, AND CONFORMITY: KRS 319.010[7][319.010|6] includes in the practice of psychology psychological testing in the administering and interpreting of tests of mental abilities, aptitudes, interests, attitudes, personality characteristics, emotion, and motivation. The intent of this administrative regulation is to provide a definition of psychological testing sufficient to allow this board to regulate effectively this aspect of psychological practice. The ability to administer and interpret psychological testing assumes formal academic training at the graduate level in statistics, test construction, sampling theory, tests and measurement, individual differences, and personality theory. In addition, the interpretation of psychological tests for diagnostic purposes assumes formal academic training in the areas of abnormal psychology, psychopathology, psychodiagnosis and, in the case of neuropsychological diagnosis, training in neuropsychology. Competent administration and interpretation of psychological tests also requires formal supervised practice experience.

Section 1. Definitions. “Psychological testing” means the use of one (1) or more standardized measurement instruments, devices, or procedures including the use of computerized psychological tests, to observe or record human behavior, and which require the application of appropriate normative data for interpretation or classification and includes the use of standardized instruments for the purposes of the diagnosis and treatment of mental and emotional disorders and disabilities, the evaluation or assessment of cognitive and intellectual abilities, personality and emotional states and traits, and neuropsychological functioning.

Section 2. Psychological Tests. (1) Individual tests for the evaluation of cognitive and intellectual abilities, examples of which are:

(a) The Wechsler series;
(b) The Stanford-Binet; and
(c) The Kaufman Assessment Battery for Children.

(2) Individual, objective and projective tests of personality and emotional states and traits, examples of which are:

(a) The Minnesota Multiphasic Personality Inventory; and
(b) The Millon Clinical Multiaxial Inventory;
(c) The Millon Adolescent Clinical Inventory; and
(d) Projective techniques including:
1. The Rorschach Ink Blots;
2. The Thematic Apperception Test; and
3. The Holtzman Ink Blots.

(3) Individual tests of neuropsychological functioning, examples of which are:

(a) The Halstead-Reitan Battery; (b) The Luria-Nebraska Battery; (c) The "Lezak or Kaplan Battery"; and (d) The NEPSY.

Section 3. Services which are described as “psychological testing” may only be administered and interpreted by persons credentialed by this board or who meet the formal academic training and experience qualifications described above and who are otherwise exempt by statute.

(1) Persons credentialed by this board, as well as other licensed or certified professionals, may also use tests of language, education and achievement, as well as tests of abilities, interests, and aptitudes. With the exception of the test categories and psychological tests listed in Section 2 of this administrative regulation, the use of these other tests is not exclusively within the scope of this administrative regulation.

(2) Members of other professions may not train or supervise any person in performing psychological testing.

(3) The practice of psychology shall be construed within the
meaning of the definition contained in KRS 319.010(7) without regard to whether payment is received for services rendered.

(4) Services which are described as "psychological testing and treatment" may be administered to minor children only upon the notification of and the granting of written permission by the parent or legal guardian, unless otherwise required by the courts subject to specific state or federal law.

- **(i)** For an individual serving multiple sentences, if one (1) or more of the crimes resulted in a conviction committed under paragraph (e) or (c) of this subsection and one (1) or more of the crimes resulted in a conviction committed under paragraph (c) or (b) of this subsection, parole eligibility shall be calculated by applying the parole eligibility criteria in effect at the time the most recent crime was committed.

- **(j)** As excepted by paragraphs (a) and (b) of this subsection, [subparagraphs 1 and 2 of this paragraph] after the initial review for parole, a subsequent review, during confinement, shall be at the discretion of the board.
an inmate described in subparagraph 1 of this paragraph, and that date is later than that calculated under subparagraph 1 of this paragraph, the later date shall be the parole eligibility date.

(c) If a prisoner who has previously met the board is given a deferment, escapes during the period of the deferment, and returns from that escape without a new sentence for the escape, the time out on the escape shall be added to the original deferment date to arrive at the new adjusted date.

2. If the prisoner later receives a sentence for the escape, the previous deferment shall be automatically voided and the new parole eligibility date shall be calculated based on the new sentence beginning from the date of sentencing for the new sentence, unless the deferment date set by the board is a later date than that determined by the calculations.

b. If the deferral date set by the board is a later date, the parole eligibility date shall be the date which last occurs.

d. If a person receives a serve-out or deferment on his original sentence prior to receiving an escape sentence or a sentence for a crime committed while on escape or confined in an institution, his parole eligibility date shall be calculated from the date of his new sentence or from the date previously set by the board, whichever occurs last.

e. If an inmate receives a parole recommendation but escapes prior to being released, the parole recommendation shall be void. Upon return to a state institution, the board shall, as soon as possible, conduct a file review and set or fix his parole eligibility date. If the board so determines it may conduct a face-to-face hearing with this person at the institution with a three (3) member panel.

(5) Parole reviews for persons on shock probation or on prerelease probation. If a person on shock probation or prerelease probation, and is later returned to the institution as a shock probation violator or prerelease probation violator, his new parole eligibility shall be calculated by adding the period of time the inmate is on shock probation or prerelease probation to his original parole eligibility date.

