STATEMENT OF EMERGENCY
30 KAR 6:010E

Nature of the emergency: This emergency administrative regulation is being promulgated to implement KRS 14.260-14.318, which creates an address confidentiality program that allows victims of specified crimes to have their names and addresses kept out of publicly available voter records and vote via mail-in absentee ballot. KRS 14.260-14.318 became effective June 25, 2013. There is a primary election scheduled to be held in Kentucky on May 20, 2014. The deadline to register to vote in the May 20, 2014, Primary Election is April 21, 2014. This emergency administrative regulation needs to become effective immediately to protect human health by allowing victims of specified crimes to register to vote and vote in the May 20, 2014, Primary Election without risking their addresses being discovered by the perpetrators of the crimes against them through examination of publicly available voter records or appearance at a polling place. The reasons why an ordinary administrative regulation is not sufficient: An ordinary administrative regulation is not sufficient because it will not enable victims of specified crimes to have their addresses kept out of publicly available voter records and vote via mail-in absentee ballot so that they can register to vote and vote in the May 20, 2014, Primary Election without risking their addresses being discovered by the perpetrators of the crimes against them through examination of publicly available voter records or appearing at a polling place. This emergency administrative regulation shall be replaced by an ordinary administrative regulation to be concurrently filed with the Regulations Compiler. The ordinary administrative regulation is identical to this emergency administrative regulation.

STEVEN L. BESHEAR, Governor
ALISON LUNDERGAN GRIMES, Secretary of State

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change the existing administrative regulation: This is a new administrative regulation.
(b) The necessity of the amendment to this administrative regulation: This is a new administrative regulation.
(c) How the amendment conforms to the content of the authorizing statutes: This is a new administrative regulation.
(d) How the amendment will assist in the effective administration of the statutes: This is a new administrative regulation.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation will affect an unknown number of victims of specified crimes who wish to keep confidential their addresses, address confidentiality program participants, the Office of the Secretary of State, the State Board of Elections, and referring agencies designated under KRS 14.310.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Victims of specified crimes are not required to take any action to comply with this administrative regulation but will have the opportunity to have their addresses kept out of publicly available voter records and vote via mail-in absentee ballot by following the procedures set forth in this administrative regulation. Program participants will be required to follow the procedures established in this administrative regulation for renewing certification to participate in the address confidentiality program, renewing certification to participate in the address confidentiality program, and appealing a cancellation of certification to participate in the address confidentiality program. In order to comply with this administrative regulation, the Office of the Secretary of State, State Board of Elections, and referring agencies designated under KRS 14.310 will need to familiarize themselves with the procedures and forms set forth in this administrative regulation. (b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There will be no cost to victims of specified crimes, program participants, or referring agencies designated under KRS 14.310 to comply with this administrative regulation. The cost, if any, to the Office of the Secretary of State and State Board of Elections to comply with this administrative regulation will be de minimis.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Voting records, including voters' names and addresses, are matters of public record. In some instances, victims of specified crimes who are otherwise eligible to register to vote and vote do not do so because they fear the perpetrators of the crimes against them would be able to determine their addresses or voting precincts, compromising their safety or the safety of their children. As a result of compliance with this administrative regulation, victims of specified crimes will be able to have their addresses kept out of publicly available voter records and vote via mail-in absentee ballot so that they can register to vote and vote without their addresses or voting precincts being discovered. The Office of the Secretary of State and State Board of Elections have an interest in ensuring that all eligible Kentuckians are able to exercise the right to vote, and compliance with this administrative regulation furthers that interest by enabling victims of specified crimes to register to vote and vote without fear that the perpetrators of the crimes against them will be able to determine their addresses or voting precincts. Referring agencies designated under KRS 14.310 will benefit from the extension and enhancement of their efforts to ensure the safety of victims of specified crimes.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in fees or funding will be necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or procedures that will increase any fees: This administrative regulation does not establish, either directly or indirectly, any increased fees.

(9) TIERING: Is tiering applied? Tiering was not applied because this administrative regulation applies equally to all individuals affected.

(2) Ancillary services;
(3) Laboratory procedures or radiological services if ordered by a:
Section 4. Reimbursement. (1) The department shall reimburse a VA NF for services under this administrative regulation on a cost basis.

(2)(a) The cost basis shall include reimbursing:
1. A VA NF for services on an interim basis during a state fiscal year using a prospective payment rate; and
2. A final reimbursement to a VA NF for services for a state fiscal year:
   a. Equal to the VA NF’s Medicaid allowable cost for the state fiscal year; and
   b. That results from a reconciliation of the:
      (i) Interim prospective reimbursement paid by the department to the VA NF for the state fiscal year; and
      (ii) Actual Medicaid allowable costs experienced by the VA NF for the state fiscal year as reflected on the cost report that has been desk reviewed and approved by the department for the state fiscal year.

(b)1. The prospective payment rate referenced in paragraph (a) of this subsection shall be:
   a. Established using the most recently submitted cost report available to and reviewed by the department as of May 16 prior to the beginning of the state fiscal year; and
   b. Treated and indexed to the midpoint of the state fiscal year.

2. For example, to set a prospective payment for a VA NF effective July 1, 2014, for the state fiscal year beginning July 1, 2014, the department shall:
   a. Use the most recently submitted cost report available to the department as of May 16, 2013; and
   b. Trend and index the prospective payment rate to December 31, 2013.

(3)(a) A prospective payment rate for services shall:
1. Be specific to the VA NF;
2. Not be subject to retroactive adjustment except as specified in this section;
3. Be determined by the department on a cost basis annually; and
4. Except as established in paragraph (b) of this subsection, be based on a VA NF’s Medicaid allowable costs.

(b)1. If no cost report containing a full state fiscal year of cost data is available to a VA NF as of May 16, to set a prospective payment rate for the VA NF, the department shall:
   a. If at least six (6) months of cost data is available, use pro forma cost data:
      (i) Submitted to the department by the VA NF; and
      (ii) Approved by the department; or
   b. If less than six (6) months of cost data is available, establish a prospective payment rate equal to the statewide average prospective payment rate of existing VA NFs until the department receives a pro forma cost data including at least six (6) months of cost data.
   2. Pro forma cost data shall be trended and indexed in the same way as established in subsection (2)(b) of this section.

(c) The department may adjust a prospective payment rate during the state fiscal year if the prospective payment rate that was established appears likely to result in a substantial cost settlement that could be avoided by adjusting the prospective payment rate.

(d)1. If the latest available cost report data has not been audited or desk-reviewed prior to rate setting for the universal year beginning July 1, a prospective rate based on a cost report which has not been audited or desk-reviewed shall be subject to adjustment when the audit or desk review is completed.
   2. An unaudited cost report shall be subject to an adjustment to the audited amount after auditing has occurred.

(e)1. If the department has made a separate rate adjustment as compensation to a VA NF for a minimum wage update, the department shall:
   a. Not pay the VA NF twice for the same costs; and
   b. Adjust downward the trending and indexing factors to the extent necessary to remove from the factors costs relating to the minimum wage updates already provided for by the separate rate adjustment.
   2. If the trending and indexing factors include costs related to a minimum wage increase:
      a. The department shall not make a separate rate adjustment; and
      b. The minimum wage costs shall not be deleted from the trending and indexing factors.

(4) The department shall consider an adjustment to a VA NF’s prospective rate (subject to the upper payment limit) if:

(a) The VA NF’s increased costs are attributable to:
   1. A governmentally imposed minimum wage increase, staffing ratio increase, or a level of service increase; and
   2. The increase was not included in the Global Insight Index;

(b) A new licensure requirement adjustment or new interpretation of an existing requirement by the appropriate governmental agency as issued in an administrative regulation results in changes that affect all VA NFs; or

(c) The VA NF experiences a governmentally-imposed displacement of residents.

(5)(a) The amount of any prospective payment rate adjustment resulting from a governmentally-imposed minimum wage increase or licensure requirement change or interpretation as cited in subsection (4) of this section shall not exceed the amount by which the cost increase resulting directly from the governmental action exceeds on an annualized basis the inflation allowance amount included in the prospective rate for the general cost area in which the increase occurs.

1. For purposes of this determination, costs shall be classified as either:
   a. Salaries; or
   b. Other.

2. The effective date of an interim rate adjustment shall be the first day of the month in which the adjustment is requested or in which the cost increase occurred, whichever is later.

(6) A year-end adjustment of a prospective rate and a retroactive cost settlement shall be made if:

(a) An incorrect payment has been made due to a computational error (other than an omission of cost data) discovered in the cost basis or establishment of the prospective rate;

(b) An incorrect payment has been made due to a misrepresentation on the part of a facility (whether intentional or unintentional);

(c) A facility is sold and the funded depreciation account is not transferred to the purchaser; or

(d) The prospective rate has been set based on unaudited cost reports and the prospective rate is to be adjusted based on audited reports with the appropriate cost settlement made to adjust the unaudited prospective payment amounts to the correct audited prospective payment amounts.

(7)(a) The department shall retroactively cost settle reimbursement for services.

(b) Retroactive settlement shall entail:
   1. Comparing interim prospective payments with the properly apportioned cost of Medicaid services rendered;
   2. A tentative cost report settlement based upon:
      a. Eighty (80) percent of any amount due the facility after a preliminary review is performed; or
      b. 100 percent settlement of any liability due the department; and
   3. A final cost report settlement after the allowed billing period has elapsed for the dates of service identified within the cost report.

(c) To be considered final, a cost report shall have been reviewed and approved by the department.
Section 5. Allowable and Non-allowable Costs.  (1) Nursing facility services costs shall be the direct costs associated with nursing facility services.

(2)(a) Except as provided in paragraph (d) of this subsection, interest expense used in setting a prospective rate shall be an allowable cost if:
   1. Permitted pursuant to 42 C.F.R. 413.153; and
   2. The interest expense:
      a. Represents interest on:
         (i) Long term debt existing at the time the provider enters the program; or

   (b) The forms of indebtedness may include:
      1. Notes, advances, and various types of receivable financing; or
      2. Mortgages, bonds, and debentures if the principal is to be repaid within a period in excess of one (1) year.
   (c) If a debt is subject to variable interest rates found in balloon-type financing, renegotiated interest rates shall be allowable.
   (d) Interest on a principal amount used to purchase goodwill or other intangible assets shall not be considered an allowable cost.

(3)(a) The allowable cost for a service or good purchased by a VA NF from a related organization shall be the cost to the related organization unless it can be demonstrated that the related organization is equivalent to a second party supplier.
   (b) Except as provided in paragraph (c) of this subsection, an organization shall be considered a related organization if an individual possesses five (5) percent or more of ownership or equity in the facility and the supplying business.
   (c) An organization shall not be considered a related organization if fifty-one (51) percent or more of the supplier's business activity of the type carried on with the VA NF is transacted with persons and organizations other than the VA NF and its related organizations.

(4) The amount allowable for leasing costs shall not exceed the amount which would be allowable based on the computation of historical costs.

(5) A cost shall be allowable and eligible for reimbursement if the cost is:
   (a) Reflective of the provider's actual expenses of providing a service; and
   (b) Related to Medicaid patient care pursuant to 42 C.F.R. 413.9.
   (6) The following costs shall be allowable:

   (c)1. A sale shall be any bona fide transfer of legal ownership from an owner to a new owner for reasonable compensation, which shall usually be fair market value; and
   2. A lease purchase agreement or other similar arrangement which does not result in a transfer of legal ownership from the original owner to the new owner shall not be considered a sale until legal ownership of the property is transferred; and
   (d) If an enforceable agreement for a change of ownership was entered into prior to July 18, 1984, the purchaser's cost basis shall be determined pursuant to paragraphs (a) through (c) of this subsection.

(9)(a) An increase in valuation in relation to depreciation and interest costs shall not be allowed for changes of ownership occurring after July 18, 1984, and before October 1, 1985.

      (a) Describes the new item or expansion; and
      (b) States the rationale for the new item or expansion.

      (b) Rejection of an item or costs shall represent notice that the costs shall not be considered as part of the cost basis for reimbursement.
      (c) Unless otherwise specified, approval shall relate to the substance and intent rather than the cost projection.

(4)(a) The department shall perform a desk review of each cost report to determine whether an audit is necessary and, if so, the scope of the audit.

(b) If the department determines that an audit is not necessary, the cost report shall be settled without an audit.

DMS projects annual expenditures in aggregate for the three (3) existing Veterans’ Affairs nursing facilities in Kentucky to be approximately $20.04 million ($6.01 million state funds/$14.03 million federal funds.)

(b) On a continuing basis: The response in (a) above also applies here.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement the amendment.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: The amendment neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the provisions and requirements apply equally to all Veterans’ Affairs nursing facilities.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. KRS 205.520(3) authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky’s indigent citizenry.

3. Minimum or uniform standards contained in the federal mandate. 42 U.S.C. 1396a(a)(30)(A) requires a state’s Medicaid program to “provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans) as provided for in section 1396b(b)(4) of this title) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area.” 42 U.S.C. 1396a(a)(13)(A) requires a state to “establish public process for determination of levels of payment” for nursing facility services and services for intermediate care facilities for individuals with an intellectual disability. 42 C.F.R. 447.204 requires Medicaid programs’ reimbursement to be “sufficient to enlist enough providers so that services under the plan are available to beneficiaries at least to the extent that those services are available to the general population.”

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not set stricter requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. Neither stricter nor additional standards nor responsibilities are imposed.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services and the Kentucky Department of Veterans’ Affairs will be affected by this administrative regulation.

2. Identify each state or federal requirement that requires or authorizes the action taken by the administrative regulation. This administrative regulation and 42 C.F.R. 447.204 authorize the action taken by this administrative regulation.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is in effect (if new).

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amount of revenues that the Veterans’ Affairs nursing facilities in Kentucky will receive as a result of this administrative regulation is indeterminate due to the associated variables. A given facility’s reimbursement will be based on their Medicaid allowable costs and that won’t be accurately known until a facility experiences a full year of costs. Costs will depend on utilization including the number of Medicaid recipients receiving services during the state fiscal year from the given facility. Another variable is how soon a given facility enrolls in the Medicaid program.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The response in (a) above also applies here.
(c) How much will it cost to administer this program for the first year? The Kentucky Office of Veterans’ Affairs (KJAVA) will provide the state matching funds necessary to procure federal Medicaid funds; thus, the Department for Medicaid Services (DMS) will experience no cost to implement this administrative regulation. DMS projects annual expenditures in aggregate for the three (3) existing Veterans’ Affairs nursing facilities in Kentucky to be approximately $20.04 million ($6.01 million state funds/$14.03 million federal funds.)

(d) How much will it cost to administer this program for subsequent years? The response to question (c) above also applies here.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

The winning horse and other horses, as directed by the presiding judge, may be tested in each race to determine if there has been a violation of this administrative regulation.

(b) Pre-race and post-race testing shall be done at a reasonable time, place, and manner as directed by the presiding judge in consultation with the commission veterinarian.

(c) A specimen consisting of at least two (2) blood tubes shall be taken from a horse to determine the TCO2 concentration in the blood serum or plasma of the horse. If the commission laboratory determines that the TCO2 exceeds 37.0 millimoles per liter in a horse to which furosemide has not been administered, or 39.0 millimoles per liter in a horse to which furosemide has been administered, the executive director of the commission shall inform the horse's owner or trainer.

(d) If the specimen is taken prior to the race and the TCO2 exceeds 37.0 millimoles per liter in a horse to which furosemide has not been administered, or 39.0 millimoles per liter in a horse to which furosemide has been administered, the judges shall scratch the horse from the race.

(f) The cost of split sample testing, including the cost of shipping, shall be borne by the owner or the trainer.

(2)(a) If the level of TCO2 is determined to exceed 37.0 millimoles per liter in a horse to which furosemide has not been administered, or 39.0 millimoles per liter in a horse to which furosemide has been administered, and the licensed owner or trainer of the horse certifies in writing to the judges within twenty-four (24) hours after the notification of the test result that the level is normal for that horse, the owner or trainer may request that the horse be held in quarantine. If quarantine is requested, the licensed association shall make guarded quarantine available for that horse for a period of time to be determined by the judges but not for more than 120 hours.

(b) The expense for maintaining the quarantine shall be borne by the owner or trainer.

(c) During quarantine, the horse shall be re-tested periodically by the commission veterinarian.

In addition, subject to approval of the commission veterinarian, the horse shall be administered furosemide by the commission veterinarian in the same manner and at the same dosage as was provided to horses eligible for furosemide on the day which the horse in quarantine raced.

(f) If the commission veterinarian is satisfied that the horse’s level of TCO2, as registered in the original test, is physiologically normal for that horse, the judges:

1. Shall permit the horse to race; and

2. May require repetition of the quarantine procedure set forth in paragraphs (a) through (f) of this subsection to reestablish that the horse’s TCO2 level is physiologically normal.

Section 22. Postmortem Examination. requirements for static billboards.

(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 177.860 requires the cabinet to promulgate administrative regulations to set reasonable standards for advertising devices. 23 U.S.C. 131 ("The Highway Beautification Act") requires the state to maintain effective control over outdoor advertising devices or risk losing its apportionment of federal aid highway funds.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will clarify and update the procedures involved in the permitting, and maintenance of static advertising devices.

Note: If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment allows a potential permittee to "swap" a number of non-conforming billboards in exchange for permitting a new, off-premise, static advertising device on interstates and parkways (where allowed under federal law) and NHS and FAP highways.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to update the permit requirements for static billboard devices to bring them into conformity with 23 U.S.C. 131.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment prescribes standards that pertain to the objectives set forth in KRS 177.850.

(d) How the amendment will assist in the effective administration of the statutes: The amendment updates the permit requirements.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: This administrative regulation affects persons wishing to erect static billboards.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Persons wishing to erect new static billboards will have to file a permit application.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): There are no fees involved with this administrative regulation.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): These requirements insure conformity in the erection of static billboard devices.

(5) Provide an estimate of how much it will cost the administrative body to implement the administrative regulation: There are no known costs associated with the amendments to this administrative regulation.

(a) Initially: N/A

(b) On a continuing basis: N/A

(c) How much will it cost to administer this program for the first full year: N/A

(a) How much will it cost to administer this program for the first year? No funding increase to implement the administrative regulation will be required.

(b) How much will it cost to administer this program for subsequent years? No subsequent administrative costs are anticipated.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

Revenues (+/-)
Expenditures (+/-)
Other Explanation:

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? This administrative regulation impacts the Cabinet’s Department of Highways, Division of Maintenance.

2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 176.860 and 23 U.S.C. 131

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. There will not be any effect on the expenditures of a state or local agency.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? This administrative regulation will not generate additional revenue.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This administrative regulation will not generate additional revenue.

(c) How much will it cost to administer this program for the first year? No funding increase to implement the administrative regulation will be required.

(d) How much will it cost to administer this program for subsequent years? No subsequent administrative costs are anticipated.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation containing the federal mandate. 23 U.S.C. 131, 23 C.F.R. Part 750, and the Bonus Agreement entered into by the Federal Highway Administration (FHWA) and the Kentucky Department of Highways.

2. State compliance standards. Outdoor advertising devices are controlled on interstates, parkways, national highway system, and federal-aid primary highways. Erection of new outdoor advertising devices adjacent to or visible from a scenic highway are prohibited.

3. Minimum or uniform standards contained in the federal mandate. Outdoor advertising devices are to be controlled on interstates, parkways, national highway system, and federal-aid primary highways. No new outdoor advertising devices are allowed on scenic highways.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements than those required by the federal mandate? Yes.

5. Justification for the imposition of the stricter standard or additional or different responsibilities or requirements. In 1961, Kentucky entered into a Bonus Agreement with FHWA. Per the agreement, Kentucky placed stricter controls on outdoor advertising devices in exchange for approximately $2.5 million in federal bonus payments. Violation of the agreement could cause those funds to be repaid to the federal government.

RELATES TO: KRS 177.572-177.576, 177.830-177.890, 177.990(2)

STATUTORY AUTHORITY: KRS 177.860, 23 U.S.C. 131
NECESSITY, FUNCTION, AND CONFORMITY: KRS 177.860
requires the cabinet to promulgate administrative regulations
establishing standards for advertising devices. KRS 177.890
authorizes the Commissioner of Highways to enter into

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation containing the federal mandate. 23 U.S.C. 131 and the Bonus Agreement entered into by the Federal Highway Administration (FHWA) and the Kentucky Department of Highways.

2. State compliance standards. Outdoor advertising devices are controlled on interstates, parkways, national highway system, and federal-aid primary highways. Erection of new outdoor advertising devices adjacent to or visible from a scenic highway are prohibited.

3. Minimum or uniform standards contained in the federal mandate. Outdoor advertising devices are to be controlled on interstates, parkways, national highway system, and federal-aid primary highways. No new outdoor advertising devices are allowed on scenic highways.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements than those required by the federal mandate? Yes.

