STATEMENT OF EMERGENCY

301 KAR 2:221E

This emergency administrative regulation establishes season dates, limits, shooting hours, and other requirements for hunting waterfowl. Waterfowl hunting season frameworks are set annually by the U.S. Fish and Wildlife Service. Under federal law, states that wish to establish migratory bird hunting seasons shall do so within the federal frameworks. Development of the federal regulations involves consideration of harvest and population status data, coordination with state wildlife agencies, and public involvement. Consequently, federal migratory bird hunting regulations are promulgated less than six (6) weeks before the opening dates of the hunting season in Kentucky. An ordinary administrative regulation will not suffice because the federal framework is not established until days before the start of the waterfowl season. This emergency administrative regulation shall be replaced by an identical ordinary administrative regulation. The ordinary administrative regulation will be filed with the Regulations Compiler by October 31, 2012.

STATEMENT OF EMERGENCY
301 KAR 2:222E

This emergency administrative regulation establishes season dates, limits, shooting hours and other requirements for hunting waterfowl on public lands. Waterfowl hunting season frameworks are set annually by the U.S. Fish and Wildlife Service. Under federal law, states that wish to establish migratory bird hunting seasons shall do so within the federal frameworks. Development of the federal regulations involves consideration of harvest and population status data, coordination with state wildlife agencies, and public involvement. Consequently, federal migratory bird hunting regulations are promulgated less than six (6) weeks before the opening dates of the hunting season in Kentucky. An ordinary administrative regulation will not suffice because the federal framework is not established until days before the start of the waterfowl season. This emergency administrative regulation shall not suffice because the federal framework is not established until days before the start of the waterfowl season. This emergency administrative regulation shall be replaced by an identical ordinary administrative regulation. The ordinary administrative regulation will be filed with the Regulations Compiler by October 31, 2012.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. The Department of Fish and Wildlife Resources sets migratory birds seasons within the frameworks established by the U.S. Fish and Wildlife Service and published in 50 C.F.R. Part 20, 21.

3. Minimum or uniform standards contained in the federal mandate. 50 C.F.R. Part 20 contains season frameworks for the earliest opening and latest closing date, the maximum number of days a species is open to hunting, and daily bag and possession limits. 50 C.F.R. Part 21 defines permits and the necessary requirements to hold and possess migratory game birds before, during and after periods open for hunting.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? Yes.

5. Justification for the imposition of the stricter standard, or additional different responsibilities or requirements. The federal mandate defines the regulatory frameworks that a state may allow. States are permitted to be more restrictive but not more liberal in their respective regulations. State management objectives necessitate more restrictive regulations to protect local, regional and/or state populations of birds important to Kentucky’s waterfowl hunters. The greatest wintering and migrating waterfowl concentrations are located on public lands managed by the Department. The Department imposes more restrictive hunting regulations on these lands in effort to meet waterfowl management objectives while still providing quality hunting opportunity.

STATEMENT OF EMERGENCY

301 KAR 2:224E

This emergency administrative regulation establishes waterfowl hunting zones. Waterfowl hunting season frameworks are set annually by the U.S. Fish and Wildlife Service. Under federal law, states that wish to establish migratory bird hunting seasons shall do so within the federal frameworks. Development of the federal regulations involves consideration of harvest and population status, coordination with state wildlife agencies, and public involvement. Consequently, federal migratory bird hunting regulations are promulgated less than six (6) weeks before the opening dates of the hunting season in Kentucky. An ordinary administrative regulation will not suffice because the federal framework is not established until days before the start of the waterfowl season. This emergency administrative regulation shall be replaced by an identical ordinary administrative regulation. The ordinary administrative regulation will be filed with the Regulations Compiler by October 31, 2012.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Rose Mack

(1) Provide a brief summary of:
   (a) What the administrative regulation does: This administrative regulation changes the name of the Ballard and Henderson-Union Reporting Areas to the Ballard and Henderson-Union Zones.
   (b) The necessity of the administrative regulation: To reduce hunter confusion about regulations pertaining to these specific areas.
   (c) How does this administrative regulation conform to the authorizing statute: KRS 150.025 authorizes the department to establish hunting season dates and bag limits. KRS 150.360 authorizes the department to restrict methods for the taking of wildlife. KRS 150.600 authorizes the department to regulate the taking of waterfowl on public and private land.
   (d) How will this administrative regulation assist in the effective administration of the statutes: This administrative regulation manages waterfowl populations and hunting opportunity consistent with national and international management goals.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
   (a) How the amendment will change the existing administrative regulation: It will change the name of the Ballard and Henderson-Union Reporting Areas to the Ballard and Henderson-Union Zones.
   (b) The necessity of the amendment to this administrative regulation: The USFWS suspended Canada goose harvest quotas and reporting requirements within these two reporting areas with adoption of a new Mississippi Valley Population Management Plan. Kentucky continues to use area specific regulations to meet state and regional waterfowl management objectives but the term “reporting area” confused hunters who thought they were still mandated to report harvest. Changing the name from “reporting area” to zone will help reduce this confusion.
   (c) How the amendment will assist in the effective administration of the statutes: See (1) (c) above.
   (d) How the amendment will assist in the effective administration of any other statutes: See (1) (d) above.

   (a) The actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The change in name from “reporting area” to “zone” will be published in the fall waterfowl hunting guide and on the department’s Web site. Hunters will need to follow all applicable amendments to the hunting seasons.
   (b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There will be no additional costs to those identified in question (3).
   (c) As a result of compliance, what benefits will accrue to the entities identified in question (3): There will be reduced confusion regarding waterfowl reporting requirements while continuing providing increased opportunity to hunt waterfowl in the state.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:
   (a) Initially: This administrative regulation change will result in no initial change in cost to the Kentucky Department of Fish and Wildlife Resources to administer.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. The Department of Fish and Wildlife Resources sets migratory birds seasons within the frameworks established by the U.S. Fish and Wildlife Service and published in 50 C.F.R. Part 20, 21.

3. Minimum or uniform standards contained in the federal mandate. 50 C.F.R. Part 20 contains season frameworks for the earliest opening and latest closing date, the maximum number of days a species is open to hunting, and daily bag and possession limits. 50 C.F.R. Part 21 defines permits and the necessary requirements to hold and possess migratory game birds before, during and after periods open for hunting.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? Yes.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The federal mandate defines the regulatory frameworks that a state may allow. States are permitted to be more restrictive but not more liberal in their respective regulations. State management objectives necessitate more restrictive regulations to protect local, regional and/or state populations of birds important to Kentucky’s waterfowl hunters. The season on snow geese is shorter than the federal framework because migration patterns for this species result in a paucity of birds early in the federal framework. The Canada goose season in the Northeast Goose Zone is shorter than is permitted in the rest of the state because of the desire to maintain a huntable population in that region of the state.

For customers presenting certificates under the provisions of Sections 14(3) and 15 of this administrative regulation, gas and electric utilities shall negotiate partial payment plans based upon the customer’s ability to pay, requiring accounts to become current not later than the following October 15. Such plans may include, but are not limited to, budget payment plans and plans that defer payment of a portion of the arrearage until after the end of the heating season through a schedule of unequal payments.

(3) Utility inspections of service conditions prior to providing service. Each electric, gas, water, and sewer utility shall inspect the condition of the meter and service connections before making service connections to a new customer so that prior or fraudulent use of the facilities will not be attributed to the new customer. The new customer shall be afforded the opportunity to be present at such inspections. The utility shall not be required to render service to any customer until any defects in the customer-owned portion of the service facilities have been corrected.

(4) Prompt connection of service. Except as provided in Section 15 of this administrative regulation, the utility shall reconnect existing service within twenty-four (24) hours and shall connect new service within seventy-two (72) hours, when the cause for refusal or discontinuance of service has been corrected and the utility’s tariffed rules and commission administrative regulations have been met.

(5) Advance termination notice. When advance termination notice is required, the termination notice shall be mailed or otherwise delivered to the customer’s last known address. The termination notice shall be in writing, distinguishable and separate from any bill. The termination notice shall plainly state the reason for termination, that the termination date will not be affected by receipt of any subsequent bill, and that the customer has the right to dispute the reasons for termination. The termination notice shall also comply with the applicable requirements of Section 14 of this administrative regulation.

Section 14. Refusal or Termination of Service. (1) A utility may refuse or terminate service to a customer only under the following conditions except as provided in subsections (2) and (3) of this section:

(a) For noncompliance with the utility’s tariffed rules or commission administrative regulations. A utility may terminate service for failure to comply with applicable tariffed rules or commission administrative regulations pertaining to service to the customer. However, a utility shall terminate or refuse service to any customer for noncompliance with its tariffed rules or commission administrative regulations without first having made a reasonable effort to obtain customer compliance. After such effort by the utility, service may be terminated or refused only after the customer has been given at least ten (10) days’ written termination notice pursuant to Section 13(5) of this administrative regulation.

(b) For dangerous conditions. If a dangerous condition relating to the utility’s service which could subject any person to imminent harm or result in substantial damage to the property of the utility or others is found to exist on the customer’s premises, the service shall be refused or terminated without advance notice. The utility shall notify the customer immediately in writing and, if possible, orally of the reasons for the termination or refusal. Such notice shall be recorded by the utility and shall include the corrective action to be taken by the customer or utility before service can be restored or provided. However, if the dangerous condition, such as gas piping or a gas-fired appliance, can be effectively isolated or secured from the rest of the system, the utility need not terminate service unless it finds that the service is not reasonably safe. If a utility refuses or neglects to provide reasonable access to the premises for installation, operation, meter reading, maintenance or removal of utility property, the utility may terminate or refuse service. Such action shall be taken only when corrective action negotiated between the utility and customer has failed to resolve the situation and after the customer has been given at least ten (10) days’ written notice of termination pursuant to Section 13(5) of this administrative regulation.

(c) For outstanding indebtedness. Except as provided in Section 15 of this administrative regulation, a utility shall not be required to furnish new service to a customer who is indebted to the utility for service furnished or other tariffed charges until that customer has paid his indebtedness.

(d) For noncompliance with state, local or other codes. A utility may refuse or terminate service to a customer if the customer does not comply with state, municipal or other codes, rules and administrative regulations applying to such service. A utility may terminate service pursuant to this subsection only after ten (10) days’ written notice is provided pursuant to Section 13(5) of this administrative regulation, unless ordered to terminate immediately by a governmental official.

(e) For nonpayment of bills. A utility may terminate service at a point of delivery for nonpayment of charges incurred for utility service at that point of delivery, however, no utility shall terminate service to any customer for nonpayment of bills for any tariffed charge without first having mailed or otherwise delivered an advance termination notice which complies with the requirements of Section 13(5) of this administrative regulation.

1. Termination notice requirements for electric or gas service. Each electric or gas utility proposing to terminate customer service for nonpayment shall mail or otherwise deliver to that customer ten (10) days’ written notice of intent to terminate, service shall be terminated before twenty-seven (27) days after the mailing date of the original unpaid bill. 2. Termination notice requirements for water, sewer, or telephone service. Each water, sewer, or telephone utility proposing to terminate customer service for nonpayment shall mail or otherwise deliver to that customer five (5) days’ written notice of intent to terminate. Under no circumstances shall service be terminated before twenty (20) days after the mailing date of the original unpaid bill.

3. The termination notice requirements of this subsection shall not apply if termination notice requirements to a particular customer or customers are otherwise dictated by the terms of a special contract between the utility and customer which has been approved by the commission.

4. For illegal use or theft of service. A utility may terminate service to a customer in the manner described in subsection (a). If it has evidence that a customer has obtained unauthorized service by illegal use or theft. Within twenty-four (24) hours after such termination, the utility shall send written notification to the customer of the reasons for termination or refusal of service upon which the utility relies, and of the customer’s right to challenge the termination by filing a formal complaint with the commission. This right of termination is separate from, and in addition to, any other legal remedies which the utility may pursue for illegal use or theft of service. The utility shall not be required to restore service until the customer has complied with all tariffed rules of the utility and laws and administrative regulations of the commission.

5. A utility shall not terminate service to a customer if the following conditions exist:

(a) If payment for services is made. If, following receipt of a termination notice for nonpayment but prior to the actual termination of service, there is delivered to the utility office payment of the amount in arrears, service shall not be terminated.

(b) If a payment agreement is in effect. Service shall not be terminated for nonpayment if the customer and the utility have entered into a partial payment plan in accordance with Section 13 of this administrative regulation and the customer is meeting the requirements of the plan.

6. Customers eligible for such certification from the Cabinet for Human Resources shall have been issued a termination notice between November 1 and March 31. Certificates shall be presented to the utility during the initial ten (10) day termination notice period. As a condition of the thirty (30) day extension, the customer shall exhibit good faith in paying his indebtedness by making a present payment in accordance with his ability to do so. In addition, the customer shall agree to a repayment plan in accordance with Section 13 of this administrative regulation which will permit the customer to become current in the payment of his bill as soon as possible but not later than October 15. A utility shall not require a new deposit from a customer to avoid termination of service for the thirty (30) day period who presents a certificate to the utility certified by the Kentucky Cabinet for Health and Family Services (or its designee) that the customer is eligible for the cabinet's Energy Assistance Program or whose household income is at or below 130 percent of the poverty level.

Any general rate increases received during the twelve (12) month period must be annualized. Any additional Cost charges may be included but must be documented as part of the filing.
(3) No more than two (2) such tariff filings under this procedure shall be made between general rate cases. Additional tariff filings for nonrecurring charges will be processed according to general rate case procedures.
When these requirements are met, such a filing may be made by letter with supporting documentation and will not require the information normally required pursuant to the commission's general rate case administrative regulations, 807 KAR 5:001, Section 9.

Section 11. Change of Ownership; Adoption notice. (1) In case of change of ownership or control of a utility, or when a utility or a part of its business is transferred from the operating control of one company to that of another, or when its name is changed, the company which will thereafter operate the utility business must use the rates, classifications and administrative regulations of the former operating company (unless authorized to change by the commission), and shall issue, file and post an adoption notice, on a form furnished by the commission, adopting, ratifying and making its own all rates, rules, classifications and administrative regulations of the former operating company, on file with the commission and effective at the time of such change of ownership or control.

GENERAL GOVERNMENT CABINET
Kentucky Board of Medical Licensure
(Amended After Comments)

RELATES TO: KRS 218A.205, 311.530-311.620, 311.990
STATUTORY AUTHORITY: KRS 311.565(1)(a)
NECESSITY, FUNCTION, AND CONFORMITY: KRS 311.565(1)(a) authorizes the board to promulgate administrative regulations to regulate the conduct of its licenses. This administrative regulation establishes the professional standards for prescribing and dispensing controlled substances. Each physician who is authorized to prescribe or dispense controlled substances shall conform to the following mandatory professional standards relating to controlled substances while practicing within the Commonwealth of Kentucky. The following standards shall be considered the standards of acceptable and prevailing medical practice within the Commonwealth of Kentucky for prescribing and dispensing controlled substances for the various conditions or settings described, subject to the enumerated exceptions.

Section 1. Exceptions. (1) These exceptions do not apply to the standards Schedule II Controlled Substances and Schedules III through V Controlled Substances with hydrocodone established in KRS 218A.172.

(2) The professional standards established in this administrative regulation shall not apply to physicians prescribing or dispensing controlled substances:
(a) To a patient as part of the patient’s hospice or end-of-life treatment;
(b) To a patient admitted to a licensed hospital as an inpatient, outpatient, or observation patient, during and as part of a normal and expected part of the patient’s course of care at that hospital;
(c) To a patient for the treatment of pain associated with cancer or with the treatment of cancer;
(d) To a patient who is a resident of a long-term care facility as defined in KRS 216.510;
(e) During the effective period of any period of disaster or mass casualties which has a direct impact upon the physician’s practice;
(f) In a single dose prescribed or dispensed to relieve the anxiety, pain, or discomfort experienced by that patient submitting to a diagnostic test or procedure; or
(g) That have been classified as a Schedule V controlled substance.

