EMERGENCY ADMINISTRATIVE REGULATIONS

STATEMENT OF EMERGENCY
900 KAR 10:010E

This emergency administrative regulation is being promulgated to establish the criteria for certification as a qualified health plan or qualified dental plan to be offered on the Kentucky Health Benefit Exchange as required by 45 C.F.R. Parts 155 and 156. This administrative regulation must be promulgated on an emergency basis: To meet the deadlines and requirements of 42 C.F.R. 155.105, which sets the standards for approval for Kentucky to operate a state-based Exchange. Pursuant to 42 U.S.C. Section 18031, which sets forth the federal requirements in establishing a state-based Exchange, Kentucky must implement procedures for certification, recertification and decertification of qualified health plans. Failure to enact this administrative regulation on an emergency basis will compromise the ability of the Exchange to timely certify health plans as qualified health plans and dental plans as qualified dental plans. Qualified health plans and qualified dental plans are necessary for the provision of health care services provided in the Commonwealth through the Exchange. This emergency administrative regulation shall be replaced by an ordinary administrative regulation to be concurrently filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 42 U.S.C. Section 18031 and 45 C.F.R. Parts 155 and 156.

2. State compliance standards. KRS 194A.050(1) requires the secretary of the cabinet to promulgate administrative regulations necessary to protect, develop, and maintain the health, personal dignity, integrity, and sufficiency of the individual citizens of the Commonwealth; to operate the programs and fulfill the responsibilities vested in the cabinet, and to implement programs mandated by federal law or to qualify for the receipt of federal funds. This administrative regulation establishes the policies and procedures relating to the certification of a qualified health plan to be offered on the Kentucky Health Benefit Exchange, pursuant to, and in accordance with 42 U.S.C. Section 18031 and 45 C.F.R. Parts 155 and 156.

3. Minimum or uniform standards contained in the federal mandate. The Affordable Care Act establishes the creation of the American Health Benefit Exchange as identified in Section 1311(a) of the Affordable Care Act. The "Kentucky Health Benefit Exchange" (KHBE) is the Kentucky state-based exchange conditionally approved by HHS established by 45 C.F.R. 155.105 to offer a QHP in Kentucky beginning January 1, 2014. An Exchange must make qualified health plans available to qualified individuals and qualified employers. At a minimum, an Exchange must implement procedures for the certification, recertification, and decertification of health plans as qualified health plans. The Affordable Care Act allows for Exchanges to certify health plans as qualified health plans. This certification may be done if: the health plan meets the rules for certification by the U. S. Department of Health and Human Services; and the Exchange determines that making such health plans available through the Exchange is in the interests of qualified individuals and qualified employers in the state or states in which the Exchange operates. The Exchange must require health plans seeking certification as qualified health plans to submit a justification for any premium increase prior to implementation of the increase. These plans must prominently post such information on their websites.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. This administrative regulation does not impose stricter requirements than those required by the federal mandate.

STATEMENT OF EMERGENCY
907 KAR 3:225E

This emergency administrative regulation is being promulgated to establish Medicaid policies regarding specialty intermediate care (IC) clinic services. Specialty intermediate care clinics will provide an array of outpatient services - including medical, behavioral, psychiatric, nutritional, and therapy services - which will be individualized to meet the treatment needs of Medicaid recipients in the community who have a mental illness, intellectual disability, or developmental disability and meet the qualifying criteria. Specialty intermediate care clinics will also provide outpatient services to residents of intermediate care facilities for individuals with an intellectual disability. This action must be taken on an emergency basis in accordance with KRS 13A.190(1)(a) with the terms of the Order of Settlement Agreement to reimburse the Cabinet for Health and Family Services and the United States Department of Justice to prevent a loss of federal funds.

Failure to enact this administrative regulation on an emergency basis in accordance with KRS 13A.190(1)(a) will compromise the Cabinet’s ability to comply with the terms of the Strategic Action Plan incorporated into the Commonwealth’s Settlement Agreement with the United States Department of Justice and to prevent a loss of federal funds. Failure to enact this administrative regulation on an emergency basis in accordance with KRS 13A.190(1)(a) will compromise the Cabinet’s ability to comply with the terms of the Strategic Action Plan incorporated into the Commonwealth’s Settlement Agreement with the United States Department of Justice and to prevent a loss of federal funds. The Strategic Action Plan calls for the establishment of specialty intermediate care clinics on the grounds of state-owned intermediate care facilities for individuals with intellectual disability as a means of serving individuals in the most integrated setting appropriate to their needs. This emergency administrative regulation shall be replaced by an ordinary administrative regulation to be concurrently filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Dinah T. Bevington
(1) Provide a brief summary of:
(a) What this administrative regulation does: This regulation addresses vacancies, detail to special duty and temporary overlap in the classified service.
(b) The necessity of this administrative regulation: This regulation is necessary for the effective and proper application of requirements for employees in the classified service.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 18A.030 and 18A.110 (1)(c), (d), (g) and (7) require the Secretary of Personnel to promulgate comprehensive administrative regulations for the classified service governing the classification and compensation plan. This regulation addresses the handling of positions within the classified service.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The regulation currently specifies requirements for vacancies, detail to special duty and temporary overlap for employees in the classified service.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This regulation, as amended, changes the period of temporary overlap from sixty (60) days to ninety (90) days.
(b) The necessity of the amendment to this administrative regulation: The amendment is necessary to promote efficiency in the classified service. The change from sixty (60) days to ninety (90) days is necessary because this is the mechanism to allow an employee to perform the duties of another employee who may be off on extended medical or military leave. This will assist in cross-training efforts as well, such as when an employee is separating from state service and another employee has been selected for the position. Additionally, the life of a register certificate during which an appointment or promotion action must be taken is ninety (90) days (101 KAR 2:066). This amendment will make these time frames consistent.
(c) How the amendment conforms to the content of the authorizing statutes: This amendment complies with KRS 18A.030(2), 18A.110(1)(c)(d)(g) and (7).
(d) How the amendment will assist in the effective administration of the statutes: This amendment will provide relief to state agencies by ensuring work is performed in the absence of key personnel.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All KRS Chapter 18A classified employees are subject to the provisions of this regulation.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No actions are required to comply with the amendment.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? Since there are no actions required to comply with the amendment, there are no additional costs anticipated to each of the entities identified.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? This change will provide flexibility to agencies to ensure the continued operation of services. A temporary overlap can be used for training purposes such as when an employee is separating from state service and another employee has been selected for the position. A temporary overlap can also be used to place an employee in a position that is currently occupied, but the incumbent employee is excused from work by medical or military leave. A temporary overlap has to be approved by the Secretary of the Personnel Cabinet and consecutive overlaps are
discouraged. The extra time will assist agencies and eliminate administrative paperwork. Executive Branch agencies will not have to use the 90 days, but this provides relief for long term situations.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: This regulation, as amended, is not anticipated to create additional costs. This amendment does not result in the hiring of additional personnel, but instead assists in the coverage of current work demands by current employees.