5. Justification for the imposition of the stricter standard or additional or different responsibilities or requirements. In 1961, Kentucky entered into a Bonus Agreement with FHWA. REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the Kentucky Medicaid Hearing Program’s service and coverage provisions and requirements.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish Kentucky Medicaid Hearing Program’s service and coverage provisions and requirements.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing Kentucky Medicaid Hearing Program’s service and coverage provisions and requirements.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing Kentucky Medicaid Hearing Program’s service and coverage provisions and requirements.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment eliminates the definitions of and references to four (4) benefit plans – comprehensive choices, family choices, global choices, and optimum choices; removes vision program provisions as they are being addressed in a separate administrative regulation; clarifies the age limit for audiology services; incorporates by reference a fee schedule which establishes the services with corresponding Current Procedural Terminology (CPT) codes covered by DMS; un-incorporates the Hearing Program Manual and inserts provisions from the manual into this administrative regulation; inserts program integrity requirements; inserts a section to address hearing instrument coverage; inserts a section addressing hearing instrument replacement; and establishes that the coverage provisions in this administrative regulation are contingent upon the receipt of federal approval and federal funding. Included in the existing vision provisions (all of which are being removed and inserted into a new administrative regulation - 907 KAR 1:632) are the $200 and $400 annual limits on eyewear. Those limits (along with all other vision provisions) are being deleted from this administrative regulation; however, those limits will not be included in the new vision services administrative regulation as annual dollar limits on benefits violates an Affordable Care Act mandate. This amended administrative regulation is being promulgated in concert with three (3) other related administrative regulations-- 907 KAR 1:039, Hearing program reimbursement provisions and requirements; 907 KAR 1:631, Vision program reimbursement provisions and requirements; and 907 KAR 1:632, Vision program coverage provisions and requirements. The amendment after comments inserts new requirements regarding in-state specialists in hearing instruments and corrects references/terminology of certain practitioners to “specialists in hearing instruments” rather than hearing instrument dispensers.
(b) The necessity of the amendment to this administrative regulation: Eliminating the references to the four (4) benefit plans is necessary as DMS is eliminating the four (4) benefit plans [via a companion repealer administrative regulation which will repeal the administrative regulation (907 KAR 1:900, KyHealth Choices) which created the four (4) plans.] Eliminating provisions regarding vision service coverage is necessary as those provisions are being established in a new, separate administrative regulation; eliminating the manual previously incorporated by reference is necessary as provisions previously contained in the manual are being inserted into the body of this administrative regulation; and inserting program integrity requirements is necessary to enhance program integrity. Adopting a fee schedule is necessary to provide
information in a reader friendly format for providers (via the fee schedule incorporated by reference.) Additionally, the $200 and $400 annual limits on eye glasses must be removed as a result of a federal mandate. The Affordable Care Act prohibits - effective January 1, 2014 - the application of an annual dollar limit on health insurance benefits known as "essential health benefits." Medicaid benefits are within the scope of essential health benefits. Again, vision service provisions are being simultaneously established in a new and separate administrative regulation (907 KAR 1:632), but this amended administrative regulation had to be promulgated in concert with the new vision administrative regulation as this administrative regulation contained vision program provisions including the federally prohibited annual dollar limit. Establishing that the provisions in this administrative regulation are contingent upon the receipt of federal approval and federal funding is necessary to protect Kentucky taxpayer monies from being used if federal matching funding is not being provided. The amendment after comments is necessary as DMS inadvertently omitted in-state specialists in hearing instruments’ requirements and to correct terminology.

How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes by complying with a federal mandate; by preventing a potential loss of state funds; by eliminating provisions regarding vision service coverage as they are being addressed in a separate administrative regulation; by inserting provisions from a manual previously incorporated by reference into the body of this administrative regulation; by enhancing program integrity by providing information in a reader friendly format for providers; and by eliminating references to four (4) benefit plans which DMS is eliminating. The amendment after comments conforms to the content of the authorizing statutes by inserting inadvertently omitted requirements and correcting terminology for clarity.

(d) How the amendment will assist in the effective administration of the statutes: This amendment will assist in the effective administration of the authorizing statutes by complying with a federal mandate; by preventing a potential loss of state funds; by eliminating provisions regarding vision service coverage as they are being addressed in a separate administrative regulation; by inserting provisions from a manual previously incorporated by reference into the body of this administrative regulation; by enhancing program integrity; by providing information in a reader friendly format for providers; and by eliminating references to four (4) benefit plans which DMS is eliminating. The amendment after comments conforms to the content of the authorizing statutes by inserting inadvertently omitted requirements and correcting terminology for clarity.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation: For calendar year 2012, eleven (11) organizations, or state and local government affected by this administrative regulation. Each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. No actions are required by the amendment other than to properly bill for services and adhere to program integrity requirements.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). No cost is imposed by the amendment.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Medicaid recipients will benefit due to the elimination of an annual dollar limit on eyeglasses. Medicaid providers may benefit from having a reader friendly fee schedule to view and from clarifications.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: In calendar year 2012, the Department for Medicaid Services (DMS), i.e. “fee-for-service” or “FFS” paid almost $6,000 in claims to specialists in hearing instruments and Medicaid managed care organizations paid $342,348 in claims to specialists in hearing instruments. For the same period DMS paid $13,191 in claims to audiologists and Medicaid managed care organizations paid $340,513 in claims to audiologists.

(b) On a continuing basis: DMS anticipates that paid claims (fee-for-service and managed care) in calendar years 2013 and 2014 will be similar to calendar year 2012 expenditures.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation:

The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act and matching state funds appropriated in the biennial budget.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Neither an increase in fees nor funding will be necessary to implement the amendment.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither imposes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is applied as hearing services are limited to individuals under twenty-one (21) years of age as this is a component of mandated Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) services pursuant to 42 U.S.C. 1396d(r)(4) and 42 C.F.R. 441.56.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. KRS 194A.050(1) states, “The secretary shall promulgate, administer, and enforce those administrative regulations necessary to implement programs mandated by federal law, or to qualify for the receipt of federal funds and necessary to cooperate with other state and federal agencies for the proper administration of the cabinet and its programs.” KRS 205.520(3) states: “... it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance...” To qualify for federal matching funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power in this respect.”

3. Minimum or uniform standards contained in the federal mandate. EPDST hearing coverage must include at least testing and diagnosis and treatment for hearing defects, including hearing aids. Hearing services must also be, “provided—

(i) At intervals which meet reasonable standards of medical practice, as determined by the State after consultation with recognized medical organizations involved in child health care, and

(ii) At such other intervals, indicated as medically necessary, to determine the existence of a suspected illness or condition.”

Also included are the requirements that the services provided are proper, necessary, and in accordance with the scope of essential health benefits. 42 U.S.C. 1396a(a)(30)(A) requires Medicaid state plans to: “...provide such methods and procedures relating to the utilization of, and the payment for, care and services available
under the plan (including but not limited to utilization review plans as provided for in section 1903(i)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services..." 45 C.F.R. 147.126 prohibits the application of annual dollar limits on essential health benefits. Medicaid program benefits are included in the scope of essential health benefits.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The requirements are not stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services (DMS) will be affected by this amendment.

2. How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amendment will generate no revenue for DMS.

3. How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment will generate no revenue for DMS.

4. How much will it cost to administer this program for the first year? In calendar year 2012, the Department for Medicaid Services (DMS), i.e. "fee-for-service" or "FFS" paid almost $6,000 in claims to specialists in hearing instruments and Medicaid managed care organizations paid $342,348 in claims to specialists in hearing instruments. For the same period DMS paid $13,191 in claims to audiologists and Medicaid managed care organizations paid $340,513 in claims to audiologists. DMS anticipates no cost as a result of this amendment. DMS anticipates that paid claims (fee-for-service and managed care) in calendar years 2013 and 2014 will be similar to calendar year 2012 expenditures.

5. How much will it cost to administer this program for subsequent years? In calendar year 2012, the Department for Medicaid Services (DMS), i.e. "fee-for-service" or "FFS" paid almost $6,000 in claims to specialists in hearing instruments and Medicaid managed care organizations paid $342,348 in claims to specialists in hearing instruments. For the same period DMS paid $13,191 in claims to audiologists and Medicaid managed care organizations paid $340,513 in claims to audiologists. DMS anticipates no cost as a result of this amendment. DMS anticipates that paid claims (fee-for-service and managed care) in calendar years 2013 and 2014 will be similar to calendar year 2012 expenditures.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Stuart Owen

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the coverage provisions and requirements regarding Medicaid Program community mental health center (CMHC) services.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the coverage provisions and requirements regarding Medicaid Program CMHC services.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing the coverage provisions and requirements regarding Medicaid Program CMHC services.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by establishing the coverage provisions and requirements regarding Medicaid Program CMHC services.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The primary amendment authorizes CMHC to provide substance use disorder services (to all Medicaid recipients in contrast to the current scope of coverage which only includes pregnant women) and expands the scope of behavioral health services covered in a CMHC. Additional amendments include insulating various program integrity requirements such as requiring CMHCs to bill third parties for services if a third party is involved and not duplicate bill for a service provided to the recipient by another provider. Other amendments include establishing that CMHCs must comply with records maintenance/security requirements and Medicaid provider participation requirements. Another section is added to establish that the coverage of CMHC services is contingent upon federal approval and federal funding. Also, a section is added that clarifies that the Department for Medicaid Services has the authority to audit any claim, medical record, or documentation associated with any claim or medical record. Lastly, the appeals section is revised to establish that appeal rights regarding an adverse action in the realm of managed care will be as established in the relevant managed care organization administrative regulation (907 KAR 17:010, Managed care organization requirements and policies relating to enrollees.) The amendment after comments inserts a definition of "face-to-face" which accommodates Telehealth as qualifying as "face-to-face", inserts a definition of "qualified mental health professional"; synchronizes the names of covered services with the terminology approved by the Centers for Medicare and Medicaid Services (CMS); eliminates a duplicative requirement regarding electronic signatures; and clarifies miscellaneous provisions.

(b) The necessity of this administrative regulation: The primary amendment – amendment related to substance use disorder services and behavioral health services – is necessary to comply with a federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment." Additionally, the Department for Medicaid Services (DMS) is anticipating a substantial increase in demand for services as a result of new individuals gaining Medicaid eligibility in 2014. Some new individuals will be those eligible as part of the "expansion group" (a new eligibility group authorized by the Affordable Care Act which is comprised of adults under age sixty-five (65), who are not pregnant, whose income is below 133 percent of the federal poverty level, and who are not otherwise eligible for Medicaid.) Another group newly eligible as a result of new individuals gaining Medicaid eligibility in 2014. Furthermore, DMS anticipates a significant enrollment increase of individuals eligible under the "old" Medicaid rules who did not seek Medicaid benefits in the past, but will do so as a result of publicity related to the Affordable Care Act, Medicaid expansion, and the Health Benefit Exchange. The Medicaid Program is required to ensure that recipients have access to services. Other amendments are necessary to enhance program integrity requirements, establish that provisions and requirements are contingent upon federal funding (in order to protect state taxpayer generated funds), and clarify appeal rights for Medicaid recipients. The amendment after comments is necessary to synchronize and terminate the terminology with what was approved by CMS and to clarify policies.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the content of the authorizing statutes by complying with an Affordable Care Act mandate, enhancing recipient access to services, enhancing program integrity requirements, protecting state taxpayer generated funds, and establishing appeal rights for Medicaid recipients. The amendment after comments will conform to the content of the authorizing statutes by ensuring that the terminology comports with federal requirements and clarifying policies.

(d) How the amendment will assist in the effective administration of the statutes: The amendment will assist in the effective administration of the authorizing statutes by complying with an Affordable Care Act mandate, enhancing recipient access to services, enhancing program integrity requirements, protecting state taxpayer generated funds, and establishing appeal rights for Medicaid recipients. The amendment after comments will assist in the effective administration of the authorizing statutes by ensuring that the terminology comports with federal requirements and clarifying policies.

(c) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Community mental health centers will be
affected by this amendment. Additionally, licensed psychologists, advanced practice registered nurses, licensed professional clinical counselors, licensed clinical social workers, licensed marriage and family therapists, licensed psychological practitioners, licensed psychological associates, certified social workers (master’s level), licensed professional counselor associates, and marriage and family therapy associates who wish to provide substance use disorder services or the enhanced behavioral health services (established in this amendment) while working for or under contract with CMHC will also be affected by this administrative regulation. Medicaid recipients who qualify for substance use disorder services or the enhanced scope of behavioral health services will be affected by this amendment.

4. Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. CMHCs will need to ensure that they use the information and enforcement in this administrative regulation (stated in the incorporated material) to provide the new scope of services (expanded behavioral health services and substance use disorder services) if the given CMHCs wish to expand their scope of services accordingly.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). Normally is anticipated as expanding the scope of services is voluntary.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). CMHCs will benefit by being authorized to provide more services. The expanded types of behavioral health practitioners/professionals will benefit by having more employment opportunities in which to provide services. Medicaid recipients will benefit by having enhanced access to behavioral health services including substance use disorder services.

5. Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: DMS is unable to accurately estimate the costs of expanding the scope of behavioral health services, including substance use disorder services, covered in community mental health centers due to the various types of services (stated in the incorporated material) to provide the new scope of services or how many community mental health centers will choose to accordingly expand their scope of services nor how many Medicaid recipients will elect to receive the expanded scope of behavioral health services in community mental health centers. Additionally, some of the new services are expected to prevent Medicaid recipients from having to be admitted to an inpatient acute care psychiatric hospital or psychiatric hospital (which are more expensive levels of care.) Thus, expanding the scope of such services could reduce Medicaid program expenditures in aggregate.

(b) On a continuing basis: The response in paragraph (a) above also applies here.

6. What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.

7. Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

8. State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

9. Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.
expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The Department for Medicaid Services (DMS) is unable to project the impact of this amendment on revenues for state or local government agencies as it depends on how many community mental health centers that are owned by a government entity elect to expand their scope of services to include substance use disorder services and other new behavioral health services and on utilization of those services in such entities.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The response to question (a) also applies here.

(c) How much will it cost to administer this program for the first year? DMS is unable to accurately estimate the costs of expanding the scope of behavioral health services covered in community mental health centers due to the variables involved as DMS cannot estimate how many community mental health centers will choose to accordingly expand their scope of services nor how many Medicaid recipients will elect to receive the expanded scope of behavioral health services in community mental health centers. Additionally, some of the new services are expected to prevent Medicaid recipients from having to be admitted to an inpatient acute care hospital or psychiatric hospital (which are more expensive levels of care.) Thus, expanding the scope of such services could reduce Medicaid Program expenditures in aggregate.

(d) How much will it cost to administer this program for subsequent years? The response to question (c) above also applies here.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment adds reimbursement for services (added to companion administrative regulation 907 KAR 1.044, Community mental health center services) not previously included in the scope of Medicaid CMHC services. Among the new services are substance use disorder services for all ages/categories of Medicaid recipients. Previously, the Department for Medicaid Services (DMS) only covered substance use treatment for pregnant women and children. The amendment also adds other new behavioral health services not previously covered by the Medicaid program and clarifies that the reimbursement rates for CMHC services remains in effect at the same level. The amendment after comments eliminates terms which are broad categories of services rather than specific services; corrects the unit of service duration for several services; updates the name for certain services; and eliminates the Community Mental Health Center Reimbursement Manual from the incorporated material.

(b) The necessity of the amendment to this administrative regulation: The amendment is necessary to establish reimbursement for new services being added to the scope of CMHC services covered by the Medicaid Program including substance use disorder services for all ages/categories of Medicaid recipients. Previously, the Department for Medicaid Services (DMS) only covered substance use treatment for pregnant women and children. The Affordable Care Act mandates Medicaid coverage of substance use disorder services for all; thus, the amendment is necessary to comply with a federal mandate. The amendments after comments which eliminates broad descriptive terms is necessary to eliminate confusion as it may be unclear which specific services fall under a given broad category and the broad category is unnecessary. Updating the names of certain services is also necessary to eliminate confusion.

Combining the units of service duration of certain services is necessary to synchronize the units with what was approved by the Centers for Medicare and Medicaid Services (CMS). Removing the Community Mental Health Center Reimbursement Manual from the incorporated material is necessary as the manual is no longer used.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): CMHCs will benefit by reimbursed for more services covered by the Medicaid program and recipients will benefit by having access to more CMHC services.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: The amendment applies to all CMHCs. There are currently fifteen (15) CMHCs participating in the Medicaid Program. 73,779 Medicaid recipients received CMHC services during the course of the state fiscal year that ended June 30, 2013 with CMHCs receiving a total of $21.9 million from DMS for the services and $38.86 million from managed care organizations for the services.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. No compliance action is mandated.

(b) On a continuing basis: The response in paragraph (a) above also applies here.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 42 U.S.C. 1396a(a)(30) and 42 C.F.R. 447.204.

2. State compliance standards. KRS 205.520(3) states, “to qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Notwithstanding anything in KRS 205.630 the 205.630 is intended to limit the secretary’s power in this respect.”

3. Minimum or uniform standards contained in the federal mandate. 42 U.S.C. 1396a(a)(30) requires Medicaid program payments to be consistent with efficiency, economy, and quality of care and sufficient to enlist enough providers so that care and services are available at least to the extent that such care and services are available to the general population in the same geographic area. 42 C.F.R. 447.204 requires Medicaid reimbursement to be sufficient to enlist enough providers to ensure that services are available to Medicaid recipients at least to the extent that they are available to the general population.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The amendment does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The policy is not stricter than the federal standard.
1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation as will any community mental health center owned by a local government agency.

2. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. This administrative regulation authorizes the action taken by this administrative regulation.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

   a. How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The Department for Medicaid Services (DMS) is unable to project the impact of this amendment on revenues for state or local government agencies as it depends on how many community mental health centers that are owned by a government entity elect to expand their scope of services to include substance use disorder services and other new behavioral health services and on utilization of those services in such entities.

   b. How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The response to question (a) also applies here.

   c. How much will it cost to administer this program for the first year? DMS is unable to accurately estimate the costs of expanding the scope of behavioral health services covered in community mental health centers due to the variables involved as DMS cannot estimate how many community mental health centers will choose to accordingly expand their scope of services nor how many Medicaid recipients will elect to receive the expanded scope of behavioral health services in community mental health centers. Additionally, some of the new services are expected to prevent Medicaid recipients from having to be admitted to an inpatient acute care hospital or psychiatric hospital (which are more expensive levels of care.) Thus, expanding the scope of such services could reduce Medicaid program expenditures in aggregate.

   d. How much will it cost to administer this program for subsequent years? The response to question (c) above also applies here.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Stuart Owen
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the coverage provisions and requirements regarding Medicaid Program FQHC services, FQHC look-alike services, and primary care center (PCC) services.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the coverage provisions and requirements regarding Medicaid Program FQHC services, FQHC look-alike services, and PCC services.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing the coverage provisions and requirements regarding Medicaid Program FQHC services, FQHC look-alike services, and PCC services.
(d) How this administrative regulation currently assists or will assist in the effective administration of the authorizing statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by establishing the coverage provisions and requirements regarding Medicaid Program FQHC services, FQHC look-alike services, and PCC services.

and requirements regarding Medicaid Program FQHC services, FQHC look-alike services, and PCC services.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The primary amendment authorizes FQHCs, FQHC look-alikes, and PCCs to provide substance use disorder services and expands these providers scope of behavioral health services as well as expands the types of practitioners/professionals who can provide services in an FQHC, an FQHC-look-alike, or a PCC. Additional amendments include inserting various program integrity requirements such as requiring FQHCs, FQHC look-alikes, and PCCs to bill third parties for services if a third party is involved and not duplicate bill for a service provided to the recipient by another provider. Other amendments include establishing that FQHCs, FQHC look-alikes, and PCCs must comply with records maintenance/security requirements and Medicaid provider participation requirements. A new section is added to authorize FQHCs, FQHC look-alikes, and PCCs to utilize electronic signatures. Another section is added to establish that Medicaid Program coverage of an IC services, FQHC look-alike services, and PCC services under this administrative regulation is contingent upon federal approval and federal funding. Also, there is an amendment which clarifies that the Department for Medicaid Services has the authority to audit any provider claim, medical record, or documentation associated with any claim or medical record.
(2) An appeal of an adverse action by a managed care organization regarding a service and an enrollee shall be in accordance with 907 KAR 17:010.

Lastly, a section establishing recipient appeal rights regarding adverse actions is added. The amendment after comments deletes peer support services and parent or family peer support services from the services covered under this administrative regulation; deletes peer support specialists, family peer support specialists, and youth peer support specialists as authorized practitioners of services in this administrative regulation; deletes mobile crisis services, assertive community treatment, residential crisis stabilization services, and residential services for substance use disorders from the services covered under this administrative regulation; clarifies that advanced practice registered nurses may provide medication assisted treatment; clarifies that “medication prescribing and monitoring” rather than “medication management” is the appropriate term; clarifies that a licensed psychological practitioner includes a certified psychologist with autonomous functioning; clarifies that “crisis intervention” must be provided on-site at an FQHC, FQHC look-alike, or PCC; and clarifies that a licensed psychological associate includes a certified psychologist.

