Filing and Publication
Administrative bodies shall file with the Regulations Compiler all proposed administrative regulations, public hearing and comment period information, regulatory impact analysis and tiering statement, fiscal note, federal mandate comparison, and incorporated material information. Those administrative regulations received by the deadline established in KRS 13A.050 shall be published in the Administrative Register.

Public Hearing and Public Comment Period
The administrative body shall schedule a public hearing on proposed administrative regulations which shall not be held before the 21st day or later than the last workday of the month of publication. Written comments shall also be accepted until the end of the calendar month in which the administrative regulation was published.

The administrative regulation shall include: the place, time, and date of the hearing; the manner in which persons may submit notification to attend the hearing and written comments; that notification to attend the hearing shall be sent no later than 5 workdays prior to the hearing date; the deadline for submitting written comments; and the name, position, address, and telephone and fax numbers of the person to whom notification and written comments shall be sent.

The administrative body shall notify the Compiler, by phone and letter, whether the hearing was held or cancelled and whether written comments were received. If the hearing was held or written comments were received, the administrative body shall file a statement of consideration with the Compiler by the fifteenth day of the calendar month following the month of publication.

A transcript of the hearing is not required unless a written request for a transcript is made, and the person requesting the transcript shall have the responsibility of paying for same. A recording may be made in lieu of a transcript.

Review Procedure
After the public hearing and public comment period processes are completed, the administrative regulation shall be reviewed by the Administrative Regulation Review Subcommittee at its next meeting. After review by the Subcommittee, the administrative regulation shall be referred by the Legislative Research Commission to an appropriate jurisdictional committee for a second review. The administrative regulation shall be considered as adopted and in effect as of adjournment on the day the appropriate jurisdictional committee meets or 30 days after being referred by LRC, whichever occurs first.
This administrative regulation deals with the length of time for which a prescription can be written by Advance Practice Registered Nurses (APRN) for certain specified controlled substances. The amendment increases the length of time for the prescription from fourteen (14) to thirty (30) days. This means that APRNs will need to write fewer prescriptions for these controlled substances. This has a direct and immediate impact on Medicaid and will act to decrease some health care costs. For that reason, this amendment is being offered as an emergency administrative regulation. An ordinary administrative regulation could not go into effect in less than three (3) months. Because this amendment may save the Commonwealth money in the Medicaid budget, an emergency administrative regulation is appropriate. Lengthening the period of time for the prescriptions from fourteen (14) to thirty (30) days will eliminate additional co-pays for an office visit and for the medication. Patients also will not incur additional travel costs. Access to care by APRNs will increase since the APRN will not need to see the patient every two (2) weeks, freeing up some time to see other patients. The amendment will also positively impact the state's Medicaid budget by decreasing costs incurred by the state for additional visits and pharmacy dispensing fees. This emergency administrative regulation shall be replaced by an ordinary administrative regulation. The ordinary administrative regulation was filed with the Regulations Compiler on January 13, 2010. The ordinary administrative regulation and emergency administrative regulation are identical.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Nathan Goldman, General Counsel
(1) Provide a brief summary of:
(a) What this administrative regulation does: Pursuant to KRS 314.011(8)(c), this administrative regulation sets limitations on APRN prescriptive authority for specific controlled substances that have been determined to have the greatest potential for abuse or diversion.
(b) The necessity of this administrative regulation: The Board is required by statute to promulgate this regulation.
(c) How this administrative regulation conforms to the content of the authorizing statutes: By setting limitations on APRN prescriptive authority.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: By setting limitations on APRN prescriptive authority.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: It changes the length of time for which prescriptions may be written for the identified drugs. The Controlled Substances Formulary Development Committee recommended to the Board of Nursing that the limitations be changed from a prescription limited to 14 days to a prescription limited to 30 days.
(b) The necessity of the amendment to this administrative regulation: There has been no evidence that APRNs are abusing their prescriptive authority as regards the identified drugs. The 14 day limitation causes a hardship on patients who would be required to make another visit to the APRN for another prescription.
(c) How the amendment conforms to the content of the authorizing statutes: The statute states that the Committee shall make recommendations to the Board.
(d) How the amendment will assist in the effective administration of the statutes: It will benefit patients by allowing an APRN to write a prescription for these drugs for 30 days.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All APRNs, approximately 4,000.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No action in necessary by the APRNs.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There is no cost to comply.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): They will be able to assist their patients.
(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
(a) Initially: There is no cost.
(b) On a continuing basis: There is no cost.
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Agency funds.
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase is needed.
(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: It does not.
(9) TIERING: Is tiering applied? Tiering was not applied as the changes apply to all equally.

STATEMENT OF EMERGENCY
907 KAR 6:005E

This emergency administrative regulation is being promulgated to establish Medicaid electronic health record (EHR) incentive payment policies in accordance with federal law and regulation. EHR incentive payments are payments, authorized by the American Recovery and Reinvestment Act (ARRA), to eligible professionals and eligible hospitals that adopt, implement, upgrade, or demonstrate "meaningful use" of certified EHR technology in the first year of participation or then demonstrate meaningful use for up to five more years of EHR incentive payment program participation. This action must be implemented on an emergency basis to protect the health, safety, and welfare of Medicaid recipients by offering incentive payments to certain Medicaid providers, including hospitals, to acquire and implement electronic health record technology. The use of electronic health record technology has been proven to enhance patient care across diverse settings including reduced deaths and complications in hospitals. Uses of electronic health records include enabling patient data to be quickly shared, electronic note taking, electronic treatment records, electronic test results, electronic drugs orders, and the use of decision-support systems which can inform clinical staff regarding treatment options and drug interactions. This emergency administrative regulation shall be replaced by an ordinary administrative regulation filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen, (502) 564-4321

(1) Provide a brief summary of:
(a) What this administrative regulation does: This is a new administrative regulation which establishes Medicaid electronic health record (EHR) incentive payment policies in accordance with federal law and regulation. EHR incentive payments are payments, authorized by the American Recovery and Reinvestment Act (ARRA), to eligible professionals and eligible hospitals that adopt, implement, upgrade, or demonstrate “meaningful use” of certified EHR technology in the first year of participation or then demonstrate meaningful use for five more years of EHR incentive payment program participation. The program is not mandated upon states, but Kentucky’s Medicaid program has elected to implement the program and in the first possible year of implementation - 2011 (specifically January 3, 2011 is the first day Medicaid programs are allowed to launch the incentive.) Eligible professionals may receive up to $63,750 in aggregate in incentive payments if they participate in the program for 6 years. Eligible professionals include physicians, dentists, nurse practitioners, certified nurse midwives, and physician assistants (if the physician assistant practices in a rural health clinic or federally-qualified health center under the supervision of a physician assistant.) There is no limit to how much eligible hospitals may receive. Eligible hospitals include acute care hospitals, children’s hospitals (but Kentucky currently has none), and critical access hospitals.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to enable the Department for Medicaid Services (DMS) to make EHR incentive payments to eligible hospitals and professionals as authorized by the American Recovery and Reinvestment Act (ARRA).
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes: This administrative regulation assists in the effective administration of the statutes: This administrative regulation is necessary to enable the Department for Medicaid Services (DMS) to make EHR incentive payments to eligible hospitals and professionals as authorized by the American Recovery and Reinvestment Act (ARRA).
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing EHR incentive payment policies in accordance with federal law and regulation.
(e) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing EHR incentive payment policies in accordance with federal law and regulation.
(f) How the amendment conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes: This administrative regulation assists in the effective administration of the statutes.
(g) How the amendment conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes: This administrative regulation assists in the effective administration of the statutes.
(h) The necessary of the amendment to this administrative regulation: This is a new administrative regulation.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This is a new administrative regulation.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: The Department for Medicaid Services (DMS) examined past claims data to determine that of 22,741 Medicaid (nonhospital) providers (for example, physicians, nurse practitioners, etc.) who are in the umbrella of provider types eligible for electronic health record (EHR) incentive payments (or "eligible professionals"), that 2,450 could feasibly meet the Medicaid patient volume threshold to qualify for EHR incentive payments. DMS esti-
mates that only 85% (2,162) of those will actually acquire the certified EHR technology necessary to qualify for the incentive payments. The eligible professional provider types include physicians, dentists, nurse practitioners, certified nurse midwives, and physicians assistant practitioners in a rural health clinic or federally-qualified health center under the supervision of a physician assistant. Medicaid recipients will also benefit from this administrative regulation.

DMS anticipates that of the 65 acute care hospitals participating in the Kentucky Medicaid program, that 61 will meet the Medicaid patient volume threshold (10%) necessary to qualify for EHR incentive payments.

DMS anticipates that of the 29 critical access hospitals participating in the Kentucky Medicaid Program, that 17 will meet the Medicaid patient volume threshold necessary (10%) to qualify for EHR incentive payments.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: In order to qualify for electronic health record incentive payments, eligible professionals and eligible hospitals will have to adopt, implement, upgrade, or demonstrate “meaningful use” of certified EHR technology in the fiscal year (FY) of participation or they demonstrate meaningful use for up to five more years of EHR incentive payment program participation. An eligible professional cannot begin receiving an EHR incentive payment any later than calendar year 2016 and an eligible hospital cannot begin receiving incentive payments any time after federal fiscal year 2016 (October 1, 2016 through September 30, 2017); thus, individuals or entities must act prior to those respective deadlines in order to qualify for incentive payments.

An eligible professional’s or eligible hospital’s EHR technology must be tested and certified by an “Authorized Testing and Certification Body (ATCB)” endorsed by the national federal entity – Office of National Coordinator – in order to qualify for incentive payments. The technologies which have been approved by the ONC ATCB are listed on the ONC Web site.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: DMS estimates that 127 eligible professionals (i.e. non-hospital) will qualify for EHR incentive payments in calendar year (CY) 2011 and that DMS will make $2,638,987 (100% federal) in incentive payments to those eligible professionals in CY 2011. DMS estimates that sixty-one (61) of sixty-five (65) acute care hospitals will qualify for EHR incentive payments in CY 2011 and that it will make $52,979,461 (100% federal) in incentive payments to those hospitals in CY 2011. DMS estimates that seventeen (17) of twenty-nine (29) critical access hospitals will qualify for EHR incentive payments in CY 2011 and that it will make $6,872,308 (100% federal) in incentive payments to those hospitals in CY 2011.

(b) On a continuing basis:

DMS estimates that in CY 2012 it will make:

$6,317,991 (100% federal) in incentive payments to eligible professionals;

$42,383,569 (100% federal) in incentive payments to 61 acute care hospitals; and

$3,436,154 (100% federal) in incentive payments to 17 critical access hospitals.

DMS estimates that in CY 2013 it will make:

$11,045,507 (100% federal) in incentive payments to eligible professionals;

$10,595,892 (100% federal) in incentive payments to sixty-one (61) acute care hospitals; and

$2,061,692 (100% federal) in incentive payments to seventeen (17) critical access hospitals.

DMS estimates that in CY 2014 it will make:

$16,828,621 (100% federal) in incentive payments to eligible professionals;

$0 in incentive payments to acute care hospitals as DMS anticipates the hospitals will have met the maximum incentive payment amount by the end of CY 2013; and

$1,374,462 (100% federal) in incentive payments to 17 critical access hospitals.

DMS estimates that in CY 2015 it will make:

$21,053,841 (100% federal) in incentive payments to eligible professionals;

$0 in incentive payments to acute care hospitals as DMS anticipates the hospitals will have met the maximum incentive payment amount by the end of CY 2013; and

$1,374,462 (100% federal) in incentive payments to 17 critical access hospitals.

DMS estimates that in CY 2016 it will make:

$22,665,571 (100% federal) in incentive payments to eligible professionals;

$0 in incentive payments to acute care hospitals as DMS anticipates the hospitals will have met the maximum incentive payment amount by the end of CY 2014; and

DMS estimates that in CY 2017 it will make:

$17,025,532 (100% federal) in incentive payments to eligible professionals;

DMS estimates that in CY 2018 it will make:

$14,863,345 (100% federal) in incentive payments to eligible professionals.

