STATEMENT OF EMERGENCY
31 KAR 4:070E

The emergency amendment to this administrative regulation is being promulgated in response to SB 13, which requires the State Board of Elections to promulgate an administrative regulation adopting a form and procedures for conducting a recanvass for a local option election. SB 13 was effective June 25, 2013. This emergency amendment must be effective immediately so as to have an adopted form and procedure for county boards of elections to use in the event a recanvass of a local option election is requested. An ordinary amendment is not sufficient because it will not be effective prior to the next local option election that may be called. This emergency amendment shall be replaced by an ordinary amendment to be concurrently filed with the Regulations Compiler. The ordinary amendment to the administrative regulation is identical to this emergency amendment to the administrative regulation.

HONORABLE ALISON LUNDERGAN GRIMES, Chair

STATEMENT OF EMERGENCY

101 KAR 2:210E

This emergency administrative regulation incorporates by reference the 2014 plan year handbook for the self-insured plan offered to the Public Employee Health Insurance Program, commonly known as the Kentucky Employees' Health Plan. KRS 18A.2254(1) requires the Personnel Cabinet to promulgate an administrative regulation that incorporates the plan year handbook by reference and to file the administrative regulation by September 15 of each year. This emergency administrative regulation is necessary to meet the filing deadline established by state law at KRS 18A.2254(1)(a). KRS 18A.2254(1)(a) requires the secretary of the
Personnel Cabinet to annually promulgate an administrative regulation to incorporate by reference the plan year handbook. The handbook must contain, at a minimum, the premiums, employee contributions, employer contributions, and a summary of benefits, copays, coinsurance, and deductibles for each plan provided to public employees covered under the self-insured plan. The 2014 plan year handbook, or Benefits Selection Guide, contains the required and necessary information for public employees to make health insurance coverage decisions during open enrollment in October 2013. This administrative regulation incorporates by reference the 2014 Benefits Selection Guide that will be distributed by the Personnel Cabinet’s Department of Employee Insurance to public employees covered under the self-insured plan. An ordinary administrative regulation is not sufficient due to the statutory filing deadlines and handbook distribution requirements. This emergency administrative regulation will be replaced by an ordinary administrative regulation. The ordinary administrative regulation is not identical to this emergency administrative regulation. This emergency administrative regulation: This emergency administrative regulation incorporates by reference the 2014 Benefits Selection Guide for the 2013 plan year should remain until such time as the ordinary administrative regulation incorporating the Benefits Selection Guide for plan year 2014 replaces this emergency administrative regulation.

VOLUME 40, NUMBER 4 – OCTOBER 1, 2013

STATEMENT OF EMERGENCY
501 KAR 6:020E

Congress mandated the establishment of national standards for the detection, prevention, reduction, and punishment of prison rape in the Prison Rape Elimination Act (PREA), 42 U.S.C. §15607. The Department of Justice established national standards for adult prisons and jails in 28 C.F.R. §115, Subpart A. Congress tied grant funds to states for prison purposes to compliance with the national standards. Failure to comply with the standards causes loss of federal grant funds for prison programs or restrictions on the use of a percentage of grant funds. This regulation promulgates part of the PREA standard requirements. This administrative regulation is authorized to be filed as an emergency administrative regulation pursuant to KRS 13A.190(1)(a)(2). An ordinary administrative regulation alone will not cause the required policies to be adopted by the federal deadline. This emergency administrative regulation will be replaced by an ordinary administrative regulation. The ordinary administrative regulation is not identical to this emergency administrative regulation.