(b) The necessity of the amendment to this administrative regulation: The primary amendment – amendment related to substance use disorder services and behavioral health services – is necessary to comply with a federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act mandates that “essential health benefits” for Medicaid programs include “mental health and substance use disorder services, including behavioral health treatment.” Additionally, the Department for Medicaid Services (DMS) is anticipating a substantial increase in demand for services as a result of new individuals gaining Medicaid eligibility in 2014. Some new individuals will be those eligible as part of the “expansion group” (a new eligibility group authorized by the Affordable Care Act) which is comprised of adults under age sixty-five (65), who are not pregnant, whose income is below 133 percent of the federal poverty level, and who are not otherwise eligible for Medicaid.) Another newly eligible group is a group mandated by the Affordable Care Act comprised of former foster care children between the ages of nineteen (19) and twenty-six (26) who aged out of foster care while receiving Medicaid benefits. Furthermore, DMS anticipates a significant enrollment increase of individuals eligible under the “old” Medicaid rules who did not seek Medicaid benefits in the past, but will do so as a result of publicity related to the Affordable Care Act, Medicaid expansion, and the Health Benefit Exchange. The Medicaid Program is required to ensure that recipients have access to services. Other amendments are necessary to ensure that the new program participants understand that coverage of services is contingent upon federal funding (in order to protect state taxpayer generated funds), and
establish appeal rights for Medicaid recipients. The amendments after comments which delete services and practitioners are necessary as the Centers for Medicare and Medicaid Services (CMS) did not approve those practitioners or services in the settings addressed in this administrative regulation and/or the services are beyond the scope of services authorized for these facilities pursuant to their licensure category. Adding advanced practice registered nurses to the authorized practitioners of medication assisted treatment is necessary as they are qualified to provide that service. Correcting the term "medication management" to "medication prescribing and monitoring" is necessary to comport with CMS guidance. Establishing that "crisis intervention" is covered when provided on-site is necessary to comport with the state plan amendment approved by CMS.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the content of the authorizing statutes by complying with an Affordable Care Act mandate, enhancing recipient access to services, enhancing program integrity requirements, protecting state taxpayer generated funds, and establishing appeal rights for Medicaid recipients. The amendments after comments assist in the effective administration of the authorizing statutes by synchronizing policies with those approved by CMS.

(d) How the amendment will assist in the effective administration of the statutes: The amendment will assist in the effective administration of the authorizing statutes by complying with an Affordable Care Act mandate, enhancing recipient access to services, enhancing program integrity requirements, protecting state taxpayer generated funds, and establishing appeal rights for Medicaid recipients. The amendments after comments assist in the effective administration of the authorizing statutes by synchronizing policies with those approved by CMS.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Federally-qualified health centers and primary care centers, will be affected by this amendment. Additionally, licensed psychologists, advanced practice registered nurses, licensed professional clinical counselors, licensed clinical social workers, licensed marriage and family therapists, licensed psychological practitioners, licensed psychological associates, certified social workers (master's level), licensed professional counselor associates, and marriage and family therapy associates who wish to provide substance use disorder services or the enhanced behavioral health services (established in this amendment) while working for or under contract with an FQHC, FQHC look-alike, or PCC will also be affected by this administrative regulation. Medicaid recipients who qualify for substance use disorder services or the enhanced scope of behavioral health services will also be affected by this amendment. The effects identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. FQHCs, FQHC look-alikes, and PCCs will need to ensure that they use the practitioners authorized in this administrative regulation to provide the new scope of services (expanded behavioral health services and substance use disorder services) if the given FQHCs, FQHC look-alikes, or PCCs wish to expand their scope of services accordingly.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). No cost is anticipated as expanding the scope of services is voluntary.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). The expanded types of behavioral health practitioners/professionals will benefit by having more employment opportunities to provide services. Medicaid recipients will benefit by having enhanced access to behavioral health services and substance use disorder services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: DMS is unable to accurately estimate the costs of expanding the scope of behavioral health services covered in FQHC, FQHC look-alikes, and PCCs due to the variables involved as DMS cannot estimate how many FQHCs, FQHC look-alikes, or PCCs will choose to do this and the cost of doing so. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(b) On a continuing basis: The response in paragraph (a) above also applies here.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. KRS 205.520(3) states: "Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Notwithstanding the provisions of KRS 205.510 to 205.630 it is intended to limit the secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment." 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services." Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization's provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky's Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its substance use disorder provider base to comport with the freedom of choice of provider mandate. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the provider base will help ensure Medicaid recipient access to services statewide and reduce or prevent the lack of availability of services due to demand exceeding supply in any given area. 42 U.S.C. 1396d(a)(2) requires Medicaid coverage of: "(A) outpatient hospital services, (B) consistent with State law permitting such services, rural health clinic services (as
defined in subsection (l)(1)) and any other ambulatory services which are offered by a rural health clinic (as defined in subsection (l)(1)) and which are otherwise included in the plan, and (C) Federally-qualified health center services (as defined in subsection (l)(2) and any other ambulatory services offered by a Federally-qualified health center and which are otherwise included in the plan.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation as will any FQHC, FQHC look-alike, or PCC owned by a government agency.

2. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. This administrative regulation authorizes the action taken by this administrative regulation.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect. DMS is unable to accurately estimate the costs of expanding PCCs.

(b) How much will it cost to administer this program for subsequent years? The response to question (c) above also applies here.

(c) How much will it cost to administer this program for subsequent years? DMS is unable to accurately estimate the costs of expanding PCCs. The Department for Medicaid Services will be affected by the amendment to this administrative regulation as will any FQHC, FQHC look-alike, or PCC owned by a government agency.

4. What is the relationship between the regulations or actions taken by the administrative regulation and the federal financial participation for state or local government agencies as defined in 42 C.F.R. 491.203. DMS is unable to accurately estimate the costs of expanding PCCs.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Stuart Owen

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the coverage provisions and requirements regarding Medicaid Program rural health clinic (RHC) services.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the coverage provisions and requirements regarding Medicaid Program RHC services.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing the coverage provisions and requirements regarding Medicaid Program RHC services.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by establishing the coverage provisions and requirements regarding Medicaid Program RHC services.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The primary amendment authorizes rural health clinics to provide substance use disorder services and expands these providers’ scope of behavioral health services as well as expands the types of practitioners/professionals who can provide behavioral health services in a rural health clinic. Additional amendments include inserting various program integrity requirements such as requiring RHCs to bill third parties for services if a third party is involved and not duplicate bill for a service provided to the recipient by another provider. Other amendments include establishing that RHCs must comply with requirements and Medicaid provider participation requirements. A new section is added to authorize RHCs to utilize electronic

signatures. Another section is added to establish that the coverage provisions and requirements in this administrative regulation are contingent upon federal approval and federal funding. Another new section clarifies that The Department for Medicaid Services (DMS) can audit any claim or medical record or documentation associated with any claim or medical record. Lastly, a section establishing recipient appeal rights regarding an adverse action is added. The amendment after comments deletes peer support services and parent or family peer support services from the services covered under this administrative regulation; deletes peer support specialists, family peer support specialists, and youth peer support specialists as authorized practitioners of services in this administrative regulation; deletes mobile crisis services, assertive community treatment, residential crisis stabilization, and residential services for substance use disorders from the services covered under this administrative regulation; clarifies that advanced practice registered nurses may provide medication assisted treatment; clarifies that “medication prescribing and monitoring” rather than “medication management” is the appropriate term; clarifies that a licensed psychological practitioner includes a psychologist; removes the requirement that services furnished by an advanced practice registered nurse (APRN) must be supervised by a physician; clarifies that “crisis intervention” must be provided on-site at the rural health clinic; and deletes the term “nurse midwife” from the administrative regulation.

(b) The necessity of the amendment to this administrative regulation: The primary amendment – amendment related to substance use disorder services and mental health services – is necessary to comply with a federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act mandates that “essential health benefits” for Medicaid programs include “mental health and substance use disorder services, including behavioral health treatment.” Additionally, the Department for Medicaid Services (DMS) is anticipating a substantial increase in demand for services due to the variables involved as DMS cannot determine how many new individuals gaining Medicaid eligibility in 2014. Some new individuals will be those eligible as part of the “expansion group” (a new eligibility group authorized by the Affordable Care Act which is comprised of adults under age sixty-five (65), who are not pregnant, whose income is below 133 percent of the federal poverty level, and who are not otherwise eligible for Medicaid). Another new group of non-eligible persons is mandated by the Affordable Care Act comprised of former foster care children between the ages of nineteen (19) and twenty-six (26) who aged out of foster care while receiving Medicaid benefits. Furthermore, DMS anticipates a significant enrollment increase of individuals eligible under the “old” Medicaid rules who did not seek Medicaid benefits in the past, but will do so as a result of publicity related to the Affordable Care Act. Medicaid expands the substance use disorder services under the Medicare and Medicaid Benefits Exchange. The Medicaid Program is required to ensure that recipients have access to services. Other amendments are necessary to enhance program integrity requirements, establish that provisions and requirements are contingent upon federal funding (in order to protect state taxpayer generated funds), and establish appeal rights for Medicaid recipients. The amendments after comments conform to the content of the authorizing statutes by synchronizing policies with those approved by CMS.

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. RHCs will need to ensure that they use the practitioners authorized in this administrative regulation to provide the new scope of services (expanded behavioral health services and substance use disorder services) if the given RHC wishes to expand its scope of services according.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? No cost is anticipated as expanding the scope of services is voluntary.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? RHCs will benefit by being authorized to provide more services. The expanded types of behavioral health practitioners/professionals will benefit by having more employment opportunities in which to provide services. Medicaid recipients will benefit by having enhanced access to behavioral health services including substance use disorder services.

(d) The administrative regulation or amendment, if new, or by the change, if it is an amendment, including:

(1) The rulemaking to be adopted by the governor or other entity authorized to adopt this rulemaking: Rural health clinics will be affected by this amendment. Additionally, licensed psychologists, advanced practice registered nurses, licensed professional clinical counselors, licensed clinical social workers, licensed marriage and family therapists, licensed psychological practitioners, licensed psychological associates, certified social workers (master’s level), licensed professional alcohol and drug abuse counselors, and marriage and family therapy associates who wish to provide substance use disorder services or the enhanced behavioral health services (established in this amendment) while working for or under contract with an RHC will also be affected by this administrative regulation. Medicaid recipients who qualify for substance use disorder services or the enhanced scope of behavioral health services will be affected by this amendment.

(e) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. RHCs will need to ensure that they use the practitioners authorized in this administrative regulation to provide the new scope of services (expanded behavioral health services and substance use disorder services) if the given RHC wishes to expand its scope of services accordingly.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? No cost is anticipated as expanding the scope of services is voluntary.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? RHCs will benefit by being authorized to provide more services. The expanded types of behavioral health practitioners/professionals will benefit by having more employment opportunities in which to provide services. Medicaid recipients will benefit by having enhanced access to behavioral health services including substance use disorder services.

(1) The rulemaking to be adopted by the governor or other entity authorized to adopt this rulemaking:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? No cost is anticipated as expanding the scope of services is voluntary.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? RHCs will benefit by being authorized to provide more services. The expanded types of behavioral health practitioners/professionals will benefit by having more employment opportunities in which to provide services. Medicaid recipients will benefit by having enhanced access to behavioral health services including substance use disorder services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: DMS is unable to accurately estimate the costs of expanding the scope of behavioral health services covered in rural health clinics due to the variables involved as DMS cannot estimate how many rural health clinics will choose to expand their scope of services nor how many Medicaid recipients will elect to receive the expanded scope of behavioral health services in rural health clinics.

(b) On a continuing basis: The response in paragraph (a) above also applies here.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation:

The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds
authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. KRS 205.520(3) states: “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power for respect.”

3. Minimum or uniform standards contained in the federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act mandates that “essential health benefits” for Medicaid programs include “mental health and substance use disorder services, including behavioral health treatment.” 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to “provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services.” Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization’s provider network.

The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky’s Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its substance use disorder provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to offer services (including drugs) that are otherwise included in the plan, and (C) Federally-qualified health center services (as defined in subsection (l)(2)) and any other ambulatory services offered by a Federally-qualified health center and which are otherwise included in the plan.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation as will any RHC owned by a local government agency.

2. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. This administrative regulation authorizes the action taken by this administrative regulation.

3. Estimate the impact of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The Department for Medicaid Services (DMS) is unable to project the impact of this amendment on revenues for state or local government agencies as it depends on how many rural health clinics that are owned by a government entity elect to expand their scope of services to include substance use disorder services and other new behavioral health services on utilization of those services in such entities.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The response to question (a) also applies here.

(c) How much will it cost to administer this program for the first year? DMS is unable to accurately estimate the costs of expanding the scope of behavioral health services covered in rural health clinics due to the variables involved as DMS cannot estimate how many rural health clinics will choose to accordingly expand their scope of services nor how many Medicaid recipients will elect to receive the expanded scope of behavioral health services in rural health clinics.

(d) How much will it cost to administer this program for subsequent years? The response to question (c) above also applies here.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen
(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the cost sharing requirements and provisions for the Kentucky Medicaid program.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the cost sharing requirements and provisions for the Kentucky Medicaid program.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing the cost sharing requirements and provisions for the Kentucky Medicaid program.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the statutes by establishing the cost sharing requirements and provisions for the Kentucky Medicaid program.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment eliminates references to four (4) benefit plans to which Medicaid recipients previously have been assigned (comprehensive choices, family choices, global choices, and optimum choices) along with the corresponding cost sharing for each benefit plan; establishes uniform cost sharing for Medicaid recipients (except for those who are exempt from cost sharing or are enrolled with a managed care organization); eliminates premiums; eliminates references to co-insurance as only copayments, rather than coinsurance, are imposed going forward; establishes that the eight (8) dollar copayment for a nonpreferred brand name drug applies to all Medicaid recipients (no exemptions); establishes a $25 copayment for dental services. DMS is repealing a related administrative regulation which establishes the four (4) benefit plans as there was little difference among the plans and the cost for Medicaid recipients to cover an administrative burden for DMS, providers, and managed care organizations. As a result of eliminating the four (4) benefit plans there will be uniform cost sharing obligations. Cost sharing changes vary based on an individual's benefit plan but include raising the outpatient hospital/ambulatory surgical center copay from three (3) dollars to four (4) dollars, raising the preferred brand name drug copay from two (2) dollars to four (4) dollars, changing the preferred brand name drug copay from five (5) percent of the cost (not to exceed twenty (20) dollars to eight (8) dollars, raising the copay for non-emergent care in an emergency room from six (6) dollars to eight (8) dollars, lowering the durable medical equipment copay from no more than fifteen (15) dollars to a fixed copay of four (4) dollars, increasing the podiatry office visit copay from two (2) dollars to three (3) dollars, increasing the dental office visit copay from two (2) dollars to three (3) dollars, raising the ophthalmological and optometry office visit copays from two (2) dollars to three (3) dollars, increasing the physical therapy office visit from two (2) dollars to three (3) dollars, increasing the speech therapy office visit copay from one (1) dollar to three (3) dollars, establishing an occupational therapy office visit copay of three (3) dollars, increasing the physician's office visit copay from two (2) dollars to three (3) dollars, and increasing the rural primary care center office visit, the federally-qualified health center office visit, and primary care center office visit copays from two (2) dollars to three (3) dollars. DMS no longer imposes premiums for participation in the Kentucky Children's Health Insurance Program (KCHIP); thus, DMS is deleting the provisions regarding premiums. The amendment after comments inserts a definition of "dependent child" and of "community spouse"; revises the definition of "preventive service"; clarifies that foster care children are exempt from all cost sharing; clarifies the copayment associated with behavioral health care to an "office visit for behavioral health care" rather than the initial terminology of "office visit for care by a behavioral health professional"; clarifies that KRS 205.6312(4) – a Kentucky Revised Statute which prohibits Medicaid providers from refusing to provide a service to a Medicaid recipient due to the recipient's inability to pay a copayment – is the relevant statutory requirement and deletes a reference to a related provision in the 2012-2013 Biennium Budget; clarifies that uncollected copayments by a provider shall be considered debt; and clarifies that a provider shall not collect a copayment from a Medicaid recipient enrolled in a managed care organization (MCO) if the MCO in which the recipient is enrolled imposes an initial copayment.
(b) The necessity of the amendment to this administrative regulation: Eliminating the four (4) benefit plans (and establishing
uniform cost sharing provisions) is necessary as the plans have minimal differences in cost sharing and created an administrative burden for the Department for Medicaid Services, providers, and managed care organizations. DMS is eliminating provisions regarding premiums because DMS no longer charges premiums for KCHIP participation as the biennium budget suspended such premiums. Inserting a definition of preventive services is necessary to clarify the services exempt from cost sharing as preventive services for all ages (as mandated by the Affordable Care Act and federal regulation) are exempt from cost sharing. DMS adopted the definition of preventive services that comport with the relevant federal law and regulation. DMS is increasing cost sharing amounts for services as permitted by federal requirements in order to discourage inappropriate utilization of Medicaid services. DMS is not exempting anyone from the eight (8) dollar nonpreferred brand name drug copayment because for such drugs there will always be a preferred brand name drug option and DMS wants to encourage use of preferred brand name drugs over nonpreferred brand name drugs. Reducing provider’s reimbursement by the amount of the copayment for physician’s office visits, dental office visits, and non-emergent emergency room visits is necessary to comply with federal regulation and directive from the Centers for Medicare and Medicaid Services (CMS). Establishing that DMS’s cost sharing is contingent upon federal approval and federal funding is necessary to protect Kentucky taxpayer monies from being spent in the event that federal matching funds are not provided. The definitions added or revised via the amendment after comments are necessary for clarity. Inserting language to exempt foster care children from copayments is necessary to correct an oversight; revising the behavioral health office visit language is necessary for clarity; eliminating the reference to the section of the Biennium Budget which [in contrast to KRS 205.6312(4)] allows pharmacist to deny prescriptions to a Medicaid recipient due to the recipient’s not having the copayment is necessary as the Centers for Medicare and Medicaid Services (CMS) barred DMS (as a condition of approving the appropriated cost sharing amendment) from allowing a Medicaid provider to deny a service to a recipient due to the recipient not having the copayment for the service; clarifying that uncollected copayments equate to provider debt is necessary for clarity; and clarifying that a provider shall not collect a copayment from a Medicaid recipient enrolled in a managed care organization (MCO) if the MCO in which the recipient is enrolled imposes no copayment for the given service is necessary for clarity.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to the content of the authorizing statutes by eliminating an administratively burdensome (for DMS and providers) benefit plan structure; complying with federal requirements; complying with the biennium budget; protecting Kentucky taxpayer monies in the event that federal matching funds are not provided; and by discouraging inappropriate utilization of Medicaid services. The amendment after comments will conform to the authorizing statutes by clarifying policies and ensuring compliance with federal requirements.

(d) How the amendment will assist in the effective administration of the authorizing statutes: This amendment will assist in the effective administration of the authorizing statutes by eliminating an administratively burdensome (for DMS and providers) benefit plan structure; complying with federal requirements; complying with the biennium budget; protecting Kentucky taxpayer monies in the event that federal matching funds are not provided; and by discouraging inappropriate utilization of Medicaid services. The amendment after comments will assist in the effective administration of the authorizing statutes by clarifying policies and ensuring compliance with federal requirements.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: All Medicaid recipients who are not exempt from cost sharing will be affected by the amendment as well as Medicaid providers for whose services cost sharing is applied.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Providers of services for which cost sharing is imposed will be required to impose cost sharing when providing the given service and recipients are responsible for paying cost sharing.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). Providers may experience administrative cost associated with updating the cost sharing amounts per service or costs resulting from a Medicaid recipient refusing to pay a copayment obligation.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Medicaid recipients who receive preventive services will benefit from the lack of cost sharing applied to the services. Providers will benefit from a uniform cost sharing structure rather than a structure comprised of four (4) benefit plans with varying cost sharing obligations.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS) anticipates no additional cost, other than programming changes to its Medicaid Management Information System (MMIS), as a result of the amendment to this administrative regulation.

(b) On a continuing basis: The response to question (a) also applies here.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act and matching funds from general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Neither an increase in fees nor funding will be necessary to implement the amendment.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: The amendment to this administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is applied in that some Medicaid recipients are exempt (by federal regulation or law) from most cost sharing obligations.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. KRS 205.520(3) authorizes the cabinet, by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky’s indigent citizen. KRS 194A.050(1) authorizes the Cabinet for Health and Family Services secretary to “formulate, promote, establish, and execute policies, plans, and programs and shall adopt, administer, and enforce throughout the Commonwealth all applicable state laws and all administrative regulations necessary under applicable state laws to protect, develop, and maintain the health, personal dignity, integrity, and sufficiency of the individual citizens of the Commonwealth and necessary to operate the programs and fulfill the responsibilities vested in the cabinet. The secretary shall promulgate, administer, and enforce those administrative regulations necessary to implement programs mandated by federal law, or to qualify for the receipt of federal funds and necessary to cooperate with other state and federal agencies for the proper administration of the cabinet and its programs.”

3. Minimum or unique standards contained in the federal mandate. 42 U.S.C. 1396a(a)(14) authorizes a state’s Medicaid program to impose cost sharing only as allowed by 42 U.S.C.