(1) Each physician prescribing or dispensing controlled substances shall obtain and document all relevant information in a patient’s medical record in a legible manner and in sufficient detail to provide for:
(a) This board to determine whether the physician is conforming to professional standards for prescribing or dispensing controlled substances and other relevant professional standards;
(b) If a physician is unable to conform to professional standards for prescribing or dispensing controlled substances due to circumstances beyond their control, or the physician makes a professional determination that it is not appropriate to comply with a specific standard, based upon the individual facts applicable to a specific patient’s diagnosis and treatment, the physician shall only prescribe or dispense...
controlled substances to the patient when the patient record appropriately justifies the prescribing or dispensing of controlled substances under the circumstances.

Section 3. Professional Standards for the Prescribing or Dispensing of Controlled Substances for the Treatment of Pain and Related Symptoms Associated with a Primary Medical Complaint. (1) Prior to the initial prescribing or dispensing of any controlled substance for pain or other symptoms associated with the same primary medical complaint, the first physician prescribing or dispensing controlled substances shall:
   (a) Obtain an appropriate medical history relevant to the medical complaint, including a history of present illness, and conduct a physical examination of the patient relevant to the medical complaint and related symptoms, for all medical complaints other than psychiatric conditions, and document the information in the patient's medical record. Psychiatrists, or other designated mental health providers, shall perform an evaluation appropriate to the presenting complaint and document relevant findings;
   (b) Obtain and review a KASPER report for that patient for the twelve (12) month period immediately preceding the patient encounter, and appropriately utilize that information in the evaluation and treatment of the patient;
   (c) After examining the benefits and risks of prescribing or dispensing controlled substances to the patient, including non-treatment or other treatment, make a deliberate decision that it is medically appropriate to prescribe or dispense the controlled substances in the amount specified;
   (d) Not prescribe or dispense long-acting or controlled-release opioids (e.g. OxyContin, fentanyl patches, and methadone) for acute pain that is not directly related to and close in time to a specific surgical procedure;
   (e) Explain to the patient that controlled substances used to treat an acute medical complaint are for time-limited use, and that the patient should discontinue the use of controlled substances when the condition requiring the controlled substance use has resolved; and
   (f) Explain to the patient how to safely use and properly dispose of any unused controlled substances.

Section 4. Professional Standards for Commencing Long Term Use of Prescribing or Dispensing of Controlled Substances for the Treatment of Pain and Related Symptoms Associated with a Primary Medical Complaint. (1) Before a physician commences to prescribe or dispense any controlled substance to a patient sixteen (16) years or older for pain or other symptoms associated with a medical complaint for a total period of longer than three (3) months, the physician shall comply with the following mandatory professional standards. These standards may be accomplished by different licensed practitioners in a single group practice at the direction of or on behalf of the prescribing physician so long as:
   (a) Each practitioner involved has lawful access to the patient’s medical record;
   (b) There is compliance with all applicable standards;
   (c) Each practitioner performing an action to meet the required standards is acting within their legal scope of practice.
   (2)(a) The physician shall obtain the following information from the patient and record all relevant information in the patient’s medical record:
   1. History of present illness;
   2. Past medical history;
   3. History of substance use and any prior treatment for such use by the patient, and history of substance abuse by first degree relatives of patient;
   4. Past family history of relevant illnesses and treatment; and
   5. Psychosocial history.
   (b) The physician shall conduct an appropriate physical examination of the patient sufficient to support the medical indications for prescribing or dispensing controlled substance on a long-term basis.
   (c) The physician shall perform appropriate baseline assessments to establish beginning values to assist in establishing and periodically evaluating the functional goals of any treatment plan.
   (d) If a specific or specialized evaluation is necessary for the formulation of a working diagnosis or treatment plan, the physician shall only continue the use of controlled substances after determining that continued use of controlled substances is safe and medically appropriate in the absence of such information.
   (e) If the physician determines that the patient has previously received medical treatment for the presenting medical complaint or related symptoms and that review of the prior treatment records is necessary to justify long-term prescribing of controlled substances, the physician shall obtain the prior medical records and incorporate the information therein into the evaluation and treatment of the patient.
   (f1) Based upon consideration of all information available, the physician shall promptly formulate and document a working diagnosis of the source of the patient’s medical complaint and related symptoms. It is not sufficient to simply describe or list the related symptoms.
   2. If the physician is unable, despite best efforts, to formulate a working diagnosis, the physician shall consider the usefulness of additional controlled substances after determining that such use at a specific level is medically indicated and appropriate,
   (g1) To the extent that functional improvement is medically expected based upon the patient’s condition, the physician shall formulate an appropriate treatment plan.
   2. The treatment plan shall include specific and verifiable goals of treatment, with a schedule for periodic evaluations.
   (b1) The physician shall utilize appropriate screening tools to screen each patient to determine if the patient is presently suffering from another medical condition which may impact the prescribing or dispensing of controlled substances, or presents a significant risk for illegal diversion of controlled substances.
   2. If, after screening, the physician determines that there is a reasonable likelihood that the patient suffers from substance abuse or dependence, or a psychiatric or psychosocial condition, the physician shall take the necessary actions to facilitate a referral to an appropriate treatment program or provider. The physician shall appropriately incorporate the information from the treatment program or provide into the evaluation and treatment of the patient.
   3. If, after screening, the physician determines that there is a risk that the patient may illegally divert controlled substances, but determines to continue long term prescribing of controlled substances, the physician shall use a "prescribing agreement," that meets professional standards. The "prescribing agreement" and informed consent document may be combined into one (1) document.
   4. The physician shall obtain and document a baseline drug screen.
   5. If, after screening, the physician determines that the controlled substances prescribed to the patient will be used or are likely to be used other than medicinally or other than for an accepted therapeutic purpose, the physician shall consider whether or not it is appropriate to commence prescribing controlled substances to that patient.
   (j) The physician shall initially attempt, to the extent possible, or establish and document a previous attempt by anoth-
er physician, of a trial of noncontrolled modalities and lower doses of controlled substances in increasing order to treat the pain and related symptom associated with the primary medical complaint, before continuing with long term prescribing of controlled substances at a given level.

Section 5. Professional Standards for Continuing Long Term Prescribing or Dispensing of Controlled Substances for the Treatment of Pain and Related Symptoms Associated with a Primary Medical Complaint. (1) If a physician continues to prescribe or dispense controlled substances beyond three (3) months to patient sixteen (16) years or older for the treatment and related symptoms associated with the primary medical complaint, the physician shall comply with the following professional standards. These standards may be accomplished by different licensed practitioners in a single group practice at the direction of or on behalf of the prescribing physician as set forth in Section 4(1) of this administrative regulation.

(a)1. The physician shall ensure that the patient is seen at least once a month initially for evaluation and review of progress. The physician may determine that the patient is to be evaluated less frequently, on a schedule determined by the physician’s professional judgment after the physician has determined:
   a. The controlled substances prescribed or dispensed have been titrated to the level appropriate and necessary to treat the medical complaint and related symptoms;
   b. The controlled substances prescribed or dispensed are not causing unacceptable side effects; and
   c. There is sufficient monitoring in place to minimize the likelihood that the patient will use the controlled substances in an improper or inappropriate manner or divert them for an improper or inappropriate use.

(b) At appropriate intervals, the physician shall ensure that a current history is obtained from the patient, shall ensure that a focused physical examination is considered, and performed, if appropriate, and shall perform appropriate measurable examinations as indicated in the treatment plan.

(c) At appropriate intervals, the physician shall evaluate the working diagnosis and treatment plan based upon the information gained to determine whether there has been functional improvement or any change in baseline measures. If appropriate, the physician shall modify the diagnosis, treatment plan, or controlled substances therapy, as appropriate.

(d) If the physician determines that the patient presents a significant risk of diversion or improper use of controlled substances, the physician shall discontinue the use of controlled substances or justify their continued use in the patient record.

(e) If the medical complaint and related symptoms continue with no significant improvement in function despite treatment with controlled substances, where improvement is medically expected, the physician shall obtain appropriate consultative assistance to determine whether there are undiagnosed conditions that must be addressed to resolve the medical complaint.

(f) For patients exhibiting symptoms suggestive of mood, anxiety, and/or psychotic disorders, the physician shall obtain psychiatric or psychological consultations for intervention if appropriate.

(g) If a patient reports that they are experiencing episodes of “breakthrough” pain, the physician shall:
   1. Attempt to identify the trigger or triggers for such episodes;
   2. Determine whether the breakthrough pain may be adequately treated through noncontrolled treatment;
   3. If the physician determines that the nonmedication treatments do not adequately address the triggers, and after consulting the risks and benefits the physician determines to add an as-needed controlled substance to the regimen, the physician shall take appropriate steps to minimize the improper or illegal use of the additional controlled substances.
   (h) At least once a year, the physician shall perform or shall ensure that the patient’s primary treating physician performs preventive health screening and physical examination appropriate to the patient’s gender, age, and medical condition.

(j)1. At least once every three (3) months, the physician shall obtain and review a current KASPER report and appropriately use that information in the evaluation and treatment of the patient.

2. If the physician obtains or receives specific information that the patient is not taking the controlled substances as directed, is diverting controlled substances, or is engaged in any improper or illegal use of controlled substances, the physician shall immediately obtain and review a KASPER report and appropriately use the information in the evaluation and treatment of the patient.

3. If a KASPER report discloses that the patient is obtaining controlled substances from other practitioners without the physician’s knowledge and approval, in a manner that raises suspicion of illegal diversion, the physician shall promptly notify the other practitioners of the relevant information from the KASPER review.

4. The physician shall obtain consultative assistance from a specialist when appropriate.

(i) When appropriate, the physician shall conduct random pill counts and appropriately use that information in the evaluation and treatment of the patient:

(a)1. During the course of long-term prescribing or dispensing of controlled substances, the physician shall utilize drug screens, appropriate to the controlled substances and the patient’s condition, in a random and unannounced manner at appropriate times and, if appropriate in cases where the patient is noncompliant:
   a. Do a controlled taper;
   b. Stop prescribing or dispensing controlled substances immediately; or
   c. Refer the patient to an addiction specialist, mental health professional, pain management specialist, or drug treatment program, depending upon the circumstances.

2. The physician shall discontinue controlled substance treatment and/or refer the patient to addiction management if one (1) or more of the following conditions exist:
   a. There has been no improvement in function and response to the medical complaint and related symptoms, where improvement is medically expected;
   b. Controlled substance therapy has produced significant adverse effects; or
   c. The patient exhibits inappropriate drug-seeking behavior or diversion.

Section 6. Professional Standards for the Prescribing and Dispensing of Controlled Substances in an Emergency Department. (1) In addition to complying with the standards for the initial prescribing or dispensing of a controlled substance as detailed in Sections 4 and 7 of this administrative regulation, a physician prescribing or dispensing a controlled substance for a specific medical complaint and related symptoms to a patient in an Emergency Department is strongly discouraged and shall not routinely:

(a) Administer intravenous controlled substances for the relief of acute exacerbations of chronic pain, unless intravenous administration is the only medically appropriate means of delivery;

(b) Provide replacement prescriptions for controlled substances that were lost, destroyed, or stolen;

(c) Provide replacement doses of methadone, suboxone, or subutex for patients in a treatment program;

(d) Prescribe long-acting or controlled-release controlled substances, such as OxyContin, fentanyl patches, or methadone or replacement doses of such medications;

(e) Administer Meperidine to the patient; or

(f) Prescribe or dispense more than the minimum amount medically necessary to treat the patient’s medical condition until the patient can be seen by their primary treating physician or another physician, with no refills. If the controlled substances prescribing exceeds seven (7) days in length, the
Section 7. Professional Standards for the Prescribing and Dispensing of Controlled Substances for the Treatment of Other Conditions. (1) Before initially prescribing or dispensing controlled substances to patients for conditions other than pain, the physician shall:

(a) Obtain an appropriate medical history relevant to the medical complaint, including a history of present illness, and conduct a physical examination of the patient relevant to the medical complaint and related symptoms, for all medical complaints other than psychiatric conditions, and document the information in the patient’s medical record. Psychiatrists or other designated mental health providers shall perform an evaluation appropriate to the presenting complaint and document relevant findings;

(b) Obtain and review a KASPER report for that patient for the twelve (12) month period immediately preceding the patient encounter, and appropriately utilize that information in the evaluation and treatment of the patient;

(c) After examining the benefits and risks of prescribing or dispensing controlled substances to the patient, including non-treatment or other treatment, make a deliberate decision that it is medically appropriate to prescribe or dispense the controlled substances in the amount specified;

(d) Avoid providing more controlled substances than necessary by prescribing or dispensing only the amount of controlled substances needed to treat the specific medical complaint;

(e) Explain to the patient that controlled substances used to treat an acute medical complaint are for time-limited use, and that the physician should discontinue the use of controlled substances when the condition requiring the controlled substance use has resolved; and

(f) Explain to the patient how to safely use and properly dispose of any unused controlled substances.

(2) If the physician continues to prescribe or dispense controlled substances to a patient for the same medical complaint and related symptoms, the physician shall fully conform to the standards of acceptable and prevailing practice for treatment of that medical complaint and for the use of the controlled substances.

(3) When a physician receives a request from an established patient to prescribe or dispense a limited amount of controlled substances to assist the patient in responding to the anxiety or depression resulting from a nonrecurring single episode, or even the physician shall:

(a) Obtain and review a KASPER report for that patient for the twelve (12) month period immediately preceding the patient request and appropriately utilize the information obtained in the evaluation and treatment of the patient;

(b) Make a deliberate decision that it is medically appropriate to prescribe or dispense the controlled substances in the amount specified, without requiring a personal encounter with the patient to obtain a more detailed history or to conduct a physical examination; and

(c) Prescribe or dispense the minimum amount of controlled substances to appropriately treat the situational anxiety or depression.

Section 8. Responsibility to Educate Patients Regarding the Dangers of Controlled Substance Use. (1) Physicians prescribing or dispensing controlled substances shall take appropriate steps to educate patients receiving controlled substances.

(2) Educational materials relating to these subjects may be found on the board’s Web site, www.kbml.ky.gov, and are incorporated by reference into this administrative regulation.

Section 9. Violations. (1) Any violation of the professional standards established in this administrative regulation or in KRS 218A.172 shall constitute a violation of KRS 311.595(12) and (9), which may result in the imposition of disciplinary sanctions by the board, pursuant to KRS 311.595.

(2) Each violation of the professional standards established in this administrative regulation or in KRS 218A.172 shall be established by expert testimony by one (1) or more physicians retained by the board, following a review of the licensee’s patient records and other available information including KASPER reports. The professional standards established in this administrative regulation shall not apply to physicians prescribing or dispensing controlled substances:

(a) To a patient as part of the patient’s hospice or end-of-life treatment;

(b) To a patient admitted to a licensed hospital, during and as part of a normal and expected part of the patient’s course of admission at that hospital;

(c) To a patient for the treatment of pain associated with the treatment of cancer;

(d) To a patient who is a registered resident of a skilled long-term care facility; or

(e) As part of their professional responsibilities in an emergency department and in accordance with the professional standards established in Section 5 of this administrative regulation.

(2) These exceptions do not apply to the standards established in KRS 218A.172.