STATEMENT OF EMERGENCY
900 KAR 5:020E

This emergency administrative regulation is being promulgated to amend the 2013-2015 State Health Plan to address the need for long term care beds in the Commonwealth. Pursuant to KRS 216B.040(2)(a)2.a, the Cabinet for Health and Family Services is charged with responsibility for promulgating regulations to establish criteria for the issuance and denial of certificates of need. The State Health Plan is required to contain a need assessment for long term care beds which shall be based on a statistical and fiscal analysis of the present and future needs. The Cabinet must take this action to amend the State Health Plan regarding long term care to allow for the relocation of long term care beds to meet the needs of a growing and aging population, thereby protecting human health. The amendment would allow a transferring entity with a bed inventory of at least 250 beds to transfer no more than fifty (50) percent of its beds to a county within the Area Development District which had an increase in the age sixty-five (65) and over population of greater than fifty (50) percent from 2000-2010 and is projected to experience greater than (75) percent increase in the age sixty-five (65) and over population from 2010-2020. Failure to enact this administrative regulation on an emergency basis in accordance with KRS 13A.190(1)(a) will compromise the state’s ability to act quickly in its efforts to address the long term care needs of the Commonwealth. This emergency administrative regulation shall be replaced by an ordinary administrative regulation to be concurrently filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

Section 18031 and 45 C.F.R. Parts 155 and 156. This administrative regulation must be promulgated on an emergency basis: To meet the deadlines and requirements of 42 C.F.R. 155.105, which sets the standards for approval for Kentucky to operate a state-based Exchange. Pursuant to 42 U.S.C. Section 18031, which sets forth the federal requirements in establishing a state-based Exchange, Kentucky must implement procedures for eligibility determination and enrollment in qualified health plans. Failure to enact this administrative regulation on an emergency basis will compromise the ability of the Exchange to timely determine eligibility and facilitate enrollment in qualified health plans. Eligibility determination and enrollment in qualified health plans is necessary for the provision of health care services provided in the Commonwealth through the Exchange. Additionally, individuals must enroll through the Exchange to receive advanced payments of the premium tax credit and cost sharing deductions. This emergency administrative regulation shall be replaced by an ordinary administrative regulation to be concurrently filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

Section 2. Applications for Change in Base Rate. (2) In the event there is an increase in the supplier’s base rate, the water district or water association shall determine the increased cost of water purchased based on the twelve (12) month period ending within ninety (90) days immediately prior to the effective date of its rate adjustment to its customers. The cost of purchased water shall be calculated at the supplier’s base rate and changed rate, as defined in Sections 1 and 2 of this administrative regulation. The difference in costs shall then be divided by the actual number of cubic feet or gallons sold during the same twelve (12) month period, yielding the purchased water adjustment in cents per cubic foot or gallon unit. This adjustment amount shall be added to all the utility’s rate schedules on a per unit basis regardless of the customer class.  
(3) In the event there is a decrease in the supplier’s rate, the purchased water adjustment shall be calculated in the same manner as set out in subsection (2) of this section and its rates reduced accordingly.

(a) The total refund received by the utility shall be divided by the number of cubic feet or gallons of water the utility estimates it will sell to its customers during the two (2) month period beginning with the first day of the month following receipt of the refund, yielding the refund factor to be applied against each cubic foot or gallon of water sold thereafter.  
(b) Effective with meter readings taken on and after the first day of the second month following receipt of the refund, the utility will reduce by the refund factor any purchased water adjustment that would otherwise be applicable during the period.
reduced purchased water adjustments shall be adjusted, if necessary, in order to most nearly approximate the total amount to be refunded. The water utility shall make full distribution of the refund within two (2) months.

(c) In the event a water utility receives a large or unusual request for the purchase of water, the water utility may apply to the commission for a deviation from the procedure for distribution of refunds specified herein.

Section 3. Filings with the Commission. (1) Within twenty (20) days after any such purchased water rate adjustment, the water district or water association shall file with the commission its revised tariff sheets setting forth the adjusted rates and information concerning the water purchases and sales upon which the adjustment was based sufficient to determine the accuracy of the calculations and application of the purchased water adjustment to its rates. REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Sarah Levy

(1) Provide a brief summary of:

(a) What the administrative regulation does: This administrative regulation sets the standards and rules related to the licensing of private nonprofit postsecondary education institutions, and proprietary postsecondary education institutions that are not licensed by the Commission on Proprietary Education.