(1) A brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the Department for Medicaid Services’ (DMS) reimbursement provisions and requirements for vision services provided to a Medicaid recipient who is not enrolled in a managed care organization.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish DMS’s reimbursement provisions and requirements for vision services provided to a Medicaid recipient who is not enrolled in a managed care organization.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing DMS’s reimbursement provision and requirements for vision services provided to a Medicaid recipient who is not enrolled in a managed care organization.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the authorizing statutes by establishing DMS’s reimbursement provisions and requirements for vision services provided to a Medicaid recipient who is not enrolled in a managed care organization.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendment incorporates by reference a fee schedule which contains DMS’s reimbursement for vision services; establishes that DMS will reimburse for one (1) pair of eyeglasses per year unless the pair is broken or lost or the prescription changes in which case DMS will reimburse for a second pair (currently, DMS in a related administrative regulation has an annual dollar limit of $200 or $400 for eyeglasses depending on the recipient’s benefit plan); insert various program integrity measures; and establishes that reimbursement is contingent upon receiving federal approval/funding. This amended administrative regulation is being promulgated in conjunction with three (3) other administrative regulations, Vision Program coverage provisions and requirements; 907 KAR 1:039, Hearing program coverage provisions and requirements; and 907 KAR 1:039, Hearing Program reimbursement provisions and requirements. 907 KAR 1:039 currently contains the $200 and $400 annual limit on eyeglasses, but vision program provisions are being removed from that administrative regulation as they will be addressed in this administrative regulation. The amendment after comments replaces the material incorporated by reference – December 2013 version of the Department for Medicaid Services Vision Program Fee Schedule with the April 2014 version; revises the definition of “optometrist” to refer to the chapter of Kentucky Revised Statutes which govern the practice of optometry.
(b) The necessity of the amendment to this administrative regulation: Establishing a limit of one (1) pair of eyeglasses [or two (2) if the first pair is lost or the recipient’s prescription changes] per year rather than an annual dollar cap ($200 or $400 as is currently stated in a related administrative regulation) is necessary to comply with an Affordable Care Act mandate. The mandate prohibits, effective January 1, 2014, annual dollar limits on health insurance benefits that are “essential health benefits.” Medicaid provisioned benefits are included in the scope of essential health benefits. Establishing that the provisions in this administrative regulation are contingent upon the receipt of federal approval and
federal funding is necessary to protect Kentucky taxpayer monies from being used if federal matching funding is not being provided. Additional amendments are necessary to incorporate various program integrity measures; clarify provisions and requirements; and to provide a user friendly fee schedule of reimbursement.  

Revising the Department for Medicaid Services Vision Program Fee Schedule is necessary as the prior version that was filed did not contain all of the vision codes covered by DMS. Amending the definition of “optometrist” is necessary for to refer to the appropriate chapter of Kentucky Revised Statutes.  

(c) How the amendment conforms to the content of the authorizing statutes: The amendment will conform to the content of the authorizing statutes by complying with a federal mandate; by preventing a potential loss of state funds; by inserting program integrity measures; and by clarifying provisions and requirements. The amendment after comments conforms to the content of the authorizing statutes by incorporating a complete version of the Department for Medicaid Services Vision Program Fee Schedule and by referring to the appropriate chapter of Kentucky Revised Statutes for a definition of “optometrist.”  

(3) List the number and type of individuals, businesses, organizations, or state and local government affected by this administrative regulation: This administrative regulation will affect vision service providers participating in the Kentucky Medicaid program.  

For calendar year 2012, two (22) opticians billed $696,300 in claims to optometrists and Medicaid managed care entities identified in question (3). Medicaid recipients paid $696,300 in claims to optometrists and Medicaid managed care organizations paid $19,096,123 in claims to optometrists.  

For calendar year 2014 will be similar to calendar year 2012 expenditures.  

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act, state matching funds, and agency appropriations.  

(7) If yes as the assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in funding will be necessary to implement this administrative regulation.  

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor directly nor indirectly increases any fees.  

(9) Tiering: Is tiering applied? Tiering is applied as eyeglass coverage is only available to those under twenty-one (21).  

42 C.F.R. 441.56(c)(1) – which addresses early and periodic screening, diagnosis and treatment (EPSDT) services coverage – mandates coverage for individuals under twenty-one (21).

**FEDERAL MANDATE ANALYSIS COMPARISON**

2. State compliance standards. KRS 194A.050(1) states, “The secretary shall promulgate, administer, and enforce those administrative regulations necessary to implement programs mandated by federal law, or to qualify for the receipt of federal funds and necessary to cooperate with other state and federal agencies for the proper administration of the cabinet and its programs.” KRS 205.520(3) states: “… it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power in this respect.”

3. Minimum or uniform standards contained in the federal mandate. Vision services are not federally mandated except for those under age twenty-one (21) via the early and periodic screening, diagnosis and treatment (EPSDT) services for individuals under age twenty-one (21) program pursuant to 42 C.F.R. 441.56(c)(1). 42 C.F.R. 441.30 states, “The plan must provide for payment of optometric services as physician services, whether furnished by an optometrist or a physician, if—

(a) The plan does not provide for payment for services provided by an optometrist, except for emergency services, disability determinations under §§435.531 and 436.531 of this subchapter, but did provide for those services at an earlier period; and

(b) The plan specifically provides that physicians’ services include services an optometrist is legally authorized to perform.”

Medicaid reimbursement for services is required to be consistent with efficiency, economy and quality of care and be sufficient to attract enough providers to assure access to services. 42 U.S.C. 1396a(a)(30)(A) requires Medicaid state plans to: “…provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(i)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area.” 45 C.F.R. 147.126 prohibits the application of annual dollar limits on essential health benefits. Medicaid program benefits are included in the scope of essential health benefits.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen
(1) Provide a brief summary of:
(a) What this administrative regulation does: This new administrative regulation establishes Medicaid Program coverage policies and requirements regarding vision services. Previously, vision coverage provisions were addressed in 907 KAR 1:038, Hearing Program coverage provisions and requirements, which also established hearing coverage provisions. The Department for Medicaid Services (DMS) is creating this administrative regulation to separate vision coverage provisions from hearing coverage provisions which will remain in 907 KAR 1:038; thus, this administrative regulation is being promulgated in conjunction with 907 KAR 1:038E. Additionally, DMS is promulgating 907 KAR 1:038E, Hearing Program reimbursement provisions and requirements as well as 907 KAR 1:631E. Vision Program reimbursement provisions and requirements in conjunction with
this administrative regulation. Though this is a new administrative regulation it does contain amended provisions. The primary amendment is eliminating, from the Vision Program, an annual dollar limit on eyeglasses. Currently, DMS has an annual eyeglass dollar limit of $200 per year or $400 per year depending on the recipient’s benefit plan; however, DMS is eliminating the dollar limit and establishing that DMS will reimburse for up to two (2) pairs of eyeglasses per twelve (12) consecutive month period (one (1) pair is covered with an additional pair allowed if the individual’s glasses are broken or lost or the prescription changes). Another critical amendment is establishing that DMS’s coverage of Vision Program services is contingent upon receipt of federal approval and federal funding. Additional amendments include the elimination of a manual - Vision Program Manual - that DMS incorporated by reference 907 KAR 1:038 and inserting electronic signature requirements to enable providers to sign via electronic signatures.

DMS is no longer incorporating the manual by reference into regulation but is incorporating the Department for Medicaid Services Vision Program Fee Schedule by reference into this administrative regulation. The fee schedule limits eye examinations to one (1) per recipient per year in contrast to the current limit of one (1) per recipient per provider per year. The administrative regulation also contains program integrity requirements.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish Medicaid Program coverage provisions and requirements regarding vision services. Eliminating, from the Vision Program, the $200 and $400 annual limits on eyeglasses is necessary to comply with a federal mandate. The Affordable Care Act prohibits - effective January 1, 2014 - the application of an annual dollar limit on health insurance benefits known as "essential health benefits." Medicaid benefits are within the scope of essential health benefits. Establishing that the provisions in this administrative regulation are contingent upon the receipt of federal approval and federal funding is necessary to protect Kentucky taxpayer monies from being used if federal matching funds are not provided.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes: The amendment after comments conforms to the content of the authorizing statutes by ensuring program integrity and recipient health, safety, and welfare; by incorporating a complete version of the Department for Medicaid Services Vision Program Fee Schedule; and by referring to the appropriate chapter of Kentucky Revised Statutes for a definition of "optometrist."

(d) How the amendment will assist in the effective enforcement of the statutes: The amendment after comments will assist in the effective administration of the authorizing statutes by ensuring program integrity and recipient health, safety, and welfare; by incorporating a complete version of the Department for Medicaid Services Vision Program Fee Schedule; and by referring to the appropriate chapter of Kentucky Revised Statutes for a definition of "optometrist."

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation or amendment. No action is required of the regulated entities other than to properly bill for services and adhere to program integrity requirements.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). No cost is imposed.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Medicaid recipients who need eyeglasses may benefit from altering the annual cap of $200 or $400 to up to two (2) pair of eyeglasses per year (if they meet the qualifying circumstances – the first pair of eyeglasses is lost or broken or the prescription changes).

(5) Provide an estimate of how much it will cost to implement this administrative regulation or amendment: DMS anticipates that paid claims (fee-for-service and managed care) in calendar years 2013 and 2014 will be similar to calendar year 2012 expenditures.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act, state matching funds, and agency appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No increase in funding will be necessary to implement this administrative regulation.
indirectly increases any fees.

(9) Tiering: Is tiering applied? Tiering is applied as eyeglass coverage is only available to those under twenty-one (21). 42 C.F.R. 441.56(c)(1) – which addresses early and periodic screening, diagnosis and treatment (EPSDT services coverage – mandates coverage for individuals under twenty-one (21).

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. Vision services for Medicaid recipients are not mandated by Kentucky law; however, the Department for Medicaid Services is required by KRS 205.8453 to "institute other measures necessary or useful in controlling fraud and abuse." KRS 205.520(3) states: "...it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretaries for health and family services (DMS) and the cabinet for health and family services (DMS) will be affected by the administrative mandate. Vision services for Medicaid recipients by appropriate health care professionals may be regulated only with a requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect."

3. Minimum or uniform standards contained in the federal mandate. Vision services are not federally mandated except for those under age twenty-one (21) via the early and periodic screening, diagnosis and treatment (EPSDT) services for individuals under age twenty-one (21) program pursuant to 42 C.F.R. 441.56(c)(1). 42 C.F.R. 441.30 states, "The plan must provide for payment of optical services as physician services, whether furnished by an optometrist or a physician, if:

(a) The plan does not provide for payment for services provided by an optometrist, except for eligibility determinations under §§435.531 and 436.531 of this subchapter, but did provide for these services at an earlier period; and

(b) The plan specifically provides that physicians' services include services an optometrist is legally authorized to perform."

Additionally, state Medicaid programs are required to take measures to monitor that services are appropriate. States are required to establish a plan for review of the appropriateness and quality of care and services furnished to Medicaid recipients by appropriate health care professionals. The plan helps to prevent overutilization or unnecessary care and to assure that reimbursement is consistent with efficiency, economy and quality of care. 42 U.S.C. 1396a(a)(30)(A) requires Medicaid state plans to: "provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(i)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services..."

45 C.F.R. 147.126 prohibits the application of annual dollar limits on essential health benefits. Medicaid program benefits are included in the scope of essential health benefits.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? No.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. Stricter requirements are not imposed.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services (DMS) will be affected by the administrative regulation.

2. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. KRS 194A.030(2), 194A.050(1), 205.520(3), 42 C.F.R. 441.30, 42 C.F.R. 441.56(c)(1), and 45 C.F.R. 147.126.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? DMS expects that the amendment will not generate revenue.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? DMS expects that the amendment will not generate revenue.

(c) How much will it cost to administer this program for the first year? In calendar year 2012, the Department for Medicaid Services (DMS), i.e. "fee-for-service" or "FFS" paid $9,139 in claims to opticians and Medicaid managed care organizations paid $548,235 in claims to opticians. For the same period DMS paid $696,300 in claims to optometrists and Medicaid managed care organizations paid $19,086,123 in claims to optometrists. DMS anticipates that paid claims (fee-for-service and managed care) in calendar years 2013 and 2014 will be similar to calendar year 2012 expenditures.

In calendar year 2012, the Department for Medicaid Services (DMS), i.e. "fee-for-service" or "FFS" paid $9,139 in claims to opticians and Medicaid managed care organizations paid $548,235 in claims to opticians. (b) Managed care organization in which the enrollee is enrolled if the recipient is an enrollee.

(5)(a) To request an override:

1. The provider shall telephone or fax the request to the department, and
2. The department shall review the request in accordance with the provisions of 907 KAR 3:130 and notify the provider of its decision.

(b) An appeal of a denial regarding a requested override shall be in accordance with 907 KAR 1:563.

(6) The limits established in subsections (1), (2), and (3) of this section shall not apply to a recipient under twenty-one (21) years of age served if the recipient is under age twenty-one (21). Prior authorization shall be required for each visit that exceeds the limit established in subsection (1) through (3) of this section.

Section 7. Physician Assistant Services. (1) Except for [with the exception of] a service limitation specified in subsections (2) or (3) of this section, a service provided by a physician assistant in common practice with a Medicaid-enrolled physician shall be covered if:
(a) The service meets the requirements established in Section 3(1) of this administrative regulation;
(b) The service is within the legal scope of certification of the physician assistant;
(c) The service is billed under the physician's individual provider number with the physician assistant's number included; and
(d) The physician assistant complies with:
1. KRS 311.840 to 311.862; and
2. Section 2(1)(b) and (3) of this administrative regulation.

(2) A same service performed by a physician assistant and a physician on the same day within a common practice shall be considered as one (1) covered service.

(3) The following physician assistant services shall not be covered:
(a) A physician noncovered service specified in Section 4(9) of this administrative regulation;
(b) An anesthesia service;
(c) An obstetrical delivery service; or
(d) A service provided in assistance of surgery.

Section 8. No Duplication of Service. (1) The department shall not reimburse for a service provided to a recipient by more than one (1) provider of any program in which the service is covered during the same time period.

(2) For example, if a recipient is receiving a speech language pathology service from a speech-language pathologist enrolled with the Medicaid Program, the department shall not reimburse for the same service provided to the same recipient during the same time period via the physician services program.

Section 10. Use of Electronic Signatures. (1) The creation, transmission, storage, and other use of electronic signatures and documents shall comply with the requirements established in KRS 369.101 to 369.120.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

(1) Provide a brief summary of:
(a) What this administrative regulation does: This administrative regulation establishes the Medicaid program coverage provisions and requirements regarding physician services.
(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the Medicaid program coverage provisions and requirements regarding physician services.
(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing the Medicaid program coverage provisions and requirements regarding physician services.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by establishing the Medicaid program coverage provisions and requirements regarding physician services.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendments include authorizing Medicaid reimbursement for allergy immunotherapy for all ages (the current version of the administrative regulation does not authorize such coverage for individuals twenty-one (21) and over); revising the speech pathology service limit from ten (10) visits per twelve (12) months for global choices individuals, thirty (30) visits per twelve (12) months for comprehensive choices individuals and optimum choices individuals, and no limit for family choices individuals to twenty (20) visits per calendar year for all Medicaid recipients; revising the physical therapy service limit from ten (10) visits per twelve (12) months for global choices individuals, thirty (30) visits per twelve (12) months for comprehensive choices individuals and optimum choices individuals, and no limit for family choices individuals to twenty (20) visits per calendar year for all Medicaid recipients; revising the occupational therapy service limit from ten (10) visits per twelve (12) months for global choices individuals, thirty (30) visits per twelve (12) months for comprehensive choices individuals and optimum choices individuals, and no limit for family choices individuals to twenty (20) visits per calendar year for all Medicaid recipients; revising the alternative benefit plan is the array of benefits available to recipients. The alternative benefit plan is mandated by the Affordable Care Act for any state that adopts the same policies. Also, DMS is adopting the same benefit plan for all Medicaid recipients (those eligible under the “old” rules as well as under the “new” rules.) Consequently, DMS is concurrently repealing the administrative regulation which establishes the four (4) benefit plans – comprehensive choices, family choices, global choices, and optimum choices – to which Medicaid recipients have been assigned for the past several years. The four (4) benefit plans vary little and DMS is eliminating as such appeals are in the domain of managed care organizations. The amendment regarding a sleep disorder service is necessary to ensure recipients are served by a provider that meets national industry standards. Establishing that DMS won’t reimburse for an “other provider preventable condition” is necessary to comply with a federal mandate. Authorizing chiropractors and podiatrists to request prior authorization is necessary to enhance recipient access to services if the recipient appears at the provider’s office to receive a service; adding podiatrists and chiropractors as providers eligible to request prior authorization for services; establishing an option for providers to request prior authorization for services; revising the administrative regulation is necessary as such appeals are in the domain of managed care organizations. The amendment after comments which re-inserts provisions regarding DMS’s coverage of physician injectable drug and related provisions) is necessary as DMS continues to cover physician injectable and related drugs administered in a physician’s office. The amendment after comments regarding lock-in programs and managed care organizations is necessary to clarify that managed care organizations do not have to employ the same lock-in program criteria used by DMS (pursuant to DMS’s lock-in administrative regulation – 907 KAR 1:677.) Revising the definition of “common practice” is necessary for clarity.

(b) The necessity of the amendment to this administrative regulation: The amendment eliminates the age cap on allergy immunotherapy and the amendment which sets a uniform limit of twenty (20) therapy service visits per calendar year for allergy immunotherapy with the alternative benefit plan established by DMS to be effective January 1, 2014. An alternative benefit plan is mandated by the Affordable Care Act for any state which adds the Medicaid “expansion group” to its eligibility groups. The alternative benefit plan is the array of benefits available to the expansion group and must be based on a “benchmark” or “benchmark equivalent plan.” There are four (4) acceptable such plans as established by 42 C.F.R. 440.330 and 42 U.S.C. 1396u-7(b). The four (4) are: The benefit plan provided by the Federal Employees Health Benefit plan Standard Blue Cross/Blue Shield Plus Option, the state employee health plan, the health insurance plan offered and generally available to state employees; The health insurance plan offered through the Health Maintenance Organization (HMO) with the largest insured commercial non-Medicaid enrollment in the state; and Secretary-approved coverage, which is a benefit plan that the secretary has determined to provider coverage appropriate to meet the needs of the population provided that coverage. States are required to cover every service in the given alternative benefit plan and may not pick and choose individual from different alternative benefit plan options. Kentucky selected a benchmark plan that is in the category of Health and Human Services Secretary-approved coverage. The specific plan is the Anthem Blue Cross Blue Shield Small Group Provider Preferred Option (PPO). As this plan sets a therapy service limit of twenty (20) visits per calendar year and covers allergy immunotherapy for all ages, DMS is adopting the same policies. Also, DMS is adopting the same benefit plan for all Medicaid recipients including the new groups mandated or authorized by the Affordable Care Act. Additionally, there is an administrative and Medicaid Management Information System (MMIS) burden associated with preserving different plans as well as an administrative burden on providers and managed care organizations. Given that the plans vary little it is impractical if not infeasible to present the plans. The amendments are necessary as such appeals are in the domain of managed care organizations. The amendment after comments which re-inserts provisions regarding DMS’s coverage of physician injectable drug and related drugs administered in a physician’s office.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the content of the authorizing statutes by comporting with the Affordable Care Act, enhancing the health, safety and welfare of Medicaid recipients, facilitating providers’ ability to request prior authorizations, and protecting Kentucky taxpayer monies.

(d) How the amendment will assist in the effective administration of the statutes: The amendment will assist in the effective administration of the authorizing statutes by comporting with the Affordable Care Act, enhancing the health, safety, and welfare of Medicaid recipients, facilitating providers’ ability to request prior authorizations, and protecting Kentucky taxpayer monies.

(3) List the type and number of individuals, businesses, organizations, or state government agencies affected by this administrative regulation: The administrative regulation affects physicians enrolled in the Medicaid program. Currently, there are...