(a) If a person on shock probation or prerelease probation is returned to the institution with a new consecutive sentence acquired while on shock probation or prerelease probation, he shall be eligible for a parole hearing if he has reached parole eligibility on the aggregate of the two (2) sentences. The time served toward parole eligibility prior to discharge by shock probation or prerelease probation shall be included as part of the total period of time to be served for parole eligibility on the aggregate sentences. The time spent on shock probation or prerelease probation shall not be included as part of the total period of time to be served for parole eligibility.

(b) If a person on parole is returned to the institution, has received a new sentence for a crime committed while on parole, and is paroled or shock probated on the new sentence, the board shall, as soon as possible, conduct a file review and set or fix his parole eligibility date. REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Emily Perkins

(1) Provide a brief summary of:

(a) What this administrative regulation does: Provides the protocol for Sexual Assault Medical-Forensic Examinations (SAFE Exams).

(b) The necessity of this administrative regulation: To conform to the requirements of KRS 216B.400.

(c) How this administrative regulation conforms to the content of authorizing statutes: The regulation governs the performance of SAFE Exams, including defining the terms in KRS 216B.400; standards for storing collected samples; and guidelines for mandatory reporting if abuse of a child, spouse, or vulnerable adult is known or suspected.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The regulation provides direction and information to medical personnel regarding their duties and responsibilities and informs citizens who have been sexually assaulted of their rights and responsibilities.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment brings Kentucky's protocol for SAFE Exams into compliance with the with KRS 216B.400 as amended by the 2010 Kentucky General Assembly, (Regular Session), as well as 42 U.S.C. 3796gg-4 (Violence Against Women Act or VAWA) and 45 C.F.R. 164.512 (Health Insurance Portability and Accountability Act or HIPAA), and updates practices to reflect current best practices and requirements of state and federal law.
b) The necessity of the amendment to this administrative regulation: To conform with KRS 216B.400 as amended by the 2010 Kentucky General Assembly, Regular Session, as well as the VAWA and HIPAA. Compliance with VAWA is necessary to ensure that the Kentucky Cabinet to receive its annual award of federal funding authorized by the Violence Against Women Act. The awarded funding for 2010 is approximately $2 million per year.

c) How the amendment conforms to the content of the authorizing statutes: KRS 216B.400(4) directs the Secretary of Justice and Public Safety Cabinet to promulgate a statewide medical forensic protocol in consultation with the Sexual Assault Response Team Advisory Committee. This proposed amendment was developed through extensive consultation with the Sexual Assault Response Team Advisory Committee. It provides a statewide medical forensic protocol that complies with current state and federal laws and best practices.

d) How the amendment will assist in the effective administration of the statutes: The amendment provides health care providers, allied professionals, and citizens with information concerning the current procedures for the performance of SAFE Exams.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This affects hospitals that provide emergency services (125), other sexual assault examination facilities (15), and the numerous physicians and Sexual Assault Nurse Examiners who provide SAFE Exams. It also affects approximately 1,100 individuals per year who are sexually assaulted and are provided SAFE Exams.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

- List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Hospitals and other sexual assault examination facilities must update protocols and establish secure storage locations to ensure the chain of custody of collected samples. Doctors and Sexual Assault Nurse Examiners will be required to modify practices accordingly. Federally funded resources and training (described below) will assist regulated entities with compliance.

- (b) In complying with this administrative regulation or amendment, how much will it cost to each of the entities identified in question (3): Hospitals and other sexual assault examination facilities may incur minimal costs (less than $250) to establish secure storage locations. Because doctors and Sexual Assault Nurse Examiners are paid for any SAFE Exams performed, they should experience no cost. Likewise since KRS 216B.400 dictates that the victims should not be billed, no related costs should be incurred by individuals who are examined.

- (c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Hospitals, other sexual assault nurse examiners, doctors, and Sexual Assault Nurse Examiners will benefit from greater clarity regarding requirements and expectations. Victims will benefit greatly from the opportunity to have greater control in decisions related to health care, which promotes healing following sexual violence.

- (5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: $31,250 or less.

(b) On a continuing basis: None

- (6) What is the source of funding to be used for the implementation and enforcement of this administrative regulation: Fortunately, most hospitals already have appropriate storage facilities on-site. Therefore, most hospitals will only need to develop policies and procedures to ensure that these facilities are appropriately utilized to comply with this regulation. Federal grant funds have been secured to assist hospitals with policy and procedure development in order to promote consistent and timely implementation.

A federal Violence Against Women Act - ARRA grant in the amount of $114,700 is being used to develop samples policies and provide training hospitals and health care providers throughout the Commonwealth. The grant will also support ongoing technical assistance on related issues.

- (7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change, if it is an amendment: No increase in funding is necessary.

- (8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: No.

- (9) TIERING: Is tiering applied? No. Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all those individuals or entities regulated by it.