Section 7. Professional Standards for Initial Prescribing or Dispensing of Controlled Substances. Prior to the initial prescribing or dispensing of any controlled substance for a specific medical complaint and related symptoms, each physician shall:

(a) Verify the identity of the patient by a current and valid government-issued photographic identification. If the physician does not have a copy of that identification in the patient’s medical record, that physician shall ensure that the identification is copied and placed in the patient’s medical record for future reference;

(b) Obtain an appropriate medical history relevant to the medical complaint, including a history of present illness, and conduct a physical examination of the patient relevant to the medical complaint and related symptoms, for all medical complaints other than psychiatric conditions, and document the information in the patient’s medical record;

(c) Obtain and review a KASPER report for all available data on the patient, document relevant information in the patient’s record, and consider the available information to determine whether it is medically appropriate and safe to prescribe or dispense controlled substances. This requirement to obtain and review a KASPER report shall apply to:

1. A physician prescribing or dispensing controlled substances to a patient who is younger than eighteen (18) years of age at the time of prescribing or dispensing, for the treatment of Attention-Deficit Hyperactive Disorder or Attention Deficit Disorder, or;

2. A physician prescribing or dispensing Schedule IV or V controlled substances other than those listed in this specific subsection. The physician shall obtain and review a KASPER report before initially prescribing or dispensing any of the following Schedule IV controlled substances:

KASPER report in a timely manner for reasons beyond the physician’s control determines, upon the available fact, that it is medically appropriate to prescribe controlled substances in the absence of a KASPER report. For this exception, the physician shall document as soon as possible the circumstances that made it impossible to obtain and review a KASPER report before prescribing and the reason(s) the physician determined it was medically appropriate to prescribe controlled substances in the absence of KASPER information.

(d) After examining the benefits and risks of prescribing or dispensing controlled substances to the patient, including non-treatment or other treatment, make a deliberate decision that it is medically appropriate to prescribe or dispense the controlled substances in the amount specified. When the identified risks are significant or unique, the physician shall document in the patient’s record the reasoning underlying the decision to prescribe or dispense controlled substances in spite of those risks;

(f) Avoid providing more controlled substances than necessary by prescribing or dispensing only the amount of controlled substances needed to treat the specific medical complaint, for a definite, predetermined time-period;

(g) Not prescribe or dispense long-acting or controlled-release opioids (e.g., OxyContin, fentanyl patches, and methadone) for acute pain;

Patient History. (1) The physician shall obtain the following information from the patient and record all relevant information in the patient’s medical record in a legible manner, in sufficient detail, to provide meaningful diagnosis and treatment of the patient, or to allow for another practitioner to assume the medical care of the patient at any given time in a safe and medically appropriate manner:

(b) Past medical history, including past diagnostic efforts and treatments for the presenting medical complaint and other medical complaints;

(c) History of legal or illegal substance use by the patient and by first-degree relatives of patient, including treatments for abuse or dependence;

(d) Past family history of illnesses and treatment relevant to the medical complaint and related symptoms; and,

(e) Psychosocial history.

(2) If a physician’s practice utilizes a patient questionnaire as a primary source of obtaining such information, the physician shall ensure that:

(a) All questions are completely answered;

(b) Any material conflict in the answers is clarified with the patient;

(c) Complete information is obtained regarding any significant disclosure; and,

(d) All relevant information is incorporated into the patient’s record and utilized in the development of the working diagnosis.

Physical Evaluations and Assessments. (1) The physician shall conduct a comprehensive physical examination of the patient for all medical conditions and related symptoms, other than psychiatric conditions, and properly document the findings of each evaluation or assessment in the patient’s record,

including but not limited to:

(a) Appropriate clinical examination addressing the medical complaint and related symptoms of a sufficient degree to support the medical indications for prescribing or dispensing controlled substances on a long-term basis;

(b) Measurable examinations that will establish baselines and will assist in establishing and periodically evaluating the functional goals of any treatment plan.

(4) If a specific or specialized evaluation is necessary for the formulation of a working diagnosis or treatment plan, the physician shall arrange for such evaluation as quickly as possible in order to begin to incorporate the findings into the working diagnosis and treatment plan. The physician shall document the relevant information obtained from the evaluation. If the physician determines that such an evaluation is necessary and the patient declines or fails to complete the evaluations in a timely manner for any reason, then the physician shall not continue the use of controlled substances unless the physician determines the substances are safe and medically appropriate in the absence of such information. In that event, the physician shall document the reasons that the patient failed to complete the evaluation and the reasoning supporting the continued use of controlled substances in the absence of that relevant information;

Obtaining Medical Records from Other Practitioners. (1) If the physician determines that the patient has received medical treatment for the presenting medical complaint or related symptoms and that review of the prior treatment records is necessary to justify long-term prescribing of controlled substances, the physician shall request a copy of the other physician’s records regarding the patient as quickly as possible, in order to incorporate such information into the working diagnosis or treatment plan;

(2) If the physician has requested a copy of the other physician’s records and has not received them within a reasonable time, the physician will take appropriate steps to follow up and obtain such records. If the physician is unable, after reasonable attempts, to obtain the relevant records, the physician shall document the efforts made to obtain the records, the failure to receive the records, and the impact the inability to obtain such records has upon the physician’s decision whether to continue or modify treatment, particularly the use of controlled substances, for that patient;

(3) Each physician, who receives a written request from another physician for a copy of records relating to that physician’s prior treatment of a specific patient, shall promptly provide a copy of the patient’s medical record to the requesting physician.

Establishing a Working Diagnosis. (1) Based upon consideration of all information available, the physician shall promptly formulate and document a working diagnosis of the source of the patient’s medical complaint and related symptoms. It is not sufficient to simply describe or list the related symptoms;

(2) If the physician is unable, despite best efforts, to formulate a working diagnosis, the physician shall consider the usefulness of additional information, such as specialized evaluations or assessments, referral to appropriate specialists, usefulness of further observation and evaluation, before attempting again to formulate a working diagnosis;

(3) If the physician is unable, despite best efforts, to formulate a working diagnosis, the physician must determine whether long-term use of controlled substances is indicated and appropriate. The physician may determine that a different or lower level of treatment is more appropriate until a working diagnosis can be established;

(4) The physician shall document the working diagnosis or all of the efforts taken in their unsuccessful attempt to formulate a working diagnosis and the reasons for their decision whether or not to utilize controlled substances on a long-term basis in the absence of a working diagnosis.

Formulating a Treatment Plan. (1) The physician shall formulate and document in the patient’s medical record the proposed treatment plan, based upon the working diagnosis of the medical complaint and related symptoms, along with rele-
vant baseline information obtained in the evaluation of the patient;

(2) The treatment plan shall include specific and verifiable goals of treatment, with a schedule for periodic evaluations, which will permit the physician to assess whether any treatment is appropriately addressing the medical complaint and improving the patient’s functional abilities. Statements such as “treat [medical] condition and related symptoms”, “to make patient feel better,” or “prescribe-controlled substances” are not sufficient treatment goals. The treatment plan shall include an exit strategy for the termination of use of any treatment modality, including controlled substances, for appropriate reasons;

Patient Screening. (1) The physician shall utilize appropriate screening tools to screen each patient to determine if the patient:

(a) Is presently suffering from abuse or dependence of any substance, including alcohol;
(b) Is presently suffering from a psychiatric or psychological condition that requires treatment or that may impact the patient’s treatment with controlled substances; or
(c) Presents a significant risk for illegal diversion of controlled substances, based upon information, gained by obtaining and reviewing a current KASPER report for all available data on that patient, that the patient has obtained-controlled substances from any multiple practitioners or has refilled prescriptions for controlled substances inappropriately.

(2) If, after screening, the physician determines that there is a reasonable likelihood that the patient suffers from substance abuse or dependence, the physician shall refer the patient to an appropriate treatment program or provider, or to an addiction specialist. If, after screening, the physician determines that there is a reasonable likelihood that the patient suffers from a qualifying psychiatric or psychological condition, the physician shall refer the patient for a psychological or psychiatric consultation, if appropriate. After making such referral, the physician shall consider the recommendations of the treatment program or specialist, before determining whether to continue with the long-term use of controlled substances with that patient, and, if so, appropriate treatment measures and monitoring. The physician shall document all relevant information about the screen, the referral, the recommendations, and any resulting prescribing decisions in the patient’s medical record;

(3) If, after screening, the physician determines that there is a significant likelihood that the patient may illegally divert controlled substances, the physician must determine whether the patient has a “prescribing agreement” and whether the patient understands the level of treatment to be provided and the level of monitoring that would be sufficient to prevent diversion. This determination necessarily requires the physician to determine whether they have the professional resources to conduct necessary monitoring of the patient’s controlled substance use. The terms of a “prescribing agreement” shall include, but not be limited to the patient’s agreement to:

(a) Avoid improper use of controlled substances;
(b) Identify other licensed professionals providing medical care to the patient and authorize the physician to communicate with these other providers to coordinate care, particularly prescribing or dispensing of controlled substances or compounded substances;
(c) Only obtain controlled substances from the designated physician;
(d) Only fill controlled substances prescriptions at an approved pharmacy;
(e) Submit to urine drug screens or pill counts on request;
(f) Not seek early refills or call-in prescriptions of controlled substances;
(g) To produce an official police report for any effort to replace controlled substances that were lost or stolen;
(h) If necessary, submit to third-party administration of controlled substances prescribed if determined appropriate.

In order to avoid confusion and for the benefit of both parties, the physician shall consider including in the agreement the consequences for a violation of each provision. The “prescribing agreement” and informed consent document may be combined into one document.

(4) The physician shall obtain and document a baseline urine drug screen to determine whether the medications that are being prescribed are in the patient’s system and to determine whether any un-prescribed or illegal controlled substances are in the patient’s system.

(5) If, after screening, the physician determines that the controlled substances prescribed to the patient will be used or are likely to be used other than medicinally or otherwise than for an accepted therapeutic purpose, the physician shall not prescribe controlled substances to that patient;

Obtaining Informed Consent. (1) The physician shall explain the risks and benefits of long-term use of controlled substances and obtain informed consent from the patient for such prescribing. The decision to provide controlled substances to a patient on a long-term basis should be a deliberate and conscious decision by both the physician and the patient, after full consideration of the risks and benefits of such treatment;

(2) After explaining the risks and benefits of long-term use of controlled substances, the physician shall obtain the informed consent of the patient, in a writing that specifically sets out each risk and benefit discussed with the patient, and shall include and maintain that written informed consent in the patient’s medical record. The informed consent document and any “prescribing agreement” may be combined into one document.

Initial Trial of Other Treatments: Titration. (1) Controlled substances shall only be utilized on a long-term basis after other appropriate non-controlled therapies have been attempted and have proven unsuccessful in appropriately treating the medical complaint and related symptoms. If controlled substances are utilized for a long-term basis, the physician shall prescribe or dispense controlled substances at the lowest level and for the shortest duration necessary to appropriately treat the medical complaint and related symptoms;

(2) The physician shall initially attempt, to the extent possible, to establish and document a previous attempt by another physician, in increasing order, the following steps to treat the medical complaint and related symptoms:

(a) Use of physical therapy modalities alone or use of non-steroidal anti-inflammatory medication alone;
(b) Use of physical therapy modalities in conjunction with non-steroidal anti-inflammatory medication;
(c) Use of lowest level of controlled substances considered effective to treat the medical complaint and related symptoms, as part of an opioid trial; and,

(d) Use of controlled substances in measured steps until the level of controlled substances adequately treats the medical complaint and related symptoms.

Section 4. Professional Standards for Long-Term Prescribing or Dispensing of Controlled Substances. If a physician continues to prescribe or dispense controlled substances beyond three (3) months for a specific medical complaint and related symptoms, the physician shall comply with the following mandatory professional standards:

Patient Visits. (1) The physician shall personally see the patient at least once a month initially for evaluation and review of progress. The physician may see the patient less frequently, on a schedule determined by the physician’s professional judgment after the physician has determined:

(a) The controlled substances prescribed or dispensed have been titrated to the level appropriate and necessary to treat the medical complaint and related symptoms;
(b) The controlled substances prescribed or dispensed are not causing harmful side effect; and,
(c) There is sufficient monitoring in place to ensure that the patient will not use the prescribed substances in an improper or inappropriate manner or divert them for an improper or inappropriate use.

(2) At each patient visit, the physician shall obtain a current history from the patient, shall conduct a focused physical examination, and shall perform appropriate measurable exami-

notifications as indicated in the treatment plan. The physician shall document all relevant information into the patient’s medical record.

(2) At each patient visit, the physician shall evaluate the patient’s course, including the integration of the medical complaint into the patient’s medical record. If the physician determines that the patient is exhibiting improved function, by meeting treatment goals jointly set and is responding favorably to the medical treatment, including controlled substance therapy;

(3) For patients exhibiting symptoms suggestive of mood, anxiety and/or psychotic disorders, the physician shall obtain psychiatric or psychological consultations for intervention if such condition is affecting treatment;

Managing Breakthrough Pain. (1) If a patient reports that they are experiencing episodes of “breakthrough” pain, the physician shall:

(a) Attempt to identify the trigger or triggers for such episodes;

(b) Determine whether the breakthrough pain may be adequately treated through non-controlled treatment;

(c) If the episodes continue and the non-medication treatments do not adequately address the triggers, and after considering the risks and benefits, the physician determines that additional medication is needed, the physician must take appropriate steps to minimize the improper or illegal use of the additional controlled substances by prescribing or dispensing only the amount of controlled substances needed to treat the specific medical complaint, for a definite, pre-determined time period. The physician shall also include appropriate monitoring of the additional controlled substances.

Preventive Medicine. (1) At least once a year, the physician shall perform or shall ensure that the patient’s primary treatment physician performs preventive health screening and physical examination appropriate to the patient’s gender, age, and medical condition. The physician shall ensure that the patient is provided treatment appropriate to the findings and results of such screening. The physician shall document in the patient’s medical record the annual preventive health screening performed or the results of the screening performed by the primary treating physician, the findings and results, and the treatment provided, if any;

Periodic KASPER Reviews and Monitoring Adherence. (1) At least once every three months, the physician shall obtain and review KASPER reports and assess whether the patient is properly filling the prescriptions issued and that the patient is not obtaining controlled substances from other practitioners without the physician’s knowledge and approval;

(2) If, at any time while the patient is prescribing or dispensing controlled substances to a patient, the physician obtains or receives specific information that the patient is not taking the controlled substances as directed, is diverting controlled substances, or is engaged in any improper or illegal use of controlled substances, the physician shall immediately obtain and review a KASPER report for the purposes specified in subsection (1), supra;

(3) If a KASPER report discloses that the patient is not filling the controlled substance prescriptions as directed or is obtaining controlled substances from other practitioners without the prescribing physician’s knowledge and approval, the physician shall immediately address these issues with the patient. The physician shall not prescribe or dispense any more controlled substances unless the physician has addressed the issues with the patient and has determined that it is medically appropriate and safe to continue prescribing or dispensing controlled substances to the patient;

(4) If a KASPER report discloses that the patient is obtaining controlled substances from other practitioners without the physician’s knowledge and approval, the physician shall promptly notify the appropriate law enforcement agency and the other practitioners of the relevant information from the KASPER review;

(5) The physician shall document in the patient’s medical record each time a KASPER review is performed, information obtained; and, if applicable, the patient’s account of any irregularities noted in the review, and, the physician’s determination of what actually occurred;

(6) If the physician should determine that it is medically appropriate and safe to continue or resume prescribing or dispensing controlled substances to the patient after assessing their failure to fill prescriptions as directed or their obtaining controlled substances from other practitioners without the physician’s knowledge and approval, the physician shall fully document in the patient’s medical record the physician’s rationale for resuming such prescribing or dispensing, to include an analysis of the risks and benefits of that decision, along with the increased monitoring or oversight measures being put into place to ensure controlled substances are not illegally diverted or used;

(7) If the physician shall obtain consultative assistance from a specialist when appropriate;

Random Pill Counts. (1) When appropriate, the physician shall conduct unannounced random pill counts to determine whether the patient is taking the controlled substances as directed;

(2) If the physician discovers irregularity in the pill count, the physician shall immediately address those findings with the patient. The physician shall include an analysis of the risks and benefits of that decision, along with the increased monitoring or oversight measures being put into place to ensure controlled substances are not illegally diverted or used;

(3) If the physician determines that the patient has diverted controlled substances, the physician should immediately discontinue the prescribing or dispensing of controlled substances to that patient, if medically feasible. If it is not medically feasible to immediately discontinue the prescribing or dispensing of controlled substances, the physician shall immediately begin a tapering process to safely discontinue prescribing or dispensing controlled substances, after putting in place specific protections that will ensure that no further diversion occurs, such as requiring storage and administration of the controlled substances to the patient by a person designated by the physician, with additional random pill counts;

(4) The physician shall fully document the results of each pill count conducted, the physician’s determination of the reasons for any shortage, and the physician’s decisions regarding continued treatment in the patient’s medical record.

