STATEMENT OF EMERGENCY  
103 KAR 3:040E

This emergency administrative regulation is being promulgated in order to provide Kentucky taxpayers the forms and information necessary to comply with Kentucky tax laws. This administrative regulation must be filed as soon as possible in order to incorporate by reference such tax forms and instructions as may be needed by taxpayers and their representative to comply with Kentucky tax laws. An ordinary administrative regulation is not sufficient, because the public relies on these forms and instructions in order to make timely and accurate filing of tax returns and payment of the correct amount of tax due. This emergency administrative regulation shall be replaced by an ordinary administrative regulation which is being filed with the Regulations Compiler along with this emergency administrative regulation. The ordinary administrative regulation is identical to this emergency administrative regulation.

704 KAR 3:095. The Use of Response-to-Intervention in Kindergarten through Grade 3.

RELATES TO: KRS 157.200
STATUTORY AUTHORITY: KRS 156.160(1)(g), 158.305
NECESSITY, FUNCTION, AND CONFORMITY: KRS 156.160(1)(g) gives the Kentucky Board of Education the authority to promulgate administrative regulations and KRS 158.305 requires the Kentucky Board of Education to promulgate administrative regulations for the district-wide use of a response to intervention system for students in Kindergarten through Grade 3. This administrative regulation establishes the requirements for a district-wide response to intervention system for students in Kindergarten through Grade 3.

Section 1. Definitions. (1) "Core instruction" means instruction, based on the state’s academic standards as set forth in 704 KAR 3:300, that is provided to all students.
(2) "Differentiated instruction" means the tailoring of curriculum, teaching environments, and practices to create appropriately different learning experiences for students to meet each student’s needs while recognizing each student’s learning differences, varying interests, readiness levels, and level of responsiveness to the standard core curriculum.
(3) "Evidence-based" means classroom practices for which there is strong evidence of success.
(4) "Fidelity of implementation" means the accurate and consistent provision or delivery of instruction as it was designed.
(5) "Intensive intervention" means that, in addition to core instruction and targeted intervention instruction, a student is provided additional intervention services that are tailored to the student’s individualized academic or behavioral needs.
(6) "Intervention" means an educational or behavioral instruction, practice, strategy, or curriculum that is provided to meet a student’s academic and behavioral needs, in addition to core instruction.
(7) "Response-to-intervention" means a multi-level prevention system to maximize student achievement and social and behavioral competencies through an integration of assessment and intervention.
(8) "Targeted intervention" means the use of screening data to design instructional interventions provided, in addition to core instruction, when a student’s universal screening and other data results indicate that the student has not mastered a benchmark skill or grade level expectation in mathematics, reading, writing, or behavior.
(9) "Universal screening" means screening that uses specific criteria to evaluate the learning and achievement of all students in academics and related behaviors, that may include learning differences, class attendance, tardiness, and truancy, to determine which students need closer monitoring or an intervention.

Section 2. Local districts shall implement a comprehensive response-to-intervention system for Kindergarten through Grade 3 that includes:
(1) Multi-tiered systems of support, including differentiated core academic and behavioral instruction and targeted, intensive academic and behavioral intervention, delivered by individuals most qualified to provide the intervention services, that maximize student achievement and reduces behavioral problems;
(2) Universal screening and diagnostic assessments to determine individual student needs and baseline performance;
(3) Interventions that:
(a) Are evidence-based;
(b) Vary in intensity and duration based on student need;
(c) Meet the needs of the individual student;
(d) Are implemented with fidelity;
(e) Are delivered by individuals most qualified to provide the intervention services; and
(f) Are monitored through a comparison of baseline data, collected prior to intervention, and ongoing progress data.
(4) Support for early intervention to address academic and behavioral issues; and
(5) Data-based documentation of:
(a) Assessments or measures of behavior;
(b) Progress during instruction;
(c) Evaluation, at regular intervals, for continuous progress; and
(d) Individual student reports shared with the parents of each student in Kindergarten through Grade 3 that summarize the student’s skills in mathematics, reading, writing, the students’ behavior, and any intervention plans and services being delivered.

Section 3. The response-to-intervention system for Kindergarten through Grade 3 shall coordinate with district-wide interventions required by KRS 158.742[148.792], 158.6453(1)(b), 158.6459(1), (2), (3), 704 KAR 3:305, Section 1(1)(b), (d), 704 KAR 3:530, Section 2(1)(b), 704 KAR 3:285, Section 3(4), and 707 KAR 1:300, Section 1, 707 KAR 1:310, Section 1(3)(a), and 707 KAR 1:320.

Section 4. Local districts shall submit the data required by KRS 158.305(10) to the department through the Kindergarten to Grade 3 program review required in 703 KAR 5:230.

This is to certify that the chief state school officer has reviewed and recommended this administrative regulation prior to its adoption by the Kentucky Board of Education, as required by KRS 156.070(4).