(b) On a continuing basis: This regulation, as amended, is not anticipated to create additional costs.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation? If any, the funding for any additional cost will be at the agency level. This is a discretionary personnel action that can be utilized by an agency and is not required.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: This regulation, as amended, is not anticipated to require additional funding.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This regulation, as amended, is not anticipated to generate any new or additional fees.

(9) TIERING: Is tiering applied? No. All merit, classified employees are treated the same.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Dinah T. Bevington
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes requirements for the employment, promotion, transfer or discipline of employees in unclassified service.
(b) The necessity of this administrative regulation: This regulation is necessary for the effective and proper application of requirements for employees in the unclassified service.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 18A.030 allows the Secretary of Personnel to promulgate comprehensive administrative regulations consistent with the provisions of KRS Chapters 13A and 18A.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation establishes requirements for the employment, promotion, transfer or discipline of employees in unclassified service. This regulation assists in the effective administration of the unclassified service.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This regulation, as amended, changes the period of temporary overlap from sixty (60) days to ninety (90) days. Additionally, the amendments will clarify that prior notice is not necessary for the termination of an unclassified employee, but an unclassified employee is entitled to notice of termination. Finally, the amendments clarify that transfers to the unclassified service but be made from employees within the unclassified service.
(b) The necessity of the amendment to this administrative regulation: The amendment is necessary to promote efficiency in the unclassified service. The change from 60 days to 90 days is necessary because this is the mechanism to allow an employee to perform the duties of another employee who may be off on medical or military leave, and this is consistent with the amendments within the classified regulation. Additional clarification is necessary pertaining to the notice required for unclassified employees and the handling of transfer actions within the unclassified service.
(c) How the amendment conforms to the content of the authorizing statutes: This amendment complies with KRS 18A.030(2), 18A110(1)(c)(d)(g) and (7).
(d) How the amendment will assist in the effective administration of the statutes: This amendment will provide relief to state agencies by ensuring work is performed in the absence of key personnel.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All KRS Chapter 18A unclassified employees and those employees subject to 101 KAR 3:050.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No actions are required to comply with the amendment.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Since there are no actions required to comply with the amendment, there are no additional costs anticipated to each of the entities identified.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): This change will provide flexibility to agencies to ensure the continued operation of services. A temporary overlap can be used for training purposes such as when an employee is separating from state service and another employee has been selected for the position. A temporary overlap can also be used to place an employee in a position that is currently occupied but the incumbent employee is excused from work by medical or military leave. A temporary overlap has to be approved by the Secretary of the Personnel Cabinet and consecutive overlaps are discouraged. The extra time will assist agencies and eliminate administrative paperwork. Executive Branch agencies will not have to use the ninety (90) days, but this provides relief for long term situations.
(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: It is not anticipated that this regulation, as amended, will result in additional costs.
(b) On a continuing basis: It is not anticipated that this regulation, as amended, will result in additional costs.
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: It is not anticipated that this regulation, as amended, will result in additional costs.
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: This regulation, as amended, is not anticipated to require additional funding for agencies governed by KRS Chapter 18A.
(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This regulation, as amended, is not anticipated to generate any new or
additional fees.

(9) TIERING: Is tiering applied? No. All unclassified employees are treated the same.

(2) A licensee may accept an assignment requiring education or experience outside his or her own field of competence, but only to the extent that his or her services are restricted to those parts of the project in which the licensee is competent. All other parts of the project shall be certified by licensed associates, consultants or employees.

(3) If a question of the competence of a licensee to perform a professional assignment in a specific technical field is an issue and cannot be otherwise resolved to the satisfaction of the board, the board, upon a majority vote or upon request by the licensee, may require the licensee to satisfactorily complete an examination the board deems appropriate and relevant.

Section 8. Except as provided by this section, a licensee shall not certify any work product dealing with subject matter in which he or she lacks competence by virtue of education or experience, or any work product not prepared by him or her under his or her direct supervisory control.

(5) A professional engineer may incorporate in his or her work product the designs of manufactured or standard components developed by manufacturers, suppliers or professional or technical societies and associations.

(6) If, in the professional land surveyor's reasonable judgment, his or her personal participation is not required in performing a particular aspect of a project, he or she may delegate those tasks to an employee, if all work is actually reviewed by the licensee.

(7) The need for a professional land surveyor to make a site visit shall be dictated by the nature, size and complexity of a project. However, the failure to make a site visit in a substantial percentage of surveys may be construed as a failure to exercise direct supervisory control.

(8) While an employee may investigate the circumstances of a potential project, only a licensee may establish the scope of work to be performed.
Section 9. The professional engineer or professional land surveyor shall avoid conduct likely to discredit or reflect unfavorably upon the dignity or honor of his or her profession.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Rose Mack

(1) Provide a brief summary of:
(a) What this administrative regulation does: This regulation establishes furbearer hunting and trapping seasons, bag limits, legal methods of take, and other furbearer hunting and trapping requirements.

(b) The necessity of this administrative regulation: This regulation is necessary to provide adequate furbearer hunting and trapping opportunities and to properly manage furbearer populations in Kentucky.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 150.025(1) authorizes the department to promulgate administrative regulations establishing open seasons for the taking of wildlife, to regulate bag limits, to regulate any method of taking, and to make these requirements apply to a limited area. KRS 150.175(7),(9) authorizes the department to issue licenses, permits, and tags for hunting and trapping. KRS 150.410 authorizes the department to regulate trap tags, trap violation, and trap placement to protect domestic animals. Chapter 29 of the 2013 Acts of the General Assembly authorizes the department to promulgate administrative regulations which allow coyote hunting after daylight hours.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in administering the above statutes by defining the seasons, bag limits, and methods of take for furbearers in Kentucky.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment establishes a year-round night-time hunting season for coyotes. Hunters may use lights or other means to make coyotes visible at night from February 1 through May 31. This amendment also prohibits the use of artificial light and night-vision equipment by coyote hunters when operating a mechanized vehicle, restricts weapon use to shotguns, and prohibits the use of single projectile ammunition when hunting coyotes after daylight hours. This amendment also establishes weapon restrictions for the take of furbearers.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to allow increased opportunity for the harvest of coyotes in Kentucky. As coyotes have spread throughout the eastern U.S., interest in predator hunting has exhibited a dramatic increase over the last ten (10) years. Landowners suffering predation from coyotes will be able to employ night hunting as a removal tool. Hunting at night can be an effective practice as coyotes are generally less wary than during daylight hours. The establishment of minimum weapon restrictions to take coyotes will prohibit the use of firearms that are not sufficient for the effective harvest of furbearers.