Urine Drug Screens. (1) During the course of long-term prescribing or dispensing of controlled substances, the physician shall utilize a system that ensures that the patient is taking prescribed medications or taking illegal substances or medications not prescribed by the physician;

(2) If the patient tested negative for controlled substances prescribed or dispensed by the physician and confirmatory
testing substantiates a "red flag," the physician shall do one of the following:
(a) Do a controlled taper;
(b) Stop prescribing or dispensing controlled substances immediately; or,
(c) Refer the patient to an addiction specialist or drug treatment program, depending upon the circumstances.
(2) The physician shall discontinue controlled substance treatment and/or refer the patient to addiction management if one or more of the following conditions exist:
(a) There has been no improvement in function and response to the medical complaint and related symptoms;
(b) Controlled substance therapy has produced significant adverse effects; and/or
(c) The patient exhibits drug-seeking behavior or diversion.

Section 5. Professional Standards for Prescribing or Dispensing Controlled Substances in an Emergency Department Setting. The following professional standards apply to physicians who prescribe or dispense controlled substances in an emergency department setting:
(1) Before prescribing or dispensing a controlled substance in an emergency department setting, the physician shall:
(a) Obtain an appropriate medical history relevant to the medical complaint and conduct a physical examination of the patient relevant to the medical complaint and related symptoms; and document the information in the patient’s medical record;
(b) Obtain and review a KASPER report for all available data on the patient, document relevant information in the patient’s medical record, and consider the available information to determine whether it is medically appropriate and safe to prescribe or dispense controlled substances. If the physician cannot obtain a KASPER report for review in sufficient time to make the determination, whether to prescribe or dispense controlled substances, the physician shall not prescribe or dispense controlled substances unless demonstrated and documented in the patient’s medical record that the medical necessity for and safety in prescribing or dispensing the controlled substance substantially outweigh the risk of unlawful use or diversion of the controlled substances, particularly considering the nature and severity of the patient’s presenting complaint;
(c) After examining the benefits and risks of prescribing or dispensing controlled substances to the patient, including non-treatment and no-treatment options, treatment, and considering that it is medically appropriate to prescribe or dispense the controlled substances in the amount specified, and document that decision in the patient’s record and, if appropriate, the reasoning underlying that decision.
(2) The physician is strongly discouraged from and shall not routinely:
(a) Administer intravenous and/or intramuscular controlled substances for the relief of acute exacerbations of chronic pain;
(b) Provide replacement prescriptions for controlled substances that were lost, destroyed, or stolen;
(c) Provide replacement doses of methadone, suboxone, or subutex for patients in a treatment program;
(d) Prescribe long-acting or controlled-release controlled substances, such as OxyContin, fentanyl patches, or methadone or replacement doses of such medications;
(e) Administer Demerol (Meperidine) to the patient;
(f) Prescribe or dispense more than a three (3) day supply of controlled substances, with no refills.
(2) If the physician determines that exceptional circumstances exist, the physician shall document in the patient’s medical record the exceptional circumstances that warranted such prescribing or dispensing.
(4) The physician shall ensure that each patient receiving controlled substances by dispensing or prescription is given is informed, by handout or display signage, of the standards established in this regulation regarding the prescribing or dispensing of controlled substances.

Section 6. Professional Standards for Documentation of Patient Assessment, Education, Treatment Agreement, and Informed Consent. The physician shall document all relevant information in a patient’s medical record in a legible manner and in sufficient detail to provide for:
(a) Meaningful diagnosis and treatment of the patient;
(b) The safe and medically appropriate assumption of care by another physician at any given time; and,
(c) This board to determine whether the physician is conforming to professional standards for prescribing or dispensing controlled substances and other relevant professional standards. Such information includes, but is not limited to:
(a) Medical history and physical examinations;
(b) Diagnostic and laboratory test results and therapeutic outcomes;
(c) Evaluations and consultations;
(d) Records of past treatment outcomes including indicators of benefits, such as functional outcomes, and indicators of risk, such as adverse effects;
(e) Medications (including date prescribed, type, dosage, strength and quantity);
(f) Intensity levels of medical complaint and related symptoms;
(g) Subjective complaints of the patient;
(h) Objective findings related to subjective complaints, including impact on functioning and quality of life;
(i) Diagnostic impressions, and potential treatment options;
(j) Treatment objectives;
(k) Discussion of risks and benefits;
(l) Informed consent;
(m) Instructions and agreements; and
(n) Periodic review of treatments, including adverse effects, functional goals, and any other outcomes that reflect benefits or problems with the treatment.
(2) If a physician is unable to conform to professional standards for prescribing or dispensing controlled substances, to the professional standards established by KRS 218A.172, or to other professional standards due to circumstances beyond their control, the physician shall appropriately document such circumstances and the physician’s response to the inability to conform to the specific standards and the impact upon the continuing care of the patient.

Section 7. Responsibility to Educate Patients Regarding the Dangers of Controlled Substance Use. (1) It is the acceptable and prevailing medical practice in the Commonwealth of Kentucky for physicians prescribing or dispensing controlled substances to educate patients receiving controlled substances about the following subjects through verbal or written counseling:
(a) Proper use;
(b) Impact upon driving and work safety;
(c) Effect of use during pregnancy;
(d) Potential for overdose and appropriate response to overdose;
(e) Safe storage of controlled substances;
(f) Proper disposal;
(2) Educational materials relating to these subjects may be found on the board’s website, www.kbml.ky.gov, and are incorporated by reference into this provision.

Section 8. Violations. (1) Any violation of the professional standards established in this regulation or in KRS 218A.172 shall constitute a violation of KRS 311.595(12) and (9), which
may result in the imposition of disciplinary sanctions pursuant to KRS 311.565;

Section 1. Nutrients Criteria. Nutrients shall not be elevated in a surface water to a level that results in a eutrophication problem. Limits in lakes and reservoirs and their tributaries, and other waters where eutrophication problems may exist, shall be established to protect surface waters of the Commonwealth and, thus, protect the ecological integrity of these waters. The limits established are based on the effects of temperature on the aquatic biota that utilize oxygen in the aquatic system. Nutrients shall not be elevated to an extent that they will adversely affect downstream uses.

(a) The criteria are established to protect human health from fish consumption and for protection of aesthetics. Nutrients shall not be elevated to an extent that they will adversely affect downstream uses.

(b) Protection of aesthetics shall be the harmonic mean of the values in the following table:

(2) On occasion, surface water quality may be outside of the limits established to protect designated uses because of natural conditions. If this occurs during periods when stream flows are below the flow that is used by the cabinet to establish effluent limitations for wastewater treatment facilities, a discharge shall not be considered a contributor to instream violations of water quality standards, if treatment results in compliance with permit requirements.

(3) Stream flows for water quality-based permits. The following stream flows shall be utilized when deriving KPDES permit limitations to protect surface waters for the listed uses and purposes:

(a) Aquatic life protection shall be 7Q10.

(b) Water-based recreation protection shall be 7Q10.

(c) Domestic water supply protection shall be determined at points of withdrawal as follows:

1. The harmonic mean for cancer-linked substances; and
2. 7Q10 for noncancer-linked substances.

(d) Human health protection from fish consumption and for changes in radionuclides shall be the harmonic mean; and

(e) Protection of aesthetics shall be 7Q10.

Section 4. Aquatic Life. (1) Warm water aquatic habitat. The following parameters and associated criteria shall apply for the protection of productive warm water aquatic communities, fowl, animal wildlife, arboreal growth, and industrial uses:

(a) Natural alkalinity as CaCO3 shall not be reduced by more than twenty-five (25) percent.

(b) pH shall not be less than six and zero-tenths (6.0) nor more than nine and zero-tenths (9.0) and shall not fluctuate more than one and zero-tenths (1.0) pH unit over a period of twenty-four (24) hours.

(c) Flow shall not be altered to a degree that will adversely affect the aquatic community.

(d) Temperature shall not exceed thirty-one and seven-tenths (31.7) degrees Celsius (eighty-nine (89) degrees Fahrenheit).

1. The normal daily and seasonal temperature fluctuations that existed before the addition of heat due to other than natural causes shall be maintained.

2. The cabinet may determine allowable surface water temperature on a site-specific basis utilizing available data that shall be based on the effects of temperature on the aquatic biota that utilize specific surface waters of the Commonwealth and that may be affected by person-induced temperature changes.

3. A successful demonstration concerning thermal discharge limits carried out pursuant to Section 316(a) of the Clean Water Act, 33 U.S.C. 1326, shall constitute compliance with the temperature requirements of this subsection. A successful demonstration assures the protection and propagation of a balanced indigenous population of shellfish, fish, and wildlife in or on the water into which the discharge is made;

(e) Dissolved oxygen.

1. a. Dissolved oxygen shall be maintained at a minimum concentration of five and zero-tenths (5.0) mg/L as a twenty-four (24) hour average in water with WAH use.

2. The dissolved oxygen concentration shall be measured at mid-depth in waters having a total depth of ten (10) feet or less and at representative depths in other waters;

(f) Total dissolved solids or specific conductance. Total dissolved solids or specific conductance shall not be changed to the extent that the indigenous aquatic community is adversely affected;

(h) Sediment. The addition of settleable solids that may alter the stream bottom so as to adversely affect productive aquatic communities shall be prohibited;

(i) Ammonia. The concentration of the un-ionized form shall not be greater than 0.05 mg/L at any time after mixing. Un-ionized ammonia shall be determined from values for total ammonia-N, in mg/L, pH and temperature, by means of the following equation:

\[ Y = 1.2 \times \frac{\text{Total ammonia-N}}{1 + 10^{pK_a-pH}} \]

Where:

- \( Y \) = un-ionized ammonia (mg/L);
- \( pK_a \) = 0.9092 + (2730/(273.2 + T))
- \( T \) = temperature, degrees Celsius.

3. In the absence of acute criteria for pollutants listed in Table 1 of Section 6 of this administrative regulation, for other substances known to be toxic but not listed in this administrative regulation, for whole effluents that are acutely toxic, the allowable instream concentration shall not exceed the LC50; one-third (1/3) LC50 concentration derived from toxicity tests on representative indigenous or indicator aquatic organisms or exceed three-tenths (0.3) acute toxicity units.

b. A chronic toxicity unit of 1.00 utilizing the LC50.

3. In the absence of acute criteria for pollutants listed in Table 1 of Section 6 of this administrative regulation, for other substances known to be toxic but not listed in this administrative regulation, for whole effluents that are acutely toxic, the allowable instream concentration shall not exceed the LC50; one-third (1/3) LC50 concentration derived from toxicity tests on representative indigenous or indicator aquatic organisms or exceed three-tenths (0.3) acute toxicity units.

5. Allowable instream concentrations for specific pollutants for the protection of warm water aquatic habitat are listed in Table 1 of Section 6 of this administrative regulation. These concentrations are based on protecting aquatic life from acute and chronic toxicity and shall not be exceeded; and

(k) Total residual chlorine. Instream concentrations for total residual chlorine shall not exceed an acute criteria value of nineteen (19) mg/L or a chronic criteria value of eleven (11) mg/L.

(3) Cold water aquatic habitat. The following parameters and criteria are for the protection of productive cold water aquatic communities and streams that support trout populations, whether self-sustaining or reproducing, on a year-round basis. The criteria adopted for the protection of warm water aquatic life also apply to the protection of cold water habitats with the following additions:

(a) Dissolved oxygen.

1. A minimum concentration of six and zero-tenths (6.0) mg/L as a twenty-four (24) hour average and five and zero-tenths (5.0) mg/L as an instantaneous minimum shall be maintained.

2. In lakes and reservoirs that support trout, the concentration of dissolved oxygen in waters below the epilimnion shall be kept consistent with natural water quality; and

(b) Temperature. Water temperature shall not be increased through human activities above the natural seasonal temperatures.

Section 5. Domestic Water Supply Use. Maximum allowable instream concentrations for specific substances, to be applicable at the point of withdrawal, as established in 401 KAR 10:026, Section 5(2)(b), Table B, for use for domestic water supply from surface water sources are specified in Table 1 of Section 6 of this administrative regulation and shall not be exceeded.

Section 6. Pollutants. (1) Allowable instream concentrations of pollutants are listed in Table 1 of this section.

Section 7. Recreational Waters. (1) Primary contact recreation water. The following criteria shall apply to waters designated as primary contact recreation use during the primary contact recreation season of May 1 through October 31:

(a) Fecal coliform content or Escherichia coli content shall not exceed 200 colonies per 100 ml or 130 colonies per 100 ml respectively as a geometric mean based on not less than five (5) samples taken during a thirty (30) day period. Content also shall not exceed 400 colonies per 100 ml in twenty (20) percent or more of all samples taken during a thirty (30) day period for fecal coliform or 240 colonies per 100 ml for Escherichia coli. Fecal coliform criteria listed in subsection (2)(a) of this section shall apply during the remainder of the year; and

(b) pH shall be between six and zero-tenths (6.0) to nine and zero-tenths (9.0) and shall not change more than one and zero-tenths (1.0) pH unit within this range over a period of twenty-four (24) hours.

(2) Secondary contact recreation water. The following criteria shall apply to waters designated for secondary contact recreation use during the entire year:

(a) Fecal coliform content shall not exceed 1,000 colonies per 100 ml as a thirty (30) day geometric mean based on not less than five (5) samples; nor exceed 2,000 colonies per 100 ml in twenty (20) percent or more of all samples taken during a thirty (30) day period; and

(b) pH shall be between six and zero-tenths (6.0) to nine and zero-tenths (9.0) and shall not change more than one and zero-tenths (1.0) pH unit within this range over a period of twenty-four (24) hours.

Section 8. Outstanding State Resource Waters. This designation category includes certain unique waters of the commonwealth.

(1) Water for inclusion.

(a) Automatic inclusion. The following surface waters shall automatically be included in this category:

1. Waters designated pursuant to [under] the Kentucky Wild Rivers Act, KRS 146.200-146.360;

2. Waters designated pursuant to [under] the Federal Wild and Scenic Rivers Act, 16 U.S.C. 1271-1287;

3. Waters identified under the Kentucky Nature preserves Act, KRS 146.410-146.530, which are contained within a formally dedicated nature preserve or are published in the registry of natural areas in accordance with 409 KAR 2.080 and concurred upon by the cabinet; and

(b) Permissible consideration. Other surface waters shall be considered for inclusion in this category if:

1. The surface waters flow through or are bounded by state or federal forest land, or are of exceptional aesthetic or ecological value or are within the boundaries of national, state, or local government parks, or are a part of a unique geological, natural, or historical area recognized by state or federal designation; or

2. The surface water is a component part of an undisturbed or relatively undisturbed watershed that can provide basic scientific data and possess outstanding water quality characteristics, or fulfill two (2) of the following criteria:

   a. Support a diverse or unique native aquatic flora or fauna;

   b. Possess physical or chemical characteristics that provide an unusual and uncommon aquatic habitat; or

   c. Provide a unique aquatic environment within a physiographic region.