- \( d(x) \) is the LER, which is defined as the percentage of losses eliminated by the deductible;
- \( e \) is the general expenses as a percentage of standard premium after premium discounts (based on the insurer's filings);
- \( r \) is the losses excluding loss adjustment expense as a percentage of standard premiums after premium discounts;
- \( i \) is a factor to account for the differences in investment income earned by the insurer between policies with deductible and those without a deductible;
- \( e \) is a factor to account for interest on the loan due to prepayment of losses below the deductible;
- \( r \) is a factor to account for the increased risk associated with deductible policies; and
- \( s \) is a factor to account for adverse selection.

General expenses include all expenses incurred other than loss adjustment expense, commissions, and other expenses that vary directly with the premium. Losses are expected to be treated in this administrative regulation as adjustments to the otherwise indicated LER.

The formula for pricing of deductibles in Kentucky shall be as follows:

\[ p(x) = \left(1 - c - k - r + i\right)sd(x)E \]

\[ = E + e + a \]

where:

- \( p(x) \) is the discount factor for a deductible of \( x \);
- \( c \) is loss adjustment expenses as a percentage of standard premiums after premium discounts (based on the insurer's filings);
- \( k \) is a factor to account for credit risk;
- \( d(x) \) is the LER, which is defined as the percentage of losses eliminated by the deductible;
- \( e \) is the general expenses as a percentage of standard premium after premium discounts (based on the insurer's filings);
- \( r \) is the losses excluding loss adjustment expense as a percentage of standard premiums after premium discounts;
- \( i \) is a factor to account for the differences in investment income earned by the insurer between policies with deductible and those without a deductible;
- \( e \) is a factor to account for interest on the loan due to prepayment of losses below the deductible;
- \( r \) is a factor to account for the increased risk associated with deductible policies; and
- \( s \) is a factor to account for adverse selection.
Insurance Unit Statistical Plan data, its use shall be encouraged.

(d) Trending.

1. The size of loss distribution or data shall be trended to the effective period of the deductible factor. The trend factor shall be consistent with the historical data and with the most recent rate filing. The trend period shall reflect the average accident date of the underlying data and the average accident date of those policies issued during the effective period of the deductible factors.

2. While trends may affect the shape of the size of loss distribution, these adjustments are difficult to codify and are probably not significant in the short term. Thus, filings may use the assumption that the effective period is the uniform for claims of all sizes. Alternative assumptions may be used if thoroughly documented and supported in the filing.

(e) Loss development. Loss development for losses below $10,000 has a significantly shorter "tail" than for total losses. The assumption that no development takes place on this layer of loss after three (3) to five (5) years may be used in the calculation of the LDF. Thus, the size of loss distributions below $10,000 shall be taken as:

\[ E(x) = g(x) / LDF \]

Where \( g(x) \) is the distribution function determined from the size of loss data reported as of three (3) to five (5) years and LDF is the loss development factor to ultimate for all claims. Alternative assumptions may be used if thoroughly documented and supported in the filing.

(3) Investment income and increased risk.

(a) It is expected that loss payments by the insurer on losses from policies with deductibles shall be made later than those from policies without deductibles, since the insurer is responsible for losses below the deductible which would be paid first. Losses above a deductible are also more volatile than losses from the first dollar of loss. The increased volatility increases the risk borne by the insurer.

(b) The adjustment for investment income works in a direction opposite that of the adjustment for increased risk. It shall be assumed that these items completely offset each other. If the filer wishes to include an explicit factor for one (1) of these items, the filer shall also include an explicit factor for the other, and the filing document shall support the use of these factors.

(4) Loan on the prepayment of losses.

(a) The provision in KRS 304.13.400(2)(a) that every dollar of loss that is eliminated by the deductible shall first be paid by an insurer and then be reimbursed by the insured amounts to a loan, the effects of which may be recognized in the filing. This factor shall be equal to the amount or proportion of dollars that are eliminated by the deductible times a reasonable interest rate to account for the loss in investment income.

(b) This rate shall reflect the investment earned during the period of the loan. Insurers shall reflect repayment of losses three (3) months after the claim. Thus, the factor \( k \) shall be determined by the following formula:

\[ k = (1 + \frac{y}{12})^{1/3} - 1 \]

Where \( y \) is the yield on ninety (90) day United States treasury bills.

(4) Adverse selection. In some lines of insurance there has been evidence of anti-selection with respect to deductibles, that is, those that choose to purchase insurance with a deductible tend to have losses that exceed those losses which are expected. LERs may be reduced for adverse selection by up to five (5) percent, unless a greater reduction is clearly supported by facts such as loss ratios by deductible class which clearly show that the deductible discounts are consistently, across classes and time, high. For the initial filing, data from other states with deductibles may be used to support the selection of the factor.

(5) Credit risk. This factor is intended to account for losses below the deductible paid by insurers and not reimbursed by the insured due to bankruptcy. If the percentage of businesses that become bankruptedy is expected to be "z", then the load should assume that \( z \) % of the amount "on loan" shall not be reimbursed. This shall be calculated as follows:

\[ e = z \times 1.14 \]

Factors between 0 and 2.5 percent may be used.