(b) For example, if an occupational therapy service is provided on a date when the Centers for Medicare and Medicaid Services:

1. Interim Kentucky-specific Medicare Physician Fee Schedule for a given year is in effect, the reimbursement for the service shall be the amount established on the interim Kentucky-specific Medicare Physician Fee Schedule for the year; or

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact: Stuart Owen

(1) Provide a brief summary of:

(a) What this administrative regulation does: This is a new administrative regulation which establishes the Department for Medicaid Services’ reimbursement provisions and requirements regarding occupational therapy services provided by an independently enrolled occupational therapist, or occupational therapy assistant working under the direct supervision of an independently enrolled occupational therapist, to Medicaid recipients who are not enrolled with a managed care organization. Managed care organizations are not required to reimburse for occupational therapy services pursuant to this administrative regulation. Currently, the Department for Medicaid Services (DMS) covers occupational therapy services when provided in a physician’s office (and the physician is the billing entity), when provided as a home health service (billed by a home health agency), when provided in a nursing facility as an ancillary service, when provided in an intermediate care facility for individuals with an intellectual disability as an ancillary service, or in a 1915(c) home and community based waiver program. This administrative regulation authorizes occupational therapists to enroll as independent Medicaid providers, rather than work for or under contract with, one (1) of the aforementioned provider types and be reimbursed for occupational therapy services provided to Medicaid recipients. DMS is expanding the occupational therapy service provider base in concert with expanding the Medicaid eligibility groups authorized or mandated by the Affordable Care Act. The Affordable Care Act created a new eligibility group, mandated for all states, comprised of former foster care individuals between the ages of nineteen (19) and twenty-six (26) who aged out of foster care while receiving Medicaid coverage. Additionally, the Affordable Care Act authorized states to add an eligibility group known as the “expansion group.” The expansion group is comprised of adults under sixty-five (65), who are not pregnant, who have income below 133 percent of the federal poverty level, and who do not otherwise qualify for Medicaid benefits. DMS must expand its provider base to meet the demand for care (thus, to ensure recipient access to care.) This administrative regulation is being promulgated in conjunction with two (2) other administrative regulations necessary to implement this initiative – 907 KAR 8:010, Independent occupational therapy service coverage provisions and requirements and 907 KAR 8:005, Definitions for KAR Chapter 8.

(b) The necessity of the administrative regulation: This administrative regulation is necessary to expand the Medicaid base of occupational therapy service providers in order to meet the demand for care (thus, to ensure recipient access to care.)

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by enabling the Department for Medicaid Services to meet the requirement of ensuring recipient access to care.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by enabling the Department for Medicaid Services to meet the requirement of ensuring recipient access to care.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment after comments clarifies that DMS will use the version of the Kentucky-specific Medicare Physician Fee Schedule used by the Centers for Medicare and Medicaid Services (CMS) at the time that the service is provided. CMS uses an interim fee schedule initially during a given year and then adopts a final version later in the year.

(b) The necessity of the amendment to this administrative regulation: The amendment after comments is necessary to clarify that DMS will use the current (whether interim or final for a given year) Kentucky-specific Medicare Physician Fee Schedule used by the Centers for Medicare and Medicaid Services.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment after comments conforms to the content of the authorizing statutes by clarifying policy.

(d) How the amendment will assist in the effective administration of the statutes: The amendment after comments assists in the effective administration of the authorizing statutes by clarifying policy.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this
administrative regulation: Any occupational therapist licensed in Kentucky may be affected if the individual wishes to enroll in the Medicaid Program and be reimbursed for occupational therapy services provided to Medicaid recipients. Similarly, occupational therapy assistants who wish to work for/under the supervision of an independently enrolled occupational therapist will be affected by the administrative regulation. Additionally, Medicaid recipients in need of occupational therapy services will be affected by the administrative regulation. The Department for Medicaid Services (DMS) is unable to predict how many occupational therapists will choose to enroll in the Medicaid Program, nor how many occupational therapy assistants will elect to work for/under the supervision of an independently enrolled occupational therapists, nor how many Medicaid recipients will receive services from independently enrolled occupational therapists.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. An occupational therapist who wishes to provide services to Medicaid recipients will need to enroll with the Medicaid Program as prescribed in the Medicaid provider enrollment regulation (complete and application and submit it to DMS) and sign agreements with managed care organizations if the agency wishes to provide services to Medicaid recipients who are enrolled with a managed care organization.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). An occupational therapist who wishes to provide occupational therapy to Medicaid recipients could experience administrative costs associated with enrolling with the Medicaid Program.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). An occupational therapist who enrolls with the Medicaid Program will benefit by being reimbursed for services provided to Medicaid recipients. Occupational therapy assistants will benefit from having an expanded pool of employers/employment settings in which to work. Medicaid recipients in need of occupational therapy services will benefit from an expanded base of providers from which to receive occupational therapy services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS) estimates that implementing this administrative regulation will increase DMS expenditures by $1.43 million ($271,530 state funds/$1.16 million federal funds) for state fiscal year 2014.

(b) On a continuing basis: Medicaid will enroll $362,000 state funds ($1.55 million federal funds) for state fiscal year 2014 and $1.16 million federal funds for state fiscal year 2015.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 42 U.S.C. 1396a(a)(30).

2. State compliance standards. KRS 205.520(3) states:
   “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect.”

3. Minimum or uniform standards contained in the federal mandate. Medicaid programs are not required to cover occupational therapy services; however, each state’s Medicaid program is required (for the services it does cover) to ensure recipient access to those services. As the Department for Medicaid Services (DMS) covers occupational therapy services, it must ensure that an adequate provider base exists to ensure recipient access to care. A relevant federal law – 42 U.S.C. 1396a(a)(30) requires a state’s Medicaid program to "provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(j)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area." Creating a new base of authorized providers comports with the intent of the aforementioned federal law.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

2. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. This administrative regulation authorizes the action taken by this administrative regulation.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is in effect:

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? No revenue is anticipated.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? No revenue is anticipated.

(c) How much will it cost to administer this program for the first year? The Department for Medicaid Services (DMS) estimates that implementing this administrative regulation will increase DMS expenditures by $1.43 million ($271,530 state funds/$1.16 million federal funds) for state fiscal year 2014.

(d) How much will it cost to administer this program for subsequent years? DMS estimates that implementing this administrative regulation will cost DMS approximately $1.91 million.
($362,000 state funds/$1.55 million federal funds) annually, beginning with state fiscal year 2015.
Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

The Affordable Care Act created a new eligibility group, mandated for all states, comprised of former foster care individuals between the ages of nineteen (19) and twenty-six (26) who aged out of foster care while receiving Medicaid coverage. Additionally, the Affordable Care Act authorized states to add an eligibility group known as the “expansion group.” The expansion group is comprised of adults under sixty-five (65), who are not pregnant, who have income below 133 percent of the federal poverty level, and who do not otherwise qualify for Medicaid benefits. DMS must expand its provider base to meet the demand of the additional Medicaid recipients DMS anticipates beginning January 1, 2014 (in order to ensure recipient access to care.) This administrative regulation is being promulgated in concert with two (2) other administrative regulations necessary to implement this initiative – 807 KAR 8:020, Independent physical therapy service coverage provisions and

2550
requirements and 907 KAR 8:005, Definitions for 907 KAR Chapter 8.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to expand the Medicaid base of physical therapy providers in order to meet the demand for care (thus, to ensure recipient access to care).

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by enabling the Department for Medicaid Services to meet the requirement of ensuring recipient access to care.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by enabling the Department for Medicaid Services to meet the requirement of ensuring recipient access to care.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation.

(b) The necessity of this amendment, how much will it cost to implement it, or by the change if it is an amendment.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment after comments clarifies that DMS will use the version of the Kentucky-specific Medicare Physician Fee Schedule used by the Centers for Medicare and Medicaid Services (CMS) at the time that the service is provided. CMS uses an interim fee schedule initially during a given year and then adopts a final version later in the year.

(b) The necessity of the amendment to this administrative regulation: The amendment after comments is necessary to clarify that DMS will use the current (whether interim or final for a given year) Kentucky-specific Medicare Physician Fee Schedule used by the Centers for Medicare and Medicaid Services.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment after comments conforms to the content of the authorizing statutes by clarifying policy.

(d) How this amendment will assist in the effective administration of the statutes: The amendment after comments assists in the effective administration of the authorizing statutes by clarifying policy.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Any physical therapist licensed in Kentucky may be affected if the individual wishes to enroll in the Medicaid Program and be reimbursed for physical therapy services provided to Medicaid recipients. Similarly, physical therapy assistants who wish to work for/under the supervision of an independently enrolled physical therapist will be affected by the administrative regulation. Additionally, Medicaid recipients in need of physical therapy services will be affected by the administrative regulation. The Department for Medicaid Services (DMS) is unable to project how many physical therapy assistants will elect to work for/under the supervision of independently enrolled physical therapists, nor how many Medicaid recipients will receive services from independently enrolled physical therapists.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. A physical therapist who wishes to provide services to Medicaid recipients will need to enroll with the Medicaid Program as prescribed in the Medicaid provider enrollment regulation (complete and application and submit it to DMS) and sign agreements with managed care organizations if the agency wishes to provide services to Medicaid recipients who are enrolled with a managed care organization.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). A physical therapist who wishes to provide physical therapy to Medicaid recipients could expect physical therapy costs associated with enrolling with the Medicaid Program.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). A physical therapist who enrolls with the Medicaid Program will benefit by being reimbursed for services provided to Medicaid recipients. Physical therapy assistants will benefit from having an expanded pool of employers/employment settings in which to work. Medicaid recipients in need of physical therapy services will benefit from an expanded base of providers from which to receive physical therapy services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS) estimates that implementing this administrative regulation will increase DMS expenditures by $1.43 million ($271,530 state funds/$1.16 million federal funds) for state fiscal year 2014.

(b) On a continuing basis: DMS estimates that implementing this administrative regulation will cost DMS approximately $1.91 million ($362,000 state funds/$1.55 million federal funds) annually, beginning with state fiscal year 2015.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 42 U.S.C. 1396a(a)(30).

2. State compliance standards. KRS 205.520(3) states: “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for reimbursement of medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary's power in this respect.”

3. Minimum or uniform standards contained in the federal mandate. Medicaid program is not required to cover physical therapy; however, each state’s Medicaid program is required (for the services it does cover) to ensure recipient access to those services. As the Department for Medicaid Services (DMS) covers physical therapy, it must ensure that an adequate provider base exists to ensure recipient access to care. A relevant federal law - 42 U.S.C. 1396a(a)(30) requires a state’s Medicaid program to “provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(i)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area.” Creating a new base of authorized providers comports with the intent of the aforementioned federal law.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or
additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

2. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. This administrative regulation authorizes the action taken by this administrative regulation.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? No revenue is anticipated.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? No revenue is anticipated.

(c) How much will it cost to administer this program for the first year? The Department for Medicaid Services (DMS) estimates that implementing this administrative regulation will increase DMS expenditures by $1.43 million ($271,530 state funds/$1.16 million federal funds) for state fiscal year 2014.

(d) How much will it cost to administer this program for subsequent years? DMS estimates that implementing this administrative regulation will cost DMS approximately $271,530 state funds/$1.16 million federal funds) annually, beginning with state fiscal year 2015.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

This administrative regulation establishes the Department for Medicaid Services’ reimbursement provisions and requirements regarding speech language pathology services provided by an independent speech-language pathologist to Medicaid recipients who are not enrolled with a managed care organization.

Section 1. General Requirements. For the department to reimburse for a speech language pathology service under this administrative regulation:

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Stuart Owen

(1) Provide a brief summary of:

(a) What this administrative regulation does: This is a new administrative regulation which establishes the Department for Medicaid Services’ reimbursement provisions and requirements regarding speech pathology services provided by an independently enrolled speech-language pathologist to Medicaid recipients who are not enrolled with a managed care organization. Managed care organizations are not required to reimburse for speech pathology services pursuant to this administrative regulation. Currently, the Department for Medicaid Services (DMS) covers speech pathology services when provided in a physician’s office (and the physician is the billing entity), when provided as a home health service (billed by a home health agency), when provided in an outpatient hospital (billed by the outpatient hospital), when provided in a nursing facility as an ancillary service, when provided in an intermediate care facility for individuals with an intellectual disability as an ancillary service, or in a 1915(c) home and community based...
VOLUME 40, NUMBER 11 – MAY 1, 2014

waiver program. This administrative regulation authorizes speech-language pathologists to enroll as independent Medicaid providers, rather than work for or under contract with, one (1) of the aforementioned provider types and be reimbursed for speech pathology services provided to Medicaid recipients. DMS is expanding the speech pathology service provider base in concert with expanding Medicaid eligibility groups authorized or mandated by the Affordable Care Act. The Affordable Care Act created a new eligibility group, mandated for all states, comprised of former foster care individuals between the ages of nineteen (19) and twenty-six (26) who aged out of foster care while receiving Medicaid coverage. Additionally, the Affordable Care Act authorized states to add an eligibility group known as the “expansion group.” The expansion group is comprised of adults under sixty-five (65), who are not pregnant, who have income below 133 percent of the federal poverty level, and who do not otherwise qualify for Medicaid benefits. DMS must expand its provider base to meet the demand of the additional Medicaid recipients DMS anticipates beginning January 1, 2014 (in order to ensure recipient access to care.) This administrative regulation is being promulgated in conjunction with two (2) other administrative regulations necessary to implement this initiative – 907 KAR 8:030, Independent speech pathology service coverage provisions and requirements and 907 KAR 8:005, Definitions for KAR Chapter 8.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to expand the Medicaid base of speech pathology service providers in order to meet the demand for more providers thus, to further recipient access to care. This administrative regulation will assist in the effective administration of the statutes: The amendment after comments clarifies that DMS will use the current (whether interim or final) Kentucky-specific Medicare Physician Fee Schedule used by the Centers for Medicare and Medicaid Services (CMS) at the time that the service is provided. CMS uses an interim fee schedule initially during a given year and then adopts a final version later in the year.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by enabling the Department for Medicaid Services to meet the requirement of ensuring recipient access to care.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation conforms to the content of the authorizing statutes by enabling the Department for Medicaid Services to meet the requirement of ensuring recipient access to care.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment after comments clarifies that DMS will use the version of the Kentucky-specific Medicare Physician Fee Schedule used by the Centers for Medicare and Medicaid Services (CMS) at the time that the service is provided. CMS uses an interim fee schedule initially during a given year and then adopts a final version later in the year.

(b) Necessity of the amendment to this administrative regulation: The amendment after comments is necessary to clarify that DMS will use the current (whether interim or final for a given year) Kentucky-specific Medicare Physician Fee Schedule used by the Centers for Medicare and Medicaid Services.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment after comments conforms to the content of the authorizing statutes by clarifying policy.

(d) How the amendment will assist in the effective administration of the statutes: The amendment after comments assists in the effective administration of the authorizing statutes by clarifying policy.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Any speech-language pathologist licensed in Kentucky may be affected if the individual wishes to enroll in the Medicaid Program and be reimbursed for speech pathology services provided to Medicaid recipients. Additionally, Medicaid recipients in need of speech pathology services will be affected by the administrative regulation. The Department for Medicaid Services (DMS) is unable to predict how many speech-language pathologists will choose to enroll in the Medicaid Program or how many Medicaid recipients will receive speech pathology services from independently enrolled speech-language pathologists.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. A physical therapist who wishes to provide services to Medicaid recipients will need to enroll with the Medicaid Program as prescribed in the Medicaid provider enrollment regulation (complete and application and submit it to DMS) and sign agreements with managed care organizations if the agency wishes to provide services to Medicaid recipients who are enrolled with a managed care organization.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? A physical therapist who wishes to provide speech pathology to Medicaid recipients could experience administrative costs associated with enrolling with the Medicaid Program.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? A speech-language pathologist who enrolls with the Medicaid Program will benefit by being reimbursed for services to Medicaid recipients. Medicaid recipients in need of speech pathology services will benefit from an expanded base of providers from which to receive speech pathology services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: The Department for Medicaid Services (DMS) estimates that implementing this administrative regulation will cost DMS expenditures by $1.43 million (907 KAR 8:030, Independent speech pathology service coverage provisions and requirements and 907 KAR 8:005, Definitions for KAR Chapter 8).

(b) On a continuing basis: DMS estimates that implementing this administrative regulation will cost DMS approximately $1.91 million ($362,000 state funds/$1.55 million federal funds) annually, beginning with state fiscal year 2015.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3)? A speech-language pathologist who enrolls with the Medicaid Program will benefit by being reimbursed for services to Medicaid recipients. Medicaid recipients in need of speech pathology services will benefit from an expanded base of providers from which to receive speech pathology services.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change, if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate, 42 U.S.C. 1396a(a)(30)
2. State compliance standards. KRS 205.520(3) states: “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power in this respect.”
3. Minimum or uniform standards contained in the federal mandate. Medicaid programs are not required to cover speech pathology; however, each state’s Medicaid program is required (for the services it does cover) to ensure recipient access to those services. As the Department for Medicaid Services (DMS) covers speech pathology services, it must ensure that an adequate provider base exists to ensure recipient access to care. A relevant federal law – 42 U.S.C. 1396a(a)(30) requires a state’s Medicaid program to “provide such methods and procedures relating to the
利用的，以及支付的医疗及服务支出。根据这些计划（包括但不限于利用审查计划），可能需要对未必要使用的医疗及服务支出进行预防，以确保支付的一致性，经济性，以及质量的医疗护理和满足社区负责人的需求。这使得该行政规定不涉及更严格的州及联邦规定。

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

2. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. This administrative regulation authorizes the action taken by this administrative regulation.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? No revenue is anticipated.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? No revenue is anticipated.

(c) How much will it cost to administer this program for the first year? The Department for Medicaid Services (DMS) estimates that implementing this administrative regulation will increase DMS expenditures by $1.43 million ($271,530 state funds/$1.16 million federal funds) for state fiscal year 2014.

(d) How much will it cost to administer this program for subsequent years? DMS estimates that implementing this administrative regulation will cost DMS approximately $1.91 million ($362,000 state funds/$1.55 million federal funds) annually, beginning with state fiscal year 2015.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

regulation: The primary amendment sets a uniform limit [of twenty (20) physical therapy service visits or speech pathology service visits per recipient per calendar year] in lieu of the existing varied limits ranging from ten (10) to thirty (30) visits per recipient per month based on the benefit plan of the given recipient. The amendment preserves the existing option for recipients to receive services above the limits if additional services are medically necessary and prior authorized. Additional amendments include deleting references to the four (4) Medicaid benefit plans – comprehensive choices, family choices, global choices, and optimum choices – to which Medicaid recipients have been assigned for the past several years; establishing that the Department for Medicaid Services (DMS) will not reimburse for the same service provided to the same recipient by two (2) different providers at the same time; inserting records maintenance and relate confidentiality of medical records requirements; establishing that if third party liability exists for a given recipient that the provider is to bill the third party; establishing electronic signature requirements; and establishing that the provisions in the administrative regulation are contingent upon federal approval and federal funding. The amendment establishes the four (4) benefit plans for the definition of “lock-in recipient” by establishing that the criteria for being in a managed care organization’s lock-in program is as established in the relevant managed care organization administrative regulation (907 KAR 17:020, Section 8) rather than by administrative regulation (907 KAR 1:677); adds certain behavioral health services (intensive outpatient program services, partial hospitalization, individual outpatient therapy, and group outpatient therapy) to the scope of Medicaid coverage of outpatient hospital services; inserts definitions related to the behavioral health services; and adds other clarifying language regarding lock-in program provisions and managed care organizations.

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation, if new, or by the change, if it is an amendment, including:

1. Mandated or authorized by the Affordable Care Act. Additionally, there is an administrative and Medicaid Management Information System (MMIS) burden associated with prescribing different plans as well as an administrative burden on providers and managed care organizations. Given that the plans vary little it is impractical if not inefficient to preserve the plans. The no duplication of service requirement for managed care providers to comply with Medicaid program participation requirements established in 907 KAR 1:671 and 907 KAR 1:672, and the third party liability requirement is necessary to maintain program integrity and prevent the misuse of taxpayer revenues. The electronic signature requirements are necessary to allow providers to use electronic signature and ensure that they comply with the requirements established for such in Kentucky law. Establishing that the provisions in the administrative regulation are contingent upon federal approval and federal funding is necessary to protect Kentucky taxpayer revenues from being spent if no federal funding is provided. Establishing an appeals section for recipients is necessary to reinforce that recipients have appeals’ rights regarding services being denied. The amendment after comments to include the options of the Anthem Blue Cross Blue Shield, DMS. Expanding the scope of outpatient hospital services to include certain behavioral health services is necessary to help meet Medicaid recipient demand for the services.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? No cost is imposed on regulated entities or individuals.

(c) As a result of compliance, what will accrue to the Medicaid recipient access to care and by clarifying policy.

(d) How the amendment conforms to the content of the authorizing statutes: The amendment conforms to the content of the authorizing statutes by comporting with federal requirements, enhancing the integrity of the Medicaid Program, and protecting taxpayer revenues. The amendment after comments will conform to the content of the authorizing statutes by helping ensure Medicaid recipient access to care and by clarifying policy.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Outpatient hospitals will be affected by the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) The no duplication of service requirement for managed care providers to comply with Medicaid program participation requirements established in 907 KAR 1:671 and 907 KAR 1:672, and the third party liability requirement is necessary to maintain program integrity and prevent the misuse of taxpayer revenues. The electronic signature requirements are necessary to allow providers to use electronic signature and ensure that they comply with the requirements established for such in Kentucky law. Establishing that the provisions in the administrative regulation are contingent upon federal approval and federal funding is necessary to protect Kentucky taxpayer revenues from being spent if no federal funding is provided. Establishing an appeals section for recipients is necessary to reinforce that recipients have appeals’ rights regarding services being denied. The amendment after comments to include the options of the Anthem Blue Cross Blue Shield, DMS. Expanding the scope of outpatient hospital services to include certain behavioral health services is necessary to help meet Medicaid recipient demand for the services.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3)? No cost is imposed on regulated entities or individuals.