(2) Outstanding state resource waters protection. The designation of certain waters as outstanding state resource waters shall fairly and fully reflect those aspects of the waters for which the designation is proposed. The cabinet shall determine water quality criteria for these waters as follows:

(a) At a minimum, the criteria of Section 2 and Table 1 of Section 6 of this administrative regulation and the appropriate criteria associated with the stream use designation assignments in 401 KAR 10.026, shall be applicable to these waters.

(b) Outstanding state resource waters that are listed as Exceptional Waters in 401 KAR 10:030, Section 1(2) shall have dissolved oxygen maintained at a minimum concentration of six and zero-tenths (6.0) mg/L as a twenty-four (24) hour average and an instantaneous minimum concentration of not less than five and zero-tenths (5.0) mg/L.

(c) If the values identified for an outstanding state resource
water are dependent upon or related to instream water quality, the cabinet shall review existing water quality criteria and determine if additional criteria or more stringent criteria are necessary for protection, and evaluate the need for the development of additional data upon which to base the determination.

2. Existing water quality and habitat shall be maintained and protected in those waters designated as outstanding state resource waters that support federally threatened and endangered species of aquatic organisms, unless it can be demonstrated that lowering of water quality or a habitat modification will not have a harmful effect on the threatened or endangered species that the water supports.

(d) Adoption of more protective criteria in accordance with this section shall be listed with the respective stream segment in 401 KAR 10:026.

3. Determination of designation.

(a) A person may present a proposal to designate certain waters pursuant to this section. Documentation requirements in support of an outstanding state resource water proposal shall contain those elements outlined in 401 KAR 10:026, Section 3(3)(a) through (h).

(b) The cabinet shall review the proposal and supporting documentation to determine whether the proposed waters qualify as outstanding state resource waters within the criteria established by this administrative regulation.

2. The cabinet shall document the determination to deny or to propose redesignation, and a copy of the decision shall be served upon the petitioner and other interested parties.

(c) After considering all of the pertinent data, a redesignation, if appropriate, shall be made pursuant to 401 KAR 10:026.

Section 9. Water Quality Criteria for the Main Stem of the Ohio River.

(1) The following criteria apply to the main stem of the Ohio River from its juncture with the Big Sandy River at Mile 317.1 to its confluence with the Mississippi River, and shall not be exceeded.

(2) These waters shall be subject to all applicable provisions of 401 KAR 10:001, 10:026, 10:029, and 10:030, and this administrative regulation, except for those criteria in paragraphs (a) and (b) of this subsection.

(a) Dissolved oxygen. Instream concentrations shall average at least five and zero-tenths (5.0) mg/L per calendar day and shall not be less than four and zero-tenths (4.0) mg/L except during the April 15 - June 15 spawning season when a minimum of five and one-tenth (5.1) mg/L shall be maintained.

(b) Maximum allowable instream concentrations for nitrite-nitrogen for the protection of human health shall be one and zero-tenths (1.0) mg/L and shall be met at the edge of the assigned mixing zone.

Section 10. Exceptions to Criteria for Specific Surface Waters.

(1) The cabinet may grant exceptions to the criteria contained in Sections 2, 4, 6, 7, 8, and 9 of this administrative regulation for specific surface water upon demonstration by an applicant that maintenance of applicable water quality criteria is not attainable or scientifically valid but the use designation is still appropriate.

(2) The analysis shall show that the water quality criteria cannot be reasonably achieved, either on a seasonal or year-round basis due to natural conditions or site-specific factors differing from the conditions used to derive criteria in Sections 2, 4, 6, 7, 8, and 9 of this administrative regulation.

(a) Site-specific criteria shall be developed by the applicant utilizing toxicity tests, indicator organisms, and application factors that shall be consistent with those outlined in Chapter 3 of Water Quality Standards Handbook, EPA, 1994.

(b) In addition, an applicant shall supply the documentation listed in 401 KAR 10:026, Section 3.

(3) An exception to criteria listed in Table 1 of Section 6 of this administrative regulation for the protection of human health from the consumption of fish tissue may be granted if it is demonstrated that natural, ephemeral, intermittent, or low flow conditions or water levels preclude the year-round support of a fishery, unless these conditions may be compensated for by the discharge of sufficient volume of effluent discharges.

(4) Before granting an exception to water quality criteria, the cabinet shall ensure that the water quality standards of downstream waters shall be attained and maintained.

(5) All exceptions to water quality criteria shall be subject to review at least every three (3) years.

6. Exceptions to water quality criteria shall be adopted as an administrative regulation by listing them with the respective surface water in 401 KAR 10:026.

Section 11. Exceptions to Criteria for Individual Dischargers.

(1) An exception to criteria may be granted to an individual discharger based on a demonstration by the discharger that KPDES permit compliance with existing instream criteria cannot be attained because of factors specified in 401 KAR 10:026, Section 2(4)(a) through (f).

(2) The demonstration shall include an assessment of alternative pollution control strategies and biological assessments that indicated designated uses are being met.

(3) Before granting an exception, the cabinet shall ensure that the water quality standards of downstream waters shall be attained and maintained.

(4) All exceptions shall be submitted to the cabinet for review at least every three (3) years. Upon review, the discharger shall demonstrate to the cabinet the effort the discharger made to reduce the pollutants in the discharge to levels that would achieve existing applicable water quality criteria.

(5) The highest level of effluent quality that can be economical- and technologically achieved shall be ensured while the exception is in effect.

(6) The Kentucky Pollution Discharge Elimination System permitting program shall be the mechanism for the review and public notification of intentions to grant exceptions to criteria.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
Contact Person: Sandy Gruzesky, Director
(1) Provide a brief summary of:
(a) What this administrative regulation does: This adminis-trative regulation establishes water quality standards for surface wa- ters of the Commonwealth and the associated water quality criteria necessary to protect designated uses.
(b) The necessity of this administrative regulation: This adminis-trative regulation is necessary for the protection of public health, aquatic habitat, and designated uses of the surface waters of the Commonwealth.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to KRS 224.10-100, which requires the cabinet to develop and conduct a comprehensive program for the management of water resources and to provide for the prevention, abatement, and con-trol of water pollution. This administrative regulation and 401 KAR 10:001, 10:026, 10:029, and 10:030 establish procedures to pro-
tes the surface waters of the Commonwealth, and thus manage water resources and prevent water pollution. This administrative regulation describes the criteria applied in 401 KAR 10:026 to the surface waters of the Commonwealth. This administrative regulation establishes water quality standards that consist of designated legitimate uses of the surface waters of the Commonwealth and the associated water quality criteria necessary to protect those uses.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the administration of the statutes by providing specific criteria and water quality standards for the protection of surface waters of the Commonwealth as required by the authorizing statutes.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment deletes a citation to an outdated Executive Order 12. This amendment amends the cabinet’s nutrient criteria, including amending after comment the nutrient criterion to further clarify the preventative nature of the narrative nutrient criterion; updates water quality criteria, specifically acroclin and phenol, to reflect scientific developments; and eliminate the Warm Water Aquatic Habitat acute criterion for Selenium. EPA has previously expressed concern regarding the methodology used by EPA to develop this criterion, that the criterion results in acute toxicity, it is a project, revised to chronic criterion and is not based on empirical data. The elimination of the acute selenium criterion recognizes that on June 2, 2000 in accordance with a ruling by the U. S. Court of Appeals, EPA withdrew the acute criterion for selenium it had promulgated for the Great Lakes basin. Until the EPA promulgates new criteria that accounts for the latest science and complexity of the causative selenium species that result in acute toxicity, the cabinet is proposing to withdraw that criterion. This amendment also deletes a criterion for automatic inclusion for a designation of Outstanding State Water. To clarify that dissolved oxygen is an instream criterion, and is amended after comment to address a legacy typo in the water quality standard for Polychlorinated Biphenyls (PCBs).

(b) The necessity of the amendment to this administrative regulation: The amendment to water quality criteria is necessary to revise criteria to protect human health and to meet federal recommendations. For Kentucky to maintain its delegation over the NPDES permit program, the Clean Water Act requires that Kentucky review its water quality standards every three years and comply with the programmatic requirements of 40 C.F.R. Part 131. This administrative regulation is being amended after comment as a part of the triennial review. The other amendments to the regulation simply clarify the cabinet’s interpretation of this administrative regulation. Other minor amendments are proposed to comply with regulation drafting requirements.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to KRS 224.10-100, which requires the cabinet to develop and conduct a comprehensive program for the management of water resources and to provide for the prevention, abatement, and control of water pollution. This amendment establishes procedures to protect the surface waters of the Commonwealth, and thus protect water resources. This amendment establishes water quality standards that consist of designated legitimate uses of the surface waters of the Commonwealth and the associated water quality criteria necessary to protect those uses.

(1) Provide a brief summary of:
(a) What this administrative regulation does: Establishes the protocols for conducting an execution by lethal injection.
(b) The necessity of this administrative regulation: KRS Chapter 431.220 establishes lethal injection as one of the methods of carrying out the death penalty. KRS 196.035 and 197.020 authorize the Department of Justice and Public Safety Cabinet and the Department of Corrections to promulgate administrative regulations for the proper administration of the functions of the cabinet or any division in the cabinet. The Department of Corrections is responsible for the execution of death penalties. This amendment addresses that responsibility.
(c) How the amendment will assist in the effective administration of the statutes: The amendment revises the protocols for execution by lethal injection and expands the protocols to include more than one method of lethal injection.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendment revises the protocols for execution by lethal injection and expands the protocols to include more than one method of lethal injection.
(b) The necessity of the amendment to this administrative regulation: This amendment addresses issues in pending litigation.
(c) How the amendment conforms to the content of the authorizing statutes: Statutes authorize the Justice and Public Safety Cabinet and the Department of Corrections to promulgate administrative regulations for the proper administration of the functions of the cabinet or any division in the cabinet. The Department of Corrections is responsible for the execution of death penalties. This amendment addresses that responsibility.
(d) How the amendment will assist in the effective administration of the statutes: The amendment revises the protocols for execution by lethal injection and expands the protocols to include more than one method of lethal injection.

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Except for the Department of Corrections personnel, none of the entities listed above are mandated to take any action to comply with this administrative regulation. Department of Corrections employees will be trained to comply with it.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Again, this administrative regulation is primarily applicable only to personnel of the Department of Corrections. (5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: This administrative regulation is promulgated in compliance with the Supreme Court of Kentucky decision in Bowling v. Kentucky Department of Corrections, 301 S.W.3d 478 (Ky. 2009). The execution process has been in effect for many years, so this process will not be newly implemented. The current cost to conduct an execution is approximately $81,438.

(6) What is the source of funding to be used for the implementation and enforcement of this administrative regulation: Tax dollars designated to the state agencies listed in 4(b) above, via the biennial budget. For the Lyon County Sheriff’s Office and Lyon County Ambulance Service, tax dollars designated to them by the county.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change, if it is an amendment: This regulation impacts how the Kentucky Department of Corrections and other entities listed in 4(b) above operate, but should not necessitate an increase in funding. No fees are involved.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: No fees are established or increased.

(Amended After Comments)

704 KAR 7:160. Use of physical restraint and seclusion in public schools.
RELATES TO: KRS 156.160(1)[h],[g], 158.444(1)
STATUTORY AUTHORITY: KRS 156.160(1)[h],[g], 156.070, 158.444 (1)

NECESSITY, FUNCTION, AND CONFORMITY: KRS 156.160(1)[h],[g] and 158.444 (1) give the Kentucky Board of Education the authority to promulgate administrative regulations related to medical inspection, physical and health education and recreation, and other regulations necessary or advisable for the physical welfare and safety of the public school children. The first responsibility of Kentucky schools is to promote learning in a safe and healthy environment for all children, teachers, and staff. The improper use of physical restraint and seclusion by districts directly affects the psychological and physical welfare of students and may result in psychological harm, physical harm, or death of students. Because there is no evidence that physical restraint or[and] seclusion is effective in reducing the occurrence of inappropriate behaviors, physical restraint or seclusion should never be used except in situations where a child’s behavior poses immi-
nent danger of serious physical harm to self or others. Physical restraint and seclusion should be avoided to the greatest extent possible without endangering the safety of students and school personnel.[staff]. This administrative regulation establishes the requirements for the use of physical restraint and seclusion in districts and the notification and data reporting requirements for the use of physical restraint and seclusion in districts.

(9)”Mechanical restraint” means the use of any device or equipment to restrict a student’s freedom of movement, but does not mean:

(a)[include] Devices implemented by trained school personnel, or utilized by a student that have been prescribed by an appropriate medical or related services professional that are used for the specific and approved purposes for which such devices were designed;

(a)[include] Temporary touching or holding of the hand, wrist, arm, shoulder, or back for the purpose of encouraging a student to move voluntarily to a safe location;

(c) Less restricting physical contact or redirection to promote student safety; and

(d) Physical guidance or prompting when teaching a skill or when redirecting the student’s attention.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Kevin C. Brown

(1) Provide a brief summary of:
(a) What this administrative regulation does: This adminis-trative regulation establishes the requirements for appropriate use of physical restraint and seclusion in districts and the notification and data reporting requirements for the use of physical restraint and seclusion in districts.
(b) The necessity of this administrative regulation: This adminis-trative regulation is necessary due to the concerns about the increasing number of injuries and deaths across the nation related to the use of physical restraint and seclusion and the increase in complaints in Kentucky in recent years related to physical restraint and seclusion in Kentucky public schools.
(c) How this administrative regulation conforms to the content of the authorizing statute: KRS 156.160(1)(h) and KRS 158.444(1) give the Kentucky Board of Education the authority to promulgate administrative regulations related to medical inspection, physical and health education and recreation, and other regulations neces-sary or advisable for the physical welfare and safety of the public school children. The first responsibility of Kentucky schools is to ensure that schools promote learning in a safe and healthy envi-ronment for all children, and school personnel. The improper use of physical restraint and seclusion by districts directly affects the psy-chological and physical welfare of students and may result in psy-chological or physical harm or even death of students.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This adminis-trative regulation[will outline] requirements for the use of physical restraint and seclusion so that the safety of children and school personnel will not be compromised.

(2) If this is an amendment to an existing administrative regula-tion, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: Not an amendment.
(b) The necessity of the amendment to this administrative regulation: Not an amendment.
(c) How the amendment conforms to the content of the author-izing statute: Not an amendment.
(d) How the amendment will assist in the effective administra-tion of the statutes: Not an amendment.

(3) List the type and number of individuals, businesses, organi-zations, or state and local governments affected by this adminis-trative regulation: All public school districts in Kentucky will be im- pacted by this administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this adminis-trative regulation, if new, or by the change, if it is an amendment, including: The proposed regulation will impact schools and districts by providing the detail necessary to carry out their roles and re-sponsibilities related to physical restraint and seclusion in public schools. The training requirement within the regulation may be additional for some districts but other schools and districts have indicated that they already train their school personnel in de-escalation techniques and provide more intensive training for a core team that may physically restrain students. School districts will need to revise policies and procedures that do not align with the regulation.

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: School districts will need to train school personnel and collect data as outlined by the regulation and will need to revise policies and procedures to align with the regulation’s requirements.

(b) In complying with this administrative regulation or amend-ment, how much will it cost each of the entities identified in ques-tion (3): If the school district is not currently training a core team of school personnel in physical restraint, the estimated cost will be $1000 per person for initial training and $300 per follow up training. The district may train the entire core team at a school if they choose or they may implement a train-the-trainer model and have district trained and certified school personnel train other certified school personnel train other school personnel in order to reduce the financial burden on the district.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Research shows that when best practices such as the ones outlined in the regulation are imple-mented, the number of incidents of physical restraint and seclusion decrease due to the change in culture of the school and a reduc-tion in the number of escalated and dangerous situations. Also, the number of incidents of injury for students and school personnel decrease when implementing these best practices.