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Kevin C. Brown
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the requirements for a district-wide response-to-intervention system for students in kindergarten through grade three (3).
(b) The necessity of this administrative regulation: HB 69
(2012) requires the Kentucky Board of Education to promulgate administrative regulations for district-wide use of a response-to-intervention system for students in kindergarten through grade three (3). Response-to-intervention optimizes a systematic and ongoing assessment and feedback process that enables ongoing academic and behavioral needs and uses the data in collaborative conversations with parents/guardians and educators to prepare students to be college and career ready. (c) How this administrative regulation conforms to the content of the authorizing statute: HB 69 (2012) requires the Kentucky Board of Education to promulgate administrative regulations for district-wide reporting on the use of K-3 response-to-intervention implementation in reading by August 1, 2013, in mathematics by August 1, 2014, and behavior by August 1, 2015; and the regulation conforms to those requirements. (d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The administrative regulation defines the required district-wide system of interventions. The administrative regulation also defines the components required in that system, such as multi-tiered systems of support. (2) If this is an amendment to an existing administrative regulation, provide a brief summary of: (a) How the amendment will change this existing administrative regulation: Not an amendment. (b) The necessity of the amendment to this administrative regulation: Not an amendment. (c) How the amendment conforms to the content of the authorizing statute: Not an amendment. (d) How the amendment will assist in the effective administration of the statutes: Not an amendment. (3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All public school districts in Kentucky that have K-3 students. (4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including: (a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Districts will need to establish a system of tiered interventions for students in kindergarten through grade three who do not meet academic (reading, writing, and mathematics) and behavioral benchmarks. (b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Interventions can be developed and provided for students who are identified as needing interventions. A vendor product is not required or necessary to fulfill the requirements of the regulation. Schools may establish their own assessment system, but as schools are already required to have an elementary, middle school, and high school behavioral assessment system, this regulation does not add any additional requirements. Depending upon the number of students identified for tiered services, schools may need additional staff if they cannot repurpose staff and would thereby incur additional cost. (c) As a result of compliance, what benefits will accrue to the entities identified in question (3): As schools attend to the individual needs of each student, more students will attain and maintain grade level performance and will be more likely to meet proficiency and college and career readiness goals. Also, as intervention occurs early with the appropriate intensity and duration, the number of students who are referred for special education evaluation and services will be reduced. (5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation: (a) Initially: Schools and districts are not required to use a specific vendor product or assessment and may use interventions and assessments that they develop. Resources for interventions are readily available and many are free. If products and services are purchased from a vendor, this could increase expenses for districts and schools. It is difficult to quantify the exact cost because schools will choose resources that most effectively meet the needs of their students. (b) On a continuing basis: Once intervention resources and assessment resources are established, unless there is a consumable product such as a workbook or an ongoing maintenance fee for a product, there should not be a continuing cost. (6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Schools may utilize Title I and general funds for intervention. If the school has a Read to Achieve Grant or Mathematics Achievement Fund grant, those funds are to be targeted to interventions. Also, 707 KAR 1:300 allows school districts to conduct coordinated early intervening services for students from kindergarten through 12th grade (with particular emphasis on students in kindergarten through grade three (3) who need additional academic and behavioral intervention) to be successful in the regular education environment prior to referral for special education. A school district shall not spend more than fifteen (15) percent of the money received under IDEA Part B to provide these coordinated early intervening services. (7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if any, or by the change if it is an amendment: No increase in fees. (8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: No. (9) TIERING: Is tiering applied? Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all schools and districts.

(a) Income revisions; (b) Asset revisions including exhaustion of available assets; (c) Changes in allowed exclusions; and (d) Identification of previously undisclosed income or assets.

(2) Upon a change in the ability to pay information, a revised "Ability to Pay Worksheet, OKVC Form #2 shall be prepared along with a revised "Patient or Responsible Party Financial Agreement, OKVC Form #3." The revised forms shall be presented to the resident in the same manner as the original forms.

Section 5. Failure to Provide Financial Information or to Assign Benefits. (1) Failure of the resident to disclose financial information required to compute his or her ability to pay shall result in the resident paying the maximum charge for room and care.

(2) If the resident or person responsible for the resident fails to sign the assignment provision contained in the "Patient or Responsible Party Financial Agreement, OKVC Form #3," the maximum charge for room and care shall be assessed.

Section 6. Payment Hardship and Appeal Procedures. (1) Payment hardships.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT
(1) Provide a brief summary of:

(a) What this administrative regulation does: This regulation explains how resident charges at the state veterans’ nursing homes are calculated for any resident admitted prior to the effective date of 17 KAR 3:040.

(b) The necessity of this administrative regulation: 17 KAR 3:040 will determine resident charges based upon rules of Medicaid and Medicare. However, until the resident population admitted under 17 KAR 3:010 is exhausted, those residents who do not qualify under 17 KAR 3:040 shall still be paying monthly charges as established in 17 KAR 3:010.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 40.325(2) authorizes the Department of Veterans’ Affairs to promulgate any administrative regulations necessary to operate the homes in compliance with applicable state and federal statutes and regulations. This administrative regulation establishes the requirements for calculating resident charges for room and care services within the state veterans’ nursing homes.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: It will provide a regulatory basis for calculating resident charges for state veterans’ nursing homes.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment states that this regulation shall not apply to any resident admitted after the effective date of 17 KAR 3:040.