DMS estimates that in CY 2019 it will make:

$11,719,218 (100% federal) in incentive payments to eligible professionals.

DMS estimates that in CY 2020 it will make:

$7,493,999 (100% federal) in incentive payments to eligible professionals.

DMS estimates that in CY 2021 it will make:

$3,243,281 (100% federal) in incentive payments to eligible professionals.

As DMS anticipates that new eligible professionals will gradually participate in the EHR incentive payment program and that participating eligible professionals will hit the maximum payment threshold along the way, DMS is not indicating the projected number of eligible professionals beyond the first year (calendar year 2011) in this estimate.

DMS estimates that it will make a total amount of incentive payments by category as follows:

$134,895,894 to eligible professionals;

$105,958,922 to acute care hospitals; and

$13,744,615 to critical access hospitals.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The
sources of revenue to be used for implementation and enforcement of this administrative regulation are 100% federal funds authorized under the American Recovery and Reinvestment Act (ARRA.)

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Neither an increase in fees nor funding are necessary.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees: This is to be determined by the amount of federal funds provided.

(9) Tiering: Is tiering applied? Tiering is applied as incentive payment requirements and amounts vary according to provider category. For example, the requirements and amounts for "eligible professionals" differs from those of acute care hospitals and critical access hospitals.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. Electronic health record (HER) incentive payments are not mandated; however, they are authorized by federal laws 42 U.S.C. 1396b(a)(3)(F) and 42 U.S.C. 1396b(t) and federal regulations 42 C.F.R. 495.2 through 10 and 42 C.F.R. 495.300 through 370. Additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

2. State compliance standards. KRS 205.520(3) states, “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power in this respect.” Minimum or uniform standards contained in the federal mandate. EHR incentive payments are not mandated.

3. Minimum or uniform standards contained in the federal mandate. EHR incentive payments are not mandated.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

STATEMENT OF EMERGENCY 922 KAR 1:420E

This emergency administrative regulation is necessary to prevent the loss of federal funding made available under the Child Abuse Prevention and Treatment Act as amended. This administrative regulation ensures that Kentucky meets federal funding requirements in accordance with 42 U.S.C. 5106a regarding the operation of a statewide program related to child abuse and neglect, including the public disclosure of a case of a child fatality or near fatality involving suspected or substantiated child abuse and neglect. In addition, the specification of public disclosure by the cabinet will enhance public health and welfare of children through increased public oversight of cases of a child fatality or near fatality involving suspected or substantiated child abuse and neglect. An ordinary administrative regulation would not allow the agency sufficient time to specify procedures in conformity with 42 U.S.C. 5106a and address any threat to the public health and welfare of children that is posed through a lack of specific procedures for the public disclosure by the cabinet of a case of a child fatality or near fatality. This ordinary administrative regulation is identical to the emergency administrative regulation. This emergency administrative regulation shall be replaced by an ordinary administrative regulation.

102 KAR 1:230. Limitations on benefits.

STATUTORY AUTHORITY: KRS 161.310(1), 161.716

NECESSITY, FUNCTION, AND CONFORMITY: KRS 161.310(1) requires the board of trustees to promulgate administrative regulations for the administration of the funds of the retirement system and for the transaction of business. KRS 161.716 requires the board of trustees to promulgate administrative regulations as are necessary to remove any conflicts with federal laws and to protect the interests of the members and survivors of members of the retirement system. This administrative regulation establishes the limitations on benefits required by 26 U.S.C. 415.

Section 1. Definitions. (1) "415(b) limit" means the limitation on benefits established by 26 U.S.C. 415(b).

(2) "415(c) limit" means the limitation on annual additions established by 26 U.S.C. 415(c).

(3) "Annual benefit" means, for purposes of the 415(b) limit, a benefit payable annually in the form of a straight life annuity (without ancillary benefits) without regard to the benefit attributable to after-tax employee contributions (except pursuant to 26 U.S.C. 415(n)) and to rollover contributions (as defined in 26 U.S.C. 415(b)(2)(A)). The "benefit attributable" is determined in accordance with 26 C.F.R. 1.415(b).

(4) "Defined dollar benefit limitation" means $160,000, as adjusted, effective January 1 each year, in the manner established by the Secretary of the United States Treasury pursuant to 26 U.S.C. 415(d), and payable in the form of a straight life annuity. A limitation as adjusted under 26 U.S.C. 415(d) applies to limitation years for which the adjustment applies.

(5) "Limitation year" means the calendar year.

(6) "Maximum permissible benefit" means the defined benefit dollar limitation (adjusted or limited, if required, according to this administrative regulation).

(2) "Nonqualified service credit" means, effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, permissive service credit other than that allowed with respect to:

(a) Service as an employee of the Government of the United States or any state, agency, or political subdivision thereof (other than military service or service for credit that was obtained as a result of a repayment described in 26 U.S.C. 415(k)(3));

(b) Service as an employee, other than an employee described in paragraph (a) of this subsection, of an education organization described in 26 U.S.C. 170(b)(1)(A)(ii) that is a public, private, or sectarian school that provides elementary education or secondary education through grade twelve (12), or a comparable level of education as determined pursuant to the applicable law of the jurisdiction in which the service was performed;

(c) Service as an employee of an association of employees described in paragraph (a) of this subsection;

(d) Military service, other than qualified military service pursuant to 26 U.S.C. 414(u), recognized by the retirement system.

Section 2. Adjustments and Limitations. (1) If the member has fewer than ten (10) years participation in the plan, the defined benefit dollar limitation shall be multiplied by a fraction:

(a) The numerator shall be the number of years (or part thereof) of participation in the plan, and the denominator shall be ten (10).

(b) The reduction established in this subsection shall not apply to preretirement death and disability benefits.

(2) If the benefit of a member begins prior to age sixty-two (62), the defined benefit dollar limitation applicable to the participant at the earlier age shall be an annual benefit payable in the form of a straight life annuity, beginning at the earlier age, that shall be the actuarial equivalent of the defined benefit dollar limitation applicable to the member at age sixty-two (62) (adjusted pursuant to subsection (1) of this section, if required). The defined benefit dollar limitation applicable at an age prior to age sixty-two (62) shall be determined as the lesser of:

(a) The actuarial equivalent (at the earlier age) of the defined benefit dollar limitation computed using the interest rate and mortality table specified by the system actuary; and

(b) The actuarial equivalent (at the earlier age) of the defined benefit dollar limitation computed using a five (5) percent interest rate and the applicable mortality table as specified by the system actuary.

Any decrease in the defined benefit dollar limitation determined in accordance with this subsection shall not reflect a mortality decrement if benefits are not forfeited upon the death of the participant.

2. If any benefits are forfeited upon death, the full mortality decrement shall be taken into account.

(3) The reductions provided for in this subsection shall not apply to preretirement disability benefits or preretirement death benefits.

(4) If the benefit of a participant begins after the participant attains age sixty-five (65), the defined benefit dollar limitation applicable to the member at the later age shall be the annual benefit payable in the form of a straight life annuity, beginning at the later age, that shall be actuarially equivalent to the defined benefit dollar limitation applicable to the participant at age sixty-five (65) (adjusted pursuant to subsection (1) of this section, if required). The actuarial equivalent of the defined benefit dollar limitation applicable at an age after sixty-five (65) shall be determined as follows:

(a) The lesser of the actuarial equivalent (at the later age) of the defined benefit dollar limitation computed using the interest rate
Section 5. Benefits Not Taken into Account for 415(b) Limit. The following benefits shall not be taken into account in applying these limits:

(a) Any ancillary benefit that is not directly related to retirement income benefits; and  

(b) That portion of any joint and survivor annuity that constitutes a qualified joint and survivor annuity.

Section 6. 415(c) Limit. Except as provided in Section 7 of this administration regulation, after-tax member contributions or other annual additions with respect to a member shall not exceed the lesser of $40,000 (as adjusted pursuant to 26 U.S.C. 415(d)) or 100 percent of the member's compensation.

(1) Annual additions shall be defined to mean the sum (for any year) of employer contributions to a defined contribution plan, post-tax member contributions, and forfeitures credited to a member's individual account.

(2) For purposes of applying the 415(c) limits only, the definition of compensation, if applicable, shall be compensation actually paid or made available during a limitation year, except as noted below and as permitted by 26 C.F.R. 1.415(c)-2, except, that member contributions picked up under 26 U.S.C. 414(h) shall not be included as compensation.

(3) Unless another description of compensation that is permitted by 26 C.F.R. 1.415(c)-2 is specified by a retirement system, compensation shall be described as wages within the meaning of 26 U.S.C. 3401(a) and all other payments of compensation to an employee by an employer for which the employer is required to furnish the employee at written statement pursuant to 26 U.S.C. 6041(d), 6051(a)(3), and 6052 and shall be determined without regard to any rules under 26 U.S.C. 3401(a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as the exception for agricultural labor in 26 U.S.C. 3401(a)(2)).

(a) For limitation years beginning on and after January 1, 1998, compensation shall also include amounts that would otherwise be included in compensation but for an election under 26 U.S.C. 125(a), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b).

(b) For limitation years beginning on and after January 1, 2001, compensation shall also include any elective amounts that are not includable in the gross income of the employee by reason of 26 U.S.C. 132(f)(4).

(c) For limitation years beginning on and after January 1, 2009, compensation for the limitation year shall also include compensation paid by the later of two and one-half (2 1/2) months after an employee's severance from employment or the end of the limitation year that includes the date of the employee's severance from employment:

1. The payment is:
   - Regular compensation for services during the employee's regular working hours;
   - Compensation for services outside the employee's regular working hours, such as overtime or shift differential; or
   - Commissions, bonuses, or other similar payments; and

2. Absent a severance from employment, the payments would have been paid to the employee while the employee continued in employment with unused accrued bona fide sick, vacation, or other leave that the employee would have been able to use if employment had continued.

3. (c) Back pay, within the meaning of 26 C.F.R. 1.415(c)-2(g)(8), shall be treated as compensation for the limitation year to which the back pay relates to the extent the back pay represents wages and compensation that would otherwise be included pursuant to this description.