(c) As a result of compliance, what will accrue to the
entities identified in question (3). Outpatient hospitals will benefit from a simpler service limit structure as there will be one limit for all rather than variances due to four (4) different benefit plans. Medicaid recipients will benefit from occupational therapy being covered in the outpatient hospital setting and occupational therapists and occupational therapy assistants will benefit from being able to provide Medicaid-covered services in outpatient hospitals.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: DMS cannot accurately predict the future utilization of outpatient hospital services, but in the most recently completed state fiscal year DMS spent approximately $77 million (state and federal funds combined) on outpatient hospital services to recipients not enrolled with a managed care organization while managed care organizations (MCOs) in aggregate spent almost $455.4 million (state and federal funds combined.) Of the nearly $77 million spent by DMS on outpatient hospital services, over $1.2 million (state and federal funds combined) was spent on physical therapy services; and over $596,000 was spent on speech pathology services. Of the almost $455.4 million spent by MCOs in aggregate on outpatient hospital services, almost $6.9 million was spent on physical therapy services and over $1.9 million was spent on speech pathology services.
(b) On a continuing basis: Please see the response to question (a).

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation? The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No fee or funding increase is necessary to implement the administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: The administrative regulation neither establishes nor increases any fee.

(9) Tiering: Is tiering applied? Tiering is not applied as the requirements apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON
2. State compliance standards. KRS 205.520(3) states: “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power in this respect.”
3. Minimum or uniform standards contained in the federal mandate. Medicaid programs are required to cover outpatient hospital services.
4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.
5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT
1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by this administrative regulation.
2. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. This administrative regulation authorizes the action taken by this administrative regulation.
3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.
(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? Some hospitals are owned by local government entities, but DMS is unable to accurately predict the impact of this amendment as revenues will depend on utilization of services. Given that more individuals will be eligible for Medicaid services (not as a result of the amendment to this administrative regulation though) utilization is expected to increase; thus, an increase in revenues is a logical expectation.
(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? Please see the response to question (b).
(c) How much will it cost to administer this program for the first year? DMS cannot accurately predict the future utilization of outpatient hospital services, but in the most recently completed state fiscal year DMS spent approximately $77 million (state and federal funds combined) on outpatient hospital services to recipients not enrolled with a managed care organization while managed care organizations (MCOs) in aggregate spent almost $455.4 million (state and federal funds combined.) Of the nearly $77 million spent by DMS on outpatient hospital services, over $1.2 million (state and federal funds combined) was spent on physical therapy services; and over $596,000 was spent on speech pathology services. Of the almost $455.4 million spent by MCOs in aggregate on outpatient hospital services, almost $6.9 million was spent on physical therapy services and over $1.9 million was spent on speech pathology services.
(d) How much will it cost to administer this program for subsequent years? Please see the response to question (c).

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Stuart Owen

(1) Provide a brief summary of:

(a) What this administrative regulation does: This is a new administrative regulation which establishes the provisions and requirements regarding Medicaid Program private duty nursing services. These are new services being covered by the Department for Medicaid Services (DMS) resulting from DMS’s implementation of an alternative benefit plan (based on a “benchmark” or “benchmark equivalent plan”) as required by the Affordable Care Act. Any state which expands its Medicaid eligibility groups to include the “expansion group” authorized by the Affordable Care Act is required to establish an alternative benefit plan for the expansion group. The expansion group is comprised primarily of adults under age sixty-five (65) who are not pregnant, who have income below 133 percent of the federal poverty level, and who are not otherwise eligible for Medicaid benefits. An alternative benefit plan has to be based on a “benchmark” or “benchmark-equivalent plan.” There are four (4) acceptable such plans as established by 42 C.F.R. 440.330 and 42 U.S.C. 1396u-7(b). The four (4) are: The benefit plan provided by the Federal Employees Health Benefit plan Services; The state employer health coverage that is offered and generally available to state employees; The health insurance plan offered through the Health Maintenance Organization (HMO) with the largest insured commercial non-Medicaid enrollment in the state; and Secretary-approved coverage, which is a benefit plan that the secretary has determined to provide coverage appropriate to meet the needs of the population provided that coverage rates are required to cover every service in the given alternative benefit plan and may not pick and choose services from different alternative benefit plan options. The benchmark plan or benchmark equivalent plan is also the plan for the state’s health benefit exchange. A health benefit exchange (also referred to as a health insurance exchange or “affordable insurance exchange”) is mandated for each state by the Affordable Care Act. The health benefit exchange (HBE) is required to establish a benchmark plan or benchmark equivalent plan for its health benefit exchange. States who add the Medicaid expansion group authorized by the Affordable Care Act to its Medicaid Program coverage are required to use the same “benchmark” or “benchmark-equivalent plan” as the health benefit exchange to establish the alternative benefit plan for the Medicaid expansion group. Kentucky selected a benchmark plan that is in the category of Health and Human Services Secretary-approved coverage. The specific plan is the Anthem Blue Cross Blue Shield Small Group Preferred Provider Option (PPO). As this plan includes private duty nursing services as a benefit, DMS is required to cover private duty nursing services. DMS’s benefit plan will be the same for all Medicaid recipients — existing populations as well as new eligibility groups authorized or mandated by the Affordable Care Act. DMS is promulgating this new administrative regulation in conjunction with two (2) accompanying private duty nursing service administrative regulations — 907 KAR 13:010, private duty nursing service coverage provisions and requirements and 907 KAR 13:015, reimbursement for private duty nursing services.

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the definitions for administrative regulations located in 907 KAR Chapter 13. Chapter 13 contains Medicaid administrative regulations regarding private duty nursing services.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing the definitions for administrative regulations located in 907 KAR Chapter 13. Chapter 13 contains Medicaid administrative regulations regarding private duty nursing services.

(d) How this administrative regulation currently assists or will assist in the effective administration of the authorizing statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by establishing the definitions for administrative regulations located in 907 KAR Chapter 13. Chapter 13 contains Medicaid administrative regulations regarding private duty nursing services.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment after comments eliminates the requirement that a home health agency must also be licensed pursuant to the Cabinet for Health and Family Services, Office of Inspector General’s private duty nursing licensure administrative regulation (902 KAR 20:370) in order to provide private duty nursing services and claims that private duty nursing supplies are also covered in the scope of this administrative regulation.

(b) The necessity of the amendment to this administrative regulation: The amendment regarding home health agency requirements is necessary as DMS views the home health licensure requirements established in 902 KAR 20:081 as sufficient standards for a private duty nursing services provider and that proceeding the requirement would be an unnecessary and duplicative burden placed on home health agencies. The clarification that supplies are covered is necessary for clarity.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment after comments conforms to the content of the authorizing statutes by eliminating a duplicative burden on home health agencies and clarifying coverage.

(d) How the amendment will assist in the effective administration of the authorizing statutes: The amendment after comments assists in the effective administration of the authorizing statutes by eliminating a duplicative burden on home health agencies and clarifying coverage.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: There are currently thirteen (13) private duty nursing agencies and two (2) managed care organizations in Kentucky and 109 home health agencies licensed in Kentucky.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. A private duty nursing agency that wishes to provide services to Medicaid recipients will need to enroll with the Medicaid Program as prescribed in the Medicaid provider enrollment regulation (complete and application and submit it to DMS) and sign agreements with managed care organizations if the agency wishes to provide services to Medicaid recipients who are enrolled with a managed care program. Any home health agency that is not enrolled with the Medicaid Program but wishes to provide Medicaid-covered private duty nursing services must likewise enroll with the Medicaid Program as prescribed in the Medicaid provider enrollment regulation (complete and application and submit it to DMS) and sign agreements with managed care organizations if the agency wishes to provide services to Medicaid recipients who are enrolled with a managed care organization.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). A private duty nursing agency could experience administrative cost associated with enrolling in the Medicaid Program. A home health agency which wishes to provide private duty nursing services could experience administrative costs associated with obtaining private duty nursing agency license from the Cabinet for Health and Family Services, Office of Inspector General as well as administrative costs associated with
enrolling with the Medicaid Program.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). A private duty nursing agency that enrols with the Medicaid Program and provide services to Medicaid recipients in accordance with this administrative regulation will benefit by being reimbursed for the services. Likewise, a home health agency that takes the requisite steps will benefit by being reimbursed by the Medicaid Program for private duty nursing services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:
(a) Initially: DMS estimates that its cost associated with covering private duty nursing services will be $12.87 million ($2.44 million in state funds and $10.43 million in federal funds) for state fiscal year 2014.

(b) On a continuing basis: DMS estimates that its annual cost, beginning with state fiscal year 2015, associated with covering private duty nursing services will be $17.17 million ($3.26 million in state funds and $13.91 million in federal funds.)

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation. If in effect, if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. 42 U.S.C. 1396u-7(b).

2. State compliance standards. KRS 205.520(3) states: “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power in this respect.”

3. Minimum or uniform standards contained in the federal mandate. Medicaid programs are not required to cover private duty nursing services; however, any Medicaid program which adds, to its eligible population, the “expansion group” authorized by the Affordable Care Act, must establish an alternative benefit plan for the expansion group. The expansion group is a new eligibility category comprised of adults below age sixty-five (65), with income below 133% of the federal poverty level, who are not pregnant, and who do not otherwise qualify for Medicaid. An alternative benefit plan has to be based on a “benchmark” or “benchmark-equivalent package.” There are four (4) acceptable such packages as established by 42 C.F.R. 440.330 and 42 U.S.C. 1396u-7(b). The four (4) are: The benefit package provided by the Federal Employees Health Benefit plan Standard Blue Cross/Blue Shield Provider Option; The state employer health coverage that is offered and generally available to state employees; The health insurance plan offered through the Health Maintenance Organization (HMO) with the largest insured commercial non-Medicaid enrollment in the state; and Secretary-approved coverage, which is a benefit package the secretary has determined to provide coverage appropriate to meet the needs of the population provided that coverage is required by law. States are required to cover every service in the given alternative benefit plan and may not pick and choose services from different alternative benefit plan options.

The alternative benefit plan is also the plan for the state’s health benefit exchange. A health benefit exchange (also referred to as a health insurance exchange or “affordable insurance exchange”) is mandated for each state by the Affordable Care Act. The health benefit exchange is a marketplace of health insurance plans. Individuals whose income is within the threshold of qualifying to purchase health insurance through the health benefit exchange can do so and the government will help subsidize the cost of the individual’s health insurance premiums. Each state is required to establish an alternative benefit plan (plan of health care services covered) for its health benefit exchange. States who add the Medicaid expansion group, authorized by the Affordable Care Act, to its Medicaid Program coverage are required to have the same alternative benefit plan for the health benefit exchange as for the Medicaid expansion group. Kentucky selected an alternative benefit plan that is in the category of Health and Human Services Secretary-approved coverage. The specific plan is the Anthem Blue Cross Blue Shield Small Group Provider Preferred Option (PPO). As this plan includes private duty nursing services as a benefit, DMS is required to cover private duty nursing services. DMS adopting the same. Medicaid recipients thus, private duty nursing services will be covered for all Medicaid recipients who meet the coverage criteria.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation. As some home health agencies are owned by local governments, any such agency could be affected if it chooses to procure a private duty nursing license from the Cabinet for Health and Family Services, Office of Inspector General and enroll with the Medicaid Program.

2. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. 42 C.F.R. 440.80, 42 C.F.R. 440.330, and this administrative regulation authorize the action taken by this administrative regulation.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The administrative regulation could generate revenue for some local governments as there are home health agencies in Kentucky owned by a local government entity. If any such entity elected to obtain a private duty nursing license from the Cabinet for Health and Family Services, Office of Inspector General and enroll with the Medicaid Program the entity could receive revenues in the form of Medicaid reimbursement for private duty nursing services. The revenues are indeterminable as the Department for Medicaid Services cannot accurately predict how many such entities would take the requisite steps.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment is not expected to generate revenue for state or local government. The response to question (a) also applies here.

(c) How much will it cost to administer this program for the first
year? DMS estimates that its cost associated with covering private duty nursing services will be $12.87 million ($2.44 million in state funds and $10.43 million in federal funds) for state fiscal year 2014.

(d) How much will it cost to administer this program for subsequent years? DMS estimates that its annual cost, beginning with state fiscal year 2015, associated with covering private duty nursing services will be $17.17 million ($3.26 million in state funds and $13.91 million in federal funds.)

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Stuart Owen

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the definitions for administrative regulations located in 907 KAR Chapter 15. Chapter 15 contains Medicaid administrative regulations regarding behavioral health services, including substance use disorder services, provided by independently enrolled providers (such as a licensed psychologist, licensed professional clinical counselor, licensed clinical social worker, licensed psychological practitioner,
licensed marriage and family therapist) rather than agency behavioral health service providers (such as a community mental health center, federally qualified health center, or rural health clinic.)

(b) The necessity of this administrative regulation: This administrative regulation is necessary to establish the definitions for administrative regulations located in 907 KAR Chapter 15. Chapter 15 contains Medicaid administrative regulations regarding behavioral health services, including substance use disorder services, provided by independent providers. The Department for Medicaid Services (DMS) is expanding its scope of behavioral health service coverage to include substance use disorder services as a result of an Affordable Care Act mandate for Medicaid programs to cover such services for all Medicaid recipients. Currently, DMS covers such services for pregnant women and children.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by establishing the definitions for administrative regulations located in 907 KAR Chapter 15.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by establishing the definitions for administrative regulations located in 907 KAR Chapter 15. Chapter 15 contains Medicaid administrative regulations regarding behavioral health services, including substance use disorder services, provided by independent providers.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment after comments deletes the definition of “community support associate”; clarifies that a “certified psychologist” is considered a “licensed psychological associate”; clarifies that a “certified psychologist with autonomous functioning” is considered a “licensed psychological practitioner”; and inserts a definition for “qualified mental health professional”, “provider group”, and “person-centered service plan.”

(b) The necessity of the amendment to this administrative regulation: Removing the definition of “community support associate” is necessary as services by these practitioners are not covered in the independent behavioral health provider setting. The other amendments are necessary for clarity.

(c) How the amendment conforms to the content of the authorizing statutes: The amendments after comments will conform to the authorizing statutes by establishing the definitions for administrative regulations located in 907 KAR Chapter 15. Chapter 15 contains Medicaid administrative regulations regarding behavioral health services, including substance use disorder services, provided by independent providers.

(d) How the amendment will assist in the effective administration of the statutes: The amendments after comments will assist in the effective administration of the authorizing statutes by clarifying policies.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Medicaid recipients of behavioral health services (including substance use disorder services) and independent behavioral health service providers (including substance use disorder service providers) will be affected by the administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No action is required by this administrative regulation is it only contains definitions.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). No cost is imposed.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). Individuals will benefit due to terms being defined.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: No cost is necessary to initially implement this administrative regulation.

(b) On a continuing basis: No continuing cost is necessary to implement this administrative regulation.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under Title XIX of the Social Security Act and state matching funds comprised of general fund and restricted fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: Neither an increase in fees nor funding are necessary.

(8) State whether or not this administrative regulation establishes any fees, increases or indirectly increases any fees. This administrative regulation neither establishes nor directly or indirectly increases any fees.

(9) Tiering: Is tiering applied? Tiering is neither applied nor necessary as the administrative regulation establishes definitions for Medicaid independent behavioral health services (including substance use disorder services) and reimbursement.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(10)(B), and 42 U.S.C. 1396a(a)(23).

2. State compliance standards. KRS 194A.030(2) states, “The Department for Medicaid Services shall serve as the single state agency in the Commonwealth to administer Title XIX of the Federal Social Security Act.”

3. Minimum or uniform standards contained in the federal mandate. There is no federal mandate to define Medicaid terms in an administrative regulation; however, Section 1302(b)(1)(E) of the Affordable Care Act mandates that “essential health benefits” for Medicaid programs include “mental health and substance use disorder services, including behavioral health treatment.” 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to “provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services.” Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization’s provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky’s Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its substance use disorder provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the provider base will help ensure Medicaid recipient access to services statewide and reduce or prevent the lack of availability of services due to demand exceeding supply in any given area.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact person: Stuart Owen

(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the coverage provisions and requirements regarding Medicaid Program behavioral health services provided by certain licensed behavioral health professionals who are independently enrolled in the Medicaid Program as Medicaid providers or practitioners working for or under the supervision of the independent providers. This administrative regulation is being promulgated in conjunction with two (2) administrative regulations – 907 KAR 15:015 (Reimbursement for behavioral health services provided by independent providers) and 907 KAR 15:005 (Definitions for 907 KAR Chapter 15). Currently, the Department for Medicaid Services does not enroll licensed psychologists, licensed professional clinical counselors, licensed clinical social workers, licensed marriage and family therapists, or licensed psychological practitioners as independent Medicaid providers. Rather these professionals are to work in collaboration with - for example - a community mental health center, a physician’s office, a federally-qualified health center, or a rural health clinic among other entities and the entity bills (and is reimbursed by) the Medicaid Program for the services provided. This administrative regulation also establishes practitioners who may provide behavioral health services under supervision of one (1) of the aforementioned independent providers and in which case the Medicaid Program will reimburse the independent provider (billing provider) for the services.

(b) The necessity of this administrative regulation: This administrative regulation is being promulgated in conjunction with two (2) administrative regulations – 907 KAR 15:015 (Reimbursement for behavioral health services provided by independent providers) and 907 KAR 15:005 (Definitions for 907 KAR Chapter 15) - to comply with a federal mandate and to enhance recipient access to services. Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment" for all recipients. Currently, DMS covers substance use treatment for pregnant women and children. Additionally, this administrative regulation is necessary to enhance Medicaid - for example - a behavioral health services by expanding the providers and practitioners authorized to provide the services as independent providers or as practitioners working under the supervision of an independent provider. The Department for Medicaid Services (DMS) is anticipating a substantial increase in demand for services as a result of new individuals gaining Medicaid eligibility in 2014. Some new Medicaid enrollees could be the "old" Medicaid rules who did not seek Medicaid benefits in the past, but will do so as a result of publicity related to the Affordable Care Act, Medicaid expansion, and the Health Benefit Exchange. Another newly eligible group is a group mandated by the Affordable Care Act comprised of former foster care children between the ages of nineteen (19) and twenty-six (26) who aged out of foster care while receiving Medicaid benefits. Furthermore, DMS anticipates a significant enrollment increase of individuals eligible under the "old" Medicaid rules who did not seek Medicaid benefits in the past, but will do so as a result of publicity related to the Affordable Care Act, Medicaid expansion, and the Health Benefit Exchange.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by complying with a federal mandate and by enhancing and ensuring Medicaid recipients’ access to behavioral health services.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation assists in the effective administration of the authorizing statutes by complying with a federal mandate and by enhancing and ensuring Medicaid recipients’ access to behavioral health services.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment after comments clarifies that crisis intervention does not have to be provided regularly; removes peer support specialists; removes family peer support specialists, and youth peer support specialists from the list of practitioners authorized to provide crisis intervention, day treatment, and comprehensive community support services; removes community support associates from the practitioners authorized to provide comprehensive community support services; adds intensive outpatient program as covered under this administrative regulation along with the associated requirements and provisions; adds therapeutic rehabilitation program as covered under this administrative regulation along with the associated requirements and provisions; adds therapeutic rehabilitation program; clarifies that individual outpatient therapy, group outpatient therapy, family outpatient therapy, and collateral outpatient therapy can be provided in excess of the three (3) hour per day limit if medically necessary; removes from practice guidelines that advanced practice registered nurses as practitioners authorize to provide medication assisted treatment for a substance use disorder; clarifies miscellaneous provisions; and corrects typographical or grammatical errors.

(b) The necessity of the amendment to this administrative regulation: The amendment after comments is necessary to clarify policies and to synchronize the regulations with what the federal government (Centers for Medicare and Medicaid Services or CMS) has approved.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment after comments will conform to the content of the authorizing statutes by synchronizing policies in the administrative regulation with what CMS has approved and by clarifying policies.

(d) How the amendment will assist in the effective administration of the statutes: The amendment after comments will assist in the effective administration of the authorizing statutes by synchronizing policies in the administrative regulation with what CMS has approved and by clarifying policies.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation or amendment: Individuals listed in question (3) who wish to provide services to Medicaid recipients will be affected by this administrative regulation. Medicaid recipients who qualify for behavioral health services while working for one (1) of the aforementioned independent providers will also be affected by this administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Individuals listed in question (3) who wish to provide services to Medicaid recipients will need to enroll with the Medicaid Program as prescribed in the Medicaid provider enrollment regulation (complete and application and submit it to DMS) and sign agreements with managed care organizations if the individual wishes to provide services to Medicaid recipients who are enrolled with a managed care organization.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3) who wish to provide services to Medicaid recipients to comply with this administrative regulation could experience administrative costs associated with enrolling
with the Medicaid Program.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). An individual who enrolls with the Medicaid Program to provide behavioral health services will benefit by being reimbursed for services provided to Medicaid recipients. Behavioral health service practitioners who can work for an independent behavioral health service provider will benefit from having an expanded pool of employers/employment settings in which to work. Medicaid recipients in need of behavioral health services will benefit from an expanded base of providers from which to receive these services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: DMS is unable to accurately estimate the costs of expanding the behavioral health provider base due to the variables involved as DMS cannot estimate how many individual behavioral health professionals will enroll in the Medicaid Program, nor the utilization of substance use disorder services beyond the current utilization (pregnant women and children), nor the utilization of enhanced behavioral health services, nor the utilization of these services in the independent provider realm versus the realm of currently authorized providers (community mental health centers, federally-qualified health centers, rural health clinics, primary care centers, and physician offices.)