Section 5. [4] Effect on Rate Making. (1) Data. The designated advisory organization’s statistical plan (Rate-making data from the National Council on Compensation Insurance Unit Statistical Plan) shall be modified to include a field indicating the deductible on the policy. Financial data calls shall segregate data by deductible.

(2) Gross versus net data. Adjustments [KRS 304.13.057] require that net data be used in rate making. However, adjustments to net data shall be made in the rate-making process to account for the presence of deductibles. Losses [that is, losses] shall be loaded by the loss elimination ratio, adjusted for anti-selection [LER (adjusted for anti-selection)] to a gross basis prior to the rate-making process. The loss elimination ratio [LER] and anti-selection factor shall be the same as in the current approved filing.

(3) Methodology. Rate-making methods shall be modified to account for the presence of deductibles. An adjustment shall be made [for example, there shall be an adjustment] in classification rate making for differences in the distribution of exposures by deductible among classes [Also, there shall be an adjustment] in the trending procedure for the presence of a shift in the distribution by deductible.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: DJ Wasson

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the method of calculating premium reductions for workers’ compensation insurance policies with deductibles.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to implement KRS 304.13-410 which requires an insurer to calculate a premium reduction for a deductible workers’ compensation policy in accordance with administrative regulations promulgated by the commissioner.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation establishes the method of calculating premium reductions for workers’ compensation insurance policies with deductibles.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation prescribes the deductibles that may be used and establishes the formulas to be used in calculating the premium discount applicable to the various deductibles.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment will adopt the updated hazard groups defined by the National Council on Compensation Insurance, the advisory organization designated by the commissioner pursuant to KRS 304.13-167.
(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to recognize the changes in the classifications and hazard groups as defined by NCCI, the advisory organization designated by the commissioner pursuant to KRS 304.13-167.
(c) How the amendment conforms to the content of the authorizing statutes: KRS 304.13-410 requires an insurer to calculate a premium reduction for a deductible workers’ compensation policy in accordance with administrative regulations promulgated by the commissioner. This amendment establishes the specific formula for determination of a deductible discount while identifying the elements that must be utilized by insurance carriers.
(d) To the amendment will assist in the effective administration of the statutes: This amendment recognizes the changes in the classifications and hazard groups as defined by NCCI, the advisory organization designated by the executive director pursuant to KRS 304.13-167 since 1993.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This regulation will affect the approximately 648 insurers and workers’ compensation self-insured groups writing workers’ compensation insurance in Kentucky.

(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Insurers will be required to calculate premium discounts for deductible policies based on the required elements in this administrative regulation.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): As this regulation is amending an existing process to implement the industry standard process for calculating discounts for workers’ compensation deductible policies, the Department does not believe that insurers will experience a significant cost for compliance. Rather, the changes to this administrative regulation will mirror current business practices of insurers in other states.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): As a result of compliance, insurers will be correctly calculating the statutorily mandated discounts for workers’ compensation deductible policies.

(5) Provide an estimate of how much it will cost to implement this regulation:
(a) Initially: There should not be an initial cost to the Department of Insurance to implement this administrative regulation.
(b) On a continuing basis: There should not be a continuing cost to the Department of Insurance to implement this administrative regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change, if it is an amendment: No increase in fees or funding will be necessary to implement the amendments to this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does not set forth any specific fees.

(9) TIERING: Is tiering applied? Tiering is not applied because this regulation applies equally to all insurers writing workers’ compensation deductible policies.

Kentucky Horse Racing Commission

(Amendment)

810 KAR 1:012. Horses.

RELATES TO: KRS 230.215[, EO 2008-688]

NECESSITY, FUNCTION, AND CONFORMITY: KRS 230.215[,24] and 230.260[24] authorize the Kentucky Horse Racing Commission [Authority] to promulgate administrative regulations regulating horse racing in Kentucky. [EO 2008-688, effective July 3, 2008] established the Kentucky Horse Racing Commission, and transferred all authority, function, and responsibilities of the Kentucky Horse Racing Authority to the Commission. This administrative regulation establishes requirements for the participation of horses in horse race meetings, protects the safety and welfare of the horse, and creates a level playing field for participants thereby protecting the integrity of pari-mutuel wagering.

Section 1. Definition. “Electronic registration system” means the Race Track Operations System created and maintained by InCompass, a wholly owned subsidiary of the Jockey Club, or another software application available online and approved by the commission.

Section 2. Registration Required. (1) Except as provided by subsection (2) of this section, a horse shall not be entered or raced in this state unless:

(a) Duly registered [and named] in the registry office of the Jockey Club [in New York]; and

(b) The registration certificate or racing permit issued by the Jockey Club for the horse is on file with the racing secretary.

(c) The information contained on the registration certificate or racing permit is available to the racing secretary through the electronic registration system.

(2) The stewards may for good cause waive this requirement if the horse is otherwise correctly identified to the stewards' satisfaction.

(3) Upon claim, sale, or any other transfer of ownership, the horse’s registration certificate or racing permit shall be given to the new owner. The new owner may report the change in ownership to InCompass so that it can be updated in the electronic registration system.