(d) If the annual additions for any member for a plan year exceed the limitation under 26 U.S.C. 415(c), the Internal Revenue Code, the excess annual addition shall be corrected as permitted under the Employee Plans Compliance Resolution System (or similar IRS correction program).
Section 7. Service Purchases under Section 415(n). (1) Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, if a member makes one (1) or more contributions to purchase permissive service credit under a retirement system, then the requirements of 26 U.S.C. 415(n) shall be treated as met only if:
(a) The requirements of 26 U.S.C. 415(b) are met, determined by treating the accrued benefit derived from all these contributions as an annual benefit for purposes of the 415(b) limit; or
(b) The requirements of 26 U.S.C. 415(c) are met, determined by treating all these contributions as annual additions for purposes of the 415(c) limit.
(2) For purposes of applying this section, a retirement system shall not fail to meet the reduced limit under 26 U.S.C. 415(b)(2)(C) solely by reason of this section and shall not fail to meet the percentage limitation pursuant to 26 U.S.C. 415(c)(1)(B) solely by reason of this section.
(3)(a) Permissive service credit shall consist of service credit:
1. Recognized by a retirement system for purposes of calculating a member's benefit under a retirement system;
2. The member has not received under a retirement system; and
3. That the member may receive only by making a voluntary additional contribution, in an amount determined under a retirement system, which does not exceed the amount necessary to fund the benefit attributable to the service credit.
(b) Effective for permissive service credit contributions made in limitation years beginning after December 31, 1997, the term may include service credit for periods for which there is no performance of service, and, notwithstanding paragraph (a)2 of this subsection, may include service credited in order to provide an increased benefit for service credit that a member is receiving under a retirement system.
(4) The retirement system shall fail to meet the requirements of this section if:
(a) More than five (5) years of nonqualified service credit are taken into account for purposes of this subparagraph; or
(b) Any nonqualified service credit is taken into account pursuant to this section before the member has at least five (5) years of participation under a retirement system.
(5) In the case of service described in Section 1(7)(a), (b), or (c) of this administrative regulation, the service shall be nonqualified service if recognition of the service would cause a member to receive a retirement benefit for the same service under more than one (1) plan.
(6) In the case of a trustee-to-trustee transfer after December 31, 2001, to which 26 U.S.C. 403(b)(13)(A) or 26 U.S.C. 457(17)(A) applies, without regard to whether the transfer is made between plans maintained by the same employer:
(a) The limitations of subsection (4) of this section shall not apply in determining whether the transfer is for the purchase of permissive service credit; and
(b) The distribution rules applicable under federal law to a retirement system shall apply to these amounts and any benefits attributable to these amounts.
(7)(a) For an eligible member, the 415(c) limit shall not be applied to reduce the amount of permissive service credit that may be purchased to an amount less than the amount that was allowed to be purchased under the terms of the retirement system as in effect on August 5, 1997.
(b) For purposes of this subsection, an eligible member shall be an individual who first became a member in the retirement system before January 1, 1998.
Section 8. Modification of Contributions for 415(c) and 415(n) Purposes. The retirement system may modify or request by a member to make a contribution to a retirement system if the amount of the contribution would exceed the limits provided in 26 U.S.C. 415 by using the following methods:
(1) If the law requires a lump sum payment for the purchase of service credit, the retirement system may establish a periodic payment plan for the member to avoid a contribution in excess of the limits established in 26 U.S.C. 415(c) or 415(n).
(2) If payment pursuant to section (1) of this subsection shall not avoid a contribution in excess of the limits established in 26 U.S.C. 415(c) or 415(n), the retirement system may either reduce the member's contribution to an amount within the limits of those sections or refuse the member's contribution.
Section 9. Repayments of Cashouts. Any repayment of contributions, including interest thereon, to the retirement system with respect to an amount previously refunded upon a forfeiture of service credit under the retirement system or another governmental plan maintained by the Commonwealth or a local government within the Commonwealth shall not be taken into account for purposes of the 415(b) or (c) limits.

VOLUME 37, NUMBER 8 – FEBRUARY 1, 2011

STATUTORY AUTHORITY: KRS 304.2-110, 304.13-410
NECESSITY, FUNCTION, AND CONFORMITY: KRS 304.2-110 authorizes the commissioner to make reasonable administrative regulations necessary for or as an aid to the effectuation of any provision of the Kentucky Insurance Code, KRS 304.1-010. KRS 304.13-410 requires the commissioner to promulgate administrative regulations concerning premium reductions for deductible workers’ compensation insurance policies, provides that premium reductions for deductible workers’ compensation insurance policies shall be calculated by the commissioner in accordance with administrative regulations promulgated by the commissioner [Executive Director [of Insurance]]. This administrative regulation establishes the method of calculating premium reductions for workers’ compensation insurance policies with deductibles.

Section 1. Definition. “Commissioner” is defined in KRS 304.1-050(1).

Section 2. All insurers authorized to write workers’ compensation insurance in Kentucky, when establishing the premium for a workers’ compensation insurance policy with a deductible ranging from $100 to $10,000 shall use only the following deductibles: $100, $200, $300, $400, $500, $1,000, $1,500, $2,500, $5,000, $7,500, $10,000.

Section 3. Application of this Administrative Regulation. (1) General.

(a) This administrative regulation shall apply to all insurers and licensed advisory organizations introducing or revising workers’ compensation insurance deductible discounts for policies with deductibles of $100 to $10,000 or their application in Kentucky.

(b) A licensed advisory organization filing shall be self-contained and fully documented and shall not simply adopt the deductible plan or factors of another filing.

(c) An insurer may:

1. File a self-contained and fully documented deductible discount plan; or

2. Adopt [it may choose to adopt] the filed deductible plan and discounts of a licensed advisory organization or another insurer.

(2) Form of the deductible. The deductible discounts shall be determined by the multiplication of the deductible discount factors by the manual premiums. Separate deductible discounts for each deductible option shall be applicable for each hazard group as defined by the advisory organization designated by the commissioner pursuant to KRS 304.13-167[defined in Appendix A].

(3) Experience and retrospective rating. Experience rating modifications shall be based on net losses and premiums, that is, losses net of deductibles and manual premiums less the deductible discount. The parameters of the experience rating plan shall also be adjusted to account for the deductible.

(4) Premium discount programs. For insurers that have a premium discount program based on the standard premium of a policy, the deductible discounts shall be applied prior to the application of premium discounts. The deductible discount shall be calculated by multiplying the discount factor by the manual premium. Premium discounts then are calculated based on the standard premium, after deductibles.

Section 4. Deductible Discount Provisions. (1) General. The deductible discount shall recognize the reduction in losses[claim costs] borne by the insurer as a result of the insured’s selection of a deductible. The deductible discount shall be calculated based on a loss elimination ratio and shall include the following adjustments:

(1) The size of loss distribution including distribution including an analysis of historical data which shall determine a mathematical function or a discrete empirical distribution table.

(2) The most critical factor in the calculation is the loss elimination ratio (“LER”), which estimates the percentage of losses eliminated as a result of the deductible. Typically, two (2) types of adjustments are required to calculate the deductible discount from the
Changes in insurer cash flow:

1. Deductibles paid by an insurer in accordance with KRS 304.13-400(3)(a) shall be considered a loan, the effects of which may be recognized in the filing; and
2. This factor shall be equal to the amount or proportion of dollars that are eliminative by the deductible times a reasonable interest rate to account for the loss in investment income.

Loss elimination ratios may be reduced for adverse selection by up to five (5) percent.

Filings which include greater reductions shall be clearly supported by actuarial evidence of higher loss ratios by deductible and class to clearly show that the deductible discounts are consistently high across classes and time.

3. For the initial filing, data from other states with deductibles may be used to support the selection of this factor; and
4. Recognition that many insurer operating expenses are not deductible and class to clearly show that the deductible discounts are consistently high across classes and time.

Where y is the yield on ninety (90) day United States treasury bills.

(5) Adverse selection. In some lines of insurance there has been evidence of anti selection with respect to deductibles, that is, those that choose to purchase insurance with a deductible tend to have losses that exceed those losses which are expected. LEVs may be reduced for adverse selection by up to five (5) percent, unless a greater reduction is clearly supported by facts such as loss ratios by deductible and class which clearly show that the deductible discounts are consistently, across classes and time, high. For the initial filing, data from other states with deductibles may be used to support the selection of the factor.

(6) Credit risk. This factor is intended to account for losses below the deductible paid by insurers and not reimbursed by insureds due to bankruptcy. If the percentage of businesses that become bankrupt annually in Kentucky is expected to be “z,” then the load should assume that z% of the amount “on loan” shall not be reimbursed. This shall be calculated as follows:

\[ c = \frac{z}{y} \]

Factors between 0 and 2.5 percent may be used.

Section 5.(4) Effect on Rate Making. (1) Data. The designated advisory organization’s statistical plan shall be modified to include a field indicating the deductible on the policy. Financial data shall be segregated by deductible.

(2) Gross versus net data. Adjustments shall be modified to reflect that net data be used in rate making. However, adjustments to net data shall be made in the rate-making process to account for the presence of deductibles. Losses that are losses shall be loaded by a loss elimination rate, adjusted for anti-selection factor for a gross basis prior to the rate making process. The loss elimination rate[LER] and anti-selection factor shall be the same as in the current approved filing.

(3) Methodology. Rate-making methods shall be modified to account for the presence of deductibles. An adjustment shall be made[example, there shall be an adjustment] in classification rate making for differences in the distribution of exposures by deductible among classes. Also, there shall be an adjustment in the trending procedure for the presence of a shift in the distribution by deductible.

Section 5. Interrogatories to be Answered in Rate Filings. Every rate filing for a workers’ compensation insurance deductible shall include a completed interrogatories form as set forth in Appendix B to this administrative regulation.
b) If NO, is documentation provided? Yes

5. How are deductibles accounted for in the rate-making methodology?
   a) Investment income and increased risk factors (list on separate sheet if necessary):
      a) Do they offset each other? Yes Y No Y
      b) If NO, is documentation provided? Yes Y No Y
      c) Factor to account for the loan on prepayment of losses (list on separate sheet if necessary):
      d) Adverse selection adjustment:
      e) The above factor is greater than 5 percent, provide documentation.
      f) Credit risk adjustment:

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Lee Barnard or Stuart Owen

(a) What this administrative regulation does: This is a new administrative regulation which establishes the Department for Medicaid Services’ (DMS’s) tobacco cessation program provisions.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish Medicaid tobacco cessation program provisions as mandated by the Kentucky legislature pursuant to KRS 205.560(1)(j) and as funding for the pro-
gram has been provided in the 2010-2012 biennium budget.

(c) How this administrative regulation conforms to the content of the authorizing statutes: The administrative regulation establishes the tobacco cessation program for all Medicaid recipients. Previously, DMS only covered tobacco cessation for pregnant women.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The administrative regulation establishes the tobacco cessation program for all Medicaid recipients. Previously, DMS only covered tobacco cessation for pregnant women. DMS estimates that implementing this administrative regulation will cost approximately $1.5 million in state funds for each of SFY 2011 and 2012 to implement this administrative regulation.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This is a new administrative regulation; however, it is being amended via the public comment process. The amendments after comments include inserting a definition of legend drug; clarifying that a legend drug approved by the United States Food and Drug Administration for tobacco cessation qualifies as a tobacco cessation product; reducing the mandated assessment duration from at least thirty (30) minutes to at least ten (10) minutes; requiring a Tobacco Cessation Referral Form to have been submitted by the provider or the recipient to DMS in order for DMS to pay for a recipient’s refills of tobacco cessation medication; and require that providers must keep copies (paper or electronic) of Tobacco Cessation Referral Forms for at least six years (consistent with federal medical record maintenance requirements).

(b) The necessity of the amendment to this administrative regulation: This is a new administrative regulation; however, the assessment reduction (from 30 minutes to 10 minutes) is necessary to address a concern expressed by the Kentucky Medical Association (KMA) and the Tobacco Cessation Referral Form requirements are necessary to enable DMS to be able to evaluate the success of the tobacco cessation initiative and to evaluate the various components of the program as DMS is being allocated funds by the legislature to implement this program.

(c) How the amendment conforms to the content of the authorizing statutes: The amendments in response to comments conform to the content of authorizing statutes by establishing policies as authorized by KRS 194A.030(2).

(d) How the amendment will assist in the effective administration of the statutes: The amendments in response to comments will assist in the effective administration of the authorizing statutes by establishing policies as authorized by KRS 194A.030(2).

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Medicaid recipients who attempt to quit using tobacco, tobacco cessation programs approved by DMS for Medicaid recipients, and providers who refer Medicaid recipients to a tobacco cessation program will be affected by the administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Providers who perform tobacco cessation assessments will have to perform an assessment, bill DMS for the assessment using CPT code 99407, complete a Tobacco Cessation Referral Form (in conjunction with the recipient) during the assessment and submit the completed Tobacco Cessation Referral Form to DMS. Recipients who want a refill of tobacco cessation medication will be required to participate in a tobacco cessation counseling program (unless exempt) and contact DMS to confirm participation in a tobacco cessation counseling program in order to procure a refill of tobacco cessation medication.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). No cost is imposed.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Medicaid recipients will be able to receive tobacco cessation program benefits and providers will be able to be reimbursed for tobacco cessation assessments.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS) estimates that implementing this administrative regulation will cost approximately $6.2 million ($1.5 million commonwealth share/$4.7 million federal share) for SFY 2011.