(b) On a continuing basis: The response to question (a) also applies here.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the policies apply equally to the regulated entities.

FEDERAL MANDATE ANALYSIS COMPARISON

1. Federal statute or regulation constituting the federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act, 42 U.S.C. 1396a(a)(10)(B), and 42 U.S.C. 1396a(a)(23). KRS 205.520(3) states: "Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power in this respect."

3. Minimum or uniform standards contained in the federal mandate. Substance use disorder services are federally mandated. Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment." 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to "provide that (A) any individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a non-prepayment basis), who undertakes to provide him such services."

Medicaid recipient's enrolled within a managed care organization may be restricted to providers within the managed care organization's provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky's Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its substance use disorder provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the provider base will help ensure Medicaid recipient access to services statewide and reduce or prevent the lack of availability of services due to demand exceeding supply in any given area.

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

2. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. This administrative regulation authorizes the action taken by this administrative regulation.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first year? The amendment is not expected to generate revenue for state or local government.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment is not expected to generate revenue for state or local government.

(c) How much will it cost to administer this program for the first year? DMS is unable to accurately estimate the costs of expanding the behavioral health provider base due to the variables involved as DMS cannot estimate how many individual behavioral health professionals will enroll in the Medicaid Program, nor the utilization of substance use disorder services beyond the current utilization (pregnant women and children), nor the utilization of enhanced behavioral health services, nor the utilization of these services in the independent provider realm versus the realm of currently authorized providers (community mental health centers, federally-qualified health centers, rural health clinics, primary care centers, and physician offices.)

(d) How much will it cost to administer this program for subsequent years? The response to question (a) also applies here. Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY ANALYSIS AND TIERING STATEMENT
Contact person: Stuart Owen
(1) Provide a brief summary of:

(a) What this administrative regulation does: This administrative regulation establishes the reimbursement provisions and requirements regarding Medicaid Program behavioral health services provided by certain licensed behavioral health professionals who are independently enrolled in the Medicaid Program as Medicaid providers, or behavioral health service practitioners working under for or under supervision of the independent behavioral health service providers, to Medicaid recipients who are not enrolled with a managed care organization. This administrative regulation is being promulgated in conjunction with two (2) other administrative regulations – 907 KAR 15:010 (Provisions and requirements regarding behavioral health services provided by independent providers) and 907 KAR 15:005 (Definitions for KAR Chapter 15). Currently, the Department for Medicaid Services does not enroll licensed psychologists, licensed professional clinical counselors, licensed clinical social workers, licensed marriage and family therapists, or licensed psychological practitioners as independent Medicaid providers. Rather these providers have to work for or under contract with - for example - a community mental health center, a physician’s office, a federally-qualified health center, or a rural health clinic among other entities and the entity bills (and is reimbursed by) the Medicaid Program for the services provided. This administrative regulation also establishes practitioners who may provide behavioral health services under supervision of one (1) of the aforementioned independent providers and in which case the Medicaid Program will reimburse the independent provider (billing provider) for the services.

(b) The necessity of this administrative regulation: This administrative regulation is being promulgated in conjunction with two (2) other administrative regulations – 907 KAR 15:010 (Provisions and requirements regarding behavioral health services provided by independent providers) and 907 KAR 15:005 (Definitions for KAR Chapter 15) - to comply with a federal mandate and to enhance recipient access to services. Section 1302(b)(1)(E) of the Affordable Care Act mandates that "essential health benefits" for Medicaid programs include "mental health and substance use disorder services, including behavioral health treatment" for all recipients. Currently, DMS covers substance use treatment for pregnant women and children. Additionally, this administrative regulation is necessary to enhance Medicaid recipient access to behavioral health services by expanding the providers and practitioners authorized to provide the services as independent providers or as practitioners working under the supervision of an independent provider. The Department for Medicaid Services (DMS) is anticipating a substantial increase in demand for services as a result of new individuals gaining Medicaid eligibility in 2014. Some new individuals will be those eligible as part of the "expansion group" (a new eligibility group authorized by the Affordable Care Act which is comprised of adults under age sixty-five (65), who are not pregnant, whose income is below 133 percent of the federal poverty level, and who are not otherwise eligible for Medicaid.) Another newly eligible group is a group regulated by the Affordable Care Act which comprised of former foster care children between the ages of nineteen (19) and twenty-six (26) who aged out of foster care while receiving Medicaid benefits. Furthermore, DMS anticipates a significant enrollment increase of individuals eligible under the "old" Medicaid rules who did not seek Medicaid benefits in the past, but will do so as a result of publicity related to the Affordable Care Act, Medicaid expansion, and the Health Benefit Exchange.

(c) How this administrative regulation conforms to the content of the authorizing statutes: This administrative regulation conforms to the content of the authorizing statutes by complying with a federal mandate and by enhancing and ensuring Medicaid recipients’ access to behavioral health services.

(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: This administrative regulation will assist in the effective administration of the authorizing statutes by complying with a federal mandate and by enhancing and ensuring Medicaid recipients’ access to behavioral health services.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: The amendment after comments removes peer support specialists, family peer support specialists, and youth peer support specialists from practitioners authorized to provide crisis intervention services, day treatment, and comprehensive community support services; adds intensive outpatient program and therapeutic rehabilitation program as covered services; and clarifies that DMS will use the current version of the Kentucky-specific Medicare Physician Fee Schedule in its payment of charges. Thus, if CMS is currently using an interim fee schedule at a moment in time, DMS will use the interim fee schedule and if CMS publishes the final fee schedule (for the given year) then DMS will use the final version of the fee schedule at that time.

(b) The necessity of the amendment to this administrative regulation: Removing peer support specialists, family peer support specialists, and youth peer support specialists from authorized practitioners of crisis intervention services, day treatment, and comprehensive community support services is necessary as the Centers for Medicare and Medicaid Services (CMS) did not approve these practitioners for those services. Adding intensive outpatient program and therapeutic rehabilitation program as covered services is necessary as CMS did approve those services to be reimbursable in the independent behavioral health provider setting. The fee schedule amendment is necessary for clarity.

(c) How the amendment conforms to the content of the authorizing statutes: The amendment after comments conforms to the content of the authorizing statutes by synchronizing policies with those approved (and funded) by CMS and by clarifying policy.

(d) How the amendment will assist in the effective administration of the statutes: The amendment after comments assists in the effective administration of the authorizing statutes by synchronizing policies with those approved (and funded) by CMS.
and by clarifying policy.

(3) List the type and number of individuals, businesses, organizations, or state and local government affected by this administrative regulation: Licensed psychologists, advanced practice registered nurses, licensed professional clinical counselors, licensed social workers, licensed marriage and family therapists, and licensed psychological practitioners who wish to enroll in the Medicaid Program as independent providers will be affected by this administrative regulation. Licensed psychological associates, certified social workers (master's level), licensed professional counselor associates, and marriage and family therapy associates who wish to provide behavioral health services while working for one (1) of the aforementioned independent providers will also be affected by this administrative regulation. Medicaid recipients who qualify for behavioral health services will be affected by this administrative regulation.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or, by the change, if it is an amendment, including:

(a) To what extent is that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. Individuals listed in question (3) who wish to provide services to Medicaid recipients will need to enroll with the Medicaid Program as prescribed in the Medicaid enrollment regulation (complete and application and submit it to DMS) and sign agreements with managed care organizations if the individual wishes to provide services to Medicaid recipients who are enrolled with a managed care organization.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3). Individuals who wish to provide behavioral health services to Medicaid recipients per this administrative regulation could experience administrative costs associated with enrolling with the Medicaid Program.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3). An individual who enrolls with the Medicaid Program to provide behavioral health services will benefit by being reimbursed for services provided to Medicaid recipients. Behavioral health service practitioners who can work for an independent behavioral health service provider will benefit from having an expanded pool of employers/employment settings in which to work. Medicaid recipients in need of behavioral health services will benefit from an expanded base of providers from which to receive these services.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: DMS is unable to accurately estimate the costs of expanding the behavioral health provider base due to the variables involved as it does not estimate how many individual behavioral health professionals will enroll in the Medicaid Program, nor the utilization of substance use disorder services beyond the current utilization (pregnant women and children), nor the utilization of enhanced behavioral health services, nor the utilization of these services in the independent provider realm versus the realm of currently authorized providers (community mental health centers, federally qualified health centers, rural health clinics, primary care centers, and physician offices.)

(b) On a continuing basis: The response to question (a) also applies here.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The sources of revenue to be used for implementation and enforcement of this administrative regulation are federal funds authorized under the Social Security Act, Title XIX and matching funds of general fund appropriations.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement this administrative regulation.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: This administrative regulation neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Reimbursements are tiered to the level of the provider/practitioner based on the provider/practitioner’s education and experience.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. KRS 205.520(3) states: “Further, it is the policy of the Commonwealth to take advantage of all federal funds that may be available for medical assistance. To qualify for federal funds the secretary for health and family services may by regulation comply with any requirement that may be imposed or opportunity that may be presented by federal law. Nothing in KRS 205.510 to 205.630 is intended to limit the secretary’s power in this respect.”

3. Minimum or uniform standards contained in the federal mandate. Section 1302(b)(1)(E) of the Affordable Care Act mandates that “essential health benefits” for Medicaid programs include “mental health and substance use disorder services, including behavioral health treatment.” 42 U.S.C. 1396a(a)(23), is known as the freedom of choice of provider mandate. This federal law requires the Medicaid Program to “provide that (A) an individual eligible for medical assistance (including drugs) may obtain such assistance from any institution, agency, community pharmacy or person, qualified to perform the service or services required (including an organization which provides such services, or arranges for their availability, on a prepayment basis), who undertakes to provide him such services.” Medicaid recipients enrolled with a managed care organization may be restricted to providers within the managed care organization’s provider network. The Centers for Medicare and Medicaid Services (CMS) – the federal agency which oversees and provides the federal funding for Kentucky’s Medicaid Program – has expressed to the Department for Medicaid Services (DMS) the need for DMS to expand its substance use disorder provider base to comport with the freedom of choice of provider requirement. 42 U.S.C. 1396a(a)(10)(B) requires the Medicaid Program to ensure that services are available to Medicaid recipients in the same amount, duration, and scope. Expanding the provider base will help ensure Medicaid recipient access to services statewide and reduce or prevent the lack of availability of services due to demand exceeding supply in any given area. Medicaid reimbursement for services is required to be consistent with efficiency, economy and quality of care and be sufficient to attract enough providers to assure access to services. 42 U.S.C. 1396a(a)(30)(A) requires Medicaid state plans to: “...provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1903(i)(4)) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area.”

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? The administrative regulation does not impose stricter than federal requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. The administrative regulation does not impose stricter than federal requirements.
1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services will be affected by the amendment to this administrative regulation.

2. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. This administrative regulation authorizes the action taken by this administrative regulation.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

   (a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amendment is not expected to generate revenue for state or local government.

   (b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The amendment is not expected to generate revenue for state or local government.

   (c) How much will it cost to administer this program for the first year? DMS is unable to accurately estimate the costs of expanding the behavioral health provider base due to the variables involved as DMS cannot estimate how many individual behavioral health professionals will enroll in the Medicaid Program, nor the utilization of substance use disorder services beyond the current utilization (pregnant women and children), nor the utilization of enhanced behavioral health services, nor the utilization of these services in the independent provider realm versus the realm of currently authorized providers (community mental health centers, federally-qualified health centers, rural health clinics, primary care centers, and physician offices.)

   (d) How much will it cost to administer this program for subsequent years? The response to question (a) also applies here.

   Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT

Contact Person: Lisa Swiger

(1) Provide a brief summary of:
(a) How the amendment changes this existing administrative regulation: The amendment expands the regulation for CNG to cover the fuel when using a different unit of measurement for gallon conversion. It is also being expanded to address the conversion factor for LNG which is moving into the State.
(b) The necessity of this administrative regulation: Compressed Natural Gas (CNG) and Liquefied Natural Gas (LNG) are now alternative fuels used in motorized vehicles. They are usually measured in pounds, cubic feet, or an LNG gallon. Industry needs the conversion factors to meet the statutory requirement that they be taxed in gallons at a comparable rate to special fuels.
(c) How this administrative regulation conforms to the content of the authorizing statutes: KRS 131.130(1) authorizes the Department of Revenue to promulgate administrative regulations for the administration and enforcement of all tax laws. The proposed amendment updates the regulation to industry changes and provides the conversion factors to use for the tax computation.
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: The regulation standardizes the conversion factors to use when converting CNG and LNG measurement units to a taxable gallon.
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: The amendment expands the regulation for CNG to cover the fuel when using a different unit of measurement for gallon conversion. It is also being expanded to address the conversion factor for LNG which is moving into the State.
(b) The necessity of the amendment to this administrative regulation: To provide licensed dealers standardized conversion factors for reporting and paying the motor fuel tax on alternative fuels.
(c) How the amendment conforms to the content of the authorizing statutes: The statute states the tax is based on gallons. Dealers need to know the conversion factors to report these alternative fuels in gallons equivalent to diesel fuel.
(d) How the amendment will assist in the effective administration of the statutes: By putting the conversion factors in the regulation, it provides licensed dealers a consistent and definitive way to convert these products into measurements equivalent to diesel gallons.
(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: Markets for both CNG and LNG are just emerging. A few municipalities and waste management operations currently use CNG in this state. The transportation industry and alternative fuel dealers are beginning to invest in the LNG infrastructure for rollout in Kentucky. This proposed amendment provides guidance to facilitate these emerging markets.
(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:
(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment. The entities will use the conversion factors specified for fuel reporting purposes.
(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): Nothing additional.
(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): Given guidance to licensed dealers on what factors to use to convert the product into taxable gallons
(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:
(a) Initially- No new costs will be incurred beyond routine regulatory promulgation which the department already carries out.
(b) On a continuing basis: No new costs will be incurred beyond our normal administration of motor fuels taxes.
(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation? Current department budgetary funding.
(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: No new fees will be necessary to implement this amendment.
(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: No fees are established or increased.
(9) TIERING: Is tiering applied? Tiering was not applied because the requirements of this regulation apply to every taxpayer.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? Only those that plan to deal in the sale or resale of CNG or LNG.
2. Identify each state or federal statute or federal regulation that requires or authorizes the action taken by the administrative regulation: KRS 131.130(1)
3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.
   (a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? None.
   (b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? This amendment provides a conversion factor for calculation of taxable gallons of fuel. It does not generate additional revenue but assists in preserving tax receipts when fuel in alternative forms is utilized.
   (c) How much will it cost to administer this program for the first year? No additional costs.
   (d) How much will it cost to administer this program for subsequent years? No additional costs.
   Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:
(a) How the amendment will change this existing administrative regulation: This amendment contains two changes: First, it increases the membership of the Continuing Professional Development Committee from three members to five members, and increases from two to three, the number of those committee members that must be professional land surveyors; and second, it changes the required CPD course in standards of practice for professional land surveyors, professional ethics, and the code of professional practice and conduct from a board sponsored course, to one that the board has pre-approved.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary in order to provide a committee membership size that is sufficiently large enough to ensure having enough members in attendance to constitute a quorum at each meeting of the committee. Additionally, the board does not at this time, intend to sponsor any CPD courses, but will pre-approve those courses sponsored by others that meet the requirement of the four (4) hour course in standards of practice for professional land surveyors, professional ethics, and the code of professional practice and conduct; the regulation needs to be amended to reflect the position of the board with regard to those particular CPD courses.

(c) How the amendment conforms to the content of the authorizing statutes: This amendment conforms to KRS 322.290(14) since that statute requires a professional development program for professional land surveyors.

(a) A detailed explanation of the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: No additional actions will be required of either the licensees or the board. The CPDC of the board will consider for pre-approval, any submissions by sponsors of courses meeting the provisions of Section 2(5) of this regulation, which is part of the normal activity of that committee.

(b) An estimate of the costs imposed on entities identified in question (3) in complying with this administrative regulation or amendment: There is no additional cost associated with this amendment.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): This amendment will result in clarity of application of the regulation and enable the board to avoid potential quorum difficulties in the meetings of the CPDC of the board.

(5) Provide an estimate of how much it will cost to implement this administrative regulation:

(a) Initially: None

(b) On a continuing basis: None.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Restricted Agency Funds. The board receives no general or federal funds.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: No fees are established or increased as a result of this regulation.

administrative regulation will assist in administering the above statutes by defining the seasons, bag limits, and methods of chase and take used to manage black bears in Kentucky.

(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:

(a) How the amendment will change this existing administrative regulation: This amendment will expand the time in which a person may purchase a bear chase permit from July 1 – August 31 to July 1 – December 31. This amendment also changes the name of the "regular bear season" to the "modern gun season for bears". Additionally, this regulatory change amends the weapon restrictions section to detail weapons that a person "shall only" use when hunting bears, as opposed to weapons that a person "shall not" use. In doing so, this amendment maintains existing weapon restrictions while also now prohibiting the use of air guns for the take of black bears. Lastly, amendments to the weapon restrictions section place new restrictions on handguns that may be used to take bears.

(b) The necessity of the amendment to this administrative regulation: This amendment is necessary to increase opportunity for persons participating in the December bear quota hunt with dogs by extending the period in which bear chase permits may be purchased. Changing the name of the "regular bear season", in which modern firearms may be used, to the "modern gun season for bears" more clearly distinguishes it from the November archery-crossbow season for bears that was established in 2013. The amendment to detail weapons that a person "shall only" use serves to more clearly define legal weapons and prohibit insufficient weapons that are not addressed by the existing regulatory language (i.e., air guns and arrows not equipped with a broadhead). Lastly, new restrictions on handguns creates language that is more enforceable to law enforcement officers by establishing standard metric restrictions for bullet caliber and cartridge case length that can be measured in the field. Likewise, this amendment removes the existing minimum barrel length for handguns as this restriction is overly restrictive to hunters.

(c) How the amendment conforms to the content of the authorizing statutes: See (1)(c) above.

(d) How the amendment will assist in the effective administration of the statutes: See (1)(d) above.

(3) List the type and number of individuals, businesses, organizations, or state and local governments affected by this administrative regulation: All hunters that pursue black bears will be affected by this regulatory amendment. In 2013, there were 707 Bear Permits, 17 Bear Chase Permits, and 2 Junior Bear Chase permits sold in Kentucky.

(4) Provide an analysis of how the entities identified in question (3) will be impacted by either the implementation of this administrative regulation, if new, or by the change, if it is an amendment, including:

(a) List the actions that each of the regulated entities identified in question (3) will have to take to comply with this administrative regulation or amendment: Those who hunt bears must comply with the individual requirements and restrictions for respective hunt or chase-only seasons for bears, as listed in the fall hunting guide published by the department.

(b) In complying with this administrative regulation or amendment, how much will it cost each of the entities identified in question (3): This amendment does not modify the costs of bear hunt and chase permits.

(c) As a result of compliance, what benefits will accrue to the entities identified in question (3): More opportunity will be generated for participation in the December bear quota hunt with dogs because bear chase permits will now be available for purchase from June 1 – December 31; previously these permits were only available for purchase through August 31. Newly proposed weapon restrictions more clearly define legal weapon types and establish restrictions on handguns that are less restrictive.

(5) Provide an estimate of how much it will cost the administrative body to implement this administrative regulation:

(a) Initially: There will be no administrative cost to the department to implement this regulation.

(b) On a continuing basis: There will be no cost to the department on a continuing basis.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: The source of funding is the State Game and Fish Fund.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment: It will not be necessary to increase any other fees or to increase funding to implement this administrative regulation.