(4) If the electronic registration system fails for any reason, the stewards may require presentation of a horse’s registration certificate or racing permit prior to a horse being entered or raced in Kentucky.

(5) The stewards may at any time require presentation of a horse’s registration certificate or racing permit. Failure to comply with this provision may result in imposition of penalties pursuant to 810 KAR 1:028. [The Jockey Club registration certificate of each horse shall be filled with the horse identifier within forty-eight (48) hours after the horse’s arrival on the association grounds.]

Section 3. [2.] Ringers Prohibited. (1) A horse shall not be entered or raced in this state designated by a name other than the name which the horse was registered with the Jockey Club [in New York]. If a horse’s name is changed with [by] the Jockey Club, the horse’s former name shall be shown parenthetically in the daily race program the first three (3) times the horse races after the name change.

(2) A person shall not cause or permit the correct identity of a horse to be concealed or altered. A person shall not refuse to reveal the correct identity of a horse he owns or is in his care[,] to a racing official or member of the regular news media.

(3) A horse shall not race in this state unless the horse has:

(a) A legible lip tattoo number applied by agents of the Thoroughbred Racing and Protective Bureau; [or]

(b) An electronic horse identification microchip that accurately identifies the horse and is compliant with the international standards ISO 11784; or

(c) With regards to a horse from a foreign jurisdiction participating in a graded stakes race, has otherwise been correctly identified to the stewards’ satisfaction.

(4) A horse shall not be entered or raced in this state if previously involved in a “ringer” case to the extent that:

(a) A person having control of the horse knowingly entered or raced the horse while designated by a name other than the name under which the horse was registered with the Jockey Club [in New York]; or

(b) The person having control of the horse participated in or assisted in the entry or racing of some other horse under the name registered as belonging to the horse in question.

Section 4. [3.] Denerving. (1) A horse on which a neurectomy has been performed shall have that fact designated on its registration certificate, [or] racing permit, or in the electronic registration system. It shall be the joint responsibility of the practicing veterinarian who performed the operation and the trainer of the derivered horse to ensure this [that] fact is correctly designated [on the registration certificate or racing permit].

(2) A horse whose ulnar, radial, or median nerve has been either blocked or removed (known as high nerved), or whose volar or plantar nerve has been blocked or removed (known as low nerved), may be permitted to race if the denerving is in the care[,] of a racing official or member of the regular news media.

(3) A horse that [whose volar or plantar nerve has been removed unilaterally or which] has had a posterior digital neurectomy (known as low nerved), may be permitted to race if the derivered horse to ensure this [that] fact is correctly designated [on the registration certificate or racing permit].

(4) If a horse races in violation of this administrative regulation and participates in the purse distribution, then a protest shall not be considered unless submitted in writing to the stewards within forty-eight (48) hours after the race.

(5) If a horse races in violation of this administrative regulation and is claimed, then a protest shall not be considered unless the successful claimant submits a protest in writing within forty-eight (48) hours requesting the claim be voided. If the claim is voided, the horse shall be returned to the owner who started the horse in the race, and the claim price shall be returned to the claimant.

(6) A list of all denerved horses shall be posted in the racing secretary’s office. Only horses that have in fact had a neurectomy
Section 5.4. Breeders. (1) A horse that bleeds either during or after a race or workout and is not on bleeder medication may race on bleeder medication at the discretion of the commission veterinarian.

(2)(a) A horse that bleeds while on bleeder medication shall be placed on the veterinarian's list and shall remain on the list until removed by the commission veterinarian after consultation with the practicing veterinarian.

(b) If the commission veterinarian and the practicing veterinarian disagree on the removal of the horse from the veterinarian's list, then a third veterinarian shall be appointed by the chairman of the commission or his designee.

(c) The opinion of the third veterinarian shall be delivered to the chairman of the commission or his designee who shall make a final decision on the issue.

Section 6.5. Health Certificate Required. A horse shall not be stabled on the grounds of a licensed association or any training center under the jurisdiction of the commission unless within ten (10) days prior to arrival on the association grounds, the horse has been examined by an accredited practicing veterinarian who shall certify:

(1) The horse's identity [A horse];

[Temperature when examined];

(3) That, to the best of the examining veterinarian's knowledge and belief, the horse is free from any infectious or contagious disease or exposure thereto; or observable ectoparasites; and

Section 9.8. Fillies and Mares Bred. (1) A [Any] filly or mare that has been covered by a stallion shall be so reported to the racing secretary prior to being entered in a race.

(2) A list of all fillies and mares so reported, showing the names of stallions to which they have been bred, shall be posted in the racing secretary's office.

(3) A filly or mare that has been covered by a stallion shall not be entered in a claiming race, unless a written release from the stallion owner is attached to the filly's or mare's registration certificate indicating that the stallion service fee has been paid or satisfied.

Section 10.5. Serviceable for Racing. A horse shall not be entered or raced that:

(1) Is not in serviceable, sound racing condition. The stewards may at any time require a horse on association grounds to be examined by a qualified person;

(2) Is posted on a veterinarian's list, stewards' list, or starter's list, or is suspended, in any racing jurisdiction;

(8) Bar shoes may be used for racing only with permission of the stewards.