(b) The necessity of this administrative regulation: KRS 164.945 through 164.947 requires the Council on Postsecondary Education to license these institutions as a protection for Kentucky citizens and to protect bona fide institutions from those who engage in fraudulent practices, unfair competition, or substandard educational programs.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 164.947 states that the Council on Postsecondary Education, by regulation, shall adopt standards and procedures for the licensing of colleges.

(d) How this administrative regulation currently assists or will assist in the effective administration of the regulations: The administrative regulation sets out the standards institutions must meet in order to be licensed to operate in Kentucky. It also defines the process for new license applications, for amendments to licenses, and for license renewals.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: First, faculty qualification requirements will now be specifically identified in the regulation and applied consistently amongst all licensed institutions effective January 1, 2016. Currently, an institution’s respective accreditation faculty standards are applied which vary depending on the accreditation. The unearned tuition coverage requirement for in-state colleges is modified to a graduated schedule based on a percentage of overall annual net tuition and fees. Second, annual fees will now be instituted for licensed institutions with less than 100 Kentucky students. Fourth, licensure will no longer be required for out-of-state institutions “operating or soliciting” in Kentucky only as a result of less than one (1) percent of their faculty delivering online instruction from Kentucky. Fifth, institutions that do not respond to notifications of deficiency in both initial and supplementary applications within sixty (60) days will now be required to submit a new application and fee in accordance with the fee schedule. Sixth, the annual licensure application will now be abbreviated in even numbered years. And finally, technical revisions are being made.

(b) The necessity of the amendment to this administrative regulation: The current requirement revisions will help ensure that Kentucky students are receiving quality instruction at any licensed institution they attend consistent with what is adhered to by Kentucky’s public postsecondary institutions. It will give institutions with programs and courses currently licensed by the Council until January 1, 2016 to bring those programs and courses into compliance with the new faculty requirements. The unearned tuition coverage for in-state colleges is revised to a level more commensurate with the refund liability and risk of non-payment to students. Annual fees are being instituted for institutions with less than 100 Kentucky students to help stabilize the recurring fees collected by the Council and to recognize resources dedicated to licensure functions each year. The licensure requirement for institutions with less than one (1) percent of their faculty delivering online instruction from Kentucky is removed due to the de minimis nature of this contact to Kentucky. The requirement that institutions respond in sixty (60) days to a notice of deficiency is instituted to facilitate a more efficient application process. An abbreviated annual licensure process in even numbered years will help to alleviate the reporting burden on institutions. Finally, technical revisions are being made for clarity, consistency, and conformance with regulation drafting requirements.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the requirements of KRS 164.947 by helping to ensure that licensed institutions provide a quality educational experience for Kentucky students.

(d) How the amendment will assist in the effective administration of the statutes: The amendment helps to better ensure quality education for Kentucky students and provides a licensure process better aligned with the statutory goals.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation:

(a) What is the source of the funding to be used for the implementation of this administrative regulation? No. Implementation of this administrative regulation is paid for by tuition fees and General Fund appropriations.

(b) In complying with this administrative regulation or amendments, how much will it cost each of the entities identified in question (3): See 4(b) above.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): See 4(b) above. Cost of compliance with the unearned tuition requirement will likely decrease for some institutions. The annual licensure process burden will decrease in even numbered years.

(4) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation:

(a) Initially: We estimate that there will be no additional cost in implementing the proposed changes to the regulation.

(b) On a continuing basis: We estimate that there will be no additional costs on a continuing basis to implement the proposed changes to the regulation.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: We estimate that there will be no additional cost in implementing the proposed changes to the regulation.