(5) Provide an estimate of how much it will cost the administra-tive body to implement this administrative regulation:
(a) Initially: The proposed regulation will cost the Department in increased staff time to prepare online de-escalation training that can be accessed free of charge by all districts to supplement their onsite training.
(b) On a continuing basis: The proposed regulation will cost the Department in increased staff time to provide technical assistance regarding the requirements of the regulation. The majority of the technical assistance can be provided by the regional special edu-caction cooperative infrastructure already in place.

(6) What is the source of the funding to be used for the imple-mentation and enforcement of this administrative regulation: Gen-eral funds and IDEA funds.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regula-tion, if new, or by the change if it is an amendment: No increase
will be necessary.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation does not establish fees or directly or indirectly increase any fees.

(9) TIERING: Is tiering applied? Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all school districts.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(1) What units, parts, or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? School districts.

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 156.160(1)(h) and KRS 158.444(1) and federal law, The Individuals with Disabilities Education Act (IDEA), which requires students to be placed in the "least restrictive environment."

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. If school districts have not already been training a core team to implement physical restraint, they will need to identify that core team in each school and, using the train-the-trainer model, train those school personnel. Also, they will need to revise policies and procedures regarding physical restraint and seclusion. Therefore, an increase in expenditure the first year could result.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year the administrative regulation is to be in effect? None.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? None.

(c) How much will it cost to administer this program for the first year? If the school district is not currently training a core team of staff in physical restraint, the estimated cost will be $1,000 per staff member for initial training. The district may train the entire core team at a school if they choose or they may implement a train-the-trainer model and have directly trained staff and certified staff train those school personnel. Also, they will need to revise policies and procedures regarding physical restraint and seclusion. Therefore, an increase in expenditure the first year could result.

(d) How much will it cost to administer this program for subsequent years? If the school district is not currently training a core team of staff in physical restraint, the estimated cost will be $300 per staff member for follow up training.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Revenues (+/-):

Expenditures (+/-):

Other Explanation: If school districts have not already been training a core team to implement physical restraint, they will need to identify that core team in each school and, using the train-the-trainer model, train those school personnel. Also, they will need to revise policies and procedures regarding physical restraint and seclusion. Therefore, an increase in expenditure the first year could result.

NECESSITY, FUNCTION, AND CONFORMITY: KRS 216B.042 requires the Cabinet for Health and Family Services to promulgate administrative regulations necessary for the proper administration of the licensure function, which includes establishing licensure standards and procedures to ensure safe, adequate, and efficient health facilities and health services. KRS 216B.105 allows the cabinet to deny, revoke, modify, or suspend a license issued by the cabinet if it finds that there has been a substantial failure to comply with the provisions of KRS Chapter 216B or this administrative regulation. REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Claudia Johnson, Dr. Stephen Hall, Stuart Owen
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the service and coverage policies for the current Medicaid Supports for Community Living (SCL) waiver program. The Department for Medicaid Services (DMS) is implementing a new version of the SCL waiver program. Service and coverage policies for the new version will be established in 907 KAR 12:010 and reimbursement policies will be established in 907 KAR 12:020. Individuals will transition from the current SCL waiver program to the new SCL waiver program during the month of the recipient's next birthday. The service and coverage policies established in this administrative regulation shall continue to apply to services provided to individuals receiving services under this regulation. At the time that all individuals have transitioned to the new SCL waiver program, this administrative regulation shall become null and void.
(b) The necessity of this administrative regulation: The administrative regulation is necessary to establish service and coverage policies for the original Medicaid SCL waiver program until individuals receiving services under this regulation have transitioned to the new SCL waiver program.
(c) How this administrative regulation conforms to the content of the authorizing statutes: The administrative regulation conforms to the content of the authorizing statutes by establishing Medicaid SCL waiver program service and coverage policies for the original SCL waiver program until individuals transition to the new SCL waiver program.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the authorizing statutes by establishing Medicaid SCL waiver program service and coverage policies for the original SCL waiver program until individuals transition to the new SCL waiver program.
(e) How this administrative regulation is expected to be amended and the proposed amendments: This administrative regulation will be amended to include new SCL waiver program service and coverage policies.
(f) How this amendment will change this existing administrative regulation: The amendment establishes that the policies established in this administrative regulation will apply to current SCL waiver participants until the individuals transition to the new SCL waiver program during the month of their next birthday. The policies established in a new SCL waiver service and coverage regulation (907 KAR 12:010) will apply to individuals once they transition to the new version of the waiver. The amendment after comments clarifies that the policies and requirements established in this administrative regulation regarding covered service (including consumer directed option services) shall apply to individuals receiving services via this administrative regulation (until they transition to receiving services via 907 KAR 12:010); and the policies and requirements regarding SCL recipient eligibility, enrollment, and termination established in this administrative regulation shall apply until individuals apply for or receive services pursuant to 907 KAR 12:010; however, the SCL waiver service provider participation policies and requirements, incident reporting policies and requirements, SCL waiting list policies and requirements, and electronic signature policies and requirements established in 907 KAR 12:010 apply to all SCL waiver service participants and providers.

(b) The necessity of the amendment to this administrative regulation: Due to the large number of SCL waiver program recipients – over 200 individuals – DMS is unable to transition everyone to the new SCL waiver program concurrently; therefore, amending this regulation to establish a phased in approach is necessary. The amendment after comments is necessary to clarify the policies in this administrative regulation which apply versus the policies established in 907 KAR 12:010.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the content of the authorizing statutes by establishing a transition period from the current SCL waiver program to a new model of it. The amendment after comments conforms to the content of the authorizing statutes by clarifying policies and requirements.

(d) How the amendment will assist in the effective administration of the statutes: The amendment will assist in the effective administration of the authorizing statutes by establishing a transition period from the current SCL waiver program to a new model of it. The amendment after comments will assist in the effective administration of the authorizing statutes by clarifying policies and requirements.

(2) The necessity of this administrative regulation: The administrative regulation conforms to the content of the authorizing statutes by establishing Medicaid SCL waiver program service and coverage policies for the original SCL waiver program.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Providers and recipients of SCL waiver services will be affected by the amendment. Currently, there are 202 SCL waiver service providers and as of November 1, 2012 there were 3,696 recipients in the SCL waiver program.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) The actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. The current policies will continue to apply until an SCL waiver recipient transitions to the new waiver policies established in 907 KAR 12:010; thus, providers will need to follow the policies of this regulation for those still governed by it.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? No cost is imposed.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? Providers will benefit by receiving reimbursement for services and recipients will benefit from the phased-in by being able to continue receiving SCL waiver services (under this regulation) rather than shutting down this current version and implementing the new version at once – forcing many to receive no SCL waiver services while they wait to be approved for the new version.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: The cost of the SCL waiver program to DMS for the state fiscal year that ended June 30, 2012, was $2,64,720,472.60 (state and federal funds combined.) The biennial budget enacted during the 2012 session of the general assembly allocated $2,200,000 in state funds (to be matched with $5,311,100 in federal funds) for the state fiscal year beginning July 1, 2012 and ending June 30, 2013 in order to fund 300 more slots in the SCL waiver program.
(b) On a continuing basis: The biennial budget allocated...
$7,650,100 in state funds to be matched with $18,326,300 in federal funds for the state fiscal year beginning July 1, 2013 and ending June 30, 2014 to fund an additional 300 slots for that state fiscal year.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation? Federal funds authorized under the Social Security Act, Title XIX and state matching funds from general fund and restricted fund appropriations are utilized to fund this administrative regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement the amendment.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: The amendment neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the current fiscal year? The amendment is not expected to generate revenue for state or local government.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amendment is not expected to generate revenue for state or local government.

(c) How much will it cost to administer this program for the first year? The cost of the SCL waiver program to DMS for the state fiscal year that ended June 30, 2012, was $264,720,472.60 (state and federal funds combined.) The biennium budget enacted during the 2012 session of the general assembly allocated $2,200,000 in state funds (to be matched with $5,311,100 in federal funds) for the state fiscal year beginning July 1, 2012 and ending June 30, 2013 in order to fund 300 more slots in the SCL waiver program.

(d) How much will it cost to administer this program for subsequent years? The biennium budget allocated $7,650,100 in state funds to be matched with $18,326,300 in federal funds for the state fiscal year beginning July 1, 2013 and ending June 30, 2014 to fund an additional 300 slots for that state fiscal year.

If this is an amendment to an existing administrative regulation, how much will it cost each of the entities identified in question (3) will have to take to comply with this administrative regulation or amendment. No action is required by the amendment.

The necessity of the amendment to this administrative regulation: Due to the large number of SCL waiver program recipients—over 3,500 individuals—DMS is unable to transition everyone to the new SCL waiver program concurrently; therefore, amending this regulation to establish a phased in approach is necessary. The amendment after comments is necessary to use the correct acronym (ICF-IID) employed by CMS.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment is not expected to generate revenue for state or local government.

(c) How much will it cost to administer this program for the first year? NECESSITY, FUNCTION, AND CONFORMITY: The Cabinet for Health and Family Services, Department for Medicaid Services, has responsibility to administer the Medicaid Program. (1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the service and coverage policies for the Medicaid Supports for Community Living (SCL) waiver program. The SCL program enables individuals with an intellectual or developmental disability to live, and receive services, in a community rather than in an institution.

(b) The necessity of this administrative regulation: The administrative regulation is necessary to establish reimbursement policies for the Medicaid SCL waiver program.

(c) How this administrative regulation conforms to the content of the authorizing statutes: The administrative regulation conforms to the content of the authorizing statutes by establishing Medicaid SCL waiver program reimbursement policies.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutory law: This administrative regulation assists in the effective administration of the authorizing statutes by establishing Medicaid SCL waiver program reimbursement policies.

(2) This is an amendment to an existing administrative regulation: provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This is a new administrative regulation; however, it's implementing a new version of an existing program – the Medicaid SCL waiver program. Current SCL waiver participants will transition from the current SCL waiver to the new version during their annual person centered planning meeting which occurs during the month of the participant’s next birthday. No participant will lose services due to this transition.

(b) Services provided under the current SCL waiver program regulation(907 KAR 1:145) will be available in some form in this new administrative regulation except that fiscal management will be an administrative function rather than a service provided by an SCL waiver provider. Several of the current services have been renamed. 907 KAR 1:145 offers three similar services called adult day training on site, adult day training off site, and children’s day habilitation. These services will be deleted and replaced, under this administrative regulation, with day training which encompasses all three previous services. 907 KAR 1:145 offers a service called community living supports which includes training or assistance to an individual who does not receive residential supports and can include a variety of activities designed to increase independence both in the home and in the community. This administrative regulation replaces this one service with two services – personal assistance and community access. Personal assistance is designed to enable SCL waiver program participants to accomplish tasks that they normally would do for themselves if they did not have a disability. Community access is designed to support the participant in meaningful routines, events, and organizations in the community. These services are designed to result in increased ability to access community resources by natural or unpaid supports. 907 KAR 1:145 includes residential supports which take place in four settings, staffed residence, group home, family home provider, and adult foster care. This administrative regulation replaces this service with two residential supports - level I and II and each has two levels of supervision. Level I residential supports will be in a provider owned residence and level II will be in a non-provider owned residence. Level II support will also give the option of residential supports in the recipient’s own home. A third residential support, technology assisted residential supports will also be offered to anyone currently in a staffed residence as a less restrictive alternative. This administrative regulation introduces a new service for participants living in their own home called shared living which will also be offered as another option to increase independence and choice. The support broker service in the current regulation will be replaced with a community guide service which will be optional for anyone choosing to self direct any or all of their services. Fiscal management will no longer be a covered service, but will provided through a contract with a single entity that will provide it for all participants who choose to direct any of their services. 907 KAR 1:145 includes behavior supports which is being replaced with three (3) distinct services - positive behavior supports, consultative clinical and therapeutic services, and person centered coaching. Positive behavior supports is designed to assist the individual with significant, intensive challenges that interfere with activities of daily living, social interaction, work or volunteer situations. These services provide for the analysis of data collected during the functional assessment of behavior which is the basis for development of a positive behavior support plan for the acquisition or maintenance of skills for community living and behavioral intervention for the reduction of maladaptive behaviors. Consultative clinical and therapeutic service provides expertise, training and technical assistance to improve the ability of paid and unpaid caregivers to carry out therapeutic interventions. Through this service, a professional may complete an assessment of the individual, their environment and system of supports; provide recommendations; and participate in development/revision of components of a participant’s person centered plan. Individuals may need this service to coordinate program wide support addressing assessed needs, conditions or symptoms affecting their ability to fully participate in their community. Person centered coaching is an individualized service of monitoring, training, and assessing effectiveness of person centered planning. These services provide for modeling, monitoring, assessing and implementing the person centered plan. The person centered coach is responsible for training the individual’s legal guardian, natural and paid supports as well as other team members who are recognized as an integral part of person centered planning when barriers challenge the success of the individual in achieving their goals. The remaining services - respite, supported
employment, occupational therapy, speech therapy, physical therapy, specialized medical equipment, goods and services - remain in the new regulation with some revision. New services established in this administrative regulation include community transition, transportation, environmental accessibility and vehicle adaptations (rather than transportation, environmental accessibility and vehicle adaptations licensed natural support training. The term "consumer direction" is being replaced with "participant direction" with no change in function. Participant direction is the term utilized by the Centers for Medicare and Medicaid Services (CMS) who approved the 1915(c) home and community based waiver which federally authorizes this program.

The amendments after comments include: deleting the terms "certified social worker" and "licensed social worker" as "licensed clinical social worker" is the only appropriate term; deleting "designated representative" as "guardian" is the appropriate term; removing the term "subcontractor" from the definition of "employee" in response to public comments; the two are not identical; clarifying that an extended family member cannot be a shared living caregiver; redefining "National Core Indicators" in response to public comments; establishing that a person centered coach must do a summary of services provided (in response to public comments); clarifying that an extended family member cannot be a shared living caregiver; redefining "National Core Indicators" in response to public comments; establishing that a person centered coach "monitors", rather than "assesses", the effectiveness of a participant's person centered plan of care (in response to public comment); eliminated the eligibility requirement that an individual must be placed on the SCL waiting list (in response to public comment); stated that a Support Intensity Scale assessment must be done every twenty-four (24) months, once every twelve (12) months in order to correct the policy (this assessment will be performed by the department rather than a service provider); deleted the statement that "(4) The department may exclude from receiving an SCL waiver service an applicant for whom the aggregate cost of SCL waiver services would reasonably be expected to exceed the cost of ICF-IID services" (in response to public comment) as that statement is no longer required with the waiver approved by CMS; clarifying that an individual who provides a transportation service to an SCL participant must have a driver's license rather than a Kentucky driver's license; removed the requirement that a case manager must be the staff who provides training on the individualized needs of a participant (in response to public comment); removed the requirement for a community access specialist to meet the SCL personnel and training requirements in response to public comments; removed licensed practical nurses from being eligible providers of consultative clinical and therapeutic services in response to public comment as it was erroneously included as a provider type; removed the monthly summary requirement for consultative clinical and therapeutic services in response to public comments; revised the policies and description of a day training service to include "core" activity and "non-core" activity in the same manner as the initial administrative regulation; removed the requirement that a day training activity shall not be reimbursable "if the participant is earning less than the customary wage and level of benefits paid by an employer for the same or similar work performed by individuals without disabilities" (in response to public comments); removed the monthly summary requirement for personal care and training requirements in response to public comment; removed the monthly summary requirement for occupa- tional therapy, physical therapy and speech therapy in response to public comments; no longer require a positive behavior support specialist to supervise a person centered coach but rather establish that a person centered coach must work under the direction of a positive behavior support specialist or other licensed professional (in response to public comments); establish that a person centered coach must do a summary of services provided rather than an analysis of the efficacy of services provided (in response to public comment); clarified that a transportation service to be provided by an immediate family member, guardian, or legally responsible individual of a participant; adding "loss of function" as a category which would lead to a reclassification of the emergency category of the SCL waiting list (in response to public comment); revised the conflict free case management policy from being that an exemption to conflict of interest would be granted if no independent case manager is located within thirty (30) miles [rather than (thirty (30) minutes] OR (rather than and) the participant's relationship with the case manager has lasted at least one (1) year; and allowing immediate family members or guardians of participants to provide support to participant directed services if no qualified provider is located within thirty (30) minutes [rather than (thirty (30) miles]

(b) The necessity of the amendment to this administrative regulation: This is a new administrative regulation which amends an existing SCL waiver program. The SCL waiver program amendments result from recommendations from a coalition including advocates, various other stakeholders, the Department for Behavioral Health and Intellectual Disabilities (DBHID) and the Department for Medicaid Services (DMS). The intent of the new SCL waiver program is to offer a greater opportunity for program participants to realize individual goals; to ensure that participants in the program are healthy, safe and respective in their community; that participants are able to live in their respective communities with effective and individualized assistance; and that participants enjoy living and working in their respective communities. The coalition identified new services or service modifications, program changes and system changes that will lead to better identification of individual's needs which will assist in developing person-centered plans for the individuals. Additionally, enhanced educa- tion and training requirements (of providers) will improve provider competency and continuity of care resulting in positive supports for participants that are important to and for the participants.