(9) Any goading device, chain, spurs, electrical or mechanical device, or appliance, except for a riding crop, that may be used to alter the speed of a horse shall not be used on a horse in a race or workout.

(10) Any riding crop All riding crops may be subject to inspection and approval by the stewards or the clerk of the scales to ensure conformity with the specifications of paragraphs (c) through (e) of this subsection.

(b) Only riding crops meeting the specifications of this subsection, including the mandatory shock absorbing characteristics, may be used in thoroughbred racing and [ including training.]

(c) A riding crop shall have:

1. Maximum weight of eight (8) ounces;

2. Maximum length, including flaps, of thirty (30) inches; and

3. Minimum diameter of the shaft of one-half (1/2) inch.

An initially small TST reaction size is followed by a substantial reaction size on a later test, and this increase in millimeters of indurations may be confused with a conversion or a recent M. tuberculosis infection. Two-step testing shall be used to distinguish new infections from boosted reactions in infection-control surveillance programs.

(4) "Chemical restraint" means the use of a drug that:

(a) is administered to manage a resident's behavior in a way that reduces the safety risk to the resident or others;

(b) hasn’t the temporary effect of restricting the resident’s freedom of movement; and

(9)[(4)] "Freestanding" is defined by [a] KRS 216B.450(3).

(10) [(5)] "Governing body" means the individual, agency, partnership, or corporation in which the ultimate responsibility and authority for the conduct of the facility is vested.

(11) "Home-like" is defined by KRS 216B.450(4).

(12) "Induration" means a firm area in the skin which develops as a reaction to injected tuberculin antigen if a person has tuberculosis infection. The diameter of the firm area is measured transversely to the nearest millimeter to gauge the degree of reaction, and the result is recorded in millimeters. A reaction of ten (10) millimeters or more of induration is considered highly indicative of
tuberculosis infection in a healthcare setting. A reaction of five (5) millimeters or more of induration may be significant in certain individuals, including HIV-infected persons, persons with immunosuppression, or recent contacts of persons with active TB disease.

16) "Licensure agency" means the Cabinet for Health and Family Services, Office of Inspector General.

17) "Level" means:

   (b) On a continuing basis: No additional costs will be incurred to implement this regulation on a continuing basis.

6. What is the source of the funding to be used for the implementation and enforcement of this administrative regulation? 8. State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative establishes a $20 fee for anyone wishing to purchase a paper copy of annual reports. Administrative Regulations Reviewed by the Subcommittee:

PERSONNEL CABINET: Office of the Secretary: Personnel Cabinet, Classified

FINANCE AND ADMINISTRATION CABINET: Office of the Secretary: Purchasing

200 KAR 5:410. Preferences for purchases of commodities or services. Travis Powell, deputy general counsel, and Don Speer, executive director, represented the office.

A motion was made and seconded to approve the following amendments: (1) to amend the STATUTORY AUTHORITY paragraph to delete a statutory citation; (2) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph to clearly state the necessity for and function served by this administrative regulation, as required by KRS 13A.220; and (3) to amend Section 2 to correct a drafting error. Without objection, and with agreement of the agency, the amendments were approved.

GENERAL GOVERNMENT CABINET: Licensing Board for Specialists in Hearing Instruments: Board

201 KAR 7:075. Continuing education requirements. Steven Clark, board chair; Angela Evans, assistant attorney general; and Frances Short, executive director, Office of Occupations and Professionals, represented the board.

A motion was made and seconded to approve the following amendments: (1) to amend the RELATES TO and STATUTORY AUTHORITY paragraphs to add statutory citations; (2) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph to clearly state the necessity for and function served by this administrative regulation, as required by KRS 13A.220; (3) to amend Sections 1 through 5, 7, and 8 to comply with the drafting and format requirements of KRS Chapter 13A; and (4) to add Section 9 to incorporate by reference the required form. Board of Speech-Language Pathology and Audiology: Board

201 KAR 17:030. License fees and renewal requirements. Kellie Coldiron Ellis, Chair; Frances Short, executive director, Office of Occupations and Professions; and Michael West, assistant attorney general, represented the board.

A motion was made and seconded to approve the following amendments: (1) to amend Section 2 to provide for biennial renewal of licensure; and (2) to amend Section 5 to correct a minor drafting error. Without objection, and with agreement of the agency, the amendments were approved.

Board of Nursing: Board

201 KAR 20:061. Doctor of Nursing Practice (DNP) degree.

In response to a question by Senator Givens, Mr. Goldman stated that the statute [KRS 164.298] did not recognize the accrediting board for nurse anesthetists. Because it was not recognized by statute, the nursing board could not recognize it by administrative regulation.

In response to questions by Representative Damron, Ms. Beason stated that approximately seventy-five (75) percent of states offered a doctorate of nursing. A nurse with a Doctor of Nursing Practice (DNP) degree practiced in a more complex realm of patient care and research. A DNP would have the same prescriptive and treatment authority as an Advanced Practice Registered Nurse. A statutory change was not required to expand the prescriptive and treatment authority to a DNP.