(b) On a continuing basis: We estimate that there will be no additional costs on a continuing basis to implement the proposed changes to the regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: License fees and General Fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No. Implementation of this amendment does not require an increase in fees or funding, however fees are being increased slightly for institutions with small enrollments to enable the Council to obtain more recurring fees to cover the cost of administration as the licensure of new institutions begins to wane.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: Yes. The proposed amendment to the regulation directly increases fees slightly for institutions with very small enrollments of Kentucky students.

(9) TIERING: Is tiering applied? Tiering is applied. The amendment provides that in-state colleges licensed between five (5) and ten (10) years or more will have an unearned tuition coverage requirement that differs from that of out-of-state institutions and in-state institutions licensed less than five (5)
years. The risk for students being unable to recover unearned tuition payments in the event of a closure is less for in-state institutions, particularly those that have maintained licensure status with the Council through at least one accreditation cycle (ten years). Also, institutions with programs and courses currently licensed by the Council will have until January 1, 2016 to bring those programs and courses into compliance with the new faculty qualification requirements. All new programs and courses must meet the new faculty qualification requirements effective January 1, 2014.

definition of "violent crime", clarifies that final disposition of a criminal charge related to a disqualifying offense is considered an employment disqualifier if the missing disposition is not provided within sixty (60) days of fingerprint submission, and adds a new section creating an interest bearing account necessary to fund operation of the KARES program as well as collect state and FBI fingerprint check fees.

(b) The necessity of the amendment to this administrative regulation: This amended after comments regulation is necessary to add clarity to the regulation and address comments received during the public comment period.

(c) How the amendment conforms to the content of the authorizing statutes: This amended after comments regulation conforms to the content of the authorizing statutes by establishing requirements for employers that elect to participate in the KARES program.

(d) How the amendment will assist in the effective administration of the statutes: This amended after comments regulation assists in the effective administration of the statutes by providing employers with an enhanced pre-employment screening mechanism intended to help protect elderly and vulnerable adults from potential abuse, neglect, and exploitation.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Employers that may apply for participation in the KARES Program include long-term care facilities, nursing pools and staffing agencies which provide staff to long-term care facilities, adult day health programs, assisted living facilities, home health agencies, hospice providers (including residential hospice), personal services agencies, long-term care hospitals, providers of home and community based services, or any other licensed health facility that applies to participate in the KARES program voluntarily. Additionally, new Cabinet staff whose duties include inspecting long-term care employers or having one-on-one contact with patients or residents, and new Cabinet staff who work in state-run health facilities will be subject to a background check under KARES.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Using the KARES web application, participating employers will be able to obtain immediate results from available abuse registries and verify the professional licensure status of prospective employees free of charge. "Hits" on an abuse registry or confirmation that an individual's professional license is not in good standing will be used to disqualify the individual from employment in a long-term care setting, thereby eliminating the need for criminal background checks and the costs associated with such checks. If cleared as a result of the registry check, applicants seeking employment with a participating employer would be subject to a fingerprint-supported state and FBI background check. The anticipated response regarding whether an individual is eligible for employment is expected to take 24 – 48 hours from the date of fingerprint collection if the individual does not have a criminal history, and 5 – 7 days from the date of fingerprint collection in most cases in which the individual has a criminal record.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): No costs additional costs will be incurred by voluntarily participating employers initially as employers will continue to pay the twenty (20) dollar fee they are currently accustomed to paying for name based, state-only criminal background checks. However, upon depletion of NBCP grant monies used to subsidize the cost of FBI checks and the Cabinet’s administrative cost, a fingerprint-supported state and FBI check will cost a total of sixty-three (63) dollars.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Participating employers will benefit from an enhanced, pre-employment screening tool intended to limit the ability of individuals to hide their criminal or abusive actions by crossing state lines. Additionally, employers will not be impacted financially during what the Cabinet estimates will be about the first year and a half of fingerprint collection as grant monies will be used to subsidize the cost of the FBI check and Cabinet’s administrative costs for facilitating fingerprint-supported criminal background checks.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: This administrative regulation is funded by NBCP grant monies until the end of the grant’s project period (May 2014), or later if an extension is necessary and CMS approves such a request to expend any remaining grant monies that may exist.