(c) How the amendment conforms to the content of the authorizing statutes: See (1)(c) above.

(d) How the amendment will assist in the effective administration of the statutes: See (1)(d) above.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All those who hunt or trap furbearers could potentially benefit from these regulatory amendments. Landowners who are suffering coyote damage may also benefit. There is not a current estimate for the number of hunters who pursue coyotes in Kentucky.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Legal hunters may now pursue and take coyotes after daylight hours on a year-round basis; however, hunters may only use artificial light or other means designed to make wildlife visible at night from February 1 through May 31. Artificial light or other means designed to make wildlife visible shall not be connected to or cast from a mechanized vehicle when hunting coyotes after daylight hours. Night hunting for coyotes is limited to shotguns only using a shot shell that does not contain a single projectile. In addition, any person hunting furbearers with an air rifle shall only use pellets of .22 caliber and greater.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No additional cost to hunters.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Hunters that pursue coyotes will collectively benefit from these amendments that establish a night-time hunting season when coyotes are generally less wary and more susceptible to harvest. Landowners suffering livestock depredation from coyotes may significantly benefit from these amendments that allow the legal year-round harvest of coyotes at night.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
(a) Initially: There will be no additional cost to the department to implement this administrative regulation.

(b) On a continuing basis: There will be no additional cost to the department on a continuing basis.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The source of funding is the State Game and Fish Fund.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: It will not be necessary to increase any fees or to increase funding to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation does not establish fees or directly or indirectly increase any fees.

(9) TIERING: Is tiering applied? No. Tiering is not applied because all hunters of furbearers in Kentucky must comply with the requirements of this administrative regulation.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

(2) Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 150.025(1), 150.175(7),(9), (5), 150.410, and Chapter 29 of the 2013 Acts of the General Assembly.

(3) Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is in effect:
(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties,
fire departments, or school districts) for the first year? No additional revenue will be generated by this administrative regulation during the first year.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Buddy Hoskinson

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the requirement that entities engaged in contract construction trades pay contributions equal to the maximum rate of contributions under KRS 341.270. The regulation further sets forth the method by which an entity is determined to be engaged in a contract construction trade. Currently, the regulation incorporates the 2002 Edition of the United States North American Industry Classification System (NAICS) Manual as a reference for making the determination. If the service provided by the entity is listed in Major Section 23, Subsections 236, 237, and 238, thereof, it is considered contract construction.
(b) The necessity of this administrative regulation: This administrative regulation presently uses the NAICS Manual to determine whether services are considered a contract construction. The 2002 NAICS Manual has been incorporated by reference into the regulation. In order to receive federal funds to administrate portions of its research and statistics programs, the state must use the NAICS manual for assigning classifications. This amendment is necessary due to revisions of the NAICS Manual as set forth in the latest edition (2012 Edition).
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 341.272 requires that any new domestic corporations or any foreign corporations authorized to do business in this state, or any other legal entity engaged in the contract construction trade shall pay contributions equal to the maximum contribution rate under the rate schedule. The statute authorizes the contribution rate and the regulation conforms to the statute by determining the NAICS Manual shall be used to determine those entities covered under the statute.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation establishes the method for determining entities engaged in contract construction. The regulation identifies the entities that will be required to pay contribution rates for contract construction trades as required by the statute.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment will update the document incorporated by reference into the current version of the administrative regulation. The amendment will incorporate the 2012 edition of the NAICS Manual, the most recent version.
(b) The necessity of the amendment to this administrative regulation: This amendment is necessary due to revisions of the NAICS Manual as set forth in the 2012 Edition.
(c) How the amendment conforms to the content of the authorizing statutes: The statute authorizes the contribution rate for contract construction trades and the regulation conforms to the statute by determining the NAICS Manual shall be used to determine those entities covered under the statute.
(d) How the amendment will assist in the effective administration of the statutes: This amendment will facilitate more accurate classification of entities engaged in contract construction trades by using the most recent edition of the NAICS Manual with any updated information regarding contract construction classifications. The use of the updated edition will make classification uniform and consistent with all states that use the NAICS Manual as the method for classification of contract construction services and trades.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Entities engaged in contract construction trades will be affected by this administrative regulation. There are 9,070 employers currently identified as providing services under contract construction. The number of individuals affected is approximately 69,500.
(e) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: If an entity is classified as a contract construction trade, its contribution rate will be set at the maximum contribution rate under KRS 341.270. The entity will be required to pay its contributions at that rate. The change will not affect those entities already identified and paying contributions under the contract construction rate.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): The cost will be the amount of the contributions based on the maximum contribution rate. The change will not affect those entities already identified and paying contributions under the contract construction rate.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The contributions will be included in the entity’s unemployment insurance reserve account for use in paying unemployment insurance claims charged against the entity.
(d) How does the amendment maintain or improve the administrative body to implement this administrative regulation:
(a) Initially: There will be nominal costs associated with the implementation of the change.
(b) On a continuing basis: There will be nominal costs associated with the implementation of this change on a continuing basis.
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation? Unemployment Insurance administrative funds will be used to make any necessary implementation changes.
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new or by the change if it is an amendment. There will be no fees necessary for this change. Any technical changes necessary will be funded by unemployment insurance administrative funds.
(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees. This administrative regulation does not establish any fees or directly or indirectly increase any fees.
(9) TIERING: Is tiering applied? Tiering is not applicable because all taxpayers identified by the regulation are treated the same.
1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? Only those employers who have elected to pay quarterly unemployment taxes will be impacted. Most government employers elect to reimburse benefits paid out in lieu of paying quarterly taxes.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 341.272.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

No additional revenue will be generated with the implementation of this administrative regulation for the first year.

No additional revenue will be generated with the implementation of this administrative regulation for subsequent years.

(c) How much will it cost to administer this program for the first full year? Implementation of this amendment will create no additional administrative costs in the first full year.