(b) On a continuing basis: DMS estimates that implementing the administrative regulation will cost approximately $5.2 million ($1.5 million commonwealth share/$3.7 million federal share) for SFY 2012.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The source of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds from state general fund appropriations. The Kentucky legislature allocated $1.5 million in state funds for each of SFY 2011 and 2012 to implement this administrative regulation. Federal matching funds are projected to equal $4.7 million in SFY 2011 and $3.7 million in SFY 2012.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: DMS understands that $1.5 million in general share funds was appropriated for state fiscal year 2011 and state fiscal year 2012 for the amendment via the budget bill HB 1 of the 2010 Extraordinary Session of the General Assembly even though the legislation does not explicitly address smoking cessation appropriation for DMS.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? No, the provisions apply equally to the affected parties.

Section 20. Official State Accreditation Action by the Education Professional Standards Board. (1) A recommendation from the Accreditation Audit Committee shall be presented to the full EPSB.
   (2) The EPSB shall consider the findings and recommendations of the Accreditation Audit Committee and make a final determination regarding the state accreditation of the educator preparation unit.
   (3) Decision options following a first accreditation visit shall include:
      (a) Accreditation;
      1. This accreditation decision indicates that the unit meets each of the six (6) NCATE standards for unit accreditation. Areas for improvement may be cited, indicating problems warranting the institution’s attention. In its subsequent annual reports, the professional education unit shall be expected to describe progress made in addressing the areas for improvement cited in the EPSB’s action report.
2. The next on-site visit shall be scheduled five (5) years following the semester of the visit;

(b) Provisional accreditation.

1. This accreditation decision indicates that the unit has not met one (1) or more of the NCATE standards. The unit has accredited status but shall satisfy provisions by meeting each previously-unmet standard. EPSB shall require submission of documentation that addresses the unmet standard or standards within six (6) months of the accreditation decision, or shall schedule a visit focused on the unmet standard or standards within two (2) years of the semester that the provisional accreditation decision was granted. If the EPSB decides to require submission of documentation, the institution may choose to waive that option in favor of the focused visit within two (2) years. Following the focused visit, the EPSB shall decide to:

   a. Accredit; or
   b. Revoke accreditation.

2. If the unit is accredited, the next on-site visit shall be scheduled for five (5) years following the semester of the first accreditation visit;

(c) Denial of accreditation. This accreditation decision indicates that the unit does not meet one (1) or more of the NCATE standards, and has pervasive problems that limit its capacity to offer quality programs that adequately prepare candidates; or

(d) Revocation of accreditation. This accreditation decision indicates that the unit does not sufficiently address the unmet standard or standards following a focused visit;

(4) Decision options following a continuing accreditation visit shall include:

(a) Accreditation.

1. This accreditation decision indicates that the unit meets each of the six (6) NCATE standards for unit accreditation. Areas for improvement may be cited, indicating problems warranting the institution's attention. In its subsequent annual reports, the professional education unit shall be expected to describe progress made in addressing the areas for improvement cited in EPSB's action report.

2. The next on-site visit shall be scheduled for seven (7) years following the semester of the visit;

(b) Accreditation with conditions.

1. This accreditation decision indicates that the unit has not met one (1) or more of the NCATE standards. If the EPSB renders this decision, the unit shall maintain its accredited status, but shall satisfy conditions by meeting previously unmet standards. EPSB shall require submission of documentation that addresses the unmet standard or standards within six (6) months of the decision to accredit with conditions, or shall schedule a visit focused on the unmet standards or standards within two (2) years of the semester that the accreditation with conditions decision was granted. If the EPSB decides to require submission of documentation, the institution may choose to waive that option in favor of the focused visit within two (2) years. Following the focused visit, the EPSB shall decide to:

   a. Continue accreditation; or
   b. Revoke accreditation.

2. If the EPSB renders the decision to continue accreditation, the next on-site visit shall be scheduled for seven (7) years following the semester in which the continuing accreditation visit occurred;

(c) Accreditation with probation.

1. This accreditation decision indicates that the unit has not met one (1) or more of the NCATE standards and has pervasive problems that limit its capacity to offer quality programs that adequately prepare candidates. As a result of the continuing accreditation review, the EPSB has determined that areas for improvement with respect to standards may place an institution's accreditation in jeopardy if left uncorrected. The institution shall schedule an on-site visit within two (2) years of the semester in which the probationary decision was rendered. This visit shall mirror the process for first accreditation. The unit as part of this visit shall address all NCATE standards in effect at the time of the probationary review at the two (2) year point. Following the on-site review, the EPSB shall decide to:

   a. Continue accreditation; or

b. Revoke accreditation.

2. If accreditation is continued, the next on-site visit shall be scheduled for five (5) years after the semester of the probationary visit;

3. Revocation of accreditation. Following a comprehensive site visit that occurs as a result of an EPSB decision to accredit with probation or to accredit with conditions, this accreditation decision indicates that the unit does not meet one (1) or more of the NCATE standards, and has pervasive problems that limit its capacity to offer quality programs that adequately prepare candidates. Accreditation shall be revoked if the unit:

   a. No longer meets preconditions to accreditation, such as loss of state approval or regional accreditation;
   b. Misrepresents its accreditation status to the public;
   c. Falsely reports data or plagiarized information submitted for accreditation purposes; or
   d. Fails to submit annual reports or other documents required for accreditation.

(5) Notification of EPSB action to revoke continuing accreditation or deny first accreditation, including failure to remove conditions, shall include notice that:

(a) The institution shall inform students currently admitted to a certification or rank program of the following:

1. A student recommended for certification or advancement in rank within the twelve (12) months immediately following the denial or revocation of state accreditation and who applies to the EPSB within the fifteen (15) months immediately following the denial or revocation of state accreditation shall receive the certificate or advancement in rank;

2. A student who does not meet the criteria established in subparagraph 1 of this paragraph shall transfer to a state accredited education preparation unit in order to receive the certificate or advancement in rank; and

(b) An institution for which the EPSB has denied or revoked accreditation shall seek state accreditation through completion of the first accreditation process. The on-site accreditation visit shall be scheduled by the EPSB no earlier than two (2) years following the EPSB action to revoke or deny state accreditation.

Section 21. Revocation for Cause. (1) If an area of concern or an allegation of misconduct arises in between accreditation visits, staff shall bring a complaint to the EPSB for initial review.

(2) After review of the allegations in the complaint, the EPSB may refer the matter to the Accreditation Audit Committee for further investigation.

(3)(a) Notice of the EPSB's decision to refer to the matter and the complaint shall be sent to the institution.

(b) Within thirty (30) days of receipt of the complaint, the institution shall respond to the allegations in writing and provide evidence pertaining to the allegations in the complaint to the EPSB.

(4)(a) The Accreditation Audit Committee shall review any evidence supporting the allegations and any information provided by the institution.

(b) Upon completion of the review, the Accreditation Audit Committee shall issue a report containing one (1) of the following four (4) recommendations to the EPSB:

1. Accreditation;
2. Accreditation with conditions;
3. Accreditation with probation; or
4. Revocation of accreditation.

(5) The institution shall receive a copy of the Accreditation Audit Committee's report and may file a response to the Accreditation Audit Committee's recommendation.

(6)(a) The recommendation from the Accreditation Audit Committee and the institution's response shall be presented to the EPSB.

(b) The EPSB shall consider the findings and recommendations of the Accreditation Audit Committee and make a final determination regarding the accreditation of the educator preparation unit.

VOLUME 37, NUMBER 8 – FEBRUARY 1, 2011

this administrative regulation except that a new program not submitted during the regular accreditation cycle or a program substantially revised since submission during the accreditation process shall be submitted for approval by the EPSB prior to admission of a student to the program.

(2) For a new or substantially revised program, the EPSB shall consider a recommendation by staff, including review by the Continuous Assessment Review Committee, Content Program Review Committee, and the Reading Committee.

(3) A recommendation made pursuant to subsection (2) of this section shall be presented to the full EPSB.

(4) Program approval decision options shall be:

(a) Approval, with the next review scheduled during the regular accreditation cycle unless a subsequent substantial revision is made;

(b) Approval with conditions, with a maximum of one (1) year probationary extension for correction of a specified problem to be documented through written materials or through an on-site visit. At the end of the extension, the EPSB shall decide that the documentation supports:

1. Approval; or
2. Denial of approval; or
3. Approval with conditions; or
(c) Denial of approval, indicating that a serious problem exists which jeopardizes the quality of preparation of school personnel.

(5) The EPSB shall order a review of a program if it has cause to believe that the quality of preparation is seriously jeopardized. The review shall be conducted under the criteria and procedures established in the EPSB “Emergency Review of Certification Programs Procedure” policy incorporated by reference. The on-site review shall be conducted by EPSB staff and a Board of Examiners team. The review shall result in a report to which the institution may respond. The review report and institutional response shall be used by the Executive Director of the EPSB as the basis for a recommendation to the full EPSB for:

(a) Approval;
(b) Approval with conditions; or
(c) Denial of approval for the program.

(6) If the EPSB denies approval of a program, the institution shall notify each student currently admitted to that program of the EPSB action. The notice shall include the following information:

(a) A student recommended for certification or advancement in rank within the twelve (12) months immediately following the denial of state approval and who applies to the EPSB within the fifteen (15) months immediately following the denial of state approval shall receive the certification or advancement in rank; and

(b) A student who does not meet the criteria established in paragraph (a) of this subsection shall transfer to a state approved program in order to receive the certificate or advancement in rank.

Section 23. Public Disclosure. (1) After a unit and program approval decision becomes final, the EPSB shall prepare official notice of the action. The disclosure notice shall include the essential information provided in the official letter to the institution, including the decision on accreditation, program approval, standards not met, program areas for improvement, and dates of official action.

(2) The public disclosure shall be entered into the minutes of the board for the meeting in which the official action was taken by the EPSB.

(c) Evidence of compliance in place at the time of the review and favorable to the institution was not considered.

(2) An ad hoc appeals board of no fewer than three (3) members shall be appointed by the EPSB chair from members of the Board of Examiners who have not had involvement with the team visit or a conflict of interest regarding the institution. The ad hoc committee shall recommend action on the appeal to the EPSB.

(3) The consideration of the appeal shall be in accordance with KRS Chapter 13B.

(2) The EPSB shall consider a waiver upon request of the institution offering the alternative route program. The request shall be submitted in writing no later than thirty (30) days prior to the next regularly-scheduled EPSB meeting. In granting the waiver, the board shall consider the provisions of this administrative regulation and any information presented that supports a determination of undue restriction.

(1) Provide a brief summary of:

(a) What this administrative regulation does: Pursuant to KRS 314.011(8)(c), this administrative regulation sets limitations on APRN prescriptive authority for specific controlled substances that have been determined to have the greatest potential for abuse or diversion.

(b) The necessity of this administrative regulation: The board is required by statute to promulgate this regulation.

(c) How this administrative regulation conforms to the content of the authorizing statutes: By setting limitations on APRN prescriptive authority.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: By setting limitations on APRN prescriptive authority.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: It changes the length of time for which prescriptions may be written for the identified drugs. (d) How the amendment will assist in the effective administration of the statutes: It will benefit patients by allowing an APRN to write a prescription for these drugs for 30 days.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All APRNs, approximately 4,000.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No action in necessary by the APRNs.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There is no cost to comply.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): They will be able to assist their patients.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Rose Mack

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes commercial fishing requirements and regulates the buying and selling of roe-bearing species of rough fish.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to protect certain species from harvest, to establish reasonable limits on commercial fishing pressure, and to conserve the populations of roe-bearing fish species so as to provide a sustainable resource for the future.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 150.025 authorizes the department to set seasons; establish bag or creel limits; and to regulate the buying, selling, or transporting of fish and wildlife. KRS 150.175(3) authorizes the establishment of a commercial fishing license that allows the taking and selling of rough fish. 50 C.F.R. 17 protects the shovelnose sturgeon from harvest in the Mississippi River because of similarity of appearance with the federally protected pallid sturgeon.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment will allow a potential increase in the number roe-harvester permits issued since the previous version of this regulation did not allow anyone to apply for or purchase a roe-harvest permit after September 15. It will remove turtles from the list wildlife species that are allowed to be commercially harvested, and also protects sturgeons from any harvest in the Mississippi River due to a new federal rule. It also restricts the size of needles used to examine roe fish.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to extend the period of time when commercial fishermen may apply for roe-harvest permits, and to restrict the commercial harvest of turtles and protect those species from a growing export market that currently threatens turtle populations in other states and countries. It also is necessary to conform to new federal rules on sturgeon.