A motion was made and seconded to approve the following amendments: (1) to amend the RELATES TO paragraph to revise a citation; (2) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph to clearly state the necessity for and function served by this administrative regulation, as required by KRS 13A.220; and (3) to amend Sections 1 through 3 to comply with the drafting and format requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

201 KAR 20:062. Standards for advanced practice registered nurse (APRN) programs of nursing.

A motion was made and seconded to approve the following amendments: (1) to amend Sections 3 through 11 to comply with the drafting and format requirements of KRS Chapter 13A; and (2) to add a new Section 12 to incorporate by reference the required documents. Without objection, and with agreement of the agency, the amendments were approved.

ENERGY AND ENVIRONMENT CABINET: Department for Environmental Protection: Division of Water: Public Water Supply

401 KAR 8:100. Design, construction, and approval of facilities. Peter Goodmann, assistant director, and Julie Roney, director, Drinking Water Program, represented the division.

Division for Air Quality: Attainment and Maintenance of the National Ambient Air Quality Standards

401 KAR 51:001. Definitions for 401 KAR Chapter 51. Sean Alteri, assistant director; John Lyons, director; and Bruce Scott, commissioner, represented the division. Rusty Cress, Jr., Dinsmore and Shohl, represented the Kentucky Association of Manufacturers and appeared in support of this administrative regulation and 401 KAR 52:001.

In response to questions by Senator Givens, Mr. Lyons stated that there was a finding in 2007 that U.S. EPA needed to reconsider the Clean Air Act to add provisions for greenhouse gases. Changes to the light-duty vehicle rule caused greenhouse gases to be defined as contaminants, which in turn triggered requirements for addressing greenhouse gas contaminants for major stationary sources of air pollution. Failure of Kentucky to implement the "Greenhouse Gas Tailoring Rule" may result in U.S. EPA assuming delegation over the Division for Air Quality's permitting program. In that event, there would be approximately three (3) months with a construction ban while U.S. EPA processed Kentucky's deficiency. Litigation attempting to overturn the 2007 finding was pending; however, it was essential that Kentucky continue in the process of amending these administrative regulations in order to prevent loss of state primacy. U.S. EPA allowed states some authority to interpret definitions for terms. These administrative regulations would allow Kentucky to have state-specific definitions, which have been upheld in recent court decisions. The impact would be minimal in terms of energy-efficiency requirements because most facilities had already implemented energy-efficiency technologies in order to save money. Mr. Alteri stated that the division had proposed a new definition for the term "subject to regulation" so that, if the 2007 finding were overturned, the division would no longer be required to enforce the "Greenhouse Gas Tailoring Rule."

In response to a question by Representative Damron, Mr. Cress stated that the federal government had not worked with Kentucky regarding the "Greenhouse Gas Tailoring Rule." Kentucky would be hard hit by a moratorium on construction if state delegation were lost; therefore, Kentucky needed to do what was required in order to continue to be the regulating body for the Division for Air Quality's programs. The "Greenhouse Gas Tailoring Rule" would cost between $10,000 and $25,000 for an engineer to review plans for permitting; however, the technology requirements would present the most cost to facilities.

Permits, Registrations, and Probatory Rules

401 KAR 52:001. Definitions for 401 KAR Chapter 52.

JUSTICE AND PUBLIC SAFETY CABINET: Department of Corrections: Office of the Secretary

501 KAR 6:020. Corrections policies and procedures. Amy Barker, assistant general counsel; Debra Kays, internal policy analyst II; Jonathan Milby, staff attorney; and Kimberly Whitley, warden, represented the office.

A motion was made and seconded to approve the following amendments: to amend Section 1 and the material incorporated by reference to comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

501 KAR 6:090. Frankfort Career Development Center.

Without objection, and with agreement of the agency, the amendments were approved.

TRANSPORTATION CABINET: Department of Vehicle Regulation: Division of Motor Vehicle Licensing: Motor Vehicle Tax

601 KAR 9:205. Titling of all-terrain vehicles. Ann D'Angelo, assistant general counsel, and Godwin Onodu, assistant director, represented the division.
In response to questions by Representative Lee, Mr. Onodu stated that all-terrain vehicles transferred into Kentucky and sold by non-dealers were not required to have a title because some states did not require titling. The owner, not the dealer, had to be the person to apply for the title. Private sales owners would have less tax burden than owners of all-terrain vehicles purchased by Kentucky dealers; however, Mr. Onodu stated that the statute requires that it be done pursuant to this administrative regulation. The statute implicitly exempts certain all-terrain vehicles financed prior to July 1. The division agreed that the statute needed to be amended to close this loophole for all-terrain vehicles transferred into Kentucky and sold by non-dealers.

A motion was made and seconded to approve the following amendments: to amend Section 1 to clarify applicability. Without objection, and with agreement of the agency, the amendments were approved.