(8) State whether or not this administrative regulation established any fees or directly or indirectly increased any fees: No fees established or increased.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

REGULATORY IMPACT ANALYSIS AND TIERING STATEMENT  
Contact Person: Kevin Brown  
(1) Provide a brief summary of:  
(a) What this administrative regulation does: KRS 156.070 requires the Kentucky Board of Education (KBE) to manage and control the common schools, including interscholastic athletics in the common schools, and establishes the KHSAA as the agent to manage interscholastic athletics. The KHSAA is funded through membership fees and dues, as well as gate receipts from sporting events.  
(b) The necessity of the administrative regulation: This regulation is necessary to designate the agency to provide the day-to-day management activities of interscholastic athletics in Kentucky; to set forth the financial, planning and review processes governing the agent; and to provide a more sound structure of governance.  
(c) How this administrative regulation conforms to the content of the authorizing statutes: The statute authorizes the KBE to designate an agency to manage interscholastic athletics in the common schools.  
(d) How this administrative regulation currently assists or will assist in the effective administration of the statutes: It designates the KHSAA as the agent to manage interscholastic athletics in the schools and districts, and publishes changes in bylaws, procedures and rules governing interscholastic sports.  
(2) If this is an amendment to an existing administrative regulation, provide a brief summary of:  
(a) How the amendment will change this existing administrative regulation: These amendments make changes to the documents incorporated by reference, in the KHSAA Bylaws, 6, 7, 8, 23, 25, and 27 as adopted by the KHSAA Delegate Assembly.  
(b) The necessity of the amendment to this administrative regulation: Pursuant to the KHSAA Constitution, which is incorporated by reference in this regulation, the members are required to have an annual meeting to discuss and recommend any needed changes to the Constitution and Bylaws. While they are not required to make changes to the Constitution and Bylaws, changes must be made through this process. This amendment incorporates changes approved at the annual meeting of the Delegate Assembly. This amendment also is necessary to designate the KHSAA as the agent to manage interscholastic athletics at the middle school level.  
(c) How the amendment conforms to the content of the authorizing statutes: The statute authorizes the KBE to designate an agency to manage interscholastic athletics in the common schools. The regulation designates the KHSAA as that agent, and incorporates by reference the KHSAA Handbook, which consists of the KHSAA Constitution, Bylaws, and Due Process to provide rules and guidance to the member schools and districts governing sporting events. The amendments in the Bylaws are made annually, according to the process outlined in the Constitution, and reflect input member schools and districts on changes that need to be made to provide a more sound structure of governance.

2. (a) The cost basis shall include reimbursing:
   1. A VA NF for services on an interim basis during a state fiscal year using a prospective payment rate; and
   2. A final reimbursement to a VA NF for services for a state fiscal year:
      a. Equal to the VA NF's Medicaid allowable cost for the state fiscal year; and
      b. That results from a reconciliation of the:
         (i) Interim prospective reimbursement paid by the department to the VA NF for the state fiscal year; and
         (ii) Actual Medicaid allowable costs experienced by the VA NF for the state fiscal year as reflected on the cost report that has been desk reviewed and approved by the department for the state fiscal year.

   (b) The prospective payment rate referenced in paragraph (a)(1) of this subsection shall be:
      a. Established using the most recently submitted cost report available to and reviewed by the department as of May 16 prior to the beginning of the state fiscal year; and
      b. Trended and indexed to the midpoint of the state fiscal year.
   2. For example, to set a prospective payment for a VA NF effective July 1, 2014, for the state fiscal year beginning July 1, 2014, the department shall:
      a. Use the most recently submitted cost report available to the department as of May 16, 2013; and

        a. If at least six (6) months of cost data is available, use pro forma cost data:
           (i) Submitted to the department by the VA NF; and
           (ii) Approved by the department; or
        b. If less than six (6) months of cost data is available, establish a prospective payment rate equal to the statewide average prospective payment rate of existing VA NFs until the department receives a pro forma cost data including at least six (6) months of cost data.
   2. Pro forma cost data shall be trended and indexed in the same way as established in subsection (2)(b) of this section.

   (c) The department may adjust a prospective payment rate during the state fiscal year if the prospective payment rate that was established appears likely to result in a substantial cost settlement that could be avoided by adjusting the prospective payment rate.

   (d) 1. If the latest available cost report data has not been audited or desk-reviewed prior to rate setting for the universal year beginning July 1, a prospective rate based on a cost report which has not been audited or desk-reviewed shall be subject to adjustment when the audit or desk review is completed.
   2. An unaudited cost report shall be subject to an adjustment to the audited amount after auditing has occurred.

   (e) 1. If the department has made a separate rate adjustment as compensation to a VA NF for a minimum wage update, the
VOLUME 40, NUMBER 11 – MAY 1, 2014

department shall:

b. Adjust downward the trending and indexing factors to the extent necessary to remove from the factors costs relating to the minimum wage updates already provided for by the separate rate adjustment.

2. If the trending and indexing factors include costs related to a minimum wage increase:
   a. The department shall not make a separate rate adjustment; and
   b. The minimum wage costs shall not be deleted from the trending and indexing factors.

(4) The department shall consider an adjustment to a VA NF’s prospective rate (subject to the upper payment limit) if:
   (a) The VA NF’s increased costs are attributable to:
       1. A governmentally imposed minimum wage increase, staffing ratio increase, or a level of service increase; and
       2. The increase was not included in the Global Insight Index;
   (b) A new licensure requirement or new interpretation of an existing requirement by the appropriate governmental agency as issued in an administrative regulation results in changes that affect all VA NFs; or
   (c) The VA NF experiences a governmentally-imposed displacement of residents.

(5)(a) The amount of any prospective payment rate adjustment resulting from a governmentally-imposed minimum wage increase or licensure requirement change or interpretation as cited in subsection (4) of this section shall not exceed the amount by which the cost increase resulting directly from the governmental action exceeds on an annualized basis the inflation allowance amount included in the prospective rate for the general cost area in which the increase occurs.

1. For purposes of this determination, costs shall be classified as either:
   a. Salaries; or
   b. Other.

2. The effective date of an interim rate adjustment shall be the first day of the month in which the adjustment is requested or in which the cost increase occurred, whichever is later.

(6) A year-end adjustment of a prospective rate and a retroactive cost settlement adjustment shall be made if:
   (a) An incorrect payment has been made due to a computational error (other than an omission of cost data) discovered in the cost basis or establishment of the prospective rate;
   (b) An incorrect payment has been made due to a misrepresentation on the part of a facility (whether intentional or unintentional);
   (c) A facility is sold and the funded depreciation account is not transferred to the purchaser; or
   (d) The prospective rate has been set based on unaudited cost reports and the prospective rate is to be adjusted based on audited reports with the appropriate cost settlement made to adjust the unaudited prospective payment amounts to the correct audited prospective payment amounts.

(7)(a) The department shall retroactively cost settle reimbursement for services.

(b) Retroactive settlement shall entail:
   1. Comparing interim prospective payments with the properly apportioned cost of Medicaid services rendered;
   2. A tentative cost report settlement based upon:
      a. Eighty (80) percent of any amount due the facility after a preliminary review is performed; or
      b. One hundred percent settlement of any liability due the department; and
   3. A final cost report settlement after the allowed billing period has elapsed for the dates of service identified within the cost report.
   (c) To be considered final, a cost report shall have been reviewed and approved by the department.

Section 5. Allowable and Non-Allowable Costs. (1) Nursing facility services costs shall be the direct costs associated with nursing facility services.

(2)(a) Except as provided in paragraph (d) of this subsection, interest expense used in setting a prospective rate shall be an allowable cost if:

      a. Represents interest on:

   (d) Interest on a principal amount used to purchase goodwill or other intangible assets shall not be considered an allowable cost.

(3)(a) The allowable cost for a service or good purchased by a VA NF from a related organization shall be the cost to the related organization unless it can be demonstrated that the related organization is an arm’s length party to the transaction.

(b) Except as provided in paragraph (c) of this subsection, an organization shall be considered a related organization if an individual possesses five (5) percent or more of ownership or equity in the facility and the supplying business.

   (c) How this administrative regulation conforms to the content
       of the authorizing statutes: The administrative regulation conforms
       to the content of the authorizing statutes by establishing DMS’s
       reimbursement provisions and requirements regarding Veterans’
       Affairs nursing facility services.
   (d) How this administrative regulation currently assists or will
       assist in the effective administration of the statutes: This
       administrative regulation will assist in the effective administration of
       the authorizing statutes by establishing DMS’s reimbursement
       provisions and requirements regarding Veterans’ Affairs nursing
       facility services.

(2) If this is an amendment to an existing administrative
    regulation, provide a brief summary of:
   (a) How the amendment will change this existing administrative
       regulation: This is a new administrative regulation.
   (b) The amendment to this administrative regulation: This is a new
       administrative regulation.
   (c) How the amendment conforms to the content of the
       authorizing statutes: This is a new administrative regulation.
   (d) How the amendment will assist in the effective
       administration of the statutes: This is a new administrative
       regulation.

(3) List the type and number of individuals, businesses,
    organizations, or state and local government affected by this
    administrative regulation: Veterans’ Affairs nursing facilities will be
    affected by the amendment. Currently, there are three (3) such
    facilities operating in Kentucky – the Eastern Kentucky Veterans’
    Center in Hazard, KY; the Thomson-Hood Veterans Center in
    Wilmore, KY; and the Western Kentucky Veterans’ Center in
    Hanson, KY. A fourth is scheduled to open in the autumn of 2015
    in Radcliff, KY.

(4) Provide an analysis of how the entities identified in question
    (3) will be impacted by either the implementation of this
    administrative regulation, if new, or by the change, if it is an
    amendment, including:
   (a) List the actions that each of the regulated entities identified
       in question (3) will have to take to comply with this administrative
       regulation or amendment: Any Veterans’ Affairs nursing facility
       which wishes to be reimbursed by the Kentucky Medicaid program
       must enroll with the Medicaid program by completing a provider
       agreement application and performing the actions required in the
       agreement. To be reimbursed for services VA nursing facilities will
       have to submit a cost report (documenting the facility’s cost) to the
       department annually.

   (b) In complying with this administrative regulation or
       amendment, how much will it cost each of the entities identified in
       question (3). No cost is imposed by the amendment; however, a
       facility will experience administrative cost related to staff time
       involved in completing Medicaid program provider agreement.

   (c) As a result of compliance, what benefits will accrue to the
       entities identified in question (3). Veterans’ Affairs nursing facilities
       will be benefit by being reimbursed for services provided to
       Medicaid recipients and on a cost basis.

   (5) Provide an estimate of how much it will cost to implement
       this administrative regulation:
   (a) Initially: The Kentucky Office of Veterans’ Affairs (KOVA)
       will provide the state matching funds necessary to procure federal
       Medicaid funds; thus, the Department for Medicaid Services (DMS)
       will experience no cost to implement this administrative regulation.
       DMS projects annual expenditures in aggregate for the three (3)
       existing Veterans’ Affairs nursing facilities in Kentucky to be
approximately $20.04 million ($6.01 million state funds/$14.03 million federal funds.)

(b) On a continuing basis: The response in (a) above also applies here.

(6) What is the source of the funding to be used for the implementation and enforcement of this administrative regulation: Federal funds authorized under the Social Security Act, Title XIX and state matching funds from general fund and restricted fund appropriations are utilized to fund the this administrative regulation.

(7) Provide an assessment of whether an increase in fees or funding will be necessary to implement this administrative regulation, if new, or by the change if it is an amendment. Neither an increase in fees nor funding is necessary to implement the amendment.

(8) State whether or not this administrative regulation establishes any fees or directly or indirectly increases any fees: The amendment neither establishes nor increases any fees.

(9) Tiering: Is tiering applied? Tiering is not applied as the provisions and requirements apply equally to all Veterans’ Affairs nursing facilities.

FEDERAL MANDATE ANALYSIS COMPARISON

2. State compliance standards. KRS 205.520(3) authorizes the cabinet by administrative regulation, to comply with a requirement that may be imposed or opportunity presented by federal law for the provision of medical assistance to Kentucky’s indigent citizenry.

3. Minimum or uniform standards contained in the federal mandate. 42 U.S.C. C 1396a(a)(30)(A) requires a state’s Medicaid program to “provide such methods and procedures relating to the utilization of, and the payment for, care and services available under the plan (including but not limited to utilization review plans as provided for in section 1396b(i)(4) of this title) as may be necessary to safeguard against unnecessary utilization of such care and services and to assure that payments are consistent with efficiency, economy, and quality of care and are sufficient to enlist enough providers so that care and services are available under the plan at least to the extent that such care and services are available to the general population in the geographic area.” 42 U.S.C. 1396a(a)(13)(A) requires “a public process for determination of rates of payment” for nursing facility services and services for intermediate care facilities for individuals with an intellectual disability. 42 C.F.R. 447.204 requires Medicaid programs’ reimbursement to be “sufficient to enlist enough providers so that services under the plan are available to beneficiaries at least to the extent that those services are available to the general population.”

4. Will this administrative regulation impose stricter requirements, or additional or different responsibilities or requirements, than those required by the federal mandate? This administrative regulation does not set stricter requirements.

5. Justification for the imposition of the stricter standard, or additional or different responsibilities or requirements. Neither stricter nor additional standards nor responsibilities are imposed.

FISCAL NOTE ON STATE OR LOCAL GOVERNMENT

1. What units, parts or divisions of state or local government (including cities, counties, fire departments, or school districts) will be impacted by this administrative regulation? The Department for Medicaid Services and the Kentucky Department of Veterans’ Affairs will be affected by this administrative regulation.

2. Identify each state or federal regulation that requires or authorizes the action taken by the administrative regulation. This administrative regulation and 42 C.F.R. 447.204 authorize the action taken by this administrative regulation.

3. Estimate the effect of this administrative regulation on the expenditures and revenues of a state or local government agency (including cities, counties, fire departments, or school districts) for the first full year the administrative regulation is to be in effect.

(a) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for the first year? The amount of revenues that the Veterans’ Affairs nursing facilities in Kentucky will receive as a result of this administrative regulation is indeterminate due to the associated variables. A given facility’s reimbursement will be based on their Medicaid allowable costs and that won’t be accurately known until a facility experiences a full year of costs. Costs will depend on utilization including the number of Medicaid recipients receiving services during the state fiscal year from the given facility. Another variable is how soon a given facility enrolls in the Medicaid program.

(b) How much revenue will this administrative regulation generate for the state or local government (including cities, counties, fire departments, or school districts) for subsequent years? The response in (a) above also applies here.

(c) How much will it cost to administer this program for the first year? The Kentucky Office of Veterans’ Affairs (KOVA) will provide the state matching funds necessary to procure federal Medicaid funds; thus, the Department for Medicaid Services (DMS) will experience no cost to implement this administrative regulation. DMS projects annual expenditures in aggregate for the three (3) existing Veterans’ Affairs nursing facilities in Kentucky to be approximately $20.04 million ($6.01 million state funds/$14.03 million federal funds.)

(d) How much will it cost to administer this program for subsequent years? The response to question (c) above also applies here.

Note: If specific dollar estimates cannot be determined, provide a brief narrative to explain the fiscal impact of the administrative regulation.

TOURISM, ARTS AND HERITAGE CABINET: Department of Fish and Wildlife Resources: Fish

301 KAR 1:155. Commercial fishing requirements. Ron Brooks, fishery division director, and Karen Waldrop, wildlife division director, represented the department. Landon Garrison, sports angler, appeared in support of this administrative regulation. David Cottrell, Richard Elliot, Albert Kinsley, and James Reed, commercial fishermen; Alford Gibson, fisherman; and George Tapp, pay lake owner, appeared in opposition to this administrative regulation.

In response to questions by Representative Turner, Mr. Brooks stated that the department held preliminary stakeholder meetings before receiving the biological data on which the new size limits were based. Those preliminary meetings were intended to be a starting point, not a firm agreement, and the size limits discussed at those meetings, including the “four (4) over forty (40)” limit, were not intended as a policy agreement. The second of the stakeholder meetings included an agreement by the department to conduct a five (5) year biological study; however, that study was not intended to be completed prior to an administrative regulation amendment. At the third stakeholder meeting, the department submitted a draft of the proposed administrative regulation amendment and requested stakeholder comments on the proposal. The matter was further discussed at the public fisheries meeting, and there was additional opportunity to submit comments during the public comment period conducted pursuant to KRS Chapter 13A. Biological data demonstrated a decrease in fish size around the Cannelton part of the Ohio River waterway. The proposed administrative regulation amendment represented a compromise between stakeholders and the department. Most commercial fishing in the Cannelton area of the Ohio River waterway was for fish transfer to area pay lakes.

In response to questions by Representative Turner, Mr. Reed stated that most commercial fishermen believed that the “four (4) over forty (40)” limit was a firm agreement made with the department. The commercial fishermen believed that would be the limit for the entire Ohio River waterway, not that there would be a different limit for the Cannelton area. Mr. Brooks stated that commercial fishermen above the Cannelton area dam were in agreement with this administrative regulation amendment, but commercial fishermen above the Cannelton area dam were not in agreement. Biological data demonstrated that fish above the Cannelton area dam were not replenished as readily and were less likely to migrate.

In response to a question by Senator Kerr, Mr. Brooks stated that the department was mandated to protect the fish resources.

Mr. Reed stated that the pay lake industry was essentially the only viable commercial fishing left in Kentucky. The pay lake industry brought trophy catfish popularity to Kentucky. Pay lake owners had made significant investments, and this administrative regulation amendment was overburdensome. Biologists did not supply sufficient data to support this administrative regulation amendment. The size limit would cause commercial fishermen to throw back approximately seventy (70) percent of each catch. This administrative regulation amendment would effectively shut down approximately 400 miles of waterway and jeopardize commercial fishing jobs and revenue.

Mr. Gibson stated that the only remaining viable industry for commercial fishermen in Kentucky was pay lakes because thirty (30) years ago the administration advised consumers not to eat channel catfish because of contamination.

In response to questions by Co-Chair Bell, Mr. Gibson stated that Cannelton area commercial fishermen were not aware of some of the stakeholder meetings and did not know there was a spokesperson who represented them. Mr. Cottrell stated that the commercial fishing industry dated to before George Washington’s time. Commercial fishermen kept fish populations in balance, and jeopardize commercial fishing jobs and revenue.

Mr. Gibson stated that the only remaining viable industry for commercial fishermen in Kentucky was pay lakes because thirty (30) years ago the administration advised consumers not to eat channel catfish because of contamination.

In response to questions by Co-Chair Bell, Mr. Gibson stated that Cannelton area commercial fishermen were not aware of some of the stakeholder meetings and did not know there was a spokesperson who represented them. Mr. Cottrell stated that the commercial fishing industry dated to before George Washington’s time. Commercial fishermen kept fish populations in balance, which improved the sport of fishing. The James River in Virginia established policies similar to those in this administrative regulation, and the effect on fishing was negative because fish populations became unbalanced. Mr. Garrison stated that this was a situation of the “tragedy of the commons.” Sport fishermen wanted to protect the resource. Tournaments brought in revenue, but appropriately sized fish populations had become depleted.

In response to a question by Representative Lee, Mr.
Garrison stated that sports anglers caught, photographed, and returned fish. Mr. Brooks stated that the issue of concern was not that of overfishing, except pertaining to trophy-sized catfish. The department tried to reach all stakeholders for comments. Biological data was used to restrict only fishing requirements in the depleted area. Illinois, Indiana, Ohio, and Kentucky all contributed data for the biological reports. The issue of concern was that public fish populations would be damaged for private financial gain. Mr. Reed stated that, for the commercial fishing industry to remain viable, a market had to exist. The only current viable market was the pay lake industry. Twelve (12) percent of fishing licenses were pay lake-related. This administrative regulation amendment would destroy livelihoods without sufficient biological evidence supporting the department’s position.

A motion was made and seconded to approve the following amendments: to amend Sections 1, 4 through 8, 10, 11, and 14 to comply with the drafting and formatting requirements of KRS Chapter 13A. Without objection, and with agreement of the agency, the amendments were approved.

In response to a question by Senator Gregory, Mr. Nold stated that this administrative regulation did relate to the Affordable Care Act.

A motion was made, without a second, to find this administrative regulation deficient based on lack of statutory authority. Because there was not a second, the motion failed.

A motion was made and seconded to approve the following amendments: (1) to amend the RELATES TO and NECESSITY, FUNCTION, AND CONFORMITY paragraphs and Sections 1, 2, and 13 to correct statutory citations; and (2) to amend Sections 4, 7, and 10 to comply with the drafting and formatting requirements of KRS Chapter 13A. The Locator Index lists all administrative regulations published in VOLUME 40 of the Administrative Register of Kentucky from July 2013 through June 2014. It also lists the page number on which each administrative regulation is published, the effective date of the administrative regulation after it has completed the review process, and other action which may affect the administrative regulation. NOTE: The administrative regulations listed under VOLUME 39 are those administrative regulations that were originally published in VOLUME 39 (last year's) issues of the Administrative Register of Kentucky but had not yet gone into effect when the 2013 Kentucky Administrative Regulations Service was published.

KRS Index

The KRS Index is a cross-reference of statutes to which administrative regulations relate. These statute numbers are derived from the RELATES TO line of each administrative regulation submitted for publication in VOLUME 40 of the Administrative Register of Kentucky.

Technical Amendment Index

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2013 Kentucky Administrative Regulations Service. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10) or 13A.312(2). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published in the Administrative Register of Kentucky.

Subject Index

The Subject Index is a general index of administrative regulations published in VOLUME 40 of the Administrative Register of Kentucky, and is mainly broken down by agency.

The Technical Amendment Index is a list of administrative regulations which have had technical, nonsubstantive amendments entered since being published in the 2013 Kentucky Administrative Regulations Service. These technical changes have been made by the Regulations Compiler pursuant to KRS 13A.040(9) and (10), 13A.312(2), or 13A.320(1)(d). Since these changes were not substantive in nature, administrative regulations appearing in this index will NOT be published to show the technical corrections in the Administrative Register of Kentucky. NOTE: Finalized copies of the technically amended administrative regulations are available for viewing on the Legislative Research Commission Web site at http://www.lrc.ky.gov/home.htm.