(b) The necessity of the amendment to this administrative regulation: The amendment is necessary to prevent offering two ways of calculating resident charges, one by this regulation and one by 17 KAR 3:040.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment is necessary to operate state veterans nursing homes as stated in KRS 40.325(2).

(d) How the amendment will assist in the effective administration of the statutes: It will provide clear guidance to anyone admitted to any state veterans’ nursing home prior to the effective date of 17 KAR 3:040.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: state veterans’ nursing homes with a veteran population of approximately 550. Approximately half of this number will continue to have their resident charges calculated under this regulation as amended.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No resident admitted prior to the effective date of 17 KAR 3:040 will be affected by this amendment unless they qualify under 17 KAR 3:040.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Residents will pay according to the rules existing under 17 KAR 3:010, and no additional cost will be levied. Residents who qualify under 17 KAR 3:040 will pay according to the rules established by the Department of Medicaid Services.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Residents admitted under 17 KAR 3:010 and prior to the effective date of 17 KAR 3:040 will continue to pay the same amount as originally calculated. The true impact is that this amendment will ensure that the residents in this category remain in the state veterans’ nursing home.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: None

(b) On a continuing basis: None

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Not Applicable

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change, if it is an amendment: No increase in fees or funding.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: No fees are established and no fees are increased by this amendment.

(9) TIERING: Is tiering applied? Tiering was not appropriate in this administrative regulation, because the administrative regulation applies equally to all those individuals or entities regulated by it. Disparate treatment of a person or entity subject to this administrative regulation could raise questions of arbitrary action on the part of the agency. The “equal protection” and “due process” clauses of the Fourteenth Amendment of the U.S. Constitution may be implicated as well as Sections 2 and 3 of the Kentucky Constitution.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts, or divisions of state or local government will be impacted by this administrative regulation? The three veterans’ nursing homes at Wilmore, Hanson, and Hazard will be impacted by this regulation change, as will any state nursing home built in the future.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 40.325 authorizes the Kentucky Department of Veterans Affairs to promulgate regulations to operate the state veterans nursing homes and to seek private or federal funding for the same.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amendment does not increase or decrease the revenue generated by those residents whose charges are calculated by this amended regulation.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This amendment will not change the revenue.

(c) How much will it cost to administer this program for the first year? There is no anticipated additional cost associated with the amended regulation.

(d) How much will it cost to administer this program for subsequent years? There is no additional cost.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Robert B. Barnes

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes requirements, procedures and forms for the approval and processing of qualified domestic relations orders ("QDRO") by Kentucky Teachers’ Retirement System ("KTRS").

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish and ensure compliance with the amendments to KRS 161.700.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by (1) setting forth the procedures and timelines to be followed in filing a QDRO with KTRS, (2) setting the filing fees, (3) providing the formula for calculating the amount to be paid to the alternate payee, and (4) incorporating the forms required by KTRS.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the statutes by informing KTRS participants, their alternate payees, legal counsel and the courts what is required to expedite approval and implementation of a QDRO.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendments require: (1) the participant to forward a copy of his divorce decree to KTRS; (2) the participant to file forms to change a retirement option or designation of life insurance benefit or the amount of federal tax withheld from his retirement benefit, as needed; (3) submission of signed Social Security cards...
by the participant and Alternate Payee; (4) KTRS to provide the Alternate Payee with a W-4P for tax reporting purposes; and (5) KTRS’ prior approval of the QDRO form before circulating an original for signature by the parties or their legal representatives for filing with the court. Requiring the written approval of KTRS prior to a filing will ensure that KTRS is able to process and administer the payment agreed upon by the participant and alternate payee. The QDRO form was amended to: (1) clarify language regarding when and how payment will be made to the alternate payee; (2) delete the date of birth for child(ren) or dependent(s); (3) clarify that KTRS will be forwarding the child support payment; (4) clarify that a processing fee is not required for a QDRO for child support; (5) exclude the life insurance benefit; and (6) provide for KTRS’ and the parties’ or their legal counsel’s written approval and submission of the QDRO prior to entry by the court. The KTRS Authorization for Release of Information form was amended to include the date of the participant’s marriage and date of decree. The KTRS Confidential Information/QDRO form was amended to provide identifying information for the Alternate Payee spouse or child. The Change of Option Following Termination of Marriage form was added to expedite the process of beneficiary designation following the statutory termination of the former spouse as beneficiary following the final divorce decree.

(b) The necessity of the amendment to this administrative regulation: By requiring written approval of KTRS prior to the participant and alternate payee filing the QDRO with the court and agency intends to forgo the necessity of having to inform the participant, the alternate payee or their legal representatives and the court that the QDRO which has been entered without prior review or approval by the agency either does not conform to the requirements of KRS 161.700 or this administrative regulation due to the parties’ attempts to add to, or detract from, the QDRO form itself or that payment to the alternate payee has been requested in such a form or amount that KTRS cannot implement or administer the order. Participants will also be placed on notice of the need to provide a copy of the divorce decree and to request forms necessary to effectuate changes to the account within the time allotted by law.