(c) The amendment conforms to the content of the authorizing statutes: This is a new administrative regulation which will conform to the content of the authorizing statutes by implementing a new version of the SCL waiver program which has been approved by the Centers for Medicare and Medicaid Services (CMS). The amendments after comments will conform to the content of the authorizing statutes by eliminating confusion, lessening the administrative burden on providers, and inserting more flexibility into the program.

(d) How the amendment will assist in the effective administra- tion of the statutes: This is a new administrative regulation which will assist in the effective administration of the authorizing statutes by implementing a new version of the SCL waiver program which has been approved by the Centers for Medicare and Medicaid Services (CMS). The amendment after comments will assist in the effective administration of the authorizing statutes by eliminating confusion, lessening the administrative burden on providers, and inserting more flexibility into the program.

(3) List the type and number of individuals, businesses, organi- zations, or state and local government affected by this administra- tive regulation: Providers and recipients of SCL waiver services will be affected by the amendment. Currently, there are 202 SCL wavier service providers and as of November 1, 2012 there were 3,696 individuals receiving services via the SCL waiver program.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administra- tive regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. SCL waiver service providers will have to comply with provider requirements including that staff meet the required education and training requirements, that services are delivered in the manner required and protecting SCL waiver participants' healthy, safety and welfare.

(b) In complying with this administrative regulation or amend- ment, how much will it cost each of the entities identified in question (3). No cost is imposed on providers. Entities becoming provi- siders for the first time may incur new business start-up costs.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). The new administrative regulation
offers individualized, community-based services to divert individuals who have an intellectual disability and otherwise need institutional services (from an intermediate care facility for individuals with an intellectual disability or development disability – ICF/IID) and support individuals who transition from an ICF/IID to the community. The services are designed to ensure that individuals are safe in their communities and are afforded choices, to create a positive culture that promotes person-centered thinking.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: The cost of the SCL waiver program to DMS for the state fiscal year that ended June 30, 2012, was $264,720,472.60 (state and federal funds combined.) The biennium budget enacted during the 2012 session of the general assembly allocated $2,200,000 in state funds (to be matched with $5,311,100 in federal funds) for the state fiscal year beginning July 1, 2012 and ending June 30, 2013 in order to fund 300 more slots in the SCL waiver program.
(b) On a continuing basis: The biennium budget allocated $7,650,100 in state funds to be matched with $18,326,300 in federal funds for the state fiscal year beginning July 1, 2013 and ending June 30, 2014 to fund an additional 300 slots for that state fiscal year.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Federal funds authorized under the Social Security Act, and state matching funds from general fund and restricted fund appropriations are utilized to fund this administrative regulation

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement the amendment.

KRS 161.612 requires the board to adopt eligibility conditions under which members providing part-time or substitute services may participate in the benefits provided under KRS 161.520, 161.655, 161.661, and 161.663. (1) The member shall have completed at least sixty-nine (69) percent of a full contract year that would be completed by a member employed on a full-time basis in the same position in order to become eligible to apply for disability retirement, and for his or her beneficiary or any survivor to be eligible to apply for life insurance and survivor benefits. Employment shall be in a position from which contributions were made to Kentucky Teachers’ Retirement System.

(3) The member shall be accredited days by adding his or her total number of hours worked in one (1) fiscal year and dividing that number by the number of hours that are required under a normal, full-time contract to extrapolate the number of full-time days. If this calculation results in a fractional number of days, the number shall be rounded down to the next whole number of days.

(4) A member who is employed in more than one (1) school district in the same fiscal year shall be required to complete a number of days at least equal to sixty-nine (69) percent of the school calendar in the district requiring the greatest number of days.

(5) Once the requisite number of days or equivalent days are worked for one (1) fiscal year, the member shall be eligible to apply for disability retirement, and his or her beneficiary and any survivor shall be eligible to apply for life insurance and survivor benefits, through the end of the next fiscal year immediately succeeding the fiscal year in which the eligibility conditions are met.

(2) If the position does not provide for full-time employment, the member shall be required to complete at least sixty-nine (69) percent of a normal full-time contract of 260 days in order to meet the eligibility conditions established in this administrative regulation. Full-time employment shall not require less than 220 working days.

(3) The member shall be accredited days by adding his or her total number of hours worked in one (1) fiscal year and dividing that number by the number of hours that are required under a normal, full-time contract to extrapolate the number of full-time days. REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

VOLUME 39, NUMBER 6 – DECEMBER 1, 2012

Contact Person: Pamela Duncan

(a) What this administrative regulation does: 202 KAR 7:520 establishes the requirements for the Emergency Services Block grant funds Program. The regulation sets the conditions for eligibility and the authorized expenditures.

(b) The necessity of this administrative regulation: This regulation is mandated by KRS 311A.155 which creates the program for distribution of state grant funds to fiscal courts and the EMS agencies that operate for emergency response in the counties involved.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This regulation conforms with KRS 311A.155 which establishes a grant fund for the promotion and assistance of EMS in Kentucky and creates a partnership between county governments and the ambulance services that operate for 911 calls within the county’s geographic area.

List the actions that each of the regulated entities identified and City Governments will all benefit from the amended regulation including: EMS Personnel, EMS Ambulance Providers, and County governments that operate for emergency response in the counties involved.

(3) will be impacted by either the implementation of this administrative regulation, if new, or by the change if it is an amendment, including: EMS Personnel, EMS Ambulance Providers, and County and City Governments will all benefit from the amended regulation because it will update and expand the types of expenditures authorized and will allow for cooperative use of funds.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): All entities will benefit because the regulation provides a much clearer and more organized management mechanism for the block grant funds. Additionally, counties and their citizens will benefit because the EMS agencies in their areas that provide services will be better equipped due to the expanded range of approved expenditures.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation: KBEMS will not incur any additional costs. However, the time that already employed staff members spend managing the new system may increase because the new requirements need closer review and have a potentially more detailed approval process.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The regulation will relate to any County or City owned ambulance service or any ambulance service operated on behalf of a City or County but only if those services are licensed as Class I agencies, which means that they respond to E-911 calls within their designated area.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funds will be necessary. The program already exists and there is not currently, nor will there be in the future, any fee associated with the application for and approval of the block grant funds.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is in effect.

(a) The grant program is already in place, and the sums available will continue to be available to parties who meet the requirements and fulfill all statutory and regulatory obligations in the first year.

(b) The regulation will continue to supply revenue to the state or local government entities eligible for the block grant funds and could increase the amount that they are entitled to receive in subsequent years.

(c) In the first year, because this grant program is already in place with relatively little burden placed on the counties or merged governments involved, this administrative regulation will not impose any new need for expenditures or revenue outlay by the gov-
eminential entities involved.
(d) In subsequent years, the amendment will not cost any revenues above and beyond what is currently being expended to administer the block grant program.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. The Department of Fish and Wildlife Resources sets migratory birds seasons within the frameworks established by the U.S. Fish and Wildlife Service and published in 50 C.F.R. Part 20, 21.

3. Minimum or uniform standards contained in the federal mandate. 50 C.F.R. Part 20 contains season frameworks for the earliest opening and latest closing date, the maximum number of days a species is open to hunting, and daily bag and possession limits. 50 C.F.R. Part 21 defines permits and the necessary requirements to hold and possess migratory game birds before, during and after periods open for hunting.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? Yes.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The federal mandate defines the regulatory frameworks that a state may allow. States are permitted to be more restrictive but not more liberal in their respective regulations. State management objectives necessitate more restrictive regulations to protect local, regional and/or state populations of birds important to Kentucky’s waterfowl hunters. The season on snow geese is shorter than the federal framework because migration patterns for this species result in a paucity of birds early in the federal framework. The Canada goose season in the Northeast Goose Zone is shorter than is permitted in the rest of the state because of the desire to maintain a huntable popula-

(a) What the administrative regulation does: This administrative regulation changes the name of the Ballard and Henderson-Union Reporting Areas to the Ballard and Henderson-Union Zones.
(b) The necessity of the administrative regulation: To reduce hunter confusion about regulations pertaining to these specific areas.
(c) How does this administrative regulation conform to the authorizing statute: KRS 150.025 authorizes the department to establish hunting season dates and bag limits. KRS 150.360 authorizes the department to restrict methods for the taking of wildlife. KRS 150.600 authorizes the department to regulate the taking of waterfowl on public and private land.
(d) How will this administrative regulation assist in the effective administration of the statutes: This administrative regulation manages waterfowl populations and hunting opportunity consistent with national and international management goals.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change the existing administrative regulation: It will change the name of the Ballard and Henderson-Union Reporting Areas to the Ballard and Henderson-Union Zones. There will be no changes other than the name of these two areas.
(b) The necessity of the amendment to this administrative regulation: The USFWS suspended Canada goose harvest quotas and reporting requirements within these two reporting areas with adoption of a new Mississippi Valley Population Management Plan.
Kentucky continues to use area specific regulations to meet state and regional waterfowl management objectives but the term "reporting area" confused hunters who thought they were still mandated to report harvest. Changing the name from "reporting area" to zone will help reduce this confusion.
(c) How the amendment will assist in the effective administration of the statutes: See (1)(c) above.
(d) How the amendment will assist in the effective administration of the statutes: See (1)(d) above.
(3) List the type and number of individuals, businesses, organizations or state and local governments that will be affected: There are approximately 20,000 waterfowl hunters in Kentucky that may be affected by this administrative regulation.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new of by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The change in name from "reporting area" to "zone" will be published in the fall waterfowl hunting guide and on the department’s Web site. Hunters will need to follow all applicable amendments to the hunting seasons.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? There will be no additional costs to those identified in question (3).
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? There will be reduced confusion regarding waterfowl reporting requirements while continuing to provide increased opportunity to hunt waterfowl in the state.
(5) Provide an estimate of how much it will cost to implement this administrative regulation:  
(a) Initially: This administrative regulation change will result in no initial change in cost to the Kentucky Department of Fish and Wildlife Resources to administer.
(b) On a continuing basis: There will be no additional cost on a continuing basis.
(6) What is the source of funding to be used for implementation and enforcement of this administrative regulation? The source of funding is the State Game and Fish fund.
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. It will not be
necessary to increase any other fees or funding to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees directly or indirectly increases any fees: No new fees will be established.

(9) TIERING: Is tiering applied? Tiering was not applied. The same guidelines and limits apply to all waterfowl hunters.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. The Department of Fish and Wildlife Resources sets migratory birds seasons within the framework established by the U.S. Fish and Wildlife Service and published in 50 C.F.R. Part 20, 21.

3. Minimum or uniform standards contained in the federal mandate. 50 C.F.R. Part 20 contains season frameworks for the earliest opening and latest closing date, the maximum number of days a species is open to hunting, and daily bag and possession limits. 50 C.F.R. Part 21 defines permits and the necessary requirements to hold and possess migratory game birds before, during and after periods open for hunting.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? Yes.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The federal mandate defines the regulatory frameworks that a state may allow. States are permitted to be more restrictive but not more liberal in their respective regulations. State management objectives necessitate more restrictive regulations to protect local, regional and/or state populations of birds important to Kentucky’s waterfowl hunters. The season on snow geese is shorter than the federal framework because of the desire to maintain a huntable population in that region of the state.

701 KAR 5:110. Use of local monies to reduce unmet technology need.

STATUTORY AUTHORITY: KRS 156.070, 156.160
NECESSITY, FUNCTION, AND CONFORMITY: KRS 156.160
(1)(b) requires the Kentucky Board of Education to promulgate administrative regulations governing the acquisition and use of educational equipment for the schools as recommended by the Council for Education Technology. KRS 156.670(1) requires the development of the master plan for education technology to outline Commonwealth activities related to the purchase, development, and use of technology. The master plan requires a district to submit a plan and report which describes its educational initiatives that have technology components and their unmet technology need. KRS 157.655 stipulates that a local public school district may participate in the education technology funding program based on the unmet technology need described in the local district plan and approved by the Kentucky Board of Education. Based on review of the unmet technology need, it has been determined that full implementation of the Kentucky Education Technology System (KETS) cannot be funded solely on offers of assistance from the Education Technology Trust Fund. Therefore, this administrative regulation is promulgated to ensure that all school district technology procurements, in categories for which KETS standards for unmet need have been established, will reduce the unmet technology need regardless of source of funds.

Section 1. Definitions. (1) "Department" means the Kentucky Department of Education.
   (2) "District education technology plan" means the plan developed by the local school district to address the unmet technology need of the district.
   (3) "Kentucky Education Technology System" or "KETS" means the statewide system set forth in the technology master plan issued by the Kentucky Board of Education and approved by the Legislative Research Commission.
   (4) "Master plan" means the long-range plan for the implementation of the Kentucky Education Technology System approved by
the Kentucky Board of Education and the Legislative Research Commission.

(5) "Unmet technology need" means the total cost of technology, meeting or exceeding the criteria established in the master plan, needed to achieve the capabilities outlined in the approved district education technology plan of the local school district.

Section 2. Determination of Unmet Need. A local school district shall determine its unmet technology need as part of the education technology planning process. Unmet technology need shall be audited by the department and subject to the approval of the Kentucky Board of Education as part of the state review and assistance calculation process, as provided by the master plan.

Section 3. Reducing Unmet Need. (1) In categories of unmet technology need, as provided in the KETS Master Plan for Education Technology, a district shall limit procurements to those which will reduce unmet technology need until the district’s unmet technology need no longer exists.

(2) To assist a district in selecting technology which will reduce the unmet technology need, the Department of Education shall develop suggested procurement guidelines for equipment, software, and services.

Section 4. Alternative Technology. For technology components for which KETS standards have not been established, a local school district may propose alternative technologies (waivers) in the local district education technology plan, particularly if the technology is proposed to achieve innovation. The Department shall respond to the waiver within a three (3) week time period. If denied, the local school district may appeal to the Commissioner of Education.

This is to certify that the chief state school officer has reviewed and recommended this administrative regulation prior to its adoption by the Kentucky Board of Education, as required by KRS 156.070(4).

102 KAR 1:340. Calculation of final average salary when there is a corresponding change in length of employment during any of the final three (3) years immediately prior to retirement.