(c) How the amendment conforms to the content of the authorizing statutes: See (1)(c) above.

(d) How the amendment will assist in the effective administration of the statutes: This regulation assists the above statutes by establishing certain seasons, protecting certain species from harvest, and restricting the harvest of some species of rough fish that are susceptible to overharvest due to commercial activity, most notably roe-bearing fish species.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All individuals who commercial fish and harvest roe-bearing fish species within the state will potentially be affected. Currently, there are 101 resident and 18 nonresident commercial roe-harvest permits available annually. Any commercial fisherman who formerly harvested turtles would be affected, however, according to commercial fishing reports, no turtles have been harvested by fishermen during the past several years.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Commercial fishermen must comply with a 10-gauge or smaller needle to check for roe. If the number of permits issued is below the quota, commercial fishermen may apply for a lottery drawing for the unfilled permits.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There will be no change in the cost of permits for commercial fisherman and roe-harvesters as a result of this amendment.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Individuals who apply for a roe-harvest permit after September 15 will have a chance to receive the permit, whereas prior to this amendment, no one could apply for a permit after September 15.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: Initially, the number of permits issued after September 15 is expected to be less than 6. Therefore there will a minimal increase in administrative cost to issue and track the permits.

(b) On a continuing basis: There will be no additional cost on a continuing basis after the first year of implementation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The source of funding is the State Game and Fish Fund.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: There will be no need for an increase in fees due to the changes in this regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: No fees were established in this regulation.

(9) TIERING: Is tiering applied? Tiering was not applied because all individuals who apply for a roe-harvest permit were treated equally.

   (a) What this administrative regulation does: This administrative regulation establishes elk hunting requirements and legal methods to handle elk depredation problems.
   (b) The necessity of this administrative regulation: This administrative regulation is necessary to define the boundaries of the units to which hunters are assigned, to establish hunting procedures and seasons, and to effectively manage elk in the Commonwealth.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 150.170 establishes the department to promulgate administrative regulations governing the taking of wildlife. KRS 150.170(4) exempts landowners, the dependents, and their tenants from license requirements. KRS 150.177 and KRS 150.178 authorize the issuance of commission permits and landowner cooperator permits. KRS 150.390 authorizes the department to promulgate administrative regulations for the removal of elk that are causing destruction to property and to establish elk hunting seasons and requirements.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The elk population continues to increase and requires continued harvest as the statute provides. This regulation establishes seasons and requirements for elk hunting.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
   (a) How the amendment will change this existing administrative regulation: This amendment stipulates that the first two weeks of archery season shall be for antlered elk only, sets the season dates for archery, crossbow and firearms seasons, allows for internet checking of harvested elk, and prohibits elk calling on public land prior to the opening of the elk season.

(b) The necessity of the amendment to this administrative regulation: See 1(b) above.

(c) How the amendment conforms to the content of the authorizing statutes: See 1(c) above.

Property owners sustaining damage from elk can benefit from the late season depredation hunt. Residents of the elk zone who applied for the regular season hunt shall be eligible for the late season depredation hunt.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(b) On a continuing basis: There will be no additional cost to the agency on a continuing basis.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The source of funding is the State Game and Fish Fund. The department already has the mechanisms in place for administering quota hunt application procedures, random drawings and other aspects of the elk hunt.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Additional fees for direct implementation of this regulation are not necessary, as infrastructure for conducting all aspects of elk management and quota hunts already exists (see "6" above).

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increased any fees: This administrative regulation amendment does not establish any fees nor does it indirectly increase any fees.

(9) TIERING: Is tiering applied? Yes and No. Tiering was only applied on the Post-Season Quota Hunt on Private Land. Only residents of the elk restoration zone are eligible to participate in this hunt and they must hunt on private land. This hunt is designed to help local landowners suffering damage from elk in 2 areas with depressive problems. Elsewhere tiering is not applied and all hunters are eligible to participate.

*Waterbodies in the cabinet’s reference reach network

(a) Categorization criteria. A surface water shall be categorized as an exceptional water if any of the following criteria are met:

1. Surface water is designated as a Kentucky Wild River and is not categorized as an outstanding national resource water;

2. Surface water is designated as an outstanding state resource water as established in 401 KAR 10:031, Section 8(1)(a), 2, and 3 and Section 8(1)(b);

3. Surface water contains either of the following:
   a. A fish community that is rated “excellent” by the use of the Index of Biotic Integrity included in Development and Application of the Kentucky Index of Biotic Integrity (KiBI); or
   b. A macroinvertebrate community that is rated “excellent” by the Macroinvertebrate Bioassessment Index included in “The Kentucky Macroinvertebrate Bioassessment Index,” 2003; or
   c. Surface water in the cabinet's reference reach network.

(b) Implementation procedure. The implementation procedure for exceptional water shall be as established in subsection (3)(b) of this section.

(3) High quality water.

(a) Categorization criteria.

1. A surface water shall be categorized as high quality water if the surface water is not listed as an outstanding national resource water or an exceptional water in Table 1 or 2 of this section and if the surface water does not meet the criteria for impaired water as provided for in subsection 4(a) of this section.

2. A surface water shall be categorized as a high quality water if the surface water is listed as an outstanding state resource water in 401 KAR 10:026 and is not listed as an outstanding national resource water in Table 1 or an exceptional water in Table 2 of this section.

(b) Implementation procedure. A KPDES permit application for a new or expanded discharge into a high quality or exceptional water shall be subject to the provisions of this paragraph. Existing instream water uses and the level of water quality necessary to protect the existing uses shall be maintained and protected.

1. The activities identified in this subparagraph shall not be subject to the antidegradation implementation procedures in paragraph (b) of this subsection.

   a. The renewal of a KPDES permit that does not authorize pollutant loading to the receiving stream in excess of that previously authorized;
   b. An increase in pollutant loading within the limits previously approved by the KPDES permit; or
   c. A new or expanded discharge that the applicant demonstrates shall not consume more than ten (10) percent of the available assimilative capacity of the receiving stream outside of a designated mixing zone or zone of initial dilution for each new or increased pollutant in the discharge. The cumulative impact of this category of discharges shall not consume more than ten (10) percent of the available assimilative capacity of the receiving stream outside of a designated mixing zone or zone of initial dilution.

2. The activities identified in clauses a. through d. of this subparagraph shall constitute compliance with the alternatives and socioeconomic analysis requirements if addressed in the manner established in this subparagraph rather than as established in subparagraph 3. of this paragraph, unless the permittee chooses to satisfy applicable antidegradation requirements pursuant to subparagraph 3. of this paragraph.

   a. A general permit issued pursuant to 401 KAR 5:050 through 5:080.

   (i) The cabinet may, upon receipt of a notice of intent to be covered under a general permit, require additional analyses, control measures, or other conditions if necessary to comply with antidegradation requirements.

   (ii) The cabinet shall describe in the Fact Sheet how the general permit complies with the alternatives analysis and socioeconomic...
the Socioeconomic Demonstration and Alternatives Analysis form.

4. A permit applicant who has failed to demonstrate the necessity and social or economic development importance for lowering water quality shall not receive a permit unless:
   a. The applicant demonstrates, through a revised submission, the necessity for lowering revised water quality in accordance with subparagraph 3. of this paragraph; or
   b. The applicant demonstrates that the discharge can meet the requirements established in subparagraph 1.c. of this paragraph.

5. A permit applicant who demonstrates the necessity and social or economic development importance for lowering water quality shall meet the requirements of the KPDES program, 401 KAR 5:050 through 5:080.

6. The cabinet’s determination shall be documented in the permit Fact Sheet and included in the administrative record for the permit or action.

(4) Impaired water.
   (a) Categorization criteria. A surface water categorized as impaired for applicable designated uses shall be a water identified pursuant to 33 U.S.C. 1315(b).

   1. Surface water categorized as impaired shall be assessed by the cabinet as not fully supporting any applicable designated uses.
   2. A surface water shall not be categorized as impaired if the surface water is listed as an outstanding state resource water in 401 KAR 10:026.
   3. A surface water shall not be categorized as impaired for the purposes of this administrative regulation if the surface water is listed only as mercury impaired for fish consumption.

   (b) Implementation procedure.
   1. All existing uses shall be protected and the level of water quality necessary to protect those existing uses shall be assured in improved water.
   2. The process to allow a discharge into an impaired water and to assure protection of the water shall be regulated by the requirements in the Kentucky Pollution Discharge Elimination System Program, 401 KAR 5:050-5:080.

Section 2. Procedure for Recategorizing Water. This section shall apply to the recategorization of surface water to outstanding national resource water and exceptional water. The redesignation of water to outstanding state resource water shall be governed by the procedures in 401 KAR 10:026.

1. The cabinet may propose to recategorize certain water to outstanding national resource water and exceptional water if the water meets the criteria set forth in Section 1(1)(a) or (2)(a) of this administrative regulation.
   (a) If the cabinet proposes to recategorize these waters, it shall provide notice and an opportunity for public hearing.
   (b) The cabinet shall provide the documentation requirements of this section for those surface waters it proposes to recategorize.

2. A person may request recategorization of a surface water to an outstanding national resource water or exceptional water by filing a petition with the cabinet.
   (a) The petition shall include the name and address of the petitioner and the information and documentation necessary to recategorize the particular water as required by subsection (4) of this section.
   (b) The petitioner shall have the burden of proof that the recategorization is appropriate.
   (c) The cabinet shall provide notice of the petition and an opportunity for a public hearing.
   (d) The cabinet shall review the petition, supporting documentation, and any comments received from the public to determine if the proposed water qualifies for recategorization.
   (e) The cabinet shall document the determination to grant or deny recategorization as a result of a petition, and shall provide a copy of the decision to the petitioner and other interested parties.
   (f) If a water is to be recategorized, the cabinet shall publish notice of the recategorization.
      (a) A permit issued after the date of publication shall be issued with limitations based on the new category.
      (b) When the cabinet reviews its water quality standards pursuant to the provisions of Section 303 of the Clean Water Act, 33
U.S.C. 1313, the cabinet shall propose to have all recategorized water promulgated as an amendment to this administrative regulation.