(c) How the amendment conforms to the content of the authorizing statute: The amendments to the administrative regulation, the QDRO and other requisite form ensures that, prior to the form reaching the court for entry, all statutory and administrative requisites have been met.

(d) How the amendment will assist in the effective administration of the statutes: The amendment to the administrative regulation and the QDRO form will ensure that when the form is presented to the court it is in compliance with the statutory and regulatory requirements and there will be no delays in implementing or administering the decision to payment to the alternate payee.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation applies to participants and alternate payees of participants of KTRS who are subject to a qualified domestic relations order.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the new rule or amendment: KTRS and the Alternate Payee.

The additional revenue generated by this regulation will be dependent upon the number of QDROs filed with KTRS and cannot be quantified at this time.

(b) How much revenue will this administrative regulation generate for the state and local government (including cities, counties, fire departments, or school districts) for subsequent years? Future revenue generated by this regulation will be dependent upon the number of QDROs filed with KTRS and cannot be quantified at this time.

(c) How will it cost to administer this program for the first year? The cost in terms of staff time for processing the QDROs will be dependent upon the number of orders received.

(d) How much will it cost to administer this program for subsequent years? Future cost in terms of staff time for processing QDROs will depend upon the number of orders received and cannot be quantified at this time.

5. Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: There is no cost to implement this regulation.

(b) On a continuing basis: Continuing costs will be determined by the number of QDROs filed with KTRS and cannot be quantified at this point.

6. What is the source of funding to be used for the implementation and enforcement of this administrative regulation: Administrative expenses of KTRS incurred in processing QDROs will be paid via the processing fees.

7. Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: This regulation establishes the fees to be assessed for processing QDROs.

8. State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This regulation establishes a fifty (50) dollars initial processing fee and a twenty five (25) dollars processing fee for amended QDROs.

9. TIERING: Is tiering applied? Tiering is not applied, as all participants and alternate payees of participants are treated the same.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Persons: Stephen B. Humphress, Sam Crain
(1) Provide a brief summary of:
(a) What this administrative regulation does: The amendment to this administrative regulation establishes the retail liquor package license quota for each of the following cities: Paintsville, Danville, Earlington, Manchester, Elizabethtown, Vine Grove, Guthrie, Junction City, Corbin, Somerset, Whitesburg, Murray, Franklin, LaGrange, Georgetown, and Princeton. The amendment also increases the liquor package license quota to two (2) in Dawson Springs, so as to avoid a monopoly.
(b) The necessity of this administrative regulation: The existing administrative regulation establishes the number of quota licenses for cities based on population and monopoly avoidance while a different regulation, 804 KAR 9:010, establishes county quotas. The amendment to this administrative regulation provides the necessary retail liquor package license quotas for the following cities which have recently voted wet: Paintsville, Danville, Earlington, Manchester, Elizabethtown, Vine Grove, Guthrie, Junction City, Corbin, Somerset, Whitesburg, Murray, Franklin, LaGrange, Georgetown, and Princeton. It also increases the quota for Dawson Springs so as to avoid a monopoly.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 241.060(1) authorizes the board to promulgate administrative regulations. KRS 241.060(2) requires the board to limit in its sound discretion the number of licenses of each kind or class to be licensed in this state or any political subdivision, and restrict the locations of licensed premises. To this end, the board may make necessary the division and subdivision of the state or any political subdivision into districts. Administrative regulations relating to the granting, refusal, and revocation of licenses may be different within the several divisions or subdivisions.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statute. The amendment to this administrative regulation enables the board to execute its KRS 241.060(2) duty by setting quotas for newly wet cities situated in dry counties.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The proposed amendment will establish the quota for retail package license packages in the following cities which recently voted wet: Paintsville, Danville, Earlington, Manchester, Elizabethtown, Radcliff, Vine Grove, Guthrie, Junction City, Corbin, Somerset, Whitesburg, Murray, Franklin, LaGrange, Georgetown, and Princeton. It also increases the quota for Dawson Springs so as to avoid a monopoly.
(b) The necessity of the amendment to this administrative regulation: This administrative regulation is needed to establish the quota for retail liquor package licenses in cities which have recently voted wet although the county remained dry. A different regulation, 804 KAR 9:010, sets the liquor package license quota for a county that votes wet based on the county's population and a ratio of one license per 2300 residents. That regulation does not address, or set, a license quota for city local option elections when the county...
remains dry. When a city votes wet but county remains dry, the Board amends the current regulation, 804 KAR 9:040, to set specific quotas for each wet city. The existing regulation satisfies Due Process by codifying the retail liquor package license quotas for wet cities situated in dry counties. The amendment will establish a quota for retail liquor package licenses in the cities of Paintsville, Danville, Earlington, Manchester, Elizabethtown, Radcliff, Vine Grove, Guthrie, Junction City, Corbin, Somerset, Whitesburg, Murray, Franklin, LaGrange, Georgetown, and Princeton, based primarily on each city's population and a 1/2300 ratio.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 241.060(2) allows the Board to limit the number of licenses of each kind or class to be issued in any political subdivision. The amendment will establish a quota for retail liquor package licenses in the cities of Paintsville, Danville, Earlington, Manchester, Elizabethtown, Radcliff, Vine Grove, Guthrie, Junction City, Corbin, Somerset, Whitesburg, Murray, Franklin, LaGrange, Georgetown, and Princeton, based primarily on each city's population and a 1/2300 ratio.