(b) On a continuing basis: The Cabinet estimates that approximately $600,000 will be needed on a yearly basis to sustain the KARES program. Such funds will be used to contract with the Department for Workforce Investment to collect fingerprints at Career One Stop Centers, cover costs incurred by the Office of Administrative and Technology Services to maintain the KARES system and database, and support staff salaries.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: NBCP grant funds will be used initially to implement this administrative regulation. Upon conclusion of the grant or depletion of grant monies, continued funding to support KARES will be from fees collected to process fingerprint-supported state and FBI checks on applicants seeking employment with participating long-term care employers.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: The current charge for a name-based, state-only criminal record check currently required by state law for applicants seeking employment in long-term care facilities is twenty (20) dollars. Under KARES, the charge for a fingerprint-supported state and FBI criminal background check will remain twenty (20) dollars initially. However, upon depletion of NBCP grant funds used to subsidize the cost of the FBI checks and administrative costs charged by the cabinet, the total cost of the fee charged for a fingerprint-supported state and FBI criminal background check will be sixty-three (63) dollars, divided into the following components:

1. A fee of twenty (20) dollars charged by the Justice and Public Safety Cabinet;
2. A fee of sixteen (16) dollars and fifty (50) cents charged by FBI; and
3. A fee of twenty-six (26) dollars and fifty (50) cents charged by the cabinet to cover the cost of facilitating the criminal background check.

(8) State whether or not this administrative regulation establishes fees or directly or indirectly increased any fees: Please refer to the response for question 7.

(9) TIERING: Is tiering applied? Tiering is not applicable as compliance with this administrative regulation applies equally to all individuals or entities that elect to be regulated by it.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This administrative regulation impacts employers who elect to participate in the KARES program voluntarily, including long-term care facilities, nursing pools and staffing agencies that provide staff to long-term care facilities, adult day health programs, assisted living facilities, home health agencies, hospice providers (including residential hospice), personal services agencies, long-term care hospitals, providers of home and community based services, or any other licensed health facility that applies to participate in the KARES program.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.050(1), 42 U.S.C. 1320 a-71

3. Estimate the effect of this administrative regulation on the
expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The current charge for a name-based, state only criminal record check currently required by state law for applicants seeking employment in long-term care facilities is twenty (20) dollars. Under KARES, the charge for a fingerprint-supported state and FBI criminal background check will remain twenty (20) dollars initially. However, upon depletion of NBCP grant funds used to subsidize the cost of the FBI checks and administrative costs charged by the cabinet, the total cost of the fee charged for a fingerprint-supported state and FBI criminal background check will be sixty-three (63) dollars. Therefore, revenue will be based upon a charge of sixty-three (63) dollars per check, divided between the Kentucky State Police, FBI, and the Cabinet as previously described.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? Revenue will be based upon a charge of sixty-three (63) dollars per check as previously described.

(c) How much will it cost to administer this program for the first year? No additional costs are necessary to administer this program during the first year as NBCP grant monies will be used to administer this program for the first year.

(d) How much will it cost to administer this program for subsequent years? The Cabinet estimates that approximately $600,000 will be needed on a yearly basis to sustain the KARES program. Such funds will be used to contract with the Department for Workforce Investment to collect fingerprints at Career One Stop Centers, cover costs incurred by the Office of Administrative and Technology Services to maintain the KARES system and database, and support staff salaries.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

FEDERAL MANDATE ANALYSIS COMPARISON

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. Not applicable.

1. Federal statute or regulation constituting the federal mandate. 42 U.S.C. 1320 a-7I directs the Secretary of the United States Department of Health and Human Services to establish a program to identify efficient, effective, and economical procedures for long-term care facilities or providers to conduct background checks on prospective direct patient access employees on a nationwide basis. As of this date, Kentucky is one of twenty-three (23) states to receive a National Background Check Program (NBCP) grant awarded by the Centers for Medicare and Medicaid Services under 42 U.S.C. 1320 a-7I to implement a fingerprint-supported state and FBI check program for new employees in long-term care settings.