(d) How much will it cost to administer this program for subsequent years? There will be no additional costs to implement this program for subsequent years.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

**FEDERAL MANDATE ANALYSIS COMPARISON**

1. Federal Statute or regulation constituting the federal mandate. 34 C.F.R. 303 Subpart A—General list the definitions commonly used in early intervention services. As a recipient of federal Part C monies, Kentucky Early Intervention Services is mandated to fully comply with all federal statutes. The changes in the definitions bring KEIS into full compliance with this federal statute and are required for continued receipt of those funds.
2. State compliance standards. KRS 200.650 charges the Cabinet for Health and Family Services and the Department for Public Health to comply with federal law as it pertains to services for infants and toddlers with disabilities and their families.
3. Minimum or uniform standards contained in the federal mandate. By revising this administrative regulation to mirror the federal language regarding definitions the state will be in full compliance under this part of the federal statute.
4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This amendment does not impose stricter than federal requirements.
5. Justification for the imposition of stricter standard, additional or different responsibilities or requirement. This amendment does not impose stricter than federal requirements.

(a) How the amendment will change the existing administrative regulation: The amendments to this regulation remove obsolete language and procedures. Additional guidance is provided for clarity.
(b) The necessity of the amendment to this administrative regulation: Changes are necessary to fully comply with federal regulations found at 34 C.F.R. 303 and so that regulation reflects current practice and program reorganization.
(c) How the amendment conforms to the content of the authorizing statute: KRS 200.650 (6) and KRS 200.652 (3) require a statewide system, comprehensive early intervention system that is in compliance with federal statute and regulation.
(d) How the amendment will assist in the effective administration of the statutes: The changes to this regulation will provide guidance to the POE in matters related to child find or public awareness activities. Federal regulations require that all potentially eligible children be placed into the service system as soon as possible. The enhanced list of those identified as a primary referral source will ensure compliance with this part of federal regulation. The changes to this regulation will also enhance the role of service coordinator to fully comply with federal regulation. The service coordinator is the leader of the individualized family service plan team and the updates to this regulation will elevate their role as team leader.
(3) List the type and number of individuals, businesses, organizations, state and local governments affected by the administrative regulation: Approximately 1,500 early intervention providers, including POE staff, will be affected by these regulations. Over 6,000 eligible children and their families will be affected by the service changes related to the regulations. No state or local governments are affected by the administrative regulation.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The primary referral sources, early intervention providers, including service coordinators and POE staff, will need to learn and implement the amended regulations. Families currently receiving early intervention services will need to understand how the system operates so that they are informed consumers.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? The revisions to this administrative regulation do not cost the entities affected by the amended regulations any additional dollars.
(c) As a result of the compliance, what benefits will accrue to the entities identified in question (3): The amended regulations will help to identify children potentially eligible for early intervention services, and will benefit early intervention providers, including service coordinators by providing needed clarity so that they are more effective in their roles within the system.
(5) Provide an estimate of how much it will cost to implement this regulation:
(a) Initially: No new costs are incurred in implementing this regulation.
(b) On a continuing basis: No continuing costs are incurred in implementing this regulation.

(1) Provide a brief summary of 902 KAR 30:120:
(a) What this administrative regulation does: This administrative regulation provides requirements to establish a child’s initial eligibility and the annual redetermination of eligibility for the Kentucky Early Intervention System. The requirements for child evaluation are included in this regulation.
(b) The necessity of this administrative regulation:
States must establish the specific detail for eligibility to receive early intervention services. While federal statute and regulation describe the mandatory populations of infants and toddlers to be served under Part C of the Individuals with Disabilities Education Improvement Act (Pub.L. 108-446), states set the specific procedures and criteria for eligibility.
(c) How this administrative regulation conforms to the content of the authorizing statute: KRS 200.650-200.676 requires the state to develop and implement a comprehensive, statewide early intervention system that complies with federal statute and regulation. KRS 200.652 (2) specifically requires the state to provide assistance and support to the family of an infant or toddler with a disability.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This regulation will ensure that children who are eligible for early intervention service are appropriately identified. It also provides for the requirement for continued eligibility for early intervention services.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment provides specific guidance for evaluation and assessment, reflecting current program structure and best practices in the field of early intervention. It also removes obsolete and redundant language. Required federal regulatory language is also added to the administrative regulation. The listing of eligible medical conditions is updated. Criteria for eligibility by developmental delay is unchanged.
(b) The necessity of the amendment to this administrative regulation: The amendments are necessary to reduce costs for unnecessary evaluations and assessments and to specify procedures for federal requirements for reporting the entry and exit status of all children served by Part C of Pub.L. 108-446 (Federal requirement is found at 34 C.F.R. 303.721).
(c) How the amendment conforms to the content of the authorizing statute: KRS 200.650 (6) and KRS 200.652 (3) require a statewide system, comprehensive early intervention system that is in compliance with federal statute and regulation.
(d) How the amendment will assist in the effective administration of the statute: The changes to the requirements for evaluation and assessment will allow the state regulations to align with federal regulations.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Paula Goff

(1) Provide a brief summary of 902 KAR 30:130:

The purpose of this administrative regulation outlines the requirements for assessment, service planning through the development of an individualized family service plan and assistive technology within the Kentucky Early Intervention System.

(b) The necessity of this administrative regulation: This regulation is necessary to provide guidance to service coordinators, primary level evaluation providers, intensive level evaluation teams and other service providers on child assessments, service planning and assistive technology. Assessment is a service that all children in the Kentucky Early Intervention System receive and provides the foundational information to develop service plans. This regulation outlines new requirements for a family assessment. This regulation also lists the requirements for assistive technology service and device.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 200.650(6) requires the state to be in compliance with federal statute and regulations. KRS 200.664 outlines the legal requirements for the development of an individualized family service plan.

(d) How this administrative regulation currently assists or will assist in the effectiveness of the administration of the statute: The regulation provides guidance and clarity for the implementation of the early intervention system in compliance with federal statute and regulation.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment to this regulation adds guidance for the need for a required family assessment. It also provides greater detail for the requesting of assistive technology devices. The language regarding service planning is not new language but has been revised to align the state requirements to the newly released federal regulations.

(b) The necessity of the amendment to this administrative regulation: Language consistent with applicable federal regulations and statute is added to ensure compliance with federal regulation.

(c) How the amendment conforms to the content of the authorizing statutes: KRS 200.650(6) and KRS 200.652(3) require a statewide system, comprehensive early intervention system that is in compliance with federal statute and regulation.

(d) How the amendment will assist in the effective administration of the statutes: The changes to this regulation will assist the state in creating a more streamlined system that is easier to supervise and monitor. The changes to the requirements for the IFSP will bring IFSPs into alignment with federal regulations. Also, regulations will now reflect the current practices of assistive technology thus eliminating confusion between regulation and practice.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by the administrative regulation: Approximately 1,500 early intervention providers, including Point of Entry staff, will be affected by these regulations. Over 6,000 eligible children and their families will be affected by the service changes related to the regulations. No state or local governments are affected by the administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: The early intervention providers, including service coordinators, will need to learn and implement the amended regulations. Families currently receiving early intervention services will need to understand how the system operates so that they are informed consumers.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No additional costs will be associated with the amendment to this administrative regulation.