2. State, in detail, the aspect or service of local government to which this administrative regulation relates, including identification of the applicable state or federal statute or regulation that mandates the aspect or service or authorizes the action taken by the administrative regulation. There should be no effects of this administrative regulation amendment on the service of local government. This amendment to the administrative regulation should not affect any aspect or service of local government.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a local government for the first full year the administrative regulation is in full effect. If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation. Under KRS 243.030(7)(b), the state would receive $1,500.00 annually ($500 per license) if three retail liquor package licenses were issued. (Amendment)

RELATES TO: KRS 241.060, 241.065, 241.075, 243.030

STATUTORY AUTHORITY: KRS 241.060

NECESSITY, FUNCTION, AND CONFORMITY: KRS 241.060(2) authorizes the board to limit the number of licenses of each kind or class to issue in this state or any political subdivision, and restrict the locations of licensed premises. This administrative regulation establishes retail liquor drink license quotas in cities which have become wet pursuant to KRS 242.125 separately from their respective counties which remain dry.

Section 1. Danville, which repealed prohibition on March 2, 2010, shall have a quota of six (6) retail liquor drink licenses.

Section 2. Radcliff, which repealed prohibition on October 4, 2011, shall have a quota of eight (8) retail liquor drink licenses.

Section 3. Somerset, which repealed prohibition on June 26, 2012, shall have a quota of five (5) retail liquor drink licenses.

Section 4. Murray, which repealed prohibition on July 17, 2012, shall have a quota of seven (7) retail liquor drink licenses. 

The express provisions of KRS 241.060(2) enable the Alcoholic Beverage Control Board to limit the number of licenses to be issued in any political subdivision of the state and permit the board to make reasonable division and subdivisions of the state or any political subdivision into districts for this purpose. 804 KAR 9:010 establishes a general retail liquor license quota based upon county population for any area within that county in which prohibition has been repealed. Instances may arise, however, in which the quota based on county population permits the issuance of retail liquor licenses in a number disproportionate to that based upon the population of the smaller political subdivision. In such instances, the quota set in 804 KAR 9:010, Section (1) and (2), shall be inapplicable. The quota exceptions contained in 804 KAR 9:010, Section 2(1), (2), (3), and (4), shall remain in effect and be incorporated herein.

Section 2. Pursuant to the authority herein, the City of Pikeville, having been the only dry county in the state at the April 1, 2013 deadline for the Kentucky General Assembly, the actual resident population of the City of Pikeville being at least 8,000 by virtue of its reclassification to a city of the third class and the resident population of Pike County being 86,307 according to the population projections of the Kentucky State Data Center, Urban Studies Center of the University of Louisville, Kentucky, it is determined that the retail drink liquor license quota established by 804 KAR 9:010 would be excessively disproportionate to the population of the City of Pikeville, the retail drink liquor license quota for the City of Pikeville, Kentucky, is therefore set at eleven (11).

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Persons: Stephen B. Humphress, Sam Crain

(1) Provide a brief summary of:
(a) What this administrative regulation does: The amendment to this administrative regulation establishes a retail liquor drink license quota for each of the following cities: Danville, Radcliff, Somerset, and Murray. The amendment also removes the retail liquor drink quota for the city of Pikeville because Pikeville went from a third to fourth class city.
(b) The necessity of this administrative regulation: The existing administrative regulation establishes the number of quota licenses for cities based on population and monopoly avoidance while a different regulation, 804 KAR 9:010, establishes county quotas. The amendment to this administrative regulation provides the necessary retail liquor drink license quotas for the following cities...
which have recently voted wet: Danville, Radcliff, Somerset, and Murray. It also eliminates the quota for the city of Pikeville.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 241.060(1) authorizes the board to promulgate administrative regulations to carry out the KRS 241.060(2) duty by setting quotas for newly wet cities situated in dry counties.

(2) If this is an amendment to an existing administrative regulation, provide all the elements of:

(a) How the amendment will change this existing administrative regulation: The proposed administrative amendment will establish the quota for retail liquor drink licenses in the following cities which recently voted wet: Danville, Radcliff, Somerset, and Murray. It will also eliminate the quota for the city of Pikeville.