2. State compliance standards. KRS 194A.050(1) requires the Secretary of the Cabinet for Health and Family Services to promulgate administrative regulations necessary to operate programs and fulfill the responsibilities vested in the cabinet, qualify for the receipt of federal funds, and cooperate with other state and federal agencies for the proper administration of the cabinet and its programs.

3. Minimum or uniform standards contained in the federal mandate. The federal mandate requires that NBCP grantee states such as Kentucky to implement a fingerprint-supported state and FBI background check program for new employees in long-term care settings.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not impose stricter requirements than those required by the NBCP grant awarded to Kentucky by CMS under 42 U.S.C. 1320 a-7I.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Jonathan Buckley

(1) Provide a brief summary of:

(a) What this administrative regulation does: This regulation establishes the application forms and related materials for licensure.

(b) The necessity of this administrative regulation: KRS 322.070 provides that applications for professional engineer or professional land surveyor licenses shall be on forms prescribed and furnished by the board.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This regulation prescribes the forms necessary for applications for licensure as a professional engineer or land surveyor and certification as a LSIT or EIT.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The regulation provides information to the board on the forms it will use in evaluating candidates for examination, licensure, and certification.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The proposed amendment deletes two forms that are outdated for their intended purpose, and replaces those forms with ones that more clearly inform applicants for PE licensure by examination, and applicants for PE or PLS licensure by endorsement, of the necessary requirements to achieve licensure status, and enables those applicants to furnish appropriate information to the board. Additionally, the two new forms provide information to applicants for certification as a LSIT or EIT, of what is required to achieve those designations, and enable those applicants to furnish appropriate information to the board. All the forms refine what information the board requires from the applicants to enable the board to evaluate the applicants’ compliance with the minimum requirements for certification or licensure as either a LSIT, EIT, PE, or PLS, as appropriate.

(b) The necessity of the amendment to this administrative regulation: The proposed amendment is necessary to clarify what information the applicants for certification or licensure as either a LSIT, EIT, PE, or PLS, as appropriate, need to furnish to the board to enable the board to evaluate the applicants’ compliance with the minimum requirements for certification or licensure.

(c) How the amendment conforms to the content of the authorizing statutes: The regulation prescribes the forms necessary for licensure or certification in compliance with the requirements of KRS 322.070.

(d) How the amendment will assist in the effective administration of the statutes: The proposed amendment will provide the information necessary for the board to evaluate the qualifications of applicants for licensure or certification as a PE, PLS, EIT, or LSIT, as appropriate.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This proposed regulation will not affect businesses, organizations, or state and local governments. It will affect only engineering applicants for licensure by examination, engineers or land surveyors seeking licensure by endorsement, and applicants for certification as a LSIT or EIT to the extent that the amendments provide a means to more clearly present information to the board for evaluation, and will affect the board to the extent that the process of obtaining appropriate information from the applicants is refined.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) A detailed explanation of the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Applicants will continue to fill out applications and the board will continue to evaluate the applications for licensure or certification submitted by applicants for licensure as a PE or PLS, or certification as a LSIT or EIT. No additional actions will be required of either the applicants or the board.

(b) An estimate of the costs imposed on entities identified in question (3) in complying with this administrative regulation or amendment: There is no additional cost associated with this amendment.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): The board’s evaluation of applications for the PE examination and licensure as a PE, for licensure for endorsement as a PE or PLS, and for certification as a LSIT or EIT will be facilitated by this amendment by providing appropriate information to the board, and the applicants will benefit by supplying appropriate information to the board.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

a. Initially: $0

b. On a continuing basis: $0

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Restricted Agency Funds. The board receives no general or federal funds.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change, if it is an amendment: No increase in funding will be necessary.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: No fees are established or increased as a result of this regulation.