(4) The following information, documentation, and data shall support a petition for recategorization:
   (a) A petition for outstanding national resource water shall include:
      1. A USGS 7.5 minute topographic map or its equivalent showing those surface waters to be recategorized including a description consisting of a river mile index with any existing and proposed discharge points;
      2. Existing uses and water quality data for the surface water for which the recategorization is proposed. If adequate data are unavailable, additional studies shall be required by the cabinet;
      3. Descriptions of general land uses and specific land uses adjacent to the surface water for which the recategorization is proposed;
      4. The existing and designated uses of the water upstream and downstream of the proposed recategorized water;

      7. An assessment of the existing and potential aquatic life habitat within the water and in the adjacent upstream surface waters. The existing aquatic life shall be documented including the occurrence of individuals or populations, indices of diversity and well-being, and abundance of species of any unique native biota;
      8. A documented rationale as to why the water quality for the recategorization; and
      9. The rationale used to support the national significance of the water.
   (b) A petition for exceptional water shall include the following:
      1. A United States Geological Survey 7.5 minute topographic map or its equivalent showing the surface water to be recategorized including a description consisting of a river mile index with existing and proposed discharge points;
      2. Descriptions of general land uses, including:
         a. Mining;
         b. Agriculture;
         c. Recreation;

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Sandy Gruzesky, Director

(1) Provide a brief summary of:
   (a) What this administrative regulation does: This administrative regulation implements the antidegradation policy of 401 KAR 10:029 by establishing procedures to control water pollution in waters affected by that policy. This administrative regulation establishes categorization criteria, lists many surface waters assigned to specific categories, and provides for recategorization of water.
   (b) The necessity of this administrative regulation: This administrative regulation is necessary to manage water resources and to provide for the prevention, abatement, and control of water pollution.
   (c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to KRS 224.10-100, which requires the cabinet to develop and conduct a comprehensive program for the management of water resources and to provide for the prevention, abatement, and control of water pollution. KRS 224.70-100 declares that the policy of the Commonwealth is to conserve its waters for legitimate uses and to safeguard from pollution the uncontaminated waters of the Commonwealth, prevent the creation of any new pollution in the waters of the Commonwealth, and abate any existing pollution. This administrative regulation and 401 KAR 10:001, 10:026, 10:029, and 10:031 establish procedures to protect the surface waters of the Commonwealth, and thus manage water resources and prevent water pollution.
   (d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the administration of the statutes by implementing the antidegradation policy for the protection of surface waters of the Commonwealth as required by the authorizing statutes.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
   (a) How the amendment will change this existing administrative regulation: The proposed amendment to the administrative regulation considers cumulative impacts when calculating limits for de minimus discharges into high quality waters. De minimus discharges are those that will not consume more than ten percent of the available assimilative capacity of a receiving stream, outside a designated mixing zone or zone of initial dilution. The amendment also clarifies the alternatives analysis and socioeconomic demonstration procedures for general permits, MS4 permits, and road plan projects.
   (b) The necessity of the amendment to this administrative regulation: This administrative regulation is part of the water quality standards required by the Clean Water Act, 40 C.F.R. 131, and used in the comprehensive management of water resources, as required by KRS 224.10-100. As required by 40 C.F.R. 131.21, the Cabinet submitted this administrative regulation for EPA’s approval after the last revision, effective in 2009. EPA approved in part, but
disapproved in part, the most recent revision of this administrative regulation. This proposed amendment is to amend the provisions of the administrative regulation that EPA did not approve, in order to obtain full approval of Kentucky’s antidegradation implementation policy methodology. 

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to KRS 224.10-100, which requires the Cabinet to develop and conduct a comprehensive program for the management of water resources and to provide for the prevention, abatement, and control of water pollution. KRS 224.70-100 declares that the policy of the Commonwealth is to conserve its waters for legitimate uses and to: safeguard from pollution the uncontaminated waters of the Commonwealth, prevent the creation of any new pollution in the waters of the Commonwealth, and abate any existing pollution. This amendment clarifies the procedures to protect the surface waters of the Commonwealth.

(d) How the amendment will assist in the effective administration of the statutes: The proposed amendments to the administrative regulation will allow the Cabinet to implement federally approved water quality standards.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: The cabinet has not issued any permits that relied on the de minimus exemption to antidegradation review. The cabinet has not been implementing the administrative regulation consistent with EPA’s recommended revisions. The proposed amendment will not affect any permitted entities.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Because there are not any permits that rely on the de minimus exemption to antidegradation review, no regulated entity will have to take action to comply with this proposed amendment. The other proposed amendments are simply clarifications to the wording of the regulation and will not change the way the requirements are implemented.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Because there are not any permits that rely on the de minimus exemption to antidegradation review, no costs are associated with complying with the antidegradation policy established in Section 1(3)(b). Applicants proposing a new or expanded discharge to these second-tier waters must demonstrate that the discharge will not exceed ten percent of the cumulative assimilative capacity of the receiving stream outside of a mixing zone, or demonstrate that the lowering of water quality is necessary to accommodate important economic or social development in the area in which the water is located.

The final tier of requirements is for Impaired Waters, established in Section 1(4)(b). The process to allow a discharge into an impaired water and to assure protection of the water shall be regulated by the requirements in the Kentucky Pollution Discharge Elimination System Program, 401 KAR 5:050-5:080.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. Does this administrative regulation relate to any program, service, or requirements of a state or local government (including cities, counties, fire departments, or school districts)? Yes
2. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The amendment to this administrative regulation may affect the wastewater treatment divisions of local government if they will have new or expanded discharges into high quality waters that propose to use less than ten percent of a water’s cumulative assimilative capacity.
3. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 224.10-100, 224.70-100, and 224.70-110 mandate action taken by this administrative regulation.
4. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This regulation to this administrative regulation may affect the wastewater treatment divisions of local government if they will have new or expanded discharges into high quality waters that propose to use less than ten percent of a water’s cumulative assimilative capacity.
(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This regulation will not generate any revenue.

(c) How much will it cost to administer this program for the first year? There will be no cost to state or local agencies to implement the proposed amendment to this regulation. There are costs associated with complying with the antidegradation policy established in this regulation, but those costs are unchanged by this amendment and antidegradation policy is mandated by the federal government in 40 C.F.R. 131.12.

(d) How much will it cost to administer this program for subsequent years? There will be no cost to state or local agencies to administer the proposed amendment to this regulation. There are costs associated with complying with the antidegradation policy established in this regulation, but those costs are unchanged by this amendment and antidegradation policy is mandated by the federal government in 40 C.F.R. 131.12.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(c) As a profit split to individuals whose selection is included within the first three finishers, but if there are no such wagers on one of those three finishers, then;

(d) As a profit split to individuals who selected one of the two covered betting interests included within the first three finishers, but if there are no such wagers on two of those three finishers, then;

(b) The broken consolation price shall be multiplied by the dollar value of wagers on the winner of the first race combined with the scratched betting interest to obtain the consolation payout.

(c) Breakage is not included in this calculation.

(d) The consolation payout shall be deducted from the net double pool before calculation and distribution of the winning double payout.

(e) Dead heats including separate betting interests in the first race shall result in a consolation payout calculated as a profit split.

(2) The net double pool shall be distributed as a single price pool to individuals selecting the winner for first-place and any of the betting interests involved in the dead heat for second, but if there are no such wagers, then:

(c) As a single price pool to individuals whose combination included the one covered betting interest included within the first two finishers, but if there are no such wagers, then:

(a) As a single price pool to individuals whose selection finished first in each of the four races, but if there are no such wagers, then:

(a) If the scratch was made prior to the start of the first leg, all wagers containing such scratched betting interest shall be refunded to determine the gross pool and removed from further consideration in the pool.
(b) If the scratch was made in the second leg after the start of the first leg, a consolation payoff shall be computed for those wagers combining the winners of the first and third leg with the scratched betting interest as follows:
   1. The takeout and the amount of wagers on combinations involving betting interests scratched from the second leg shall be deducted from the gross pool.
   2. The resulting remainder shall be divided by the amounts bet on the combination of such first and third leg winners with all betting interests in the second leg, less breakage, to determine the consolation price per dollar payable to those wagers combining winners from the first and third legs with the betting interest scratched in the second leg.
   3. Breakage shall not be deducted from the pool.
   (c) If a betting interest is scratched in the third leg after the start of the first leg, a consolation payoff shall be computed for those wagers combining the winners of the first and second legs with the scratched betting interest as follows:
   1. The takeout and the amount of wagers on combinations involving betting interests scratched from the third leg shall be deducted from the gross pool.
   2. The resulting remainder shall be divided by the amount bet on the combination of such first and second leg winners with all betting interests in the third leg, less breakage, to determine the consolation price per dollar payable to those wagers combining winners from the first and second legs with a betting interest scratched in the third leg.
   3. Breakage shall not be deducted from the pool.
   (d) If betting interests are scratched in both the second and third legs after the start of the first leg, a consolation payoff shall be computed for those wagers combining the winner of the first leg with the betting interests scratched in both the second and third legs as follows:
   1. The takeout shall be deducted from the gross pool.
   2. The remainder shall be divided by the amount bet on the winner of the first leg combined with all other betting interests, less breakage, to determine the consolation price per dollar payable to those individuals with wagers combining the winner of the first leg with the scratched betting interests from both the second and third legs.
   3. If for any reason one or two of the races comprising the Pick-4 is cancelled, the net amount of the pari-mutuel pool shall be distributed as provided above in subsections (3)(b), (c), (d), and (e) of this section.

(5) If for any reason three or more races comprising the Pick-4 are cancelled, the entire pool shall be refunded on Pick-4 wagers for those races.

(6) When the condition of the turf course warrants a change of racing surface in any races of the Pick-3, and such change has not been disclosed to the public prior to "off time" of the first race of the Pick-4, the stewards shall declare the changed races an "all win" race for Pick-4 wagering purposes only. An "all win" race will assign the winner of that race to each Pick-3 ticket holder as their selection for that race.

   (b) The totalizator shall produce reports showing each of the wagering combinations with substituted betting interests which became winners as a result of the substitution, in addition to the normal winning combination.

(9) The Pick-4 pool shall be cancelled and all Pick-4 wagers for the individual performance shall be refunded if at least three races included as part of a Pick-4 are cancelled or declared "no contest."
   (10)(a) Each association shall disclose in its license application whether it intends to schedule Pick-4 races and, if so, shall disclose:
   1. The percentage of the pool to be retained for the winning wagers, and
   2. The designated amount of any cap to be set on the pool to be retained for the winning wagers.
   (b) Any changes to the Pick-4 scheduling require prior approval from the commission or its designee.
   (11)(a) The Pick-4 carryover may be capped at a designated level approved by the commission so that if, at the close of any performance, the amount in the Pick-4 carryover equals or exceeds the designated cap, the Pick-4 carryover will be frozen until it is won or distributed under the provisions of this administrative regulation.
   (b) After the Pick-4 carryover is frozen, one hundred percent (100%) of the net pool, part of which ordinarily would be added to the Pick-4 carryover, shall be distributed to individuals whose selections finished first in the greatest number of Pick-4 races for that performance.
   (12) An association may request permission from the commission to distribute the Pick-4 carryover on a specific performance. The request shall contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.
   (13) If the Pick-4 carryover is designated for distribution on a specified date and performance, and no wagers correctly select the first-place finisher in each of the Pick-4 races, the entire pool shall be distributed as a single price pool to individuals whose selection finished first in the greatest number of Pick-4 races.
   (14) The Pick-4 carryover shall be designated for distribution on a specified date and performance only under the following circumstances:
   (a) Upon written approval from the commission as provided in subsection (7) of this section; or

   (e) On the closing performance of the meeting or split meeting.
   (15) If, for any reason, the Pick-4 carryover shall be held over to the corresponding Pick-4 pool of a subsequent meeting, the carryover shall be deposited in an interest-bearing account approved by the commission. The Pick-4 carryover plus accrued interest shall then be added to the net Pick-4 pool of the following meeting on a date and performance approved by the commission.
   (16) Upon written approval of the commission, a sum of money up to the amount of any designated cap may be contributed to the Pick-4 carryover by an association.
   (17) The association may supply information to the general public regarding the winning dollars in the Pick-4 pool. Such information shall not be selectively distributed. This shall not prohibit necessary communication between totalizator and pari-mutuel department employees for processing of pool data.