(b) The necessity of the amendment to this administrative regulation: This administrative regulation is necessary to establish a limited number of retail liquor drink licenses that may be issued in the cities of Danville, Radcliff, Somerset, and Murray, proportionate to the city's population and a ratio of one license per 2500 residents. That regulation does not address, or set, a license quota for city local option elections when the county remains dry. When a city votes wet but county remains dry, the Board amends the current regulation, 804 KAR 9:010, to set specific quotas for each wet city. The existing regulation satisfies Due Process by codifying the retail liquor drink license quota for wet cities situated in dry counties. The proposed amendment will update the regulation by setting quotas for newly wet cities situated in dry counties. The quotas for wet counties are set by a different regulation, 804 KAR 9:010, which uses a population ratio of one license per 2500 residents.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 241.060(2) allows the Board to limit the number of licenses of each kind or class to be issued in any political subdivision. The amendment will establish a quota for retail liquor drink licenses in the cities of Danville, Radcliff, Somerset, and Murray, based primarily on each city's population and a 1/2500 ratio.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statute: The amendment to this administrative regulation enables the board to execute its KRS 241.060(2) duty by setting quotas for newly wet cities situated in dry counties.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation will affect the Kentucky Department of Alcoholic Beverage Control ("Department") by providing a limited number of retail liquor drink licenses that may be issued to newly wet cities. It will affect the cities of Danville, Radcliff, Somerset, and Murray. A retail liquor drink license permits a business to operate a liquor drink store. No liquor drink stores exist until a city votes to become wet. As this amendment to the regulation sets quotas for cities that are newly wet, no existing businesses will be affected. This administrative regulation deletes section 2 and eliminates the quota for the city of Pikeville. Pikeville is now a fourth class city and as such cannot be issued retail liquor drink licenses.

(4) Provide an assessment of how the above group or groups will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment: The impact of this administrative regulation will be minimal because the Department already issues state licenses and enforces alcohol laws and cities already issue city licenses.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: No extra costs are anticipated to implement this administrative regulation amendment.

(b) On a continuing basis: None.

(c) How the necessity of the amendment to this administrative regulation, if new, or by the change, if it is an amendment: There is no anticipated increase in fees or funding necessary to implement this administrative regulation amendment.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statute: The amendment to this administrative regulation enables the board to execute its KRS 241.060(2) duty by setting quotas for newly wet cities situated in dry counties.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change, if it is an amendment: There is no anticipated increase in fees or funding necessary to implement this administrative regulation amendment.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation amendment does not directly or indirectly increase any fees.

(9) TIERING: Is tiering applied? No tiering is applied. There are no costs associated with administering this administrative regulation.

Administrative Regulations Reviewed by the Subcommittee:

FINANCE AND ADMINISTRATION CABINET: Kentucky Retirement Systems: General Rules

105 KAR 1:140. Employer's administrative duties. Jennifer Jones, Interim General Counsel, represented the systems.

In response to questions by Co-Chair Harris, Ms. Jones stated that the systems went live with the new electronic system approximately eighteen (18) months ago. This administrative regulation was intended to clarify the electronic contribution process now that it had been in place long enough to fine tune procedures.

A motion was made and seconded to approve the following amendments: to amend the TITLE and Sections 1 and 5 to comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

GENERAL GOVERNMENT CABINET: Kentucky Real Estate Appraisers Board: Board

201 KAR 30:030. Types of appraisers required in federally-related transactions; certification and licensure. Larry Disney, executive director, and James Grawe, assistant attorney general, represented the board.

In response to questions by Co-Chair Harris, Mr. Disney stated that the Consumer Protection Act required Kentucky to adopt federal requirements, which were being established in these administrative regulations. These administrative regulations were not more stringent than the federal requirements because most affected appraisers worked at the federal level for Freddie Mac or Fannie Mae; therefore, more stringent requirements would be unnecessary.

A motion was made and seconded to approve the following amendments: (1) to amend the TITLE and Sections 2 through 4 to comply with the drafting and formatting requirements of KRS Chapter 13A; (2) to amend the STATUTORY AUTHORITY paragraph to add a citation; and (3) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph to clearly state the necessity for and function served by this administrative regulation, as required by KRS 13A.220. Without objection, and with agreement of the agency, the amendments were approved.

201 KAR 30:050. Examination and experience requirement.

A motion was made and seconded to approve the following amendments: (1) to amend the STATUTORY AUTHORITY paragraph to add a citation; (2) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph to clearly state the necessity for and function served by this administrative regulation, as required by KRS 13A.220; and (3) to amend Sections 1 through 3 to comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

201 KAR 30:070. Grievances.

A motion was made and seconded to approve the following amendments: (1) to amend the STATUTORY AUTHORITY paragraph to correct a statutory citation; and (2) to amend Sections 1 through 5 to comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

201 KAR 30:110. Appraiser roster, transmission, fees, delections, notification, and hearing.

In response to questions by Representative Lee, Mr. Disney stated that affected stakeholders had been advised of the fee increase. The fee amount was established at the federal level, and all fees were transferred to the federal subcommittee. The board did not have the ability to retain any portion of the fees.

A motion was made and seconded to approve the following amendments: (1) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph to comply with the drafting requirements of KRS Chapter 13A; and (2) to amend Sections 1 and 3 to make technical corrections. Without objection, and with agreement of the agency, the amendments were approved.