(9) TIERING: Is tiering applied? Tiering was not used because this regulation should not disproportionately affect any particular group of people.

The establishment of a nursing facility with more than 250 beds is not desirable from an operational or resident satisfaction standpoint. The amendment would allow a facility with an increase in the number of facility beds to no more than fifty (50) percent of its beds to a county within the same Area Development District which had an increase in the age sixty-five (65) and over population of over fifty (50) percent from 2000-2010 and is projected to experience more than a seventy-five (75) percent growth in the age sixty-five (65) and over population from 2010-2020.

(c) How the amendment conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by incorporating by reference the revised criteria of the 2013-2015 State Health Plan.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Entities which submit certificate of need
applications for long term care services will be subject to the revised criteria set forth in the revised 2013-2015 State Health Plan.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? There will be no cost to entities to comply with this amendment.

Entities which submit certificate of need applications for long term care services will be subject to the revised criteria set forth in the revised 2013-2015 State Health Plan, which addresses the present and future long term care needs.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: No cost

(b) On a continuing basis: No cost

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation? No funding is necessary since there is no cost to implementing this administrative regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding is necessary.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: This administrative regulation does not establish any fees and does not increase any fees either directly or indirectly.

(9) TIERING: Is tiering applied? Tiering was not appropriate in this administrative regulation because the administrative regulation applies equally to all those individuals or entities regulated by it.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen

(1) Provide a brief summary of:
   (a) What this administrative regulation does; This is a new administrative regulation which establishes Medicaid certified waiver provider requirements and policies. These providers provide services to 1915(c) home and community based waiver program participants. 1915(c) home and community based waiver programs enable individuals who have nursing facility level of care needs (or needs that can be served in an intermediate care facility for individuals with an intellectual disability) to remain in and receive care in their homes or in a community setting rather than in an institutional setting. Some 1915(c) home and community based waiver program providers are licensed and do not require certification in order to provide services in the given 1915(c) home and community based waiver program in which they participate; thus, the requirements and policies in this administrative regulation do not apply to those entities.
   Among the requirements or provisions are: that if the Department for Medicaid Services (DMS) - or its agent which is the Department for Behavioral Health, Intellectual and Developmental Disabilities (DBHDID) - issues a citation to a provider, the provider must prepare and submit a corrective action plan (to correct the deficiency) as well as satisfy all requirements of the corrective action plan or face possible termination from the Medicaid program; that if DMS or DBHDID determine that a provider has reliable evidence that a provider has committed a violation that threatens the health, safety, or welfare of a recipient, the provider may undergo a voluntary termination (in which it cannot accept any new recipients under its care), while DMS/DBHDID completes an investigation and if the investigation corroborates the initial evidence, the provider must submit a corrective action plan and satisfy all requirements of the corrective action plan within the timeframe established in the corrective action plan or face termination from the Medicaid program; that DMS will exclude a potential provider or existing provider from Medicaid program participation if the provider has any staff that in the past that engaged in an unacceptable practice (which is defined) or in any way that would have resulted in the provider being excluded (unless DMS determines that the individual’s actions were unforeseen by the applicant or provider); that DMS may exclude a provider from participation is it determines that enrolling the provider would not be in the best interest of recipients; that DMS may suspend a provider from Medicaid program participation if a credible allegation of fraud exists; that DMS won’t renew a provider’s participation – during the provider’s recertification period - until/unless the provider resolves deficiencies (by meeting certain benchmarks within an established time frame) discovered during the recertification process; that any action regarding a provider in any 1915(c) home and community based waiver program shall apply to all home and community based waiver programs in which the provider participates; and that if DMS terminates a provider from Medicaid program participation it won’t accept an application for enrollment from the provider until at least five (5) years have lapsed.
   (b) The necessity of the amendment to this administrative regulation: This administrative regulation assists in establishing uniform Medicaid certified waiver provider requirements and policies in order to enhance DMS’s ability protect the health, safety, and welfare of home and community based waiver participants.
   (c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing uniform Medicaid certified waiver provider requirements and policies in order to enhance DMS’s ability protect the health, safety, and welfare of home and community based waiver participants.
   (d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing uniform Medicaid certified waiver provider requirements and policies in order to enhance DMS’s ability protect the health, safety, and welfare of home and community based waiver participants.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