RELATES TO: KRS 161.220(9)
STATUTORY AUTHORITY: KRS 161.310
NECESSITY, FUNCTION AND CONFORMITY: KRS 161.310(1) requires the board of trustees to promulgate administrative regulations for the administration of the funds of the retirement system and for the transaction of business. KRS 161.220(9) provides for the definition of "final average salary" for retirement calculation purposes. KRS 161.220(9) limits the amount of increases in salaries that can be included as final average salary when those increases are received for any of the three (3) years of employment immediately prior to retirement. The limitation does not apply when the member experiences a corresponding change in position or in length of employment. This administrative regulation provides the method for calculating final average salary when there is a change in length of employment.

Section 1. Any member who receives an increase in salary that exceeds the limits permitted for inclusion as final average salary under KRS 161.220(9)(b), but experiences a corresponding change in length of employment, shall have his or her final average salary calculated using salaries adjusted in the manner established in this section.

(1) The member shall receive one (1) additional day of salary for retirement calculation purposes at the member's base daily rate of pay for each day added to the member's annual contract in excess of the member's contracted days from the last immediately prior work year.

(2) The base daily rate of pay that may be used as additional salary credit shall not include compensation:

(a) For extra duties worked beyond the member's primary job duty for which the member receives most of his or her compensation;

(b) That exceeds the limitations of KRS 161.220(9)(b);

(c) That is not "annual compensation" as defined under KRS 161.220(10); or

(d) That is otherwise excluded from use in retirement calculations under the provisions of KRS 161.220 through 161.716.

(3) The additional days shall be worked days in order to have the additional salary included for retirement calculation purposes.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Pamela Duncan

(1) Provide a brief summary of:

(a) What this administrative regulation does: 202 KAR 7:530 establishes the requirements for the Emergency Medical Services data collection process. The regulation sets the compliance standards and consequences for failure to meet requirements.

(b) The necessity of this administrative regulation: This regulation is mandated by KRS 311A.190 which creates the program for distribution of state grant funds to fiscal courts and the EMS agencies that operate for emergency response in the counties involved.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This regulation conforms with KRS 311A.035 which establishes the minimum data reporting requirements and to develop a system of EMS delivery for the state of Kentucky. KRS 311A.035 requires the collection and submission of data to KBEAMS by EMS services licensed in Kentucky. This administrative regulation is mandated through KRS 311A.190 and will create a mechanism for orderly and systematic collection and reporting of EMS data.

(d) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This regulation is not an amendment. It is a new administrative regulation.

(b) The necessity of this administrative regulation: This regulation is not an amendment. It is a new administrative regulation.

(c) How the amendment conforms to the content of the authorizing statutes: This regulation is not an amendment. It is a new administrative regulation.

(d) How the amendment will assist in the effective administration of the statutes: This regulation is not an amendment. It is a new administrative regulation.
Kentucky becomes eligible for any funds available through this program; and

(d) All residents and citizens who receive EMS in Kentucky because EMS data will be used to increase the quality of care and the efficiency of care provided by EMS professionals in Kentucky.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including: EMS Personnel, EMS Ambulance Providers, and County and City Governments will all benefit from the amended regulation because it will mandate data collection that will be used to study demographic trends that will assist Kentucky when attempting to increase the quality of EMS care provided throughout the state.

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The regulated entities – services, county and city governments, and personnel – shall meet applicable data collection requirements by becoming part of the state KEMSIS program and feeding data into the database through the "state field bridge" or other electronic mechanism. Because most services are already billing through electronic means, most data will be able to be uploaded with little increased effort on the part of agencies and their personnel.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The cost of compliance will be minimal and may actually result in an increase of revenue through grant funds that will result from inclusion of the Commonwealth in the federal data collection system known as NEMSIS.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): All entities will benefit due to the data’s use in making EMS more efficient, more modern, and more responsive. Additionally, agencies may become the beneficiaries of grant funds resulting from the inclusion of Kentucky in the federal data collection program known as NEMSIS.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation: KBEMS will incur costs that will be mainly reimbursed through a federal DOT grant. Without this regulation, KBEMS may lose the federal grant monies provided to implement the KEMSIS system.

(a) Initially: The above paragraph is accurate for initial costs; and

(b) On a continuing basis: The continuing costs may decline as the system becomes more streamlined and agencies become compliant with the data collection and submission requirements in this administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: KBEMS is a state agency that receives its annual budget from the state government as well funds obtained through the federal DOT grant governing NEMSIS and the state version of the data collection program known as KEMSIS.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funds will be necessary. The program is in its second year of implementation and is ready to move on to the next stage which cannot be achieved without this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This regulation did not establish any fees.

(9) TIERING: Is tiering applied? Tiering was not used as this block grant is specific to EMS in Kentucky and applies only to EMS data.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate, 45 C.F.R. Part 96.

2. State compliance standards. 45 C.F.R. Part 96.125 Primary Prevention: "(a) For purposes of §96.124, each State/Territory shall develop and implement a comprehensive prevention program which includes a broad array of prevention strategies directed at individuals not identified to be in need of treatment. The comprehensive program shall be provided either directly or through one or more public or nonprofit private entities. The comprehensive primary prevention program shall include activities and services provided in a variety of settings for both the general population, as well as targeting sub-groups who are at high risk for substance abuse."

3. Minimum or uniform standards contained in the federal mandate. 45 C.F.R. Part 96.125 Primary Prevention. "(b) In implementing the prevention program the State shall use a variety of strategies, as appropriate for each target group, including but not limited to the following:
   (1) Information Dissemination: This strategy provides awareness and knowledge of the nature and extent of alcohol, tobacco and drug use, abuse and addiction and their effects on individuals, families and communities. It also provides knowledge and awareness of available prevention programs and services. Information dissemination is characterized by one-way communication from the source to the audience, with limited contact between the two. Examples of activities conducted and methods used for this strategy include (but are not limited to) the following:
   (i) Clearinghouse/information resource center(s);
   (ii) Resource directories;
   (iii) Media campaigns;
   (iv) Brochures;
   (v) Radio/TV public service announcements;
   (vi) Speaking engagements;
   (vii) Health fairs/health promotion; and
   (viii) Information line(s).
   (2) Education: This strategy involves two-way communication and is distinguished from the Information Dissemination strategy by the fact that interaction between the educator/facilitator and the participants is the basis of its activities. Activities under this strategy aim to affect critical life and social skills, including decision-making, refusal skills, critical analysis (e.g. of media messages) and systematic judgment abilities. Examples of activities conducted and methods used for this strategy include (but are not limited to) the following:
   (i) Classroom and/or small group sessions (all ages);
   (ii) Parenting and family management classes;
   (iii) Peer leader/helper programs;
   (iv) Education programs for youth groups; and
   (v) Children of substance abusers groups.
   (3) Alternatives: This strategy provides for the participation of target populations in activities that exclude alcohol, tobacco and other drug use. The assumption is that constructive and healthy activities offset the attraction to, or otherwise meet the needs usually filled by alcohol, tobacco and other drugs and would, therefore, minimize or obviate resort to the latter. Examples of activities conducted and methods used for this strategy include (but are not limited to) the following:
   (i) Drug free dances and parties;
   (ii) Youth/adult leadership activities;
   (iii) Community drop-in centers; and
   (iv) Community service activities.
   (4) Problem Identification and Referral: This strategy aims at identification of those who have indulged in illegal/age-inappropriate use of tobacco or alcohol and those individuals who have indulged in the first use of illicit drugs in order to assess if their behavior can be reversed through education. It should be noted, however, that this strategy does not include any activity designed to determine if a person is in need of treatment. Examples of activities conducted and methods used for this strategy include (but are not limited to) the following:
   (i) Employee assistance programs;
   (ii) Student assistance programs; and
   (iii) Driving while under the influence/driving while intoxicated education programs.
   (5) Community-Based Process: This strategy aims to enhance the ability of the community to more effectively provide prevention and treatment services for alcohol, tobacco and drug abuse disorders. Activities in this strategy include organizing, planning, enhancing efficiency and effectiveness of services implementation, inter-agency collaboration, coalition building and networking. Examples of activities conducted and methods used for this strategy include (but are not limited to) the following:
   (i) Community and volunteer training, e.g., neighborhood action training, training of key people in the system, staffofficials training;
   (ii) Systematic planning;
   (iii) Multi-agency coordination and collaboration;
   (iv) Accessing services and funding; and
   (v) Community team-building.
   (6) Environmental: This strategy establishes or changes written and unwritten community standards, codes and attitudes, thereby influencing incidence and prevalence of the abuse of alcohol, tobacco and other drugs used in the general population. This strategy is divided into two subcategories to permit distinction between activities which center on legal and regulatory initiatives and those which relate to the service and action-oriented initiatives. Examples of activities conducted and methods used for this strategy shall
include (but not be limited to) the following:

(i) Promoting the establishment and review of alcohol, tobacco and drug use policies in schools;
(ii) Technical assistance to communities to maximize local enforcement procedures governing availability and distribution of alcohol, tobacco and other drug use;
(iii) Modifying alcohol and tobacco advertising practices; and
(iv) Product pricing strategies."

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? Yes, this regulation defines:

The licensing procedure for an agency that receives remuneration for any prevention service;
Prevention Professional, Prevention Director and outlines minimum requirements for both positions;
Provides basic guidelines for the work of the Regional Prevention Center, Prevention Director and Prevention Professionals; and
Outlines the responsibilities of the department representatives with regard to on-site visits.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. 45 C.F.R. Part 96.125, Primary Prevention, provides basic, general guidance related to the operation of a state prevention program rather than specific information concerning implementation processes and procedures. That responsibility is left to the individual state to determine. This regulation is designed to address the specific details related to program delivery and thereby ensure that the citizens of the Commonwealth receive quality prevention services in a manner that is intended to prevent or address substance use and abuse.

704 KAR 3:305. Minimum requirements for high school graduation. Kevin C. Brown, general counsel; Robin Chandler, policy advisor; and Johnny W. Collett, director, Division of Learning Services, represented the department.
In response to a question by Senator Gins, Ms. Chandler stated that students were required to take a math course each year of high school, including three specific courses and an elective in math. Students who completed all high school graduation requirements early could graduate in three years.
Mr. Collett stated that there had been confusion about the certificate of attainment’s effect on the drop-out numbers. A student who received a certificate of attainment was not technically a drop-out but was not counted as a graduate as that category only included those students who completed the requirements leading to a regular diploma fully aligned to the state’s standards. Each student’s means of exit is reported. Mr. Brown stated that the federal No Child Left Behind law established requirements on how to conduct alternative assessments with the high school graduation rate.

Kirtley, branch manager; and Gerald Wuetcher, executive advisor, represented the commission.

Co-Chair Bowen stated that he appreciated the commission’s process in formulating these administrative regulations, which included working with stakeholders and meeting with utilities to resolve potential conflicts.

In response to a question by Senator Givens, Mr. Derouen stated that maintaining the integrity of data was important, and that technical upgrades were still needed in order to achieve the commission’s goal of paperless record-keeping. It was projected to take another six years before the commission fully implemented electronic filing by all utilities in Kentucky since the transition was occurring in stages. The largest utilities converted to electronic filing initially. Other utilities may request permission to file electronically by submitting one copy on paper along with the electronic submission.

As the transitions occur, the commission will amend the administrative regulations to enable to next stage of the transition process.

Peter Goodman, assistant director, represented the department.

In response to a question by Senator Pendleton, Mr. Goodman stated that these administrative regulations applied to industrial waste products, not to post-storm or other naturally-produced waste, and did not have new impacts on quarries, concrete, asphalt, or other industries and the holding structures built to contain waste products.

In response to questions by Senator Pendleton and Co-Chair Bell, Mr. Goodman stated that the state had discretion relating to permit requirements, issuance, and enforcement, even though federal requirements also needed to be met in Kentucky.

A motion was made and seconded to request deferral of consideration of this administrative regulation and 401 KAR 5:060 to the December 17 Subcommittee meeting. Mr. Goodman stated that the department agreed to the deferral request. Without objection, and with agreement of the agency, this administrative regulation and 401 KAR 5:060 were deferred.

CABINET FOR HEALTH AND FAMILY SERVICES: Department for Mental Health and Mental Retardation Services: Division of Administration and Financial Management: Institutional Care
908 KAR 3:050. Per diem rates. Jeff Jagnow, regulation coordinator; Ray Peters, program administrator, and Kevin Mudd, director, represented the department.

In response to a question by Representative Lee, Mr. Mudd stated that the annual adjustments made by this administrative regulation were based on each institution’s annual cost reports.

Co-Chair Bell stated that the top three facilities charged a per diem of $1,430, $1,370, and $1,345, averaging $1,400 as the cost per day among the top three facilities. Neither Medicare or Medicaid would cover the full cost per diem at the facilities. He stated that more should be done to help patients remain at home, thereby saving money for the state and the families involved, and that Medicare and Medicaid funds should be more directed to home-based care than facility-based care.

In response to questions by Co-Chair Bell, Mr. Mudd stated that the department requested the increases at seven facilities based on the costs at those facilities. Even though facilities had been working to transition patients to other placements, each facility still had fixed costs that did not fluctuate based on population changes at the facility and many of the remaining residents required higher medical care. As the department worked to reduce placements at each facility, the facility’s resources were also transitioning to better help the communities. He stated that he did not know the exact costs at each facility. However, since the cost of services and procedures increased annually, increases in reimbursement rates were also an annual necessity.

In response to questions by Senator Pendleton, Mr. Jagnow stated that it cost much more for a facility to provide care than was covered by Medicare or Medicaid reimbursement. He stated that it would be difficult to provide overall estimates of costs since different facilities offer different services at varying rates.

In response to questions by Senator Givens, Mr. Mudd stated that there was not currently a plan in place to consolidate facilities as patient populations declined. Overall, the facilities have not uniformly declined since the Oakwood facility has moved out more patients than the other facilities. The goal was to move all patients now in facilities into communities and to offer clinic-like services at the facilities once patients have been transitioned to other placements. The Cabinet for Health and Family Services and the Governor oversaw the department.

Representative Lee stated that for an ICFMR the quoted price was all-inclusive, including the patient’s room and board, food, and medical treatment. Estimates for the cost of care at home were hard to obtain because the family would be responsible for the costs currently included in the all-inclusive facility rate. Currently, a patient’s costs were covered by Social Security plus $35 a day. He stated that it would be worthwhile to discuss bringing a private facility into Medicaid and Medicare eligibility since this would cover all services and be less costly for the state.

Senator Givens stated that he wanted to know information regarding each facility’s census, the total amount of money needed to operate each facility, the per diem rate charged by the facility, the actual amount paid by Medicaid, private health insurance, or others on a per diem basis at each facility, the plan for consolidation and closure (or transition) at each facility, and the Supports for Community Living money and population numbers statewide and regionally. He wanted the information for each item to cover fiscal years 2009 through 2012 and the projections for 2013. Mr. Mudd stated that the department would provide the requested information to the Subcommittee for its December meeting.
A motion was made and seconded to approve the following amendments: to amend the STATUTORY AUTHORITY and NECESSITY, FUNCTION, AND CONFORMITY paragraphs and Section 2 to comply with the drafting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

A motion was made and seconded to request deferral of consideration of this administrative regulation as amended to the December 17 Subcommittee meeting. Mr. Mudd stated that the department agreed to the deferral request. Without objection, and with agreement of the agency, this administrative regulation as amended was deferred.

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2012 *Kentucky Administrative Regulations Service*. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10) or 13A.312(2). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the *Administrative Register of Kentucky*. NOTE: Finalized copies of the technically amended administrative regulations are available for viewing on the Legislative Research Commission Web site at [http://www.lrc.ky.gov/home.htm](http://www.lrc.ky.gov/home.htm).