201 KAR 30:190. Educational requirements for certification.

A motion was made and seconded to approve the following amendments: (1) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph to clearly state the necessity for and function served by this administrative regulation, as required by KRS 13A.220; and (2) to amend Sections 1 through 8 to comply with the drafting and formatting requirements of KRS Chapter 13A. Office of the Secretary: Department of Aviation: Airport Zoning Commission

602 KAR 50:030. Jurisdiction of the Kentucky Airport Zoning Commission. Ann D'Angelo, assistant general counsel; Susan Chaplin, attorney; and John Houllihan, administrator, represented the commission.
In response to a question by Co-Chair Harris, Mr. Houlihan stated that the local planning and zoning committees established protections for airspace. The commission worked with the Federal Aviation Administration to establish protections pertaining to fly zone safety and regulation, such as preventing obstructions near airport take off and landing areas.

A motion was made and seconded to approve the following amendments: (1) to amend STATUTORY AUTHORITY paragraph to add a statutory citation; (2) to amend NECESSITY, FUNCTION, AND CONFORMITY paragraph to clearly state the necessity for and function served by this administrative regulation, as required by KRS 13A.220; and (3) to amend Sections 1 and 2 to comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

Without objection, and with agreement of the agency, the amendments were approved.

The following administrative regulations were deferred to the March 12, 2013, meeting of the Subcommittee:

KENTUCKY COMMUNITY AND TECHNICAL COLLEGE SYSTEM: Board of Emergency Medical Services: Board
202 KAR 7:520. Allocation of block grant funding assistance for emergency medical services.

202 KAR 7:530. Emergency Medical Services data collection, management, and compliance.

ENERGY AND ENVIRONMENT CABINET: Department for Environmental Protection: Division of Water: Water Quality Standards

401 KAR 10:031. Surface water standards. Peter Goodmann, assistant director; Randall Payne, environmental scientist III; and R. Bruce Scott, commissioner, represented the division. Lane Boldman, Sierra club; Tom FitzGerald, director, Kentucky Resources Council; Beverly May, executive director, Kentucky Conservation Committee; and Ted Withrow, Kentuckians for the Commonwealth, appeared in opposition to this administrative regulation.

Kentucky Resources Council was opposed to the proposed agency amendment to this administrative regulation because the regulation was proposing substantive changes without a public hearing and stakeholder input. The agency amendment revised requirements regarding limits of the pollutant, selenium. Kentucky Resources Council requested that this administrative regulation at least be deferred to the March meeting of the subcommittee. This was the only second time in thirty-three (33) years that the division proposed a Kentucky-specific limit for a pollutant, rather than adopting the federal guidance limit.

Co-Chair Bell stated that KRS 13A.320(2)(b)4. required an agency amendment at the subcommittee to “be filed with the regulations compiler at least three (3) workdays prior to the meeting…” The proposed agency amendment complied with KRS 13A.320(2)(b)4.

In response to a question by Senator Bowen, Mr. FitzGerald stated that Kentucky Resources Council was opposed both to the way this amendment was proposed and to the limits themselves. Technical changes proposed at the subcommittee were philosophically appropriate, but filling a substantive change without proper public review circumvented the intent of the KRS Chapter 13A process. The process was even more important than the council’s objection to the actual selenium limits being proposed because the integrity of the entire administrative regulation process was at stake.

Mr. Williams stated that the Kentucky Conservation Committee agreed with Kentucky Resources Council that the proposed agency amendment circumvented the public input process. The Kentucky Conservation Committee requested that this administrative regulation be deferred to the March meeting of the subcommittee.

Ms. May stated that Kentuckians for the Commonwealth was opposed to the proposed selenium limit amendments because the requirements were so complicated and cumbersome as to preclude coal companies from being held responsible for selenium contamination. Ms. May lived near Wilson Creek, which had experienced selenium contamination from coal mining activities.

Ms. Boldman stated that data and letters had been entered into the record regarding the science of selenium testing. This administrative regulation did not comply with the Clean Water Act, which required forty-five (45) days for public consideration of amendments. The selenium limit was too high to protect fish and wildlife and would allow for harmful bioaccumulation of selenium. The limit was unenforceable.

Mr. Withrow stated that he was a member of Kentuckians for the Commonwealth and a former employee of the Division of Water. He stated that selenium was lethal in an aquatic environment in the limits proposed in the agency amendment. The science was flawed. The division would not be in a position to test fish tissue because the fish would not survive the proposed limit. Stakehold-
ers did not have adequate time for a meaningful review of the proposed limit changes, and deferral to the March meeting of the subcommittee was requested. Mr. Withrow closed by reading the mission statement of Kentuckians for the Commonwealth, which included varied goals of the group, not just of an environmental nature.

In response to a question by Representative Lee, Mr. FitzGerald stated that this administrative regulation was being processed uniquely because the standard in the proposed agency amendment was so drastically different as to render the previous public hearing and public comment period moot, at least as related to selenium. The process was not transparent. Experts had not discussed and debated the issue, and the science was not properly peer reviewed.