(c) As a result of the compliance, what benefits will accrue to the entities identified in question (3): The amended regulations will benefit early intervention providers, including service coordinators by providing needed clarity so that they are more effective in their roles within the system. Families will benefit by not undergoing unnecessary and duplicative testing and will be more informed consumers of the public services. This increased knowledge of the early intervention system may lead to increased supports and progress for their children.

(5) Provide an estimate of how much it will cost to implement this regulation:

(a) Initially: No new costs are incurred in implementing this regulation.

(b) On a continuing basis: No new costs are incurred in implementing this regulation.

(6) What is the source of the funding that will be used for the implementation and enforcement of the administrative regulation: Federal Part C funds and state general funds will be used to implement this administrative regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding is necessary to implement this administrative regulation or its amendments.

(8) State whether or not this administrative regulation establishes fees and directly or indirectly increases any fees: There is no direct or indirect increase in fees.

(9) TIERING: Is tiering applied? Tiering is not applied because First Steps regulations apply consistently across all children and families participating in the First Steps program as well as all providers participating in the First Steps program.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Paula Goff
(1) Provide a brief summary of 902 KAR 30:150:
(a) What this administration regulation does: This regulation outlines the process for provider enrollment with the Kentucky Early Intervention System program and defines the minimum qualifications for the professionals or disciplines that provide early intervention services.
(b) The necessity of this administrative regulation: 902 KAR 30:150 is necessary to define the professionals or disciplines that may provide early intervention services.

This administrative regulation conforms to the content of the authorizing statute: KRS 200.650 (6) requires the cabinet to comply with federal law as it pertains to services for infants and toddlers with disabilities and their families. KRS 200.666 requires the cabinet to monitor personnel standards for providers wishing to contract with Kentucky Early Intervention System.

(d) How this administrative regulation currently assists in the effective administration of the statutes: The regulation is needed to provide guidance and clarity for the implementation of the early intervention system in compliance with federal statute and regulation.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change the existing administrative regulation: The amendment to this regulation removes the allowance for a developmental interventionist to hold an out of state certificate and removes the discipline of nutritionist which has been removed from federal regulations. The qualifications for a district child evaluation specialist have been added to this amendment. The qualifications for an intensive level evaluation team and a neonatal follow up program team have been moved from 902 KAR 30:120 to this regulation. The requirements for the assistive technology service in First Steps; and
(b) The necessity of the amendment to this administrative regulation: Because changes in the federal regulations eliminated nutritionist and added sign language and cued speech the changes made this regulation more detailed and streamlined the other regulations that were changed by moving the requirements for the intensive level evaluation team, neonatal follow up program team and assistive technology monitoring committee qualifications.
(c) How the amendment conforms to the content of the authorizing statutes: KRS 200.650 (6) requires that the state be in compliance with federal law and KRS 200.652 (3) requires a statewide system of early intervention services. The amendments to the administrative regulations accomplish these two requirements.
(d) How the amendment will assist in the effective administration of the statutes: These amendments will help to assure compliance with federal statute and regulation.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by the administrative regulation: Approximately 1,500 early intervention providers, including Point of Entry staff, will be affected by these regulations. No state or local governments are affected by the administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Regulated entities will continue to provide early intervention services as they currently practice. Profes-
sionals who practice the discipline of sign language and cued speech language will be able to enroll as First Steps providers. Those who are wishing to enroll as an intensive level evaluation team, a neonatal follow up program team, an assistive technology monitoring committee member or as a district child evaluation specialist will have to be approved by the state lead agency.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There are no additional costs to entities to comply with the amended regulations.

(c) As a result of the compliance, what benefits will accrue to the entities identified in question (3): Individuals who meet the early intervention provider qualifications are eligible to enroll as a provider for and be paid by the First Steps system.

(5) Provide an estimate of how much it will cost to implement this regulation:

(a) Initially: There are no costs to implement the amendment to this regulation.

(b) On a continuing basis: There are no costs to implement the amendment to this regulation.

(6) What is the source of the funding that will be used for the implementation and enforcement of the administrative regulation? Federal Part C funds, state general funds, and Medicaid funds are used to support the early intervention system.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding is necessary to implement this amended administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: No, this administrative regulation does not directly or indirectly increase any fees.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the service coverage and reimbursement policies for the Medicaid Model Waiver II services.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing the service coverage and reimbursement policies for the Medicaid Model Waiver II services.
(d) The extent to which this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing the service coverage and reimbursement policies for the Medicaid Model Waiver II services.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendment eliminates the requirement that a private duty nursing agency must meet home and community based waiver provider requirements in order to provide Model Waiver II services.
(b) The necessity of the amendment to this administrative regulation: The amendment is necessary to enable private duty nursing agencies to provide Model Waiver II services as the demand exceeds the availability of providers.
(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the content of the authorizing statutes by ensuring that Medicaid recipients in need of Model Waiver II services have access to the services.
(d) How the amendment will assist in the effective administration of the statutes: The amendment will assist in the effective administration of the authorizing statutes by ensuring that Medicaid recipients in need of Model Waiver II services have access to the services.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Model Waiver II service recipients will be affected by the amendment and private duty nursing agencies who wish to provide Model Waiver II services will be affected by the amendment. As of March 1, 2013, there were approximately fifty (50) individuals receiving Model Waiver II services. The Department for Medicaid Services (DMS) anticipates that at least three (3) private duty nursing agencies will be able to provide Model Waiver II services as independent providers.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: A private duty nursing agency which wishes to become a Model Waiver II service provider will have to enroll as a Medicaid provider.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? Private duty nursing agencies wishing to provide Model Waiver II services may experience some administrative cost associated with becoming a provider.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? Private duty nursing agencies who become Model Waiver II service providers will be able to be reimbursed by DMS for providing services. Model Waiver II service recipients will be expected to benefit by the increased number of Model Waiver II service providers available to provide services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: DMS anticipates that the net result will not increase cost because some home and community based waiver providers have been subcontracting with private duty nursing agencies. Additionally, individuals who might be unable to receive Model Waiver II services, due to lack of access to providers, could have to be admitted to a nursing facility or intermediate care facility for individuals with an intellectual disability (ICF IID). Model Waiver II services cost less than institutional care, thus, authorizing private duty nursing agencies to provide Model Waiver II services helps prevent DMS from experiencing more institutional care cost.
(b) On a continuing basis: DMS anticipates that the net result will not increase cost because some home and community based waiver providers have been subcontracting with private duty nursing agencies. Additionally, individuals who might be unable to receive Model Waiver II services, due to lack of access to providers, could have to be admitted to a nursing facility or intermediate care facility for individuals with an intellectual disability (ICF IID). Model Waiver II services cost less than institutional care, thus, authorizing private duty nursing agencies to provide Model Waiver II services helps prevent DMS from experiencing more institutional care cost.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act and state matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Neither an increase in fees nor funding is necessary.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the requirements apply equally to the regulated entities.