**EDUCATION AND WORKFORCE DEVELOPMENT CABINET:**

term costs and minimize unintended consequences.

In response to a question by Representative Damron, Mr. Owen stated that the total savings for all efficiency measures approximated forty (40) to fifty (50) million dollars annually, including federal and state savings.

Representative Lee stated that, while there were potential savings from the efficiency measures, there was also a potential loss to medical facilities and doctors until best medical practices eliminated hospital-acquired illnesses.

A motion was made and seconded to approve the following amendments: (1) to amend the RELATES TO paragraph to correct statutory citations; (2) to amend Sections 1 through 4 and 6 to comply with the drafting and format requirements of KRS Chapter 13A; and (3) to amend Section 4 to specify that hospitals shall not seek payment for, rather than bill, for treatments for or related to never events. Without objection, and with agreement of the agency, the amendments were approved.

907 KAR 1:479 & E. Durable medical equipment covered benefits and reimbursement.

Ms. Camfield stated that the submission process for reimbursement for diabetic supplies through a pharmacy instead of through a durable medical equipment vendor was incomplete and that currently a durable medical equipment vendor without a pharmacy could not process rebates because the system of codes had not been established. Mr. Owen stated that the division was working on a new system of codes for durable medical equipment vendors, but he could not give the Subcommittee a timeframe when that would be usable. During the period of time until that system was established, it was possible that durable medical equipment vendors may lose patients to pharmacies that had the benefit of an existing system of codes.

In response to a question by Representative Damron, Mr. Owen stated that this administrative regulation did not prohibit durable medical equipment vendors from submitting claims for reimbursement for diabetic supplies, but the technological system was not yet in place to do the processing. The division agreed to defer; however, the emergency administrative regulation would expire before the ordinary administrative regulation could become effective if the division deferred. Mr. Owen agreed to amend this administrative regulation at the December meeting of the Interim Joint Committee on Appropriations and Revenue to provide for reimbursement for the durable medical equipment vendors.

Ms. Chapman stated that, if Medicaid paid for a diabetic supply, the recipient had to have a prescription for the diabetic supply. Nonmedicaid buyers did not have to present a prescription to purchase diabetic supplies. The computer software inadequacies were what was currently delaying the division’s ability to process reimbursements for durable medical equipment vendors without a pharmacy.

A motion was made and seconded to defer consideration of this administrative regulation, and the division agreed; however, a motion was made and seconded to withdraw the previous motion to defer because the division had agreed to amend this administrative regulation at the December meeting of the Interim Joint Committee on Appropriation and Revenue.

A motion was made and seconded to approve the following amendments: (1) to amend the RELATES TO and STATUTORY AUTHORITY paragraphs to correct statutory citations; (2) to amend Sections 1, and 6 through 11 to comply with the drafting and format requirements of KRS Chapter 13A; (3) to incorporate by reference an updated Medicaid DME Program Fee Schedule to conform to the changes made in these administrative regulations relating to reimbursement for diabetic supplies and prior authorization requirements; (4) to amend Section 2 to require that a supplier shall have an order from a prescriber before dispensing any DMEPOS item to a recipient and shall have a written order on file prior to submitting a reimbursement claim; and (5) to amend Section 6 to establish when the department shall cover diabetic supplies under the department’s pharmacy program and under the durable medical equipment program. Without objection, and with agreement of the agency, the amendments were approved.

Locator Index - Effective Dates

The Locator Index lists all administrative regulations published in VOLUME 37 of the Administrative Register from July 2010 through June 2011. It also lists the page number on which each administrative regulation is published, the effective date of the administrative regulation after it has completed the review process, and other action which may affect the administrative regulation. NOTE: The administrative regulations listed under VOLUME 36 are those administrative regulations that were originally published in VOLUME 36 (last year’s) issues of the Administrative Register but had not yet gone into effect when the 2010 bound Volumes were published.

KRS Index

The KRS Index is a cross-reference of statutes to which administrative regulations relate. These statute numbers are derived from the RELATES TO line of each administrative regulation submitted for publication in VOLUME 37 of the Administrative Register.

Technical Amendment Index

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2010 bound Volumes. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10) or 13A.312(2). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the Administrative Register. NOTE: Copies of the technically amended administrative regulations are available for viewing on the Legislative Research Commission Web site at http://www.lrc.ky.gov/home.htm.

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2010 bound Volumes. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10) or 13A.312(2). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the Administrative Register. NOTE: Finalized copies of the technically amended administrative regulations are available for viewing on the Legislative Research Commission Web site at http://www.lrc.ky.gov/home.htm.

The Board of Nursing has requested that technical amendments be made to reflect the statutory change of the term "Advance Registered Nurse Practitioner" or "ARNP" to "Advance Practice Registered Nurse" or "APRN". This change was applied to 201 KAR 20:059, 201 KAR 20:161, 201 KAR 20:163, 201 KAR 20:215, 201 KAR 20:220, 201 KAR 20:235, 201 KAR 20:400, 201 KAR 20:410, 201 KAR 20:450, and 201 KAR 20:490, as of July 15, 2010.