   (2)(a) The major share of the net Pick-6 pool and the carryover, if any, shall be distributed to those who selected the first-place finisher in each of the Pick-6 contests, based upon the official order of finish.
   (b) The minor share of the net Pick-6 pool shall be distributed to those who selected the first-place finisher in the second greatest number of Pick-6 contests, based upon the official order of finish.
   (c) If there are no wagers selecting the first-place finisher of all Pick-6 contests, the minor share of the net Pick-6 pool shall be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick-6 contests.    (a) In the event that the win pool total for two or more favorites is identical, the substitute selection shall be the betting interest with the lowest program number.
   (b) The totalizator shall produce reports showing each of the winning combinations with substituted betting interests that became winners as a result of the substitution, in addition to the normal winning combination.
   (c) Pick-6 wagers on a mutuel entry or mutuel field from which a starter or starters may have been scratched shall be wagers upon the horse or horses remaining in such entry or field.
   (d) If no starter remains representing any mutuel entry or mutuel field, wagers upon such entry or field shall be deemed wagers upon the favorite as described in subsection (4) of this section.
   (e) If a betting interest is scratched or declared a non-starter prior to the close of wagering of the first race of the Pick-6, individuals may:
      1. Select another betting interest if the affected ticket can be cancelled and re-issued prior to the start of the first race of the Pick-6; or
      2. Obtain a refund on the affected ticket if it can be processed prior to the start of the first race of the Pick-6.
   (5) When the condition of the turf course warrants a change of racing surface in any of the Pick-6 races, and such change has not been disclosed to the public prior to the close of wagering for the Pick-6 pool, the stewards shall declare the changed race(s) an "all win" race for Pick-6 wagering purposes only. An "all win" race will assign the winner of that race to each Pick-6 ticketholder as their selection for that race.
   (6) If at least one race included as part of a Pick-6 is cancelled or declared "no contest", but not more than the number specified in subsection (7) of this section, the net pool shall be distributed as a single price pool to individuals whose selection finished first in the greatest number of Pick-6 races for that performance. Such distribution shall include the portion ordinarily retained for the Pick-6 carryover, but not the carryover from previous performances.
   (7) The Pick-6 pool shall be cancelled and all Pick-6 wagers for the individual performance shall be refunded if at least three races included as part of the Pick-6 are cancelled or declared "no contest."
   (8)(a) Each association shall disclose in its license application whether it intends to schedule Pick-6 races and, if so, shall disclose:
      1. The percentage of the pool to be retained for the winning wagers; and

   (b) Any subsequent changes to the Pick-6 scheduling require prior approval from the commission or its designee.
   (9)(a) The Pick-6 carryover may be capped at a designated level approved by the commission so that if, at the close of any performance, the amount in the Pick-6 carryover equals or ex-
ceeds the designated cap, the Pick-6 carryover will be frozen until it is won or distributed under the provisions of this administrative regulation.

(b) After the Pick-6 carryover is frozen, one hundred percent (100%) of the net pool, part of which ordinarily would be added to the Pick-6 carryover, shall be distributed to those whose selection finished first in the greatest number of Pick-6 races for that performance.

(10) An association may request permission from the commission to distribute the Pick-6 carryover on a specific performance. The request shall contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.

(11)(a) On the final day of a meeting, an association shall make a final distribution of all accumulated carryovers along with seventy-five percent (75%) of the net pool of the Pick-6 pool conducted on the final day of the meeting to:

1. Individuals with tickets selecting the winners of all Pick-6 races including selections of the six races comprising the Pick-6 for that day.
2. Individuals with tickets selecting five winners and no more than one “all win” selection.

(b) Twenty-five percent (25%) of the net pool shall be distributed to the holders of the remaining tickets selecting the most winners.

(c) If there is no distribution in accordance with subsection (11)(a) of this section on the last day of the meeting, the entire distributable pool and all monies accumulated therein shall be distributed to the holders of tickets correctly designating the most winning selections of the six races comprising the Pick-6 for that day.

(d) If the Pick-6 is canceled on the final day of a meeting, all money wagered into the Pick-6 pool that day shall be refunded and any carryover shall be retained and added to the Pick-6 pool on the first racing day of the next meeting.

(12) The Pick-6 carryover shall be distributed for the selection of the first four finishers, in their exact order, for a single race.

The entire pool shall be refunded on Trifecta wagers for the race.

(4)(a) If less than three betting interests finish and the race is declared official, payouts will be made based upon the order of finish of those betting interests that finish the race.

(b) The balance of any selection beyond the number of betting interests completing the race shall be ignored.

(5)(a) If there is a dead heat for first involving horses representing three or more betting interests, all of the wagering combinations selecting three betting interests that correspond with any of the betting interests involved in the dead heat shall share in a profit split.

(b) If there is a dead heat for first involving horses representing two betting interests, both of the wagering combinations selecting the two betting interests that finish in a dead heat, irrespective of order, along with the third-place betting interest shall share in a profit split.

(6) If there is a dead heat for second, all of the combinations correctly selecting the winner combined with any of the betting interests involved in the dead heat for second shall share in a profit split.

(7) If there is a dead heat for third, all wagering combinations correctly selecting the first two finishers, in correct sequence, along with any of the betting interests involved in the dead heat for third shall share in a profit split.

(b) No Trifecta wagering shall be conducted on any race having fewer than five (5) separate betting interests.

(c) If fewer than five horses start due to a late scratch or malfunction of the starting gate, the Trifecta shall be cancelled and the gross pool shall be refunded.

Section 14. Superfecta Pools. (1) The Superfecta requires selection of the first four finishers, in their exact order, for a single race.

(2) The net Superfecta pool shall be distributed in the following order of finish:

(a) As a single price pool to individuals whose combination finished in correct sequence as the first four betting interests, but if there are no such wagers, then;

(b) As a single price pool to individuals whose combination included, in correct sequence, the first two betting interests, but if there are no such wagers, then;

(b) The balance of any selection beyond the number of betting interests completing the race shall be ignored.

(4)(a) If there is a dead heat for first involving horses representing four or more betting interests, all of the wagering combinations selecting betting interests which correspond with any of the betting interests involved in the dead heat shall share in a profit split.

(b) If there is a dead heat for first involving horses representing three betting interests, all of the wagering combinations selecting the three betting interests that finish in a dead heat, irrespective of order, along with the fourth-place betting interest shall share in a profit split.

(5) If due to a late scratch the number of betting interests in the Super High-Five pool is reduced to fewer than seven (7), the Super High-Five pool shall be cancelled and shall be refunded, but not the Super High-Five carryover pool.

(6) If a betting interest in the Super High-Five pool is scratched from the race, no more wagers shall be accepted selecting that scratched runner and all tickets previously sold designating such horse shall be refunded and that money shall be deducted from the gross pool.

(7) If any dead-heat occurs in any finishing position, all wagers selecting either of the runners finishing in a dead heat with the correct runners not finishing in a dead heat shall be winners and share the Super High-Five pool. Payouts shall be calculated by splitting the pool equally between each winning combination, then dividing each portion by the number of winning tickets.

(8)(a) On the final day of a meeting, an association shall make a final distribution of all accumulated carryovers along with the net pool of the Super High-Five pool conducted on the final day of the meeting as a single price pool to:
1. Individuals with tickets selecting the first five (5) finishers, in exact order, for the designated race, or, if no such wagers exist, to:

Section 17. Twin Trifecta Pools. (1) The Twin Trifecta requires the selection of the first three finishers, in their exact order, in each of two designated races.

(a) Each winning ticket for the first Twin Trifecta race shall be exchanged for a free ticket on the second Twin Trifecta race in order to remain eligible for the second half Twin Trifecta pool.

(b) Such tickets may only be exchanged at attended ticket windows prior to the second Twin Trifecta race.

(c) Winning first half Twin Trifecta wagers shall receive both an exchange and a monetary payout.

(d) Both of the designated Twin Trifecta races shall be included in only one Twin Trifecta pool.

(2) After wagering closes for the first half of the Twin Trifecta, and the takeout has been deducted from the pool, the net pool shall then be divided into two separate pools: the first half Twin Trifecta pool and the second half Twin Trifecta pool.

(3) In the first Twin Trifecta race only, winning wagers shall be determined using the following precedence based upon the official order of finish for the first Twin Trifecta race:

(a) As a single price pool to individuals whose combination finished in the correct sequence as the first three betting interests, but if there are no such wagers, then;

(b) As a single price pool to individuals whose combination included, in correct sequence, the first two betting interests, but if there are no such wagers, then;

(c) As a single price pool to individuals whose combination correctly selected the first-place betting interest only, but if there are no such wagers, then;

(d) The entire Twin Trifecta pool shall be refunded on Twin Trifecta wagers for that race and Twin Trifecta wagering on the second half shall be cancelled.

(4) Except as set forth in subsection (16) of this section, if no first half Twin Trifecta ticket selects the first three finishers of that race in exact order, except for tickets for the second half Twin Trifecta pool shall not be distributed. In such case, the second half Twin Trifecta pool shall be retained and added to any existing Twin Trifecta carryover pool.

(5) Tickets from the first half of the Twin Trifecta that correctly select the first three finishers shall be exchanged for tickets selecting the first three finishers of the second half of the Twin Trifecta.

(b) The second half Twin Trifecta pool shall be distributed to individuals in the following precedence based upon the official order of finish for the second Twin Trifecta race:

1. As a single price pool, including any existing carryover monies, to individuals whose combination finished in correct sequence as the first three betting interests but if there are no such wagers, then;

2. The entire second half Twin Trifecta pool for that race shall be added to any existing carryover monies and retained for the corresponding second half Twin Trifecta pool of the next consecutive performance.

(c) If a winning first half Twin Trifecta ticket is not presented for cashing and exchange prior to the second half Twin Trifecta race, the ticket holder may still collect the monetary value associated with the first half Twin Trifecta pool but shall forfeit all rights to any distribution of the second half Twin Trifecta pool.

(6) Mutuel entries and mutuel fields shall be prohibited in Twin Trifecta races.

(7) If a betting entry in the first half of the Twin Trifecta is scratched, Twin Trifecta wagers including the scratched betting interest shall be refunded.

(b)(a) If a betting interest in the second half of the Twin Trifecta is scratched, an immediate public announcement and immediate posting on the association’s video monitors and website concerning the scratch shall be made and a reasonable amount of time shall be provided for exchange of tickets that include the scratched betting interest.

(b) If tickets have not been exchanged prior to the close of betting on the second Twin Trifecta race, the ticket holder shall forfeit all rights to the second half Twin Trifecta pool.

(9) If, due to a late scratch, the number of betting interests in the second half of the Twin Trifecta is reduced to fewer than the minimum, all exchange tickets and outstanding first half winning tickets shall be entitled to the second half pool for that race, but shall not be entitled to the Twin Trifecta carryover.

(10)(a) If there is a dead heat or multiple dead heats in either the first or second half of the Twin Trifecta, all Twin Trifecta wagers selecting the correct order of finish, counting a betting interest involved in a dead heat as finishing in any dead-heated position, shall be winning wagers.

(b) If the dead heat occurs in the first half of the Twin Trifecta,
the payout shall be calculated as a profit split.

(c) If the dead heat occurs in the second half of the Twin Trifecta, the payout shall be calculated as a single price pool.

(11) If the first Twin Trifecta race is canceled or declared “no contest”, the entire Twin Trifecta pool shall be refunded on Twin Trifecta wagers for that race and the second half shall be cancelled.

(12a) If the second half Twin Trifecta race is cancelled or declared “no contest”, all exchange tickets and outstanding first half winning Twin Trifecta tickets shall be entitled to the net Twin Trifecta pool for that race as a single price pool, but shall not be entitled to the Twin Trifecta carryover.

(b) If there are no outstanding first half winning Twin Trifecta tickets, the net Twin Trifecta pool shall be distributed as described in subsection (3) of this section.

(13a) The Twin Trifecta carryover may be capped at a designated level approved by the commission so that if, at the close of any performance, the amount in the Twin Trifecta carryover equals or exceeds the designated cap, the Twin Trifecta carryover will be frozen until it is won or distributed under the provisions of this administrative regulation.

(b) After the Twin Trifecta carryover is frozen, one hundred percent (100%) of the net Twin Trifecta pool for each individual race shall be distributed to winners of the first half of the twin Trifecta pool.

(14a) A written request for permission to distribute the Twin Trifecta carryover on a specific performance may be submitted to the commission. The request shall contain:

(a) Justification for the distribution;
(b) An explanation of the benefit to be derived; and
(c) The intended date and performance for the distribution.