To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."
3. Minimum or uniform standards contained in the federal mandate. Model Waiver II services are not federally mandated.
4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 42 U.S.C. Section 18031 and 45 C.F.R. Parts 155 and 156.

2. State compliance standards. KRS 194A.050(1) requires the secretary of the cabinet to promulgate administrative regulations necessary to protect, develop, and maintain the health, personal dignity, integrity, and sufficiency of the individual citizens of the Commonwealth; to operate the programs and fulfill the responsibilities vested in the cabinet, and to implement programs mandated by federal law or authorized by receipt of federal funds. This administrative regulation establishes the policies and procedures relating to the certification of a qualified health plan to be offered on the Kentucky Health Benefit Exchange, pursuant to, and in accordance with 42 U.S.C. Section 18031 and 45 C.F.R. Parts 155 and 156.

3. Minimum or uniform standards contained in the federal mandate. The Affordable Care Act establishes the creation of the American Health Benefit Exchange as identified in Section 1311(a) of the Affordable Care Act. The “Kentucky Health Benefit Exchange” (KHBE) is the Kentucky state-based exchange conditionally approved by HHS established by 45 C.F.R. 155.105 to offer a QHP in Kentucky beginning January 1, 2014. An Exchange must make qualified health plans available to qualified individuals and qualified employers, and an Exchange must implement procedures for the certification, recertification, and decertification of health plans as qualified health plans. The Affordable Care Act allows for Exchanges to certify health plans as qualified health plans. This certification may be done if: the health plan meets the rules for certification by the U.S. Department of Health and Human Services; and the Exchange determines that making such health plans available through the Exchange is in the interest of qualified individuals and qualified employers in the state or states in which the Exchange operates. The Exchange must require health plans seeking certification as qualified health plans to submit a justification for any premium increase prior to implementation of the increase. These plans must prominently post such information on their websites.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. This administrative regulation does not impose stricter requirements than those required by the federal mandate.

The Administrative Regulation Review Subcommittee met on Tuesday, May 14, 2013, and submits this report:

The Subcommittee determined that the following administrative regulation did not comply with statutory requirements and was deficient:

CABINET FOR HEALTH AND FAMILY SERVICES: Department for Medicaid Services: Commissioner’s Office: Managed Care
907 KAR 17:005 & E. Definitions for 907 KAR Chapter 17.
Christina Heavrin, general counsel: Lawrence Kissner, commission’s representative; and Stuart Owen, a patient than the department. Peter Harris, MD, PhD., and Chris Slucm, VP, Clinical Services, represented MHNet and testified via teleconference in support of this administrative regulation. Nancy Galvagni, Kentucky Hospital Association; Nina Eisner, CEO, The Ridge Behavioral Health; and Kelli Reese, director of admissions and utilization review, The Ridge Behavioral Health, appeared in opposition to this administrative regulation.

Representative Damron stated his rationale for his proposed amendments to this administrative regulation. Coventry Life Insurance owned MHNet; therefore, the insurance company was determining medical necessity payments to its own providing firm. Many MCOs were still owed money. The criteria used by MHNet is an entirely different system than that used by most providers, and it drives up healthcare costs. The use of the criteria by region 3 within the company that developed it did not provide a level playing field in Kentucky. His amendment would specifically require recognition of Interqual or Milliman Care Guidelines as the nationally recognized standards of care and written criteria.

Dr. Harris, testifying via teleconference, stated that MHNet’s program was developed by providers and providers were still part of MHNet’s administration. MHNet’s medical necessity criteria was available online and had been scientifically validated. Providers made the final decision regarding medical care. MHNet differed from other programs in that its medical necessity criteria were never commercially available, though publicly accessible for review online. The criteria had been in place for sixteen (16) years, and the criteria was state specific, as appropriate. Criteria could be modified as necessary because other entities were not involved in establishing the standards. Dr. Harris asked the Subcommittee to oppose the proposed amendment to change the definition for “nationally-recognized standards of care and written criteria.”

Mr. Slucm stated that problems with the medical necessity criteria could be addressed by modification of the criteria if the criteria continued to be solely established by MHNet. In response to questions by Representative Damron, Mr. Slucm stated that MHNet was owned by Coventry Life Insurance and profits for MHNet were reported to Coventry Life Insurance.

Ms. Galvagni stated that MHNet’s medical necessity criteria were not comparable to Interqual’s criteria. The Kentucky Hospital Association was opposed to a nonnational standard.

Ms. Eisner stated that MHNet experienced more denials and readmissions than more objective medical necessity criteria. She stated that even MHNet’s representative, Dr. Harris, described the criteria as a “guide.” MHNet did not update criteria, while Interqual had made many revisions. Readmission rates were double with MHNet compared to all other MCOs combined.

Ms. Reese stated that some cases that were denied pursuant to MHNet’s criteria were approved for Medicaid under Interqual. The MHNet’s criteria provided more flexibility, but sometimes resulted in different answers from different MHNet representatives because of interpretation differences.

In response to a question by Senator Bowen, Ms. Eisner stated that other MCOs used Interqual. Dr. Harris stated that MHNet’s criteria were revised as necessary and were available online for review. Interqual was inflexible to unique patient needs. Mental health was a nuanced science. Physician providers made final medical decisions.

Co-Chair Bell stated that the MHNet system limited access. Patients did not get appropriate treatment at first application; therefore, readmission rates were higher. MCOs were not getting paid in a timely fashion. In response, Dr. Harris stated that each patient was unique, and the more flexible standards were appropriate. For example, not all patients who discussed suicide frequently needed to receive inpatient treatment. Outpatient treatment was still appropriate on a case-by-case basis. Partnership between the provider and the provider was a better system than an adversarial system.

In response, Co-Chair Bell stated that treatment for a patient frequently discussing suicide should not be limited by financial motives. Dr. Harris stated that sometimes inpatient treatment was worse for a patient than outpatient care.

Mr. Slucm stated that the readmission rate for Medicaid was double that of patients with other payors generally.