Senator Bowen requested that Mr. Withrow repeat the mission statement of Kentuckians for the Commonwealth and stated that he was offended by a specific portion of the mission statement. Senator Bowen believed that the phrase, “when companies and wealthy pay their fair share of taxes” insinuated that these groups were not currently paying their fair share of taxes. As a businessman, Senator Bowen was offended by that broad-sweeping accusation.

Mr. FitzGerald stated that he had earlier in his testimony understated the significance of the selenium limit change. The proposed change was over ten (10) times higher than the previous standard.

Co-Chair Bell emphasized the need to balance environmental concerns and Kentucky’s need for jobs.

Mr. Scott stated that Mr. FitzGerald was correct that this was the second time in recent memory that the division proposed a Kentucky-specific limit, rather than using U.S. EPA’s guidance limit. The federal program required a forty-five (45) day public comment period; however, that requirement was explicitly waived if a state had a codified public comment process such as that established in KRS Chapter 13A. The division filed its proposed agency amendment prior to the three (3) workday deadline established by KRS 13A.320(2)(b)(4). The division welcomed and encouraged public comments. The selenium standard was not unenforceable because a five and zero tenths micrograms per Liter (5.0 µg/L) trigger threshold was part of the agency amendment. The standard was significant with the addition of the trigger threshold. The acute level for selenium was adopted in 1990, but that standard had been vacated at the federal level in 1996. Most surrounding states had deleted that standard. During the public comment period, U.S. EPA was the only commenter opposed to the initial amendment to delete the standard altogether. The division agreed to defer pursuant to the stakeholders’ requests; however, response to stakeholder comments would not be submitted in a formal Statement of Consideration because that part of the process was over.

Representative Lee thanked the division for agreeing to defer and encouraged all agencies to provide for as much public input as possible.

Representative Turner requested that, if this administrative regulation was deferred, staff would follow up with any selenium data and impact studies available from the Department of Fish and Wildlife Resources.

Co-Chair Bell clarified that drinking water (domestic water supply) standards were separate from water quality standards for selenium. The division should strive for consensus with stakeholders with regard to selenium.

A motion was made and seconded by Representative Lee to approve the proposed change. A voice acclamation of those members present followed, and the motion carried.

Other Business: Subcommittee staff announced the following nominations: Senator Givens and Senator Kerr resigned from the Subcommittee, and Senator Bowen resigned as Subcommittee Co-Chair. Subcommittee staff welcomed new Subcommittee members, Senators Sara Beth Gregory and Ernie Harris and Representative Tommy Turner.

Senator Bowen made a motion, seconded by Senator Gregory, to nominate Senator Harris as Senate Co-Chair and to cease nominations. Senator Harris was elected Senate Co-Chair by unanimous voice acclamation of those members present.

Co-Chair Harris stated that this was his first opportunity to serve on this Subcommittee, and he looked forward to learning more about administrative regulations.

Co-Chair Bell welcomed Co-Chair Harris and thanked Senator Bowen for his service as Senate Co-Chair.

Senator Gregory also welcomed the opportunity to serve on this Subcommittee and stated that administrative regulations were an important part of Kentucky governance.

Representative Turner thanked Co-Chair Bell for recognizing him and appreciated the opportunity to serve on this Subcommittee.

The Subcommittee adjourned at 2:15 p.m. until March 12, 2013 at 10 a.m.

Locator Index - Effective Dates

The Locator Index lists all administrative regulations published in VOLUME 39 of the Administrative Register of Kentucky from July 2012 through June 2013. It also lists the page number on which each administrative regulation is published, the effective date of the administrative regulation after it has completed the review process, and other action which may affect the administrative regulation. NOTE: The administrative regulations listed under VOLUME 38 are those administrative regulations that were originally published in VOLUME 38 (last year’s) issues of the Administrative Register of Kentucky but had not yet gone into effect when the 2012 Kentucky Administrative Regulations Service was published.

KRS Index

The KRS Index is a cross-reference of statutes to which administrative regulations relate. These statute numbers are derived from the RELATES TO line of each administrative regulation submitted for publication in VOLUME 39 of the Administrative Register of Kentucky.

Technical Amendment Index

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2012 Kentucky Administrative Regulations Service. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10) or 13A.312(2). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the Administrative Register of Kentucky.

Subject Index

The Subject Index is a general index of administrative regulations published in VOLUME 39 of the Administrative Register of Kentucky, and is mainly broken down by agency.
The administrative regulations listed under VOLUME 38 are those administrative regulations that were originally published in VOLUME 38 (last year's) issues of the Administrative Register but had not yet gone into effect when the 12 bound Volumes were published.

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2012 Kentucky Administrative Regulations Service. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10) or 13A.312(2). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the Administrative Register of Kentucky. NOTE: Finalized copies of the technically amended administrative regulations are available for viewing on the Legislative Research Commission Web site at http://www.lrc.ky.gov/home.htm.