(15) If the Twin Trifecta carryover is designated for distribution on a specified date and performance, the following precedence will be followed in determining winning tickets for the second half of the Twin Trifecta after completion of the first half of the Twin Trifecta:

(a) As a single price pool to individuals whose combination finished in correct sequence as the first three betting interests, but if there are no such wagers, then;

(b) As a single price pool to individuals whose combination included, in correct sequence, the first two betting interests, but if there are no such wagers, then;

(c) As a single price pool to individuals whose combination correctly selected the first-place betting interest only, but if there are no such wagers, then;

(d) As a single price pool to holders of valid exchange tickets, but if there are no such wagers, then;

(e) As a single price pool to holders of outstanding first half winning tickets.

(16) For a performance designated to distribute the Twin Trifecta carryover, exchange tickets shall be issued for those combinations selecting the greatest number of betting interests in their correct order of finish for the first half of the twin Trifecta:

(a) If there are no wagers correctly selecting the first-, second-, and third-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first- and second-place finishers.

(b) If there are no wagers correctly selecting the first- and second-place finishers, in their exact order, exchange tickets shall be issued for combinations correctly selecting only the first-place finisher.

(c) If there are no wagers selecting the first-place finisher only in the first half of the Twin Trifecta, all first half tickets shall be winning tickets and shall be entitled to one hundred percent (100%) of that performance’s net Twin Trifecta pool, and any existing Twin Trifecta carryover.

(17) The Twin Trifecta carryover shall be designated for distribution on a specified date and performance only under the following circumstances:

(a) Upon written approval from the commission as provided in subsection (14) of this section; or

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen, (502) 564-4321

Provide a brief summary of:

(a) What this administrative regulation does: This is a new administrative regulation which establishes Medicaid electronic health record (EHR) incentive payment policies in accordance with federal law and regulation. EHR incentive payments are payments, authorized by the American Recovery and Reinvestment Act (ARRA), to eligible professionals and eligible hospitals that adopt, implement, upgrade, or demonstrate "meaningful use" of certified EHR technology in the first year of participation or then demonstrate meaningful use for up to five more years of EHR incentive payment program participation. The program is not mandated upon states, but Kentucky's Medicaid program has elected to implement the program and in the first possible year of implementation - 2011 (specifically January 3, 2011 is the first day Medicaid programs are...
allowed to launch the initiative.) Eligible professionals may receive up to $63,750 in aggregate in incentive payments if they participate in the program for 6 years. Eligible professionals include physicians, dentists, nurse practitioners, certified nurse midwives, and physician assistants (if the physician assistant practices in a rural health clinic or federally-qualified health center under the supervision of a physician assistant.) There is no limit to how much eligible hospitals may receive. Eligible hospitals include acute care hospitals, children’s hospitals (but Kentucky currently has none), and critical access hospitals.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to enable the Department for Medicaid Services (DMS) to manage the Medicare and Medicaid incentive payments for eligible professionals and hospitals as authorized by the American Recovery and Reinvestment Act (ARRA).

(c) How this administrative regulation conforms to the content of the authorizing statute: This administrative regulation conforms to the content of the authorizing statute by establishing EHR incentive payment policies in accordance with federal law and regulation.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statute: This administrative regulation assists in the effective administration of the statute by establishing EHR incentive payment policies in accordance with federal law and regulation.

(2) If this is an amendment to an existing administrative regulation, provide a description of how the amendment will change this existing administrative regulation: This is a new administrative regulation.

(b) The necessity of the amendment to this administrative regulation: This is a new administrative regulation.

(c) How the amendment conforms to the content of the authorizing statute: This is a new administrative regulation.

(d) How the amendment will assist in the effective administration of the statute: This is a new administrative regulation.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: The Department for Medicaid Services (DMS) examined past claims data and estimates that of 22,741 Medicaid (nonhospital) providers (for example, physicians, nurse practitioners, etc.) who are in the umbrella of provider types eligible for electronic health record (EHR) incentive payments (or "eligible professionals"), that 2,450 could feasibly meet the Medicaid patient volume threshold to qualify for EHR incentive payments. DMS estimates that only 85% (2,162) of those will actually acquire the certified EHR technology necessary to qualify for the incentive payments. The eligible professional provider types include physicians, dentists, nurse practitioners, certified nurse midwives, and physician assistants (if the physician assistant practices in a rural health clinic or federally-qualified health center under the supervision of a physician assistant. Medicaid recipients will also benefit from this administrative regulation.

DMS anticipates that of the 65 acute care hospitals participating in the Kentucky Medicaid program, that 61 will meet the Medicaid patient volume threshold (10%) necessary to qualify for EHR incentive payments.

DMS anticipates that of the 29 critical access hospitals participating in the Kentucky Medicaid Program, that 17 will meet the Medicaid patient volume threshold necessary (10%) to qualify for EHR incentive payments.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: In order to qualify for electronic health record incentive payments, eligible professionals and eligible hospitals will have to adopt, implement, upgrade, or demonstrate "meaningful use" of certified EHR technology in the first year of participation or then demonstrate meaningful use for up to five more years of EHR incentive payment program participation. An eligible professional cannot begin receiving an EHR incentive payment any later than calendar year 2016 and an eligible hospital cannot begin receiving incentive payments any time after federal fiscal year 2016 (October 1, 2016 through September 30, 2017); thus, individuals and entities must act prior to those respective deadlines in order to qualify for incentive payments.

Eligible professionals (individuals) and eligible hospitals who choose to pursue (and meet all requirements) electronic health record (EHR) incentive payments will receive incentive payments. The maximum amount of incentive payments an eligible professional may receive is $63,500 and there is no maximum amount for eligible hospitals. The Kentucky Hospital Association (KHA) provided DMS with estimates which indicate that the lowest amount of incentive payments in aggregate that a participating acute care hospital will receive will be over $596,000 and the highest amount a participating acute care hospital will receive will be over $5,7 million. Medicaid recipients will benefit from the adoption and meaningful use of electronic health record technology by receiving enhanced care and across diverse settings including reduced deaths and complications in hospitals. Uses of electronic health records include enabling patient data to be quickly shared, electronic note taking, electronic treatment records, electronic test results, electronic drugs orders, and the use of decision-support systems which can inform clinical staff regarding treatment options and drug interactions. The use of EHR can also improve preventive medicine by enhancing screening - as reminders (for screenings) can be generated by electronic medical date and sent to patients. A Harvard Medical School study showed that such reminders sent to patients resulted in the patients being more likely to get screened in contrast to when reminders were only sent to physicians.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: DMS estimates that 127 eligible professionals (i.e. non-hospital) will qualify for EHR incentive payments in calendar year (CY) 2011 and that DMS will make $2,638,987 (100% federal) in incentive payments to those eligible professionals in CY 2011. DMS estimates that in CY 2012 that DMS will make $52,979,461 (100% federal) in incentive payments to eligible professionals.

(b) On a continuing basis:

DMS anticipates that that the 29 critical access hospitals participating in the Kentucky Medicaid Program, that 17 will meet the Medicaid patient volume threshold necessary (10%) to qualify for EHR incentive payments.

DMS estimates that in CY 2011 it will make:

- $596,000 and the highest amount a participating acute care hospital will receive will be over $5,7 million.

- Medicaid recipients will benefit from the adoption and meaningful use of electronic health record technology by receiving enhanced care and across diverse settings including reduced deaths and complications in hospitals.

- Uses of electronic health records include enabling patient data to be shared, electronic note taking, electronic treatment records, electronic test results, electronic drugs orders, and the use of decision-support systems which can inform clinical staff regarding treatment options.

- The use of EHR can also improve preventive medicine by enhancing screening.

- A Harvard Medical School study showed that such reminders sent to patients resulted in the patients being more likely to get screened.

- Uses of electronic health records include enabling patient data to be quickly shared, electronic note taking, electronic treatment records, electronic test results, electronic drugs orders, and the use of decision-support systems which can inform clinical staff regarding treatment options and drug interactions.

- The use of EHR can also improve preventive medicine by enhancing screening.

- A Harvard Medical School study showed that such reminders sent to patients resulted in the patients being more likely to get screened.

DMS estimates in CY 2011 it will make:

- $6,872,308 (100% federal) in incentive payments to eligible professionals.

DMS estimates that in CY 2013 it will make:

- $3,436,154 (100% federal) in incentive payments to eligible professionals.

DMS estimates in CY 2013 it will make:

- $11,045,507 (100% federal) in incentive payments to eligible professionals.

DMS estimates in CY 2014 it will make:

- $16,828,621 (100% federal) in incentive payments to eligible professionals.

- $0 in incentive payments to acute care hospitals as DMS antic-
imates the hospitals will have met the maximum incentive payment amount by the end of CY 2013; and

$1,374,462 (100% federal) in incentive payments to 17 critical access hospitals.

DMS estimates that in CY 2015 it will make:

$21,053,841 (100% federal) in incentive payments to eligible professionals;

$0 in incentive payments to acute care hospitals as DMS anticipates the hospitals will have met the maximum incentive payment amount by the end of CY 2013; and

$0 in incentive payments to critical access hospitals as DMS anticipates the hospitals will have met the maximum incentive payment amount by the end of CY 2014; and

DMS estimates that in CY 2016 it will make:

$22,665,571 (100% federal) in incentive payments to eligible professionals.

DMS estimates that in CY 2017 it will make:

$17,025,532 (100% federal) in incentive payments to eligible professionals.

DMS estimates that in CY 2018 it will make:

$14,863,345 (100% federal) in incentive payments to eligible professionals.

DMS estimates that in CY 2019 it will make:

$11,719,218 (100% federal) in incentive payments to eligible professionals.

DMS estimates that in CY 2020 it will make:

$7,493,999 (100% federal) in incentive payments to eligible professionals.

DMS estimates that in CY 2021 it will make:

$3,243,281 (100% federal) in incentive payments to eligible professionals.

As DMS anticipates that new eligible professionals will gradually participate in the EHR incentive payment program and that participating eligible professionals will hit the maximum payment threshold along the way, DMS is not indicating the projected number of eligible professionals beyond the first year (calendar year 2011) in this estimate.

DMS estimates that it will make a total amount of incentive payments by category as follows:

$134,895,894 to eligible professionals;

$105,958,822 to acute care hospitals; and

$13,744,615 to critical access hospitals.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are 100% federal funds authorized under the American Recovery and Reinvestment Act (ARRA.)

(7) Provide an assessment of whether an increase in fees or fees.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment; Neither an increase in fees nor funding are necessary.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is applied as incentive payment requirements and amounts vary according to provider category. For example, the requirements and amounts for "eligible professionals" differs from those of acute care hospitals and critical access hospitals.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. Electronic health record (EHR) incentive payments are not mandated; however, they are authorized by federal laws 42 U.S.C. 1396b(a)(3)(F) and 42 U.S.C. 1396b(t) and federal regulations 42 C.F.R. 495.2 through 10 and 42 C.F.R. 495.300 through 370.

2. State compliance standards. KRS 205.520(9) states, "Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. EHR incentive payments are not mandated.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

Two state-owned hospitals, UK Healthcare and University of Louisville Hospital, plan to participate in the EHR incentive payment program.

3. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. 42 C.F.R. 495.2 through 10 and 42 C.F.R. 495.300 through 370.

4. What increase in fees nor funding are necessary.

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2010 bound Volumes. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10) or 13A.312(2). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the Administrative Register. NOTE: Finalized copies of the technically amended administrative regulations are available for viewing on the Legislative Research Commission Web site at http://www.lrc.ky.gov/home.htm.

The Board of Nursing has requested that technical amendments be made to reflect the statutory change of the term "Advance Registered Nurse Practitioner" or "ARNP" to "Advance Practice Registered Nurse" or "APRN". This change was applied to 201 KAR 20:059, 201 KAR 20:161, 201 KAR 20:163, 201 KAR 20:215, 201 KAR 20:220, 201 KAR 20:235, 201 KAR 20:400, 201 KAR 20:410, 201 KAR 20:450, and 201 KAR 20:490, as of July 15, 2010.