In response to a question by Senator Bowen, Dr. Harris stated that other states were not restricted to Interqual criteria. Some states had specific criteria, especially pertaining to substance abuse treatment.

Representative Lee stated that readmission rates were not all of the same acuity. The comparison was not a direct one. Criteria should be established by contractual agreement or by statute, not by administrative regulation.

Ms. Heavrin stated that the cabinet had approved the criteria established in all MCO contracts. Kentucky’s Region 3 used the Milliman Cure Guidelines rather than Interqual. Mr. Kissner stated that Coventry Life Insurance had been sued based on Interqual’s criteria. The cabinet did not agree to the amendment to revise the definition of “nationally-recognized standards of care and written criteria.”

Co-Chair Bell stated that the cabinet’s function was to protect the health of Kentucky’s citizens in an efficient manner. The cabinet had a fiduciary duty to the Commonwealth, and was responsible for balancing treatment against cost. Youth with mental conditions were being incarcerated at an alarming rate because individuals did not meet treatment criteria. MCOs had destroyed mental health access in Glasgow and Barren County. Many providers had not received payment for eight (8) or nine (9) months. The cabinet did not appear to be fulfilling its statutory function.

In response to questions by Co-Chair Bell, Ms. Heavrin stated that the Department of Insurance approves MCOs, which were required to have certain reserves to ensure against bankruptcy. Mr. Kissner stated that further questions regarding reserves should be
addressed to the Department of Insurance; however, Kentucky required 100 percent risk-based capital reserves.

A motion was made and seconded to approve the following amendments: to amend Section 1 to: (1) clarify that an “authorized representative” includes, for an enrollee who is authorized by Kentucky law to provide written consent, an individual or entity acting on behalf of, and with written consent from, an enrollee; or a legal guardian; and (2) comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

A motion was made and seconded to approve the following amendments: to amend Section 1 to insert a definition for “nationally-recognized standards of care and written criteria” and to renumber subsequent subsections accordingly. Because the agency did not agree to these amendments, the Subcommittee could not approve the amendments.

A motion was made and seconded to find 907 KAR 17:005, as amended, deficient. A roll call vote was conducted. With six (6) votes in favor of a finding of deficiency, two (2) votes opposed to a finding of deficiency, and one abstention, this administrative regulation as amended by the first amendment was found deficient.

Administrative Regulations Reviewed by the Subcommittee:

GOVERNOR’S OFFICE: Kentucky Department of Veterans’ Affairs: Office of Kentucky Veterans’ Centers: State Veterans’ Nursing Homes

17 KAR 3:010. Calculation of resident charges at state veterans’ nursing homes. Gilda Hill, executive director; Ken Lucas, commissioner; and Dennis Shepherd, attorney, represented the department.

In response to questions by Representative Damron, Ms. Hill stated that these administrative regulations did not change the maximum charge of $3,700, which was raised in 2012 in another administrative regulation. If residents qualified for Medicare or Medicaid, those residents would be asked to apply for those programs and the billing would be directed accordingly. Contract nurses were used if facilities were short staffed, such as during influenza and vacation seasons, and overtime was limited as much as practicable. Waiting lists at East and West were shorter than the waiting list for Thomas Hood. The department strove to maintain a good staffing ratio. Masser training was still provided as the department was financially able and as time permitted. Mr. Lucas stated that JECVO (Joint Executive Council of Veterans’ Organizations) had previously been concerned about the stigma of veterans being classified as Medicare or Medicaid eligible and that the changes might allow nonveterans to become residents in these facilities. A Kentucky statute prohibited nonveterans from being classified as Medicare or Medicaid eligible; therefore, the procedure needed to be revised accordingly.

In response to questions by Representative Lee, Ms. Hill stated that, when the plans were completed, the department expected 100 percent of beds to be classified as Medicare and Medicaid certified. Self-payers could stay in any bed, regardless of Medicare and Medicaid certification of the bed. The department did not foresee future problems of bed shortages for self-payers because beds were available on a first come-first served basis, not on payor classification.

A motion was made and seconded to approve the following amendments: (1) to amend Section 11(10) to make a technical correction for consistent formatting; and (2) to amend Section 7 to revise a form incorporated by reference. Without objection, and with agreement of the agency the amendments were approved.

17 KAR 3:040. Admission to state veterans’ nursing homes.

GENERAL GOVERNMENT CABINET: Board of Pharmacy: Board

201 KAR 2:074. Pharmacy services in hospitals or other organized health care facilities. Michael Burleson, executive director, represented the board.

A motion was made and seconded to approve the following amendments: (1) to amend the STATUTORY AUTHORITY paragraphs to add statutory citations; and (2) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraphs and Sections 1, 2, and 4 through 7 to comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

Board of Nursing: Board

A motion was made and seconded to approve the following amendments: (1) to amend the STATUTORY AUTHORITY paragraph to include a statutory citation; and (2) to amend the NECESSITY, FUNCTION, AND CONFORMITY paragraph to clearly state the necessity for and function served by this administrative regulation, as required by KRS 13A.220. Without objection, and with agreement of the agency, the amendments were approved.

A motion was made and seconded to approve the following amendments: to amend Sections 2, 3, and 4 to comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

TOURISM, ARTS AND HERITAGE CABINET: Department of Fish and Wildlife Resources: Game

301 KAR 2:049. Small game and furbearer hunting and trapping on public areas. Margaret Everson, assistant attorney general, and Karen Waldrop, director, Wildlife Division, represented the department.

301 KAR 2:122. Seasons, methods, and limits for small game.

JUSTICE AND PUBLIC SAFETY CABINET: Department of Corrections: Office of the Secretary

In response to a question by Co-Chair Bell, Ms. Barker stated that the department changed the units where services were located; therefore, the procedure needed to be revised accordingly. More inmate populations needed mental health services. There were two (2) facilities that housed females, but the facility in Pee-Wee Valley was the primary facility.

A motion was made and seconded to approve the following amendments: to amend Section 1 and the material incorporated by reference to clarify provisions and to comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

Department of Criminal Justice Training: Kentucky Law Enforcement Council: Council

503 KAR 1:170. Career Development Program. Dana Todd, assistant general counsel, represented the council.

In response to questions by Representative Damron, Ms. Todd stated that, other than one (1) new certification, this administrative regulation was not an expansion of the program. This was a voluntary program, not tied to compensation. The council anticipated that the program would cost the agency approximately $1,000 per year. Ms. Todd stated that the council did not anticipate asking for more funding. This program was not tied to insurance surtax but another program administered by the agency was. In response, Representative Damron stated that the insurance surtax supported the agency as a whole, and this program was still an expense of the agency.