   (c) How the amendment conforms to the content of the authorizing statutes: This is a new administrative regulation.
   (d) How the amendment will assist in the effective administration of the statutes: This is a new administrative regulation.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Providers of 1915(c) home and community based services will be affected by this administrative regulation. Currently, there are roughly 340 such providers enrolled in the Kentucky Medicaid program.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
   (a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Regulated entities will have to comply with Medicaid participation requirements, not commit unacceptable practices, and successfully perform corrective action plans subse-
quently to receiving a citation or to undergoing a voluntary moratorium due to an action which threatened the health, safety, or welfare of a recipient. (b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). (9) Tiering: Is tiering applied? Tiering is not applied as the policies apply uniformly to providers governed by this administrative regulation.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. Medicaid home and community based waiver programs are not mandated by federal law or regulation; however, 42 U.S.C. 1396n(c) establishes home and community based waiver requirements. 42 U.S.C. 1396n(c)(2) establishes requirements germane to this administrative regulation.

2. State compliance standards. KRS 205.520(3) states, “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power in this respect.” KRS 205.8451 through KRS 205.8463 require the Department for Medicaid Services to establish measures and safeguards to control Medicaid program fraud and abuse as well as includes various related requirements. KRS 205.6318(8) requires the Cabinet for Health and Family Services to “Review penalties for deterrent value for medical providers that are found to have abused Medicaid regulations and statutes.”

3. Minimum or uniform standards contained in the federal mandate. Medicaid waiver programs are not mandated by federal law or regulation; however, 42 U.S.C. 1396n(c) establishes home and community based waiver requirements. A key requirement of 42 U.S.C. 1396n(c) – addressed by this administrative regulation – is the following located in 42 U.S.C. 1396n(c)(2): “(2) A waiver shall not be granted under this subsection unless the State provides assurances satisfactory to the Secretary that — (A) necessary safeguards (including adequate standards for provider participation) have been taken to protect the health and welfare of individuals provided services under the waiver and to assure financial accountability for funds expended with respect to such services.”

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

tion; Martin Brock, Eastern Kentucky University; Rick Clewett, Gilmor Reynolds; Helen Guy, Review Committee. The Family Foundation responded to questions by Senator Clark. Dr. Bevins stated that the Next Generation Science Standards were not deficient in the areas of chemistry and physics. In fact, more physics concepts were included in the new standards. Experts in chemistry and physics were involved with educators to develop these standards. Of the twenty-six (26) states involved in developing these standards, Kentucky generated some of the most comments.

In response to questions by Representative Lee, Dr. Bevins stated that the study of global warming required an understanding of basic scientific concepts, which were not being taught. When Kansas removed evolution from the state science standards, out-of-state schools viewed Kansas students negatively as a result. A scientific theory required a tremendous amount of supportive evidence. Evolution was taught as a scientific theory. Even if evolution was included in a curriculum, it was often at the end of the class syllabus and omitted due to time constraints.

In response to questions by Senator Bowen, Dr. Bevins agreed that Northwestern University was a school of distinction. Senator Bowen stated that his son graduated from Northwestern University and was never criticized based on his Kentucky education.

She stated that the standards consisted of a conceptual framework, rather than a specific syllabus and omitted due to time constraints.

Senator Bowen stated that these standards did not have the overwhelming support of the citizens of the Commonwealth. There had been a groundswell of dissent regarding these standards. The responsibility of a legislator was to support the will of the citizens.