Senator Bowen verified the continuing agency cost stated in the Fiscal Note on State and Local Government.

A motion was made and seconded to approve the following amendments: (1) to amend Section 1 to add definitions for “public safety dispatch” and “public safety dispatcher”; (2) to amend the NE-
Cabinet for Health and Family Services: Department for Medicaid Services: Division of Provider Operations: Medicaid Services

907 KAR 1:058E. Repeal of 907 KAR 1:418 and 907 KAR 1:427. Christina Heavrin, general counsel; Lawrence Kissner, commissioner; and Stuart Owen, regulation coordinator, represented the division.

907 KAR 1:711E. Repeal of 907 KAR 1:705 and 907 KAR 1:710.

A motion was made and seconded to approve the following amendments: (1) to amend Sections 1, 2, 4, 7, 8, and 13 to comply with the drafting and formatting requirements of KRS Chapter 13A; (2) to amend Section 4 to specify the deadlines for obtaining a written consent unique to an appeal or state fair hearing; and (3) to amend Section 4 to specify that an MCO must follow the June Subcommittee meeting.

Representative Lee stated that he was proposing to amend Section 2 of this administrative regulation to use miles for measuring services in all regions except Region 3 and to use minutes or miles for measuring services in Region 3.

Representative Stacy stated that litigation on the matter of distance requirements was ongoing. In response to a question by Representative Lee, Ms. Heavrin stated that the distance limit of sixty (60) minutes was established in the original contracts, which had already been submitted to CMS. MCOs used GEOAccess to determine distances.

In response to questions by Representative Lee, Mr. Kissner stated that the agency agreed to amendments proposed by Representative Lee to address written consent requirements. Ms. Galvagni stated that the Kentucky Hospital Association supported Representative Lee’s amendments to this administrative regulation.

Representative Damron stated that in 2012, the cabinet assured the General Assembly that problems with payments to providers would be quickly remedied. After fourteen (14) months, the matter remained unresolved. If the problems were not rectified before the 2014 Regular Session of the General Assembly, legislative directives would be proposed to address the situation.

The following amendments, proposed by Representative Damron, were not considered: (1) to amend Section 2(7), 2(8), 2(9), 2(10), and 2(11) to specify that a hospital; behavioral or physical rehabilitation service; dental service; general vision, laboratory, or radiological service; or pharmacy service shall be within the specified number of: (a) miles for Regions 1, 2, 4, 5, 6, 7, or 8; or (b) minutes or miles for Region 3. With two (2) objections, and with agreement of the June Subcommittee, the amendments were approved.

The following amendments, proposed by Representative Damron, were not considered: (1) to amend Sections 2(7), 2(8), 2(9), 2(10), and 2(11) to delete the references to miles for a hospital; behavioral or physical rehabilitation service; dental service; general vision, laboratory, or radiological service; or pharmacy service; (2) to amend Section 4 to create a new subsection (5) to require an MCO to reimburse a provider for covered services beginning on the date the provider applied to be a provider for the MCO; and (3) to amend Section 11(2) to specify that a provider has the right to file a request for a state fair hearing.

907 KAR 17:020 & E. Managed care organization service and service coverage requirements and policies

A motion was made and seconded to approve the following amendments: to amend Sections 4, 11, and 13 to comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

907 KAR 17:025 & E. Managed care organization requirements and policies related to utilization management and quality

Darlene Eakin, executive director, Kentucky Optometric Association, appeared in support of an amendment proposed by Representative Damron.

VOLUME 39, NUMBER 12 – JUNE 1, 2013

2460
Ms. Eakin stated that the Kentucky Optometric Association was concerned about access. Nonoptometric providers did not always understand the scope of optometry.

Mr. Kissner stated that the division did not agree to Representative Damron’s proposed amendment, which would require that a request based on optometry be reviewed by an optometrist.

A motion was made and seconded to find this administrative regulation deficient. A roll call vote was conducted. The motion was not approved.

A motion was made and seconded to approve the following amendments: to amend Sections 1 and 11 to comply with the drafting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendment was approved.

A motion was made and seconded to approve the following amendment: to amend Section 1(3) to specify that if a request is made by an enrollee or enrollee’s treating optometrist, the decision to deny a service authorization request or authorize a service in an amount, duration, or scope that is less than requested by the enrollee or enrollee’s optometrist shall be made by a Kentucky licensed optometrist. Without agreement of the agency, the amendment was not approved.

907 KAR 17:030 & E. Managed care organization operational and related requirements and policies.

Department for Community Based Services: Division of Family Support: K-TAP, Kentucky Works, Welfare to Work, State Supplementation

The following administrative regulations were deferred to the June 11, 2013, meeting of the Subcommittee:

ENERGY AND ENVIRONMENT CABINET: Department for Environmental Protection: Division of Water: Water Quality Standards

PUBLIC PROTECTION CABINET: Department of Alcoholic Beverage Control: Quotas

OTHER BUSINESS:

TOURISM, ARTS AND HERITAGE CABINET: Kentucky State Fair Board: Board

303 KAR 1:041. Certain objects and attire prohibited on premises. Clifford Rippetoe, president and CEO of the Kentucky State Fair Board, represented the board. Steven McBride, citizen, appeared in opposition of this administrative regulation.

Mr. McBride stated that this administrative regulation was a violation of the Second Amendment to the Constitution of the United States. This administrative regulation had been in effect since 1978 and did not provide for the 1996 Kentucky Carry and Conceal statute. This administrative regulation was in violation of several statutes pursuant to KRS Chapter 13B. This administrative regulation was also onerous in regards to weapon searches.

Co-Chair Harris stated that only statutes, not administrative regulations, could provide requirements pertaining to weapons on state property. In response to a question by Co-Chair Harris, Mr. Rippetoe stated that the board agreed to defer consideration of this administrative regulation until the matter could be fully investigated. He stated that the board intended to amend this administrative regulation for compliance with all applicable law, federal and state, including provisions regarding weapon searches.

Without objection, and with agreement of the agency, the administrative regulation was deferred for consideration at the June Subcommittee meeting.

The Subcommittee adjourned at 3:15 p.m. until June 11, 2013 at 1 p.m.

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2012 Kentucky Administrative Regulations Service. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10) or 13A.312(2). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the Administrative Register of Kentucky. NOTE: Finalized copies of the technically amended administrative regulations are available for viewing on the Legislative Research Commission Web site at http://www.lrc.ky.gov/home.htm.

‡ - A technical amendment was made during the promulgation process to this administrative regulation pursuant to KRS 13A.320(d).
